"The Boxers pursued the British for some distance. They, seeing more marines from the train coming to their assistance, Major Johnson's 16 halted and poured a heavy, continuous fire into the crowd, driving them across the front of the re-enforcing bluejackets, who punished the Boxers severely with Maxims.

The Boxers fled, and the Europeans, following up their success, cleared out two villages. The total loss of the Boxers is estimated at 40 killed and wounded. Seven of their wounded were attended by British surgeons. The British loss was nothing.

"Unless their loss causes the Boxers to lose heart the international column will have much trouble before it reaches Peking. The railway is so much damaged that the column only covered 34 miles Sunday and Monday, and there is reason to fear that the road beyond is more badly damaged.

"Evidences of General Nieh's operations were found in headless bodies. The whole country presents a desolate aspect, entire villages having been deserted.

"The expedition numbers 2,044, as follows:

"British, 915; Germans, 250; Russians, 300; French, 128; Americans, 104; Japanese, 52; Italians, 40, and Austrians, 25."

MORE TROOPS LAND.

No Communication With Peking. Boxers Attack a Convent.

TIEN-TSIN, June 13.—One hundred and sixty-three British landed Monday evening. An additional 20 British have been sent to Fong-shan.

Yesterday morning a special train left Tien-tsin for Yang-tsun to bring General Nieh to consult with the viceroy.

Telegraphic communication with Peking is still interrupted.

The Russian warships Petropaulovski and Komiloff are at Taku bar, and the Russian torpedo boats 103 and 107 are in the river Taku. Want of transport prevents the Russians from landing troops. The Russians were very active here yesterday.

It is rumored that General Fung Fah Siang, with many thousand troops, is at Feng-tai.

The latest news from Pao-ting-fu is that the Boxers, 6,000 strong, are attacking the Catholic convent there. The situation is critical, and the officials are evidently inactive.

The United States warships Nashville and Monacacy are expected at Taku.

Wisconsin Democrats.

MILWAUKEE, June 13.—Bryan sentiment pervaded the Democratic state convention held yesterday to elect four delegates at large and to ratify the selection of 20 district delegates to the national convention at Kansas City. Not until three sessions were held did the convention complete its business at 10 o'clock last night, the afternoon and evening sessions being characterized by spirited though friendly contests. The following is a list of delegates at large: Davis S. Rose, Milwaukee; George B. Hilton, Oshkosh; D. L. Plumer, Wausau, and Louis Bohmricks, Kenosha. Alternates: T. J. Fleming, Milwaukee; George W. Bird, Madison; C. L. Hood, Lacrosse, and T. C. Cleany, Platteville.

Senator Wetmore Re-elected.

PROVIDENCE, June 13.—The general assembly in adjourned session yesterday by separate ballot elected George Peabody Wetmore, the present Republican incumbent, as senator over Samuel R. Honey of Newport, the Democratic candidate. The election was completed today at noon, when the house and senate met in grand committee and balloted for the candidates. The house voted to submit to the people an amendment to the constitution providing for the abolishment of Newport as one of the state capitals. Resolutions expressing sympathy for Lieutenant Governor Kimball, who was injured in Sunday's electric car accident at Warwick, were passed by both branches.

McGovern Knocks Out White.

NEW YORK, June 13.—Terry McGovern, the little Brooklyn wonder, fully lived up to his title of featherweight champion at the Seaside Athletic club last evening by knocking out Tommy White, the clever Chicago boxer, in three rounds. The little champion never showed better form and gave his opponent no rest from the sound of the gong in the opening round until the referee had counted off the fatal ten seconds.

Noted Woman Dead.

BOSTON, June 13.—Lucretia Peabody Hale is dead in her eightieth year. She was the oldest surviving sister of Rev. Edward Everett Hale, D. D., and, like him, was a writer of note. Miss Hale was deeply interested in educational work and the charities of this city. In a great measure it is indebted to her for the present movement in regard to vacation schools, the teaching of sewing and morals in the public schools.

ESTATE of William Lewis Brown, deceased. Pursuant to the order of George T. Parrot, Surrogate of the County of Union, made on the application of the undersigned, executor of said deceased, notice is hereby given to the creditors of said deceased to exhibit to the subscriber under oath or affirmation their claims and demands against the estate of said deceased within nine months from the eighteenth day of April, 1900, or they will be forever barred from prosecuting or recovering the same against the subscriber.

ALBERT AUGUSTUS HOLLY,
5 29 oaw Executor.

Notice of Order to Limit Creditors.

SOMERSET COUNTY SURROGATE'S OFFICE.

Estate of Frank C. Hopkins deceased Notice is hereby given, that on the tenth day of May A. D., 1900, on the application of the undersigned, as Administratrix of Frank C. Hopkins deceased; an order was made by H. N. SPENCER, Surrogate, requiring the creditors of Frank C. Hopkins deceased, to bring in their debts, demands and claims against the said decedent, under oath or affirmation, and present the same to the subscriber within nine months from the date of said order; and in default thereof any such creditor should be forever barred of his or her action therefor against the subscriber.

BRIDGE WORK in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

August Wolff, of the borough, spent yesterday in Trenton visiting relatives.

Mrs. Fred Haberle, of West Front street, has been visiting Brooklyn friends.

Miss Edith Hurlbut, of West Front street, has returned from a pleasant stay at Stirling.

Miss Eleanor Williams, of Philadelphia, is visiting Plainfield friends for a short time.

Mr. and Mrs. Thomas E. Currin, of the borough, are entertaining company from Princeton.

Walter Dreier, of West Front street, is considered to be slightly improved from a serious illness.

Mr. and Mrs. Herman Schwed, of the borough, are entertaining relatives from Philadelphia.

Mr. and Mrs. W. O. Chapman, formerly of Albert street, will soon take up their residence in New York.

There is an improvement noticed in the condition of Joseph Darby, of Dog Corners, who is very ill with rheumatism.

Miss Sophie Brower, of the Babcock building, left yesterday for Oswego, N. Y., attend the annual reunion of the alumni of the Oswego Normal School.

Miss Marion Randolph, of East Front street, has gone to Oswego, N. Y., where she will attend the annual reunion of the alumni of the State Normal School at that city.

Rev. Mr. Shelland and Mrs. Shelland, nee Miss Julia Bulkley, formerly of this city, who were married a few days ago, sailed yesterday for Europe, where they will spend the summer.

Among the guests at the Bushmore-Patterson wedding yesterday afternoon were Mr. and Mrs. Edward Perrine, of New York. Mr. Perrine formerly resided in this city, and was a student at the public school.

A VALUABLE PUBLICATION.

The Pennsylvania Railroad 1900 Summer Excursion Route Book.

On June 1 the Passenger Department of the Pennsylvania Railroad Company will publish the 1900 edition of its Summer Excursion Route Book. This work is designed to provide the public with descriptive notes of the principal Summer resorts of Eastern America, with the best routes for reaching them, and the rates of fare. It contains all the principal seashore and mountain resorts of the East, and over seventeen hundred different routes or combinations of routes. The book has been compiled with the greatest care, and altogether is the most complete and comprehensive handbook of Summer travel ever offered to the public.

The cover is handsome and striking, printed in colors, and the book contains several maps, presenting the exact routes over which tickets are sold. The book is profusely illustrated with fine half-tone cuts of scenery at the various resorts and along the lines of the Pennsylvania Railroad.

On and after June 1 this very interesting book may be procured at any Pennsylvania Railroad ticket office at the nominal price of ten cents, or, upon application to the general office, Broad Street Station, by mail for twenty cents. 6 6 13

—Tomorrow evening a special programme of music will be given at Reform Hall.

—The work of macadamizing Watchung avenue at the upper end was started yesterday.

—Joe Johnson, with Drake & Mundy, has the finest assortment of fresh vegetables in Plainfield.

—The Primary and Junior Teachers' Union did not decide last Monday just when the annual picnic would be held. The question will probably be settled next week.

—Alex. Lusardi, the fruit dealer, of 211 West Front street, has just received a large invoice of pure olive oil from Lucca, Italy. He also has an entire stock of all kinds of fresh fruit.

—The Christian Endeavor Society of the First Baptist church will hold no meeting Friday evening, but will attend the missionary meeting at the Crescent Avenue church, where Dr. Paton, a missionary, will give an address.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

COPYRIGHT 1900 BY THE PROCTER & GAMBLE CO. CINCINNATI

THE PROBLEM.

DOROTHY in the nursery can calculate the price of Ivory Soap per cake, but it would take a mathematical genius to calculate its true value. For he must take account of time, labor, and materials. He must deduct from the apparent cost the saving in the longer life of the cake, in the longer life of the washed fabric, in the labor required, in the time consumed, in the strength expended, in the results obtained. When all is finished, Ivory is the cheapest soap in the world. It floats.

OHIO DEMOCRATS.

McLean Men Seem to Have Control at State Convention.

COLUMBUS, O., June 13.—The McLean men controlled the preliminary meetings of the Democratic state convention yesterday, but they are evidently playing for harmony more than for places and may not carry out the same programme today.

When John R. McLean was the candidate for governor last year his friends were placed on the state central and executive committees. His friends are in the majority on the new state central committee, and it will select the campaign committee and members of the state executive committee. It is claimed that the McLean men in securing control of the party organization for another year have all they wanted, and, although they could control everything, they also have majorities on the convention committees. The McLean men are not opposing some aspirants for delegates to Kansas City and for state nominations who have heretofore been strongly opposed to Mr. McLean. This is especially noticeable in their support of George W. Hull of Toledo for delegate at large and H. H. McFadden, editor of the Steubenville Gazette, for secretary of state.

The opposition to McLean comes from silver extremists who suspect that their state standard bearer of last year was at one time in touch with some Democratic leaders of the east who were considering the advisability of some other candidate than Bryan. Although documentary and other evidence has been produced to show the most intimate and cordial relations between Bryan and McLean, yet the ultra elements are opposed to any one who ever thought of any other candidate but Bryan for president or of any modification of the Chicago platform. Even the talk about Dewey for second place on the ticket with Bryan does not fully satisfy them.

ST. LOUIS STRIKE.

More Cars Running—No New Developments.

ST. LOUIS, June 13.—There are no important developments in the street car strike situation. The transit company claims to have the situation practically under control by reason of the protection afforded by the police department and the sheriff's posse. It is stated by the company's officials that cars are running on every line in the city, going above the regular schedule in some cases, and in all meeting the demands of traffic.

More men are now employed by the company than there is work for, according to Manager Baumhoff, and the force is being constantly re-enforced. Night cars are running on all lines on about the usual schedule. Lines to the north and south are still guarded by police, but in the central and western portions there has been no trouble, and the police have been in a great measure withdrawn from the cars. This permits the strengthening of the force along the southwestern and southern districts.

The Southern Electric line was in operation last night for the first time since the strike began. This line is regarded in police circles the most difficult of all the lines to protect. This line traverses the districts where two weeks ago seven persons were wounded by bullets in one day.

POLITICS IN SANTIAGO.

Meetings Held Nightly—Eagle's Survey Work Nearly Done.

SANTIAGO, Cuba, June 13.—Political meetings are held nightly in anticipation of Saturday's election, but there is comparatively little excitement. The Democratic party, being the only one that has an effective organization, will undoubtedly carry the city.

In the rural districts there is much talk, but little organization, and the result there is doubtful. No trouble, however, is anticipated anywhere.

The United States gunboat Eagle, Commander Fletcher, arrived yesterday morning, having made a record in the survey of Guama harbor, a task accomplished in seven days. She will leave today for Gibara, proceeding thence for New York, where she expects to arrive in ten days.

Since November the Eagle has been continuously engaged in the work of harbor survey. She has surveyed the harbors of Nuevitas, Gibara, Vita and Guama. Officers and men are delighted at the prospect of returning home.

SCHLEY SAYS NO.

Would Not Accept a Nomination For Vice President.

PHILADELPHIA, June 13.—The Times today says editorially:

"The name of Rear Admiral Schley has been repeatedly suggested as in the list from which the Democrats would be likely to choose their candidate for president or vice president, but all who know the views of Rear Admiral Schley uniformly declare that such use of his name was not only unwarranted, but against his own distinctly expressed wishes and purposes. He was specially careful before going to sea in command of the south Atlantic squadron to declare to his friends that under no circumstances would he consent to become a political candidate.

"Notwithstanding the publicity given in these repeated and emphatic declarations of Rear Admiral Schley he has been frequently discussed as a candidate for the vice presidency on the ticket with Bryan. The expression from the rear admiral of refusal to accept public office has just been repeated by him in a private letter to the editor of The Times, dated Rio Janeiro, May 15, from which the following extract is taken:

"'Your editorials touching the talk of placing me in nomination with Mr. Bryan reflect precisely what my views are. I know nothing of politics nor of political life, and under no circumstances would I allow the use of my name before any convention for any office whatever. I have passed the age when presidential or any other kind of bees worry me. I know nothing of the duties of any political office and am fully content to live the years yet left me in quiet retirement from the turmoil of any office. I am resolved irrevocably not to accept any nomination if it were tendered, and if in my absence I should be elected I would not serve.'"

TOWN FOUNDER DEAD.

C. K. Landis Started Temperance Settlements In New Jersey.

NEW YORK, June 13.—Charles K. Landis, the town founder, is dead at his home in Vineland, N. J., of paralysis. His death had been hourly expected for several days. He was the founder of Vineland, Hammonton, Landisville, Sea Isle City, New Italy and other smaller south Jersey towns.

Mr. Landis was born in Philadelphia on March 16, 1834. His early days were spent in Georgia, where his father was constructing railroads. He returned to Philadelphia and was educated there. He entered the law office of Benjamin H. Brewster and was admitted to the bar before he had reached his majority, but two years later ceased to practice.

He became interested in land schemes and purchased 3,000 acres of land, locating Hammonton on this ground. He sold the land to actual settlers, and it was made a condition of every deed as one of the restrictions that liquor should never be sold upon the lot, the conditions to be strict and binding forever.

Mr. Landis in 1861 purchased a tract of 50 square miles of land, and on this Vineland and its surrounding villages have been built. He started Sea Island City as a temperance seaside resort and New Italy a farming settlement for Italians.

Relief For Kumassi Hindered.

ACCRA, Gold Coast, June 13.—Details have been received here of another serious reverse to the relief column under Colonel Carter and Major Wilkinson, a day's march north of the Prah. There were heavy casualties. The latest rumors report a further disaster to a detachment on the north bank of the Prah, which is now flooded and where the Ashantis were found strongly intrenched. Colonel Willcocks' advance has been delayed by rains which have destroyed the bridges on the Prahsu road. The continued absence of news from Kumassi tends to confirm the pessimistic views as to the safety of the governor and his staff. The coast towns are apprehensive of their own safety. The British gunboat Magpie, stationed at Accra, is the sole protection for the coast.

American Coal In Germany.

BERLIN, June 13.—The Rochester and Pittsburg Coal and Iron company has established at Leipsic a general agency for Europe and will offer immediately 100,000 tons of bituminous coal at a price making importation possible. The Aachen Association of Employers of Textile Workers has voted to discharge 10 per cent of the weavers owing to lack of work.

COMING EVENTS.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 6—Y. M. C. A Boys' Camp at Lake Champlain.

Republican Plans in New Jersey.

The Republicans have taken the initiative in New Jersey towards activity in the State this coming fall. Yesterday the Republican State committee met in Trenton and fixed Thursday, September 6th, as the date for holding the convention for the nomination of Presidential electors. The State convention usually marks the formal opening of a campaign in New Jersey, but the Republican leaders are determined to do more than that this year. It was decided to commence a literary campaign at once and continue it energetically throughout the warm weather.

State Chairman Franklin Murphy was not formally re-elected yesterday, as it was held that under the rules he held over. Senator E. D. Stokes was elected vice chairman, to succeed Major Anderson, who declined another term. Secretary Augustus S. Barber and Treasurer William Riker were both re-elected. Chairman Murphy was empowered to appoint an executive committee, a finance committee and a committee to draft resolutions properly recognizing Major Anderson's twenty-three years of service as a member of the State executive committee.

Charles N. Robinson, of Camden, was elected as the representative of the colored Republicans of the State committee, and R. Henri Herbert, of Trenton, and Alfred B. Cosey, of Newark, were elected auxiliary colored representatives on the committee. Newark was selected as the committee's headquarters for the impending campaign.

After more than a year's fight Major Carl Lentz, the doughty Republican leader of Essex county, has come out triumphant from the movement to disbar him for alleged unprofessional conduct as a lawyer. There was probably some politics in the movement, for the Major's leadership in his county has not always aroused the warmest feelings of admiration from all the factions. Therefore the Supreme Court decision dismissing the disbarment proceedings will not be received with joyful acclaim by the Major's earnest opponents, but his sturdy followers will raise their voices in hallelujahs and the Major will continue to wield the sceptre as Republican county chairman.

General Otis has already been secured by the periodical publishers and in an article by him in the forthcoming number of Leslie's he says: "We cannot get along with any fewer troops than we have in the islands (the Phillippines) at present, for a number of years." He also says the cost of maintaining this army is and will continue about $120,000 a day, or $47,450,000 a year.

Justice J. Franklin Fort, who was recently promoted from the Essex County Circuit Court to the Supreme Court, seems to have a proper regard for the fact that the judiciary should not be mixed up in politics, and as a consequence he has resignod the position of president of the East Orange Republican Club, which office he has filled for several years.

The New Jersey delegates to the National Democratic Convention will meet in Jersey City today and elect a chairman. Representative Daly is the choice of Robert Davis and will probably be chosen.

Tomorrow will be "Flag Day." This will be the one-hundred and twenty-third anniversary of the adoption of the Stars and Stripes as the emblem of the United States.

—At the only sea food market we handle nothing but products of the sea. Rogers.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

An important decision by the Supreme Court affects the taxation of banks. The Mechanics' Bank, of Trenton, claimed a reduction in the tax assessment by the local board on the ground that the assessors had included in the valuation some non-taxable securities held by the bank. The court, in its opinion, holds that in reaching the taxable value of shares of stock no allowance can be made for non-taxable securities which form a part of the bank's assets. The assessors had placed a value on the stock based upon the capital stock, surplus and undivided profits. The case will be taken to the Court of Errors.—Newark Advertiser.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

One of the oldest settlements in Middlesex county is Piscatawaytown. It was so named after a tribe of Indians that once had wigwams there, and if it were not for the fact that it boasts one of the oldest Episcopal churches in the State it is doubtful if it would attract any more attention than a score of other towns. As it is, visitors frequently go there to see the old village church and to examine the moss-covered tombstones in the graveyard nearby.

More interesting indeed than the church itself are the churchyard and its tombstones, many of them bearing the quaintest of epitaphs. Hours might be spent there deciphering the date upon stones over graves that were filled a century and a half ago, and collecting the various examples of obituary verse that the place affords in such profusion. Many of the oldest ones are fallen and so eaten by time and weather that it is impossible to trace more than a letter here and there. The churchyard is of great size, and is the last resting place of many founders of families that are still numerous and strong in the county—the Dunhams, the Martins, the Langstaffs, the Platts and the Stelles. And some, like the Woolleges, are extinct.

Upon the tomb of Martha, daughter of John Langstaff, who died in 1817, aged eighty-two years, appear these lines:

"Afflictions sore,
Long time I bore;
Physicians' arts were vain.
Till death did cease.
And God did please
To ease me of my pain."

Here is another:

"In memory of that pious man of God, Mr. James Platt, released from the sorrows of this life September 22, 1779 age 78.

"My lonesome days are past,
The earth is now my bed;
But hope with Jesus Christ to live,
When He shall raise the dead."

Experience S. Dunn has this to say to posterity through her tombstone:

"I have left a vain world of sorrow and pain.
My spirit is wafted with Jesus to reign.
To join that grand throng in heaven above,
Receive a bright crown and bask in His love."

Inscribed upon the tombstone of James Thompson, who died in 1763, aged seventy-one years, is the following:

"Remember, friend, as you pass by,
As you are now so once was I;
In health and strength; tho' here I ly.
As I am now, so you must be:
Prepare for death and follow me."

For many years there was in the churchyard a stone which stated that the two boys who rested in the grave beneath it owed their death to the fact that they had failed to attend Sunday-school. It set forth that the boys went into a field and ate mushrooms, which were turned to poisonous herbs by an angry deity. The stone, however, has disappeared. It is supposed to have been stolen by curiosity-seekers.

—Your eyes may be the cause of your headache and neuralgia. Call and have them examined by Stiles & Co., eye specialists, at 107 East Front street, tomorrow, Thursday. Hours: 10:30 to 4.

Local News on Pages 2 and 3.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15c. and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style glass-finish machine. Have you heard about our new turn-down collar shape? No? Well, try it: no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
120 East Front Street.

BABCOCK BUILDING.
Studio Rooms 404-5.

"FLOWERY -:- -:- KINGDOM."

That's the brand of the best China Matting imported. Of extraordinary weight, heavy straw warp, small neat patterns, bright clear colors, it is not only attractive in appearance but possesses wonderful durability. Price is 29c yd. or 10.50 per roll of 40 yds. The sale for it in this city is confined to us. We have a special lot cotton warp Japanese Matting at 21c per yd., the real value of which is 25c. A real bargain, but the quantity is limited and will last but a few days.

PIAZZA GOODS are now in demand. We sell the new Grass Twine Matting for piazzas and it answers the purpose beautifully. We have the Matting Rugs in patterns for the same purpose as well. We also make to order Piazza Rugs of Cocoa Matting and finish with rubber ends. Any size made at short notice. They are strong and save the wear on piazzas greatly.

A whole carload of Trunks. We buy them by the carload in order to secure the lowest possible price. Few concerns in the State sell so many trunks. Everything desirable in the way of Trunks may be found here. All are splendidly made and attractive in appearance. They are canvas covered, leather bound, brass trimmed, good locks and have strong strap hinges. Prices range from 2.98 to 25.00. A full assortment of strong, trim little steamer trunks, too. Goods are shown in Basement of our Carpet Store at 246 West Front Street.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence to The Press.)

Dunellen, June 13.—What at first appeared to Henry Garretson to be only a temporary disablement of his hand caused by scratching his finger with a rusty nail, has now turned out to be a bad case of blood poisoning. The old wound has healed up but the hand is greatly swollen and he suffers excruciating pain. Dr. Hedges, of Plainfield, has the case in charge and hopes to bring the sufferer around with out any serious results.

Mr. and Mrs. J. F. Seaman, of Rock avenue, were very pleasantly surprised Saturday by a visit from their two sons, Frank, of Waterbury, Conn., and Edward, of New York. Saturday was the fiftieth anniversary of Mr. and Mrs. Seaman's wedding, but they had not made any preparations to celebrate it. The sons had not forgotten the date, however, and planned their visit for a surprise in honor of the day.

The dangerous practice which the boys have been indulging in of late, of catching on the trolley cars, has come under the notice of the railway officials and a complaint has been made to Marshal Rhinehart. The cars will be watched closely hereafter and a repetition of the dangerous sport will result in arrests.

Measles have taken quite a hold on Isaac Stites' children. Two of the youngest have just recovered from them and now a third child has succumbed to at attack.

Superintendent Messeroll attended the commencement exercises of Peddie Institute of which he is a graduate at Hightstown yesterday,.

The Epworth League of the Methodist church will give a sociable at the residence of Mrs. John Kenney tomorrow night.

At the conclusion of the meeting of W. G. Holton Council Monday night a collation was served to the members.

The residence of John H. Peters was connected with the water mains by George F. Giles, yesterday.

The Dunellen ball nine will play a team from Somerville on the Lincoln avenue grounds Saturday.

Advertised letters remain in the postoffice for E O. Brown and Mrs. James Manee.

Ellis Carman is the latest victim of the measles, which attacked him yesterday.

Lud Frazee is now at work painting the residence of Herbert Williams.

William H. Terry spent yesterday with relatives in Brooklyn.

J. P. Cruser visited his mother at Neshanic, Monday.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 13.—The sole topic of converation in New Market today is that of the school commencement which is to be held in the Baptist church tonight. A fine programme has been arranged consisting of musical selections recitations and addresses by Rev. Frank Fletcher, Rev. T. E. Davis, of Bound Brook, Rev. S. K. Doolittle, and if his health will permit it, Rev. Martin Sindall. State Superintendent Baxter is also expected to be present. There will be seventeen graduates.

A pleasant surprise party was tendered to Mrs. Robert L. Pierce Monday night, by a number of her friends. A pleasant evening was passed in singing and listening to musical selections.

It is hoped by the residents of the village that the Lehigh crossing will be repaired in order to avoid a repetition of the accident that befell A. T. Nelson's horse.

Fishing in the pond is more popular this year than it has been for some time. Hardly a day passes but what there are some fine catches of bass made.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 13.—The commencement exercises of the public school will be held in the Baptist church this evening at 8 o'clock. At the close of the exercises in the church the graduating class will entertain their friends at a reception to be held in the assembly room of the school. The graduating class of 1900 is composed of Leonard McAnney, valedictorian; Miss Bertha Eller, Miss Christine Bettman, Miss Madeline Robinson and Clinton Hall.

The small depredations which are being committeed in town, such as stealing fruits, and etc., are being carried too far and those who are suffering from these acts, which is evidently the work of boys, are vowing vengeance. Rev. G. M. Shott is the latest victim. While Mr. Shott and family were attending the festival in Excelsior Hall Monday evening, some one took advantage of the occasion and entered his strawberry patch. Not satisfied with eating what berries they could they tore up a number of the vines which ruined them. They also went to his patch of green beans and pulled a number of these and threw them about the garden. Certain parties are suspected and if Mr. Shott or any one else can catch them right it will no doudt be made warm for them.

The fair given under the auspices of St. Mary's R. C. church, of Stony Hill, opened in Excelsior Hall last evening with encouraging success, as the attendance was very good for a first night. The hall had been changed from a dreary room into a bright and cheerful spot by the use of bunting, flowers and the bright faces of the pretty saleladies in charge of the several tables. During the evening dancing was enjoyed by the younger set. Several contests are on and the ladies hope to realize a snug sum by their efforts. The fair will be continued this evening and tomorrow evening.

The merry-go-round located on Front street, is doing quite a business during these warm evenings, and the young folks are enjoying the amusement. While the neighbors do not object to the merry-go-round itself, still they think that the music is far from pleasant and could be dispensed with very nicely.

Miss Florence D. Kyte, of Fanwood, is a member of the graduating class of Barnard College, New York, whose exercises were held yesterday afternoon. The class will receive diplomas today at the commencement exercises of Columbia University.

The death of Harry A. Illsley, whose parents live in this town, occurred yesterday at his hotel in Union. He was twenty-five years of age. The funeral will take place from his late home in Union tomorrow afternoon at 2 o'clock.

Fanwood Council, R. A., held a large and interesting meeting in their rooms last evening. A pleasant visit was enjoyed from Supervising District Deputy Messick, of Cranford.

Mrs. George A. Clark and son are spending a week with relatives at Hazlet, this State.

Mrs. Lee, of Orange, is visiting at the home of her sister, Mrs. Billing, of Bartle avenue.

WESTFIELD

(Special Correspondence to The Press.)

Westfield, June 13.—Now that violations of the bicycle ordinance are getting scarce the Westfield policemen are giving attention to breaking up crap shooting parties. Officer Wilcox had a lively chase after several parties Sunday night, but they managed to elude him.

The Garwood Land Company has finished grading East Park street, on its Westfield addition, and several houses are to be erected there at once.

The Roselle Casino ball team is open to engagements for games and will accommodate any team, with open dates.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 13—Two of McDonough's new houses are about completed and will be occupied the last of the week.

Thos. Brantingham had the road scraper at work on the new road yesterday.

Eugene Laine received word last evening that his brother was dead.

Mrs. Brannston, of Bayonne, is visiting her sister, Mrs. Eckert.

EARLY INTELLIGENCE

—Tomorrow's meeting in the W. C. T. U. rooms will be conducted by the evangelistic committee. Requests for prayers may be sent to that meeting. A general invitation is extended.

—Neuman Bros. are well-known as dealers in the finest fruits. They now offer just the right kind of strawberries for canning, and as the season will be at its height within the next week, now is the time to buy.

—A strawberry and ice cream sociable will be given by Martha Washington Council, No. 23, Daughters of America, tomorrow and Friday evening at 120 East Front street, in the place formerly occupied by the City National Bank. There will be dancing both evenings and a pleasant time is assured all who attend.

A Man's Heart.

The way to a man's heart is through his stomach. Cook in ware that wears. Imported quadruple enameled Stransky utensils last for years. Yes, they cost a few cents more; and yet—no, they don't! They wear ten times as long, are pure, sure, and don't scale off. We have everything: kettles, saucepans, pots, pans, rice boilers, everything that might, could, would, or should be wanted. Woodbull & Martin's.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph s drug store.

Lokal-Nachrichten aus der alten Heimath.

Baden.

Bühl. Färbermeister J. G. Degerdon feierte mit seiner Gattin das Fest der goldenen Hochzeit. Dem Jubelpaare wurde im Auftrage des Großherzogs eine goldene Medaille überreicht.

Freiburg. Dem Kunstverein Freiburg wurden von dem kürzlich verstorbenen Rentner Wohlgemuth und dem jüngst verstorbenen Fräulein Frey je 20,000 Mark vermacht.

Konstanz. Große Wechselfälschungen des Getreidehändlers Winkler sind entdeckt worden. Verschiedene hiesige Geschäfte sind um je 5000, 10,000 bis 20,000 Mark geschädigt. Winkler ist flüchtig.

Mannheim. Im städtischen Elektrizitätswerke wurde der Obermonteur Richard Hoppe aus Berlin vom elektrischen Strom getödtet.

Pforzheim. Der 15jährige Gymnasiast Karl Friedrich Essich hat den siebenjährigen Knaben Adolf Geisel aus Eutingen mit einer Zimmerflinte im Spiel erschossen. Er glaubte, die Flinte sei nicht geladen.

Elsaß-Lothringen.

Metz. Die Niederlegung der Festungswälle ist durch das Eingreifen des Kaisers gefördert worden. Der Gemeinderath hatte sich bisher geweigert, die Angebote des Fiskus anzunehmen. Der nunmehr für die Abtretung des militärfiskalischen Geländes vereinbarte Preis beträgt insgesammt rund 1,925,000 Mark.

Niederbronn. Der 28jährige Zimmermann Albert Schubert setzte das Haus seines Schwiegervaters, mit dem er in Unfrieden lebte, in Brand, erstach seinen Schwiegervater mit einem Messer und verletzte auch seinen Schwager schwer. Der Mordbrenner flüchtete dann nach der Grenze. In Philippsburg aber wurde er im Eisenbahnzuge von Gendarmen verhaftet. Im Gefängnisse erhängte sich Schubert dann vermittelst seiner Hosenträger.

Oesterreich.

Wien. Der Wiener Künstlergenossenschaft ist seitens des verstorbenen Nikolaus Dumba die Summe von 50,000 Gulden vermacht worden, deren Zinsen theils dem Pensionsfonds der Genossenschaft zu Gute kommen, theils für einen alljährlich zu verleihenden Dumba-Preis für Maler oder Bildhauer verwendet werden sollen.—Der Zeitungsträger Josef Ott und seine Frau wurden unter dem Verdachte verhaftet, ihr fünfjähriges Söhnchen durch Abschneiden der Gliedmaßen ermordet, die Leiche im Ofen verbrannt und den theilweise verkohlten Körper in die Donau geworfen zu haben.

Altenmarkt. Der Bürgermeister Karl Haberfellner ist mit Hinterlassung von Schulden in Höhe von 50,000 Gulden nach Amerika entflohen.

Arezzo. Der Bauer Meucci im Dorfe Castiglion-Fiorentino ermordete in einem Anfall von Tobsucht neun Personen seiner Familie, brachte anderen Verletzungen bei, machte sodann sein Vieh nieder und zündete die Stallungen an. Der Unmensch konnte ergriffen und in Sicherheit gebracht werden.

Bozen. Im einsamen Grödner Hochthal verkehrt seit Kurzem ein Motorwagen, den der dortige Hotelier D. Schmalzl angekauft hat. Mit dem Automobil ist es möglich, trotz der großen Steigungen, die die Grödner Straße aufweist, von Bozen nach St. Ulrich in zwei Stunden zu fahren.

Budapest. Der Reserveoffizier Ludwig Stephan Mathiz, der den Hörer der Bergakademie in Leoben, Emil Januschke, im Pistolenduell getödtet hatte, wurde vom Budapester Gerichte hierfür zu 14 Tagen Staatsgefängniß verurtheilt.

Innsbruck. Auf dem Marsche von Gröden über das Sellajoch nach dem Fassathal ist neulich der 16 Jahre alte Alois Bernardi aus der Fassaner Gemeinde Campitello erfroren. Es herrschte Schneegestöber und große Kälte.

Kufstein. Zur Grundeinlösung für den Bahnbau Kufstein-Kössen hat die Stadtgemeinde Kufstein 16,000 Kronen verwilligt.

Laibach. Der Gerichtskanzlist Wenzel Pollak in Tschernembl ist nach Unterschlagung von 4000 Kronen flüchtig geworden.

Miskolcz. In Vadkert wurde der reiche Privatier Emerich Szöri Nachts von zwei Schuldnern ermordet. Szöri stand in dem Rufe, daß er das Volk unbarmherzig bewuchere.

Pschüra. Hierorts ist eine ganze Familie Namens Hanke der Tuberkulose erlegen. Innerhalb 14 Tagen starben der Vater, der Sohn und die Tochter. Zwei Frauen Hankes und der Bruder desselben waren schon früher dieser tückischen Krankheit zum Opfer gefallen.

Troppau. Die Generalkonsulswittwe Frau Anna v. Bernd aus Wien hat ihrer Heimathsgemeinde Schwarzwasser zur Erbauung eines Versorgungshauses den Betrag von 200,000 Kronen gespendet. Die Stiftung wird den Namen Bernd-Stiftung führen. Der Bauplatz ist bereits angekauft. Außer der gespendeten Summe wird Frau von Bernd auch die gesammte innere Einrichtung aus Eigenem bestreiten.

He was a retired shipbuilder—and hails from Staten Island, New York. He was in pretty good health, but every day when he took what he called his *constitutional*, that is, his afternoon walk, he was sure to have a sort of cramp which seized him in the calf of his leg with almost the severity of an assault by a ferocious dog. He read about the case of a man whose rheumatism was cured by Ripans Tabules and laughed at the idea. He thought the man a fool, but realizing that his own difficulty was a sort of rheumatic twinge, he finally bought and used some Tabules and of late his friends have noticed that he is more chipper than he had been for years. A lady who knew him well asked him about the dog that used to bite his leg in the afternoons and the old man said: "He is dead and Ripans Tabules killed him."

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

HAMS AND BACON

That are superior in quality are what we handle. It's very easy to keep a stock of meats which will be partly good and partly inferior and to sell a little of both to each customer; this we never do. Our meats are of superior quality, and with only ordinary care on the part of the cook, should give entire satisfaction. Cut from young cattle, sheep, etc., the beef, mutton and lamb is tender, juicy and of delicious flavor.

DRAWING ROOM CHITCHAT.

Gossip About the Khaki Fad, Summer Gowns and Other Things.

BY MAUD B. ROBINSON.

Khaki! The craze is upon us as well as upon our English cousins. The eternal dust color is omnipresent. Fortunately, there are a few people who can't wear it; otherwise the women at a fashionable reception would give the effect of a stream of lava.

A friend of mine has just returned from London, and she says she has khaki on the brain from having seen so much of it. Over there they are simply using it for everything. They make belts and jackets and hats and pocketbooks out of it, not to speak of dresses, for, as I said, we do that here.

My friend has brought over two gowns. One is made of the regulation army material. It has a jaunty Eton jacket fastened in front by a Persian panne scarf of cream and royal blue. The broad collar is of heavy Russian lace, and there are bands of this appliqued perpendicularly on the skirt. The other dress is of lighter cotton material, and it is most beautifully embroidered in red. The khaki is usually made up with blue, pink or red; otherwise it is trying to all women but those with high color.

"I wonder how much the Boer war has affected dress here in New York," remarked my friend as we went down town together.

The first thing we came across was the Ladysmith hat. This is something entirely new. It resembles the British officer's helmet, with this difference—that it can be bent into a variety of shapes. It is made of very pliable straw stitched together, but not glued. The trimming consists of a plain or figured silk scarf in red or blue. It is a very pretty style when worn by a tall, athletic girl, but I do not think it would be becoming to a short one, for the reason that it gives no height.

The young woman who aims at even greater military correctness will no doubt purchase a little white pith helmet. There are a few of these shown, and they are almost identical with those worn by soldiers.

In answer to our inquiries many of the shops frankly owned they do not carry any war novelties, but in others we were shown handsome khaki belts whose enameled buckles sported the British colors, khaki scarfs embroidered with red polka dots, khaki dust cloaks ornamented with English army buttons, and last, but not least, a pencil of gun metal purporting to be an exact model of one of the captured Boer cannon. So we felt that New York was doing very well indeed.

A couple of years ago a tailor made suit was a tailor made suit—stiff and mannish with its strapped seams and severe little collar. Now it is all fluffs and frills, a mere apology for wearing a shirt waist. A couple of years ago my lady was content with a winter and a spring suit; now she throws her spring suit away after a couple of months and appears in a variety of jackets and skirts of the most airy and dainty materials.

How would you like a costume of black china silk, for instance, made over red taffeta? The skirt and jaunty little jacket are banded with heavy black lace insertion. The goods beneath this are cut out to show the red lining. The collar and revers are made of the red taffeta, and there is a little red vest heavily stitched in black and ornamented with rows of tiny gold buttons.

Or would you prefer a costume of royal blue veiling made over wine colored glace silk? The skirt is all laid in tiny tucks to within five inches of the bottom, where they form a pretty fullness. The very short Eton jacket is also a mass of tucking, but with a new feature. The tucks run diagonally from left to right all around the body. This gives a very odd effect and is most becoming to a full figure. The wide collar is of heavy lace, and there are cuffs of the same.

Both of these costumes are being made for a young woman who intends to spend the summer at the exposition. They are both admirably light weight and calculated to stand a great deal of wear.

SOME KHAKI NOVELTIES.

A friend of mine who intends to go to Bar Harbor has shown me two brilliantine suits, one pure white and the other silver gray. They are both made with short collarless Eton jackets, and are trimmed with stitched bands of taffeta silk. The gray gown has bands of white, and the white suit, which will be used for yachting, has trimmings of cherry red.

Last year she assured me she had four pique suits—a pale pink, a pale blue and two white ones. The pink and the blue faded so after the third wearing that she gave them away.

It is peculiar the ideas of politeness some women have. The other day there was a great "to do" in a Broadway car. Two women were insisting upon paying each other's fare. I thought that sort of thing had gone out even among vulgar people, but it would appear not. Both women squabbled and protested until they had no breath left, and the conductor nearly raked in 20 cents instead of 10, he was so distracted.

This put me in mind of the story of Louis XIV and his two courtiers. One was a marquis, the other a count, and both were noted for their perfect manners and exquisite politeness. In fact, it grew to be a matter of controversy in the court which was the more perfect gentleman. The discussion came to the ears of Louis, and he resolved to put them to the test. The following day he invited the marquis to ride in the royal coach. As they were about to enter the king motioned to him to pass in the first. The marquis placed his hand on his heart and bowed. "Ah, sire!" he murmured, and to the admiration of the bystanders he protested for several minutes in the most elegant manner. It was only when he saw no signs of relenting in the king's eyes that he took precedence with a most apologetic and remorseful countenance.

The next day the same scene was repeated, with the count for the hero. The king motioned to him as before. The count bowed deeply and respectfully, then without any further ado he entered the coach with the air of a man who does his duty.

"Messieurs," said Louis the Magnificent, turning toward the crowd of courtiers, "permit me to present to you the most perfect gentleman in my kingdom."

GOWN OF KHAKI COLORED CANVAS TRIMMED WITH SCARFS OF ROYAL BLUE CREPE DE CHINE.

POSTBOY OF TRYON.

Unique Character Among the Hills of North Carolina.

Although Knowing But Little of the Learning of Schools, He Is a Classical Scholar of Extraordinary Erudition.

Ransom Talent is the post rider between the railway station of Tryon, N. C., and the county seat, Columbus, six miles away. He makes the journey twice a day on his shambling old horse, whether it is rain or shine; and there is not a woman or child along the way who does not look up at the familiar sound of his horse's hoofs when the old mail carrier goes by, with a pleasant "Howdy?" For the man is a unique character of the Carolina hills, and known and honored even as far as Asheville. He was born in the cabin where he now lives with his sons about him. It is a little log house of few rooms, but it shelters a royal company of books, and there are stout cabinet presses for the preservation of newspapers! Think of coming to a place where yesterday's news letter can be remembered in the rush of the tidings of to-day. But the records of the yesterdays of well-nigh 40 years are to be found there, and one might learn much in these carefully-folded yellow piles of American history, of a period most important in its results upon the nation's weal and woe.

Mr. Talent, says the Chicago Journal, has never been outside his state except for the four years of civil war, and he knows but little of the learning of the schools. But, though uninstructed, he is an educated man. Homer, Virgil, Xenophen, Plutarch, Josephus are among his ancient associates, and Victor Hugo and Dickens bend with him o' nights over a candle's flickering light.

The writer was told that he had not slept in a bed for 38 years, and asked about the reason for that singular circumstance compassionately.

"Well," he said, "I get to visiting with my book, and we sit together pretty late. Then, I reckon, we sort o' dose off, as good comrades will, and the first thing I know it is morning again, and time to ride for the mail."

THE POSTBOY OF TRYON.
(One of the Unique Characters of the Carolina Hills.)

Visiting with his book! Sitting up night after night for more than 30 years in the companionship of those great ones gone, whose words have changed him from a simple mountaineer to a scholar and philosopher.

Mr. Talent was a private soldier in a Virginia regiment, and for four years fought and prayed by the side of Gen. Robert E. Lee. That companionship in itself must have been ennobling and may account in a great degree for his gentleness and courtesy. But I am not able to trace the source of certain other qualities either to the men or the book shelves or to the flower of the southern army. For he jogs along over the roads between the villages to a muttered accompaniment of words which might be believed to be poetry from their uninterrupted flow, but are not—unless one speaks literally of "profane verse." He is a most picturesque and voluble swearer, but, as he quaintly explains it, the habit is understood and condoned above, as the Almighty knows that it is not intended as an expression of disrespect. Still, the matter gives him great uneasiness at times, and the stream of strange oaths is often interrupted by a pious ejaculation for forgiveness.

The old man has been in the mail service for a great many years. At one time he carried the government pouch from Columbus to Rutherfordton, a distance of 26 miles, once a day. His present route forces him to cover a distance of 24 miles in all sorts of weather for a remuneration of 49 cents a day. It seems as though it was the fireside hour for him now and that he ought to rest. But he loves the saddle, and some day, he says, if the gray rider comes, he is quite willing to have him find him on his old horse.

Where Stoves Are Valuable.

Few houses in Uruguay are provided with stoves for heating purposes. No chimneys or fireplaces are provided, as a rule, one house recently built at a cost of $14,000 having for its only chimney a stovepipe from the kitchen. Cattle graze in the open all the year round, but during the winter season, from April to October, the dampness is conducive to the spread of pulmonary troubles. Only one dealer in Montevideo sells heating stoves, and these are of American make. Oil stoves find some favor, as coal sells at from ten to fourteen dollars per ton.

Flags of European States.

The yellow and red Spanish flag is the oldest of any used by the European powers, as it was first flown in 1785. The French tricolor was first used in 1795; the red English ensign, with the present union jack in the upper canton, in 1801; the present Italian flag in 1848; the present Austro-Hungarian flag in 1867, and the German flag in 1871.

Eastern Golf Links the Center of Interest for Women Players

MUCH as the westerners may dislike to acknowledge the fact, it is, nevertheless true, that golf for women this year is going to attain a higher mark on the eastern courses than on the western links. In the first place the U. S. G. A. national championship for women is to be played at the Shinnecock hills links, on Long island shore, beginning August 28. That in itself should be a stimulus for the game in the east. Many tournaments exclusively for women have been scheduled in the east this early, and as a matter of fact several of the courses in New Jersey, Pennsylvania, and in the vicinity of New York city have had several events for women during the month of May.

MISS MARION L. OLIVER.

Western links, on the other hand, have had but desultory play, and the only events that women golfers have participated in have been occasional mixed foursomes. In the Metropolitan Golf association district the women have formed an association which will institute important inter-city team matches this season. In and about Philadelphia there are many well-known women golfers, and Boston, too, is rich in the feminine players. New York's courses—and Morris county, over in New Jersey, might as well be included in the list—have more enthusiastic women golfers this season than ever before.

It was thought that the Western Golf association, that will, this year, hold its second annual western amateur and open championship for men, would arrange a plan for a western championship for women. But at the annual meeting the proposition was friendless. The matter of expenses and the donation of a trophy equivalent in value to the emblem that accompanies the championship for men, stood in the way. Besides, the former president of the W. G. A., Hobart Chatfield-Taylor made it known that the Onwentsia club, of Lake Forest, had been holding an annual tournament for women that had been accepted as the western championship. The trophy and medals for this event were given by the big club, and entrance in the competition was not limited to any set of United States golf association clubs, therefore, with such a comprehensive event fixed by several seasons of play, there was no reason for increasing the financial payments of the W. G. A. clubs for another championship.

Shinnecock hills is the ideal course for a women's championship. Already a committee of women of that club is at work spreading information about the championship and arousing interest among the golfers of the country. Miss Beatrix Hoyt, the women's champion for 1896, 1897 and 1898 belongs here. It was on this course that she learned her golf and once captured the championship. If there is anything in playing on the home course, she may win back her laurels, taken last season by Miss Ruth Underhill, if she chooses to play. It was said that Miss Hoyt had become satisfied with her triple honors, and that she made little or no effort to play in the match play at the Bala (Pa.) competition, after qualifying in the medal play round, because she did not wish to be criticised for trying to monopolize an honor.

MISS BEATRICE HOYT.

That there will be a representative number of entries from the west at the contest at Southampton next fall, is but a conjecture. The western women may think that the western championship is enough tournament competition for one season.

Another thing—Miss Underhill, who recently played at Brookline, near Boston, and displayed as much expert golf as a champion might be expected to show, Mrs. Caleb B. Fox, the silver medalist of the last year's championship; Miss Marian L. Oliver, the bronze medalist; Mrs. Shippen, of Morris county; Miss Frances Griscom, Mrs. Dewitt Cochrane, Miss Elsie Cassatt and other eastern players, seem to be in a class that would afford westerners but little chance to get into the later rounds of match play.

Shinnecock is one of the oldest golf clubs in the country. The associations about the spot are romantic, the soil is quite sandy and the turf is good, but not as keen for greens as that at Garden City. Yet some critics say that the putting greens are the truest in the land. The big country homes near the course are owned by some of the most hospitable people of the east, and they will make up for the lack of hotel accommodations by taking care of the visiting women.

H. G. Trevor is chairman of the entertainment committee, and he has arranged some elaborate social events for the championship week. The course is 5,351 yards long, and Willie Smith, of Midlothian, the present open champion, made a record on the links in 1897, when he was green keeper, of 72. The best amateur record is 79, while the women's record of 85 is held by Miss Hoyt. Bogey is 80, so it will be seen that the former women's champion must have played good golf to get her record.

The first tee is near the clubhouse, and a road 125 yards from it proves to be the first hazard. The club's stables are to the right, and occasionally a slicer finds that the gutta percha flies in among the horses. This hole is 291 yards.

Going to the second, a 277 yards hole, the penalty is on the sliced drive. The green is guarded by a sand ditch ten feet wide, and a bunker four feet high. To drive for the third hole, 248 yards, the difficulty that faces the women players is the railroad track. The tracks loom up big, although but 75 yards away, and make a bad hazard. Going to the fourth the tracks are recrossed, and the green is at the summit of a little hill. This is a 228-yard hole. As most of the holes should be made with a drive and a mashie pitch with the usual two more to hole down, par golf is generally four. This does not apply to the sixth, seventh, eighth and ninth holes. The fifth is a short hole, 162 yards, and should be made in three. The next hole is over the railroad tracks once more, and although but 308 yards the line of play is uphill, and two wooden club shots are needed for distance.

MRS. CALEB B. FOX.

The eighth hole is 354 yards, and is a "blind" hole. Once over the course and this hole becomes less formidable.

The ninth hole is the long one, 489 yards. The course is uphill, and the four shots, drive and brassey shots, must be screamers, for there is no carry. Par golf for men should be 37 and for women, 41, for the first nine. The tenth hole is easy, and should be made in three, as there are no hazards. A formidable bunker to the eleventh hole, 231 yards, makes the hole a four-hole for most women who play par golf. The twelfth hole has been shortened to 183 yards for the women, so that good play will result in three. The next hole is easy, but the fifteenth hole, 384 yards, is guarded by two big mounds of earth, while back of these is a sandy road. The green is back on a little plateau, and it means good golf to negotiate it in five. The other holes are what a good player would call safe ones, as only pulled shots that carry into the tall grass hurt scores. The par golf of the last nine for women is 39 and for men 34.

E. G. WESTLAKE.

Killed by Elixir of Life.

A renowned physician, Rastineuf, of Paris, after long experimenting with a certain variety of "long life elixir," concluded it was perfectly safe, and injected a dose into his aged mother's arm two days in succession. She died in horrible suffering on the third day. The doctor, who had taken a hypodermic injection simultaneously, in order to prove to his mother how harmless the stuff was, survived his mother only 24 hours.

MAN OF DISTINCTION.

Dr. Hamilton, One of the Two New Methodist Bishops, Is Widely Known in Church Circles.

Dr. John W. Hamilton, elected bishop by the Methodist general conference at Chicago, and one of the secretaries of the Freedman's Aid and Southern Education society, was the most distinguished looking of all the candidates for the bishopric, and possibly for that reason he was more generally than any other selected as a winner. He was born in Weston, Lewis county, Va., March 3, 1845. He is of Scotch-Irish lineage, and his father was a preacher in the Pittsburgh conference. He was graduated from Mount Union college, in Ohio, with the degree of A. B. in 1865, and from Boston university with the degree of B. D. in 1871. He received the honorary title of A. M. from Wesleyan university in 1880 and of D. D. from Baker university in 1884. His first employment after graduation was as financial agent of Mount Union college. In 1866 he joined the Pittsburgh conference and was appointed to Newport, O. In 1868 he was transferred to the New England conference and appointed to the Maplewood church, at Malden, Mass. He was a prominent pastor in and near Boston for 25 years, being pastor of the Saratoga Street church, the Somerville church twice, and the People's church, of which he was the founder, for nine years, notwithstanding the time limit.

DR. JOHN W. HAMILTON.
(Just Elected One of the Bishops of the Methodist Church.)

In May, 1892, he was elected corresponding secretary of the Freedman's Aid and Southern Education society, and has remained in that position ever since. Meantime he has published the following books: "Jesse Lee and the Old Elm," 1875; "People's Church Pulpit," 1885; "Lives of the Methodist Bishops," 1890, and "Fraternal Greetings; The Church in Ireland and England," in 1898. He has been a member of the last five general conferences. He was a member of the programme committee of the ecumenical Methodist conference, held in 1891, and was a fraternal delegate to the church in Ireland and England in 1898. Dr. Hamilton is nearly six feet tall and straight as an Indian. He has a clean-shaven face and hair that gives him a poetic expression. He would be selected out of any company as a man of distinction.

A SWIMMING DEVICE.

It Is Constructed on the Trolley Plan and Does Away with All Danger of Drowning.

That the swimming device illustrated in the accompanying picture will be enjoyed by children goes without saying, and, says the Chicago Daily News, it might also be useful in teaching grown people the art of swimming, which art is somewhat difficult of accomplishment unless an instructor is at hand to support the beginner. By this arrangement the swimmer is allowed free play to propel himself through the water at will, without danger of sinking, and there is nothing to interfere with the free use of the arms and legs. Menzo Gates, of Copemish, Mich., is the inventor, and his idea is to stretch a cable on two vertical posts set at any desired distance apart, with turn buckles to tighten the rope. One or more trolley wheels are placed on the wire to support a coiled spring, to the lower end of which a belt is attached to aid in holding the beginner at the surface of the water, even though he makes no effort to sustain himself. Parents whose boys have a desire to learn to swim can by the aid of this apparatus allow them full liberty to play in the water to their hearts' content without fear of drowning.

TROLLEY SWIMMING DEVICE.
(An Apparatus Designed to Make Loss of Life Impossible.)

Flouring Mills in Kansas.

Kansas has 300 flouring mills, with a capacity of 10,000,000 barrels a year.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort.

Time Table in Effect May 27, 1900.

LEAVE SOUTH PLAINFIELD, N.J.

Time given for Plainfield is leaving time of stage from City Ticket Office, 218 West Front Street, which makes connection with trains at South Plainfield.

Leave Plainfield 8:30 a. m.
Leave South Plainfield 9:12 a. m.
Daily express for Buffalo, Niagara Falls, Chicago and principal intermediate stations.

Leave Plainfield 12:10 p. m.
Leave South Plainfield 12:51 p. m.
Daily except Sunday. Black Diamond Express for Rochester, Buffalo and Niagara Falls.

Leave Plainfield 6:20 p. m.
Leave South Plainfield 7:01 p. m.
Daily, Solid Vestibule train for Niagara Falls, Chicago and Principal intermediate stations.

Leave Plainfield 8:15 p. m.
Leave South Plainfield 8:56 p. m.
Daily, Exposition Express for Buffalo Niagara Falls and Toronto.

Leave Plainfield 8:15 p. m.
Leave South Plainfield 9:57 p. m.
Daily, Night Express for Easton, Bethlehem, Allentown, Wilkesbarre, Geneva, Rochester, Buffalo, Niagara Falls and Chicago.

The stage will also meet Eastbound trains 6, 8, 34, 4 and 10.

For time of local trains see pocket timetables. Telephone No. 112-B.

IN THE PUBLIC EYE ABROAD

Semi-Newsy Items of Interest Gathered by Foreign Correspondents

A New and Novel Maritime Invention. Maritime interests abroad are interested in a new invention, the work of an Italian gentleman, Baron Benvenuto d'Alessandro, living in Paris, for the protection of vessels at sea, entrances to harbors, lighthouses, etc., from the force of waves and surf, which the inventor claims is more effective than the use of oil.

This invention consists in retaining on the surface of the water an unsubmergible floating net by means of outriggers when used to protect vessels in storms at sea, and by attaching to it buoys when used to protect lighthouses, hydraulic works in construction, entrances to harbors, etc.

The inventor bases the idea of his invention upon the principle that in covering the surface of the sea with a thin, flexible, light and floating body of whatever nature, the part covered forms a crust under which the molecules of the imprisoned mass of water cannot move in the same manner as the surrounding body of uncovered water, the result being that even the most violent waves, upon reaching the edge of the crust, instead of climbing over it, of breaking or of destroying it, will pass under it as if there were a fall or difference of level, become flattened out, and lose much of their force.

The net used in the recent experiments at Havre was made of a thin hemp fiber, knitted in square meshes of four centimeters (1.57 inches), and afterwards waterproofed by the application of a solution of powdered cork and pure rubber. The material of the finished net was three millimeters (0.12 inch) in thickness and light, weighing only 120 grams (4¼ ounces avoirdupois) per square meter (10.76 square feet). It was constructed by the Societe Industrielle de Telephones at Paris.

The net was 110 meters (360.9 feet) long and 15 meters (49.2 feet) wide, made in four sections, securely fastened together. The two outside sections were five meters (16.4 feet) wide throughout the whole length of the net. The middle sections were also five meters (16.4 feet) wide, but extended only ten meters (32.8 feet) from either end, leaving an open space in the center of the net 90 meters (295.27 feet) long and five meters (16.4 feet) wide. The inventor's reason for constructing the net with an open space in the center is that in his numerous experiments with the net made in this way, when used for the protection of entrances to harbors, etc., he found the surface of the water inclosed in the free spaces to be always calm, as if it were actually covered by the net. The net with the open space is only used when it is anchored. For the protection of vessels at sea, the net is made solid.

The accompanying sketch shows the dimensions of the net and the arrangement of the buoys by which it was held in position.

To illustrate the efficiency of the net in protecting hydraulic works in other position, in which, while being exposed to the heavy seas, it can be readily seen from the shore and its action judged.

Other trials have been made of the floating net; in 1891 at Quiberon, department of Morbihan, and in 1892 at Cherbourg.

Havre, France. A. M. T.

Foreign Investments of Germany. Germany is rapidly rising in importance as a money-lending as well as a money-making nation. It has hundreds of millions in various parts of the globe. In North Africa Germany has invested nearly $3,000,000. In South Africa the German element has lost its identity as part of the empire, immigrants having taken on new citizenship. Still investments in Cape Colony are estimated at nearly $10,000,000; in the Transvaal, at $170,000,000; in Portuguese territory in Africa, at nearly $5,000,000; in East Africa, at $23,000,000, of which $1,190,000 is invested in Zanzibar. In Turkey, Germans own real estate valued at $7,140,000, and have $53,550,000 in various industries. This sum does not include the amount for the Bagdad railroad.

The capital in the Persian-Arabian peninsula is stated at $11,900,000.* In Mexico the figures are $95,200,000; in Central America, $59,500,000; the West Indies, $59,500,000; north coast of South America, $47,600,000; west coast, $71,400,000; east coast, $142,800,000; in North America, between $952,000,000 and $1,190,000,000. In other words, the empire has nearly $2,380,000,000 working for the welfare of its citizens in the various parts of the world.

SPORTING.

GOLF

An exciting mixed foursome was played on the course of the Park Golf Club yesterday afternoon in which Miss Saidee Mae Howell and Fred P. Taylor defeated Miss vanHerwerden and Morgan T. Townsend five up. The two pairs met a few days ago on the Hillside Club links when Miss vanHerwerden and Townsend succeeded in defeating their opponents one up. At the fifteenth hole, Miss Howell and Taylor were three up but the other pair played great golf and won the match. In the first round of yesterday's match, Miss Howell and Taylor made 63 and their opponets 62. In the second round, the winners played remarkably clever golf, scoring 52 as against their opponent's 57.

Mrs. N. Pendleton Rogers, of East Front street, returned last evening from Morristown, where she engaged in the play for the championship honors in the Women's Metropolitan Golf Association tournament. Mrs. Rogers was one of those who qualified for the first round play. Yesterday she was paired with Mrs. Morgan in the first round and she played remarkably well. On the outward journey she met with a number of mishaps, but made a phenomenal recovery, and considering that she was only beaten 4 up by Mrs. Morgan, it speaks exceedingly well for her playing. A number who watched the play predicted that Mrs. Rogers would win, but Mrs. Morgan had exceptional luck and won by a close margain.

The management of the Hillside Tennis and Golf Club has fixed the following as the official handicaps for the members: Scratch—Willard Wadsworth, W. L. Gienney, Frank Reinhart; 2—Frank Talmage, J. H. P. Wharton; 3—J. Whitney Baker, A. R. Fisk; 5—C. W. Fisk; 6—Olaf Saugstad, Howard Wright, Morris Dumont; 7—Parker W. Mason; 8—W. T. Kaufman, H. R. Stockton; 9—S. L. Schoonmaker; 10—F. C. Ard, B. Van D. Hedges; 11—R. M. Shepard, T. R. VanBoskerck; 12—Owen Fleming, C. W. Abbott, F. L. Schoonmaker; 14—George R. VanBoskerck, E. J. Waring; 15—H. W. Beebe, Walter Peterson, D. H. Barrows, Roger F. Murray, H. W. Lowe, Howard Huntington, A. Henderson, A. D. Shepard, Jr., Harvey Fisk; 16—W. F. Murray; 18—J. W. Sandford, Clifton Wharton, Jr., L. E. Waring, Townsend Bushmore, Burritt H. Shepard; 19—R. Finch, Paul Loizeaux; 20—Marion S. Ackerman, Evarts Tracy; 23—Harry Talmage, H. M. Stockton; 25—E. T. Barrows, H. C. Munger; 27—L. H. VanBuren, F. A. Clark, W. A. Garrigues, J. A. Machado, D. W. Taylor, E. R. Ackerman, T. M. Day, J. P. Murray, W. L. C. Gienney, R. E. Burke, Fred W. Goddard, F. D. Warren, H. Knox, H. C. Tracy, O. G. Waring, G. A. Chapman, F. H. Andrews, A. A. Atterbury, Dexter O. Tiffany, A. S. Patterson, Edward Patterson, Robert Rushmore, E. T. Wilson, Charles A. Stower and Morgan W. Daboll.

CYCLING COMMENT.

Ethel Webster, of 74 Duer street, rides a new Spalding wheel, the gift of her father, F. O. Webster.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder. It cures painful, smarting, swollen feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it *To-day*. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package FREE. Address, Allen S. Olmsted, LeRoy, N. Y.

IF you feel shaky about letting the laundress handle your silk, challie or delicate lawn dresses, suppose you see what our always successful dry cleansing process does. We **Ought** to be better fitted to do the work and we are.

PARTICULAR MENTION.

Franklin Terry, of East Third street, is confined to his home with illness.

Robert Angleman, of East Front street, will resign his position at Blair's hat store Saturday.

Roland Tomlinson, son of Dr. T. H. Tomlinson, of LaGrande avenue, will be graduated this evening from the College of Physicians and Surgeons in New York.

L. L. Croom, of this city, left this morning to attend a reception tendered to the Grand Chancellor and other officers of the K. of P., to be held at Asbury Park today.

B G RAILROAD IMPROVEMENT.

New Jersey Peach Growers Are Interested in a $300,000 Enterprise.

(Special to The Daily Press.)

Flemington, June 13—The Rockaway Valley Railroad, which runs between Whitehouse and Morristown, is being graded and straightened. The road was built by the late Congressman J. Nelson Pidcock eleven years ago, and is now controlled by the Haines Brothers, of New York, who will extend the line to Speedwell avenue, in Morristown.

Five hundred Italians are now engaged on the rebuilding of the road. Three hundred of these men are engaged on the Morristown section and the remainder have started at Whitehouse. The road runs through one of the largest peach belts in New Jersey, and will be completed by the opening of the peach season.

It is said that the improvements will cost $300,000.

FIREMEN'S STATE HOME.

Dedication of the New Institution at Boonton.

Everything is in readiness for the formal opening of the New Jersey Firemen's Home at Boonton, which will take place on Saturday afternoon, June 23d, at 2:30 o'clock. Special arrangements have been made for all active and exempt firemen and their friends, who shall attend the opening exercises.

Horace H. Brown is in charge of the arrangements and would like to hear from all who expect to go to Boonton on that day, so that proper accommodations may be made for all. The home will be open for inspection at noon.

Pleasant Time for Ministers.

One of the pleasantest meetings of the Ministers' Association held in some time was that of this week, when the clergymen gathered Monday afternoon at the summer home of Mr. and Mrs. F. O. Herring, on the mountain. They were entertained by Rev. E. M. Rodman, who was extended the courtesy of the favor by Mr. and Mrs. Herring. Besides the pleasant social features of the affair, Rev. A. E. Main read an interesting paper.

Entertained Friends.

Mr. and Mrs. Caspar Waglow, of East Third street, entertained a number of friends at their home last evening in a very pleasant manner. Vocal and instrumental music were the chief features of the evening and several delighful selections were given by DeWitt Fulton on the banjo, David Lawton on the piano and Joseph Randall on the piano, banjo and madolin.

To Retire From Business.

John H. Kitchen, of the flour and feed firm of Nitschwitz & Kitchen, will retire from the firm July 1st, and will go to Taunton, Mass., where he will stay with his son, William Kitchen, who is in charge of the interests of the Campbell Press Company at that place. Mr. Nitschwitz will continue the business.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—The Jeanrenand Brothers will be a feature of the Reform Club meeting tomorrow night.

—Children's Day exercises will be held at the East Third Street mission Sunday morning. There will be special music and an address.

—The members of Warren Engine Company will take their engine out next week Tuesday evening for a "wash." The trial will be made at the Westervelt avenue bridge.

—There will be no meeting at Warren chapel Friday evening as the the members have accepted an invitation to attend the meeting at the Crescent Avenue church that evening when Dr. Paton, the missionary, will speak.

—Harry Werner, the popular West Front street clothier, has just closed out 200 pairs of trousers from a well-known firm at a low price, and will put them on sale tomorrow at a figure to enable any man or boy to have a new pair of trousers for what it would cost to have them sewed together. Be on hand and secure yourself a pair before they are closed out. For particulars see advertisement in another part of this paper.

FUNERAL OF CHARLES CRANSTON.

Last Sad Rites Over the Remains of the Man Killed on the Railroad.

The funeral of Charles Cranston, who was killed last Sunday morning at the North Avenue station, was held yesterday afternoon at 2:30 o'clock from the home of the parents on Jackson avenue. There was a very large attendance of relatives and friends. Rev. Charles E. Herring, pastor of the First Presbyterian church, conducted the services and spoke words of comfort to the bereaved ones. He also preached a strong discourse to the living and urged all to be prepared for the last call.

There was a large and beautiful display of flowers including a number of set pieces. There was one large piece from the Painters' Union, of which the deceased was a member, and a pillow bearing the name "Charley" from the family. The interment took place in the North Plainfield cemetery and those who served as pall-bearers were friends of the deceased from Brooklyn.

Wants Water Used.

At the meeting of the Loyal Temperance Legion yesterday afternoon Miss C. R. Yates was present and gave an interesting talk regarding the building of war ships and their launching. She spoke about the new warship New Jersey that is to be christened with champagne, and stated that she intends to write to the proper officials asking them to use water instead of the liquor. She also said she would give a prize to the member who first informed her when the ship is to be launched.

Good Time for Hope Chapel Boys.

The Y. M. C. A. of Hope chapel had their last meeting of the season last night. An address was given by Rev. G. K. Newell after which a general good time was had by the boys. Wm. N. Runyon rendered several of his best selections. The evening was brought to a close with the serving of refreshments. The association will resume their meetings on September 15th.

Another Festival.

The Christian Endeavor Society of the First Baptist church will hold a strawberry and ice cream sociable in the Sunday-school rooms tomorrow evening. A programme of vocal and instrumental music will be given by a quartette under the direction of Clifford Braider. A cordial invitation is extended to all.

All Will Go That Can.

A special meeting the Warren Engine Company was held last evening when it was decided that all who can will attend the dedication of the firemen's home at Boonton Saturday, June 23d. The day is a poor one for most of the members and it is not believed that a very large delegation will attend.

Chaperoned Party of Bicyclists.

Miss Emma Wikoff, of Richmond street, chaperoned a party of young people from Somerville, last evening, on a bicycle ride to Cranford. The run was made without any incident until the party started to return home when they were caught in the shower and received quite a drenching.

Crop Report.

The following is John Neagle's crop report for the past week: Plainfield—All crops doing well—recent showers of great help; oats, wheat and rye very promising; grass on old meadows thin; rainfall, .57 inch. John Neagle.

Justice Nash Able to be Out.

Justice Nash, who was hurt in the trolley car accident, was able to take a carriage ride to his office this morning, but had to return after a few minutes.

HELPING THE PROHIBS.

Temperance People Filled With Enthusiasm for Their Cause.

A large crowd of people attended the meeting held at Washington Hall last night in the interest of temperance and prohibition. Wm. Lunger, who is closely identified with the Prohibition party, was in charge and was assisted by Mrs. Honeyman, a temperance worker, who took charge of the entertainment. The programme was interspersed with vocal selections by a quartette consisting of Gertrude Gier, Ethel Reynolds, Anna Holder and Edna Kennedy. Each of these girls also gave recitations. Mrs. Geo. W. Saums presided at the piano.

A feature of the entertainment were the violin solos by Robert W. Barnes, accompanied by Mrs. Saums on the piano. Another feature was the address by Wm. Lunger. He urged all to vote and work for the Prohibition ticket.

Argued for a New Trial.

The rule to show cause why a new trial should not be granted in the case of Christianson against Lambert was argued before the Supreme Court at Trenton Monday. A verdict for $7,000 was originally given in favor of the plaintiff, when the case was tried in the Circuit Court at Elizabeth. Craig A. Marsh and Clarence L. Murphy spoke in favor of the rule. Judge Gilhooley, of Elizabeth, spoke against it. Briefs were presented and the court reserved its decision.

Mrs. Frank Rowley and Mrs N. B. Smalley, of Mercer avenue, have returned home after visiting a few days in Brooklyn.

A Great Bargain Sale

THIS SATURDAY

in Men's and Children's Clothing.

No greater bargains were ever before offered in clothing, none to equal it is expected again this season. Just think of it, you can come to our store and buy a first-class men's blue serge suit, made with a double breasted vest, up-to-date in style, at **5.75**, that other stores would ask, for no better suit, $12.00.

Who ever heard of any clothing store that will give you a choice of fifteen different styles of men's suits to choose from, suits that formerly sold at 8.00, 9.00, 10.00 and 11.00, and a good bargain at that price, to go at this bargain sale at **4.50 and 5.25.**

Very extra fine Dress Suits consisting of the choicest worsted stripes and velour finished cassimeres, made in checks and small plaids, double breasted vests at **6.25 and 6.75,** no other store in the U. S. would sell them for less than 12.00 to 15.00.

Men's Trousers at sacrifice prices, over 4,000 pairs to choose from, they are made of the finest cloth, at prices that no other house could equal them.

We have specials in **Straw Hats,** a 50c hat at **25c,** a 1.00 hat at **45c, etc.**

In children's clothing we are positively the leaders of Plainfield, we have them from **75c** and upwards a suit.

These are only a few of the thousands of bargains that are waiting your call. Don't delay. Don't miss it, and come early and avoid the great Saturday night's crowds.

GETTING READY FOR CLOSE OF SCHOOL

Commencement Exercises Will Be Held in Music Hall Thursday Evening, June 21.

OF THE CITY HIGH SCHOOL.

GRAMMAR SCHOOL WILL HOLD GRADUATION EXERCISES WEDNESDAY.

New High School May Be Started by Fall, But it is Not Likely to Be Ready for Occupancy Within a Year.

With the beginning of the long vacation only a week off, there is unusual activity in the Plainfield public schools. At the High School the commencement exercises and attendant interests are the all important topics. In the other schools the subject of promotions and the preparation of the usual reports and other red tape which winds up the school year, are keeping everyone busy.

The school year ends next Thursday, but the regular routine is seldom carried out during the last week when all energies are devoted to cleaning up the work of the year and getting ready for the vacation and the opening of the new school year in the fall. One session will be observed next week in all the schools.

There will be no important changes made in the public school system this summer. Most of the teachers will be back again in the fall. There are a few changes, of course, and the increase in the youthful population of the city may necessitate the opening of an additional class or two in the rooms not now occupied in the Lincoln building. The new High School will not, as was hoped, be ready for use in the fall. While the Board of Education has decided to build one, the question of a site is not yet decided for a certainty and it may be a month or two before that matter can be settled. Work will have begun on the building by fall, it is hoped, and the High School will probably only have to occupy its present cramped quarters for another year.

The experiment tried last year of holding graduation exercises for the highest class of the grammer department proved so satisfactory that the plan will be continued this year. The commencement exercises of the seventh, or highest grammer grade, will be held in Assembly Hall of the Franklin building, Wednesday afternoon, June 20, at 3 o'clock. The graduates will take part in the exercises and give recitations and declamations while the younger children will sing. There will be an address by Superintendent H. M. Maxson.

As the capacity of the Franklin building Assembly Hall is limited, only four hundred tickets will be issued which will be distributed as far as possible among the families and friends of the graduates. Last year the hall was crowded and the large audience was greatly pleased.

The High School commencement exercises will be held at Music Hall Thursday evening, June 21st, beginning at 7:45 o'clock. All of the orchestra, the boxes and sections A. B. E. and F. of the dress circle will be reserved and special tickets will be issued, to be distributed among the Board of Education, the teachers and the friends and families of the graduates and prize winners. The remaining sections of the dress circle and all the gallery will be free to the public and it will be a case of first come, first served. Half and hour after the exercises begin the reserved portions of the hall will be opened to the public and the seats vacant at that time will be filled.

The exercises will be continued on the same general plan as in years past. There will be no chorus of children to sing and only the graduating class and the school officials will be seated on the platform.

The address of the evening will be by Prof. E. H. Griggs, of Brooklyn. There will be the salutatory and the valedictory, and the presentation of prizes and diplomas. The music for the occasion will be furnished by the Twelfth Regiment Orchestra, of New York.

Following the exercises in Music Hall, the alumni reception will be given at the Casino by the classes of '98 and '99.

New Bridge Over the Hackensack.

The Hudson and Bergen County Boards of Freeholders yesterday voted to build a new bridge over the Hackensack river at Seacaucus, on the Paterson plank road, at a cost not to exceed $250,000.

Local News on Pages 2 and 3.

DESERTED HIS BRIDE.

IT IS ALLEGED THAT JONES HAS GONE AWAY WITH FIRST LOVE.

Had Been Married for Four Weeks But Had Been Arrested in the Meantime.

Edward Jones, 28 years old, a mechanic at the Scott Printing Press Works has disappeared leaving a bride of a month ignorant of his whereabouts and without support. The wife has made complaint before Judge Runyon, asking a warrant for his apprehension.

From something the husband had said to a friend a few days before, it is believed he is on his way to South Carolina.

About four weeks ago Jones married his present wife. The marriage was quiet, but the couple had hardly got the cozy home arranged when a warrant for the arrest of Jones was served at the instance of a Miss Kelly, of Dunellen.

Jones was taken before Justice Moffett and remanded for a hearing before Justice Storms, of New Market, who held him in $200 bail to appear for trial. Jones' father advanced the bail and the young man was at work until Tuesday.

The surprise came when his wife heard that he had skipped the town and had returned to his first love, the Kelly girl, who is also missing. The wife is in distress.

OPENING OF THE CAMP.

Place for Sick Children on the Mountain Will be Ready on Friday.

The camp on the mountain for sick children will be opened for the summer Friday. An invitation is extended to all to visit the camp on that afternoon from 2 until 6 o'clock. Carriages will be in waiting at the terminus of the trolley to meet the 2, 3 and 4 o'clock car. It is earnestly hoped the people of Plainfield will take as great an interest in it this year as last, as it has been the means of saving many little ones who would have no other opportunity of leaving the heated city. 2 d

A Summer Festival.

The parish house of the Church of the Holy Cross will be the scene of an attractive festival this afternoon and evening. Thither every weary pilgrim should turn his steps—as to the elysium of summer people—a land flowing with ice cream and lemonade and blooming with the rose and the ever luscious strawberry. Art and nature will combine to make the affair pleasing to the eye and the palate. The festival is under the direction of the social and sales committee of the Womans' Guild.

Officers of Hillside Cemetery Association.

The Hillside Cemetery Association elected the following officers this week: President, J. W. Murray, Sr.; secretary and treasurer, Alex. Gilbert; executive committee, O. T. Waring, Alex. Gilbert and Mason W. Tyler. Three new members were elected as follows: O. T. Waring, J. Frank Hubbard and Charles W. McCutchen, who will take the places left by the death of L. W. Serrell, Charles Potter and Rowland Cox.

Mad Dog in West End.

Patrolman Mattox received word yesterday morning that a mad dog was running loose in the West End. He hurried to the scene of the trouble, but was unable to locate the animal. The search was kept up until late in the afternoon, but the last seen of the dog was in the vicinity of Clinton avenue.

State School's Alumni.

The New Jersey State Normal and Model Alumni Association will hold its twelfth annual meeting at the State schools, Trenton, Wednesday, June 20th, at noon. The programme will be quite elaborate, and will include an address of welcome by Prof. John Enright of Freehold.

Whist Party to Help Widow.

The first charity whist party ever held in New Brunswick was that at the home of Mrs. Max Lederer, Monday night. It was given for the family of Israel Ambrie, who lost his life in a runaway accident some weeks ago. Enough was realized to start the widow in business.

Hour of Meeting Changed.

Beginning next Sunday, the Sunday-school of the Congregational church will meet at 9:30 o'clock and the morning church service will begin at 10:45 o'clock. The Christian Endeavor meeting will be held in the evening at 7:30 o'clock as usual.

Miss Rand Won a Prize.

The thirty-second annual commencement exercises of Peddie Institute, Hightstown, were held at that place yesterday, and among the prizes awarded was the second Latin prize which was given to Miss Margaret Rand, of Plainfield.

REV. A. F. SHAFFER DEFENDS HIS ACTION.

Declares That He Acted Honorably With the German Lutheran Church.

DID HIS BEST WHILE HERE.

DENIES HE LEFT THE CHURCH IN AN UNFAIR MANNER.

Says That He Labored Hard and Earnestly to Build the German Lutheran, but He Found it an Uphill Job.

A lengthy letter has been received by The Daily Press from Rev. A. F. Shaffer, formerly pastor of St. Peter's Evangelical Lutheran church, concerning whom an article appeared in this paper last week. In the letter received Mr. Shaffer refutes several statements made by his former parishioners. He says that he never received a call to become the pastor of the church, and that he was free to go and come whenever he desired. In consequence he was never installed as pastor and never joined the district conference. He also says that "frequent absence" did not call forth any outspoken complaint, if it had he would have severed his relations sooner. He denies that he asked for three months' vacation, but says that it was suggested that he have a leave of absence to do more aggressive work in the neighborhood toward enlarging the charge, which task was promptly taken hold of. When there was opposition to this work by one or two he says that he gave it up and entered upon a new clerical engagement, which is a very satisfactory and remunerative one.

Mr. Shaffer says that the statement that a brief and unceremonial announcement from him that he was through with Plainfield and the church, is fiction. On the other hand he says that if the production of the courteous missive were challenged, it would reveal a recital of vain promises and unfulfilled pledges, exposing just cause for defendant's action. He denies furthermore, and says he can prove by postoffice officials that there was received by him a registered letter insisting upon resignation, and if this was true it would count for nothing as he never was extended a call to the church.

In conclusion Mr. Shaffer says that precisely the same charge was brought against the former pastor who, on a certain Sunday duly filled his morning appointment, but in the evening failed to materialize. He says that he does not wish to create any ill-feeling among the little band, whom he had the pleasure to serve, and for that reason withholds his opinion. He states that he loved the work and advanced considerable sacrifice and labor that apparently was appreciated once, also of which the church officers were loud in their praise to the end. He claims that he recommended the new candidate and even provided one-half of the traveling expenses during his supply trips.

Miss Bulkley a Bride.

Miss Julia E. Bulkley, former principal of the Plainfield public schools, was married on June 6th to Rev. James C. Shelland, D. D. The wedding took place at her brother's home at Danbury, Conn. Some of the alumni and former pupils of the schools of this city presented the bride with a handsome silver service. A very cordial note of thanks has been received.

Off on An Ocean Trip.

Frank James, son of John D. James, of Sycamore avenue, sailed a 4 o'clock this morning on the steamship "Horrox," as the guest of Captain Bayly. He will go to Manchester and through the ship canal, and from there will go to Barnet, Havershire, to visit relatives. He will be away about two months.

Those New Cars.

Superintendent Adelmann, of the Westfield and Elizabeth Street Railway Company, says that the new double truck open cars will be here very soon. They are expected every day, he says, and the company will then be able to give the Elizabeth-Plainfield line the best of service.

Lawn Fete to Be Held.

Quite an elaborate affair has been planned for the benefit of the Sunday-school library of the First M. E. church. It will be a lawn fete, to be held on the lawn of N. W. Pike, of East Front street, Monday evening.

Making Ready for a Big Blast.

Smalley Bros. are preparing for a big blast at their stone quarry on the mountain. It will be second to the one of a few weeks ago, which was the largest blast ever made.

SUNDAY-SCHOOL WORK.

NEW ENGLAND CONVENTION ELECTED ITS OFFICERS.

Business Session in Mt. Olive Church Last Night—Address by Rev. B. H. Walker.

The New England Baptist Sunday-school convention held its annual session in the Mt. Olive Baptist church, preceding the New England Baptist Missionary convention which opens this afternoon at 2 o'clock. Yesterday was devoted to hearing reports from the various fields of labor and devotional exercises. There were seventy-five delegates present at this convention, which showed that every department was in good condition.

Yesterday afternoon the annual election of officers was held and resulted as follows: President, Charles McGovern, Tarrytown, N. Y.; vice-president, Miss Harris, Providence, R. I; secretary, Mrs. Perkins, New York city; treasurer, Rev. C. Powell, New Haven, Conn.; board of directors, Rev. B. H. Walker, New York; Rev. A. G. Young, New Brunswick; Rev. J. S. Taylor, Hartford, Conn.

These officers were installed last evening, after which several reports were received from field missionaries. It was soon discovered that if all these reports were heard there would be no time left for the address, and they were laid over till this morning, when the convention closed.

Last evening the sermon was preached by Rev. B. H. Walker, pastor of the Mt. Olive Baptist church, of New York city. Dr. Walker is a divine of much note, having occupied Dr. MacArthur's pulpit in New York. He is highly educated and his sermon last evening was a powerful one. His text was "The Christian Religion Superior to Other Religions." He spoke of the Christian religion being founded by Christ who was the author of it. He thought that if Christ had consulted with men as to what kind of a religion He should give, no doubt His advisers would have had it in a trust by this time and they would want all the credit for its origin.

He spoke of God-fearing men and compared them with well-known infidels, whose words and acts have passed into oblivion, while God's word and his religion stands today unimpeached and constantly grows in the hearts of all believers in Christ. He urged all to more faithfulness in serving Christ and living according to His Holy Word. In conclusion he told what Christ has done, is doing and is willing to do, and throughout he held the closest attention of the large audience present.

The regular convention convened at 2 o'clock this afternoon, and the regular order will be followed from this time until the close next week Monday.

MAY REFUSE TO ACCEPT.

West Fifth Street Property Owners Do Not Like the Offer the City Has Made.

Some time ago the residents of West Fifth street petitioned the Common Council to macadamize that thoroughfare from curb to curb, between Grant and Monroe avenues. A large number of new houses have been erected on this street lately, and the increased traffic demands a more substantial roadway than that at present.

The Council acted upon the petition at their last meeting, but declined to macadamize the whole street, offering to do sixteen feet in the centre, provided the residents deposit twenty-nine cents per running foot before work is commenced.

The property owners think this is rather unjust and that they should be granted the same rights as the residents of Third and Fourth streets, and the majority of them are in favor of declining the Council's offer.

Articles of Incorporation Filed.
(Special to The Daily Press.)

Elizabeth, June 14.—The Interstate Mercantile Industrial Association filed articles of incorporation yesterday with the Clerk of Union county. The company will buy and sell implements of trade, educational supplies and general merchandise. It will begin business with $10,000 capital. The corporators are Maurice W. Vaughan, of Newark; William A. Harris, of Cranford; William B. Monroe, of Roselle, and George T. Davage, of Elizabeth.

Festival at Marconnier.

This evening a strawberry and ice cream festival will be held at Marconnier chapel, Oak Tree, for the purpose of raising money to erect a needed shed in the rear of the chapel. A stage will leave Trinity Reformed church at 7 o'clock, and the fare for the round trip will be 15 cents. Tickets, including ice cream, are 15 cents each.

Local News on Pages 2 and 3.

CITY'S POPULATION IS NEARLY 18,000.

Census Returns Will Show That Plainfield is Growing Larger Every Day.

MORE COLORED RESIDENTS.

TOTAL INCREASE OF 4,000 IN FAST FIVE YEARS.

Enumerators are Nearly Through With Their Duties and Will Soon Send Tabulated Returns to the Supervisor.

The census for 1900, which is nearly completed in Plainfield as far as the mere enumerating is concerned, promises to show a decided increase in the city's population during the past five years. The local census enumerators have been at work since June 1st, and have met with but little trouble. Their work is now almost completed and the tables of their results will be sent to the office of the Supervisior of Census at once.

It is impossible to ascertain as yet the exact figures in this city, but a careful estimate based on the returns so far received show that the figure will reach somewhere between 17,500 and 18,000. Fifteen years ago the population of Plainfield was 8,000. In 1890 the census showed the population to be 11,267. In 1895 it was 13,629. The greatest increase will be in the colored population which, in 1890, was only about 500, and is now not far from four times that number.

It is an assured fact that the population of North Plainfield has grown in the same proportion as the city—some think a little larger—and this means that the borough will probably show a total population of 6,000. This, with the immediate suburbs of the city, which is really a part of the town, will make Greater Plainfield show a population of close to 30,000.

HE COUNTED 2,200.

Fred Huff the First of the Local Census Enumerators to Finish His Job.

Fred Huff, of the Fourth ward, is the first of the Plainfield census enumerators to complete his work. He finished yesterday and his list foots up a total of 2,200 names. He had no trouble whatever in securing names; in fact everyone seemed glad to help him. The enumerators have until Saturday next to finish their work and there is no doubt but what they will come in by that time.

Kind Acts Appreciated.

The relatives of Miss Dissa Lund desire to thank Mrs. J. E. Tracy for her kindness to Miss Lund during her illness; also to Mrs. Bender for her care and attention during the period. They also wish to express to Rev. Mr. Newell their appreciation of his kind words of Christian cheer and comfort; also to the many friends who called to see her during her illness, bringing flowers and in other ways endeavoring to cheer and make brighter the last hours of her life. God will reward all those for their kindly sympathy, for he said: "Inasmuch as ye have done it unto one of the least, my brethern, ye have done it unto me."

Farmer Killed on the Railroad.
(Special to The Daily Press.)

High Bridge, June 14. — Albert Frank, a farmer living between here and Califon, was killed about one mile west of this place this morning at 8 o'clock. Frank was riding on the tank of engine No. 354, drawing a west-bound coal train and when about one mile west of here he jumped off in front of an east-bound fast freight. He was instantly killed and his body was terribly mangled.

Funeral of Little One.

The funeral services of Ida Louise, three-months-old daughter of Mr. and Mrs. John H. VanWinkle, of Duer street, were held yesterday afternoon at 2 o'clock from the home of the parents, and were private. Rev. Dr. W. R. Richards, pastor of the Crescent Avenue church, conducted the services. Interment took place in the family plot in the North Plainfield cemetery.

Cross County Trolley.

The trolley tracks between Westfield and Rahway are nearly completed. An arrangement has been effected between the Westfield and Elizabeth Street Railway and the Lehigh Valley officials for a crossing at Picton. For a short time passengers will have to transfer at the railroad.

—At the meeting of Washington Camp, No. 30, P. O. S. of A., next Monday evening, business of importance will be considered.

Local News on Pages 2 and 3.

NEW POLITICAL HEAD.

J. B. DUMONT CHAIRMAN OF REPUBLICAN CITY COMMITTEE.

Elected to Succeed Former Mayor Gilbert, Who Resigned the Position.

A new head has been chosen for the Republican city executive committee. At the meeting of the committee Tuesday evening, the resignation of Alexander Gilbert as chairman and a member of the committee was received and accepted with regret and Councilman John B. Dumont was elected chairman. Mr. Dumont's resignation as treasurer was accepted and it was decided to combine the office of treasurer with that of secretary, which is now filled by William Newcorn.

The troubles at Republican primaries in the past has been over the question of the eligibility of voters. It is a well-known fact that Democrats have voted in several of the primaries. The proposed enrollment of all Republican voters has been considered for some time. A committee was appointed to propose new rules, but an expression of opinion from the committee was desired before anything was done in the matter. There was not a dissenting voice in the committee, so it was decided to go ahead on the rules and adopt them at some future meeting.

There was some talk on the coming campaign and the advisibility of a city headquarters. J. F. Buckle, Dr. O. L. Jenkins and Roger F. Murray were appointed a committee to secure a transparency with the names of the candidates as soon as they are nominated. J. F. Buckle, John E. Keeley, Elliot T. Barrows and W. A. Westphal were appointed a committee on naturalization.

The secretary was instructed to call primaries on June 25th to elect delegates to both Congressional and State conventions.

DEMOCRATS PLAN TRIP.

Schedule Arranged for Jerseymen Going to the Democratic Convention in Kansas City.
(Special to The Daily Press.)

Jersey City June 14.—Congressman Daly, Robert Davis, Police Judge Murphy, of Hudson; ex Senator George Pfeiffer, of Camden, and Senator Johnston Cornish, of Warren, who constitute the committee of arrangements selected by the New Jersey delegation to the Democratic National convention, yesterday afternoon completed the arrangements for the trip to Kansas City. The delegates will travel in two Pullmans attached to the fast express leaving the Pennsylvania Railroad depot, Jersey City, Sunday, July 1st, at 6:13 p. m. At Newark the Essex delegates will be taken on board at 6:26 p. m. Philadelphia will be reached about 8:30 p. m., when the South Jersey delegates will get on board.

Kansas City is to be reached Tuesday morning, July 3d, in time for breakfast at the Victoria Hotel, where the New Jersey delegates will be lodged at $5 a day. Each delegate will pay for his own transportation, etc. Half rates will be charged by the railroad, thus making the carfare about $32, exclusive of Pullman berths.

Ex-Senator Pfeiffer will see to it that the train is well stocked with cold bottles. Congressman Daly will be spokesman for the delegation.

EIGHT YEARS IN PRISON.

Thomas Pyett Pleaded Guilty to Manslaughter.
(Special to The Daily Press.)

Elizabeth, June 14—Thomas Pyett, colored, who was indicted for murder by the last Grand Jury, was arraigned before Judge VanSyckel this morning and pleaded guilty to manslaughter. He was immediately sentenced to eight years in State prison. Pyett, it was alleged, struck a white man with a picket, causing his death.

A Monster Rose.

L. W. Randolph picked a rose from one of his bushes this morning which was five inches across the top and fourteen and a half inches in circumference. The rose is of the magna charta variety. It is pink in color and very fragrant. Mr. Randolph has another large one opening on the bush which will equal the measurements of the present one.

Hit in the Eye With a Ball.

Frank Lievers, of the West End, was hit directly under the eye with a ball while playing third base for the Pond team yesterday. He was knocked over by the force of the blow and his eye was cut and blackened.

Only Four Cases of Contagion.

There are only four cases of contagious disease in the city. All of the original cases of scarlet fever have been released from quarantine.

Local News on Pages 2 and 3.

ARLINGTON AVENUE TROLLEY OPENING.

New Line of Street Railway System is Now Ready for Operation.

RUNS TO THE CITY LIMITS.

CITY OFFICIALS INVITED TO RIDE ON FIRST CAR.

The Line Runs Through a Pretty Part of the City—Westfield and Cranford Citizens Object to Practices of the Company.

It was the intention of the Plainfield Street Railway Company to formally open the Arlington avenue extension of its lines tomorrow afternoon. The rain of this morning has so delayed the completion of the finishing touches that it is now probable that the first car to make the trip to the Hillside Cemetery will not start until Saturday afternoon.

The tracks have been finished for some time and only the placing of the trolley wire is to be completed. The work of putting that wire up has been going forward for the last two days. The connection with Fourth street line was made Wednesday and a gang of men are at work today.

The line leaves the present Fourth street branch at Arlington avenue and follows the latter thoroughfare to Randolph road, there turning to the left and passing out Randolph road across Park avenue. On the east side of Park avenue the trolley tracks parallel the road on a private right-of-way for a distance of a thousand feet and then turn to the left toward Woodland avenue on a private right-of-way. The road turns to the south again at Woodland avenue and follows that thoroughfare to the city line.

It was the intention of Superintendent Adelmann to run the first car over the Arlington avenue line tomorrow afternoon, leaving the North Avestation at 2 o'clock. Mayor Rockfellow, the members of the Common Council and other city officials were expected to be of the party. It was intended to make the trip to the end of the line and return and then, if there was time, take the party of dignitaries for a ride as far as the new bridge over the B. and O. tracks at Cranford Junction. If the line cannot be completed by tomorrow the opening will be postponed until Saturday afternoon.

A meeting of the property owners who oppose the building of the Springfield trolley extension on Broad street, in Westfield, without securing a new franchise on Broad street, was held at the residence of David Miller on Elm street, Westfield. The property owners claim that the franchise previously granted has expired by a time limitation.

It is said that the former Township Committee granted the franchise to build through Westfield on condition that the extension to Springfield be built, and that the company is simply endeavoring to live up to its agreement; also that it is not over anxious to build the Springfield line, but the abutting property owners on Broad street think different, and propose to combat the idea that the franchise is still available there.

Peter D. VanSaun has complained to the Cranford Township Committee concerning the fares charged by the trolley company between Elizabeth and Cranford. He said that the terms of the franchise called for a five-cent fare between Cranford and Elizabeth, which was violated, and stated that his wife and servant had been charged eight cents fare. As to his own experience, he had been charged but five cents, and said it had been suggested to him perhaps the conductors had knocked down the extra cents. At any rate he declared it to be an outrage on the citizens of the town to charge eight cents in violation of the terms of the franchise. The clerk stated that a five-cent fare was all that could be charged for a ride from Cranford to Elizabeth.

Street Repairs.

The steam roller has been enjoying a little excursion out West Seventh street to Arlington avenue where the roadbed is being repaired. When the trolley line was laid on Arlington avenue, it was found that the surface of the macadam on Seventh street was a trifle above grade and it was necessary to cut it down. Then the steam roller was called in to try to put the street back in its former excellent condition.

Inspecting Trolley by Locomobile.

Thomas Nevins, Jr., in company with John Adelmann, of this city, made a tour of inspection of the local trolley lines yesterday in the locomobile owned by the former.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Tomorrow evening the Borough Council will hold an adjourned meeting.

—Ballentine & Company have taken possession of their new building on West Second street.

—An important meeting of Trinity Commandery, No. 13, K. T., will be held next Monday evening.

—The members of Warren chapel will enjoy their annual excursion to Asbury Park on August 29th.

—W. C. Smith is doing the mason work in the erection of the public drinking fountain on North avenue.

—The beef, mutton and lamb you buy of J. C. Storm, 318 Liberty street, you will find tender, juicy and of good flavor. Give him an order.

—A very interesting musical programme will be presented at the Reform Club meeting tonight. There will also be good speaking.

—There will be a strawberry festival this evening at the First Baptist church under the auspices of the Christian Endeavor Society.

—Arrangements are now complete for the alumni reception to be given in the Park Club to the graduates of the borough school, June 22d.

—Rough and split straw hats, negligé shirts, all the latest patterns, and a full line of summer underwear will be found at James R. Blair's, 126 Park avenue.

—Lace curtains and blankets cleaned a dainty white without injury. One of the best-equipped laundries in the State is the City Steam and Hand Laundry, 19 Somerset street.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—The Christian Endeavor Society of the First Baptist church will meet at the church tomorrow evening and go in a body to the Crescent Avenue church, where Dr. Paton will speak.

—Two hundred and fifty thousand plants of all kinds and a large stock of fresh cut flowers always on hand. Floral design work a specialty. Send for list and prices to Charles L. Stanley, 142 North avenue.

—Peck is not like the little boy who "always stood head in his class" because he happened to be the only pupil in it. "There are others in the same business as Peck." The reason he is ahead is that he gives you more value for your money.

THEATRICAL.

With three of the best ventilated theatres in New York city, F. F. Proctor possesses a marked advantage to cope with the heat of the summer months, and besides huge electric fans in use throughout the auditoriums, constantly changing the currents of air. And, if this were not enough, large palm leaf fans are attached to each suit and usher boys are continually passing iced water to the patrons. The programmes of vaudeville have never been of a higher plan, and lovers of the "continuous" are assured of seeing, at these houses, quite the best things in summer theatricals. The Proctor prices are amazingly low, the orchestras, 50 cents, and the balconies, 25 cents, when it is considered what conveniences, not to mention the quality of the performances, are shown the patrons of Protor's theatres. It hardly seems necessary to state that when Mr. Proctor opens his new theatre on 125th street about September 1st, as his fourth continuous performance theatre in New York City, no liquors will be sold nor smoking allowed in the auditorium, as in the past. Most extensive improvements are now under way and Proctors Harlem continuous theatre will indeed be a model vaudeville palace.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. H. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

Mr. and Mrs. Paul, of Central avenue, have left home to spend three months at various places of interest. During their absence their home will be occupied by Mr. and Mrs. Borton and Miss Pittenger, of this city.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

THE HAVANA FRAUDS.

Investigation Will Close In About Two Weeks.

WASHINGTON, June 14.—Fourth Assistant Postmaster General Bristow, who has been in charge of the official investigation into the Cuban postal frauds, will close the investigation and return to Washington in about a fortnight. He has been in constant communication with Postmaster General Smith regarding the developments of the investigation and on arriving in Washington will make a full report. Captain Smith, inspector in charge of the Washington division, who was one of the first of the inspectors dispatched to Havana, is now on the way home from Havana and will report to the postmaster general in a few days. He is coming home at this time on account of ill health, but will submit a report that is expected to throw considerable light on the situation. Ten inspectors in all have been detailed for the investigation, but two of those ordered there have not started.

A report was published yesterday that it has been discovered that the figures of Mr. Rathbone, the suspended director of posts, on the postal expenses, even with the lavish outlay alleged, will not account for the cost of the service which has been charged against the Cuban treasury. Postmaster General Smith, when seen last night, was disinclined to discuss the report, but denied any knowledge of such a discovery. He said there had been no new developments. At the same time official reports all along have emphasized the incomplete and chaotic condition of the accounts of the service.

As the matter now stands the postal authorities figure on a shortage of $85,000, exclusive of the $411,000 worth of surcharged stamps intrusted to Neely for destruction and concerning which there is no reliable information. Some portion of these, it is known, was burned, but the officials have not the slightest idea what proportion the destroyed stamps bore to the whole.

The postmaster general announces positively that Mr. Rathbone will not again hold office in the postal service, but would not indicate when his removal would be made or who the next director of Cuban posts will be. The figures so far at hand disclose a condition of affairs sufficiently serious to make Mr. Rathbone's presence on the island necessary until the investigation is over, though so far as has been given out no actual wrongdoing has been fastened upon the suspended director.

A CLEVER ARREST.

Champion, Wanted In Connection With Maine Tragedy, In Custody.

MILFORD, Mass., June 14.—Inspectors McCausland, Collins and Kensie of Boston, assisted by Deputy Sheriffs Jenkins and Snell, arrested last evening at the boarding house of Mrs. Mary Pierce, 9 Franklin street, a man supposed to be George Champion, who is wanted in connection with the quadruple murder in West Newfield, Me., and his wife.

The Boston officers followed the trail of the couple from the South station in Boston by means of a peculiarly shaped trunk to South Framingham, then from South Framingham to Milford, effecting their arrest within two hours after they had reached this town. Upon their arrival here the suspects went to Mrs. Pierce's house, where they applied for board and lodgings, and when the officer found them they were in the yard of the Pierce house, where the man supposed to be Champion was coolly smoking a cigar, evidently thinking that he was secure from detection. The couple were taken to Deputy Sheriff Jenkins' office, where for more than an hour they were subjected to sharp questioning, but whatever facts were brought out were carefully guarded by the officers.

It was reported that the man acknowledged that he was Champion, and it is certain that he answered the description that has been sent broadcast throughout New England in a very marked degree. He refused to talk with newspaper men, saying that there would be time enough to talk later.

Republican Committee Meeting.

PHILADELPHIA, June 14.—The Republican national committee met at the Hotel Walton at noon yesterday and immediately began the investigation of contest cases preparatory to the formation of the temporary roll for the national convention. Chairman Hanna was not present when the committee was convened, and Mr. Henry D. Payne, member from Wisconsin, was chosen to preside in his place. Senator Hanna came in from Washington about half past 1, but he did not assume the duties of the chair during the afternoon. The entire afternoon session was devoted to hearing the recital of testimony and to arguments in the contests from the state of Alabama. There were seven contests from this state. So palpable did it become that the federal patronage was the principal object in view that the committee was not long in reaching a decision to practically exclude all the contesting delegates from the temporary organization of the convention except those from the Ninth district.

Naval Movements.

WASHINGTON, June 14.—The north Atlantic squadron—the New York, Texas, Kearsarge, Indiana and Massachusetts—sailed yesterday from Newport for Boston. The Potomac has sailed from Tortugas for Key West. The Mayflower has been ordered commissioned, the date to be determined later. The Rodgers was launched at the New York navy yard and will be put in commission three or four days later. The Yorktown has sailed from Shanghai for Chefu, the Adams from Victoria, B. C., for Astoria, the Hartford from Tompkinsville for Boston and the Amphitrite from Tompkinsville for New Bedford.

First Census Returns.

WASHINGTON, June 14.—The census bureau is in receipt of the first completed schedules, about 53 in number, which were received from New York city. It is expected that within two weeks the results of the count in some of the large cities will be made known.

Two Millions In Gold Dust.

SAN FRANCISCO, June 14.—Private advices state that the steamer A. F. Gustin left Dawson on June 4 for St. Michael's carrying $2,000,000 in gold dust. She was expected to connect with the Zealandia at St. Michael's for this port.

Fatal Gas Explosion.

SCRANTON, Pa., June 14.—An explosion of gas occurred yesterday in the upper split of the red ash vein in the William colliery at Lackawanna, and one man was killed and three others badly burned and injured.

A Great Bargain Sale

THIS SATURDAY

in Men's and Children's Clothing.

No greater bargains were ever before offered in clothing, none to equal it is expected again this season. Just think of it, you can come to our store and buy a first-class men's blue serge suit, made with a double breasted vest, up-to-date in style, at 5.75, that other stores would ask, for no better suit, $12.00.

Who ever heard of any clothing store that will give you a choice of fifteen different styles of men's suits to choose from, suits that formerly sold at 8.00, 9.00, 10.00 and 11.00, and a good bargain at that price, to go at this bargain sale at 4.50 and 5.25.

Very extra fine Dress Suits consisting of the choicest worsted stripes and velour finished cassimeres, made in checks and small plaids, double breasted vests at 6.25 and 6.75, no other store in the U. S. would sell them for less than 12.00 to 15.00.

Men's Trousers at sacrifice prices, over 4,000 pairs to choose from, they are made of the finest cloth, at prices that no other house could equal them.

We have specials in Straw Hats, a 50c hat at 25c, a 1.00 hat at 45c, etc.

In children's clothing we are positively the leaders of Plainfield, we have them from 75c and upwards a suit.

These are only a few of the thousands of bargains that are waiting your call. Don't delay. Don't miss it, and come early and avoid the great Saturday night's crowds.

NEW YORK CLOTHING CO.,

M. WEINBERGER, Mgr.

BUCKEYE DEMOCRATS.

Bryan Indorsed and the Silver Question Dodged.

COLUMBUS, O., June 14.—After a continuous session of over nine hours the Democratic state convention adjourned last night. It was a slate smashing and record breaking convention. The McLean men said they were asking for nothing, and they certainly got nothing. They helped those who have been opposing them to the places of party distinction and responsibility. It was this free for all situation that brought about the demoralization of the day. There were some who insisted on taking their cues from the delegates of Hamilton county, the home of John R. McLean, as usual but the Cincinnati delegates were hard to follow. Louis Reemelin of Cincinnati was defeated for chairman of the state committee, when he ran on his own account and without consulting even the Cincinnati delegates, after the McLean men had been declaring they would ask for nothing, and his brother's name was presented for secretary of state without authority and withdrawn on authority from the Hamilton county delegation.

At the same time the Hamilton county delegation cast its vote solidly for other favorites. There was a notable absence of the McLean leaders here this week, and very few of those who were in the city outside of the delegates went to the convention hall.

The delegates were instructed for Bryan, but the resolutions adopted hedged on the silver issue.

Delegates at large: James Kilbourne, Abraham W. Patrick, William S. Thomas and Horace L. Chapman. Alternates: M. O. Burns, John McSweeney, C. P. Brumach and M. B. Clayburn. Electors at large: General Isaac R. Sherwood and General A. J. Warner. Secretary of state, H. H. McFadden; judge of the supreme court, Allen W. Smalley; dairy and food commissioner, Ballard B. Yates; school commissioner, J. D. Simpkins; member of board of public works, Peter Y. Brown.

STRIKE LEADER'S THROAT CUT.

St. Louis Strike Likely to Result In Victory For Transit Company.

ST. LOUIS, June 14.—Shortly before midnight Sherman Patterson, president of the Street Car Employees' union, in whose house at 2,714A South Twenty-seventh street the St. Louis organization had its birth, was mortally wounded by Ed Cantry in a saloon quarrel over the merits of the strike. Patterson's throat was cut. He was taken to the hospital, and his assailant was locked up at the Chestnut street station.

Appearances indicate the beginning of the end of the riotous demonstrations and scenes of bloodshed that have characterized the street railway strike for over a month past. In many quarters it is thought the strike itself will soon be settled. These opinions are based upon statements of the chief of police and sheriff that the critical stage has been passed and upon the fact that the St. Louis Transit company is slowly but surely approaching a complete resumption of business with the aid of nonunion men.

The inquest over the bodies of the victims of Sunday's riot began yesterday. The testimony adduced was not of a character calculated to base a decision as to which side was to blame for beginning hostilities, the witnesses disagreeing on material points. Some placed the blame on the possemen, and others placed it on the strikers. Many contradictions have arisen in the accounts of Sunday's tragedy, and these were emphasized in the testimony taken.

The Deweys Return.

WASHINGTON, June 14.—Admiral Dewey and party returned to Washington over the Baltimore and Ohio at 8:50 o'clock last evening, ten minutes ahead of schedule time. The party comprised the admiral and Mrs. Dewey, Lieutenant Caldwell, the admiral's aid, and Mr. J. H. Maddy, representing the Baltimore and Ohio road. The trip home from Michigan was without special incident. Mrs. Dewey has practically recovered from a slight attack of tonsilitis she suffered while out west. The admiral greatly enjoyed his eight days' outing aboard the special, and as the train backed into the depot here he greeted a naval officer, the only one specially awaiting him, with a hearty shout of pleasure from the rear platform, saying, "We're ahead of time, as usual." A carriage was in waiting for the admiral and Mrs. Dewey, and they drove directly home, leaving the Chinese valet to carry a few floral souvenirs of the trip.

Six Men Killed.

WILLIAMSPORT, Pa., June 14.—Six men were killed and another fatally injured on a logging railroad at Cammal, about 36 miles from this place, yesterday. A train jumped the track in some unaccountable manner and plunged down a 300 foot embankment. Both fireman and engineer were instantly killed, as also were four Italian laborers. The cars and engine were literally smashed to kindling. The county coroner and an undertaker left this city at midnight for the scene.

Weather Probabilities.

Fair; brisk southerly winds, shifting to southwesterly.

New York Markets.

NEW YORK, June 13.—FLOUR—State and western firmly held, but still neglected, owing to a lack of confidence among buyers; Minnesota patents, $3.80a4.15; winter straights, $3.50a3.65; winter extras, $2.60a2.90; winter patents, $3.65a4.

WHEAT—Displayed early weakness under bearish cable news and rains in the northwest, but recovered on later buying for a reaction; July, 76⅝a77⅝c.; September, 78 1-16a79⅛c.

RYE—Dull; state, 58c., c. i. f., New York, carlots; No. 2 western, 62½c., f. o. b., afloat.

CORN—Opened weak, on account of favorable crop conditions and liquidation, but afterward rallied with wheat; July, 43⅜a44c.; September, 44⅛a44⅜c.

OATS — Inactive and barely steady; track, white, state, 28½a34½c.; track, white, western, 28½a34½c.

PORK—Easy; mess, $12a12.75; family, $13.50a14.25.

LARD — Weak; prime western steam, 6.90c.

BUTTER—Steady; state dairy, 15a18½c.; state creamery, extras, 15½a19c.

CHEESE—Firm; large white, 9½a9⅝c.; small white, 8⅝a9c.

EGGS—Steady; state and Pennsylvania, 14a15c.; western loss off, 13½a14c.

SUGAR — Raw firm; fair refining, 4⅛c.; centrifugal, 96 test, 4⅝c.; refined steady; crushed, 6c.; powdered, 5.70c.

TURPENTINE—Easy at 45½a46c.

MOLASSES—Firm; New Orleans, 44a55c.

RICE—Steady; domestic, 4⅛a6½c.; Japan, 4⅝a4⅞c.

TALLOW—Steady; city, 4¼a4⅜c.; country, 4⅝a4½c.

HAY—Quiet; shipping, 65a70c.; good to choice, 80a90c.

MARINES FOR MANILA

A Battalion to Replace Those Sent to China.

DEATH OF MISSIONARY UNCONFIRMED

Information Received That the Empress Dowager Will Not Object to Foreign Troops In Chinese Territory.

WASHINGTON, June 14.—The navy department already had taken steps to send more marines to Manila before the appeal of Admiral Remey came. The formal announcement took the shape of this bulletin: "Measures are being taken at the navy department to send a battalion of marines to the Philippines. These men are wanted for service at certain naval stations in the Philippines and to replace about 80 marines who have been sent into Chinese waters."

A marine battalion is only about 250 strong. The men could be gathered up at short notice from the marines now at the Naval academy and the New York, League Island and Washington navy yards, so it is expected that they will be on their way to Manila by Aug. 1 at the latest.

It is figured at the department that there are now about 2,000 marines in the Philippines and at Guam, the larger part of the force not afloat being stationed at the Cavite naval station. This is the largest naval reservation under the control of the navy department, with a water front of about 14 miles, and the withdrawal of the soldiers has made it necessary to maintain a large force of marines to garrison the reservation and keep down the insurgents, who are numerous in Cavite province. The other points mentioned in Admiral Remey's cablegram also are naval or coaling stations, and as they have been turned over to the navy the army naturally does not care to be charged with their maintenance, especially as there is so much work for the soldiers elsewhere.

The state department has heard nothing officially about the reported killing of the American missionary and the Japanese secretary of legation at Peking. In fact, nothing has been heard from Mr. Conger since his cablegram of Tuesday night. The news of the killing of the first American missionary caused a shock at the department, as it is realized that this adds greatly to the gravity of the problem awaiting settlement by the department.

Definite official information has been received here from the foreign office of one of the most important continental powers stating that the tsung-li-yamen had notified the minister of that power at Peking that the dowager empress would not object to the presence of foreign troops in China's territory. Vague unofficial rumors to this effect had been current, but the information received here was from such a high official source as to leave no doubt that the empress dowager, who practically constitutes the government of China, had made known this determination not to object to the presence of foreign troops.

In official Russian quarters the rumors that the empress dowager has sought a refuge at the Russian legation in Peking are discredited and are resented as a bit of inspired intrigue designed to create the impression that Russian sympathies are with the antiforeign element. It is pointed out that Russia's course has been marked by the utmost reserve, for while it would have been possible at any time to land large forces in China, the Russian force actually landed has been comparatively insignificant, mainly for the reason that Russia desires to be wholly free from any imputation of ulterior designs.

Chinese Intrenching Outside Peking.

LONDON, June 14.—Peking appears to be completely isolated. None of the morning papers or news agencies has a word from there direct today. The latest message received in London is the one announcing that the Chinese are intrenching outside of Peking to oppose the advance of the international column. A dispatch from Tien-tsin, dated Tuesday, June 12, says: "I learn that the Chinese have guns trained on the American mission and the British legation. Two thousand Russian cavalry and infantry, with artillery, have landed at Taku." The Shanghai correspondents report that United States Minister Conger by courier asks for 2,000 United States troops.

Marines Start For China.

MANILA, June 14.—In response to a cablegram from Admiral Kempff at Taku a battalion of 100 marines which it was intended to send to Guam to relieve the garrison there sailed for Tien-tsin, China, at midnight last night on the hospital ship Solace. They are commanded by Major Waller and Lieutenants Reed, Powell, Butler and Wagner. It is expected that other marines will follow and probably a supply ship will be sent along. It is also probable that the cruisers New Orleans and Brooklyn will be sent to Admiral Kempff.

Kentucky Democrats Meet.

LOUISVILLE, June 14.—The Kentucky Democratic state convention met this afternoon to select delegates at large to the Democratic national convention in Kansas City and two presidential electors at large. The convention was called to order by Allie W. Young, chairman of the state central committee. Judge Frank E. Daugherty of Nelson county was the only candidate for temporary chairman. Ollie M. James of Marion will probably be permanent chairman. It is regarded as almost certain that Senator Elect J. C. S. Blackburn, ex-Governor James B. McCreary and Louis McQuown of Warren will be three of the four delegates to the national convention.

German Navy Bill Passed.

BERLIN, June 14.—The bundesrath has approved the navy bill, already passed by the reichstag. Emperor William, who is said to be delighted at the result, will today sign the bill, and the Reichsanzeiger will immediately thereafter publish it, thus making it a law. It is reported that the kaiser, when news that the bill had passed was wired him, exclaimed: "Now we know where we stand. At last there is solid bottom under one's feet."

Fatal Boiler Explosion.

ST. MARY'S, O., June 14.—By the explosion of a large boiler at the St. Mary's Spoke works Wesley Morse and C. A. Gilbert were killed and Jacob McCoy and H. M. Davis severely injured. The building was badly damaged.

WORD FROM ROBERTS

Pretoria and Johannesburg Perfectly Quiet.

BOERS RETIRE BEFORE BULLER.

President Kruger Ready For Immediate Flight—Transvaal Capital Soon to Be Moved to a Mountain Town.

LONDON, June 14.—The dispatch from Lord Roberts clearing up the situation at Pretoria and along the communications stands alone. Military observers, noting that no mention is made of prisoners, assume that General De Wet got away with his forces practically intact.

A lengthy dispatch forwarded to the war office by Major General Knox from Kroonstadt, presumably sent there by messenger, reads as follows:

"We have been requested to forward you from Lord Roberts the following dispatch from the Pretoria residency at 8:08 a. m. today:

"'Pretoria and Johannesburg are perfectly quiet, and several of the inhabitants have expressed gratitude for the peace and order which prevail.

"'After surrendering the city Botha retired to a place about 15 miles east on the Middleburg road. He had a small force at first, but during the last few days his numbers increased, and his being so near the town kept up the excitement in the country, prevented the burghers from laying down their arms and interfered with the collection of supplies. It therefore became necessary to attack him. This I did yesterday. He held a very strong position, practically unassailable in front, which enabled him to place the main portion of his troops on his flanks, which he knew from former experience were his vulnerable parts. I sent French with Porter's and Dixon's cavalry brigades and Hutton's mounted infantry round by our left and Ian Hamilton, with Broadwood and Gordon's cavalry brigade, Ridley's mounted infantry and Bruce Hamilton's infantry brigade round by our right. Both columns met with great opposition. At about 3 in the afternoon I saw two of Hamilton's infantry battalions advancing to what appeared to be the key of the enemy's defense on their left flank. This was almost gained before dark, and I ordered the force to bivouac on the ground they had won.

"'Pole-Carew, with his division, occupied our center.

"'As I have explained, he could not attack, but he gradually advanced, so as to support Ian Hamilton, and when I left the field he was on the line held by the enemy's outposts in the morning.

"'I hurried back to get news of Methuen's movement. On hearing that the Free Staters had taken advantage of our crossing the Vaal to interrupt our line of communication I sent Kitchener with such troops as I could then spare to Ver [Vredefort?] with orders to push south and communicate with Methuen, who, I knew, had a very compact force in the vicinity of Heilbron. I also dispatched a special messenger to Methuen, instructing him to push on at all speed to the main line of railway. These two officers met at Vredefort road station in the evening of June 10. They marched yesterday to Rhenoster river, where Methuen gained a complete victory over De Wet and took possession of his camp and scattered his troops in all directions. He and Kitchener marched today toward Kroonstadt.

"'Her majesty's government need have no apprehension as to the security of the army in South Africa. The enemy gained a slight success, which was unfortunate, but which will be remedied very shortly, and it will not take long to repair the damage done to the railway. As these diversions are all in existence, I am now able to hold the line between this and Rhenoster in strength. Methuen will arrange to guard it onward as he advances.'"

General Buller entered Volksrust on Wednesday, passed through Charleston and encamped near Laingsnek. The tunnel was not much damaged. Both ends were blown up, but the engineers think that repairs can be effected in about four days.

The advance troops of General Buller saw the Boer rear guard four miles distant yesterday. It was estimated that 8,000 Boers were withdrawing. The townspeople at Ermelo counted 15 guns.

Three hundred Free Staters, released from guarding Van Reenen's pass, have gone to join President Steyn's commando in the eastern part of Orange River Colony. General Rundle has sent notice to the Free Staters that unless they surrender by June 15 their farms and other possessions will be confiscated.

President Kruger, according to a dispatch from Lourenco Marques, keeps a locomotive with steam up, attached to the car in which he concentrates the executive offices of the government, and he intends to leave Machadodorp soon and to establish the Transvaal capital at Nelspruit, in the mountains, a fine defensive region.

The state printing press is operating at Machadodorp, producing leaflets containing war news for distribution among the Boers.

It is again reported at Lourenco Marques that the British are advancing through Swaziland. Lord Roberts, it appears, however, countermanded the order given to Strathcona's horse to land on the coast and to penetrate to the Transvaal through the Swazi country.

An Embezzler Returns.

INDIANAPOLIS, June 14.—John E. Sullivan, the absconding clerk of Marion county, who fled in 1889 under a charge of embezzling about $80,000 of public money, has just returned to Indianapolis. He came here from Greencastle, Ind. He said that after 11 years of wandering he wants to face his accusers. It is understood he spent several years in Canada.

Postmasters Appointed.

WASHINGTON, June 14.—The following fourth class postmasters have been appointed: Connecticut—South Killingly, W. E. Vaughn. Maryland—Beane, A. E. Rabbitt. New York—Apulia, R. H. Gallinger; Bartlett Carry, A. T. Throop; Gilboa, H. L. Reed; Walker Valley, John Houston. Pennsylvania—Rupp, A. C. Camp.

To Represent Peru.

LIMA, Peru, June 14.—The Peruvian government has appointed Dr. Manuel Alvarez Calderon, now visiting the United States, to be the representative of Peru at the Pan-American congress.

BRIGHT'S DISEASE CURED.

Dr. Holtin's Kidney Tablets have cured many cases of early Bright's Disease. The cases are on record.

Any one afflicted with any form of kidney or bladder ailment needs no better recommendation for a remedy than that.

Dr. Holtin's Kidney Tablets are made from the prescription of a practicing physician, and are for sale everywhere in drug stores.

Beware of counterfeit preparations; get the genuine. Sold in two sizes of packages—25c and 50c.

BRIDGE WORK

in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5
Gold Crown, 22-k	from $5
Gold Filling	from $1 up
Silver Filling	75c
Cement Filling	50c
Cleaning	75c
Extracting	25c
Painless Extracting	50c
Gas, first tooth	$1
Each one after	50c

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Thorn, of East Third street, has recovered from her late illness.

Miss Josie Fritz, of Somerset street, has been visiting Brooklyn friends.

Samuel Terry, of East Third street, is improved from his recent illness.

Mrs. Tildon and family, of Richmond street, are visiting out-of-town friends.

Mr. and Mrs. McBeth, of Newark, have been visiting Plainfield relatives.

Mrs. G. W. F. Randolph, of West End Park, is visiting relatives in the west.

F. D. Woodhull, of West End Park, is now improving from his tedious illness.

Charles Dunham, of Bound Brook, was in Plainfield yesterday on business.

Mrs. B. W. Hand, of West Second street, has been visiting out-of-town friends.

Mrs. Dudley S. Miller, of Orchard place, has recovered from her recent illness.

John Duffy has returned to the borough from an extended stay in Brooklyn.

James Patterson, Jr., of West Front street, is much improved from his recent illness.

Mayor Smalley, of the borough, has about recovered from an attack of quinsey sore throat.

James Bushby, of West Third street, has taken a position with the Aluminum Plate and Press Company.

Mrs. William Cadmus and family, of Brooklyn, are visiting Mr. and Mrs. Lemuel Cole, of West Front street.

Mr. and Mrs. George Borton, of 410 Central avenue, will leave Plainfield today to visit friends for a few days.

Miss Nellie Messenger, of North avenue, was called to Easton, Pa., yesterday to attend the funeral of a relative.

Abram Hooley, of New York, is stopping with his mother at the home of Mrs. J. R. Truell, of Central avenue, for a time.

Mrs. Wm. Shaffer, of Front street, will go to North Branch today to attend the wedding of Miss Mary Kline to Charles VanDoren.

Mr. and Mrs. A. E. Metler, of East Second street, left last evening by the Lehigh Valley Railroad from South Plainfield for Niagara Falls, where they will spend today. From there they will go to Adrian, Michigan, to visit Mrs. Metler's parents. After a short time they will go to the mountains of Pennsylvania, where they will engage in missionary work among the poor mountaineers. They expect to be absent from Plainfield about two months.

REDUCED RATES TO KANSAS CITY.

Via Pennsylvania Railroad.

For the National Democratic Convention, to be held at Kansas City, July 4, the Pennsylvania Railroad Company will sell excursion tickets to Kansas City from all stations on its line at rate of one first-class fare for the round trip. Tickets to be sold and good going July 1, 2 and 3, and to return until July 9, inclusive. These tickets will be good on all trains except the Pennsylvania Limited, and must be used for continuous passage. 6-14 20 27

—The sprinkling of streets in the borough under the supervision of the street committee is exceedingly satisfactory to the residents.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

—Pythian Memorial Day will be observed next Sunday by Crescent Division, No. 13, U. R. K. of P.

BIDS FOR ARMOR.

Navy Department Issues New Form of Advertisement.

WASHINGTON, June 14.—The navy department has completed the preparation of a circular calling for bids for supplying armor plate to the navy, and it will be ready for issue as soon as some typographical changes have been made. For the first time the department has adopted the policy of classifying the armor called for in the advertisement. Under the price heretofore paid for armor it was scarcely worth while to make any distinction between the various grades of armor required. At the enhanced price now prevailing a considerable saving can be effected by classifying the armor. Thus the advertisement calls first for the highest quality face hardened armor treated by the Krupp process. The second class is composed of armor of generally lesser thickness than class 1, used in places where the requirements are not so severe, and in this case the ordinary harveyized armor will serve. Class 3 will be made up of thin plates, bolts, nuts, etc., material not requiring any kind of hardening process.

The present requirement is that the armor makers must furnish armor of a certain specified grade. The new circular contains an important addition in that the armor makers are to supply armor of the very highest grade. Under that clause if there are improvements in production tending to enhance the quality of the armor the contractors must give them to the government without extra cost.

The circular, as already forecasted, provides for the reception of bids for three specified quantities of armor, and the largest quantity needed is called for at once to test the ability of the government to secure a reduction of price in armor by placing a large order.

The ordnance bureau has not yet been acquainted with the reported intention of one of the great steelworking concerns in the United States to enter into competition with the two companies which have supplied armor for the navy heretofore.

CONDENSED DISPATCHES.

Rumors of trouble among the Indians at Walker, Minn., proved unfounded.

Hawaii's delegates to the Republican national convention arrived at San Francisco.

The Princeton athletic team selected to compete in England and France sailed on the St. Louis.

The court of claims decided that Admiral Sampson was in command at Santiago and that Admiral Schley was his subordinate.

Lyman C. Smith of Syracuse announced his intention of giving to Syracuse university an engineering department to cost between $500,000 and $750,000.

Sheriff Suter of Frankfort, Ky., reached Indianapolis with a requisition for W. S. Taylor, charging him with being an accessory to the Goebel murder. Governor Mount refused to honor it.

Otis Day Tomorrow.

WASHINGTON, June 14.—Major General E. S. Otis, who left the city Monday night to attend the graduating exercises at West Point, returned here yesterday. The general's stay in Washington was brief, as after a call on the president today for a more protracted conference than that of Monday he left the city for Rochester, where a celebration in his honor is to be given tomorrow. The general's daughters, the Misses Otis, joined their father on his return here.

Dead From Blood Poison.

ROCKVILLE, Conn., June 14.—Dr. Eldridge K. Leonard, one of the oldest practicing physicians in the city, died at his home, on Elm street, late yesterday from blood poisoning, aged 69 years. He is survived by a widow and two sons. Dr. Leonard assisted Dr. Storrs of Hartford in the removal of an abscess on the liver of a Rockville boy some two weeks ago and later took charge of the patient. Dr. Storrs died of blood poisoning from the operation ten days later.

A Narrow Escape.

TICONDEROGA, N. Y., June 14.—A special train on the Delaware and Hudson, conveying members of the New York Society of Colonial Wars and the Daughters of the American Revolution to Ticonderoga, crashed into a freight train near the Port Henry depot. The crews of both engines jumped and saved their lives. The passengers on the special were badly shaken up, and several were bruised, but none were killed.

Postoffice Receipts.

WASHINGTON, June 14.—A statement prepared at the postoffice department shows that the receipts at 50 of the larger postoffices during the past month were $264,919 in excess of the receipts during May, 1899. The increase amounted to 7.4 per cent. The largest increases in percentage were at Nashville, 27.9; Milwaukee, 23.7; Des Moines, 21.4, and Jersey City, 21.2.

Appointment For Bynum.

WASHINGTON, June 14.—The president has appointed ex-Representative W. D. Bynum of Indiana a member of the commission to codify the criminal laws of the United States, vice D. B. Culberson, deceased.

Gunboats For Ashanti Relief.

LONDON, June 14.—Five river gunboats have been ordered to go to the operations of the Ashanti relief expedition.

COLER ON THE COALS

New York City's Comptroller Accused of Wrongdoing.

AN IMMEDIATE HEARING DEMANDED

The Attack, He Says, Is Inspired by Personal Spite—Partner Says It's a Political Move to Hurt His Prospects.

NEW YORK, June 14.—In regard to the charges of malfeasance in office brought by Hon. Jacob W. Mack against Comptroller Coler the following telegram, dated Champaign, Ills., June 13, received last night by the Associated Press, is self explanatory:

"The attack evidently is inspired by personal enmities. The matter of the the award was taken into court by the unsuccessful bidders, and Judge Cohen decided very strongly in my favor. The attorney is the same man that is suing me for Auditor Cook for $50,000 damages. I have wired the governor for an immediate hearing. I do not think any one connected with the unsuccessful bidders has anything to do with the matter. Conspiracy is all rot.

"BIRD S. COLER."

Announcement was made in this city yesterday that charges of a sensational character had been filed with Governor Roosevelt against Comptroller Bird S. Coler by Jacob W. Mack, a member of the Chamber of Commerce and a prominent financier. Mr. Coler is accused of "official wrongdoing" and what practically amounts to conspiracy.

Governor Roosevelt, it was said, has accepted the charges and will order an investigation at once.

It is charged against the comptroller that in 1898 he threw out 31 bids for bonds from reliable financial concerns and accepted one from the Produce Exchange Trust Company syndicate, which bid lower than the concerns mentioned, and that before the bids were received the comptroller caused the announcement that the city's debt limit had been exceeded by more than $10,000,000, thereby frightening investors from bidding for the city bonds at the sales.

It is further alleged that a brother of the comptroller, a member of the banking firm of W. M. Coler & Co., of which firm the comptroller is also a member, was actively interested in the syndicate which succeeded in getting the bonds at the small figure of 104.94. The sum lost to the city, it is charged, was $222,029.

It is asserted that if the comptroller's statement concerning the debt limit being exceeded was true he has been guilty of an indictable crime for selling more bonds.

L. H. Hole of W. N. Coler & Co., when shown the charges, said that although he was not authorized to speak for the comptroller he knew the firm of W. N. Coler & Co. had not been interested in the sale of the bonds. The comptroller, he added, had submitted every step he proposed to take in the matter to former Judge Dillon and had followed his advice. The matter was not new by any means, Mr. Hole said, as the story had been rehashed time and time again. Besides this he alleged the comptroller had been sustained in his view by the courts and that the comptroller gained nothing by his action.

"It is a political move, pure and simple," said Mr. Hole. He explained this by stating that the comptroller's name had been mentioned for governor and said the filing of the charges was intended perhaps to injure his chances.

Murder and Attempted Suicide.

NEW YORK, June 14.—A. W. Jennings, a wealthy farmer living at Saddle River, three miles from Ramsey, N. J., was shot and killed yesterday afternoon by Edward Burnett, his adopted son. The murderer then turned the revolver with which he killed his guardian upon himself and sent a bullet into his head. The wound, it is believed, will be fatal. The cause of the tragedy is a mystery. The men were in a room together. No angry words were heard, but when the room was entered after the revolver shots were heard the bodies lay apart, and there was no sign to show that there had been a struggle. Jennings was 50 years old and wealthy. Burnett is 30 years old. He has lived with the Jennings family since he was 14 or 15 years old.

New Postal Ratings.

WASHINGTON, June 14.—The officials of the postoffice department today made public the changes in salaries of clerks and rating of postoffices which will go into effect at the beginning of the next fiscal year. The salaries of about 5,000 clerks will be increased, the added compensation averaging about $100 a year in each case. When this change is made, it is said none of the old clerks in first class offices will receive less than $600 a year. A number of new clerks have been appointed, however, at $500 per annum. It is stated that a larger number of offices will be raised in rank than ever before and that relegations to a lower rating will be smaller than at any previous time.

Swallow Getting Tired.

HARRISBURG, June 14.—Dr. S. C. Swallow of this city, whose name is being mentioned in connection with the nomination for president by the Prohibition national convention at Chicago, said last night that ordinarily such a nomination would be considered an honor second to none. Four years of lifting at the short end of the lever for better government in Pennsylvania, he said, had begotten a weariness that prompts him to shun rather than seek the excitement and fatigue of another campaign, and health conditions, business relations and financial considerations all prompt him to decline the honor if it should be tendered.

Havana Customs.

WASHINGTON, June 14.—The statement is made by the division of customs and insular affairs of the war department that the total collections at the Havana custom house during May, 1900, was $1,005,262. A comparison of receipts for this month with the same month of 1899 shows an increase in the collections in favor of May, 1900, of $78,039.

Canadian Presbyterians.

HALIFAX, June 14.—Six hundred clerical and lay delegates from all parts of Canada are attending the twenty-fifth general assembly of the Presbyterian church in Canada. The assembly will be in session ten days. This is the first time the body met in Halifax, and the assembly recognized this by electing Rev. Dr. Pollok of this city moderator.

PLAINFIELD, N. J., JUNE 14, 1900

READERS of The Press, anticipating leaving Plainfield for a summer vacation, should send their address to the business office. The Press will be forwarded without extra charge.

COMING EVENTS.

June 14—Strawberry and ice cream sociable at 120 East Front street, given by Martha Washington Council, No. 23, D. of A. Dancing.
June 15—Rev. John G. Paton will speak at the Crescent Avenue Church at 8 p. m.
June 17—Rev. W. A. Credit, D. D., of Philadelphia, will address the Y. M. C. A. meeting at 4:15 p. m. Mrs. George W. Saums will render violin solos.
June 20—Y. M. C. A. Camp for young men at Northfield, Mass.
July 6—Y. M. C. A. Boys' Camp at Lake Champlain.

The True Course.

The Washington correspondent of the New York Post reports as the drift of yesterday's Cabinet meeting on the Chinese situation that the Administration has "decided to stand by the policy which has been entered upon of pushing measures for the protection of the lives and property of American citizens, and of acting independently as far as possible. It may be that in the accomplishment of this result, the forces of the powers will have to act in unison for the protection of all foreign residents in the disturbed districts, but this is to be the extent of American activity. It is to be confined solely to the protection and safeguarding of our citizens. The Chinese Government will be looked to, under the general law of the comity of the nations, to restore order and to make such reparation as is proper. From all political schemes in which any of the powers may become involved, the United States is to hold aloof. This is the general policy heretofore outlined, and it will be adhered to."

Commenting on the above the Trenton True American says:

"If our Government shall stick to this purpose and not be misled by false and glittering hopes of being a part of the European concert which gets together whenever there is to be a disposition of the spoils, we will emerge from this difficulty with added honor and an unimpaired treasury balance."

Vice-Presidential Possibilities.

Up to date the Vice-Presidential possibilities in the Philadelphia National convention are as follows:

California—Irving Scott (who built the Oregon) and Ulysses S. Grant.

Colorado—Senator Edward O. Wolcott.

Illinois—Representative Robert R. Hitt.

Iowa—Senator William B. Allison, Gov. Shaw and Representative J. P. Dolliver.

Massachusetts—The Hon. John D. Long, Secretary of the Navy.

Minnesota—Ex-United States Senator William D. Washburn.

New York—Gov. Roosevelt, Cornelius N. Bliss, Hon. Timothy L. Woodruff, Lieutenant-Governor; Gen. Francis Vinton Greene.

Wisconsin—Gov. Schofield.

The Twentieth Century Clipping Bureau, of Chicago, has issued what it terms a "Blue Book" giving a list of the best daily papers in New Jersey. It is good as far as it goes, but it doesn't go far enough. Only about one-half of the best papers of the State are accorded a place in the book. For instance, no Plainfield paper is mentioned in the book, and we believe that we can assert without egotism that there is not a city in New Jersey that has better papers than Plainfield—few have as good considering the local conditions.

John Wannamaker, who has made a vast fortune through advertising, says: "Any business firm that can succeed in getting into the public view may very readily eclipse another firm of even greater proportions, that does not take pains to keep to the front in public attention. Advertising brings publicity, and the firm that advertises most persistently and most freely, is, in the nature of things, bound to obscure other firms and individuals."

Because New Jersey now has a breed of snakes with feet, the New York Press thinks that the mosquitoes are all ill from malaria and that some new thing was necessary to call attention in the usual manner to the approaching seashore exodus.

German emigrantion to this country fell to 23,740 last year. It was above 120,000 in 1894.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

One of the prettiest displays of flowers now to be seen in this city is in the rose garden of Captain Benjamin Doane, which is located across LaGrande avenue from his home. Captain Doane has taken wonderful care of his roses and the results are certainly fine. He has a great number of varieties which are now covered with many buds and blossoms.

* * * * *

An exceedingly peculiar incident happened yesterday which caused considerable excitement along the line of the P. & R. R. and Jersey Central Railroad and in the yards at Jersey City. A colored man, whose residence and name is unknown, secured a free ride from Wayne Junction to Jersey City yesterday morning on the two-hour flyer that passes this city about 8:45 o'clock every morning.

When the train was pulling out of Wayne Junction the man made a jump and caught hold of the supporting iron rod which extends from one end of the coach to the other, and laying out at full length, held fast to that rod until the train reached Jersey City. Just as the train was pulling into the terminal station the man jumped and at once there were several police officials after him. He was too quick, however, and got away.

As the train passed along the road he was noticed by several persons, although he escaped the eye of many on account of his color and his position. He held his head close to the iron, and apparently did not mind the ride in the least. This train does not make a stop after leaving Wayne Junction until it arrives at Jersey City, and it is certainly remarkable how the man was able to remain in one position so long. He did, however, and accomplished his purpose successfully. There was a great deal of excitement in Jersey City and it was hoped that the fellow would be caught. Word was telegraphed to headquarters concerning the man from one of the stations along the line.

To Refund Elizabeth's Debt.

(Special to The Daily Press.)

Elizabeth, June 14—The City Council has passed on its second reading an ordinance providing for the refunding of the city debt. The ordinance provides for the issue of $3,100,000 of city bonds to take the place of a like amount of debt adjustment bonds. The new bonds will run for forty years and bear 4 per cent. interest. They are to be of the denomination of $1,000 and $500 each.

Realty Changes.

The following real estate transfers have been made in North Plainfield during the past week:

Merton Russell to Israel C. Russell, $1; Charles Hyde et ux to Annie B. Mills, $1; George M. Phillips et ux to Garret P. Kiely, $1,000; George M. Phillips et ux to Garret P. Kiely, $1,000; Wm. M. Stillman et ux to Wm. H. Brokaw, $1; Hans Jorgenson et ux to James Froger, $750.

Elizabeth Merchants After Trade.

(Special to The Daily Press.)

Elizabeth, June 14—The Merchants' Association of this city has decided on June 27 as the date for the first excursion of the Association. It will be an all-day affair and be conducted by special trolley cars from Plainfield to Elizabeth.

Harry Shirley, of West Fourth street, is quite ill at his home.

Harry Baton, of this city, expects to leave for Europe in a short time to visit his parents.

Dorsey Conover has given up the management of Wilson's pool room on Liberty street.

Local News on Pages 2 and 3.

TRY GRAIN-O! TRY GRAIN-O!

Ask your Grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. ¼ the price of coffee. 15c. and 25c. per package. Sold by all grocers

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style glaze-finish machine. Have you heard about our new turn-down collar shape? No? Well, try it; no break. Call and see us use it. Always welcome.

"FLOWERY -:- -:- KINGDOM."

That's the brand of the best China Matting imported. Of extraordinary weight, heavy straw warp, small neat patterns, bright clear colors, it is not only attractive in appearance but possesses wonderful durability. Price is 29c yd. or 10.50 per roll of 40 yds. The sale for it in this city is confined to us. We have a special lot cotton warp Japanese Matting at 21c per yd., the real value of which is 25c. A real bargain, but the quantity is limited and will last but a few days.

PIAZZA GOODS are now in demand. We sell the new Grass Twine Matting for piazzas and it answers the purpose beautifully. We have the Matting Rugs in patterns for the same purpose as well. We also make to order Piazza Rugs of Cocoa Matting and finish with rubber ends. Any size made at short notice. They are strong and save the wear on piazzas greatly.

A whole carload of Trunks. We buy them by the carload in order to secure the lowest possible price. Few concerns in the State sell so many trunks. Everything desirable in the way of Trunks may be found here. All are splendidly made and attractive in appearance. They are canvas covered, leather bound, brass trimmed, good locks and have strong strap hinges. Prices range from 2.98 to 25.00. A full assortment of strong, trim little steamer trunks, too. Goods are shown in Basement of our Carpet Store at 246 West Front Street.

White Goods Department. You mothers who have daughters about to graduate will find this department of interest to you One of the best stocked, best kept and best managed white goods departments we know of. It is in charge of Mr. W. D. Williams, formerly of Newark, and a veteran of the White Goods Business. A full line of India Linons, Persian Lawns, Bastistes, French Organdies, Suisses plain and dotted, and many other thin fabrics suitable for Commencement Dresses. Plain Piques 12½ to 50c. Fancy Lace Stripe and Figured Piques 15c to 25c. Novelties in white goods in too great variety to be mentioned in detail.

Dainty Cool Summer Garments.

Beautiful White Shirt Waists, wonderfully designed and exquisitely finished; elegant White Lawn Dressing Sacks and White House Dresses. Everything in Summer Underwear for Ladies, Misses and Children.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, June 14—A mad dog was the cause of considerable activity among the residents of the borough yesterday. The animal appeared about noon on North avenue and was soon being pursued by a crowd of boys. The dog, which was a large black one, was finally caught and shot by Frank Nelson on Main street.

Ernest Peters, the obliging assistant at the depot, has been promoted to the position of night ticket agent at Fanwood and will start on his new duties tonight. His place will be taken by George Rhinehart.

The commencement exercises of the Dunellen schools will be held a week from today, beginning at 8 p. m. A reception will be given to the graduates at 9:30.

The Friendship Social Circle of the Baptist church was very pleasantly entertained by Mrs. Hetfield yesterday.

Benj. Dodwell was able to attend school yesterday for the first time since his attack of measles.

The Juniors are making preparations for a celebration to be held in Central Park, July 4th.

Mrs. Joseph Apgar, of Front street, is visiting her daughter, Mrs. John Book, of Newark.

Street Commissioner Staats has about finished the grading of Washington avenue.

Henry Wiedenhaupt, the butcher, is having new screen doors placed in his shop.

Mrs. Ferdinand Hock, of Somerville, visited relatives in town yesterday.

Mrs. Alvah Gray is visiting friends at Califon.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 14—Dan Moody is gaining quite a reputation as a trick bicycle rider. He performed several difficult feats yesterday amid the plaudits of a crowd of spectators.

Miss Grace Gray, of Brooklyn, and Homer Wait, of Rutherford, have returned from a visit with William Jenner.

James Lanning, of Casterline's Hotel, is spending a few days in Easton.

Frank Williams, of Brooklyn, visited relatives in town Tuesday.

Mrs. L. H. Danz spent yesterday in New Brunswick.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 14.—The commencement exercises of the Scotch Plains public school were held in the Baptist church last evening. The exercises began at 8 o'clock, but long before that hour the residents of the village and borough began to wend their way towards the appointed place so as to procure good seats. At the appointed hour of 8 o'clock the strains of Prof. Conde's orchestra opened the interesting programme, which was as follows:

Music.
Essay—Our Government.....Miss Bertha Eller
Declamation—Mark Antony's Address Over the Dead Body of Cæsar.....Clinton Hall
Music.
Essay—Alexand er Hamilton. Miss Christine Bettman
Reading—Miss Cicerly Croak. Miss Madeleine Robinson
Music.
Reading—The Song of the Market Place. Miss Janet Carter
Valedictory—Education of the Negro. Leonard McAneny
Prophecy.....Miss Janet Carter
Music.
Address.....Rev. G. M. Shott
Presentation of Diplomas. Dr. Westcott, President of Board
Music.

The numbers were all well received and heartily applauded. At the close of each number by the graduates they were remembered by their friends with a number of beautiful bouquets and other presents. Leonard McAnney's valedictory address, "Education of the Negroes," was a masterpiece and at the close he gathered his class mates about him and spoke of the ties which were about to be severed. Miss Janet Carter's prophecy for the class was both amusing and interesting. At the close of the programme the members of the class and their friends adjourned to the assembly room of the school building where a reception was given, the room being prettily decorated with flowers, ferns and bunting. Refreshments were served during the evening in one of the class rooms.

The second night of the Catholic fair, being held in Excelsior Hall for the benefit of St. Mary's church, saw quite a number of the friends of the church present, notwithstanding it was the night of the annual school commencement. Those entered in the several contests are striving hard to win the prizes, and one is not able to leave the hall without being tempted by the fair contestants. Tonight will see the close of the pleasant affair, and the ladies are preparing to entertain a large crowd.

The Junior base ball team are crossing bats this afternoon with the junior team from the North Plainfield school. The game is being played on the latter's ground.

The members of the Baptist Young People's Society cleared about $20 at their strawberry festival held in the church last week.

The Misses Squiers have been entertaining their sister, Miss Francis Squires, of New York, for a short visit.

Mrs. Wm. A. Gere and son are spending a week with relatives in Delaware.

Miss Minnie Hosinger has been entertaining company from New York.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 14.—The commencement exercises of Piscataway township were held in New Market last evening. Quite a number from here were in attendance. The exercises were first class.

One reason the School Board have been slow in making arrangements for the new house was that the plans were slow in coming, only reaching them last evening. They will hold a special meeting tonight and prepare to rush the work.

Hamittens shop will soon be completed. It is a much-needed improvement.

UNION COUNTY CRIMINALS.

Three Years for a Man Who Tried to Rob a Jeweler.

(Special to The Daily Press.)

Elizabeth, June 14—In the Union County Court yesterday, Robert Hawthorne, one of the two New York crooks who attempted to rob Jeweler Gustave Korn's store, was sentenced to State prison for three years. George Kobler, for obtaining money under false pretenses, was sentenced to the county jail for six months. Oscar Kleyle, for cruel treatment of his aged mother, was sentenced to four months in the county jail.

Frederick Taylor, former foreman at the Ingersoll watch factory in Linden, who is charged with embezzlement, retracted his plea of not guilty and pleaded guilty. He will be sentenced June 20.

The trial of Thomas Pyatt, of Rahway, the negro charged with the murder of John Mossman, which was to have been tried in the Circuit Court yesterday, was not called, owing to the inability of Justice VanSyckel to be present.

TOMATO CROP MAY BE LIGHT.

Acreage Less Than Last Year, and Bugs Are Destructive.

The tomato crop of Gloucester county promises to be large, although it will be several days later than usual. In Salem county, where most of the canneries of South Jersey are located, the yield will be light. In the first place the acreage is only about 60 per cent of last year's. This, with the havoc played by the bugs and the cold weather, creates grave fears for the result.

The attempt of the growers to fix a price and the unwillingness of the canners to give $7 a ton, is somewhat responsible for the reduced acreage.

SOUTH AMBOY GETS TROLLEY.

The Ordinance Has Been Finally Adopted.

South Amboy will now have the trolley. The Borough Council has passed the ordinance on final reading, giving the Somerset and Middlesex Traction Company the right of way through that town. There was no opposition.

The fight to get into Amboy has been a long one. Once the traction company became tired of the slowness and withdrew its application. Then it started over again and the second time was more cordially received.

Cars Works Sold and Will Reopen.

(Special to The Daily Press.)

Elizabeth, June 13—There is much rejoicing here over the absolute sale of the Stephens Car Works at Elizabeth, which have been shut down for the last year. The sale realized $226,000. The original cost was $400,000. The buyers were Joseph C. Willetts and Adolph Wimpfheimer, of New York, who represented the bank's interests. It is understood by Receiver Wilcox that the plant will at once reopen and the manufacture of trolley cars be resumed with 1,000 men in the new company's employment.

THE PEOPLE'S FORUM.

The Right Way.

To the Editor of The Daily Press:—Many readers of your issue last Tuesday night would like to thank you for your protest against the exorbitant rate charged the junk dealers for a license. It is quite evident that these men have not the same "pull" with our City Fathers that other foreigners have who are engaged in a far less reputable business. Junk dealers are a public benefit, for if they did not buy the stuff that accumulates, many careless housekeepers would not take the trouble to clean out cellars and other obscure places very often and somebody's health would suffer. Because one or more of their number have broken the law is no reason why all should be oppressed. Most of us can remember a case of recent date where a man was arrested repeatedly for violating a Plainfield ordinance yet he was granted a saloon license by the Councilmen. Let us hope they will alter their harsh decision in favor of these their humble brethern, remembering that God is no respector of persons.

Justice to all.

Did Census Man Call?

To the Editor of The Daily Press:—Will you kindly inform the citizens of Plainfield who desire that the city should get all the credit she is entitled to, when the present census returns are published, that they will directly contribute to that result by promptly calling the attention of this office to the omission of any and every name entitled to enrollment which has escaped the population schedule of enumerators?

With the best intentions, errors of the kind referred to, are likely to occur. But in every instance they will be at once corrected whenever brought to the attention of this office, and both the people of Plainfield and the Government will be the gainers by the correction.

Very respectfully yours,
C. S. Tunis, Supervisor.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph's drug store.

We carry three different grades of butter, each of which has its special merits.

Our Rockdale Print Butter at 26 cents per pound, is the best on earth. It has the rich, delicate flavor of the finest cream and for table use cannot be surpassed.

Some of the cheaper grades of butter sold elsewhere are often tasteless. Our lowest priced goods are of excellent flavor.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Während des Pfingstfestes herrschte in Deutschland ungeheure Hitze, und von verschiedenen Orten wurden schwere Gewitter gemeldet. In Wandsbek, Schleswig-Holstein, schlug der Blitz in das Offizierskasino des Husaren-Regiments Nr. 15, und das Gebäude brannte vollständig nieder. Bei Thorn, Westpreußen, entstand durch Blitzschlag ein Waldbrand, der 2400 Acker Holz vernichtete.—Anläßlich der Feier seines 80. Geburtstages wurde der um die Entwickelung Berlins hochverdiente Stadtverordneten-Vorsteher Dr. Paul Langerhans zum Ehrenbürger der Reichshauptstadt ernannt.—General der Artillerie, v. Villaume, Direktor der Berliner Kriegsakademie, ist gestorben.—Ein Inspektor der Berliner Markthallen hat herausgebracht, daß die „ächte Gothaer Cervelatwurst," welche hier viele Verehrer findet, großentheils aus einer Wurstfabrik in Eisenberg bei Dresden stammt, welche fast ausschließlich lebensmüde Droschkengäule schlachtet und verarbeitet und eine große Filiale in Berlin hat, wo das in den Berliner Konsum gelangende Fabrikat hergestellt wird. Den hiesigen Fabrikanten ist von der Sanitätspolizei das lukrative Handwerk gelegt worden.

Groß-Lichterfelde. Durch den elektrischen Strom getödtet wurde auf der Versuchsbahn von Siemens u. Halske in Groß-Lichterfelde, bei welcher mit hochgespanntem Drehstrom gearbeitet wird, der Monteur Steinkopf. Der Verunglückte war auf das Dach der Lokomotive gestiegen und hatte dort unter Spannung stehende Theile berührt.

Rixdorf. Der Bau eines Stichkanals von Rixdorf durch die Köllnischen Wiesen nach dem Landwehrkanal ist als gesichert zu betrachten, nachdem die Interessenten in einer jüngst stattgehabten Versammlung sich in der Mehrzahl für die Uebernahme der antheiligen Kosten erklärt haben. Es wird mit der Anlage die Schaffung günstiger Entwässerungsverhältnisse und eines Wasserweges zwischen Rixdorf und Berlin bezweckt. Die Uferstraßen werden 18 Meter breit.

Provinz Hannover.

Hannover. Die städtischen Kollegien haben der Einrichtung einer Handelshochschule, die man mit der technischen Hochschule verbinden will, unter der Voraussetzung zugestimmt, daß die Staatsregierung die Hälfte der jährlichen Unterhaltungskosten übernimmt.

Wilhelmshaven. Der Kommandant des von dem Divisionsboote „D 9" bei Norderney festgenommenen englischen Fischdampfers „Isis," John Alp, wurde wegen unerlaubten Fischens auf deutschem Gebiete zu zwei Monaten Gefängniß verurtheilt.

Provinz Hessen-Nassau.

Frankfurt. Die Stadtverordneten genehmigten einen Vertrag, wonach die Stadt der katholischen Kirchengemeinde Niederrad für die dortige Schule 15,000 Mark jährlich zuschießt, falls die Eingemeindung Niederrads in Frankfurt vom Landtage angenommen wird.

Wiesbaden. Der in der Nervenheilanstalt zu Niederwolluf untergebrachte pensionirte Lehrer Bautz aus Wiesbaden hat sich im Rhein ertränkt. Bautz war 40 Jahre ununterbrochen in Wiesbaden thätig gewesen.

Provinz Pommern.

Stettin. Die Rhedereifirma W. Kunstmann in Swinemünde hat die Bergung des im Haff gesunkenen Dampfers „Titania," sowie die Bergung der Ladung desselben übernommen. Von dem Dampfer, der am 12. Februar d. J. im pommer'schen Haff durch starke Eismassen erdrückt und zum Sinken gebracht wurde, ragen jetzt nur noch die Mastspitzen hervor. Der Dampfer „Titania" hat seit circa 25 Jahren den Personen- und Postverkehr zwischen Stettin und Kopenhagen versehen. Auf dem Schiffe befindet sich, außer anderen werthvollen Gütern, ein Telephonkabel im Werthe von 125,000 Mark.

Schivelbein. Anhster feierte in seltener geistiger und körperlicher Frische das Louis Lewin'sche Ehepaar das Fest der goldenen Hochzeit.

Provinz Posen.

Argenau. Der älteste noch lebende Husar der preußischen Armee dürfte der frühere Posthalter F. Grottian von Argenau sein. Derselbe wurde im Jahre 1806 zu Gollup geboren. Kürzlich feierte Grottian mit seiner 84 Jahre alten Gattin die eiserne Hochzeit, anläßlich welcher ihm das Offizierkorps des zweiten rheinischen Husaren-Regiments in Straßburg i. E., bei dem Grottian von 1828 bis 1832 seiner Militärpflicht genügte, die Geschichte des Regiments und eine prachtvolle Wanduhr mit der Widmungsschrift: „Seinem ältesten Husaren F. Grottian-Argenau!" übersandte.

Inowrazlaw. Flüchtig geworden ist der Baumeister Küster. Er hat Wechselfälschungen zum Betrage von 74,000 Mark verübt. Das von ihm hinterlassene Defizit beläuft sich auf rund 150,000 Mark. Einzelne Handwerksmeister verlieren bis zu 10,000 Mark.

Telephone 580. Goods delivered Free to any part of State.

A man, at present a resident of Knox County, Maine, worked several years ago for a considerable time in the mines of Colorado. His meals were irregular and in consequence he became a terrible sufferer from indigestion and has been ever since. He had tried many patent medicines without realizing any benefit until his brother Charles advised him to try Ripans Tabules. "I thought it useless," said he, "to waste any more money in medicine, but as he urged me I bought a supply and deriving such benefit therefrom I purchased more." He recently said of himself and his condition: "I can now eat all kinds of vegetables, mince pie, cheese and baked beans, which I have not dared to eat for many years."

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S. 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

HAMS AND BACON That are superior in quality are what we handle. It's very easy to keep a stock of meats which will be partly good and partly inferior and to sell a little of both to each customer; this we never do. Our meats are of superior quality, and with only ordinary care on the part of the cook, should give entire satisfaction. Cut from young cattle, sheep, etc., the beef, mutton and lamb is tender, juicy and of delicious flavor.

FOR OUTING WEAR.

New Fads In Bathing Dresses, Golf Suits and Summer Millinery.

Everybody of my acquaintance is preparing for a gay season at one of the watering places or at least for a trip abroad. It is so much more exclusive and aristocratic to go to Newport, Narragansett, Saratoga or Bar Harbor that fewer and fewer every year go abroad. And it has got so now that it is quite possible for a girl to buy a nobleman right here, for there is a pool in Paris which furnishes money for such noblemen to come here as are at all likely to please an American girl. How much he pays back to the pool I cannot say, but I suppose it must be a certain percentage of the dowry. At all the places where there is bathing the pretty suits which I shall now mention will be seen—when the water gets a little warmer.

The most refined—if one may use such a word in speaking of bathing

THE NEWEST OUTING HATS.

suits—will be of black taffeta or of silk warp henrietta. Few blue or other colors will be seen, but there is a wide limit to the colors one may have on them in the way of trimming. A favorite plan is to have crossbars of red, white or blue or yellow put along the hem and perhaps on the waist also. The sleeves are scarcely worth mentioning, as they are simple puffs across the shoulder, intended to leave the arms bare.

The skirts reach scarcely below the knees and are as scanty as they can be made in width and still allow free movement, so as not to impede the movements in swimming. All the bathing suits have the waist and skirt in one, and the tights are arranged to fasten securely to an underwaist of some kind.

Black stockings and canvas shoes and a cap of oilskin make up the bathing suit, but there is a long robe to put on on leaving the water. This is made of fancy Turkish toweling or elder down. It is intended to cover the whole figure. Some ladies wear a hat into the water, but the real seaside belle prefers to tan all she can. When she comes home for the winter, she spends a small fortune in cosmetics to get the tan off.

In Newport the bathing dresses are often made in a most extravagant style as far as material and trimming are concerned, and one may see suits of white and cream colored serge, embroidered with the finest of work, but then these dresses rarely get wet. They are to look at and not to spoil in the sea. Looking at the question from all sides, human nature is the same all the time. Some like to be seen, and others prefer to be unseen, especially when they look better out of than in the water. One thing we may be thankful for, and that is that we see no more of those hateful old blue flannel horrors of yore.

Golfing suits are made so that they might just as well be intended for any other sporting costume, and the only thing about them different is the cape, and even that is worn for so many other occasions that it might be described as anything else. Still the golfing cape is a bright spot against a green field. And the girl looks pretty in it, so it has a reason for existence.

The new colors for winter and also early fall are so bright that a faint gleam of their brightness is already shadowed forth in the light wools for afternoons in the coolest days of summer.

There are some new hats made especially for outing, and they are, as the obliging gentleman said, "very various this summer." One style is called the Ladysmith and is somewhat like the British soldiers' helmets. The crown is rounded and the brim turned down slightly, while around the brim is a twisted drapery of soft faille ribbon. In white pique there are three or four shapes, though all are called alpine. Some of these are of duck and others of khaki, and the rest are of pique. The shape is just like the alpines that the men wear, and there is a soft black silk band laid in folds. Another Ladysmith hat has the round crown and brim, only this brim is turned down in front and up in the back. They are in jumbo straw and have rumchunda and puragee scarfs twisted close around the crowns.

Sailor hats are among the best liked of all the everyday hats for the seaside, for there is nothing about them to be hurt by the weather. There are long and short backed sailors, and they are strongly blocked and lined with sweater bands and have bands of thick grosgrain ribbon. Split straws in blue, black and brown are all very stylish for seaside, while the more delicate hats of all fanciful descriptions are suitable for Saratoga and other inland places. For those places where no fresh, strong breezes blow the wide leghorn and other kindred braids will be seen to almost the exclusion of the sailor and other outing effects. These will be covered with soft plumes mingled with bunches of delicately tinted flowers.

HENRIETTE ROUSSEAU.

COMFORTS FOR THE TOURIST

How to Make a Handy Traveling Case and a Neat Shawl Carrier.

BY JEANNETTE DEVOE.

To those who contemplate vacation journeys now is the time to prepare the necessary traveling articles which, though they may seem unnecessary, are a source of much comfort and do away with those little annoyances incidental to the disorderly habit of not having a proper place for things. An article that can be made at comparatively small cost and which will bring daily satisfaction is a case for toilet articles.

To make the case use strong unbleached linen. Cut a strip 25 inches long and 10 inches wide for the outside of the case; two strips 20 inches long and 3 inches wide for the side pieces; one strip 8 inches long and 3 inches wide for the pockets and two strips 10 inches long and 2 inches wide to hold brushes and manicure articles.

Should the case be intended for the use of a gentleman add extra straps for shaving material, military brushes, etc.

Lay the side pieces on the case three inches from one end, leaving a two inch lap at the other end, and sew. The seam should be on the outside of the case. Bind all edges with tape that matches the linen. Bind the edges of the pocket and straps in the same way. Three inches from the back edge of the case stitch one end of each strap in place, arranging them so that they will be two inches apart. Measure the space required for the slender toilet pieces and make a stitching so that each article will fit snugly in the space apportioned to it.

The pocket should be sewed on in the same way, and in addition one long edge should be stitched to the case, thus making several pockets for tooth powder bottle, soap box, hairbrushes, etc.

On the front edge of the case sew three sets of tapes or ribbons, allowing ample length for tying around a well

TRAVELING CASE CLOSED AND OPEN.

filled case. In folding the case turn in the side pieces first and then the short lap on the end of the case, roll snugly and tie with the ribbons.

Every traveler has experienced the annoyance of shawls and wraps thrown over the arm on a hot, dusty day and the additional burden perhaps of a half dozen umbrellas and canes strapped together and tucked under a tired arm that is on the point of going on a strike. For such experienced martyrs of the summer colony I would suggest a shawl case that will relieve the arm, keep off the grime from garments that one must carry with one, but which are not in use, and also hold those unwieldy umbrellas.

The material employed to make this shawl case is brown sail linen. Cut a length of goods 30 inches long and 20 inches wide for the outside casing and a strip 10 inches long and 7 inches wide for the outside pocket. Hem one long edge of the pocket. Embroider any preferred design on the linen in the old fashioned cross stitch. Sew the pocket on the outside of the case, making an inch fold at the sides and bottom to allow for bulging. To do this properly cut both of the lower corners at right angles and sew the edges together. Over the edge of the pocket place a lap three inches wide and ten inches long, cut the corners round and bind the edges. Sew on a button and an elastic loop.

Make another pocket nine inches wide and 20 inches long for the inside of the case and place above it two straps each six inches long and one inch wide, having two buttonholes. Sew buttons on the pocket.

Two laps, each eight inches wide and 12 inches long, are placed at a distance of five inches from the pocket. On the inside of the case lap and directly under the handle are fastened three straps, each two inches wide and six inches long, and one inch from them are other corresponding straps with buckles. These are to hold the umbrellas. Bind all the edges. Sew leather straps and buckles on the outside lap and a leather handle on the back of the case.

Miss Caroline Lewis Gordon, the daughter of General Gordon of Atlanta, has been in New York for the purpose of making arrangements for her debut as a professional interpreter of negro songs and dialect. Miss Gordon is one of the belles of the south and has ever since the death of Miss Winnie Davis been known as the Daughter of the Confederacy by reason of the affection in which her father is held by his former comrades in the Confederate army.

SCIENCE AND INVENTION.

THE RAW MEAT CURE.

Approved by the French Academy of Science for the Treatment of Tuberculosis Victims.

The juice of raw meat is the newest cure for consumption.

Zomotherapy is the scientific name for the new treatment, which has been formally approved by the French Academy of Sciences. Its inventors are Dr. Hericourt and Dr. Richet, two learned men who have devoted 15 years to the study of tubercolosis alone.

As in France there are more deaths yearly from tuberculosis than from all other ills combined, war fatalities included, a lively interest is shown in the new discovery, which has so far been brilliantly successful.

Tuberculosis, reasoned Drs. Hericourt and Richet some years ago, is a wasting of the tissues that mean life. In such conditions drugs or any ordinary methods of treatment are useless. The imperative thing is to repair these tissues. But rapidly disappearing animal tissues cannot be repaired with vegetable matter.

More animal tissues are needed, and they should be supplied to the patient as quickly and in as large quantities as possible. Raw beef taken as food seemed the most feasible way of introducing the needed healthy organic life into the body as a substitute for the organisms being consumed by disease. As cooking would weaken if not destroy this organic life it seemed necessary that the meat should be eaten raw.

The theory was tested on animals suffering from tuberculosis, who were given raw meat to the exclusion of every other form of nourishment. It worked marvelously. The patients recovered rapidly. But then arose the difficulty of applying the same methods to human patients, who, in the weakened state induced by consumption, are seldom able to digest anything so difficult as raw meat.

The doctors then tried separting the juice from the muscular portion of the meat, on the theory that it was the juice alone—in other words, the animal's blood—which was beneficial. To one set of animal patients was given the muscular substances from which the juice had been squeezed, to another set was given the juice alone. The first set showed no improvement, succumbed to the disease and died. The second set recovered as if by magic.—N. Y. World.

FOR STARTING RACES.

A Gate That Seems to Meet Many of the Most Urgent Requirements of Horsemen.

A number of inventors have turned their attention to designing gates for use in starting horse and other races, and many ingenious ideas in this direction are already on the market. Samuel Stedeker, of New York city, has designed a gate which seems to embody the requirements necessary and eliminate many of the objections to this method of starting a race. A rail is placed on each side of the course to support an electric carriage. The starting bar is suspended across the track by a pair of arms pivoted

NOVEL RACE STARTER.

near the top of the vertical supports, with a latch to secure the bar in a lowered position. This latch is released by a pair of magnets operated by an electric current, and the springs at the opposite ends of the arms cause the bar to spring upward instantaneously. The method of operation is to pull the bar down and place the carriage at the end of the track fartnest from the judges' stand, lining the contestants up back of the bar. Wires are used to connect the motor and magnets with the stand, and when all is in readiness the carriage is started, slowly at first, gradually increasing in speed, with the contestants following closely behind, until when the judges' stand is reached the race is under full headway. The touching of a button releases the bar, and it flies forward and upward, leaving the course free to the race. The carriage is then brought to a standstill and returned to the starting point.—Louisville Courier-Journal.

Good Points of Magnalium.

Magnalium, an alloy of ten to twenty parts by the weight of magnesium with 100 of aluminium, is claimed to have all the advantages of aluminium, and also to be adapted for working with tools, while even lighter than aluminium.

Victims of Avalanches.

People who have been buried by an avalanche say they can hear distinctly every word uttered by those seeking them, while the most strenuous efforts fail to make their shouts penetrate even a few feet of the snow.

WHY IT SUCCEEDS

Because It's For One Thing Only and Plainfield Is Learning This.

Nothing can be good for everything.
Doing one thing well brings success.
Doan's Kidney Pills do one thing only.
They're for sick kidneys
They cure backache, every kidney ill.
Here is Plainfield evidence to prove it.

Mrs. W. W. Mills, of No. 66 Summit avenue, says:—"I suffered at times with a severe pain across the small of my back and in my hips. If I did any lifting or stooping my back became lame and sore and, though I used plasters they only helped me for the time being. I was feeling very badly when I had my attention called to Doan's Kidney Pills. They were so highly recommended for troubles like mine that I got a box at L. W. Randolph's drug store. I felt their good effects in a few days, when I had finished the treatment my back was better and stronger and I had much more energy to attend household duties."

For sale by all dealers, price 50c. a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no other.

MASTER'S SALE.

IN CHANCERY OF NEW JERSEY.

Between
Caroline F. Harrison,
Complainant
and
John K. VanNess, et als.,
Defendants.

Fi. fa for sale of mortgaged premises.

By virtue of the above stated writ of fieri facies to me directed, I shall expose for sale by public vendue at the Court House, in the city of Elizabeth, in the County of Union and State of New Jersey, on Friday, the fifteenth day of June next, at two o'clock in the afternoon of said day, all that tract or parcel of land and premises hereinafter particularly described, situate, lying and being in the city of Plainfield, in the County of Union and State of New Jersey and in the Township of North Plainfield, in the County of Somerset and State of New Jersey, bounded and described as follows, viz:

Beginning at a point in the centre of Front Street, which point is in the southerly boundary line of land now or late of Franklin Wiley, and running thence along said line north 42° 59' west one thousand two hundred and seventy-five 37-100 feet to a point across the Green Brook; thence south 37° 45' west six hundred and ninety-five 83-100 feet to land of Madam Ruttka; thence south 44° 45' east forty two feet; thence south 19° 16' east still along said Ruttka's line eighty two 15-100 feet; thence south 44° 15' east one thousand one hundred and sixty 28-100 feet along said Ruttka s line to a point in the centre of Front Street, and thence along the centre line of Front Street north 37° 45' east six hundred and ninety-one 66-100 feet to the point or place of beginning. Containing twenty 54-100 acres of land. Excepting, however, thereout all those certain tracts or parcels of land and premises, situated, lying and being in the City of Plainfield in the County of Union and State of New Jersey, and in the Township of North Plainfield in the County of Somerset and State aforesaid.

First Tract: Beginning at a point and corner in the centre line of Front Street, and corner of lands formerly of Franklin Wiley; thence north forty-two degrees and fify-nine minutes west twelve hundred and seventy-five and thirty-seven one hundredths feet along the line of lands of said Franklin Wiley formerly to a point and corner of lands of Jacob Cole; thence along the line of lands of said Cole in a course of south thirty-seven degrees and forty-five minutes west six hundred and eighty-one and thirty-five one hundredths feet to a point and corner in line of lands of William H. Davis; thence in a course forty-four degrees and forty-five minutes east eight hundred and twenty-one and eight-tenths feet to a point and corner of other lands this day conveyed by said Allen to said Helen C. Watson; thence along the line of lands of said Helen C. Watson in a course of north thirty-seven degrees and forty-five minutes east two hundred and forty-two feet more or less to a point and corner; thence in a course of south forty-two degrees and fifth-nine minutes east four hundred and fifty feet to a point and corner in the centre line of Front Street; thence along the said centre line of Front Street in a course of north thirty-seven degrees and forty-five minutes east four hundred feet to a point and corner, being the place of beginning.

Second Tract: Beginning at a point and corner in the center line of Front Street distant four hundred feet in a course of south thirty-seven degrees and forty-five minutes west from the corner of lands of Franklin Wiley formerly is a corner of other lands this day conveyed by said Allen to said Helen C. Watson; thence along the line of lands of Helen C. Watson in a course of north forty-two degrees and fifty-nine minutes west four hundred and fifty feet to a point and corner of other lands of said Allen; thence along line of other lands of said Allen in a course of south thirty-seven degrees and forty-five minutes west two hundred and forty-two feet more or less to line of lands conveyed by said Allen to William H. Davis. thence along the line of lands of said William H. Davis in a course of south forty-four degrees and forty-five minutes east four hundred and fifty feet to a point and corner in the center line of said Front street; thence along the center line of said Front street in a course of north thirty-seven degrees and forty-five minutes east two hundred and forty-one and sixty-six one-hundredth feet to the place of beginning.

Being a portion of said mortgaged premises heretofore conveyed to the defendant George F. Martens by the said defendant John K. VanNess by deed dated May twenty-second, 1893.

Dated May 9, 1900.

The Ball Team Captains of the NATIONAL LEAGUE

CAPTAINS in the National league this season are veterans. The players look to these leaders for much more information than the public is aware of. The hours that are spent in practice afford the captains ample time to learn the characteristics of their men, to ascertain their faults, to teach them to correct weakness in play, and to drill into the careless, indifferent fellows the idea that ball playing is something more serious than a high old time and a summer vacation. Naturally a captain feels the importance of his position. In many respects he is the ambassador of the stockholders who pay as high as $600 a day every day of the league season for the maintenance of a team. In some of the major league teams the captain is also manager, and in those cases he has an extra amount of dignity to maintain.

If I were called upon to tell tersely the main characteristics of the various captains, based upon my acquaintance with the men, I would say that Capt. George Davis, of the New York team, was the most phlegmatic baseball player in the league. He scarcely becomes verbose to the extent of more than a few monosyllables when Manager "Buck" Ewings asks him a few questions about the morning practice, which he perhaps had missed seeing. Mr. Davis is a product of the game as it was played at Cohoes. He is an educated man, an all-around athlete, and the New York Fans feel sure when he is doing work at shortstop. Those little "warriors," Gleason and Doyle, the former Oriole infielders who are fixtures in the Giants' infield, apparently are of another stripe of players. Yet Mr. Davis has a way of saying a few words to these belligerent players that "frosts" them and teaches them that the quiet man from Cohoes means business. There are no cliques in the New York team this year, it seems, and Mr. Davis' job as captain will be an easy one.

Of all the captains in the big league, James Ryan, the new leader of the Chicago team, is the oldest in point of professional experience. "The Boy Wonder," as the bleacherite is wont to call Ryan, confesses to 34 years of age. The records show that he has been playing baseball for a living nearly 20 years. He has been with the Orphans since 1884, and his selection as captain this season came as a merited appointment. It will be remembered by the enthusiasts that Ryan enjoyed the captaincy last year for one day. Tom Burns, who was then manager of the Chicago team, named Ryan, but two or three iconoclastic members of the team who were actuated by jealousy and "dog in the manger tactics," threatened their manager with all sorts of dire consequences if he did not depose Ryan. The veteran outfielder was quick to put his pride in his pocket—incidentally he drew the extra money that is given to the captain—and resigned his position. For the remainder of the season there was no real captain. President Hart, than whom there is no better critic in National league affairs, says that Ryan has forgotten more baseball since he made his trip around the world, and nearly changed the face of the desert by knocking a line fly into the face of the Sphynx with enough force to disturb that ancient monument to its base, than some of the players will ever master. Ryan knows every trick that "King" Kelley invented; he has a choice stock of Ryanesque tactics, and is one of the quickest men in the business to judge whether or not a man is fitted to play a certain position.

"True blue and one of the best and headiest ball players that ever donned a spiked shoe," is the way one of the best known of the magnates characterizes Manager-Captain Fred Clarke, of Pittsburgh. Capt. Clarke, by the purchase of most of Louisville's players by Pittsburgh magnates, found that he would be the leader, and he had a lot of material to select a team from. The pirates were rich in pitching talent, and in Williams and Beaumont had fielders of great worth. Clarke weathered the storm and fixed up a combination team that should be heard from this season. Of course "Hans" Wagner, that slugger who thinks little of slamming the ball so far that it does not get back, was nicely placed with his old Louisville captain, and "Big Chief" Zimmer, the former star catcher of Cleveland, was given another chance by Clarke. The Pirates do not try to make silly explanations to Capt. Clarke. He knows a "few things, and will get all the baseball out of them that they are capable of. It was but a few seasons ago that Clarke was playing on the lots. He went to Savannah, Ga., and thence he drifted into the big league, going to Louisville. And there never was an hour when he was the leader of the Colonels that he could not have the keys to the city. Last year when he brought home his Colonels from their famous eastern trip, on which they had won 18 out of 21 games, the whole city turned out to cheer the captain. Firm with his hold his authority over "Muggsy" McGraw, the Baltimore player, and that gives him a right to be firm with the Superbas.

Manager Selee, of the Bostons, has many iron-clad rules with his Bean Eaters, and Duffy is just the veteran that can assist in executing them. "Hughey" is getting rather ancient, but he will wear well, like Ryan, and perhaps he will dry up and blow away some day while running after a fly.

Capt. Joseph Kelley, of the champion Brooklyn team, is a product of several seasons of play under the famous Manager Ned Hanlon, and his art is that of a man who can deal with all sorts of temperaments and come out on top. It must be that Kelley is a hypnotist, to keep peace in his baseball family, that includes "Bull Head" Dahlen "Little" Willie Keeler, "Freshie" Dementreville. "Toughy" Jennings, etc. Suffice it to say that Kelly has been able to

Capt. Hugh Duffy, of the Boston team, is called "Angel Face" all over the country by the bleacherites. He has a habit of slowly walking in from his place out in left field to dispute a point with an ump

SPORTING.

GOLF

Beside the usual play for the president's cup, the Hooley cup and the green committee challenge trophy at the Park Golf Club course Saturday afternoon, there will be several special events for the members. In the morning there will be a junior handicap tournament, beginning at 10 o'clock. It will be eighteen holes, medal play, open only to members under eighteen years of age. A men's handicap tournament, eighteen holes, medal play, also qualifying for the president's cup, will be held in the afternoon. There will also be a ladies' handicap, nine holes, medal play, qualifying as well for the Hooley cup. Edgar I. Serrell is next in line as challenger for the green committ- the challenge trophy, won last week by Morgan T. Townsend. Since that trophy was first competed for no member has held it for over a week It remains to be seen whether or not Townsend will break that record. Serrell has been playing bully good golf of late, and promises a lively fight for the trophy. It will be a match play, eighteen holes.

CYCLING COMMENT.

The Brunswick Bicycle Club, at New Brunswick, is endeavoring to get Michaels to give a five-mile exhibition race at their meet on the Highland Park driving track July 4th. The race committee has secured a permit from the National Cycling Association to hold the meet, and five events have been decided upon in which the chief prizes will be diamonds.

The annual century run of the Brunswick Bicycle Club, which was scheduled to occur on next Saturday, has been postponed, it is reported, for one week, or until June 23. The change of date is due to several other events of interest to bicyclists which will occur on the same date. These include a big run from New York, in which several local riders will participate, and also the big race meet of the Atalanta Wheelmen, which will occur on the Vailsburg track, near Newark.

ON THE DIAMOND

James Brown, of South Second street, has been chosen as umpire for the Westfield team the rest of this season.

The St. Mary's ball team will play the Y. M. O. A. S. team from Newark Saturday on the Washington avenue grounds. The former team is in excellent condition and are confident of winning. Clarence Waldron is now managing the nine.

BROKE HER HIP.

Little Evelyn Marsh, of Lafayette Place, Tripped and Fell With Very Serious Results.

A peculiar accident befell little Evelyn Marsh, daughter of Theodore Marsh, of Lafayette place, yesterday morning. Little Evelyn, who is only fourteen months old, was playing on the floor with an older brother, when in some way she tripped and fell.

Dr. Carman was summoned and an examination showed that the child's hip had been broken. With the assistance of Dr. Murray, the hip was set.

The little girl is suffering quite badly this morning and is reported as being in great pain.

Odd Fellows Met at Westfield.

A large number of Plainfield Odd Fellows attended the district meeting held at Westfield last night. Speeches were made by Grand Master Smith, Grand Representative Grass, of Jersey City, and Deputy Grand Master T. C. Smith, of this city.

Industry Started Up.

Block Mill No. 1, of the American Sheet Mill Company's plant at Phillipsburg, which has been idle for the past two months, started up yesterday with about seventy-five hands.

TRY ALLEN'S FOOT-EASE,

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures swollen, sweating feet, ingrowing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it To-day. Sold by all druggists and shoe stores for 25c. Trial package FREE. Address, Allen S. Olmsted, LeRoy, N. Y.

IF you feel shaky about letting the laundress handle your silk, challie or delicate lawn dresses, suppose you see what our always successful dry cleansing process does. We **Ought** to be better fitted to do the work and we are.

A SUCCESSFUL SEASON.

HIGH SCHOOL ATHLETES FIND THEIR FINANCES ALL RIGHT.

Ten Games of Baseball at the Average Cost of $9 a Game—A Small Balance on Hand.

The new athletic association of the Plainfield High School wound up the affairs of its inaugural season this morning at the semi-annual meeting of that organization held at the High School at the close of morning exercises.

Since athletics in the High School were placed on the new basis and the athletic association completely reorganized in the winter, the attention of the association has been entirely devoted to baseball. The meeting this morning was simply to allow the report of the officers to be made, and the reports, those of the treasurer and the manager of the baseball team, referred to the conduct of that branch of athletics.

The funds of the association, it will be remembered, were raised entirely by subscription from among the members of the school. The report of the treasurer, Hervey Doane, showed that nearly $90 have been subscribed and of that amount $78 had been paid in. All but $12 had gone to pay the expenses of the baseball team and some small incidentals needed in conducting the business affairs of the association. The balance of $12 was still on hand.

The report of the manager, Townsend Mason, was given the supplement to the treasurer's report. It showed that the cost of the baseball team had been $90.23. The receipts amounted to $94.92, leaving an unexpected balance of $4.69, which had been turned over to the treasurer. The receipts had been principally appropriations from the association treasury but a small amount had been received from the sale of season tickets and more from the admission fees of spectators to the baseball games.

The baseball team played ten games at the average cost of $9 per game. Of that amount the association paid about $7 per game.

CHAS. C. BUTLER DEAD.

Passed Away at Home of His Son-in-law, Dr. E. W. Hedges, of Watchung Avenue.

Charles C. Butler, of San Francisco, Cal., died last evening at the home of his son-in-law, Dr. E. W. Hedges, of Watchung avenue. He came east three months ago to visit his daughter and his failing health compelled him to remain here to await the end.

Mr. Butler was born in New York city seventy-two years ago. In 1850 he went to the Pacific coast where he made his home. Realizing that his life was drawing near a close, Mr. Butler came east to visit his daughter. For the last week he was very ill and it was realized by the family that death must ensue. His wife and daughters were at his bedside last night.

A widow and two daughters, Mrs. E. W. Hedges and Miss Emma Butler, survive him. He was engaged in the real estate business in San Francisco. The funeral will be private. The interment will be at Greenwood cemetery, Brooklyn.

Sentence Suspended.

Easter Sunday of this year there was a fight at Netherwood, in which two men named Caufield and Beagan and another man named Frank Johnson, were the principals. It was claimed that Johnson assaulted Caufield's wife, and a charge of assault and battery was preferred against him. Johnson was arrested and indicted by the Grand Jury. His counsel, J. P. D. Kirch, retracted a plea of not guilty and entered one of non vult. Yesterday Johnron was arraigned for sentence, and Judge Vail suspended sentence.

An Approaching Marriage.

Mr. and Mrs. Hermann Simmonds, of this city, have sent out invitations for the marriage of their daughter, Miss Josephine Harte Simmonds, to Rev. David Campbell Mayers at the Grace P. E. church, Thursday afternoon, June 28th, at 5 o'clock. A reception will follow at the home of the bride's parents, 1402 Watchung avenue, from 5:30 o'clock until 7.

New Tribe of Red Men.

Great Sachem William Newcorn went to Woodbridge last evening and effected the temporary organization for Papiac tribe and received their application for a charter. Great Sachem Newcorn will institute the new tribe next Wednesday evening. There are already forty-seven paid up charter members.

—Rev. W. A. Credit, D. D., of Philadelphia, will speak and Mrs. George W. Saums will render violin solos at the Y. M. C. A. Rally, Sunday at 4:15 o'clock.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—Jerusalem Chapter, No. 24, R. A. M., will hold a communication this evening and confer two degrees.

—Mrs. P. Moran, of 516 West Fifth street, has just received from a friend in the West India Islands, a beautiful piece of coral over two feet long, which she highly prizes. It is a very beautiful gift.

—The owners of the American Cement Works at New Village have begun the erection of a building to be used as a dining hall, with kitchen connected, for the purpose of supplying their employes with meals.

—You can do any cooking on a Brooklyn automatic wickless blue flame oil stove that you can do on any stove. It is absolutely safe, very convenient and the cleanest stove made. See them in operation in our basement. Woodhull & Martin.

SEVENTEEN GRADUATED.

Closing Exercises of the Piscataway Township School Held at New Market Last Night.

(Special to The Daily Press.)

New Market, June 14—The New Market Baptist church was filled last evening with a host of friends of the seventeen young graduates whose school career is finished so far as the Piscataway township schools are concerned. An interesting programme had been arranged, which was thoroughly enjoyed by all. Miss Bessie Tappen, the class prophet, and Miss Mildred Bunting, the valedictorian, secured very high averages for the year, both being the same. The following is the complete programme and the graduates:

Music—Violin Duet.
Prayer.....Rev. Frank Fletcher
Class Song.....Class
Essay—Our Flag.....Emily M. Hallett
Address.....C. H. Baxter
Class History.....Zella L. Kelly
Essay—Coal.....Ralph Eckert
Essay—Liberty.....Mary Griscom
Essay—The Good Old Times..Theresa Horan
Essay—Beauties of Nature.....Hazel Lord
Music.....Banjo Club
Music—Violin Duet.
The Misses Smith, Nelson and Ase
Essay—Time.....Lyranthia Nelson
Essay—Aim of Education.....Walter Nelson
Class Prophecy.....Bessie Tapen
Valedictory.....Mildred Bunting
Presentation of Diplomas..Dr. M. J. Whitford
Address.....Rev. J. C. Cubberly
Music.....Mrs. R. Giddes
Remarks.....Rev. F. Fletcher
Remarks.....Rev. E. Davis
Class Song.....Class
Music.....Banjo Club
Benediction.

THE GRADUATES:

May T. Hallett.	Ralph Eckert.
Emily M. Hallett.	Bessie A. Tappen.
Zella L. Kelly.	May L. Tappen.
Hazel K. Lord.	Mary C. Griscom.
Mabel E. Lefler.	Virginia F. Randolph.
Kittie E. Bays.	Veradelle E. Nelson.
Walter E. Nelson.	Lyranthia Nelson.
Frank P. Kelly.	Mildred Bunting.

Theresa Horan.

THIEVING TRAMPS.

Entered a Borough Barn and Were Running Away With Coachman's Property When Discovered.

Two thieves entered the barn at the residence of J. P. Northrop, Myrtle avenue, yesterday afternoon, and they were seen to leave the barn with a valise and a pair of shoes by Northrop's coachman, who lives in the upper part of the barn. He gave chase, but could not catch the men. In their flight they dropped the valise and shoes, but upon investigation it was discovered that they had taken the coachman's underwear, some clothes and $10 in money.

As soon as possible word was sent to Chief Campbell, of the borough, and Captain Grant, of this city, but the thieves made good their escape before the officials could get any trace of them. The coachman says that both of the thieves were strangers to him, and they looked very much like common tramps. For a time there was much excitement in the neighborhood, and it looked at one time as though the men might be caught. They disappeared back of Alvin Hoagland's property, and went away through Front street.

PARTICULAR MENTION.

Charles S. Lee, of Ninth street, general passenger agent of the Lehigh railroad, left this morning for Buffalo on a business trip.

Harry Batton, of West Second street, has resigned his present position and will leave for Atlantic City today where he has accepted another one.

Mr. and Mrs. Charles Matthews, of Grove street, who have been away for the past six weeks on account of the ill health of Mrs. Matthews, will return today from Philadelphia. Mrs. Matthews is not much improved from her illness.

Serious Charge Against Italian.

(Special to The Daily Press.)

Elizabeth, June 13.—Dominick Valindo, of Fanwood, was arraigned in the Union County Court yesterday charged with a brutal assault on a nine-year-old girl. The man pleaded not guilty and was committed to the county jail in default of $1,000 bail.

Local News on Pages 2 and 3.

Appointed Cattle Inspector.

Robert A. Meeker has been appointed cattle inspector for this district by the State Board of Health, and he has begun his work of inspecting.

Miss Susie Goff, of West Fourth street, has returned from a visit with friends at Elizabeth.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., FRIDAY, JUNE 15, 1900. TWO CENTS A COPY—$5 A YEAR.

NEW FACTOR APPEARS IN TROLLEY AFFAIRS.

Perth Amboy Traction Company Wants a Line From Perth Amboy to This City.

AN INDEPENDENT CONCERN.

HAS JUST SECURED FRANCHISE FOR LINE TO METUCHEN FROM AMBOY.

The Owners of the Raritan Copper Company Are Largely Interested in the Corporation—New Line Will be a Valuable One.

The Brunswick Traction Company and the Westfield and Elizabeth Street Railway Company have been the only important factors in the advacement of the trolley roads in this section heretofore but now a new and independent interest appears on the field with the avowed desire of extending its lines to the city of Plainfield. Its latest act has been to secure the franchise for a line between Perth Amboy and Metuchen.

This practical new-comer among the electric traction companies is the Perth Amboy Traction Company. Its backers are the capitalists who own the Raritan Copper Company, whose large works are located on the Raritan, near Perth Amboy. The capitalists were first interested in the electric street railway as a means of conveyance of their employes to their factory. They also consider it a good investment.

Of late the financiers of the Perth Amboy Traction Company have been investigating the possibilities of electric transportation in that vicinity and they have decided that it would be a clever move to connect the lines of the Jersey Central and the mine line of the Pennsylvania Railroad with Perth Amboy direct instead of compelling a long and tiresome trip around by the way of Elizabeth. It is their intention to construct a line if possible from Perth Amboy through Metuchen and on to Plainfield, here connecting with the Elizabeth-Plainfield line and the Bound Brook and Somerville system.

Their first desire has been just accomplished. A franchise has been granted to that company for the erection of a trolley line from their present system in Perth Amboy to Metuchen. The entension of that line to Plainfield will be next considered.

Now that a trolley line is to be built from South Amboy, just across the bay from Perth Amboy, to the various summer resorts on the Jersey coast, this connecting link with Plainfield will be an important one. It will also be valuable in furnishing an easy means to reach Boynton Beach and the other resorts on the Kill von Kull.

CENSUS MAN'S TROUBLES.

New Brunswick Enumerator May Have to Make Wholesale Arrests.

The Middlesex county jail will probably hold a colony of recalcitrant Italians before nightfall. They have been making trouble for the census enumerator, Edgar Campbell, at Metuchen, by refusing to answer his questions, although he used all caution and diplomacy and took an interpreter with him in each case to assure them that his motives were good and honest. Somehow the Italians got the idea into their head that if they answered the questions they would have to pay taxes.

Yesterday Supervisor Tunis went before United States Commissioner J. K. Rice and apprised him of the state of affairs. Rice promptly telephoned to Trenton for a United States marshal to go to Metuchen to arrest the Italians if they did not submit to the questioner.

Examinations for Princeton.

Registrar Henry N. VanDyke, of the Princeton faculty, said yesterday that ninety-six men had tried the entrance examinations at Princeton that day, an increase over last year of twenty-two. At the Pittsburg examinations there was an increase of ten. From the present outlook the class of 1904 will be the largest in Princeton's history.

Great Sachem is Busy.

Great Sachem Wm. Newcorn's next visitation will be to Ramseys, Tuesday evening next, when he will address a meeting preliminary to the organization of a new tribe of Red Men in that place.

Children to Entertain.

The children of the church of the Church of the Holy Cross will give an entertainment, consisting of dialogues and recitations, June 26th.

DEMOCRATS ARE ALIVE.

JERSEY FORCES GRADUALLY GETTING TOGETHER FOR ACTIVE WORK.

Conflicting Elements Show a Disposition to Bury Dissensions—The Recognized Leaders.

The Democrats of New Jersey indulge in the hope that this year will see the end of their troubles. The record made by the recent State Convention of their party was such as to give them encouragement for the future, because it was an indication that the conflicting elements show a disposition to bury all dissensions and to come together once more and thereby perfect a compact organization.

The recognized leaders of the Democratic party in New Jersey now seem to be Congressman Daly, "Bob" Davis, Senator Cornish, Colonel Pfeiffer, James E. Martine and David S. Crater. At all events they are running the machine, and will continue in that capacity during the Presidential campaign. Next year, when a contest for Governor is waged, perhaps those leaders who are now in ambush may take a hand in directing the lines of battle. Those leaders above mentioned are not tyros in politics by any means. On the contrary they have had wide experiences in campaigns, both local and State, and most of them are known as shrewd manipulators. But they need a head or a commanding general, one who has influence enough to raise campaign funds and to unify and cement the Democratic forces. Should E. F. C. Young be nominated for Governor then a man of the character mentioned will come to the front, no doubt, and assume charge of affairs. Like Brer Rabbit, old time leaders, such as former Senator Smith, Allan McDermott, Ben Lee and E. F. C. Young, are now lying low, but when the oportunity offers they are expected to come to the front and exhibit some of their old-time vigor. But the question is asked, and apparently very appropriately, "Why don't these men come out now and show the stuff that is in them?"

RECEPTION TO GRADUATES.

Plainfield High School Alumni Will Hold Annual Affair in the Casino.

Elaborate arrangements are being made for the alumni reception of the graduating class of the Plainfield High School this year. The reception will be held in the Casino, as usual, on Thursday evening at the close of the commencement exercises at Music Hall. A special provision will be made for the members of the alumni so that they can obtain tickets from the chairman of the committee, Henry W. Brower, at the cost of $1.50 for a subscription, admitting two. The Twelfth Regiment orchestra, of New York, will furnish the music.

Plainfielders Get Off.
(Special to The Daily Press.)

Elizabeth June 15—Judge Vail, in the Union County Court here yesterday, sentenced Samuel Carico, of Rahway, to one year in State prison for an assault on Mary Yanzoway, a young woman of that city. The accused man pleaded guilty. John Richards, Eugene Wheeler and Clarence Wheeler, young men of Plainfield, pleaded guilty to the larceny of coal from the Central Railroad Company. Judge Vail suspended sentence on the three prisoners.

Painting of Chief Doane.

Col. Julian Scott, the well-known artist, has just completed a handsome oil painting of Chief T. O. Doane, of the city fire department. The painting shows the chief in full uniform. Col. Scott has presented the painting to Chief Doane, and it is now being exhibited in the Park avenue jewelry store of J. Hervey Doane.

Class Day Exercises.

The classes of 1900 of the Plainfield High School will hold its Class Day exercises in the Assembly Hall of the Franklin building Tuesday evening. An entertaining programme has been arranged. Four hundred invitations have been issued. There will be no admission without invitation.

Will be at the Opening.

Chief T. O. Doane, of the fire department, has been chosen as representative of the Board of Representatives of the Firemen's Relief Association, of this city, at the opening of the Firemen's Home, Boonton, June 23d.

Joint Meeting of Freeholders.

The Somerset County Board of Freeholders will meet the Union County Board next week Tuesday at 2 o'clock at Duer street, where arrangements will be made to build the new bridge over Green brook.

Won Scholarship.

Thomas McDonald, of the borough, who graduated this year from the Hackettstown Institute, won a scholarship at Wesleyan College, and he will enter that institution next fall.

A NIGHT OF FESTIVALS

THREE OF THE AFFAIRS GIVEN DESPITE THE INCLEMENT WEATHER.

There Was Plenty to Eat and Pleasant Entertainment for All Who Attended Them.

The ladies of the social and sales committee of the Holy Cross church proved last evening that they are able to conduct a sociable or a sale in a successful manner. One of these was given by the ladies yesterday afternoon and evening. The chapel of the church never looked prettier than it did last night, when the sale was at its heighth. Tables with fancy articles, cake and lemonade for sale were placed around the room, each one presided by one of the ladies with a corps of assistants.

In the centre of the room was placed small tables, each one with a beautiful bouquet of flowers on the centre. Here the visitor could find a seat and be obligingly waited upon by one of a bevy of waitresses.

The waitresses were kept busy all the evening. The chairman of the social and sales committee, under whose auspices the affair was given, was Mrs. Samuel Townsend. Miss Nettie Davis was in charge of the refreshments and was assisted by Mrs. Brock, Mrs. Clapp and Miss Stevens.

The cake table was presided over by Mrs. Barker and her assistants were Miss Emmons, Miss Hannigan, Miss Ida Davis and Miss Alice Barker.

Cool and refreshing lemondade was served to the thirsty ones by Mrs. Rhodes, assisted by Miss Helen Phillips, Miss Faber and Miss Hooley.

The articles on the fancy table were disposed of by Mrs Downey, Mrs. Pollard, Mrs Murray, Mrs. F. S. Brown, Mrs. A. E. Faber and Mrs. Newly.

The prospect of any festival at all at the First Baptist church last evening was decidedly dubious, but the rain agreed to hold off for a time and the people finally came to the number of nearly a hundred and fifty. While the attendance was by no means as large as it otherwise would have been, the evening proved an enjoyable one.

Games and an informal musical programme entertained the guests while they were not busy eating ice cream and strawberries. A quartette, composed of Arthur Smith, Frank McDonald, R. Wilson Derby and Clifford Braider, gave a number of selections, principally plantation songs, while there were piano solos by Frank McDonald and Clifford Braider.

The affair was given by the Christian Endeavor Society of the church, the social committee of which was in charge. The committee was composed of Dr. W. Kempton Browning, chairman; Miss Sue Woodland, Miss Mary French, Miss Bertha Needham, John G. McLaughlin and Clifford Braider.

The strawberry and ice cream festival given by Martha Washington Council, No. 23, D. of A., at 120 East Front street, last evening, was a success in every particular. There was a large number present. The committee in charge consists of Mrs. R. Bennett, chairman; Miss May Hughes, Mrs. G. B. Allen, Mrs. Mattis, Mrs. Thompson, G. B. Allen and G. S. Martin. The sociable will be continued tonight and tomorrow night and dancing will be a feature. Those who are serving as waitresses are Mrs. Page, Mrs. Allen, Mrs. Randolph, Miss Hughes and Mrs. Walsh.

Festival at Marconnier Tonight.

The inclemency of the weather prevented a large attendance at the festival arranged by Marconnier chapel last night, and so it was decided to adjourn the affair until this evening when it is expected that there will be a large attendance. Many will go from this city. A stage will leave Trinity Reformed church at 7:15 o'clock this evening for the chapel, and at 7:30 o'clock those intending to go by bicycle will leave the church.

Barn Burned by Incendiaries.
(Special to The Daily Press.)

Flemington, June 15.—Incendiaries Wednesday night burned the large barn and outbuildings near Croton belonging to Edward Simmons, of New York, and occupied by Asa C. Dalrymple. The live stock was saved, but everything else, including a large quantity of hay and grain and a lot of machinery, was destroyed. The loss is partly covered by insurance.

At the Reform Club.

Jeanrenaud Brothers, the local musical sketch team, were the features of the Reform Club's meeting last night. The different numbers on their programme were received with great applause by a large audience. Speeches were made by several members of the club, and selections were given on the piano. The meeting was thoroughly enjoyed by all.

ELECTED OFFICERS AT THE VERY START

New England Baptist Missionary Convention Selects Rev. W. T. Dixon as Its President.

300 DELEGATES PRESENT.

CONVENTION WILL CONTINUE UNTIL MONDAY NIGHT.

Several Short Addresses Delivered—Committees Appointed by the President—Good Sermon Heard Last Night.

The New England Baptist Missionary Convention convened yesterday afternoon in the Mt. Olive Baptist church, Rev. W. T. Dixon, pastor of the Concord Baptist church, of Brooklyn, who is president of the convention, presiding. Rev. A. W. Adams, of Boston, Mass., was secretary. After a few pleasant words by President Dixon, the Scripture lesson was read by Rev. H. C. Powell, of New Haven, Conn. A short address of welcome was given by M. C. Dobbins, superintendent of the Mt. Olive Baptist Sunday-school. This was followed with a few words of a pleasing character by Rev. W. C. Haws, of New Brunswick.

At this time Rev. E. W. D. Tsiac, National Secretary of the Baptist Young People's Union, of Nashville, Tenn., was introduced to the convention. He brought greetings to the convention from the Southern Baptist Association.

The committee on nomination of officers was then appointed as follows: Revs. W. S. Holland, Providence, R. I.; H. C. Powell, New Haven, Conn.; R. T. Ganes, Providence, R. I.; W. A. Creditt, D. D., Philadelphia; E. E. Jackson, Plainfield; S. M. Smith, Princeton.

After Rev. E. E. Brown, presiding elder of the A. M. E. church, of Georgia, and Rev. Mr. Cooper, of the A. M. E. church, this city, were introduced and made a few remarks, the election of officers resulted as follows: President, Rev. W. T. Dixon, Brooklyn; vice-president, Rev. J. H. Presly, Providence, R. I.; recording secretary, Rev. A. W. Adams, Boston, Mass.; corresponding secretary, Rev. T. J. Brown, Brooklyn; treasurer, Rev. R. D. Wyn, Brooklyn; board of directors, Revs. W. S. Holland, Providence, R. I.; M. T. Harvey, New Brunswick; W. A. Creditt, D. D., Philadelphia; R. T. Ganes, Providence, R. I.; A. C. Powell, New Haven, Conn.; B. T. Moore, Wilmington, Del.; S. W. Smith, Princeton.

After the election Rev. Dr. D. J. Yerkes, pastor of the First Baptist church, this city, spoke a few words of fellowship and extended his best wishes for the success of the convention. He was followed by Prof. Hays, president of the Virginia Seminary at Lynchburg, Va., who spoke on educational work among the colored people.

President Dixon then appointed three committees as follows: Credentials, Revs. J. L. Birchett, Elizabeth; S. W. Smith, Princeton; J. C. Love, Montclair; S. W. Roberts, New Brunswick; S. A. Thomas, Port Richmond; W. O. Harris, Poughkeepsie; finance, Revs. J. H. Travis, East Orange; R. I. Ganes, of New York; W. G. Holland, Providence; admissions to convention, Revs. R. A. Motley, Jersey City; B. T. Moore, Wilmington, Del.; A. Gordon, Philadelphia; W. Gay; Woburn, Mass.; L. H. Berry, Governors Island; A. C. Dixon, Brooklyn; O. W. Wiley, Brooklyn.

The convention reassembled at 7 o'clock last evening with a praise service, and at 7:45 o'clock President Dixon called the meeting to order. After the opening exercises a well-worded welcome letter was read by Maude Green, and the response was given by the president in a happy vein. This was followed by another letter of greeting read by Annie Saunders, giving all a cordial welcome to the church. During this time the president was presented with a number of handsome bouquets. After L. H. Biglow, Jr., sang "I Shall Be Satisfied," Rev. A. W. Tsiac, of Nashville, Tenn., delivered the introductory sermon, in place of Rev. W. A. Creditt, D. D., who retired in favor of the former. Mr. Tsiac preached a very strong sermon on Christ being the light and life of the world.

After the sermon the meeting adjourned. This morning following the prayer and praise service, led by Mrs. R. L. Powers, of Norwich, Conn., the Women's Foreign and Home Mission Society met and discussed important questions relating to the home and foreign fields. This afternoon's session will be devoted to the appointment of committees and discussions of various

[CONTINUED ON PAGE 5.]

AT THE BIG CONVENTION

ARRANGEMENTS FOR JERSEY G. O. P. AT PHILADELPHIA.

Headquarters Will be in the Hotel Lafayette, and Will be Opened Tomorrow Night.
(Special to The Daily Press.)

Philadelphia, June 15.—None of the New Jersey Republican leaders have yet landed in the city for national convention work, and the headquarters in the Hotel Lafayette will not be opened until tomorrow night. United Senator John Kean, temporarily representing the State on the National Committee as the successor of Vice-President Hobart, was in attendance at the committee meetings early in the week, but he has returned to his home in Elizabeth and will not reach the city again until tomorrow evening or Sunday. The Jerseymen will be much more in evidence by Monday, when headquarters will be open with a full head of steam on. Congressman Henry C. Loudenslager, the popular representative of the First district, will be in charge and the party leaders will welcome the visitors.

The headquarters will be in Parlor B, in the southwest corner of the office floor of the Lafayette. The parlor has many windows opening on Broad street, is handsomely furnished and artistically decorated. Besides the parlor the Jersey contingent has engaged thirty rooms on the sixth floor for sleeping accommodations.

United States Senator William J. Sewell will be quartered at the Walton, where a room for the meetings of the State committee has also been secured. Of course General Sewell's quarters will be another objective point for the Jersey visitors, and things will be lively there after Sunday.

Major William M. Palmer, of Haddonfield, has been appointed an assistant sergeant-at-arms by Sergeant-at-Arms Wiswell.

CRIMINAL LIBEL.

Jury Decides Manning Sent a Defamatory Letter to Mrs. McCloskey, of New Brunswick.

It took a New Brunswick jury just half an hour yesterday to convict Wm. Manning and finish a bitterly contested criminal libel case.

Manning was indicted for sending a letter to Mrs. David McCloskey, a wealthy woman, in which her husband, former Freeholder McCloskey, was charged with meeting Mrs. Manning. Manning and his wife have been separated for a year. Mrs. McCloskey in the letter was urged to meet Manning at a boarding house, and instead of doing so turned the letter over to her husband.

Manning's trial had been postponed several times. When it was finally gotten under way, W. J. Kinsley, a handwriting expert, occupied an entire day in identifying handwriting. He insisted that Manning had written the letter, and took as his standard some bills which he swore Manning had written.

Harry Olmer testified that he had written for Manning the identical papers which the expert had sworn that Manning had written, and with which the defamatory letter was compared. The case will be appealed. In New Jersey criminal libel can be punished by a sentence of seven years at hard labor.

GUYED THE COP.

Disorderly Boys Crossed to the Borough When Officer Meyers Attempted to Catch Them.

Officer Meyers was notified Wednesday night that a crowd of young men and boys, who were in bathing at the Clinton avenue bridge, were making themselves obnoxious to the residents in that vicinity.

Upon the officer's approach the bathers all scampered to the borough side of the brook where they could not be arrested. The policeman was forced to stand on the bridge and listen to their shouts of derision and taunts to "come on." He looked in vain for a borough officer but none came, and he left the scene with the swimmers in possession of the bridge.

A repetition of the offense will lead to complaints being made against the offenders and consequent arrests.

Attended Unveiling of Monument.

Elder Wm. H. Shotwell, of the First Presbyterian church, accompanied by Mrs. Shotwell, attended the unveiling of the Presbyterian historical monument at Wickatunk, Monmouth county, yesterday. They also visited the old Tennent church of Revolutionary fame and attended divine service in the old structore.

—Neuman Brothers will have a fine exhibition of all the summer vegetables at their Watchung avenue store tomorrow morning.

Local News on Pages 2 and 3.

CAN'T RECOVER EXCESS.

LIQUOR DEALERS UNABLE TO GAIN THE POINT THEY MADE.

Judge Collins Decides That Piscataway Township Need Not Pay the Money Demanded.

Judge Collins, of the Middlesex Circuit Court, has just rendered a decision in the suit of Francis Mulvey, of Bound Brook, against the township of Piscataway, to recover an excess of license fees. The suit was tried in the April term of court. Mulvey claimed that he had paid the township for a number of years more money for a license than was required by law. The license fee has been placed by the court at not less than $100 where the population is less than 3,000 and at $150 where the population is between 3,000 and 10,000. Mulvey's suit grew out of the following:

After the borough of Dunellen was formed and drew out of the township of Piscataway the population was decreased to below 3,000. The liquor dealers had been paying $150, which they continued to do so until last year, when they considered they should only pay $100, which they did.

Suit was then brought by Mulvey, who was also acting for some of the other dealers, to recover from the township the excess they had paid since Dunellen was made a borough. In his decision Judge Collins stated that he thought the $100 fee was a minimum and the court could fix the the fee in each case as it saw fit. He accordingly rendered judgment for the defendant. H. C. Suydam, of this city, represented the township and Theodore Strong appeared for Mulvey.

If Mulvey had been successful in his suit every municipality in the State would have been affected by the decision. The amount involved was about $500.

A TELEPHONE WAR.

New Company Got Its Poles Set Before the Authorities Could Stop It.

The New York and New Jersey Telephone Company stole the march on the county authorities and its chief rival, the Somerset Telephone Co., last week, when it got its poles erected and wires strung between New Brunswick and Millstone before it could be stoped.

County Engineer Doughty discovered a gang of men at work erecting poles along the new stone road, and notified the authorities. Constable Totten was sent to the scene of operations to stop the work, but by the time he arrived the poles were all in place on the portion of the road over which he was authorized to act. But before any further action could be taken towards stopping the progress of the work the wires were strung.

There is quite a warfare on now between the two telephone companies in Somerset county. The Somerset Telephone Company is only the local name for the home company, which has extensive lines in Newark, Trenton and other cities of the State. It also has a long distance service of some extent. It has its headquarters at Bound Brook. The Bound Brook authorities have thus far refused to permit the New York and New Jersey Company to establish a central in that borough.

THEY ARE FRIENDS.

Representative Daly and Chairman of State Democratic Committee Bury the Hatchet.

Representative William D. Daly, of Hoboken, yesterday announced that he and William B. Gourley, of Paterson, chairman of the State Democratic Committee, had patched up the quarrel which had agitated their party for a year or more, and would in the coming campaign stand shoulder to shoulder for the candidate nominated at Kansas City.

Mr. Daly said Mr. Gourley and himself had come to an understanding at a meeting of the committee of arrangements held on Wednesday night to arrange the details of the trip to Kansas City. Mr. Daly added that he was now satisfied that Mr. Gourley had worked for Mr. Bryan in 1896 and would do so again. He declared that Mr. Gourley would probably be selected as New Jersey's member of the National Committee, though the choice would not be formally made until the Hudson county delegates held their caucus at the time of the National Convention.

School to be Dedicated Labor Day.
(Special to The Daily Press.)

Elizabeth, June 15—The new public school in Jacques street, this city, which is the second in size of the public schools here, will be dedicated Labor Day. The school cost $40,000, and will be turned over to the Board of Education next month.

CRAGIN'S ISLAND PROJECT OPPOSED.

Harbor Line Board Considers the Proposition to Build a Big Harbor Island.

SHOALS TO BE FILLED UP.

A CLEARING HOUSE FOR OCEAN FREIGHTS, WITH WHARVES.

Cragin Claims to Have Ample Capital, But There Are Strong Interests Opposed, Including the Central Railroad.

The United States Harbor Line Board held a meeting yesterday to consider the application before it from Edward F. Cragin and the New Jersey Riparian Commission for permission to establish an artificial island in New York harbor on the shoals near Ellis and Bedloe's Islands.

Mr. Cragin said that it was the purpose of the projectors to establish on the island a clearing house for ocean freights for all the railroads, with ample room for steamers all around the island.

Amasa Thornton, counsel for Mr. Cragin, declared that there was ample capital already secured to go ahead with the project.

George L. Record, counsel for the New Jersey Riparian Commission, said that Mr. Cragin had made application to that body for a grant of land under water, and that the Commission had had its engineer, Mr. Payne, prepare maps fixing the limits of the proposed island. If the Harbor Line Board approved these plans, Mr. Record said they would be officially adopted. By these plans the island would begin at the pier head line and extend beyond the present islands to the 16 foot depth mark.

Much opposition to the plans was developed. Representatives of the Pennsylvania Railroad protested that the proposed island would be an obstruction to traffic, and James Vredenburgh said the road would not make its contemplated improvements at Jersey City if the grant were made.

The Central Railroad of New Jersey also filed a formal objection, and there were many owners of water front property who also objected.

Colonel Robert, president of the Harbor Line Board, finally announced that the Board would adjourn for such time as would be required by Mr. Cragin to have plans, maps and specifications of the proposed island prepared. Mr. Kernan, of counsel for Mr. Cragin, said this would require from two to two and a half months.

END OF ITS TENTH YEAR.

Junior Endeavor Society of Trinity Reformed Church Has Had a Decade of Life.

The Junior Endeavor Society of Trinity Reformed church closed the tenth year of its work with very pleasant exercises yesterday afternoon. Notwithstanding the inclement weather there were fifty-three members present who enjoyed greatly the programme which had been prepared. The report of the secretary, Morris Brokaw, gave an excellent summary of the year's work, showing that the famine sufferers in India, the mission workers in Araiba and Japan, the American Indians as well as the "shut in's" in hospitals had been remembered by the Juniors.

The treasurer, Anna Holder, stated that $44 had been raised for benevolent objects. Prizes were awarded to several of the members by the Superintendent, who in turn was greatly surprised by the Juniors who presented her with a beautiful gift.

After selections by several of the members and an address by the pastor, ice cream and cake were served.

The exercises were concluded by the presentation of pretty souvenir scriptural cards sent to the Juniors by Mrs. Frank Scudder, of Nagauo, Japan.

An Exciting Runaway.

The horse belonging to the Meadow Brook farm, ran away on Plainfield avenue last evening, and caused a scattering on that street for several blocks. He was caught at the corner of West Fourth street by Matthew Sweeney. Besides considerable milk being lost the harness and shafts were rendered useless.

Newspaperman Dead.

Walter Taylor, for many years associate editor of the Long Branch Record, died last night after a lingering illness from stomach trouble, at the age of 34 years. He was the son of Frank M. and Josephine Taylor, and was well known as a newspaper man.

Local News on Pages 2 and 3.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Children's Day exercises will be the feature at the East Third Street mission Sunday afternoon.

—The contract case of Mair against Galloway has been adjourned in Justice Nash's court for one week.

—Children's Day exercises will be held at the Washingtonville chapel next Sunday afternoon at 3 o'clock.

—This evening the Borough Council will meet to pay the bills for street labor and consider a few other matters.

—Dr. Credit, of Philadelphia, one of the leading delegates attending the New England Baptists' convention, will speak at the Y. M. C. A. next Sunday.

—The Board of Freeholders from Somerset county will meet this afternoon near Robert Thompson's bridge, Washington Valley, to decide about some work.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—A strawberry and ice cream festival will be held this and tomorrow evenings in the old City National Bank building under the auspices of Marth Washington Council, No. 23, D. of A.

—If you are looking for a shoe store, where you can buy shoes which are neat-fitting and the prices are right, you will make no mistake by going to Flynn Brothers, 222 West Front street.

—All members of the First Baptist Church Christian Endeavor Society are asked to meet at the church this evening to attend the lecture to be given in the Crescent Avenue church by Dr. Paton.

—John H. Carney, of the borough, is working on the automobile purchased for the use of patrons of the Mountain Park Inn, and he hopes to have the horseless carriage working perfectly in a short time.

—The programme for the class day exercises at the borough public school is about completed. Those who have seen it say it is one of the best ever planned. The exercises will be held next week Tuesday evening.

—Sugar cured hams and bacon very superior in quality, and meats and fish that give entire satisfaction, and beef, mutton and lamb, tender and juicy and of a delicious flavor to be found at Fred Endress, 131 West Front street.

PARTICULAR MENTION.

Murray Burtis, of the borough, left yesterday on a southern business trip.

Miss Morris, of Stelton, has been visiting Plainfield friends for a short time.

Mrs. Henry P. Johnson, of this city, is visiting at the home of Chas. Smith, Raritan.

Mr. and Mrs. Oliver Voorhees, of East Front street, have been visiting relatives at Somerville.

Mrs. Henry VanMiddlesworth, of Elmwood place, is visiting her sister, Mrs. Foster, of Jersey City.

Rev. Montgomery Downey, pastor of the Church of the Holy Cross, has returned from a visit with out of town friends.

Miss Kittie Gallagher and Miss Anna Cunningham, of Raritan, have returned after a visit with Plainfield friends.

L. E. Waring, of Washington Park, has accepted the position of manager for a manufacturing concern at Perth Amboy.

Garrett Q. Packer and family, of East Sixth street, have gone to Wellsley College, where Miss Packer will be graduated soon.

Miss Stella Dundon, of Brooklyn, has returned to her home after a visit with her sister, Mrs. Robert M. Clark, of Somerset place.

Harry Brokaw, manager for Ballentine & VanFleet, carriage builders at Somerville, has been in Plainfield for a few day on business.

Alex. Annin, who has been working in this city, has given up his position and has returned to his home at Liberty Corner, where he will farm.

Miss Shaw, the public school teacher at Washingtonville, will not return next fall. Her place has been filled by the appointment of Miss Addie Opdycke.

Helen Woolley, daughter of Mr. and Mrs. Lindsey Woolley, of West Front street, celebrated the anniversary of her birthday this week Tuesday and she entertained about sixteen of her young friends in honor of the event. The young folks had a jolly good time.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

GENTLE HINT FOR MRS. EYLER.

Mr. Wakelee Thinks She Should Foresee Committee's Action.

The trustees of the State Home for Girls, who were to have met Wednesday, for some unknown reason adjourned the meeting to June 23d. Assemblyman Wakelee, a member of the Legislative Investigating Committee, said yeterday that he hoped Mrs. Eyler would take the hint from the report of the committee and resign, if not after the report is presented, then before. He expressed the opinion that the management of the Home could see their position at present and understand clearly what the committee intends to do.

During the investigation Assemblyman Wakelee was a strong champion of Mrs. Eyler's interests. Formerly the Board of Trustees of the Home was bi-partisan. Under the new organization it is composed of three Republicans and two Democrats.

CAPTURED BY LORD ROBERTS.

Now the Former's Wife Wants a Divorce for Desertion.

(Special to The Daily Press.)

Jersey City, June 15—Vice-Chancellor Pitney directed Wednesday that testimony be taken in the divorce suit brought by Mrs. Annie T. Coveney against her husband, George H. Coveney. Mrs. Coveney was the widow of the late William J. Florence, the actor.

Coveney suddenly disappeared in 1896. He left a letter addressed to his wife in which he wrote that he was going where she would never see or hear of him again.

Mrs. Coveney says she recently heard that her husband was in South Africa and that he had command of a company under General Cronje at the time of his capture. She alleges desertion.

TROLLEY MEN MAY STRIKE.

Trenton Workers Get Lowest Pay in the Country.

(Special to The Daily Press.)

Trenton, June 15.—There is disatisfaction among the trolley motormen and conductors employed by the Trenton Street Railway Company over the wages they are paid and they threaten to strike unless their pay is increased to $2 a day. They are without organization, but will get together within a few days, they say, and make their demand on the company. They now receive $1.60 a day, which is the lowest wages paid motormen and conductors in any part of the country, they claim.

Probable Presidential Electors.

When the Republican convention meets at Trenton to name the electors for the Presidential ticket, Hudson county will present the name of Elbert Rappleye, the editor of the Jersey City Evening Journal. It was said in Newark yesterday that John F. Dryden, president of the Prudential Insurance Company of America, would be named for Essex county. Mr. Dryden was a Presidential elector four years ago, and his renomination will meet with favor all over the State, as will the nominations of Mr. Rappleye, of Hudson county, and John W. Herbert, of Middlesex county, respectively.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis." writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

End of Big Tomato Suit

The long pending suit in the Court of Chancery to determine the ownership of the stock of tomatoes, appraised at $12,000, in the John Wallace cannery, at Woodstown, at the time of his assignment in 1896, has been decided in favor of John S. Elwell, the assignee. Coon & Co., of Philadelphia, claimed the goods as security for cash advanced

Big Farmers' Picnic.

The big Hunterdon County Farmer's Alliance picnic will be held on the Flemington fair grounds on August 15th and 16th. Among the other speakers will be Congressman William D. Daley, of Hudson county. The grangers will make an effort to secure Colonel Bryan as a speaker.

Revolutionary Anniversary.

The anniversary of the Revolutionary Memorial Society of New Jersey will be held at the Wallace House in Somerville next Saturday, when the battles of Bunker Hill and Millstone will also be celebrated. Colonel Asa Bird Gardiner, of New York, will deliver the address.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

BOXERS AGGRESSIVE

A Foreign Legation Reported Destroyed.

INTERNATIONAL RELIEF OBSTRUCTED

British, Americans and Japanese Favor Emperor Kwang Hsu's Restoration—Four Thousand Russians Have Landed.

LONDON, June 15.—A special dispatch from Shanghai says an unconfirmed report has reached there from Tientsin to the effect that a foreign legation has been burned and that a minister has been killed. The names, it is added, are withheld pending a confirmation of the report.

It is further rumored here that the international relief parties are experiencing great difficulties in regard to provisions and water.

Tuesday night the London Times published a dispatch from Peking, dated June 12, 2 p. m., saying the chancellor of the Japanese legation was murdered by soldiers belonging to the bodyguard of the dowager empress. It was also announced the same day that the summer residence of the British minister at Peking, Sir Claude M. Macdonald, had been burned. It is possible that these facts have given rise to the sensational reports in circulation at Tien-tsin and Shanghai.

A special dispatch from Shanghai, dated yesterday, says:

"A report has reached here that the British, American and Japanese ministers in Peking favor the restoration of Emperor Kwang Hsu, but that the French and Russian ministers insist upon the powers taking charge of China. It is further reported that the respective divisions of the country have already been assigned. The belief is that the withdrawal of the British ships from the Yangtse-kiang is an indication of Great Britain's disclaimer of the 'sphere theory.'"

Later reports from Tien-tsin confirm the news of the burning of the Japanese legation, but the rumor that a minister has been murdered is not confirmed.

Fifteen hundred Russians, with four guns, have arrived outside of Peking. This makes 4,000 Russians who have landed.

It is regarded as certain that the Japanese government will take active steps concerning the murder of the chancellor of the Japanese legation.

In consequence of disturbances at Chefu the German flagship and the British cruiser Phœnix have returned there. A Russian warship with 600 troops has gone to Hankow.

Chinese desperadoes at Quin-san, 40 miles from Shanghai, have seized three launches and treated the passengers piratically.

The Times publishes the following dispatch from Tien-tsin, via Shanghai, June 14:

"A serious engagement has occurred between the international column and the Mohammedan troops of General Tung Fuh Ciang near Peking."

Mr. Byron Brennan, British consul at Shanghai, who is now in London, says that these Mohammedan troops are armed with machine guns and repeating rifles.

A Shanghai dispatch says:

"A Chinese steamer laden with arms and ammunition has cleared from Shanghai bound for Tien-tsin.

"A notorious murderer who was delivered by the municipality of Shanghai to the Chinese authorities is being slowly stoned to death in a cage. Thousands of spectators watch his agonies daily."

Observers at Shanghai and Tien-tsin think there is a great deal more trouble ahead for the concert of powers than merely reaching Peking with 2,044 men. Serious disturbances are taking place at Yun-nan-fu and Meng-tze, as well as at other points at a considerable distance from the capital. The whole Chinese empire seems to be in a ferment.

WORD FROM SEYMOUR.

Commander of International Forces Reports Slow Progress.

WASHINGTON, June 15.—A dispatch has been received at the British embassy here from Admiral Seymour, in command of the international troops now forcing their way from Tien-tsin to Peking.

The dispatch disclosed the extreme difficulties encountered, mainly in the form of tracks destroyed, and stated that the progress was only three miles for the preceding 24 hours. The commanding admiral felt that it would be desirable to have additional forces in order to meet every contingency, although the general feeling was expressed that the trouble would be less difficult to deal with than had been expected.

It is calculated that with the three miles tediously covered in the 24 hours preceding the admiral's dispatch, which is dated Wednesday, the international force was 25 miles from Peking. There is every indication, however, that the 25 mile stretch will be about the most difficult of the entire route. The dispatch of the admiral makes no mention of further engagements with the Boxers.

The following cablegram was received from Admiral Kempff, dated Tontg Ku, June 13:

"Twenty-five hundred men are on the road to Peking for the relief of the legations. One hundred are Americans, English and Russians in large majority. All nations here represented. The viceroy at Tien-tsin gave permission to go there. Railroad being repaired as force advances. Russians now sending soldiers from Port Arthur, with artillery."

John Foord, secretary of the American Asiatic association, today received the following cablegram from the Shanghai branch of the association, dated Shanghai, June 13:

"Grave danger threatens Americans in Yang-tse valley. Urgently advise immediate gunboat protection."

On the 7th inst. the following cablegram was received by the association from its Shanghai branch:

"American lives and interests in north China are seriously imperiled. Urge government to act promptly and vigorously with adequate force."

The association, using these two cablegrams as a basis, is circulating a petition for signatures, addressed to the president, asking that this government take energetic steps to protect American lives and interests in China; also that the United States act in concert with the other powers in this emergency.

Relief Column Must Walk.

BERLIN, June 15.—The Berlin papers print a dispatch from Tien-tsin saying that the international relief column has arrived within 30 miles of Peking, but that the distance remaining must be traveled on foot, as the railway is completely destroyed. This, the dispatch says, will require two or three days. Thus far the German squadron has landed at Taku 22 officers and 505 men. The German troops at Kiao-chou will be increased on June 19 by the arrival of a transport with 1,900 soldiers. The transport originally had orders to relieve the troops now serving there and to bring them back to Germany, but Emperor William has just issued an order directing that the steamer be detained at Kiao-chou. This action is presumably taken in view of the situation at Peking.

Choice Meats of all Kinds

Every man and woman who deals with me saves money.

I handle only the best and highest grade of meat money can buy.

People often lack an appetite because they have eaten something unwholesome. Buy your meat of me and you will find nothing of that kind. I guarantee satisfaction.

IT WILL PAY YOU to buy of me as I give you the best meat for the smallest amount of money. If you want to save money in buying your meat give me an order. This is not a mere boast, it is a fact, and I will prove it on receiving your order.

J. C. Storm,

318 Liberty St., near Fourth St. Meat Market

Order called for and delivered in all parts of the city.

WESTFIELD.

CONDENSED DISPATCHES.

Six million persons were stated to be receiving famine relief in India.

The north Atlantic squadron under command of Admiral Farquhar has reached Boston.

The motorman of a car in Chicago fell dead at his post, and the passengers narrowly escaped destruction on a railroad track.

The porte notified the embassadors at Constantinople that the application of the new tariff law would be postponed a month.

The White Star line steamship Teutonic arrived at her dock in New York more than 12 hours late because of a disarrangement of the vessel's machinery.

To Raise West Point Requirements.

WASHINGTON, June 15.—The board of visitors at West Point have completed their work, and one of the board, Representative Slayden of Texas, says the most important conclusion reached by the board was a unanimous recommendation that the examination for entrance to the academy be raised materially so as to accord with the first year's work. At present the entrance examination is framed under an old law and is so elementary that cadets readily enter the institution. Once inside, however, they are confronted with a very difficult course, and 33 per cent drop out the first year. This is a humiliation to the cadets who fail and also a source of confusion and expense. The board of visitors felt that it was quite unjust to admit a cadet by an easy examination and then force him out of the academy by a rigorous course.

A Large Mortgage.

PORTSMOUTH, Va., June 15.—The largest mortgage that ever came to the Norfolk county clerk's office was received yesterday when a deed of trust from the Seaboard Air Line railway to the Continental Trust company of Baltimore was recorded conveying all property of every description of that road to secure the issue of $75,000,000 first mortgage 50 year 5 per cent bonds. The mortgage was first recorded in Petersburg and will be recorded in six states as follows: Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida. The state tax was $75,000 and the United States internal revenue tax $17,500.

A Task In Hawaii.

WASHINGTON, June 15.—Mr. W. F. Maclennan, who for many years has been the chief of the division of bookkeeping and warrants, one of the most important in the treasury department, has been selected by Secretary Gage to institute a system for paying the depositors of the Postal Savings bank of Hawaii, for which congress at its last session made an appropriation. It is estimated that these deposits will approximate $770,000. Their payment will be made through the American bank of Hawaii. Mr. Maclennan will sail on the China from San Francisco June 22.

Shot From Ambush.

DALLAS, June 15.—Henson Williams and his son William, colored, were shot dead from ambush in Brazos county while plowing in a field. Officers are searching for a white man who is believed to have shot them. The elder Williams fought through the civil war as a Confederate soldier and made such a good record that he was a full member of the Confederate Veterans' camp at Milliken. The old white Confederate soldiers are enraged at the assassination and threaten vengeance on the assassin when captured.

Financial Changes In Costa Rica.

NEW ORLEANS, June 15.—News has been received here that President Iglesias of Costa Rica had sent to congress a decree making legal the circulation in that country of the money of the United States, also the gold coin of England, France and Germany. As a consequence the value of Costa Rican money improved here 110 points, from 330 to 220 discount. The Costa Rican congress is now engaged in forming a national banking law which will conform to the new gold basis system.

Flaw In Taylor's Indictment.

INDIANAPOLIS, June 15.—Attorney General W. L. Taylor of Indiana announces that he has discovered a flaw in the indictment against W. S. Taylor of Kentucky. The attorney general says the indictment names the Republican claimant of Kentucky as an accessory, but names no principal in the assassination of Goebel. This he holds to be an important error of which the Kentucky court of appeals must take cognizance.

Heikes Wins Target Handicap.

INTERSTATE PARK, N. Y., June 15.—R. O. Heikes of Dayton, O., won the Grand American target handicap, with a top score of 91 out of a possible 100.

Eight Men Killed In a Coal Mine.

WINNIPEG, June 15.—A Canmore dispatch says eight men were killed by an explosion in a coal mine there.

QUAKER CITY READY

Preparations For Republican Convention Complete.

VICE PRESIDENTIAL POSSIBILITIES.

National Committee Busy Straightening Out Contests—Warmouth Delegates From Louisiana Are Seated—Delaware Case Waits.

PHILADELPHIA, June 15.—With all the work preliminary to the entertainment of the Republican national convention and its attendant throngs practically accomplished Philadelphia is now contentedly awaiting her visitors. From the big convention hall down to the smallest detail those charged with the responsibility feel that they have the situation well in hand, and the completeness of the preparations seems to justify the belief. As yet, however, the hospitality of the city is by no means taxed. There have been very few arrivals, and the lobby crowds at the hotels are composed principally of those persons interested in the contests with which the national committee is wrestling on the breezy tenth floor of the Hotel Walton.

Chairman Hanna is the center of interest and is much sought after for interviews in the hope that he will give some indication of his choice for the vice presidency. He is still noncommittal, and while he has been quoted in several papers his statements are of a general character.

TIMOTHY L. WOODRUFF.

As to the vice presidency, while it is the uppermost topic of discussion, members of the committee and other leading Republicans here seem to be still at sea. Nearly every prominent Republican who says anything about it remarks that "the field is still open and the best man will win," which is taken to indicate that no one has been accepted by those who are managing the affairs of the party. The avowed candidates are Lieutenant Governor Woodruff of New York, who has friends on the ground hustling for him; Secretary Long, who was launched yesterday as a full fledged candidate by the general distribution of his picture on buttons labeled "For Vice President, John D. Long," and Representative Dolliver of Iowa, whose friends are urging him because of his reputation as an orator and also for geographical reasons. According to the present outlook, besides the three named, there will be votes cast for a number of favorite sons, though probably in many instances it will be purely a complimentary vote. Among these are Senator Fairbanks of Indiana, ex-Senator Washburn of Minnesota, Governor Schofield of Wisconsin, Judge Bartlett Tripp of South Dakota, Senator Pritchard of North Carolina, Irving Scott of California and Colonel Jay L. Torrey of Wyoming, while the field is open for any others who may be entered for the race.

JOHN D. LONG.

The most interesting event in the national committee yesterday was the seating of the Warmouth delegates from Louisiana after a very spirited contest occupying nearly all day. This is an overthrow for the federal officeholders of Louisiana, ten of whom were on the delegation headed by Wimberly, the collector of the port of New Orleans.

The Delaware case is in abeyance while the subcommittee appointed on Wednesday is endeavoring to have the factions agree. It is understood that the Dupont-Higgins delegates insist upon absolute recognition of their entire delegation, while the Addicks men have shown a disposition to make some concessions. Mr. Payne, who is chairman of the subcommittee, says the Delaware case may go over until Saturday before final settlement.

At the evening session of the committee a motion was entered to reconsider the third Louisiana district, and while the parties interested were consulting the Fifth Mississippi district was taken up, and J. W. Smith and J. T. Iglehart were seated. The committee then reconsidered the Third Louisiana case and seated Jules Godschaux and W. D. Bekman, Warmouth delegates. This action gives Warmouth control of the state election. The Twelfth New York district was then called, being the Hess-Goddard case. Ex-Secretary Cornelius Bliss is a delegate from the same district, but his seat is uncontested.

National Committeeman Gibbs presented the case of Hess, and John Henry Hammond appeared for Goddard. By a vote of 34 to 11 Goddard was seated.

Death In a Tenement Blaze.

NEW YORK, June 15.—Fire in a tenement house at 34 Jackson street at 3 o'clock this morning caused the death of six people. Five others were taken from the burning building to Gouverneur hospital unconscious.

STATE CONVENTIONS

Kentucky, Georgia, Missouri and California.

DELEGATES INSTRUCTED FOR BRYAN.

Harmony In Kentucky—Modification of the Goebel Law Favored—Said to Have Been Advocated by Mr. Bryan.

LOUISVILLE, June 15.—Characterked by harmony in marked contrast with the feeling that prevailed one year ago when the Democrats of Kentucky met in Music hall to select a nominee for governor was yesterday's convention, which met to select delegates from the state at large to the national convention at Kansas City. Chairman Allie Young of the state central committee called the convention to order at 2:30 p. m. But one name was presented for temporary chairman, that of Hon. Ollie M. James of Marion county, and he was elected by acclamation.

After the selection of a secretary and an assistant the chair announced the appointment of Senator Blackburn and Congressman John S. Rhea upon the committee on resolutions from the state at large. The convention then adjourned until 7:30 p. m.

It was nearly 9 o'clock when the night session was called to order. The committee on permanent organization reported in favor of Frank B. Daugherty of Bardstown, a townsman of Governor Beckham, for permanent chairman.

Senator Blackburn read the report of the committee on resolutions. The report reaffirms the Chicago platform and instructs the 26 delegates from Kentucky to cast their votes for Bryan and to vote as a unit on all questions. The Republican national policy was denounced in its entirety, as were separately imperialism, the Porto Rican tariff bill, the maintenance of an army in the Philippines and the financial policy. Senator Blackburn, after reading the resolutions, addressed the convention on a proposal to modify the present election law, known as the Goebel law. He said the committee had been perfectly harmonious and that it had agreed that modification of the law, which he said had been a failure, was necessary. This, he said, had been the opinion of Governor Goebel himself. The amendments recommended are such as will give the two leading parties equal representation on election boards and, the Democrats claim, insure a fair and honest count. The committee also favored an educational qualification for voting. These changes, Senator Blackburn said, it had been decided to leave to the convention to nominate a governor which will be held July 19 in Lexington.

The following delegates at large were then unanimously elected: Senator J. C. S. Blackburn, ex-Governor James B. McCreary, Louis McQuown, Charles B. Poyntz, James P. Gregory, William S. Pryor, N. W. Utley and C. S. Bransford.

GEORGIA DEMOCRATS.

A Harmonious and Brief Convention Held In Atlanta.

ATLANTA, June 15.—Georgia's delegation to the Kansas City convention which was chosen in the state Democratic convention here yesterday was instructed to cast its vote for Hon. William J. Bryan. There was considerable enthusiasm at the mention of the Nebraskan's name, and the Democratic party in Georgia showed itself to be a unit on his selection.

The convention, with 400 members present, was a harmonious one. It was called to order by Chairman Fleming G. Dubignon of the state Democratic executive committee at 10 o'clock, and only a few hours were required to nominate a state ticket, select delegates at large to the national convention, adopt a platform and adjourn. The following are the delegates from the state at large to the Kansas City convention: Boykin Wright of Augusta, J. J. Spalding of Atlanta, Wylie B. Burnett of Athens and Lewis F. Garrard of Columbus.

There being no contests from any county on the seating of delegations, the credentials committee had no business before it. While the resolutions committee was formulating the platform the following state ticket was nominated: For governor, Allen D. Candler; for secretary of state, Phil Cook; for attorney general, Joseph M. Terrell; for comptroller general, William A. Wright; for treasurer, R. E. Park; for commissioner of agriculture, O. B. Stevens; for commissioner of education, G. R. Glenn; for justices of the supreme court, William A. Little and H. L. Lewis.

California For Bryan.

SACRAMENTO, June 15.—The Democratic state convention in session here yesterday adopted resolutions reaffirming the Chicago platform, favoring an amendment to the national constitution to require the election of United States senators by the direct vote of the people, demanding a similar amendment providing for an income tax, favoring the immediate construction and control and protection of the Nicaraguan canal by the United States, extending sympathy to the South African republics in their struggle to preserve their national integrity, condemning imperialism, condemning the Porto Rican tariff laws, affirming that the constitution follows the flag, favoring the abolition of all unnecessary war taxes, condemning trusts and favoring the passage of laws for the exclusion of all Asiatic laborers. Mr. Bryan received the enthusiastic indorsement of the convention, and the delegates elected by it were instructed to use all honorable means to secure his nomination.

Vermont Democrats.

MONTPELIER, Vt., June 15.—The Democratic state convention yesterday named a full state ticket and four delegates at large, with four alternates, to the Kansas City convention. The ticket reads: Governor, John H. Senter, Montpelier; lieutenant governor, Emery S. Harris, Bennington; secretary of state, A. T. Cummings, Richford; treasurer, Elisha May, St. Johnsbury; auditor, C. A. Fitzpatrick, White River Junction. Delegates at large: Thomas W. Maloney, Rutland; Felix W. McGettrick, St. Albans; Rollin S. Childs, Battleboro; George Atkins, Montpelier.

Missouri Delegates.

JEFFERSON CITY, Mo., June 15.—Ex-Governor William J. Stone, William J. Phelps, Governor Lon V. Stephens and David A. Bell have been selected as delegates at large by the Democratic state convention to the national convention at Kansas City.

AN ORDINANCE

For the Laying Out and Opening of Madison Avenue from the Northwesterly Side Line of West Front Street to the City Line in the Centre of Green Brook.

WHEREAS, William M. Stillman, Eugenia L. Babcock, individually and as guardian of George L. Babcock, Joseph A. Hubbard, Trustee, and William M. Stillman, Trustee, the owners of all the land embraced within the lines of the proposed street, hereinafter referred to, have dedicated said proposed street to the public, and have agreed that in case the City shall accept said proposed street, that they will at their own expense within thirty days after the completion of the bridge to be built over said Green Brook, at the Westerly City terminus of said street, macadamize the roadbed of said street to a width of sixteen feet, and a depth of six inches at the centre and four inches on the side, and further, that they will from time to time and at all times hereafter indemnify and save harmless the City of Plainfield from any and all expense and damages, if any, in and about the opening, acceptance and macadamizing of said proposed street, and have filed with the City Treasurer an agreement to secure the performance on their part of their said agreement hereinabove referred to; and

WHEREAS, the Common Council have adjudged and do hereby judge that the public good requires that said proposed street should be accepted upon the terms and under the agreements aforesaid, and have accepted and do hereby accept said agreement above referred to; therefore,

The Inabitants of the City of Plainfield, by their Common Council, do enact as follows:

Section 1. That the proposed street with centre and side lines, as heretofore so dedicated to the public and signed by the parties so dedicating the same and shown on map filed with the City Clerk, May 7, 1900, entitled "Application Map for the Opening of Madison Avenue from the Northwesterly Side of West Front Street to the City Line in the Centre of Green Brook, City of Plainfield, New Jersey, May, 1900," be and the same is hereby accepted as a public street of the City of Plainfield, to be known as Madison Avenue, and that the centre and side lines and the grade of said proposed street, are hereby established as delineated and set forth on said map.

Adopted by the Common Council June 4, 1900.

Approved by the Mayor June 5, 1900.

GEO. W. ROCKFELLOW, Mayor.

Attest: J. T. MacMURRAY, City Clerk.

THE CORNER PHARMACY,
Somerset St. and Craig Place.

BRIDGE WORK

in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5
Gold Crown, 22-k	from $5
Gold Filling	from $1 up
Silver Filling	75c
Cement Filling	50c
Cleaning	75c
Extracting	25c
Painless Extracting	50c
Gas, first tooth	$1
Each one after	50c

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Alice Long, of Raritan, has been visiting Plainfield relatives for a time.

Mr. and Mrs. W. H. Hall, of Spooner avenue, are entertaining friends from Hartford, Conn.

Edward Sutton, of West Front street, has returned from a visit with relatives in Brooklyn.

Mrs. Winfield Schomp, of West Front street, has returned from a visit with Somerville friends.

Miss Williams, of Elizabeth, has been a guest at the home of Elmer E. Runyon, of Madison avenue.

Mrs. Van Vliet, of New York, is visiting at the home of her son, D. M. Van-Vliet, of Washington avenue.

Joseph Traynor, of LaGrande avenue, has accepted a position with W. W. Wilson, of West Third street.

Miss Kitty Manning, daughter of Mr. and Mrs. Jeremiah Manning, has gone to Mt. Pocono for the summer.

Miss Lulu Randolph, of West Eighth street, who is ill with scarlet fever, expects to be out the last of this month.

Miss Florence Williams, of Elizabeth, is a guest at the home of Mr. and Mrs. Elmer E. Runyon, Madison avenue.

Mayor Smalley, of the borough, who has been quite ill, was able to be out yesterday, and is gradually recovering.

Miss Nellie Messenger, of North avenue, has returned from Easton, Pa., where she attended the funeral of a relative.

Mr. and Mrs. J. Kirtland Myers, of East Seventh street, left today for Canada, where they will remain for some time.

Miss Eleanor Williams, of West Seventh street, is home from Philadelphia where she has been attending Drexel Institute.

Henry B. Drake, of Duer street, has completed his studies at the Philadelphia Textile School and is visiting friends at Moorestown, Pa.

Andrew Vandeebeek, of Duer street, went to Cherryville yesterday to attend the funeral of his wife's father, W. B. Volk, who died there Monday.

Robert M. Clark and his brother, Edward O. Clark, have formed a partnership in the law business. They will have one office in Plainfield and one in Newark.

Richard Boyce and family, of Watchung avenue, have moved back to the hotel, corner of Lincoln place and Somerset street, which place is conducted by Mr. Boyce.

Mr and Mrs. Den J. Galbraith, of this city, are guests at the Carrolton, Baltimore, Md., where Mr. Galbraith is attending the National Convention of the Master Plumbers Association.

In the College of Physicians and Surgeons connected with Columbia University, New York, one of the fellowships of the Alumni Association in pathology was awarded Augustus B. Wadsworth, formerly of Plainfield.

Mr. Palmer, a new resident of Netherwood, who has been staying for a time in Pennsylvania for his health, was brought to his home Wednesday night. His condition was such that the ambulance had to be used to transfer him from the Lehigh Valley station at South Plainfield to his home.

REDUCED RATES TO CHICAGO.

Via Pennsylvania Railroad for the National Prohibition Convention, June 27-28.

For the benefit of all persons wishing to be in Chicago during the National Prohibition Convention, the Pennsylvania Railroad Company will sell round-trip tickets to Chicago at rate of one fare for the round trip. Tickets to be sold and good going June 25th and 26th, and returning, after proper validation by the Joint Agent of the terminal lines at Chicago, leaving Chicago to June 29th, inclusive. A fee of twenty-five cents for each ticket will be collected by the Joint Agent when tickets are validated for return passage. 6-12-15-21.

—Now that Mayor Smalley, of the borough, is able to be out again, after a severe illness, boroughites may expect to hear soon the location of the new postal sub-station.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

COPYRIGHT 1899 BY THE PROCTER & GAMBLE CO. CINCINNATI

The blackness of Monday is forgotten when the housekeeper views on Tuesday the snow-drift of linen that has been washed white with Ivory Soap. It floats.

BRITISH ARMS FAVORED.

But the Pacification of the Transvaal Will Be Slow.

LONDON, June 15.—That Commandant General Louis Botha should have been able to stand for two days against Lord Roberts and then to retreat without losing any guns or having any of his men captured is taken to mean that he has a force which the British must still recognize as formidable when acting defensively.

The pacification of the whole of the Transvaal, especially the wide spaces far from the railways, is looked upon as a business requiring months rather than weeks.

Meanwhile everything goes well for the British arms. A Boer bulletin issued June 12 at Machadodorp said:

"Both wings of the federal forces touched the advancing enemy at 10 a. m. yesterday east of Pretoria. Fighting continued until dark. The enemy, though in overwhelming numbers, were checked along a line of 30 miles, and the burghers succeeded in driving back their right wing five miles. Two burghers were killed and ten wounded."

Another Machadodorp announcement is that the first regiment of General Buller's force to attack Almond's nek was "annihilated," but as the British were in overwhelming force the burghers were compelled to abandon the nek.

A dispatch from Lourenco Marques dated yesterday, says:

"President Kruger is holding on to his gold and issuing paper notes from a press in his executive car. The Boer government's coin stock is exhausted, and the officials are now paying out plain gold disks unstamped. Some who have declined to accept notes have taken their salaries in gold bars. The Boer government is still paying out much gold in that way."

General Rundle had a sharp skirmish at Ficksburg on June 12. The Boers had been aggressive along the whole Ficksburg-Senekal line and menaced Ficksburg in force. The British outposts retired to the village.

Passenger Trains In Collision.

ATLANTA, June 15.—A north bound passenger train on the Southern railway collided yesterday with an incoming train near Belt Junction five miles from Atlanta. Both trains were well filled and running 35 miles an hour when they came together. The killed are: Reuben R. Hayfield, engineer of accommodation train; Benjamin Davis, brakeman. Seven passengers were seriously injured. Engineer Mayfield applied the air brakes when he saw the north bound train rounding a curve and stood at his post. The wreck was caused by the failure of the operator at Belt Junction to hold the north bound train.

Quarts of Caterpillars.

SARATOGA, June 15.—The village yesterday reopened its public market for the purchase of the forest tree caterpillars which started out to destroy the street shade trees. Three hundred people, residents and visitors, brought the pests in pails and pans and received 20 cents a quart for them from the village, which buries them alive. Nearly $200 was paid out. This method of extermination is found more effective than spraying the trees with expensive machinery.

Otis Gets a Degree.

ROCHESTER, June 15.—The University of Rochester has conferred the following degrees: Doctor of divinity upon the Rev. Charles J. Baldwin, Granville, O.; doctor of divinity upon the Rev. William C. Wilbur, Ph. D., Olean, N. Y.; doctor of laws upon General Elwell Stephen Otis of the class of 1858; doctor of laws upon Asahel Wellington Norton of the class of 1873, president Sioux Falls college, South Dakota.

Dynamite Kills Five.

BIWABIK, Minn., June 15.—Five men were instantly killed yesterday by an explosion of dynamite at the Hale mine, three miles from here. A charge of dynamite had been set and the fuse lit in one of the drifts. When the usual alarm was given to enable the laborers to reach places of safety, the five men rushed directly into the drift where the charge was planted and met their deaths.

Serious Outlook at Kumassi.

LONDON, June 15.—The Daily Express has the following dispatch from Prahsu, dated yesterday: "There has been another fight on the line of communication of the Kumassi relief expedition. No details have been officially supplied. There are 10,000 Ashantis surrounding Kumassi and 5,000 facing the relief force. The leaders of the rebellion include Ashantuah, queen of Ofesu."

Two Cents to Guam, Hawaii, Manila.

NEW YORK, June 15.—Postmaster Van Cott announces that in accordance with orders issued by the postmaster general domestic postage rates and conditions now apply to all mail matter to and from Hawaii, Porto Rico, the island of Guam, the Philippine archipelago and Tutuila, including all adjacent islands of the Samoan group which are possessions of the United States.

Imports and Exports.

WASHINGTON, June 15.—The monthly statement of the imports and exports of the United States issued by the bureau of statistics shows that during the month of May, 1900, the imports of merchandise amounted to $71,555,861, of which nearly $31,000,000 was free of duty. This is an increase in dutiable merchandise as compared with May, 1899, of over $2,000,000.

President Diaz Loses a Friend.

CITY OF MEXICO, June 15.—President Diaz was chief mourner yesterday at the funeral of the famous lawyer and statesman Don Justo Benitez, a full brigade of troops escorting the remains to the tomb. Justo Benitez was a close associate of the president in the campaign of the army which General Diaz created and ultimately led to victory.

Struck by Lightning.

HEMPSTEAD, N. Y., June 15.—During the storm last evening the handsome barn of Theodore Havemeyer was struck by lightning. Though the members of the Meadow Brook Hunt club turned out in force and fought the fire desperately, the building was totally destroyed. The house was also damaged.

New Liner Again Aground.

BERLIN, June 15.—The new Hamburg-American liner Deutschland, which was successfully floated Wednesday off the bar near Stettin, where she had been lying since Sunday, June 3, is again aground.

Gilman Out of a Job.

BOSTON, June 15.—With the passing away of the republic of Hawaii, which at midnight became the territory of the United States, the office of Hawaiian consul for the New England states is legislated out of existence, and Hon. Gorham D. Gilman, who for six years past has filled the position, will find his consular occupation gone. For more than 20 years Mr. Gilman was a resident of the Sandwich Islands, and his eminent services as consul at Boston have called forth the highest praise from President Dole of Hawaii.

The Bell Island Strike.

ST. JOHN'S, N. F., June 15.—There is no change in the strike situation on Bell island. Yesterday the local magistrate read the riot act. The police are guarding the property with loaded rifles. The steamer Glanton, which was there to load hematite for Philadelphia, was compelled to leave and to seek shelter here, the strikers having threatened to cut her adrift from the pier if she remained.

New York Markets.

NEW YORK, June 14.—FLOUR—State and western dull, but firm and nominally unchanged; Minnesota patents, $3.85a4.30; winter straights, $3.50a3.65; winter extras, $2.60a2.90; winter patents, $3.65a4.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 6—Y. M. C. A. Boys' Camp at Lake Champlain.

Black and White.

The statistical genius of the Newark Advertiser indulges in the following:

"The last annual report of the State Prison at Trenton, gives these figures in regard to prisoners: White males, 795; white females, 22; colored males, 290; colored females, 12.

"The State census of population in 1895 gives these relative figures: White males, 866,323; white females, 800,599; colored males, 28,714; colored females, 20,296.

"The colored population of New Jersey is about 3 per cent. of the total population while the colored population in the State Prison is 25 per cent. of the whole.

"This looks discouraging for the uplifting of the race thirty-five years after slavery was abolished."

Just at the present time, however, the gathering of colored people at the religious convention being held in this city affords a pleasant and favorable contrast to the figures and observations quoted by the Advertiser. The uplifting of the colored people depends largely upon the endeavorers and intelligence of action shown in the ranks of their own race, and it is just such work and efforts that is being exhibited at the convention that is being held here that contributes materially to the object.

Hudson county Republicans played their part in the political activity of the day yesterday by the organization of an association the purpose of which, it is said, is to nurture the boom of Senator Pitney for the Gubernatorial nomination. An association to push Franklin Murphy to the front for the same honor has already been started in Hudson county. If this thing keeps up Hudson county will claim, no matter who the candidate is, that the "original shouters" for the nominee came from that bailiwick.

Wm. B. Gourley, chairman of the Democratic State committee, has announced that he is a candidate for membership on the National Democratic committee. Philip Baker, of Vineland, now fills that position. Robert Davis has agreed to support Mr. Gourley in his aspiration. The selection of Mr. Gourley would put the State organization in close contact with the National committee, and undoubtedly prove of great advantage to the New Jersey Democracy.

The strike of the carpenters of Paterson, which came to an end last night after a seven weeks' struggle, cost about $60,000, and affected nearly every building trade in Paterson. The strikers, although losing the main issues, bettered their condition. They will return to work on a schedule of nine hours a day and 28 cents an hour. They struck for eight hours a day and 30 cents an hour.

Governor Voorhees is expected to arrive home from Europe tomorrow or Sunday. It is said that a reception committee, composed of citizens and friends, is organizing at Elizabeth to go down the bay to meet the returning executive. On account of the uncertainty as to his arrival the plan may, however, be abandoned.

Senator Depew says that worth is the only consideration that will influence the Republican choice of a candidate for the Vice-Presidency. He did not indicate whether cash or talent would have the larger weight, adds the Philadelphia Record.

Estimates of the Kansas wheat crop this year range all the way from 70,000,000 to 120,000,000 bushels. Taking 100,000,000 as a medium figure the crop will be 28,000,000 bushels greater than the largest crop ever before grown in the State.

According to the statement of Comptroller Coler the running expenses of the city of New York for 1900 will be $90,778,972. This will be equivalent to about $30 per head of the population.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

What may be regarded as an expert opinion on the question of intoxicants is set forth in a Sussex county paper by its Belvidere correspondent. Speaking of the conviction of six men on charges of assault, the correspondent says "the whole trouble was due to the vile sour cider which they drank of copiously," and in his righteous indignation he adds: "There ought to be a rigid law against hard cider. It is the devil's kindling wood or even worse, for it makes a drunk come quicker than beer or liquor." It is to be presumed that the correspondent knows what he is talking about, but nevertheless it would be interesting to know just how he made the discovery upon which his assertion is based. The subject is one of importance, for in these days when time and money saving devices and plans are in such great demand a "rapid-jag-producer" would be just the thing for some people.

* * * * * * *

Two borough young men were made the victims of a practical joke Monday night while calling on two lady friends at Warrenville. The young men hired a rig from a local livery and drove over the mountains to the little village. They were seen by some Warrenville youths who resented the Plainfielders calling on their girls. The Paralites prepared to make trouble for them. The wheels of the wagon were removed, while the boys were inside, and put back vice versa, the rear wheels being in front, and the nuts screwed on tightly so as to keep the young men from putting them in their proper place. But, strange to say, the trick was not discovered by the Plainfielders when they started home and they drove off to the disgust of the Warrenville boys, who were waiting to see their rivals try to replace the wheels. The trick was not discovered until the livery was reached when the strange appearance of the rig was noticed by the liverymen. The young men were unable to account for it, but it came out later. From the trouble the livery men had in putting the wheels in their proper place the joke is on the Warrenville boys as well.

* * * * * *

Visitors to Ocean Grove may go unarmed to the popular resort in the future. They need have no fear of being "ambushed," for the grove association has decided to suppress the enterprising tradesmen, who have made it a practice to "hold up" newcomers for the purpose of securing their patronage. It was about time that some such action was taken. The practice, according to the Asbury Park Press, had grown to an alarming extent. To some it must have been terrifying, for as high as twenty wagons, with a proportionately large number of bicycles, followed each cottager with "the unswerving scent of a bloodhound." They tried in vain to escape. It was an ordeal that was "bewildering, to say the least, but all newcomers were obliged to face it, and even locked doors were of no use in keeping out the agents employed by the local merchants. One of them was once known to climb through a window to bid for business. It has now been decreed that the "ambushing "tradesmen" must keep off the main streets, and so visitors without Gatling guns may travel along unmolested.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15c. and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it: no break. Call and see us use it. Always welcome.

"FLOWERY -:- -:- KINGDOM."

That's the brand of the best China Matting imported. Of extraordinary weight, heavy straw warp, small neat patterns, bright clear colors, it is not only attractive in appearance but possesses wonderful durability. Price is 29c yd. or 10.50 per roll of 40 yds. The sale for it in this city is confined to us. We have a special lot cotton warp Japanese Matting at 21c per yd., the real value of which is 25c. A real bargain, but the quantity is limited and will last but a few days.

PIAZZA GOODS are now in demand. We sell the new Grass Twine Matting for piazzas and it answers the purpose beautifully. We have the Matting Rugs in patterns for the same purpose as well. We also make to order Piazza Rugs of Cocoa Matting and finish with rubber ends. Any size made at short notice. They are strong and save the wear on piazzas greatly.

A whole carload of Trunks. We buy them by the carload in order to secure the lowest possible price. Few concerns in the State sell so many trunks. Everything desirable in the way of Trunks may be found here. All are splendidly made and attractive in appearance. They are canvas covered, leather bound, brass trimmed, good locks and have strong strap hinges. Prices range from 2.98 to 25.00. A full assortment of strong, tr m little steamer trunks, too. Goods are shown in Basement of our Carpet Store at 246 West Front Street.

White Goods Department. You mothers who have daughters about to graduate will find this department of interest to you One of the best stocked, best kept and best managed white goods departments we know of. It is in charge of Mr. W. D. Williams, formerly of Newark, and a veteran of the White Goods Business. A full line of India Linons, Persian Lawns, Bastistes, French Organdies, Suisses plain and dotted, and many other thin fabrics suitable for Commencement Dresses. Plain Piques 12½ to 50c. Fancy Lace Stripe and Figured Piques 15c to 25c. Novelties in white goods in too great variety to be mentioned in detail.

Dainty Cool Summer Garments.

Beautiful White Shirt Waists, wonderfully designed and exquisitely finished; elegant White Lawn Dressing Sacks and White House Dresses. Everything in Summer Underwear for Ladies, Misses and Children.

Solve the Servant Girl Question

by putting a Wickless Oil Stove in the kitchen. You can *keep* a girl then. No fire to build in the morning. No wood to chop. No coal to carry. No ashes to worry about. No soot on pans. It makes play of housework. The

Wickless Blue Flame Oil Stove

is doing more to make housekeeping easy than any other stove in existence. Absolutely safe. Burns ordinary kerosene oil. Bakes, broils, boils, roasts, toasts—does anything that any other stove will do, and many things that most stoves can't do. Sold wherever stoves are sold. If your dealer *does not* have it, write to

STANDARD OIL COMPANY.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence to The Press.)

Dunellen, June 15.—The population of Dunellen is slowly but steadily increasing. Two new arrivals made their appearance in town this week. The first was a little girl which arrived at the home of Mr. and Mrs. John Hall Wednesday. Yesterday afternoon a bright little baby boy was ushered into the world at the residence of Mr. and Mrs. Smith Natson.

Edward Taylor has a badly cut and bruished face as the result of falling off his bicycle yesterday. He was making a sharp turn when the wheel slid, throwing him on his face.

Mrs. O. A. Douglas is in New York attending the annual meeting of the Grand Chapter, O. E. S., of which she is a member. The meeting is being help in Masonic Temple.

The Central railroad workmen started work yesterday clearing up the refuse bark from ties that has collected in the store yard opposite the freight house.

Rev. W. C. Kinsey, a former pastor of the Methodist church, is now in charge of St. Paul's M. E. church at Tottenville, S. I.

Mrs. George Lincoln and Mr. and Mrs. William Wotton, of New York, are stopping at Prospect Villa.

Mr. and Mrs. S. B. Merrill left for Philadelphia today, where they will remain for several weeks.

Mel Smalley went to New York yesterday and placed his order for a large supply of fireworks.

Willard Apgar has secured the contract for the erection of a large green house at Stelton.

Mr. and Mrs. W. H. Taylor returned home Wednesday from a pleasure trip to Albany, N. Y.

Mrs. Theodore Miller, of Newburgh, N. Y., is visiting her father, O. M. Hetfield.

Mrs. Frank Green, of Brooklyn, is visiting her mother, Mrs. Lucy Titsworth.

Miss Lillian Warden has returned home after a week's visit in Brooklyn.

Burt Taylor is working on a large tinning contract in Newark.

James McMann has taken a position with Charles Coriell.

The fire department will hold a "wash" tonight.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 15.—The reception to the graduates of the township schools was held at the residence of William Smith last night. A most enjoyable time was had by all and the graduates parted perhaps never to meet again as a class.

Pastor Sindall's resignaton is very much regretted by the members of the Baptist church. The pastor is very popular with the congregation.

The Board of Education met last evening and considered plans for the new school house at South Plainfield.

Frank Wheeler, of Plainfield, spent Wednesday in a pleasant way calling on old New Market friends.

A new curb and stone steps have been placed at the Hotel Nelson by William Farrier.

Mrs. Peter Finger and daughter, of Watchung, visited relatives in town, Wednesday.

Local News on Pages 2 and 3.

CASTORIA

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 15.—The season at Glenside Park has opened and this pleasant resort, of a number of the best residents of Newark, will soon be in the midst of a gay social season. All the cottages are filled and Mr. and Mrs. Molley, who conduct the plan, are looking forward to a very successful season.

The fair given by the ladies of St. Mary's R. C. church, of Stony Hill, in Excelsior Hall for three nights, was brought to a successful close last evening. The attendance, as had been anticipated, was the largest of any evening, and those who were entered in the several contests reaped a rich reward. Miss Bertha Eller, who was contesting for the gold watch, turned in $81 out of a total of $194 and was awarded the prize. The contest for the portrait of Father Chandlor realized $93.95 and was won by Mrs. Wenzel Gotlick. Miss Wahl held the winning number on the barrel of flour while Miss Lutz was equally as fortunate in the drawing for the couch. Miss Wilcox, of Stony Hill, was the lucky winner of a couch. Dancing was indulged in by the young people during the evening and all present seemed to enter into the enthusiasm of the work begun by the ladies of St. Mary's. Father Brennan's, of North Plainfield, guiding hand during hand during the fair has been appreciated, and the members owe much to him who has assisted them so ably in the absence of Father Chandlor, who has been detained at home by illness. The result of the fair will net the church $500, and will be used to defray the expenses of the church.

A little care and attention by the conductors on the trolley line during a thunder storm would make traveling much pleasanter for the patrons of the road. The curtains are left up during the heaviest shower. The result is that the rain beats in on the seats and the passengers are either obliged to put up with the nuisance of stand up.

Funeral services of the late Henry Illsley, who died at his home at Union Monday, were held from his mother's home yesterday afternoon. Interment was made in Evergreen Cemetery, Elizabeth. Mr. Illsley was well known here, having resided here for a number of years.

Henry Hand, who has charge of his son's blacksmithing business during his absence, reports plenty of work. He is so busy that he cannot find time to go fishing, much as he would like to.

Presiding Elder Smith, of Plainfield, will occupy the pulpit in the Methodist church Sunday morning. At the close of the service the quarterly church conference will be held.

Goodwill Lodge, K. of P., met in their rooms last evening and completed arrangements for the Pythian Decoration Day exercises to be held Sunday afternoon.

Rev. G. M. Shott attended the commencement exercises held at Peddie Institute, Hightstown, Wednesday.

Mr. and Mrs. A. D. Beekon, of Fanwood, are entertaining Mrs. Beekon's mother, Mrs. Lozalt, of Brooklyn.

The Junior baseball team has a game scheduled with a Plainfield team for tomorrow afternoon.

Mr. and Mrs. Louis are entertaining Mr. Fulton's sister from Plainfield for a week.

THE ST. LOUIS STRIKE.

Car Company Resuming Business. Deputy Sheriff Disappears.

ST. LOUIS, June 15.—The police department yesterday withdrew its officers from all the cars and power houses of the St. Louis Transit company and returned them to their regular beats. The transit company continues to augment its force of nonunion employees and its transportation facilities at a ratio that promises to see the system in full swing before many days have passed.

At the hearing in the coroner's inquest over the bodies of strikers and a citizen killed last Sunday by members of the sheriff's posse comitatus the testimony adduced tended to show that Deputy Sheriff Marsh shot Frederick Bohne, the citizen in question, but the witnesses disagreed as to the deputy's provocation for shooting. After hearing the testimony of about 35 witnesses the jury returned a verdict of homicide. Several of the deputies testified that Police Lieutenant Stack ordered the deputy sheriffs to fire on the crowd, while Stack declared he did all in his power to prevent the deputies from firing.

The disappearance of Deputy Sheriff Marsh was a startling development at the inquest. It is believed that Marsh has left the city. No further search will be made for him probably unless friends of the dead man seek to prosecute him, the verdict of the coroner's jury being considered practically an exoneration.

Postal Improvements.

WASHINGTON, June 15.—In addition to changes already announced by the postoffice department it is said that a number of other improvements will be in effect during the next fiscal year. The increased appropriation, it is said, will enable many more clerks to take the 15 days' leave of absence contemplated by law, and an emergency fund will be placed at the disposal of first class offices for extra assistance during holidays and other times when there is a large increase of business. The postoffice officials have strong hopes that if conditions continue to improve it will be feasible to limit working hours throughout the service to eight hours a day, beginning with the fiscal year July 1, 1902.

Champion Said to Have Confessed.

ALFRED, Me., June 15.—George Champion, the supposed murderer of four persons at the Goodwin place in West Newfield on Sunday night, was locked up in Alfred jail last night after being brought here by a party of officers from Boston. At a late hour last night four warrants were issued against Champion, each naming one person as having been murdered—namely, George W. Goodwin, Scott G. Goodwin, Fred Bertsch and Mrs. Elsie N. Horne—and they will be served this morning. The prisoner appears on the verge of collapse, and there is an understanding that he has practically confessed to the crime, although the officers decline to admit any such thing.

Wives of Officers May Go.

WASHINGTON, June 15.—In response to the large number of requests from wives of officers serving in the Philippines to join their husbands the secretary of war has decided that the wives of the regular officers and the volunteer staff officers stationed in the Philippines can go on government transports when there is room for them by getting permission from the quartermaster general of the army, but that owing to the fact that the officers of volunteer regiments will be soon returned to this country by expiration of term of service the wives of these officers will not be permitted to go to the Philippines on the government transports.

Mrs. Gladstone Dead.

LONDON, June 15.—Mrs. Gladstone, widow of the late William E. Gladstone, the English statesman, died last night. Mrs. William Ewart Gladstone was 88 years old and had been slowly sinking for some time past at Hawarden castle, the family seat. She was the eldest daughter of the late Sir Richard Glynne, Bart., of Hawarden Castle and was married to Mr. Gladstone in 1839. He died May 19, 1898. She was a woman loved and admired by the vast circle of those who came in contact with her busy and varied life and had great influence over her husband's actions.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph s drug store.

ELECTED OFFICERS AT THE VERY START.

[CONTINUED FROM PAGE 1.]

departments of work. This evening two addresses, thirty minutes each, will be delivered by Rev. C. Morris and Rev. L. G. Jordan. There will be a session tomorrow morning to hear reports, but no sessions will be held tomorrow afternoon or evening.

There are about three hundred delegates present and this is believed to be the limit. A few more may come in for the Sunday meetings.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 15—Mrs. Fred Latourett gave a very pleasant lawn party last evening in honor of Mr. Latourett's little niece, who is visiting them. Quite a number of little girls attended. They spent the time with songs, recitations and games, after which refreshments were served.

Thos. Brantingham is circulating a petition to the railroad company to have gates and a watchman placed at the crossings at the coal sheds. It is needless to say that it is a very dangerous place.

Brundage & Coriell have finished the painting of Mr. Beckstein's place on Park avenue. It presents a very pretty appearance.

The Lehigh Valley painters have finished painting the station at Oak Tree.

EARLY INTELLIGENCE.

—A dance for the benefit of Grant Taynor will be given in T. A. B. Hall on June 28th.

—The auction sale of the estate of Louisa Greader was adjourned from yesterday for one wvek.

—The Board of Freeholders of Hunterdon county, have decided to build two new iron bridges across the Black creek, near Unionville.

—Daniel Rape, of May's landing, has captured so far this season 240 snappers' eggs. Rape every year finds hundreds of these eggs, buries them in a cage in his lot, hatches them and then liberates the small snappers in the various streams. George Smith has caught 97 snappers so far this season.

—Woodhull & Martin's big basement is a very interesting place these days; the goods are nicely displayed and priced, and there is hardly a thing you could ask for but what they have. In fact their housefurnishing department is right up-to-date and is considered one of the best equipped in the State.

ENJOY THE JUNE DAYS.

Good health is essential. L. W. Randolph's Active Liver Pills cleanses the liver, improves digestion, dispels headaches. Small pill, small price, 15c per bottle.

Lokal-Nachrichten aus der alten Heimath.

Provinz Ostpreußen.

Heydekrug. In der Nacht ist der Handelsjude Rubenstein aus Neustadt im Tratseder Chausseegraben ermordet

Schweiz.

Bern. Der Verwaltungshauptmann Ernst Kurz, gewesener Revisor der eidgenössischen Finanzkontrolle, der im vergangenen Herbst mit 6000 Francs Militärgeldern flüchtig geworden und vom Kriegsgericht zu fünf Jahren Zuchthaus verurtheilt wurde, ist dieser Tage in Brüssel verhaftet worden.—Die Einwohnergemeinde Delsberg votirte einen Kredit von 300,000 Francs für Erwerbung einer Trinkwasserquelle bei Develier und Erstellung einer neuen Kanalisation.

Zürich. Der Kantonsrath bewilligte für den Besuch der Weltausstellung durch Gewerbetreibende, Handwerker und Arbeiter 8000 Francs.

Obwalden. Im Kantonspital in Saanen starb der älteste Einwohner von Obwalden, L. Rohrer von Sachseln, geboren 1801. Rohrer war niemals krank.

Basel. Für den Neubau der oberen Realschule auf dem ehemaligen Elisabeth-Gottesacker in Basel wurden 1,193,000 Francs verwilligt.

Appenzell. In Teufen erschoß ein junger arbeitsscheuer Mann nach kurzem Wortwechsel wegen der Wohnungsaufkündigung seinen Hausherrn, gab sodann mehrere Revolverschüsse auf die Frau und zwei andere Frauenspersonen ab. Letztere flüchteten durch ein Fenster des zweiten Stockes, wobei eine Frau, die bereits eine Schußwunde hatte, einen Schädelbruch erlitt und starb. Die beiden anderen Frauen wurden schwer verletzt.

Graubünden. Nach dem Bericht des Engadiner Verkehrsvereins sind im Sommer 1899 in den Kurorten des Oberengadins abgestiegen 6975 Deutsche, 3281 Engländer, 1656 Franzosen, 1540 Italiener, 1506 Schweizer, 1385 Amerikaner, 515 Oesterreicher, 467 Holländer, 269 Belgier, 261 Russen, 55 Dänen, 44 Spanier, 38 Schweden, 28 Rumänier, 104 Angehörige anderer Nationen, im Ganzen 18,124 Fremde. Schuls-Tarasp-Vulpera wies eine Frequenz von 5056 Gästen auf, wovon 55.8 Prozent Deutsche waren.

Waadt. Frau Piguet-Grandjean in Lausanne hat für das zu errichtende Greisenasyl der Broie eine Besitzung in Bellerive schenkungsweise abgetreten, deren Werth auf 40,000 bis 50,000 Francs geschätzt ist.

Genf. Der in Genf wohnhafte, aus Oesterreich stammende Wagenlackirer Adolph Balzaneck stürzte vom Mont Saleve ab und wurde mit zerschmetterten Gliedern todt aufgefunden.

Provinz Westpreußen.

Graudenz. Aus dem hiesigen Zuchthause entsprangen vier Sträflinge, nachdem sie den Aufseher Faust erschlagen hatten. Einer von ihnen zog die Uniform des Erschlagenen an, gürtete sich den Säbel desselben um und führte dann die drei anderen zur Stadt hinaus, wo man sich trennte. Zwei von den Entsprungenen konnten wieder eingefangen werden.

Krojanke. Wie in Konitz, so haben auch in unserer, 3400 Einwohner zählenden Stadt, antisemitische Unruhen stattgefunden. An einem Tage nahmen die Ruhestörungen solchen Umfang an, daß die Gendarmerie blankziehen mußte. Als dies nicht genügte, wurde die Feuerwehr requirirt, vor deren kalten Wasserstrahlen die Exzedenten Reißaus nahmen.

Rheinprovinz.

Köln. Die von der Stadt übernommenen städtischen Straßenbahnen hatten im letzten Jahre eine Bruttoeinnahme von 2,844,165 Mark. Die Ausgaben an Betriebs- und Verwaltungskosten stellten sich auf 1,528,835 Mark, so daß sich ein Betriebsüberschuß von 1,315,330 Mark ergab. Davon erhielt die frühere Straßenbahngesellschaft als Abfindung den Betrag von 1,000,000 Mark.

Aachen. Das verstorbene Fräulein Maria Beissel vermachte der Aachener Armenverwaltung Grundstücke in Kleve, Geldern und in Holland, außerdem 80,000 Mark für verschämte Arme.

Hönningen. Das hiesige Mineralquellengebiet, das durch den seit 1896 erbohrten und in Betrieb befindlichen Hubertus-Sprudel weithin bekannt geworden ist, hat durch den Ausbruch eines neuen außerordentlich kohlensäurereichen Thermalsprudels eine bemerkenswerthe Bereicherung erfahren. Seit Kurzem entspringt dem der Hubertus-Sprudel-Gesellschaft gehörigen und von deren Werk ungefähr 100 Meter entfernten, 290 Meter tiefen, mit 70 Millimeter weiten Rohren ausgebauten Bohrloche eine 25 Grad Celsius warme, von Unmengen freier Kohlensäure begleitete Thermalquelle, die ihren weißen Gischt in regelmäßiger Stärke beinahe 20 Meter emporschleudert

AFTER EFFECTS.

The way some dyspepsia and constipation remedies act reminds you of the Bible story of the man who drove a devil out of his house and then swept and garnished it so fine that the evil spirit came back again and brought with him seven other devils worse than himself. So "the last state of that man was worst than the first."

Sometimes disease appears to have been dislodged and driven out of the system by an unscientific medicine; it may seem to go with apparently wonderful suddenness, but is liable to come back seven-fold worse than before. A thoroughly scientific remedy like Ripans Tabules acts so naturally upon the system that the entire constitution is fortified against a return of the trouble. There is no re-action, no relapse; no depressing after effect. The Tabules relieve the acute symptoms like headache and sour stomach very quickly. The bowels are affected only in a regular, natural way, but the cure is permanent.

WANTED—A cure of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

AN ORDINANCE

Concerning the Industrial Home, and the inmates thereof.

The Inhabitants of the City of Plainfield, by their Common Council, do enact as follows:

Section 1. That the Alms House of the City shall be known and designated as the City Industrial Home.

Section 2. That it shall be the duty of the Overseer of the Poor, and he is hereby authorized and empowered, to direct and assign the persons under his charge in the said Industrial Home to such employment or occupation as they may respectively be capable of pursuing, and especially to make such arrangments that all the labor in the said Industrial Home shall be accomplished by the inmates thereof, if consistent with their ability. To determine whether any inmate who alleges physical disability, infirmity or illness, as an excuse for failure to perform such labor as may be assigned to said inmate, is feigned or genuine, said Overseer may call to his aid the City Physician, whose duty it shall be to make examination in the premises, and report his conclusion to said Overseer.

Sec. 3. It shall be the duty of said Overseer of the Poor and the Superintendent and the Matron of said Industrial Home to carefully observe and strictly enforce the Rules and Regulations adopted by the Common Council from time to time, in relation to the government and discipline of the said Industrial Home.

Adopted by the Common Council June 4, 1900.

Approved by the Mayor June 5, 1900.

GEO. W. ROCKFELLOW, Mayor.

Attest: J. T. MACMURRAY, City Clerk.

NOTICE OF ASSIGNMENT FOR BENEFIT OF CREDITORS:

Notice is hereby given that Alexander Kane, of the city of Plainfield, in the County of Union, and State of New Jersey, hath this day made an assignment to the subscriber of his estate, for the equal benefit of his creditors. The said Alexander Kane formerly, and to this date has carried on the business of flagging, curbing and stone cutting, and as dealer in stone flagging, flour, feed, hay, grain, etc., at number 222 Richmond street, Plainfield, New Jersey.

That all claims against his estate must be exhibited to the subscriber, his assignee, at his office, Number 152 Park avenue, Plainfield, N. J., under oath or affirmation on or before the sixth day of September next, being three months from the date of the assignment, or be forever barred from coming in for a dividend of the estate.

Dated June 6th, 1900.

ON MARRYING A MAN.

Less Guesswork, Says a Bright Woman, Than Marrying a Boy.

BY LEE M'CRAE.

Commend me to the girl who falls in love with a man of 35 or 40. She has uncommon sense!

In the first place, the woman a man of that age loves is the one he will always care for. He is not easily attracted; but, once in love, he rarely experiences a change of heart. So she is sure of that, the foundation stone of all her happiness.

Then, from her standpoint, in caring for a man rather than a boy she loves him for what he is, not for what he may or probably may not be. It is certainly against uncertainty.

The girl who takes a young man with his (or her) fortune to carve out should be honored for her bravery, but if in after years he fail and fall she must stand by him with that same courage and restore to him his faith in himself. Many a woman is doing it daily, and it is a heroism on which Dun and Bradstreet's set no value, but the loss of which would cause a money panic in 24 hours. Let her, if she has the will to do it.

But her sister who marries a man for what he is and has attained is wise if not brave.

His character is formed, his habits fixed (she should be sure of what they are, by the way), and either he has reached or is near the social position she, too, must occupy.

There is less guesswork about her future. She may have the pleasure of adapting her life to fit his, but is not that more or less necessary in all marriages?

Marital happiness depends upon the characteristics of both and their harmonious blending. When these are fixed, embodied in the life of either, the other may rely upon them implicitly.

We may guess at the size and the color of the flower in the bud, and we may guess wrong.

The young man who carries off the honors of a class on commencement day often takes a low grade on the field of actual duty, for a brilliant mind, attracted in so many directions, is apt to become a will-o'-the-wisp, an uncertain light in the world, serving chiefly to point out the marshy, dangerous places. The man who can do many things usually wants to do them all and all at once.

Generally it is late in life when women realize that comfort and freedom from worry make up a large per cent of that phantom of many noms de plume, Happiness. When no place is achieved, no means laid by, no abilities proved, what is a girl accepting, from an unsentimental standpoint, but a promise of "good things to come?" And promises are frail things at best.

Besides, to really love we must respect, and how hard it is to respect a boy!

You say they are not handsome and lovable at 40? Some of us differ; but, granting it, aren't you going to continue to love your boy when he is 40; when he is not handsome, according to your present standard; when he may be a dead failure, a deadbeat and even wear a goatee?

MADE FROM REMNANTS.

A Pretty Raised Centerpiece For the Sitting Room Table.

A charming article which can practically be made entirely of remnants is a raised centerpiece. Many years ago this same class of thing in a much smaller size used to be called a lamp net, but the new ones are so large and elaborate that they sometimes take the place of a centerpiece; hence the name.

The one shown is formed of two circles of card, each 12 inches in diameter, the upper one covered with dark green velvet, the lower one with sateen. These coverings are cut rather larger than the cards, gathered round the edge, each drawn up round the cards it is to cover and secured in position by lacings of thread across and across. The covered pieces are then laid together and secured round the edge by light but firm sewing.

RAISED CENTERPIECE.

For the trimming a spreading ruffle of lace well besprinkled with spangles is first gathered and tightly sewed round the center, and within and above the lace a full, wide border of feathers and artificial flowers is arranged. A ruffle of silk or ribbon can also be used immediately above and slightly inside the lace ruffle under the raised border of feathers, etc. The colors and materials may be rich or delicate, or both, but perfect harmony of coloring with or without great contrast is the imperative consideration for obtaining a really good effect.

ROSINAH H. TONGE.

Mrs. Edwin Gardner Weed of Jacksonville, Fla., the new president of the Daughters of the Confederacy, is one of the interesting women of the south. The organization is devoted to the descendants of those who served in the army and the navy of the Confederate states and has a membership of 18,000.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning June 17—Comment by Rev. S. H. Doyle.

TOPIC.—Abiding in Christ.—John xv, 1-10.

In all probability it was while walking up the Mount of Olives to the garden of Gethsemane that Jesus spoke this discourse on the vine and the branches. The vineyards on the slope of Olivet would naturally suggest the beautiful figure that he uses to illustrate the necessary and vital union between Himself and His disciples. Christ is the vine, the Father the husbandman, Christian people the branches and Christian life and works the fruit to be born. And all depends upon union between Christ and the Christian. We must abide in Him and He in us, as the branch abides in the vine.

Union with Christ is a real union. The branch actually abides in the vine. It has a vital, living union with it. The union between Christ and His disciple is no less real. We abide in Him, and He abides in us. We abide in Him by faith. He abides in us by His Holy Spirit, but the union is no less vital and real. We actually abide in Him and receive our life from Him, as the branch abides in the vine and receives its life from it. "It is no longer I that live," says the great apostle, "but Christ liveth in me." This is the ideal relation between Christ and His disciples, and it is no imaginary, mythical relation, but a real, vital union.

Union with Christ is a necessity. It is necessary if we are to bear fruit, the object of Christianity. "Abide in Me and I in you. As the branch cannot bear fruit of itself except it abide in the vine, no more can ye except ye abide in me." The life and fruitfulness of the branch depend upon its union with the vine. So it is with the Christian. Apart from Christ he can do nothing. He depends absolutely upon Christ for power to live aright and to do what Christ would have him do. As Christians we want to live Christian lives and to bring forth Christian fruit. Let us therefore remember that these results can only be accomplished by abiding in Christ.

Disunion with Christ means spiritual death and destruction. The branch that has no living connection with the vine and hence bears no fruit is cast forth and is burned. This, in the spiritual world, is the penalty of disunion with Christ. Spiritual death awaits the man who abides not in Christ. He is cast forth—forth into outer darkness, away from God, away from heaven. Let us earnestly strive to avoid such a fate. Let us abide in Christ by faith. Let us be united to Him by an imperishable love. Let us be bound to Him by good works. Let us earnestly pray that He in the person of the Spirit, may make our hearts His abiding place, and then all shall be well with us. "In you; you in Me."

THE PRAYER MEETING.

This is a very important topic, containing as it does a most precious and yet often unrealized and unappreciated Christian truth. If possible, get the pastor to open the discussion of the topic by a short explanatory address.

BIBLE READINGS.

Hos. xiv; 8; Math. xv, 13; II Cor. xii, 1-10; Gal. ii, 20; Phil. i, 9-11; iv, 13; Col. i, 21-23; iii, 1-3; Titus ii, 11-14; I John ii, 1-6.

Serving Humanity.

We live in a world of poignant suffering and crying need. Each heart knoweth its own bitterness and every tongue, were it bidden to speak, would a sad tale unfold. The innocent cry of the child is for more, more, more, and the soul even of him who has all that the world can give hungers and thirsts for what the world cannot give nor take away. The world's suffering is not all physical and its need is not bread alone. Under the heaviest burdens of this life throbs the undying consciousness of the soul's deep needs. We have a commendable interest in humanity and a pardonable pride in the future of our church. But if we would best serve humanity and insure the future of our church, we must equip it for the great work of satisfying the hungry soul and filling the sad heart with gladness. No matter what special lines of missionary effort are adopted, the church will never outgrow its God given mission to minister to all of the vital needs of men and to spread abroad in the world its comfort, its solace and its inspiration.—Universalist Leader.

The Unknown Future.

When things get beyond your control, when you face an unknown future and when trying conditions confront you, remember that it is His to bring light out of darkness, joy out of sorrow and hope out of despair. Be patient and acquiescent. Let the Ruler of the universe and the Lord of the individual manage affairs in His own way and at His own time. Neither grow weary nor become too anticipative. Roll upon a covenant keeping God your cares, taking His dispensations as they come and multiplying sorrow neither by distrust nor by foreboding. God unravels the future day by day, hour by hour and moment by moment, accompanying the distribution with His supporting and sanctifying grace.—Presbyterian.

A Hint For Preachers.

Uncle Sidney, in The Advance, tells of a prominent publisher known throughout the land, who wished that his pastor, when he gets up to preach "would tell us what he proposes to tell us." "I really start in with the purpose of hearing every word," he said, "but there is so much preface and homiletic fencing that I begin to lose interest and sincerely wish he would tell us what he desires to tell us." "It seems to me," he added, "that a preacher should, during the first two minutes of his sermon, state his message and what he proposes to drive at."

EPWORTH LEAGUE.

Topic For the Week Beginning June 17. "Abiding In Christ"—Text, John xv, 1-10.

"Abide in me and I in you."

To abide is to stay, to settle down from moving and set up a home. It is not boarding around, but going to housekeeping. Some folks visit awhile with Jesus, make a fashionable call upon Him, leave their card perhaps, but they have not yet gone into partnership, much less begun to live with Him. Perhaps it would startle them to think of eating and drinking with Him familiarly and constantly. At any rate, they never have thought of it yet. So far as comradeship with Him, participation in feeling and occupation and purpose, living with and fervently loving Him, all that seems so far off, so indefinite, unreal and almost irreverent.

We are religious; of course we are. We love to take part in the services of the church, to read the prayers and responses, to sing hymns and anthems, especially if we have good voices, musical taste and culture. We enjoy the æsthetics of the service in architecture, stained glass windows, organ tones and sermonic literature. All is so nice. We do confess our sins—"we have done many things we ought not to have done and have left undone many things we ought to have done. Lord have mercy upon us!" We are Christians.

But this abiding Christ—that is another thing. Our business, our social life, contains so much that is out of harmony with the idea of His continual presence. Really we cannot change things. We must live in the world, and so long as we do we must conform more or less to its requirements. And so it comes about that we have never lived on familiar terms of intimate friendship with Jesus.

We appreciate the churchly forms of our religion. We are attached to them and would not wish to do without them. Our presence, our money, our influence, are freely given for their support. But to live with Jesus Christ in the factory, running the next loom, in the counting room, at the same desk as senior partner, in the legislature as presiding officer, in the court as chief justice, at the ballot box as inspector, in the home, on the street, at the theater, on the ballroom floor, at the card table, at the banquet—in all business and all pleasure as leader and closest friend—how does that seem?

What Are You Reading?

You may well have some book always at hand for spare minutes. Unless it is a good book, however, the time will not be well spent. Reading, like a course in gymnastics or medical treatment, needs a careful and skillful director. Medicine taken at haphazard will do more harm than good. Physical exercise often strains where it is sought to strengthen and needs a good teacher. Read, but be careful what you read and how you do it. Many of our young people read too much and often of the wrong sort. Never read a bad book or one which has a flavor of impurity. New York has great sewers, but who thinks it necessary in his visit there to explore them? Knowledge of vice is not wisdom. Detective stories never yet made a boy more virtuous or skillful. Vary your selections. Read some poetry, biography, history, travels, science, art, some fiction, but always of the best and not too much at a time. Read only the best. No one can keep abreast of current literature. Never be ashamed to say of a new book, "I have not read it." Wait a year, and in the case of most of them you will be glad you have not read them.

An Honored Leader.

Mr. Leslie M. Shaw, the governor of Iowa, was born in Vermont in 1848. He went to Iowa when a young man, joined the Methodist Episcopal church in 1872 and has ever been faithfully

GOVERNOR SHAW OF IOWA.

devoted to her interests. He has been superintendent of the Sunday school in his home church and president of the state Epworth League. He has been delegate to the last four general conferences and was elected as lay delegate to the one just closed in Chicago by acclamation. Being poor, he worked his way through Cornell college, studied law and practiced in the highest court in the state. He has recently received from his alma mater the degree of LL. D. It is a gratifying sign of the times to find the people honoring with positions in church and state men of sterling integrity and Christian devotion. It is as gratifying to find men high in position in political matters still true to God and securing time in the midst of pressing duties of business to attend to the work of the church in private and public.

Beware of the flatterer. Behind your back he will often be the slanderer. He expects you to pay him in compliments. This you cannot afford to do, since too often it would lead you into falsity.

Pleasures of a Holiday in Beautiful Hawaii

Some of the Pastimes Indulged in When "Laying Off" Days Come Around

THOSE of you who know Hawaii only from pictures probably think in that land of palm-bordered avenues and palm-fringed shores life is one long "laying-off," an unending holiday; but I assure you it is not. There are too many Americans there for that, too many New Englanders. You feel the Yankee atmosphere on the drive from wharf to hotel, and the longer you stay the deeper is the impression that a restless, energetic people are at work on the islands. But they occasionally throw off their burdens and relax, indulge in, as the planters say, "laying-off."

There are various ways of enjoying this; some take to seaside cottages, long rattan chairs on the shady side of the veranda, light reading, innumerable cigars, and, towards evening, a plunge in the sea; or one may spend the whole day on the sea in a light canoe, a native boat-boy doing the paddling; others mount their steeds and make long mountain trips, explore valleys, hunt goats, or, if they possess the collector's craze, hunt for land-shells; others, with sturdy backs and legs, may prefer helping their bicycles up and down the steep gulches that must be crossed by most of the roads on the islands. And then the volcano of Kilauea, though not always on the rampage, still is ever interesting and a shrine for many pilgrims; and the trip to Haleakala, the largest extinct crater in the world, is a journey one should be sure to take if it be within one's power. Now, since Liliuokalani has sent two automobiles to Hawaii, there is still another way one can indulge in vacationing, and may be ere long we shall be making the circuit of an island in an automobile.

DIAMOND HEAD, HAWAII.

At the seaside all through the long, fair day, until dinner time, madame will be comfortable in a white holoku, the loose, native costume; the master will be in neglige or bathing suit; the youngsters in bare feet and clothing reduced to the lowest quantity. There will be much lying in the long, soft manienie grass under the feathery algeroba and high-tufted palms, or in a bower made by a group of big-leaved hau trees. One may try to read, but the trade-wind, which rustles the leaves and cools the air, softly sings one to sleep. Half-waking, half-sleeping, wholly dreaming, the day passes on to late afternoon, and then one wakes up and is ready for action. A gay hour will be spent in the waves, swimming, diving, floating, and the bolder spirits will indulge in surf-riding. Four or five take their places in the canoe, a couple of native men after pushing it off get in, and then all are paddled out to where the white foam breaks on the reef. When they get out where the big waves begin, the right moment is watched for, the canoe skillfully pointed, and in to shore they come racing—unless the boat-boy has miscalculated the second and the angle and all are spilled out. Although one often gets a thorough wetting, there are few, if any, serious accidents. It is fine sport riding in on the waves; going down a hollow, climbing a crest, one just the least bit afraid but enjoying it all the more for that.

SURF RIDING.
The Way in Which the Natives Enjoy It.

When one goes mauka (up the mountain), one is apt to be more energetic than when down by the lazy ocean, although it depends somewhat on the mood. I have known the charm of doing nothing strong in a mountain house, way up where the winds and rain make the air cool enough for one to want a fire. Wrapped in a big rug it was very pleasant sitting on the wide veranda that overlooked the town and harbor far below; very pleasant sitting there and watching the lilies and roses in the foreground, the queer ohai and hau trees beyond, the white steeples, tall masts, and blue water below, so satisfying one felt no call for action, when the spirit moves one will go climbing and prospecting.

Goat hunting is a sport the men are fond of; they scale steep heights, pick their way over knife-like ridges, clamber over crumbling bowlders, risk life and limb in pursuit of these agile creatures. Boar-hunting up in the mountain forests also is indulged in, and on one island, Molokai, there are deer. Wild turkeys are abundant in some places, and prove a most welcome addition to camp fare, I assure you. When we were camping in the Waianae mountains, 30 miles from Honolulu, we were so fortunate as to be right in the midst of the ferny terraces where the turkeys nest, and 11 big birds were sacrificed to our needs. We wrapped them in ti leaves and cooked them underground, luaud them, as the natives say.

Land-shell hunting is a favorite pastime for boys and also for grown-ups that care for collections of these mountain shells. Land-shells grow on the leaves and bark of trees high up in the mountains, usually in the steepest and most inaccessible places. One must do the climbing on foot, and the petticoated folk must wear bifurcated garments, as it is no child's play making one's way upward in a dense forest jungle. For the untrained eye it is hard work to make out the shells in the dark woods, and he or she is lucky that returns home with a bag containing a half-hundred of the fascinating little spirals. I know one boy who sold a collection of land-shells he had gathered to a scientist for the neat sum of $70, but he was a woodsman and knew the ground well.

Trips around the island on which one lives are often taken by people who have a week or two in which to play. One usually returns from such an excursion very sunburned, probably a little stiff and sore, but with stored-up remembrances of much jollity, stored-up memorials of many beautiful valleys, picturesque gulches and wonderful mountain walls. One can go around Oahu on horseback, by carriage, with a bicycle—notice I say with instead of on—and, if one is a good walker, one can foot it. If the latter method be tried, the pedestrian will be an object of commiseration to all he meets; for in a land where horses are so cheap that beggars can ride he that tramps the dusty highway will be judged very impoverished indeed. I know a lady that joined a party in a walking tour of one of the islands, and who was so often offered a lift by pitying natives that she began to feel herself a deserving object of charity, and all the spirit and fun gone out of her undertaking. At home she had a fine riding horse, a luxurious carriage, a $100 bicycle, but, unless she put a placard proclaiming these facts in plain view upon her person, no passer-by would imagine it.

She never will dare indulge in humble pleasures again; like Liliuokalani, she will probably take to the automobile.

KATHERINE POPE.

Overcrowding in Schools Averted.

An ingenious arrangement to prevent overcrowding of both elevators or stairways is in use in the offices of a school in Scranton, Pa. The time of entering and leaving the building is regulated by clocks on each of the five floors. On the lower floors the clocks are set correctly, but on the upper floors they are a few minutes slow, so that the employes on the lower floors are at their works before those on the upper floors are due, and, of course, those on the upper floors do not leave their desks until several minutes later, thus avoiding all confusion.

A Great Leveler.

"Love," sighed the swain; "love is the leveler of all things!"

"Well," said the other, "my last campaign certainly leveled my pocketbook flat!"—N. Y. World.

Every little helps. The single bag order added to the small and large orders of several thousand other customers help to make our big daily business. The big business enables us to maintain our large elevator and cleaning plant and our own buying offices in the west, so that each customer gets the advantage of the improvement in quality and the saving in intermediate profits.

We sell any quantity from eleven pounds to a carload and in each case the price is based on the market and is the same to every one for the same service, and is published in cold type.

Mixed oats	70c per bag	Gluten	90c per 100
Mixed Clips	72c per bag	Cotton Seed Meal	1.35 per 100
3 White Oats	73c per bag	Oil Meal	$1.45 per 100
Regular Clips	75c per bag	Elevator R. Screenings	65c per 100
X. B. Clips	77c per bag	Our Poultry Food	$1.15 per 100
Ear Corn	75c per 100	Barley (96 lbs)	$1.15 per bag
Yellow Corn	88c per 100	Wheat	$1.35 per 100
Cracked Corn	93c per 100	No. 1 Grain Mixture	$1.15 per 100
Coarse Meal	93c per 100	Cut Hay	90c per 100
Ground Feed	93c per 100	No. 1 Timothy Hay	95c per 100
Bran	86c per 100	Salt, ½ bushel, 1 bushel, 4 bushel sacks.	

The above prices are for spot cash at our stores. If delivered add according to quantity as follows:

25 bags or over ..... 2c per bag
5 bags or over ..... 5c per bag

Elizabeth, Elizabethport, Rahway, Red Bank, Asbury Park, Plainfield, Somerville.

SPORTING.

GOLF

The women's team of the Hillside Tennis and Golf Club will play its initial match tomorrow morning against a team from the New Brunswick Golf Club on the links of the latter club. The Plainfield team will be composed of Miss Gertrude Andrews, captain, Miss VanHerwerden, Miss VanBoskerck, Miss May Holly, Miss Hyde and Miss Shepard.

The attractions on the Hillside Tennis and Golf Club links tomorrow afternoon will be the play for the Reinhart cup, handicap, men's competition, open to active members only, eighteen holes, medal play. At the same time the Hillside team will contest with a team from the Harbor Hill Golf Club in the East Jersey Golf Association tournament.

ON THE DIAMOND

The Arions will play the Westfield nine tomorrow on the latter's grounds at Westfield.

The Pond Tool Works team will play a nine from the C. & C. Works, of Garwood, at 2:30 tomorrow afternoon on the Clinton avenue grounds.

CYCLING COMMENT.

Ethel Morris, daughter of Mr. and Mrs. Luther Morris, has received a present of a handsome bicycle from her parents.

DEDICATION OF FOUNTAIN.

Ceremonies Will Take Place Early Tomorrow Evening.

It has been found necessary to change the hour of dedicating the public drinking fountain on North avenue tomorrow evening. Instead of the affair taking place at 5 o'clock, as originally intended, it will be held at 7:30 o'clock, and for a half hour previous to that time the Queen City band will discourse popular airs. The members of the Loyal Temperance Legion will meet at the W. C. T. U. rooms at 7 o'clock sharp to proceed to the fountain in a body.

Concert at Hotel Kensington.

Proprietor Staats, of the Hotel Kensington, has engaged Benj. LaVere's "Queen City Band" to give a concert at the hotel tomorrow evening from 8:15 to 10:15 o'clock. The public is invited.

Tel. 851.

A HENIOUS OFFENSE.

Atrocious Assault Committed on Four-year-old Girl at Bound Brook.

(Special to The Daily Press.)

Bound Brook, June 15.—Frank Pascoli, an Italian, aged 22 years, employed in Michael Savin's barber shop at this place, committed an atrocious assault on Sadie Feldman, four-year-old daughter of Mr. and Mrs. Louis Feldman, who conducts a shoe store adjoining Savin's shop. It was alleged that the girl was enticed to a room in the rear of the building, and her mouth was filled with paper to prevent screaming. The mother of the girl heard a stifled cry and rushing to the room rescued her daughter. Pascoli escaped, but was arrested later at Somerville by Policeman Cook, and was placed in the county jail. Pascoli, is said, denies the charge.

LEAL'S SCHOOL CLOSED.

Closing Exercises of Senior Department Will be Held at Casino Tonight.

The closing exercises of the senior department of Prof. John Leal's School will be held this evening at the Casino. The declamation contests that have been a feature at the commencement exercises in past years, will be omitted this time. Prof. Charles Sears Baldwin, of Yale University, will deliver a short address. There will be special music and the announcements of the honors for the year. The exercises will be short and will be followed by a dance.

The school closed yesterday for the long vacation. The closing exercises of the junior department were held in the morning and consisted of recitations and declamations by the younger boys.

Uncle Sam Raises Salaries.

The postoffice department has just made public a long list of names of postoffice clerks whose salaries have been increased, the same to take effect July 1st. Among those who receive an increase are William B. Sharp and Ernest A. Millard, of the local office. The former gets a raise of $100 and the latter a raise of $200. The raise is the result of the usual annual readjustment.

Entertained King's Daughters.

The members of the Whatsoever Circle of King's Daughters of the Park Avenue Baptist church, together with a few friends, to the number of twenty-five, were entertained last evening by the president of the Circle, Mrs. A. D. Phillips, at her home near Dunellen. The party went from here by trolley and spent a pleasant evening with music and playing games.

Thought It Was Stolen.

A wheel belonging to John Mottley, the night messenger boy at the North Avenue station, disappeared last night and despite a diligent search could not be found. The wheel was taken from in front of the station about 9 o'clock. The wheel was given up for lost when in some unknown manner it was returned to the front platform shortly after midnight.

Pleasant Surprise Party.

A pleasant surprise party was given to Bert Thorn, of Summit avenue, Wednesday night, by about twenty of his young friends. A pleasant evening was spent in singing, playing games and dancing, music for which was furnished by Walter Layton. Refreshments were served at 11 o'clock.

Dr. Daland to Speak.

Rev. Dr. Daland, who has been to the gold coast, West Africa, will preach tomorrow morning at 10:30 o'clock at the Seventh-Day Baptist church. Dr. Daland was in West Africa in the interest of missions, and he will tell about his work.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—A juvenile cantata entitled "A Day in the Woods," will be given in Bethel chapel, Thursday evening, July 12th.

—The finest strawberries of the season are now to be found at Neuman Brothers. Coburn's best are to be found there.

—The members of the Queen City Band are requested to meet at Reform hall tomorrow at 3 o'clock, in citizens uniform, for practice.

—There will be a missionary meeting at Warren chapel this afternoon under the auspices of the Ladies' Aid Society of the chapel.

—The Sunday-school session of the Monroe Avenue church will begin at 9:45 o'clock a. m. Sunday and continue so for the rest of the summer.

—A handsome new awning has just been placed in front of the U. S. Express Company on North avenue. This is the first time that such a convenience and comfort has been allowed.

—There will be no meeting at the Park Avenue Baptist church this evening on account of the missionary meeting to be held at the Crescent Avenue church, where Dr. Paton will speak.

—A. L. Mundy, of New Brunswick, has opened a rubber-tire plant, corner of Park avenue and Fourth street, where he will put on and repair tires, and also show sample line of carriages and harness.

—Harry Brokaw, treasurer of the Ballentine & VanFleet Manufacturing Company, Somerville, has sold a pneumatic wagon to Herbert Randolph and a rubber tire phæton to L. E. Hart, of West Front street.

RAIN AND "RUSSET."

Troubles of Somerville Young Woman Who Tried to Drive to Elizabeth Yesterday Afternoon.

One of the leading young women of Somerville society visited Plainfield yesterday afternoon under circumstances that were not the happiest. In company with another young woman from the Somerset county seat she started to drive to Elizabeth yesterday afternoon.

The rain came and "Russet," the bay horse attached to the ftrap, performed all sorts of stunts at the sight of a trolley car. "Russset" behaved so ungentlemanly that the young woman's companion left her at Dunellen delaring that the train was much more preferable to riding behind "Russet." When the young woman reached Clinton avenue the rain began to fall in torrents and she took refuge in the carriage shed in the rear of Archibald Derby's home on West Front street.

"Russet" afterwards absolutely refused to leave the shed and Archibald Derby, Jr., had to go to her assistance. The rain had played havoc with the young woman's white duck suit and straw hat but she started out again. Archibald Derby, Jr., accompanied her to town and safely piloted the horse past trolley cars. The horse was stabled at Blair's stable for dinner and in the evening the young woman and some friends from Elizabeth she met continued the trip.

HISTORIC SITE MARKED.

Presbyterians Unveil Their Monument in Old Scots Burying Ground.

(Special to The Daily Press.)

Matawan, June 15.—In the presence of a thousand people representing many sections of the United States, the Presbyterian historical monument was unveiled near Wickatunk yesterday. The monument is on the site once occupied by the Old Scots Meeting House, the first Presbyterian church erected in America. The spot is known as the old Scots Burying Ground.

In 1895 this old burying ground was the Mecca of a goodly number of Presbyterians, and at the time of the pilgrimage the idea of the historical monument was suggested. The funds for the purchase of the site and the erection of the monument were in the hands of the historical executive committee of the Synod of New Jersey. Rev. Allen H. Brown, of Camden, is chairman of the committee.

WEST END'S MAD DOG.

An Evidence of His Ferociousness is Seen on a Tree.

A maple tree in the vicinity of Clinton avenue and South Second street, shows remarkable evidence of the ferociousness of the mad dog which ran loose in the West End Wednesday. Around the entire circumference of the tree and for nearly two feet high the wood was bitten and gnawed off as though it had been hacked off with an axe.

Credit should be given to the employes of the Chamois factory, who quit work and pursued the animal until the arrival of an officer. The dog belonged to Lawrence Kerwin, of Rock avenue.

Local News on Pages 2 and 3.

PARTICULAR MENTION.

Edson Martin is visiting friends in Dover.

Mrs. Eugene Sands, of Brooklyn, is visiting relatives in town.

William Barry, of South Second street, has taken a position with John Goff, Jr.

Miss Nettie Kreitling, of West Front street, is entertaining friends from New York.

Mrs. W. W. St. John, of West Front street, has returned home from a visit to New Haven, Conn.

John Gill, of West Fourth street, has returned home from a brief sojourn at South Beach.

Michael Glennon, of Elizabeth avenue, is home from Seton Hall College for the summer holidays.

Mrs. Arthur Stayton, of Bridgeport, Pa., is visiting her brother, Charles Lister, of East Fifth street.

Bought a Farm.

Edward White, of this city, has purchased the A. C. Dickens farm on the Bound Brook road beyond Dunellen, opposite what is known as Dewey Park. It was purchased from Coudert Bros., of New York. In all there are forty acres in this farm. It was formerly owned by Captain Dickens, a seaman. Mr. White will commence at once to improve the property.

A. L. MUNDY,
of New Brunswick, has opened a
RUBBER TIRE PLANT
—CORNER—
Park Avenue and Fourth St.,
Where he will put on and repair Carriage Tires, also show Sample line of Carriages and Harness.

ADMINISTRATOR'S SETTLEMENT.

TROLLEY RUNS ON ARLINGTON AVENUE

Extension of Local Street Car System Was Formally Opened Yesterday.

REGULAR TRIPS ARE MADE.

TRIAL TRIP WAS SUCCESSFULLY MADE TO END OF LINE.

Party of Officials and Business Men Made the Trip and Then Dined at Campbell's Road House—President Nevins Absent.

There was any quantity of enthusiasm on Arlington avenue yesterday afternoon when the first trip over the new extension of the trolley system of the Plainfield Street Railway Company was made. The car that made the initial journey contained a number of city dignitaries and well-known business men. Flags and fire crackers greeted its approach. Altogether, it looked as if the residents of that section were glad to see the trolley.

The rain of Thursday delayed the completion of the line and for the last few hundred yards the trolley wire was temporarily put in position. The trip was made to within a hundred pards of the terminus on Woodland avenue.

Open car No. 7 under the charge of Motorman Patrick Maguire and Conductor Martin Lantz left the North avenue station at 2:15 o'clock with the invited guests on board. Superintendent John Adelmann took personal charge of the outward trip.

It was announced that Thomas Nevins, the president of the Plainfield Street Railway Company, would be one of the party, but he did not appear. William Brown, one of the directors, was present. Col. Detrich marshaled the little party of Arlington avenue property owners who made the trip. The Mayor and the Councilmen did not attend, but City Judge William N. Bunyon, Postmaster E. H. Bird, Former Councilman Walter L. Hetfield, Police Sergeant Kiely and Freeholder W. A. Westphal were the city's representatives on board. The rest of the car was occupied by a party of local professional and business men, including the reporters of the Press and News.

A large American flag waved from the front of Col. Detrich's residence, corner of Arlington avenue and Arlington place. It was loudly cheered. A long row of torpedoes were laid on the track in front of the residence of Louis McIntosh on Arlington avenue. Fire-crackers added to the din. Just beyond the car and party was halted a moment to allow Miss Lulu Fuller to photograph it.

Mrs. George Reighton waved an American flag as the car passed her home on Park avenue. Other houses were decorated with the national colors and many handkerchiefs were waved at the car.

The line runs along Woodland avenue directly in front of the Hillside cemetery and the view from that point is particularly fine. The terminus is at the southern end of the cemetery where the links of the Hillside Tennis and Golf Club begins. The distance from that point to the clubhouse of Hillside Club is about a quarter of a mile.

The party then returned to where the line turns into Park avenue. Stages conveyed them from that point to Campbell's road house, where a lunch was served. They were then carried back by stage to the point where the car awaited them and then journeyed homeward.

The cars are running today on schedule time, but do not make the entire trip on account of the stringing of the trolley wire over the last few hundred feet of the line. Cars will probably go to the terminus tomorrow.

Won Prize in College.

Charles Anthony Squires and Frederick Squires, of Arlington avenue, graduate from Williams College, Williamstown, Mass., on June 27th, when both will receive the degree of B. A. They both graduated from the Plainfield High School in 1896, entering Williams on certificate. Charles A. Squiers has won first prize of $25 in biology. He has also won an appointment on the staff of the United States Fisheries Commission which will pay his expenses at Woodshull, Mass., during the summer

—There will be an important meeting of the North Plainfield Alumni Association next Monday evening at the Somerset street school.

WHERE MOTHERS AND BABIES ENJOY LIFE

Fresh Air Camp of City Union of King's Daughters Formally Opened for the Summer.

SWEPT BY COOL BREEZES.

HEALTH AND PLEASURE FOUND THERE FOR THE VISITORS.

The Camp is in Charge of the City Nurse—Everything is Provided for the Temporary Comfort of the Mothers and Babies.

In the great tenement districts of New York there are thousands of little baby lives saved each year by giving the children a few days' outing at some country resort or a delightful sail on the river. Fresh air is always essential to health, and as the pure air cannot reach the babies in the crowded tenements, they are taken to places where it can be reached. Although Plainfield has pure, fresh air, still there are times when the heat is oppressing and cool breezes are few and far between. These are the times when the little babies, whose mothers have enough work to attend to without feeling the heat, suffer greatly, fret and grow sick.

It is for such babies as these that a camp, similar to those used for New York's children, has been established by the kind and sympathetic City Union of King's Daughters. The camp, which is intended for tired and worried mothers, as well as children, is maintained that those who cannot afford to pay for a trip to the sea shore or country can enjoy the cool breezes of the mountain without cost.

It is a one story building and is on one of the prettiest spots on Johnston's Drive, overlooking and affording a fine view of Plainfield. Here the mothers and babies are brought upon recommendation of Miss Delaney, the city nurse, and given a most delightful time for a day. Everything pertaining to their comfort is provided for, including food and clothes, comfortable seats, hammocks and baby carriages. As a result they return home in the evening with new life in their bodies and a healthy glow on their cheeks.

The camp was formally opened for the season yesterday. About seventy-five ladies were present at the opening and a most delightful afternoon was had by all. Each visitor brought a donation for the camp which was thankfully received by those in charge. Contributions, especially money, are greatly needed for the maintenance of the camp and all those desiring to contribute to its support can send all donations to Miss Blish, who is president of the guild.

The following are the ladies to whom the credit for the camp's success is due: Miss Blish, president; Miss Kathryn Glenn, chairman; Miss Woodruff, Mrs. Jones, Mrs. Manning, Miss Stevens, Mrs. Squiers, Miss Little and Miss Strong.

This is the second season of the present camp, the first one having been burned down.

MARCONNIER FESTIVAL.

Affair Held at the Oak Tree Chapel Was a Success.

The strawberry and ice cream festival held at Marconnier chapel, Oak Tree, last evening, was in every way a success. There was a large attendance, including a number of people from Plainfield, and the patronage of all present was liberal, over $50 profit being realized. Outside of the chapel the decorations were attractive and pretty, consisting of Chinese lanterns which illuminated the place nicely. Inside the chapel the decorations consisted chiefly of flowers, flags, palms, etc. During the evening a recitation was given by little Amy Lupher and a dialogue by Amy Lupher and Lillian Swenck. Those who arranged the affair are very thankful for the liberal patronage, and the profits will be used to start a fund to erect much-needed sheds in the rear of the chapel.

The committee in charge of the festival was Mrs. Swenck, Mrs. VanCourt, Mrs. Stover, Effie Stover, Mr. VanCourt and son. The waitresses who served during the evening were Effie and Nettie Stover and the Misses Giles. At the cake table Mrs. Van. Court had charge, while the candy table was presided over by Mrs. Stover. At the flower table were Lottie Campbell, Lillian Swenck, Amy Lupher and Josie and Sadie Randolph.

DR. PATON TELLS OF HIS LIFE WORK.

The Venerabbe Missionary Lectures on His Experiences in the New Hebrides.

WOULD KEEP PHILIPPINES.

BELIEVES UNITED STATES SHOULD MAINTAIN EXPANSION POLICY.

How Tribes Formerly Made Up of Cannibals Are Accepting Christianity—The Changes That Have Been Wrought.

The venerable Rev. Dr. John G Paton, who, for many years, was a missionary in the New Hebrides, lectured last night at the Crescent Avenue Presbyterian church to a large auidence. Dr. Paton was most successful in his efforts to interest his audience, which, from the beginning to the end of the lecture, paid the closest attention to what he said. This was particularly the case when Dr. Paton explained his reasons for believing in expansion and the wisdom of retaining the Philippines.

Among other things Dr. Paton said that since he had entered upon the work of a missionary in the New Hebrides the mission has ben extended to twenty-two islands. The Bible, in whole or in part, has been translated and printed and is now read in twenty-two different languages. Dr. Paton personally made two translations, which are now in use. The lecturer said that today 18,000 natives are professed Christians, while 40,000 or more heathens now plead for the missionary and the Gospel. Out of the cannibals among which Dr. Paton was first placed the missionaries have educated over 300 native teachers and preachers, and from seventy to eighty students are taking a four-year course of study to prepare them to become missionaries.

Dr. Paton says he was in the New Hebrides two years before he could speak the language of the natives sufficiety well to be of service as a missionary. When he first reached the islands every native was a cannibal, and his escapes from death at their hands were many. Dr. Paton told how the large and powerful tribe on Efate, one of the group of islands forming the New Hebrides, which but a few years ago murdered murdered and feasted on the teachers, their wives and children, who had been placed among them, has lately embraced the gospel. Other large tribes came from ten miles inland and built new villages on the shore, so as to be able to get Christian instruction.

The high chief of one island, of his own free will, gave up eleven wives when he was baptized and admitted as a member of the church. He became a devout preacher.

"Thirty-five years ago, continued Dr. Paton, "the whole population of Aniwa were savage cannibals. By God's blessing on Mrs. Paton's and my humble labors in eight years they were all professing Christians, with family worship regularly conducted in every family. Without help from others they have built their own church and seven schools; have contributed yearly $50 to the mission fund, have paid $400 for printing fifteen books of the Scriptures, and, last year, $750 for printing the complete New Testament as translated and revised by me into their own language. They sent twelve of their best workers as native teachers to a heathen island and lately they sent another to Tanna as a teacher and a preacher of the gospel. In one year on Enumanga 100 adults were baptised. Bloodstained Enumanga, where five missionaries were murdered by cannibals and two of them feasted on, is now a Christian island with about 2,000 people professing to love and serve Jesus Christ.

"The life of our missionaries on the islands is one of much self-denial and of many hardships and dangers. Six of us are the only white men living on our respective islands, and generally we only see each other once yearly at the meeting of the mission synod. The mission passed through a baptism of blood in beginning the work. Five missionaries were murdered and two of them eaten on Enumangar. A sixth fell by my side and died in consequence of a savage attack upon our lives on Tanna. Other members of the mission families died, and many native teachers, with their wives and children, either died or were murdered and eaten by the heathen."

Dr. Paton urged those present to do all they could to aid in the conversion of the heathen. He declared that a great stride in this direction was made when Spain was defeated and the

MR. BIRD GETS $100 MORE.

Good Luck for the Plainfield Postmaster in the Annual Readjustment of Salaries.

(Special to The Daily Press.)

Washington, Jue 16—First Assistant Postmaster-General Perry S. Heath has just announced the result of the seventeenth annual adjustment of the salaries of Presidential postmasters which will continue in effect for the year beginning July 1st next.

The report shows last year to have been the banner year in the history of postal service. As a result of the increased receipts at Presidential offices during the year 1,914 postmasters will receive increased salaries, ranging from $100 to $1,000 Only 171 postmasters are to be reduced in salary, the reductions being from $100 to $300. Some of the New Jersey offices at which the salaries are to be increased, with the old and new rates, are as follows:

Bound Brook	$1,700 to 1,800
Dunellen	1,100 to 1,300
High Bridge	1,100 to 1,200
Irvington	1,600 to 1,700
Jamesburg	1,000 to 1,100
Millburn	1,000 to 1,200
Montclair	2,900 to 3,000
Morris Plains	1,100 to 1,200
Newark	3,800 to 3,900
Ocean City	1,500 to 1,600
Phillipsburg	2,000 to 2,100
Plainfield	2,800 to 2,900
Rahway	2,400 to 2,600
Trenton	3,300 to 3,400
Westfield	2,100 to 2,500
West Orange	1,500 to 1,700

The offices at which the postmasters are to be reduced in salaries are as follows:

Metuchen	1,700 to 1,500
Roselle	1,900 to 1,800

SENATOR KEAN'S TROLLEY.

He is Anxious to Extend the Line to Cranford and the Freeholders Have It Under Consideration.

The Board of Freeholders met Thursday in adjourned session, for the purpose of receiving a communication from the Elizabeth Street Railway Company setting forth the purposes of the company regarding its line along Westfield avenue.

John W. Whelan, representing Senator Kean, addressed the Board, and said that it had been Mr. Kean's intention to have the communication referred to in readiness. Mr. Kean, however, had been called out of the city, and would not return before Thursday next.

The object of the company was to extend as soon as possible its line from its present terminus in Bayway to Cranford. The communication would undoubtedly be in readiness at the next regular meeting of the Board, July 5th, and it would show that Mr. Kean and the company were acting in good faith with the Board and the people of Union county.

County Collector Wood said that he had had a conversation with Senator Kean, and from what Mr. Kean had told him he was satisfied that the company proposed acting in good faith.

INSURANCE MEN DINED.

Prudential's Assistant Superintendents of Plainfield District Met Together Last Night.

A meeting of the Plainfield Assistant Superintendents' Association was held at the office of the Prudential Insurance Company last evening, at which Division Manager Robert Gennell, of Newark, was present. After the general routine of business was transacted a banquet was participated in at the Hotel Kensington. Those present were Manager Robert Gennell, Newark; Superintendent Charles E. Ball, of this city; Assistant Superintendent George Hope, of Somerville; Assistant Superintendent William Allen, Clinton; Assistant Superintendent H. D. Woodland, Flemington; Assistant Superintendent H. W. Serrells, Lambertville; Assistantant Superintendent Charles A. Steadman, of this city; Assistant Superintendent J. W. Binninger, of this city; Assistant Superintendent C. M. Woods, Bound Brook.

At the Y. M. C. A. Meeting.

Rev. W. A. Creditt, D. D., of Philadelphia, will speak and Mrs. George W. Saums will render violin solos at the Y. M. C. A. meeting tomorrow at 4:15 p. m. Dr. Creditt who is an able speaker is a delegate to the Colored Baptist Missionary convention.

Knights Will Go Along.

The members of Trinity Commandery, No. 17, K. T., have arranged to go to Asbury Park with the members of Warren chapel on their excursion, August 29th, when the Knights Templar will hold their field day exercises.

To Occupy Dr. Yerkes' Pulpit.

Rev. W. J. Dixon, president of the convention now in session at the Mt. Olive Baptist church, will preach in the First Baptist church tomorrow evening.

—Press want ads pay.

BUSINESS OF THE COLORED BAPTISTS.

Financial Affairs of the New England Convention Dwelt on at Yesterday's Sessions.

REPORT OF THE TREASURER.

INTERESTING TALK ON MISSION WORK HEARD LAST NIGHT.

This Morning's Session Taken up in the Transacton of Routine Business Matters—No Meeting This Afternoon.

An increased attendance and great enthusiasm marked the second day of the New England Baptist's Missionary Convention now being held in the Mount Olive Baptist church. Yesterday's programme began with a prayer and praise service at 9 o'clock, led by Mrs R. L. Powers, of Norwick, Conn., followed by an interesting meeting of the Women's Home and Foreign Mission Society. Adjournment was made at noon to re-assemble at 2 p. m. when the meeting was called to order by President Dixon, pastor of the Concord Baptist church, of Brooklyn.

The important business of the meeting was taken up, which conesisted of the appointing of committees on application of membership, education, on minutes of corresponding bodies, obituaries, state of the country, temperance, fields, important subjects in letters, trustees for widows' fund, foreign missions, time, place and preachers. Letters and reports were read by the chairman of the board of managers, field secretary, treasurer, committees on education and corresponding bodies and introductory of corresponding delegates.

The report of Treasurer R. D. Wynn, of New York, was read and showed that a total of $862.90 had been received during the year, of which $747.64 had been paid out leaving a balance on hand of $115.26. The report of the widows' fund was also read. The sum of $355.33 had been collected of which $91.06 had been expended, leaving $264.27 on hand.

At the conclusion of the reports, brief talks were given by Brother Trawer, of Philadelphia, Rev. J. Anderson Taylor, of Washington, D. C., Rev. Paul Jefferson, of Charleston, S. C., Rev. E. Jenkins, of Atlantic City, and Rev. Ebenezer Byrd, of Elizabeth.

The evening service began at 7:30 with a prayer meeting led by Rev. Mr. Byrd. Before 8 o'clock the church was filled to overflowing. The speakers of the evening were Rev. S. C. Morris, missionary to Africa, and Rev. L. G. Jordan, secretary of the Foreign Mission Board of the National Baptists convention of Nashville, Tenn. The former spoke feelingly of the conditions and sufferings of the colored Baptists in Africa and of his experiences among them. He told of their churches, their homes and their loyalty to their faith. He ended with an appeal for help to alleviate their sufferings.

On account of Rev. Morris talking more time than was allotted him, the address of Rev. Jordan was necessarily made very short. He took up the appeal for help of the preceding speaker and the members responded in a very liberal manner. The session closed at 9:45.

Today's programme began at 9 a. m. with a prayer meeting led by H. A. Booker, of Long Island after which the reports of the various committees appointed yesterday were given. A memorial service was held in honor of the sainted deceased, followed by adjournment. There will be no session this evening.

Boarding House Destroyed by Fire.

(Special to The Daily Press.)

Elizabeth, June 16.—The boarding house of Mrs. Parks, on Galloping Road, in Union Township, was destroyed by fire yesterday. Very little was saved from the building. The building was owned by J. B. Smith, of Newark. The loss on the building is estimated at $5,000 and that on the contents at almost as much. The furnishings were insured. The insurance upon the building could not be ascertained.

Man's Wants.

Man wants but little here below, nor wants that little long, but what he wants he wants just right and not the least bit wrong; and therefore it behooves that man who would good eyesight throw, to profit by expert advice and straight to Collier's go.

Sunday-school Hour Changed.

Commencing with tomorrow the Sunday-school at the First M. E. church will meet in the morning at 10 o'clock, and the morning service will commence at 11 o'clock.

THREE GO TO YALE, THREE TO PRINCETON

Closing Exercises of Prof. John Leal's School Held at Casino Last Night.

HONORS WERE ANNOUNCED

A DANCE WAS GIVEN BY THE GRADUATES AFTER THE EXERCISES.

Class of Six Young Men Completed Course of Study — Address Made by Prof. Charles Sears Baldwin, of Yale University.

Six young men were sent forth, ready to begin their college careers, at the closing exercises of Prof. John Leal's School, held in the Casino last evening. Three go to Yale and three to Princeton. The exercises differed from those of past years in that the usual declamation contests were omitted and an address was made by Prof. Charles Sears Baldwin, of Yale University, a former graduate of Leal's School.

After a selection by Roger's orchestra, Prof. Baldwin spoke on "How To Widen the Scope of Culture." The thought of his address was that while it required an effort to understand and appreciate the classics of art and literature, the enjoyment that came to the student from them more than compensated him for the labor required.

After another orchestral selection, Mr. Leal announced the honors for the year and made a short speech to the graduates. The graduates were Lewis Thomas Churchill, John VanVorst Vredenburgh and Edward James Waring, who go to Princeton, and George Hubbard Dupee, Aubrey Cameron Hull and William Robert Millar who go to Yale.

The honors were announced as follows: Algebra, David C. Grigg; geometry, Robert F. Tilney; arithmetic, Gordon W. Abbott; Cicero, Fred L. Brown; first Latin, Gordon W. Abbott; advanced French, William R. Millar; first French, N. P. Rogers, Jr., and Robert Abbott; advanced German, Fred L. Brown; English grammar and composition, Henry Babcock; general history and English, Gordon W. Abbott; first year Greek and English composition, Frank P. Simons; English composition, Fred L. Brown, William R. Millar, Harry Schwed and George Stuart Simons.

Special mention was given Aubrey C. Hull for general excellence in his work throughout the course of studies.

Following the exercises a dance was held at which a number of the young society folk of Plainfield and vicinity were present. The patronesses were Mrs. John Leal, Mrs. G. W. Churchill, Mrs. George P. Dupee, Mrs. Alex. Millar, Mrs. Edgar B. Smith, Mrs. James VanVredenburgh, Mrs. O. T. Waring, Miss Andrews and Miss Farnam.

COP VICTIM OF A THIEF.

Patrolman McCarthy's Wheel Stolen While Standing in Front of the North Avenue Station.

The bicycle which was taken from in front of the depot Thursday evening, and which was thought to have been recovered, was stolen after all. The wheel found in front of the station belonged to another party.

The stolen wheel was owned by Officer McCarthy and had been loaned by him to night messenger John Motley. Motley had been delivering a message and returned about 9 o'clock. He placed the wheel against the iron steps of the station on the North avenue side. When he came to look for it a short time later it was gone, but thinking it had been taken in fun by some of the employes of the station he did not report the matter to the police. What was thought to be the missing wheel was found on the station platform at midnight, but the officer saw that it was not his. The stolen bicycle was a '98 Eldridge and had just been re-enameled black. There was no name plate in front.

Exercises for the Children.

Children's Day exercises will be held at the East Third Street mission tomorrow afternoon at 2 o'clock, when a very interesting programme will be presented, including singing and recitations by the scholars, a vocal solo by Clifford Braider, reading by Miss Ella Serrell, soprano solo by Mrs. Samuel Case, whistling solos by C. M. Evans and short addresses by Rev. Dr. Yerkes, Rev. George Bowers, Rev. W. L. Jones and Geo. H. Batchelor. Superintendent L. W. Randolph will be in charge of the exercises. A cordial invitation is extended to all interested.

ANOTHER TROLLEY LINE IN BOROUGH.

Council Hears That the Company Would Like to Lay Its Tracks on Watchung Avenue.

NOT LOOKED ON WITH FAVOR

COUNCILMEN GIVE EVIDENCE THAT THEY WOULD OPPOSE IT.

More Talk About the Widening of Watchung Avenue and Mayor Smalley Says That Things Will be Ready for it by July 1st.

Mayor Smalley, having recovered from his recent illness, was able to attend the adjourned meeting of the Borough Council held last evening, and all the members were present except Messrs. Swackhammer and Coddington. There was not a great deal of business on hand, and the session was rather short.

A petition was received from Wm. H. Shotwell, Andrew Love, Sr. and others asking for a crosswalk on the northside of Duer street and Lincoln place, and the matter was referred with power. Regarding the widening of Somerset street, no report was ready, but Mayor Smalley stated that he thought the matter would be ready by the first of July and could then be pushed toward completion. He hoped that the commissioners would then be ready to proceed at once. The Mayor stated further that Somerset street would have to be widened to make room for the postoffice, and in connection with this His Honor stated that the new office will be located on Somerset street, although the exact place has not yet been decided upon.

Mayor Smalley inquired regarding the payments on the extension of Duer street, and was informed by Clerk Frank Rowley that the last report, about ten days ago, showed that Collector Brown had received $350 of the $500 subscribed. The chances are the balance will be forthcoming at an early date. It was also stated that the extension would be ready for the new bridge over Green brook in about two weeks, as the filling in will be completed by that time.

One important matter brought out by Mayor Smalley was that he was satisfied in his mind that the trolley should go off of Somerset street and be placed on Watchung avenue, then cross the latter avenue at the upper end, and enter the city on the west side. He had been informed that the trolley company are anxious to secure that route and will do almost anything to get it. They are not wedded strongly to Somerset street as the street is narrow and there is considerable traffic thereon, and besides the trolley does not extend to an important centre. There seems to be little chance of the tracks being extended up the mountains, and the company would like to secure a favorable opening elsewhere. Just what effect such a change would have on the people in the borough is not known, but it is sure to raise many objections from one source or another.

Councilman Clark expressed himself as against the trolley going through Watchung avenue, and Councilman Valiant stated his position which is against the trolley invading Washington Park near the residential section where there are many handsome properties. This question is sure to come up at no far distant day, when it will be fully argued in every detail.

After bills for street labor, amounting to $226, were attested correct and paid the Council adjourned.

P. and R. Improvements.

The Philadelphia and Reading Railway Company has decided to make more out of the natural resources along its Port Reading branch. This road extends from Bound Brook to Port Reading and ever since its construction it has been used exclusively as a coal road. It is now proposed to develop the property and on Monday a contract was awarded for the necessary masonry work and grading for a new line from a point on this road to the clay pits in the vicinity of Woodbridge. The road will be about one and one-half miles long, and the construction is to be pushed.

Stephen Crane's Body.

Relatives of the late Stephen Crane have received word that the body of the writer will leave Southampton on the steamship Bremen June 17. The Bremen is due on June 26. Mr. Crane had expressed a wish that he be buried in the same lot with his father and mother in Evergreen cemetery, Elizabeth.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Gossy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

PARTICULAR MENTION.

—Walter Emmons, of the borough, has taken a position with Mr. Thorpe on Park avenue.

—Wm. M. Stillman is making a number of repairs to his house corner of Grove street and Craig place.

—There are at present only a small number of cases of contagious disease in the borough, and quarantine will soon be raised on these cases.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—Rathbone Division, U. R., K of P., of Brooklyn, will come to Plainfield tomorrow and join with Crescent Division, No. 13, U. R., K. of P., in the observance of Pythian Memorial Day.

—The work of filling in the extension of Duer street to Green brook is about completed and very little work now remains before everything will be in readiness for the bridge over the brook at that point.

—There is a large increase in the first regiment of the Union Veterans' Union which was organized recently in the borough, and it is expected that the membership will soon be large enough to form a company.

—A sociable was held at Jackson Hotel, Martinville, John Schord, Jr., proprietor, Wednesday evening. There were about forty couples present from Newark, Bound Brook, Somerville, Trenton and Elizabeth. Dancing was the feature and music was furnished by Sam Frazee, in his usual good style. Before the guests departed a bountiful supper was served.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

PARTICULAR MENTION.

Mrs. F. M. Ward, of this city, has been entertaining a friend from Elizabeth.

Mr. and Mrs. Charles Greer, of Duer street, are entertaining company from Elizabeth.

A slight improvement is noted in the condition of Walter Dreier, of West Front street.

Mrs. Menzenbach, of the borough, has been visiting Elizabeth relatives for a short time.

Miss Emma Hodgins, of Brooklyn, is visiting Miss Helen Cuming, of Putnam avenue.

Letter-carrier John Hines has returned to his position after an absence of several days.

Mrs. John Rafferty, of Sandford avenue, has been visiting relatives at Bound Brook for a short time.

Mrs. Charles Reed and family, of Washington Park, are visiting relatives in Somerville for a time.

Garrett Dreier, of New Brunswick, has been visiting his parents, Mr. and Mrs. Dreier, of West Front street.

W. L. Smalley, Sr., Craig place, has recovered from a recent illness and is again able to enjoy life out of doors.

Mrs. John Case, of Flemington, who has been visiting her uncle, J. H. McVey, of North avenue, has returned home.

Miss Margaret Rand, of Watchung avenue, has returned from Hightstown, where she is a student at Peddie Institute.

Mr. and Mrs. Aaron D. Thompson, of Belvidere avenue, have been entertaining their daughter, Mrs. Hodge, of Findern.

Mrs. E.C. Morse, of Jackson avenue, is detained at her home by illness, and there is not much improvement in her condition.

Charles P. Sebring, of North Plainfield township, is gradually recovering the use of his eye, which was injured some time ago. He still has to wear a bandage, however.

Charles DeGraw, of the firm of Putnam & DeGraw, has just received a letter from his friends, W. C. French and wife, formerly of Westfield, but now of Cripple Creek, Col., and they are thinking of moving back to this section of the country.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

MACABULUS SURRENDERS.

Filipino Leader, With Eight Officers and 124 Men, Gives Up.

MANILA, June 16.—General Macabulus, who has been persistently active in the Pangasinan district, has surrendered to Colonel Emerson H. Liscum at Tarlac, with eight officers and 124 men, all armed with rifles.

Senor Pedro Paterno, former president of the so called Filipino cabinet, has been released temporarily, and he is now conferring with Senor Felipe Buencamino, former minister of agriculture and commerce, with reference to the latter's peace platform.

Two hundred men of the Eighteenth infantry who are sick are returning by the transport Hancock in charge of Captain Lewis.

Upon information furnished by Major Wheeler to the effect that General Lacuna intended to attack Papaya, province of Nueva Ecija, General Funston, with staff officers, Captain Koehler and Troop G of the Fourth cavalry and half a company of the Thirty-fourth infantry, repaired to Papaya. General Lacuna was found with 200 men occupying a position on a ridge two miles south of the town.

General Funston attacked him vigorously, 60 Americans charging the enemy under a hot fire. The insurgents fled.

On their attempting to make a stand later Captain Koehler, with a detachment of troops, charged and scattered them. The pursuit over the rough country lasted until nightfall. Twenty-two of the insurgents were killed.

One American was killed and one wounded.

SOUTH AFRICAN WAR.

Fresh Fighting Expected, but War Office Gets No Report.

LONDON, June 16.—Lord Roberts' dispatches leave affairs east of Pretoria with the Boers withdrawn to new positions Tuesday. News of fresh fighting is expected at the war office, but none came last night.

General Rundle's patrol had a skirmish with Boer vedettes again Wednesday. Some wonder is expressed here as to what he is doing with three divisions. It is assumed by some that General Buller will move into Orange River Colony and co-operate with Lord Methuen and General Rundle in bagging President Steyn and his 7,000 or 8,000 followers.

Part of Christian Botha's force has halted at Paardekop, 18 miles northwest of Volksrust. Boer parties are still near Volksrust and fire occasionally upon the British pickets.

A dispatch from Lourenco Marques, dated yesterday, says:

"Persons have arrived here who have seen the preparations of the Boers and learned that they will retire, when forced, through the Lydenburg district into the Zoutsansberg region, adjoining Rhodesia and Gazaland."

The Daily Mail has a dispatch from Bloemfontein, dated Wednesday, saying:

"General De Wet's attack on the railway was made after he had succeeded in luring Lord Methuen from where he had destroyed the line. Then he cleverly seized it north of Kroonstadt, blew up the bridge and destroyed a long section of the line with dynamite."

Major General Baden-Powell has been appointed to the temporary rank of lieutenant general.

SIGNS OF SETTLEMENT.

St. Louis Strikers Agree to a New Plan to End the Strike.

ST. LOUIS, June 16.—By a practically unanimous vote the striking street railway union men decided yesterday to accept a new proposition presented by their executive committee and to empower the executive committee to settle on the basis of the clause regarding reinstatement without reference to the union.

This action was brought about through the influence of Samuel Gompers, president of the American Federation of Labor, who arrived in St. Louis Thursday night and was present at the mass meeting which was held at the West End coliseum yesterday.

The new plan of settlement is, therefore, now in the hands of the executive committee. It varies but little from previous propositions except in the paragraph which provides for the reinstatement of the men, as follows:

"(7.) The question of reinstatement of former employees shall be submitted to arbitration.

"And in regard to section 7, covering the reinstatement of our members, the executive board is hereby authorized and empowered to reach a settlement either through conference or agreement or by submitting it to arbitration, as provided for in the above section."

Heretofore all plans have contemplated the reinstatement of all the employees. This matter is waived by the new plan and the reinstatement left open to arbitration.

After the meeting had adjourned President Gompers intimated that arrangements for opening negotiations with the transit company were already under way.

Quarantine Raised In San Francisco.

SAN FRANCISCO, June 16.—At the meeting of the board of health yesterday afternoon the quarantine was declared dissolved.

New York Markets.

NEW YORK, June 15.—FLOUR—State and western moderately active and well sustained as to price, without important change; Minnesota patents, $3.65a3.90; winter straights, $3.50a3.65; winter extras, $2.60a2.90; winter patents, $3.65a4.

WHEAT—Opened weak under reports of heavy showers in parts of the northwest, but recovered later on a spurt of shorts, due to early overselling; July, 76 7-16a77c.; September, 77 13-16a78 11-16c.

AT KANSAS CITY.

The Democratic National Committee Meets—Chairman's Announcement.

KANSAS CITY, June 16.—The subcommittee of the Democratic national committee, appointed to make final arrangements for the national convention on July 4, met here yesterday.

Colonel John I. Martin, sergeant-at-arms, made his report. The two most important questions to be considered are the alleged extortionate rates charged by hotel men and the ability of the contractors to finish convention hall.

After a conference with the leading hotel men and with the general convention committees of Kansas City, Chairman Jones gave out the following signed statement:

"The three or four leading hotels have already contracted practically for their full capacity. On account of the increased expense in preparing for the convention the managers of the larger hotels felt themselves compelled to require contracts for a minimum time of four days, the time to begin at the option of the delegation making the contract, but they did not increase their regular rate.

"In the other hotels, nearly 40 in number, and the 8,000 or 10,000 outside rooms

SENATOR J. K. JONES.

listed by the local committee on public comfort, accommodations can be had at reasonable rates, and payment is only required for the length of time the rooms are occupied.

"The local committee on public comfort has so systematized its work that it appears to me that it is possible for any man to be taken care of better and at more reasonable rates than has been the case at any former convention.

"The general work of the bureau of information and committee on public comfort is in charge of A. D. L. Hamilton, New York Life building, Kansas City, who will give all information desired, reserve rooms and make contracts for all persons wishing to attend the convention. Comfortable rooms may be secured by correspondence with him."

VOLUME OF TRADE LARGE.

Official Reports Show Unprecedented Output and Demand.

NEW YORK, June 16.—R. G. Dun & Co.'s weekly review of trade says: The volume of business continues large, especially in states south of the Potomac and west of Pennsylvania. Speculation and the creation of new securities swelled business at New York, Boston and some other eastern cities last year. But beyond this narrow section the volume of trade is this year the largest ever known and on the whole shows no signs of abatement. The official reports hold out fair promise of good crops this year, and the demand for staple farm products has run close to the largest ever known, while the exports of manufactured products have been in 11 months ending with May about 27 per cent larger than in any previous year.

The output of iron furnaces June 1 was 296,376 tons weekly an increase of 2,526 tons, making the yield only 1,638 tons less than at the highest point ever reached Feb. 1. But the increase of unsold stocks to 339,480 tons, about 94,000 tons in May, discloses a larger decline than expected in the new business, upon which nearly all the works and furnaces have now to rely, and reports that furnaces of considerable capacity have been already closed this month seem likely to be correct.

Wheat has been advanced nearly 3 cents with accounts of extensive injury to growing grain, and the exports from Atlantic ports, flour included, have been in two weeks of June 5,937,187 bushels, against 3,526,801 last year. Pacific exports, 1,515,388, against 1,055,512 last year, and corn exports 6,000,462 bushels, against 5,812,959 last year.

Chicago Labor Troubles Unsettled.

CHICAGO, June 16.—The building contractors' council has refused to make peace with the labor unions on a basis of abolition of the sympathetic strike. This concession was joined with provisions to which the contractors said they could not agree. They suggested that a further conference be held to reach some settlement of the building trades war.

Mostly In the Newspapers.

BATH, Me., June 16.—C. W. Morse, president of the American Ice company of New York, reached this city yesterday afternoon for a brief visit with his family. In an interview he said that the American Ice company's troubles are mostly newspaper talk.

New Mahdi Arrested.

ALEXANDRIA, June 16.—A new mahdi recently appeared at Wady Halfa, preaching and proclaiming that Christ would soon be seen again in the flesh upon earth. He was arrested by the government, together with 45 adherents.

Weather Probabilities.

BUSY REPUBLICANS.

National Committee Holds Three Long Sessions.

DELAWARE CONTEST UNSETTLED.

Many Vice Presidential Candidates, but Nothing to Indicate on Whom the Choice of the Convention Will Fall.

PHILADELPHIA, June 16.—The Republican national committee yesterday put in three long sessions on the contests which have been brought before it and adjourned late with all of the controversies practically disposed of except that from Delaware. This has been referred back to the subcommittee, with instructions to again endeavor to bring the factions to a basis of agreement and will receive final action today. An important action was the seating of the Brownlow delegates in the Tennessee contest and refusing admission to the friends of Pension Commissioner Evans. The contest was very bitter, and at one time there was the possibility of a serious encounter between Brownlow and Evans.

Quite the most interesting feature of the day was the speech of Senator Hanna in the Delaware case. Senator Hanna is earnestly anxious to harmonize the factions in Delaware, and his speech before the committee urging another attempt at agreement showed his feeling in the matter.

The action of the committee in the various contests has caused it to be generally remarked that it has not been influenced in the least by the leaders. Senator Hanna's friends from the south, especially the office holders, have received scant consideration. Where there were rival factions of office holders, as in Alabama, both sides have been denied seats. The defeat of Wimberly in Louisiana and the elevation of Warmouth is said to have been distinctly antagonistic to the wishes of the closest friends of the administration, as Wimberly was sustained by the administration in the fight that was made against his confirmation when he was appointed collector of the port of New Orleans. It was in opposing this confirmation that Warmouth took occasion to make some bitter remarks about Senator Hanna, who was supporting Wimberly. In the New York case it is

SENATOR FAIRBANKS.

asserted that the decision was against Senator Platt, and other cases are instanced by members of the committee as examples of independent action.

Speculation, gossip and informal conferences among national committeemen and other leading Republicans who are here has failed to indicate a crystallization of sentiment around any individual. Neither Senator Hanna nor those who are close to him give any intimation that the administration has a choice. The number of delegates who will vote for any man that the administration favors seems to accentuate the general impression that the nominee will be the man most satisfactory to the president.

"If you would take us into your confidence on this vice presidential matter, it would simplify the situation greatly and give us an opportunity to do what the president would like," said a prominent Republican to Senator Hanna, and the reply he made was, "You know all I know about it."

Senator Hanna's only observation on the situation was that until the different delegations arrived and there was an opportunity for them to consult no conclusion could be reached.

Senator Platt's talk of Odell of New York caused a little flutter here, and Dolliver stock took an upward turn about the same time, the cause being the impression that in case Odell should be pressed by New York there would be a concentration on the Iowa congressman by those who do not favor the New Yorker.

The candidacy of Lieutenant Governor Woodruff of New York, who arrived yesterday, is still being kept in evidence by his friends, but apparently without any backing from the Republican managers and with the distinct disapproval of Senator Hanna.

It is generally believed that Senator Allison has made it plain that he will not be a candidate under any circumstances.

The position of Secretary Long causes considerable comment, and it is being freely asked why the Long candidacy should proceed so far unless it has the tacit consent of the president. The fact that Long is a member of McKinley's cabinet gives rise to an undeniably widespread belief that the secretary of the navy will finally receive the support of the administration. If such is the case, however, it is being carefully kept from view. As the matter stands now it would seem that Long, Dolliver and Fairbanks are the leading possibilities for vice president.

McLean Sends Big Check to Bryan.

COLUMBUS, O., June 16.—It is learned here that John R. McLean has sent his personal check for $25,000 to W. J. Bryan to be used in the campaign. The check was sent as an evidence of good will and to offset any bad effect of the misconstruction of his trip to Europe. The information about the big check is positive, coming only secondhanded from Mr. McLean.

Chicago Claims Two Million.

CHICAGO, June 16.—The count of the people of Chicago was practically complete when the 800 census enumerators reported to the various ward superintendents yesterday. It is estimated that the city will be shown to have 2,000,000 inhabitants.

PRISONERS IN PEKING

Foreign Legations Cut Off by Chinese Troops.

THE SITUATION MORE MENACING.

Foreign Force Wholly Inadequate to Contend With the Native Hordes Massed Outside the Gates—No Relief For Weeks.

LONDON, June 16.—This is the situation in China as it appears to the Shanghai correspondent of The Daily Express, cabling last evening:

"It is really a state of veiled war. The members of the foreign legations in Peking are virtually prisoners, and the Chinese troops are only restrained from attacking them by fear of the legation guards.

"Meanwhile the ministers are altogether unable to communicate with the officers commanding the relief column which is making an enforced and isolated halt between Tien-tsin and Peking. The walls of the capital are guarded by 100,000 imperial troops. The gates are heavily defended with modern guns. General Tung, acting under orders from the empress dowager, says that no more foreign troops shall enter the sacred city.

"On Monday the ministers sent a demand to the tsung-li-yamen that the gates be opened, declaring that otherwise the foreign troops would enter forcibly. To this no reply was given. A second message went unanswered or had not been answered when the latest news left Peking.

"Sir Claude Macdonald's latest message says that the legations are capable of sustaining an effective defense unless attacked in force."

Russia, this correspondent asserts, notwithstanding assurances to the contrary, sides with China. Some foreign troops are already reported to be in the environs of Peking, and the attitude of the Chinese troops is increasingly menacing.

"The streets of Peking," continues the correspondent of The Daily Express, "are reported to be seething with anti-foreign mobs, clamoring for the destruction of the legations and the death of the foreign ministers. Even were the tsung-li-yamen disposed to restrain the violence of the reactionaries it is considered highly improbable that they will be able to hold them in check. For the foreign ministers the crisis will arise when the relief column comes in sight of Peking.

"It is still felt here that the foreign force is wholly inadequate to battle with the hordes of Chinese troops massed outside the gates, which now include the imperial troops from Shan-hai-kwan."

A disquieting element in the situation is the fact that, although the Russo-Chinese telegraph line from Peking, via Kiakhta (eastern Siberia), is working again, the transmission of English messages is rigidly refused.

From Tien-tsin it is reported that the foreign forces in the harbor will attack the Taku forts and if necessary bombard them.

The international column appears to be still at Lang-fang, engaged in slowly repairing the railway, which, according to a dispatch from Tien-tsin to The Daily Mail, dated June 14, cannot be effected for weeks. The force is short of provisions, and as it is without field transport it must stick to the railway.

WASHINGTON PLANS.

It Is Thought Another Expedition Will Be Needed.

WASHINGTON, June 16.—Owing to the natural reluctance to employ troops save as a last resort and the disinclination of the war department to supply such troops except under pressure, the officials are considering an alternative proposition. This contemplates the putting out of commission of several of the big ships attached to Admiral Remey's fleet, notably the Oregon, and the addition of the sailors and marines so released to Admiral Kempff's landing force. The big ships carry on an average more than 300 men apiece.

There is a growing belief that it will be necessary to organize another expeditionary force at Tien-tsin to maintain the communications of Admiral Seymour's column, which with limited supplies will be in severe need very shortly unless it can force its way through to Peking. The Monocacy arrived yesterday at Taku, and if there were an emergency by pushing on up the river she could have reached Tien-tsin before dark. The Monocacy on such a short trip could easily carry fully 500 men in addition to her own crew, so that the safety of the foreigners at Tien-tsin probably is assured.

Missionary's Safety Confirmed.

HIGHLAND LIGHT, Mass., June 16.—A cablegram just received from Dr. Hopkins, a missionary located at Tien-tsin, by friends in this town, where Dr. Hopkins formerly resided, confirms the mention of the safety of himself, wife and three children made in recent press dispatches. The cablegram adds, however, that the country is in a great fever of excitement.

To Seize Taku Forts.

TIEN-TSIN, June 16.—The mixed forces, it is reported, will attempt to seize the Taku forts. General Nieh is moving 2,500 troops from Lu-tai to Chun-lia-cheng. General Tung's Shanghai troops are moving to Peking.

Temperance Congress Closed.

LONDON, June 16.—The world's temperance congress came to a close with a reception tendered the delegates at the Mansion House last evening by the lord mayor, Mr. A. J. Newton. The American delegates have undoubtedly impressed the United Kingdom delegates with the progress of the temperance cause in the United States, which has been the subject of many congratulations from the British members of the congress.

The Oyster Deal Off.

NEW HAVEN, June 16.—The time limit fixed by the oyster dealers who gave options upon their properties to the promoters of the proposed $10,000,000 oyster syndicate has expired. The oystermen have heard nothing from the promoters and concluded that negotiations were at an end. It was the intention of the syndicate to gain control of the oyster industry of New York, New Jersey, Rhode Island and Connecticut.

Secretary Gage Ill.

WASHINGTON, June 16.—Secretary Gage is indisposed and probably will not return to his office before next Monday. He has contracted a cold which has involved slight stomach complications.

It Kills Disease

Radam's Microbe Killer will stay the ravages of Consumption, stop the pains of Rheumatism, allay the itchings of Eczema, prevent the wasting in Bright's Disease, neutralize the gnawings of Dyspepsia, sweeten the foulest stomach and bring back a normal appetite to the suffering patient. The above are only a few of the many germ diseases; this remedy surely conquers these, and health is again restored.

Radam's Microbe Killer

is an antiseptic, contains no injurious drugs, destroys all bacteria, and is healthful in the highest degree. No decay or fermentation can develop where the Microbe Killer is present. Thousands once pronounced incurable, have regained health and strength by ridding their bodies of all disease germs.

If you are sick, this remedy should be taken immediately. Don't defer the trial until there is no hope. Write us for free book containing testimonials and advice at once.

Large Bottles, $1. Gallon Jugs, $3.

BRIDGE WORK

In Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Wm. Ayling and family, of Grandview avenue, have moved to Bayonne.

Mrs. Hugh Hasting and daughter, of Seventh street, have gone to Boston, Mass.

Dr. Merrill, of Central avenue, spent yesterday with friends from out of town.

Miss Amy G. Burt, of West Seventh street, is visiting relatives in New York.

Miss Nellie Arnold, of Manning avenue, has received a present of a fine spaniel dog.

James Patterson, Jr., of West Front street, has entirely recovered from a recent illness.

Charles Bull, of New York, has taken up his residence on East Ninth street, his former home.

Miss Beekman, of Crosby & Hill's store, is much improved from an attack of erysipelas.

Mrs. Randolph, of Newark, has been visiting her son, L. W. Randolph, of Washington Park.

Mrs. Fred Haberle, of West Front street, has returned from a visit with out of town friends.

Mrs. Edward Ellison, of Bayville, L. I., is visiting her sister, Mrs. H. M. Johns, of Richmond street.

Townsend Rushmore, of West Eighth street, has returned from a short stay in Philadelphia.

Miss Edna Howell, of Chester, Pa., is the guest of Miss Minnie G. Morse, of Franklin place, for a few days.

Andrew Marsh and family, of Long Island, who have been visiting Plainfield friends, have returned home.

Mrs. T. H. Cuming and son Walter, of Putnam avnnue, are making an extended visit at Fitchburg, Mass.

Mr. and Mrs. Frank Manderville, of Brooklyn, have returned after a pleasant visit with Plainfield friends.

Mrs. Tolon Palmer, of New York, has been visiting her cousin, Mrs. George W. Lowerre, of Grandview avenue.

Wm. Gracely, of the borough, is seriously ill at his home and his friends are much concerned over his condition.

Miss Edith Boone, of West Seventh street, has gone to Ithaca, N. Y., to attend the closing exercises at Cornell University.

Dr. and Mrs. Clawson, of East Front street, are enjoying a visit from Mrs. Clawson's father from New York State.

Miss Pearl Parcher and Miss Ina Covey, of Minneapolis, Minn., are guests of Miss Ella Whitall, of East Second street.

Mr. and Mrs. Joseph E. Morse, of Franklin place, returned last evening after spending the week at Oriskany Falls, Oneida county, New York.

Superintendent W. W. Wentz, of the Jersey Central Railroad, is expected home in a few days from Denver, Col., where he went two weeks ago on business.

Rev. J. W. Richardson, of Prospect avenue, has returned from Boston and will occupy his pulpit in the Park Avenue Baptist church tomorrow. Mrs. Richardson, who is ill in Boston, is reported to be greatly improved.

Recent letters received from Mrs. Pearson, nee Miss Margaret Vermeule, of Ft. Duschne, Utah, state that she is enjoying herself very much. Life in that part of the country is far different than that of this section, but Mrs. Pearson is apparently well pleased and enjoys the excitement at an Army Post.

GYMNASTIC UNION AND FESTIVAL (TURNFEST) NORTH AMERICAN, PHILADELPHIA, JUNE 17-24.

Reduced Rates to Philadelphia via Pennsylvania Railroad.

For the Gymnastic Union and Festivals (Turnfest) North American, at Philadelphia, June 17-24, the Pennsylvania Railroad Company will sell excursion tickets to Philadelphia from all stations on its line at the rate of single fare for the round trip. Tickets to be sold and good going June 15 and 21, and to return until June 26 inclusive. 6 11-16

—Trinity Commandery, No. 17, K. T., will hold an important conclave next Monday evening.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

A WELCOME TO OTIS.

Rochester Celebrates Homecoming In Fitting Manner.

ROCHESTER, June 16.—Otis day opened with brilliant sunshine and the booming of 13 guns, a major general's salute. The salute proclaimed the official start of the celebration in honor of the homecoming of Rochester's son, Major General Elwell S. Otis.

One hundred thousand inhabitants of Rochester turned out to participate in the celebration, and fully 100,000 visitors came to the city.

President McKinley and Secretary Root ordered here regular troops and the Marine band at a cost of $100,000 to the United States government, and the military parade started at 2 o'clock in the afternoon.

The early trains brought in companies

GENERAL OTIS.

of soldiers and thousands of visitors from east, west, north and south.

The open air attractions last evening consisted of band concerts and fireworks.

The banquet given to General Otis at 6:30 o'clock at Powers' hall brought to a fitting close a day in the history of Rochester which will long be remembered as the most enthusiastic demonstration ever witnessed by the people of the Flower City. In the banquet hall 600 plates were laid, but still this number was inadequate to supply the demand. Finally after the pressure had become excessive the doors were closed.

After the excellent menu of eight courses had been discussed grace was said by Rev. Rob Roy Converse, D. D., and a few introductory remarks made by President Henry B. Hathaway of the Chamber of Commerce. Toastmaster Charles J. Bissell, after flattering references to the guest of the evening, introduced General Otis.

General Otis as he arose to respond was greeted by enthusiastic applause, with the assemblage standing, while the Marine band played "Hail to the Chief." General Otis thanked the citizens of Rochester for their affectionate welcome and expressed feelingly the great pleasure he felt at his homecoming.

Referring to the Philippines, the general said:

"I have heard a great deal about the Philippines since my return. I know as a fact, however, in spite of all that has been said, that the Philippine Islands are in the possession of the United States, and the United States cannot get rid of them and cannot withdraw. Nor do the intelligent citizens of America want us to withdraw. Intelligent men of the Philippines want United States protection and government, and to them I have promised protection from all loss of life and property, and I know that this country will fulfill that promise."

The toastmaster next introduced the doughty little General "Fighting Joe" Wheeler. At the mention of his name the assemblage rose en masse and cheered vociferously, napkins being thrown into the air, and the enthusiasm ran high. The band played "Dixie" and "Yankee Doodle." It was fully ten minutes before General Wheeler could be heard. Other speakers were Hon. J. Sloat Fassett and Hon. J. S. Sherman.

Coroner's Jury Accuses Champion.

WEST NEWFIELD, Me., June 16.—The coroner's jury in the case of the murder of the Goodwin family at West Newfield brought in a verdict that the deceased came to their death by violence at the hands of George Champion. The only witness yesterday was Inspector McCausland of Boston, who testified to what Champion had said about his movements from the time he left the Goodwin farm Sunday night until his arrest. The authorities believe that Champion is likely to weaken and make a confession before long, as he appears unable to stand the strain.

Fatal Railway Collision.

SPRINGVILLE, N. Y., June 16.—Buffalo, Rochester and Pittsburg train No. 5, south bound, which left Buffalo at 5:40 p. m., and train No. 8, north bound, which left Bradford at 4:30 p. m., collided head on at West Falls about 7 o'clock last evening. It is reported here that Engineer William Kation of the south bound train, residence Buffalo, was killed, and that Engineer Frank Mattson of the north bound train, residence Bradford, was fatally injured. It is stated at the railway depot here that no passengers were killed.

No Advance For Molders.

DETROIT, June 16.—A conference between the committee of nine from the Molders' Union of America and the administrative council of the Foundrymen's National association, which has been in session this week, ended with the decision that a proposed advance in pay for molders in Cincinnati, Cleveland and Chicago of 25 cents per day would not be granted. The molders in the three cities named were getting $2.50 per day for bench and $2.75 for floor work. This decision affects all cities in the United States.

A Call to Prayer.

BOSTON, June 16.—A call to prayer has been issued by the secretaries of the American board of foreign missions, who state that the sudden calamity which has befallen all missionary work in north China and the great peril to the lives of missionaries and native Christians in that land has touched the hearts of all. This call is issued to Congregational churches, but it is understood that the churches of all denominations are invited to respond.

Murder and Suicide.

ONEONTA, N. Y., June 16.—Charles R. Myrick, aged 42 years, of Gilbertsville, shot and instantly killed his wife, 40 years old, at his mother's home at Gilbertsville. Myrick then shot himself in the head, dying instantly.

BRISTOW'S ECONOMY

Reorganization of Cuban Postal Service Saves $110,000.

REDUCTION INCREASES EFFICIENCY.

The Assistant Postmaster General Believes the Expenses Can Be Further Cut Down and the Service Made Nearly Self Supporting.

HAVANA, June 16.—Fourth Assistant Postmaster General Bristow, acting director of posts in Cuba, says he will probably complete his special work in connection with the department so as to be able to leave the island June 23. He has decided upon a definite plan of reorganization, reducing the amount paid to officials to a level with those paid in the United States. The schedule to be adopted will increase salaries in Matanzas, Cardenas and Santa Clara and decrease them in Santiago, Pinar del Rio, Puerto Principe, Sancti Spiritus, Caibarien and Manzanillo. There will be no change in Cienfuegos or Sagua la Grande. The reorganization of these offices will effect a saving of $11,700 a year and possibly more, when the inspectors shall have completed their investigations.

The greatest saving, however, will be effected in the smaller offices, where large salaries have been paid irrespective of the amount of business done. Radical changes will be made in many of these, especially where Americans have been employed and where salaries, ranging from $1,000 to $1,400, are beyond what the receipts justify. Two hundred and eighty of these small offices will be reorganized, with a total annual saving of $39,000, making the total for the island $50,000. This amount, added to reductions formerly made, gives a grand total of $110,000.

Mr. Bristow says the experience of the last two weeks, since these reductions went into force, shows that the department has not suffered the slightest inconvenience. In fact he believes the reduction has added to the efficiency of the clerks and without overworking them. In 1899 miscellaneous expenses amounted to $50,000. Mr. Bristow believes they can be covered with less than $20,000. For instance printing and stationery last year cost $30,000, whereas they should not have cost more than $10,000. In many cases bills were paid twice. Furniture last year cost $20,000. In ordinary years the figures for that item would not exceed $5,000 and would possibly fall below that sum. There was also an expenditure of $16,000 for per diem allowances for employees. This will be entirely done away with.

Beginning with the fiscal year, July 1, there should be a saving of $190,000. Deducting from this $20,000 for the additional transportation of mails, there should be left a net reduction of $160,000. Mr. Bristow believes that reductions in other quarters can be made, thus making the service as nearly self supporting as possible. Last year the gross expenditures were $612,000 and the gross receipts $250,000. Postal receipts amount, at a fair average, to $1,000 a day, and the gross receipts for the year should be $365,000 or $115,000 more than C. F. W. Neely reported.

Special Agents Seibold, Neal, Dolan, Sullivan and Welch, who would have gone out of office on July 1, have been permitted to resign.

On the very eve of the elections the only feature of the struggle in Havana which gives rise to the least interest is the contest for the mayoralty. It is a foregone conclusion that a large majority of the municipal council will be Nationalists. The political parties are much more concerned in the result as to the mayoralty.

New National Banks.

WASHINGTON, June 16. — Mr. Dawes, the comptroller of the currency, has had prepared a statement which shows that during the three months the new financial law has been in effect there have been received 362 applications for the organization of national banks, involving a combined capital of $16,196,000. Banks with a proposed capital of less than $50,000 each numbered 280, and 82 were for banks with capital of $50,000 or over. During the three months the number of banks actually organized was 159, with a combined capital of $8,645,000, 114 having a capital of less than $50,000 each.

Fell Eight Floors and Lives.

PHILADELPHIA, June 16.—George Perry, a slate roofer by trade, residing at 439 North Fourth street, had an almost miraculous escape from instant death yesterday. With a fellow workman he was on the top of a wall that is being torn down at 731 Arch street, when a stringpiece broke, and he fell a distance of eight floors to the ground. In his fall, however, he managed to clutch a rope at the fifth floor and landed without injury save from a falling brick, which gave him a lacerated scalp wound.

Will Guard Taylor.

INDIANAPOLIS, June 16.—Friends of W. S. Taylor of Kentucky who will be of the party going to the Philadelphia convention, which the Kentuckian is expected to join, say that they will see to it that Mr. Taylor is not taken en route and carried to Kentucky by the officers of that state. They declare they will resist to the utmost any attempt to get possession of Taylor and will go prepared to defend him. Mr. Taylor is still in the city and is completing his arrangements to attend the convention.

CONDENSED DISPATCHES.

Rain has fallen for three days continuously in the Darjeeling district of India.

Admiral Dewey declared that he would not accept a nomination for the vice presidency.

James Dunsmuir has accepted the premiership of British Columbia, resigned by Joseph Martin.

The United States legation at Constantinople pressed the porte for a settlement of the indemnity claims.

The native Hawaiians have decided to organize an independent party to oppose both Republicans and Democrats.

A jury in the United States district court awarded Mrs. Phyllis E. Dodge the $64,000 worth of jewelry seized a year ago.

Professor Henry Crew of the Northwestern university announced that all his eclipse plates had been underexposed and were valueless.

PLAINFIELD, N. J., JUNE 16, 1900

READERS of The Press, anticipating leaving Plainfield for a summer vacation, should send their address to the business office. The Press will be forwarded without extra charge.

COMING EVENTS.

June 15—Rev. John G. Paton will speak at the Crescent Avenue Church at 8 p. m.

June 17—Rev. W. A. Credit, D. D., of Philadelphia, will address the Y. M. C. A. meeting at 4:15 p. m. Mrs. George W. Saums will render violin solos.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 6—Y. M. C. A Boys' Camp at Lake Champlain.

One year ago the City Union of King's Daughters received liberal and prompt responses from the appeal for funds with which to carry on the work of the fresh air camp maintained by it for the benefit of poor mothers and babies. This year, however, the appeal for charity for this noble and philanthropic enterprise has met with poor success. The camp was opened yesterday and if it is to be carried on with the success that it deserves, those in charge will have to receive help from some of the benevolent citizens of Plainfield. The efforts of the King's Daughters are undoubtedly appreciated as worthy of aid and encouragement, and the appeal that has been made for assistance should be heartily and quickly responded to, the intending donors remembering that "he who gives quickly gives twice."

Congress will be well represented in the Republican National convention in Philadelphia next week. As chairman of the Republican National executive committee, Senator Hanna will call the convention to order. Senator Wolcott is to be the temporary and Senator Lodge the permanent chairman of the convention, and it is understood that Senator Foraker is to be chairman of the committee on resolutions to frame the National platform. In the list of delegates there are twenty-one Senators—more than two-fifths of the total Republican membership of the United States Senate—eleven Representatives and one Territorial delegate.

In his money-making operations Russell Sage has shown neither fear nor favor to high or low—himself first all the time—and now we are treated to the sight of Uncle Russell even defying the great Empire State. It appears that the State of New York recently built a short railroad, costing $40,000, from the Hudson River State Hospital at Poughkeepsie to connect with a railroad operated by Mr. Sage, so that the cost of getting coal to the institution would be lessened. Now the hospital authorities have summoned Mr. Sage to count on the allegation, despite an agreement, he has so raised the freight rates on his road that the coal costs more than it did before.

New Jersey is one of the two States out of twenty-seven in which Democratic conventions have thus far been held that did not instruct delegates to vote for Col. Bryan as the Presidential nominee in the Kansas City convention. The instructed delegates for the Nebraskan now number 554, which is a majority of 89 of the total vote of the convention. When all the conventions will have been held the majority for Bryan will have been swelled to more than two-thirds.

In the Chicago Tribune Chairman Jones, of the Democratic National committee, appears as author of a signed statement that he believes that Bryan will carry every State that he did in 1896, and Maryland and Kentucky besides. But that would be insufficient to elect Bryan, so Mr. Jones adds that he has hopes of Indiana, Ohio and New York. "The great fight will be in the latter two," he says.

The appropriations for the coming fiscal year made during the recent session of Congress amount to upward of $709,000,000. It is a fact that more than half of the currency in actual circulation among the people—gold, silver and paper—passes through the Treasury once a year in taxes.

It will take a pretty good guesser to tell who the running mate of President McKinley will be.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The influence of the League of American Wheelmen in advancing the good roads movement was never better shown than in the encouragement received by the highway improvement committee in support of its endeavor to secure planks in the Democratic and Republican National platforms. Newspapers, public men, wheelmen, farmers and automobilists agree upon the necessity of making highway improvements a National consideration, and the support is so strong as to make success almost a certainty.—Paterson Press.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

A Trenton correspondent of the Herald says a little piece of history not generally known came out in the course of conversation among some politicians in the State House today. "You know what General Hobart originally wanted, don't you?" said Controller Hancock. "He wanted a place in the Cabinet," he continued, "and Barker Gummere went to Ohio to boom him for the appointment. But when he got there he never opened his mouth about the Cabinet. He found there was a mighty good show for Hobart to make the Vice-Presidency, and Barker tumbled to the situation and jumped in with both feet."

* * * * * *

Senator Kean has received the following attention from the Washington correspondent of the Chicago Record: "A man in evening dress presiding over the United States Senate forms a picture not soon forgotten. Senator Kean, of New Jersey, performed that unusual act the night before the first session of the Fifty-sixth Congress was ended. Settled down in the great, red-brown leather chair of the Vice-President, the millionaire from the mosquito coast 'took it easy,' and gave the impression that he had just strolled in after dinner to toy with the Senate gavel a few moments. When the sturdy, rugged Maine man who was elected to fill the chair after Hobart's death, Senator Frye relieved Senator Kean from the duty of presiding, the contrast was remarked by many in the crowd of spectators, mostly women in pretty summer gowns in the gallery. Mr. Kean was the only Legislator present in evening dress. He is president of a bank, vice-president of the Manhattan Trust Company of New York, and a graduate of Yale. He was in the Lower House for several years, and the Republicans of New Jersey paid him the honor of nominating him for Senator by acclamation."

PARTICULAR MENTION.

Mrs. Burton Jones, of Craig place, is visiting at her former home, Atlanta, for a time.

Clyde Doane, son of Mr. and Mrs. J. Hervey Doane, of LaGrande avenue, is improving from his serious illness.

Dudley S. Miller, of Orchard place, is still confined to his home by illness. His physician thinks that he is improving steadily.

Mr. and Mrs. Herbert Williams, of Elizabeth, have returned home after spending a few days at the home of Joseph E. Morse, of Franklin place.

Miss Agnes B. Freeman, of LaGrande avenue, left yesterday afternoon for Bethlehem, Pa., to attend the closing exercises at Lehigh University from which her brother graduates this year.

New Stations.

The Central Railroad Company is now engaged in building new freight and passenger stations at Annandale, Lebanon and Asbury.

Local News on Pages 2 and 3.

TRY GRAIN-O! TRY GRAIN-O!

Ask your Grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. ¼ the price of coffee. 15c. and 25c. per package. Sold by all grocers

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style glose-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY, 122 East Front Street.

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, June 16—Yesterday was School Day in the borough schools and proper exercises for the observance of the day were held in the Whittier School. The chapel was filled with relatives and friends of the scholars who are interested in their work. The exercises were opened with a prayer by Rev. S. K. Doolittle, followed by recitations by Harry Giddis, Kathie Sampson and Ethel Gaskill. A concert recitation, entitled "The One-Horse Chaise," was given by the seventh and eighth grades, after which Ellen Shively sang a song. Two dialogues were given, the first by Russel Burdick and Milton Sutphen, and the second by Grover Kratzel, Paul Brakeley and Arthur Titsworth. An illustrated lesson of the Pollard system of teaching was shown by Miss Fulper. Brief remarks were made by County Superintendent Willis, Rev. Frank Fletcher and Superintendent Meseroll. Every scholar who had missed not more than ten days from school during the year was presented with a certificate. There were about seventy of the scholars who received one. At the conclusion of the exercises refreshments were served to all present.

The residents living in the vicinity of North and Lincoln avenues are very indignant over the action of some one who dumped a load of tin cans and broken glass on that corner. They do not want a dumping ground in front of their residences.

A most delightful time was spent last evening by those who attended the sociable given on the parsonage grounds of the Presbyterian church. The night was perfect and there was a large attendance. Quite a sum will be realized from the affair.

The office of W. H. Cole looked quite forlorn and deserted yesterday. The appearance was caused by Mr. Cole's being called to Plainfield on important business.

Mr. and Mrs. William E. Terry returned home today from Lake Hopatcong, where they have been sojourning for the past two weeks.

Mrs. H. L. Terry and daughter, of Westfield, visited her mother, Mrs. Emily Apgar, of Front street, yesterday.

Mrs. Alvah Gray has returned home after a pleasant visit with relatives at Californ and German Valley.

The members of the fire department had a "jolly" time at the "wash" which was held last evening.

Miss Josephine Dunham is visiting friends in Westfield.

Today is ladies day at Schephlin's bowling green.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 16.—Herbert Casterline and Raymond Whitford were throwing stones at a mark yesterday when one of the missiles struck the former in the eye, cutting it quite badly.

By order of the executors, C. E. Kelley will sell at auction next Thursday fifty acres of timothy hay and twelve acres of wheat at the farm of the late Ephraim Randolph, on the Stelton road.

The bank along the pool below the dam was lined all day yesterday with fishermen, some of whom made some good catches of carp and eels.

Rev. Martin Sindall has fully recovered and is now able to be out after his recent illness.

Mrs. C. T. Rogers is visiting friends in Asbury Park.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 16—The annual Decoration Day of the Knights of Pythias will be observed by Good Will Lodge, No. 101, tomorrow afternoon. A number of visiting Knights are expected to participate in the exercises, which will be held as near 3:30 o'clock as possible. The members and their guests will enjoy a collation at Hand's Hotel at the close of the exercises.

Rev. G. M. Shott will take for his text for his sermon tomorrow morning: "Resting Under the Shadow." In the evening: "Power to Become Sons of God."

Rev. Mr. Smith, presiding elder for this district, will occupy the pulpit in the Methodist church tomorrow morning.

The Children's Day exercises of the Baptist Sunday-school will be held on the last Sunday morning in June.

The Misses Squires have left for their home in Rahway, where they will spend part of their vacation.

Twilight Council, Jr. O. U. A. M., held a large and interesting meeting in their rooms last evening.

Mrs. H. M. Stamets, of Westfield, was the guest of Mrs. James Buckley yesterday.

Mrs. Albert Darby, of Plainfield, was the guest of her mother yesterday.

SOMERVILLE.

(Special Correspondence to The Press.)

Somerville, June 16.—The commencement exercises of the Somerville High School will be held in the Second Reformed church Thursday evening of next week. The graduates and the parts they will take on the programme are as follows: Edith Galpin, essay, "The Value of Literature;" Helen Nevius, recitation, "Daniel Periton's Ride;" Katharine Marie Williams, essay, "Uncle Sam's Farm Fence;" Mary Louise Kuhn, recitation, "When Angry, Count a Hundred;" Sara Coates Voorhees, essay, "Lady Macbeth;" Elizabeth Kirkpatrick Vanderveer, essay, "Our Class;" Elizabeth Sherwin Huff, recitation, "Uncle Remus at the Telephone;" Louise Margaretha Elling, essay, (valedictory), "Doe ye Nexte Thynge."

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 16.—There is strong talk of three more of the small houses being erected this season on Church and Third streets.

The school closed yesterday so the little ones are free for about eleven weeks. It is to be hoped the new building will be ready for the fall term.

Stages are being run every hour from Front street to the Red Men's picnic at Ryno's Park.

Mr. Young is progresing nicely with the census enumeration.

EARLY INTELLIGENCE.

—Tonight, seafood of the finest at Roger's; prices will be like giving it away.

—John H. French, of Brooklyn, is having his building on West Front street painted and otherwise improved.

—The June entertainment of the Young Women's Club will be held Monday at 8 o'clock at their rooms, 465 West Front street.

—L. W. Randolph, the West Front street prescription druggist, has ordered one thousand mammoth palm leaf fans from Japan, which will be received in about a week. They are for free distribution.

—Lang & Illsley will offer for sale Emery's Hotel, Scotch Plains, on Monday, at 1:30 p. m., 22 head of extra fine milch cows. They have 18 for dairymen and four specially suitable for private family use.

PARTICULAR MENTION.

C. E. Hepburn and wife, of East Second street, will leave Monday for Boston, where they will visit relatives. They will go from New York by boat.

Dr. Credit, who will address the Y. M. C. A. meeting tomorrow, is pastor of the Cherry Street Colored Baptist church, of Philadelphia, and the successor to Dr. Miller who was pastor of that church for thirty-three years.

Favors a Military Road.

Boulevard Commissioner Lewis, of Hudson county, said yesterday that he had decided to advocate the construction of a military road, 150 feet wide, from Jersey City to Camden, one-half the cost to be borne by the Government, one quarter by the State and one-quarter by the counties. He said it would be valuable for training the National Guardsmen in long marches.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph's drug store.

Mrs. E. P. Williams' Brother Dead.

N. T. Boulden, brother of Mrs. E.P. Williams, of West Seventh street, died suddenly at Minneapolis on Thursday, and the burial will take place at Newark, Del. Mr. Boulden was contracting agent for the Erie Railroad at Chicago.

Summer Privilege.

The popular "summer privilege" plan of the Public Library will be continued this year. If you are going out of town for a few weeks this summer, and want reading matter to take with you, it will be to your advantage to inquire as to the summer privilege.

THE PULPIT SUBJECTS.

SERVICES IN THE LOCAL CHURCHES TOMORROW.

Danish Lutheran church, Y. M. C. A.—7:45 p. m., preaching by Rev. C. Mengers, of Oxford, N. J.

Crosstown Trolley.

It was stated in Westfield last evening on good authority that the Westfield and Elizabeth Street Railway Company may not intersect the Springfield line at Broad and Elm streets, but may do so either at Dudley avenue, or—should consents fail—at the head of the Elm street extension, thence, by private right of way, through lands of Peckham and Clark, crossing Highland avenue, and gaining Mountain avenue just beyond Joseph Perry's.

Struck by a Train at Asbury.

(Special to The Daily Press.)

Phillipsburg, June 16—Jacob Reigel was struck by a freight train on the Central road, near Asbury yesterday. He was badly cut about the face and head and his left arm was broken. He was brought to this place and taken to the Easton hospital.

Hessian Fly at Work.

Reports are now coming in from all over Hunterdon county of the disastrous work of the Hessian fly. In some sections farmers are losing nearly their entire crop.

Beware of Ointments for Catarrh that contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle. Hall's Family Pills are the best.

Local News on Pages 2 and 3

JUST A TASTE

of our Butter is enough. Henceforth we have you as a customer.

We carry three different grades of butter, each of which has its special merits.

Our Rockdale Print Butter at 26 cents per pound, is the best on earth. It has the rich, delicate flavor of the finest cream and for table use cannot be surpassed.

Some of the cheaper grades of butter sold elsewhere are often tasteless. Our lowest priced goods are of excellent flavor.

Lokal-Nachrichten aus der alten Heimath.

Provinz Sachsen.

Magdeburg. Hierorts haben der Schlosser Hermann Wahle und seine Frau aus Nahrungssorgen gemeinsam Selbstmord begangen.

Halle. Die hiesige Polizei verhaftete jüngst einen 32 Jahre alten Kerl Namens Kellner aus Bernburg, der hierorts eine große Anzahl gefälschte Koupons in Verkehr gebracht hatte. Der Betreffende operirte in der Weise, daß er Koupons über einfache Beträge einkaufte. Diese wandelte er durch Vordrucken einer Zahl in höhere Beträge um und gab sie dann bei kleineren Geschäftsleuten beim Einkaufe von Kleinigkeiten aus. Kellner war erst im vorigen Jahre nach Verbüßung einer siebenjährigen Zuchthausstrafe aus der Strafanstalt entlassen worden.

Naumburg. Anhier hat die Ehefrau des Postillons Herold ihre drei Kinder und sich selbst ertränkt.

Provinz Schlesien.

Görlitz. Aus Lebensüberdruß hat sich die Wittwe des verstorbenen Strafanstalts-Aufsehers Wiesenhütter mittelst Kohlengas vergiftet. Die Unglückliche starb während ihres Transportes nach dem Krankenhause.

Hirschberg. Die Mainachtfröste haben hier ganz bedeutenden Schaden angerichtet.

Liegnitz. Der Steuerrath Schuchard, Leiter des hiesigen Hauptsteueramtes, stürzte beim Radfahren und starb in Folge innerer Verletzungen.

Provinz Schleswig-Holstein.

Schleswig. In letzter Instanz entschied das Oberverwaltungsgericht, daß die Nordschleswigschen Freigemeindekirchen, die vor drei Jahren geschlossen wurden, freizugeben sind.

Lauenburg. In dem 176 Einwohner zählenden Dörfchen Dalldorf sind durch eine Feuersbrunst 23 Gebäude eingeäschert worden.

Provinz Westfalen.

Dortmund. Das Reichsgericht erhob Anklage wegen Hochverraths gegen die Buchdruckerei Malerowick u. Schneider-Kolenda hier. Die Angeklagten wurden nach Leipzig abgeführt.

Hagen. Letzthin wurde der Doppel-Raubmörder Max Kreitler auf dem Hofe des hiesigen Gerichtsgefängnisses hingerichtet. Kreitler hatte am 24. September 1898 zu Milspe den Dreher Heinrich Hofacker und am 22. Juli 1899 ebendaselbst den Fabrikarbeiter Egen ermordet und beraubt und war vom hiesigen Schwurgericht am 8. Februar d. J. zum Tode verurtheilt worden.

Sachsen.

Dresden. Dem für das 13. deutsche Bundesschießen in Dresden geplanten historischen Festzuge, der sich Sonntag, den 8. Juli, Mittags, durch die Straßen der Stadt nach dem Festplatze bewegen wird, liegt die Idee zu Grunde, daß Kurfürst Johann Georg der Dritte von Sachsen nach der siegreichen Türkenschlacht bei Wien 1683 an der Spitze seiner tapferen Truppen in seine Residenz Dresden einzieht.—Anhier ist der frühere Kommerzienrath Hopffe gestorben, der im vorigen Jahre zu einer mehrjährigen Gefängnißstrafe verurtheilt wurde, weil er als Schatzmeister des Albert-Vereins, eines unter dem Protektorate der Königin von Sachsen stehenden Wohlthätigkeitsvereins, 200,000 Mark Vereinsgelder unterschlagen hatte. Hopffe war wegen seines Gesundheitszustandes kürzlich aus der Strafanstalt vorläufig entlassen worden.

Krimmitschau. Um die Rentabilität unserer überaus ergiebigen und vortrefflichen Wasserleitung zu fördern, hat der Rath beschlossen, größeren Abnehmern Rabatt zu gewähren, und zwar soll dieser betragen bei einer Mindestabnahme von 40 Kubikmetern 10 Prozent, bei 600 Kubikmetern 15 Prozent und bei 1000 Kubikmetern 25 Prozent.

Leipzig. Die verwittwete Kommissionsrath Kahnt vermachte unserer städtischen Armenanstalt ein Kapital von 8000 Mark.—Dem Händler Grunewald wurden durch bisher unentdeckt gebliebene Einbrecher 57,000 Mark in Werthpapieren und Baargeld entwendet.

Markneukirchen. Die erste Bismarck-Säule im sächsischen Voigtlande wurde unlängst dahier eingeweiht.

Olbernhau. Im Olbernhauer Staatsforste wurde der 1855 in Nepomuck, Böhmen, geborene Handarbeiter Albert Primas todt aufgefunden. Die Leiche war bereits stark verwest und von Raubzeug angefressen. Primas hatte bis Anfang Dezember v. J. in Blumenau in Arbeit gestanden und war vom 12. bis 15. Dezember im hiesigen Krankenhause untergebracht. Es ist anzunehmen, daß Primas, der dem Branntweintrunke sehr ergeben gewesen, nach seiner Entlassung aus dem Krankenhause sich nach Böhmen begeben wollte, sich unterwegs ermattet niedergesetzt hat und dann erfroren ist.

The purchasing agent for one of the large brass rolling mills in Connecticut had a "mighty hard time" with his stomach. "I used to get up in the morning feeling 150 years old," he said, "and at meal time I felt faint, but still I had an insatiable appetite. I was cross and irritable. I didn't take any interest in business or anything else, and finally I got so bad I had the jaundice and was as yellow as sulphur. I was getting to be a perfect wreck and I didn't care so very much whether I lived or died. It was at this point that I began using Ripans Tabules, but before I had used three dozen my natural color began to return. All my stomach trouble has disappeared and now I consider myself well."

WANTED:—A case of bad health that R·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·P·A·N·S on the package and accept no substitute. SCHOOL AND CHURCH.

The University of Berlin will soon have three chairs of anthropology and ethnology.

A training college for Sunday school teachers—the first of its kind in England—has been opened at Handsworth, Birmingham.

In 1806 James Watt built an organ for St. Andrew's church, Glasgow, which he attended. There was considerable opposition to its use, and many caricatures were published concerning it.

Women students are in future to be admitted to such courses in the medical department of Owens' college, Manchester, England, as will enable them to qualify for a medical degree.

Rev. T. H. James, who has been preaching in Oakley, Kan., on a $500 salary, recently inherited a fortune from relatives in England, and intends to devote $500,000 to the endowment of a college and hospital in Oklahoma.

A school for employes has been started in one of the shops of the United States Cast-Iron Pipe & Foundry company, in Cincinnati. The company has fitted up a room with drawing apparatus, and instruction will be given in the company's time.

The total number of lockers in use in the men's gymnasium of the University of Michigan last year was 1,192. With the present year the number has increased to 1,330. These figures indicate the minimum number of students who use the gymnasium at least as often as once a week.

The Volta school, in Naples, has 400 scholars. They provide their own tools and go through courses in electricity, chemistry and mechanics. The pupils pay a nominal fee, and the institution is assisted by the government and by the city. It is said that it is easy to obtain employment on leaving the schools.

HOUSEHOLD BITS.

Small Items of Economy Which Help to Reduce the General Outlay.

The "stitch in time" saves many a nickel as well as the proverbial nine stitches.

Clothing lasts far longer if the washboard is discarded and borax, naphtha soap or some other harmless detergent is used in the family washing, says Farm and Fireside.

White clothes can be cleansed precisely as well without boiling as with, and the former is a decided saving of fuel.

Learn the latest up-to-date methods of making toothsome and attractive dishes out of the very least "left-over" of meat or vegetables.

Don't stay in any of the old ruts of cooking. It's expensive. There is almost no end of excellent dishes that can be made from cheapest cuts of meat, and delicious soups can be had without the outlay of a cent.

Sickness in the family makes an astonishing drain on the muckles. Avoid it by learning the nutritive value of different foods, and then provide a wholesome and varied diet for your family.

Lay in a supply of canned vegetables, and during the late winter and early spring depend upon these, with lean meats, fish, eggs and milk, and taboo fat meats, pies and cakes.

Prune Jelly.

Make a sirup with a pint of water and six ounces of sugar; add the juice of an orange and the grated peel of a lemon. Wash a pound of prunes in boiling water and then stew them in the sirup until they are quite tender. Take them out, and after removing the stones, pass them through a sieve. Add an ounce of gelatin which has been soaked in a little cold water to the sirup. When it is dissolved, pour in a few drops of carmine and strain it through muslin. Mix the sieved prunes and the sirup together, and when nearly cold pour into a mold which has been rinsed with cold water. Serve the jelly surrounded by custard or cream.—Philadelphia Press.

WE HAVE THE BEST EQUIPPED.... Ice Cream and Soda Water ACCOMMODATIONS IN PLAINFIELD, AND FEEL SURE IF YOU WOULD GIVE OUR GOODS A FAIR TRIAL YOU WILL ALWAYS PATRONIZE US • • OUR CHOCOLATES, BON-BONS AND CARAMELS CANNOT BE EXCELLED. Our trade mark Wieda's on all chocolates is our guarantee. 144 West Front St. Phone. 1133.

THE "Know How" —IN— PAPER HANGING is what we make no charge for. You pay for the materials and the labor—nothing more. Our paper hangers are men who "KNOW HOW" to measure a room—"KNOW HOW" to size it—"KNOW HOW" to cut, match and hang the paper. They know their business. Its good policy to intrust your work in our hands—we'll see that you get a good job. That's what you want; that's just what you'll get if we do it. You can surely find just what you want among our many choice patterns—all the very latest styles.

MRS. CRONJE'S HEROISM.

The Story of Her Faithfulness During the Dark Days of Defeat.

BY CALLA ROBELY HAINES.

A rough exterior is often supposed to conceal a warm heart. This is not always true, but in the case of Mme. Cronje, the wife of the Boer commander, is an instance which proves that loyalty may be deepest where physical attractions are least.

British war correspondents have not hesitated to poke fun at the uncouth appearance of Mrs. Cronje and "the dirty black dress" that she wore when captured with the general at Paardeberg. They ignore the fact that she stood by her husband when he suffered for the republic, and her devotion to a brave man and a free flag seems not to have appealed to their gallantry.

Imagine, if you can, the condition under which Mme. Cronje existed during the ten days previous to the surrender. The Boers were obliged to burrow in the river bed like rabbits to protect themselves from the lyddite shells. It was only when Lord Roberts' farthermost force planted cannons on the kopje to the eastward of the Boer trenches and the guns so slaughtered Cronje's troops that he, with his remaining forces, had to surrender that the condition of the laager was disclosed.

Among the wreckage and confusion which it is impossible to describe, filth and stench from dead horses and oxen and fallen warriors buried only six inches beneath the soil did this brave woman live and at the peril of her life stand firmly at the side of her husband, cooking his meals, attending to his needs and ever urging him on in the desperate struggle. Hidden in a hole actually dug into the side of the river bank, she dared not venture out even to the wagons where the usual cooking utensils were kept. At the entrance to the smoke filled cave, over a small fire made from bits of wood which she herself had gathered in at arm's length from her shelter, she cooked the frugal meals, using a spade as a frying pan.

When danger seemed least, the brave little woman, together with the other women of the camp, made futile efforts to aid the dying and wounded who lay scattered about the field, only to be obliged to retire to the sheltering cave

MR. AND MRS. CRONJE.
[From a sketch made after the Boer surrender at Paardeberg.]

when the lyddite shells burst in the vicinity, splitting up rocks which shot in the air as though disturbed by some volcanic eruption, churning up the soil and flinging earth and Boers about like feathers in a gale.

Mme. Cronje suffered all the pangs of war, for in this very siege she lost her son. His life might have been saved had surgical treatment been at hand. Mme. Cronje did all that was possible for a mother to do in those last moments. With her own hands she marked the burial place of her boy that she might later perhaps return and find the spot.

The change from the comforts of home on a farm to life in camp has left marks on Mme. Cronje which will ever remind her of the hardships she has suffered. She is esentially a home woman, and she loved the homestead at Potchefstroom. The 12,000 acres that comprise the farm are for the most part unfenced and untilled, but the low one story stone building was all that could be desired for comfort. The inevitable stoop in front was the scene of many councils and happy hours of uninterrupted leisure. The six room house was unusually well furnished for a farmer of the Boschveldt.

There Mrs. Cronje lived with her husband very much in the patriarchal style, surrounded by their children, servants and dependents. Mrs. Cronje is about 60 years old. In private life she is very unassuming, and her manners, to many who have met her, possess a certain charm. Her face is pleasant and motherly to look upon with an expression of serious kindness.

She has a sharp wit and is, according to the Boer idea, a very hospitable hostess. Like Mrs. Kruger, she is said to have advised her husband in many of his military plans, and, like President Kruger, Cronje accepted her counsel, believing that two heads are better than one, especially in time of war. Though mild in manner, Mrs. Cronje joined her husband in the hatred he bears for the English, but she is nevertheless a strange mixture of simplicity and bravery.

Mme. Cronje is spoken of by the London Daily Review as a "weazened, miserable looking old woman who wipes her mouth with the back of her hand at the close of her meals." Her extra wardrobe, the chief article of which was a black silk dress commandeered from Lady Sarah Wilson, is described as having been contained in a pillowcase on her arrival at Modder river.

Such conditions as these are surely not elevating, but what are such trifles compared to the love which made it possible for Mme. Cronje to face the dangers of warfare and share the trials of camp life that she might be true to the vows made years before? She administered where and when it was possible to her husband's troops, as well as alleviated the miseries that are a part of a leader's life while in the field.

Before the war Mrs. Cronje was more like other Boer women—robust and stout—but camp life has done away with her physical attractions, and she now shows the ravages of the hardships experienced at the general's side.

After such faithfulness as she had shown, what wonder that, when her husband and Lord Roberts were conferring after the surrender, he should strenuously beg that he might not be separated from his wife!

FEMININE GOSSIP.

Notes About the Doings of Women All Over the Land.

The pro-Boer element in California has been idolizing Miss Sannie Kruger,

the niece of Oom Paul's wife and of Oom Paul himself. She has been in San Francisco a year, and her people will not allow her to return to the Transvaal until the troubles are over either for good or for the worse. She would never have left home if she had had the slightest inkling of the coming conflict, for, as she says, the Boer women are excellent shots, and, if worse comes to worse, they, too, will go into the trenches and fight by the side of the men. Miss Kruger is herself a splendid shot. She is highly accomplished, speaking several languages.

One of the interesting features of the United States treasury department is the work of the blind typewriters. It is said that their work is equal to that of the best operators, and as much is expected of them in dictation and copying as from those that have their eyesight. The services of these blind clerks are so satisfactory that it is proposed to give opportunity to many more next year. There are only three or four now employed.

Miss Eliza Allen Starr, Chicago's famous writer on Christian art and kindred subjects, has been honored by Pope Leo. In recognition of her latest work, "The Three Archangels and Guardian Angels In Art," a beautiful medallion, with the papal benediction, has been forwarded to her. The honor is especially great inasmuch as women have rarely been the recipients of such highly valued tokens of appreciation.

At last the servant girl problem has been solved. At the Indian school near Riverdale, Cal., the Indian women who are too uncivilized to be "above" the kitchen are being trained for household service. They make admirable servants, and already the demand for this help is greater than the supply.

While Miss Phebe Palmer, a society girl of Philadelphia, was recently in Atlantic City she was fascinated by and soon made friends with an African lion cub, and every day until her departure for home she made him a social visit, holding him in her lap and stroking him without fear. Although such procedure is against the rules, the keeper at the zoological gardens permitted the fair lover of lions to take her favorite out into the open air and be photographed.

It is told of Mrs. McKinley that one never finds her without her crocheting. This gracious lady is always working for some charitable cause. Her favorite work is making slippers. Since she began making them she has completed 4,000 pairs, some of which have added as much as $50 to the funds at charitable fairs.

The eldest child of Queen Victoria, Empress Frederick of Germany, is said to have secretly married Count Saekctorf. She was the Princess Victoria Augusta.

The girls of a Chicago high school have organized a baseball team that will tour the state.

The youngest member of the Chicago Woman's club is Miss Priscilla Minerva Hannah Harriet Juliette Marie Bessie Georgiana Bianca Marguerita Daisy Phyllis Estelle Plummer of Chicago. She is the youngest descendant in the United States of John Alden and Priscilla Mullins and is less than a month old.

LUCY LAWN.

Story of "Prince Otto" by Stevenson on the Stage

It Is Being Admirably Presented by Otis Skinner —Other Dramatic Notes

IT IS always gratifying to find your own private opinion identical with that of an authority; it increases confidence in and respect for yourself. Away back in those almost forgotten days before Kipling was a name to conjure by, we read a little tale in Harper's Weekly, "Without Benefit of Clergy," and were strongly impressed by it. When we came to the end we looked back at the beginning for the name of the author and our eyes were met by the peculiar combination and words: R-u-d-y-a-r-d K-i-p-l-i-n-g. We didn't know how to call it, but we made up our minds to keep on the lookout for articles by this same Rudyard Kipling. And before long we found the whole world was doing the same thing.

Another somewhat similar instance; We had read Stevenson's essays, his poems, tales of the sea, of reckless adventurers, wild, lawless men; but among them all we discovered nothing so charming, so real and altogether satisfactory as his "Prince Otto," the tale of a pretty German principality; and now we are told it was, from a dramatic standpoint, the author's favorite. So you see again we are pleased with ourself.

Mr. Otis Skinner has realized the dramatic value of the tale, and is now presenting at McVicker's theater in Chicago a stage production of "Prince Otto," himself playing the part of prince. And such a charming, incorrupt prince as he is one would be very happy to meet in real life. Prince Otto is no proud and haughty person, but a manly, healthy man, fond of his horse and his dog; perhaps a trifle too fond of them, and of long solitary rides in the forests of his domains, thereby omitting some of the duties of his position. And while he is off indulging his simple tastes, at his court intrigue and schemes multiply; and gradually power slips from his willing hands into those of his ambitious wife and an unscrupulous man, the prime minister. This latter personage is one of the best-drawn characters in the book, and the stage rendering, too, gives him a prominent place. A fat, unctuous, plotting creature, equally fond of politics and women, and with no respect for either. One of the most loathsome things in fiction.

Prince Otto is handsome and gay and kind, with certain high principles he does not talk much about, but believes in and adheres to steadily. He is not so very much in love with his princess, whom he married for state reasons, but he likes her and is very indulgent toward her. She is high-spirited and ambitious, and looks with contempt on her contented, easy-going husband who has turned everything over to her; but finds in the prime minister one who professes sympathy for her aspirations. Together they work, the foxy old statesman and the young wife, and Otto whistles and sings, rides and walks up and down his land in blissful ignorance of a gathering storm. At the court two, a man and a woman, the former a friend of Otto and the latter a flame of the prime minister, look on and see the drift of affairs; and both would like to warn and save the unconscious prince, though neither dare hint of the danger the princess is in. The friend attempts to warn him, the lady tries to make love to him to make up for the indifference of his wife, but neither meets with much success.

No thought of love for the prime minister enters the mind of the haughty princess; he is to her a tool, a repulsive but useful creature. But his vanity is so great he does not appreciate her royal highness' attitude, thinks it but a question of time before she will fall a victim to his charms. He is undeceived before long. In the fourth act of the play the prime minister introduces into his talk on politics and plots some clumsy love making. At first the princess follows him blindly, but when his speech and action become openly insulting, with passionate word and act, she gives him an answer. She tells him her disgust, her hatred, and when he appears unconvinced she uses a dagger taken from a stand of arms conveniently near.

The prime minister is severely wounded and falls to the foot of the stairs. The noise is heard by the prince and he rushes in, followed almost immediately by the guards. They are about to arrest the princess, but the prince, who at a glance has taken in the situation, says he is the guilty one, and is carried away to be imprisoned in a fortress. Of course the prince finds out he madly loves his wife, and she makes the same interesting discovery in regard to her feelings for him, and they live happy ever after.

Mr. Skinner has very carefully looked out for the details in the stage setting of "Prince Otto," and we are given some very good German house interiors and forest scenes. When the curtain rises we find the prince seeking refuge in the home of a peasant farmer. The big stove with the dinner cooking away on it, the Delft dishes, the dark oak of the woodwork, the blue tiling, the rows of beer steins, all make a pleasant picture of homely comfort. The play is in five acts, and in all one feels the air of reality, one is carried away from the dirt and mud of Chicago to the green forests and fresh uplands of Prince Otto's German principality. Otis Skinner, who perhaps stands at the head of his profession in the line of portrayal of romantic characters, gives us, as we have said before, a very adorable prince; and his production of "Prince Otto" is proving a strong drawing-card at McVicker's.

OTIS SKINNER AS "PRINCE OTTO."

The great artists of Europe have been in Chicago the past week, and have given us of the best in the way of music and the drama; Paderewski at the Auditorium, and Terry and Irving at Powers'. We trust the benefits have been mutual, though we confess it seems hopelessly mercenary to weigh pleasures such as these in the balance with dollars and cents. But 'tis the way of the world, and we belong with the average men. Paderewski will take home with him, proceeds from his tour in the United States, Mexico and Canada, $200,000, a fair earning for five months. Irving and Terry, it is said, in this year's American tour will not fall behind the harvest they reaped in 1893, when their season's receipts were $400,000.

And little Sembrich, she of the bird-like voice and movements, has done pretty well for a woman, $95,000 in six months. Next month this popular prima donna starts for her home in Dresden, but expects to come back in December. Before her return, she is expected to fulfill engagements in St. Petersburg, Berlin and Vienna.

Miss Maude Adams, who has been making a farewell tour with "The Little Minister," sails early in May for Europe, to be gone a month. Miss Adams will not appear again till October, when she will be seen in "L'Aiglon," the new play Sarah Bernhardt is giving in Paris. It seems a far cry from "The Little Minister" to a Bernhardt play, but it may be we shall find Miss Adams equal to it. Why Charles Frohman should have chosen a play written for the French tragedy queen as a fitting one for our little American actress, as yet we do not see. However, we may. Miss Adams has appeared over 800 times in "The Little Minister," and it is reasonable to suppose something entirely different would be a welcome change.

THE ASTROLOGER.

Three Troublesome Clients.

Says an old bachelor lawyer: "The three most troublesome clients I ever had were a young lady who wanted to marry, a woman who wanted a divorce and a spinster who didn't know what she wanted."—Chicago Daily News.

AMBASSADOR WHITE.

His Defense of the American Meat Industry Stamps Him One of the Ablest of Diplomats.

Andrew D. White, our minister to Germany has proved himself a valiant defender of all American interests in the Teutonic empire. Just now he is distinguished himself by his courageous battle for the American meat industry, threatened with hostile legislation. Minister White is known as an "educator, historian and diplomat." His diplomatic career commenced at St. Petersburg, where he was an attache of the American legation. He aided in the founding of Cornell university and was its president for 20 years. During this time President Grant made him a commissioner to investigate the proposed annexation of San Domingo. He favored annexation. President Hayes in 1879 appointed Mr. White minister to Germany, and he remained at Berlin two years. After this, giving himself entirely to literary work and travel, Mr. White found in 1897 that the government again desired his services. President Cleveland appointed him as one of the commissioners to investigate the Venezuelan boundary dispute. President McKinley further honored him by making him ambassador to Germany. His services to this government at Berlin during the Spanish-American war were of incalculable value. He speaks German and French as readily as he does English.

ANDREW D. WHITE.
(Ambassador of the United States to the Court of Berlin.)

SENEGALESE RIFLEMEN.

The French Colonial Troops That Took Possession of Insalah Oasis in North Africa.

The occupation of the Insalah oasis by the column of French troops composed of the foreign legion and the Senegalese riflemen has called forth a protest from the sultan of Morocco, but no one in Paris imagines that any serious consequences will ensue. The frontier between Algeria and Morocco is intentionally left undefined. France has often had trouble with Morocco, almost invariably caused by the occupation of villages in the vicinity of the border by French troops. M. Flamand, chief of the mission which took possession of Insalah, says that the question of the union of the Sahara to Algeria has been advanced 30 years by the present occupation, and that it will be settled by 1903. The French government has only to establish intermediary stations, one in the direction of Timbuctoo and the other in that of Insalah, for the whole thing to be accomplished. Protests from France's neighbors in Africa may be expected, but at the Quai d'Orsay it is thought that this will make no difference in the eventual result. M. Flamand is opposed on principle to the extension of France's colonial domain, and he considers that it would be better if the possessions already won were organized before the republic starts in search of new territory. But in his opinion France would be guilty of a serious error if she were to suffer the Morocco question to drag on when she can now settle it once for all to her own advantage.

SENEGALESE RIFLEMEN.
(The Bravest Body of Men in the French Colonial Force.)

The accompanying picture from the New York Tribune shows the Senegalese riflemen who in March made a triumphal entry into the Kesbah of the Bajouda at Insalah. This corps is composed of well-trained Senegalese and is considered a remarkably efficient body of men.

Essays Written to Order.

A western firm claims to have been in the business of supplying graduating essays for 21 years. Its price list is as follows: High school orations and essays, $3 to $8; college essays, orations and debates, $3 to $15; political speeches, $10 to $30; lectures, $10 and upward; sermons, from 50 cents to $25.

This Is Hard to Believe.

A faster says that the discomforts of living without eating for several weeks are not serious, and after the first week of fasting they are hardly noticeable.

The Joys and Sorrows of a Messenger Boy in CHICAGO

The modern messenger boy is the outcome of a startling metamorphosis. There is cause for feminine exultation in the knowledge that his higher development is directly traceable to the versatile influence of the new woman. It is manifestly the new woman's privilege to smile in conscious superiority when she reflects upon the bungling of men who have tried their hands at the cultivation of this one-time plodding and circumscribed carrier of bouquets and masculine explanations to expectant wives—messages affirming that their busy writers were absolutely obliged to stay down-town to meet a man! Under the compelling touch of feminine influence the messenger boy has emerged from this chrysalis state of servitude with swift, mercurial wings. His zone of usefulness now encircles a greater variety of accomplishments than does that of any other being on earth—save, of course, the new woman!

Comes Around the Corner Suddenly.

However, it is possible that the masculine mind may get a grain of consolation from the observation that, during the transforming process, the new woman has learned a few things, too. The recent experience of a fair matron of Lake View may be taken as a case in point. On a certain rainy, disagreeable day she sent in a hurried call for an A. D. T. messenger. Now it is well known that, in the down-town districts, this action is quickly rewarded by the appearance of a messenger in uniform. He usually comes suddenly around the corner where he has apparently been lying in wait to do your particular errand. He approaches with more or less haste—according to the disposition of the boy—and is at your service for a trifling sum. This particular messenger, however, was long in reaching Chicago's northern suburb, and when he arrived he received his instructions with no apparent emotion beyond his accustomed stoicism save, indeed, a very slight quizzical puckering of the lips. The meaning of the puckering did not come to the mistress until she was asked to contribute 45 cents for the boy's services, and learned that he had come several miles to procure for her—a pint of cream!

The Boy and the Woman.

It is apparent that Chicago messenger boys as a class are creatures of the emancipated sort. They evince marked wisdom as to which side of their bread the butter is on, when there is any butter. Having suffered many things of many men they turn only too willingly to the duties imposed upon them by the new woman. As a rule they are loth to complain, even though some of their tasks are galling to inherited masculine prejudices. There are things, however, which no self-respecting messenger may continue indefinitely to endure.

Being "It" All the Time.

It appears that a certain boy was once called out and did not return for several hours. When he put in his appearance, however, he produced the correct amount of money for his time, and no questions were asked. At the same hour on the following day, and, in fact, on several consecutive days he received other calls from the same party, and returned each day with pay for several hours' time. Finally there came a day when he rebelled. He went to the superintendent with the words:

"Boss, I wish you'd send some other kid in my place."

"Well, what's the matter now?" was the reply.

"D'want to go."

The superintendent questioned him closely, but could get nothing further out of him, and said:

"Guess you'll have to stand for it, sonny."

"I've been called out every day for a week to play with five rich little doll-baby girls. I'm up to wheeling babies and takin' poodles for an airin', but when it comes t' bein' 'It' all the time—there's where I duck!"

Attends Theatres for Pay.

Since the new woman came to the rescue of the city messenger there is no mistake in the observation that the latter has lived upon "the fat of the land." Also, as concerning the new woman and the modern messenger, it is obvious that the arrangement is mutually agreeable. Now, the husband, who is too busy to go home nights and contribute to the pleasures of the wife of his own bosom, is likely to find her, if he takes the trouble to look into the matter, at her favorite theater in company with the child of her latest adoption (or rather hire), who is no other than the inevitable messenger boy. The latter takes it all stoically. Long training in his profession enables him to absorb a good play, and even a hearty supper afterwards, with the air of a philosopher (or of a hackman accepting his fee), provided, of course, he is assured of the full pay for his time. Work of this nature has not infrequently been taken for idleness by those not acquainted with the particular circumstances of the case.

He Is Working by the Hour.

For example, a certain boy, who was called upon to attend a theater with one of our modern Eves, concluded (quite naturally, it is conceded) that in order to meet the particular requirements of his position as theater escort, he should rigorously observe the popular custom by absenting himself during the periods between the acts. Unfortunately, the boy's superintendent chanced along during one of these "airings," and the boy was informed that he was not hired to "hang around theaters." The boy replied:

"I'm working for the company now."

"Who are you working for, may I ask?" replied the superintendent.

"I'm workin'" responded the boy, with some spirit, "for a lady in here who's payin' by the hour."

Sure enough, the boy returned to the office with the correct change for his time, and delivered the money with a wink at a group of his colleagues.

Chicago's First Messengers.

It is in the memory of a few of our greatly respected "old settlers" that the present site of Chicago formerly existed as a marshy waste threaded by Indian trails. Doubtless the messages and errands incident upon those early days were confined chiefly to such things as news concerning the movement of a herd of buffalo or the occasional delivery of belts of wampum, and these commissions were no doubt executed by native Indian scouts, who loped along the trails in a shockingly primitive way. But, in the words of our oldest inhabitants, "things has changed." At present the chief characteristic of the city messenger is omnipresence, for he has come into increasing evidence with the speeding of the years. Outside his desire to be a good messenger (which laudable yearning exists in various breasts in different degrees), the chief ambition of the modern messenger boy is divided between collecting numerous "tips" and running into "soft snaps." As to the latter, he usually considers the new woman his best friend. However, some of his masculine patrons have awakened, in a degree, to his possibilities. As a result, one boy found himself called upon to organize a baseball team among a crowd of boys who frequented a certain vacant lot. The messenger seemed to grasp the idea with surprising alacrity, and at the end of the week was captain of a flourishing nine. But the lawyer who hired him, having satisfied himself that a certain other boy, who claimed damages against the street railway corporation, was no invalid, and able to twirl the pigskin with vigor, discharged the messenger just before the day set for the great game with a competing team.

In the Early Days of Chicago.

Has Many Duties.

Practically speaking, there is not a nook in the city which the average messenger boy does not know about. Were it not for him it is to be feared that our more unfortunate fellow-mortals—the passengers of the "hurry-up" wagons — would rest uneasily in their cells. Fortunately for them this blue-coated Mercury of the city streets knows where to find "influence" and bail when they are to be had. As the immediate freedom of the prisoner very often depends upon the messenger's resourcefulness in this direction, the police stations seem veritable messenger-boy hives.

More Successful Than the Nurse.

Now, it may be seen that there are few things which the messenger boy is not called upon to do. But through it all the new woman is his star patron. He delights to pilot her about the crowded streets and to and from her trains. He is certainly an invaluable guide on bargain day. When the baby is teething this metropolitan youngster is more successful than the average nurse. It is rumored of one boy who had the occasional charge of a certain little tot, covering a period of several months, that he came to have a strange affection for the child; and the child certainly loved him in return. One morning when this boy came into the office he learned that his little charge had been taken away. He was seen hastily to brush his coat sleeves across his eyes, and perhaps there was a suspicious huskiness in his voice. The messenger boy may appear to be a mere automaton, but underneath his stoicism and swagger is a boy's heart.

MILTON B. MARKS.

$42,700,000 800

Paid to policy-holders to date. This is a convincing argument as to the popularity of The Prudential. Heirs and executors are always glad to find amongst the family papers, one of its policies, for it can be realized on at once.

SPORTING.

AMONG THE STEPPERS.

The Plainfield Driving Club has arranged for three races for July 4th, on their track, in addition to the bicycle races being arranged by Chas. Lister. The horse racing includes a 2:18 class, trotting and pacing, purse, $200; 2:30 class, trotting and pacing, purse, $250; 2:40 class, trotting and pacing, purse, $150. Thus far a number of entries have been received. No conditional entries will be received, and no restrictions as to horses wearing hopples. The entries close Wednesday, June 27th. Address all entries or communications to W. F. Williams, secretary, Hotel Kensington, this city.

There will be several fine races at the Gentlemen's Driving Park this afternoon. The public is invited to attend.

CYCLING COMMENT.

Victor Christopherson and George Apgar were among the Plainfielders who started in the Journal century run this morning. The left Plainfield at 3:37 a. m.

Seven members of the junior bicycle brigade of the Y. M. C. A. took advantage of the excellent wheeling this morning and enjoyed a run to Summit. They were led by Paul Bechtelle.

Roundsman in an Auto.

It was rumored about town yesterday that Roundsman Frederickson was negotiating with H. C. Squires & Son for an automobile, as he was seen riding in one on East Sixth street. The Roundsman denies the rumor and says that he was only showing Mr. Squires where his wheel could be found, and they chose the auto as the quickest way of getting to the spot. Nevertheless he admits being very much pleased with the machine.

Red Men Adopt a Member.

At the meeting of Miantonomo Tribe of Red Men last night there was one adoption and three initiations. A committeee was appointed to arrange for a delegation to go to Woodbridge Wednesday night to attend the institution of the new tribe there and the clam bake that will follow.

Smashed Two Fingers.

Charles Backer, an employe at Pond's, badly smashed two fingers of his left hand yesterday by a piece of machinery falling upon them. The injuries were dressed by his shopmates and he proceeded to his home.

THREE-CORNERED FIGHT.

David Young Makes a Purchase of Property to Keep Two Trolley Rivals Out of Hackensack.

The struggle of the three trolley companies to secure an entrance to Hackensack promises to increase in interest in the next few days. The New Jersey and Hudson River Railway expects to reach the town from the east today, when persons representing the North Jersey Railway will attempt to stop the crossing of Main street, claiming that the street is a part of the Bergen county turnpike, which was recently purchased in the interest of the North Jersey.

In order to reach Hackensack, David Young, president of the White Line Company, has purchased a narrow strip of land running through Lodi Township for a mile and a quarter. This is directly in the line of the Newark and Hackensack Trolley Company's proposed route, and the purchase was made for the additional purpose of keeping that company out of Hackensack. The outcome of the struggle is being watched with much interest.

TERRIBLE WORK.

(Special to The Daily Press.)

New York, June 16.—A special despatch from Shanghai states that the Chinese have killed the German Consul and have burned a large number of American buildings.

LAWYERS ELECT OFFICERS.

Bar Association, in Session at Atlantic City, Chooses Its Officers.

(Special to The Daily Press.)

Atlantic City, June 16—At the annual meeting of the New Jersey Bar Association last evening the following officers were elected for the ensuing year: Eugene Stephenson, president; Robert H. McCarter, first vice-president; Mark R. Sooy, second vice-president; Allen Strong, third vice-president; Albert C. Wall, secretary, Charles C. Black, treasurer; Robert H. Endicott, David J. Pancoast, Robert S. Woodruff, John S. Voorhees, James J. Bergen, John R. Harden, John W. VanValen, Charles L. Corbin and Frank Bergen, trustees.

The annual banquet of the association was held last evening at the Windsor Hotel. Samuel H. Grey, Attorney-General of New Jersey, was toastmaster.

BAD ROCKAWAY ORDINANCE.

Supreme Court Reverses a Conviction Made Under It.

The Supreme Court at Trenton has rendered a decision in the case of Harry Lusardi against the Mayor and Common Council of Rockaway, reversing the conviction of Lusardi, who was tried recently before Police Justice Sanders, of that place, on a charge of selling merchandise Sundays, in direct violation of the borough ordinance.

The case was taken up by his counsel, Charles Stilwell, Jr., of Morristown, on a writ of certiorari, upon the ground that the ordinance was illegal and uncertain, the penalty prescribed being a fine of not less than $2, nor more than $50. The court held that the ordinance should fix the precise amount of the penalty to be imposed.

An Afternoon Sail.

Mr. Taft and several of the members of the Y. M. C. A., will take an afternoon sail today in the yacht "Trident." The start will be made from Greenville at 2 o'clock. There will be about ten in the party.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—The public drinking fountain on North avenue will be dedicated this evening at 7:30 o'clock with appropriate exercises.

—Car No. 11, of the street railway line, was placed in use this morning after a complete overhauling. The car has been handsomely decorated and fitted throughout with new furnishings.

—Alvina Kjerstine Johnson, infant daughter of Mr. and Mrs. Charles Johnson, of Terrill road, was baptised on Sunday last by Rev. Chas. E. Herring. Those who stood during the ceremony were Miss Hilda Thorson, Miss Julia Thorson, Charles L. Thorson and Hans Tobiesen.

PARTICULAR MENTION.

Dr. T. S. Davis, of Park avenue, has returned from a trip to the west.

Miss Emma Wikoff, of Richmond street, is detained at home by illness.

Irving Marcley, of New street, has returned from a visit with relatives in New York.

Mr. and Mrs. Charles Suhr, of East Fourth street, are entertaining company from Newark.

C. L. Slocum, of Belvidere and LaGrande avenues, will attend the Y. M. C. A. boys' camp.

Alfred Butler has taken a position with Alfred Seidel, of Park avenue, in place of William Johnson.

A baby boy arrived at the home of Mr. and Mrs. John Wakefield, of Somerset street, yesterday.

Mrs. R. Wood, of Washington, D.C., is visiting at the home of her nephew, F. W. Bailey, 86 Duer street.

Mrs. Henry Bender, of 341 Watchung avenue, who took such excellent care of the late Miss Dissa Lund during her illness, is very ill at her home.

THE TWO JEWELERS.

A Little Thing That Turned Fortune Toward One and Kept the Other Down.

"It is curious," said Col. Calliper, "how slight a thing may influence a man's whole future. In a town I lived in once, that later grew to be a thriving and prosperous city, there were two jewelers with such shops as you would expect to find in a place of a couple of thousand inhabitants; doing more business in watch and clock and jewelry repairing than they did in selling things, one doing about the same amount of business as the other, and each of them just about making a living and maybe just a little more. That's the way they were going along when a newcomer, a man of wealth, bought land in the town and built him a fine house and settled there," says the New York Sun.

"These new people had more or less tinkering to do, of course, and they tried both of the jewelers to see which they liked better, before settling on one, and it was hard for them to decide; they liked 'em both; both did good work and were both pleasant men. But presently something happened that made the head of the house come at once to a definite decision.

"One of these jewelers had in his window a clock which the man of the newly-arrived household used to consult in passing; he found it a good time-keeper and he came in fact to rely upon it for the correct time, and have rather a friendly feeling for its owner; in fact, so far as he was concerned, as between the jewelers, he was becoming unconsciously a strong partisan of a man with a clock in his window; when, going by one day, and looking in at it as usual, he saw that it had stopped! The jeweler that had placed that clock in the window, thus inviting confidence in it, and through it in himself, had forgotten to wind it.

"That settled it with the newcomer, who was a precise man, who had made his money by scrupulous and exact attention to business; and he at once threw his weight for the other and turned the scale in his favor; it was in front of his door only that the carriage of the newcomers was thereafter observed to stop. Their example had more or less influence, and more and more people went there, especially from among the new inhabitants. The jeweler himself to whom trade had thus come was a shrewd man who did not fail to take advantage of his opportunities. He doubled his stock and attended to business and went in for what trade there was in the community. The town grew to be a city, and he grew with it, and got rich. The last time I was there, and this was only a few years ago, he was a prosperous merchant, with a fine big store beautifully stocked and doing a fine business. In a small store on a side street, I saw the man who had forgot to wind the clock, with a magnifying glass over his eye, bending at work over a watch on a workbench in front of him in the window.

"Occasionally, even here in this big town, I see in some watchmaker's window a clock, put there as a guide to the public and as an advertisement of the business within, that has been permitted to run down; I saw one, in fact, this morning; and that's what brought to my mind, as it always does, the story of the two jewelers."

DR. PATON TELLS OF HIS LIFE WORK

[CONTINUED FROM PAGE 1.]

Philippines became American territory. He said that this country had done in the Spanish War what no other nation had ever done, and that the American success was due to God. The possession of the Philippines, Dr. Paton said, is of much commercial importance to the United States, but of a hundredfold more importance to Christians, because of the opportunity now afforded to spread the Gospel. Dr. Paton believes that the United States should not relinquish possession of the Phillipines.

One of the main points of Dr. Paton's talk was his discussion of the practice of the civilized traders in exchanging opium and rum with the natives for their products. Such practices, of course, are very detrimental to the natives. Dr. Paton said that desperate efforts were being made to enlist the aid of the government to prevent such practices, but they had failed up to the present time.

At the conclusion of the address a collection was taken up to aid the work in which Dr. Paton has spent nearly all his life.

Rev. A. E. Main made the closing prayer, and the benediction was given by Dr. Paton. Arthur L. Titsworth presided at the organ and a chorus choir furnished the music.

Rev. Dr. W. R. Richards, pastor of the Crescent Avenue Presbyterian church, presided at the meeting and introduced the venerable speaker. Rev. Cornelius Schenck, Ph. D., offered the opening praper and read the scriptures.

BOYS FOUGHT.

City Judge Runyon Investigated But Found Nothing Serious Had Happened.

Clarence Nostrand broke his arm. Some of the boys said that Hyman Fine threw a stone that did the business. That happened one evening this week down in the West End. Willie Porter took the part of Nostrand and landed his left on Fine's nose. That ended the business, so the boys said. As a result Willie Porter, Clarence Nostrand Cæsar Grove and Henry Wilson were arraigned before City Judge Runyon this morning.

Fine complained that he hadn't touched Nostrand, and the crowd had set upon him and badly injured his nose and head. The boys said that Fine had challenged Porter to fight over in one of the neighbor's yards and Fine admitted it.

The Judge decided that it had been nothing more than a boys' quarrel and that no serious damage had resulted. Nostrand wasn't sure how his arm had been broken. So the Judge dismissed the complaint, but warned the lads to be careful in the future how they went into quarrels of that kind.

TOLD OF THE CHINESE.

Mrs. Rapalje Delivered Interesting Talk on Mission Work.

The Ladies' Aid Society of Warren chapel met yesterday afternoon for the last time this summer and they had the pleasure of listening to a fine address by Mrs. Rapalje, of Fairview avenue, who, together with her husband, Rev. Daniel Rapalje, spent many years as missionaries in China. The speaker told a great deal about the people of China, their schools, customs, and she exhibited a number of curios including an idol, clothing, writing tablet, chop sticks, bowls and pictures. She related many interesting things about the peculiarities of the Chinese and she also told of the mission work among this race.

There was a large attendance of the members who greatly enjoyed Mrs. Rapalje's talk, and at the close cake and lemonade was served by a committee from the society.

Scalded by Hot Water.

William Wyckoff, Jr., of Washingtonville, employed at Wilson's stone quarry as an engineer, was terribly scalded yesterday afternoon while at work near the boiler in the engine room. One of the valves in the boiler blew out and thoroughly drenched young Wyckoff with hot water. He was taken to his home at once and the proper treatment given. His injuries will detain him for several days.

New State Bank Examiner.

(Special to The Daily Press.)

Asbury Park, June 16.—Martin V. Dager, cashier of the First National Bank of this place, has been appointed a State bank examiner for the State of New Jersey by the State bank and insurance commission. He will enter upon his duties in Trenton next Monday. H. M. Scott will be advanced to the position of cashier of the First National Bank.

At the Y. M. C. A. Camp.

Plainfield will be well represented at Northfield this summer. Those wishing to join the camping party can obtain full information of the Y. M. C. A. The camp will be open from June 28th to about September 1st.

The employes of A. M. Griffen's hardware store will begin their vacations next week. John Hall will be the first and will spend part of his at Lake Hopatcong on a fishing trip.

FOUNTAIN DEDICATED AND GIVEN TO CITY.

Youthful Members of Loyal Temperance Legion See the Result of Their Endeavors.

IMPRESSIVE CEREMONIES.

FORMALLY ACCEPTED IN BEHALF OF CITY BY THE MAYOR.

Address Delivered by Rev. W. C. Snodgrass—Presentation Made by Leo Moore—Fountain is a Beautiful One.

After many long months of perseverance and hard work by the members of the Loyal Temperance Legion and through the benevolence of the citizens of Plainfield the long-promised public fountain has been erected and dedicated to the city. The dedicating ceremonies took place Saturday evening when the fountain was formally presented by the Loyal Temperance Legion. For half an hour previous to the ceremonies Benj. LaVere's Queen City Band entertained the assembled crowd with a concert.

Upon a platform erected for the occasion were seated Mayor Rockfellow, Rev. W. C. Snodgrass, Rev. Dr. Yerkes, Joseph W. Yates and Miss Keran, of Elizabeth, county superintendent of the L. T. L. Precisely at 7:30 o'clock about fifty members of the legion, led by Irving VanWinkle bearing their banner, marched up and took their places around the platform. The ceremonies were then opened with a prayer by Dr. Yerkes, which was followed by a song, "Some Glad Day," sung by the legion. The speaker of the evening, Rev. W. C. Snodgrass, was then introduced by Mayor Rockfellow.

Mr. Snodgrass said in his speech that the fountain should not be considered merely as a place to slake the thirst, but that it stands for four principles: First, that of temperance, or a total abstainance from strong drink; second, education in that principle; third, that it represented the public and beneficent use of money, that is, not for our own private use, comfort necessity or taste, but for the public; fourth, that it stood for the true philosophy of the extirpation of evil, mainly that evil is not to be destroyed by mere war upon it, but in connection with war upon it, by putting something better in its place.

After a selection by the band, Leo J. Moore addressed the Mayor, in which he told of the Legion's work in securing the necessary amount for the fountain's erection, how from a first contribution of five cents the sum had grown until they were able to purchase the beautiful gift.

He thanked those who had given contributions and then in the name of the Loyal Temperance Legion, of Plainfield, he presented the fountain to the city, which was then unveiled by Russel Miller.

Mayor Rockfellow, in a few well chosen words, accepted the gift in behalf of the city and the ceremonies were over.

Special Officer Aaron Mattox was the first to secure a drink and a horse belonging to John Lynch was the first to quench his thirst from the horse trough.

The fountain, which is about twelve feet high, cost about $500 and was cast from a special design by the J. L. Mott Iron Works of New York. A child's statue, symbolical of those through whose efforts it was erected, surmounts the top, around which electric lights will be placed. It is situated directly opposite the North Avenue station. The sum of $200 was contributed by the city and $50 by the Plainfield Water Company who also gives the water free.

Among the members of the Loyal Temperance Legion who were present were Philip Leichtentritt, one of the oldest members, and Clarence Francisco, who raised the most money for the fountain.

Memory Meeting.

At the Endeavor meeting in Trinity Reformed church tonight, the entire service will be a "memory" meeting. No books will be used for singing or the reading of verses or Scripture, everything will be from memory. W. J. Hamilton, of Elizabeth, president of the Union County Union, is expected to be present and perhaps make a short address.

Wedding Tomorrow Evening.

The marriage of Miss Edna M. Harris and Joseph S. Dunham, of this city, will take place tomorrow evening at the home of the bride's parents, West Fifth street.

Local News on Pages 2 and 3.

BOXERS ARE NEW TO HIM.

Rev. Daniel Rapalje Spoke of China Mission Work to Audience in the Congregational Church.

Rev. Daniel Rapalje, for forty years a missionary in China, addressed the Christian Endeavor Society of the Congregational church last evening, dwelling particularly on the present disturbances in China and their effect on the work in the mission field.

The "Boxers," that secret organization that is making so much trouble at present, was new to Mr. Rapalje. During his sojourn in the Celestial Empire he had never heard of them. From what he had read on the subject, however, he gathered that they were comparatively of recent origin and were probably originally formed for mutual protection from roving bands of robbers. Then came the hope of political power and advancement and now the leaders of the "Boxers" movement were using them in an attempt to drive out the foreigners.

While he had never encountered the "Boxers," Mr. Rapalje told some interesting experiences with other secret organizations in China.

HONORED PYTHIAN DEAD

MEMORIAL SERVICE HELD BY THE UNIFORMED RANK.

Crescent Division in Charge—Brooklyn Pythians Their Guests—All Cemeteries Visited.

Pythian Memorial Sunday was observed yesterday by the members of Crescent Division, No. 13, U. R. K. of P., of this city, assisted by Rathbone Division, U. R. K. of P., of Brooklyn. This is an annual affair and Crescent Division enjoys the distinction of being the only one that has a memorial service of its own. Rathbone Division gladly joins with them in carrying out the programme, which includes the decoration of the graves of late members of the order.

The members met at their rooms yesterday afternoon at 1 o'clock and at 2 o'clock they marched to the North Avenue Station headed by the Independent Fife and Drum Corps, where they met the members of Rathbone Division, who arrived here at that time. The local division was headed by Captain J. E. Flannery and John H. Tier, Sr.

After receiving the visitors the Knights marched to the North Plainfield Cemetery, where they held the memorial service. Those who took part in this service included Joseph Blimm, Jacob Blimm, Wm. Young, Chas. McGinley, Louis Mohring and David Bowden. Each one had a part, which is committed to memory, making it more impressive. During this service the graves were decorated. The same services were performed at each cemetery, and at the Plainfield Avenue Cemetery Rathbone Division conducted a service over the grave of one of their late members.

From North Plainfield the Knights marched through Chatham street to Front street, to Central avenue, to Fifth street, to Plainfield avenue. After the service in the Plainfield avenue cemetery the members returned to Fourth street, where they boarded two special trolley cars and were taken to Hillside Cemetery over the new trolley line. They then returned to this city and went to Scotch Plains, where the same services were held in the cemetery at that place. At the conclusion of this all went to Hand's Hotel, where dinner was served and a quiet social time was enjoyed.

Along the line of march and at the cemeteries the fife and drum corps played appropriate music. Altogether the service was one of the most successful ever held and the visitors were loud in their praise of the reception accorded. The committee of arrangements had for its chairman Samuel Robinson, and every detail was carefully attended to.

Rushing Trolley Work.

About twenty-five men and teams were kept at work yesterday at the grade crossing of the Westfield and Elizabeth Street Railway, over the Lehigh Valley tracks at Picton. The work is being rushed as fast as possible in order to complete the line before next Thursday, when it is expected through cars will be run from Westfield to Boynton Beach.

Teachers Guests of Teacher.

Miss Bouschor, of Freehold; Miss Davidson and Miss Swick, of Vineland, have been the guests of Prof. W. J. Wightman, of the borough public schools. They are teachers and formerly taught under Mr. Whitman at Vineland. Miss Swick has charge of the manual training in the schools at Vineland.

HILLSIDE GOLFERS IN WINNING TRIM

Regular Club Team Defeated Harbor Hill's and the Women Won Over New Brunswick.

GOOD SCORES WERE MADE.

HOT RIVALRY IN THE CONTEST FOR THE REINHART CUP.

A Large Number of Scores Turned in the Latter Game—Harbor Hill's Made Only 6 Scores to the Home Team's 28—Scores in Detail.

The devotes of that ancient, but very popular game, golf, were in their glory Saturday afternoon at the Hillside Tennis and Golf Club grounds, for there were events of great interest, and the day was just right for play. Although the course was not in the best of condition—that is, to suit the taste of the particular golfer—it was crowded with players, and it was really one of the biggest days for the game this season. A feature was the presence of many of the old time players, a number of whom decided to go to the course by the new trolley line, which proved very convenient for them, as it runs to the course and it is only a short distance from there to the clubhouse. There were not many social features at the clubhouse, as most of those present wanted to be outside on the course.

The first event of the afternoon was the play for the Reinhart cup, handicap, men's competition, open to active members only, 18 holes, medal play. There was an unusually large entry list and nearly everyone of those who entered played and turned in their score. A significiant fact in connection with this play was that not one of the contestants went over the hundred mark. All played fine golf. The play for this cup has excited deep interest and the rivalry was much in evidence on Saturday. It is safe to say that there will be a cut in some of the handicaps before long and in some cases they will not be so large. The winner of the cup was J. P. Murray, who made a gross score of 106. His handicap of 27 brought the net score down to 79. All the other scores were close to the lowest and the finishing was exciting. Below will be found the scores in detail:

	Gross.	Hand.	Net.
J. P. Murray	106	27	79
Thos. R. VanBoskerck	91	11	80
Howard Huntington	97	15	82
J. Whitney Baker	86	3	83
George A. Chapman	110	27	83
W. L. Glenney	84	0	84
Evarts Tracy	104	20	84
R. M. Shepard	95	11	84
L. H. VanBuren	114	27	87
C. C. Burke, Jr.	114	27	87
A. G. Henderson	103	15	88
G. R. VanBoskerck	102	14	88
H. R. Stockton	97	8	89
Harry Talmage, 2d	116	27	89
Olaf Saugstad	99	6	93
A. R. Fisk	97	3	94
W. T. Kaufman	102	8	94
W. L. C. Glenney	122	27	95
Charles Stover	122	27	95
W. L. Murray	111	16	95
H. W. Beebe	111	15	96
Morris J. Dumont	103	6	97
E. J. Waring	111	14	97

An event of great interest was the team match between the Hillside's and the Harbor Hill team. The latter team is a crack one and probably the home team will not face a stronger one during the season. For this reason many thought that the home team would be defeated in this match. This game was one in the East Jersey Golf Association tournament, and it was a case of where victory counted very much. The home team and its supporters were delighted, however, for the visitors were defeated badly by a score of 28 to 6. One excellent reason advanced why the visitors were defeated is that the members were unacquainted with the course, and after playing on their own grounds, which are probably as fine as any in the metropolitan district, it is not so surprising that they failed to win the honors. The home team was in excellent form and played fine golf both as a team and individually. Some met with mishaps, but they were not serious enough to throw the game. The scores in detail are below:

HILLSIDE.		HARBOR HILL.	
J. W. Baker	4	A. B. Lowson	0
W. L. Glenney	3	V. Garrett	0
A. R. Fisk	0	V. Hoekmeyer	4
M. J. Dumont	5	P. R. King	0
O. Saugstad	4	J. L. Bernard	0
W. T. Kaufman	1	C. Y. Wemple	0
T. VanBoskerck	3	W. S. O'Connor	0
H. R. Stockton	0	G. W. Sparks	2
R. M. Shepard	8	K. P. Emmons	0
	28		6

As a climax to the above victory there came the news of the triumph of the ladies' team from the Hillside Club over the ladies' team from the New Brunswick Club. This game was played Saturday morning and was the first of the season for the women. They defeated their opponents by a score of 11 to 0, and the winning team was greatly elated over their success. They certainly played a fine game and won the honors on the merits of their playing. The contest took place on the course of the New Brunswick

A TALK TO ODD FELLOWS

REV. DR. RICHARDSON DWELLS ON THE WORTH OF THE ORDER.

Services in Park Avenue Baptist Church Attended by the Members of Queen City Lodge.

The members of Queen City Lodge, I. O. O. F., attended the Park avenue Baptist church in a body last night and listened to an address delivered especially for them by Rev. Dr. J. W. Richardson. In part it was as follows:

"Whatever elevates even a section of the community benefits society at large. Through its widely extended membership, Odd Fellowship does its share in building up society. It endeavors to prepare its members for the highest duties of morality, citizenship and religion. I deny, emphatically, that Odd Fellowship is an enemy to the church of Jesus Christ. Throughout the order in America there are mighty forces working for one end—the making of reverent, clean men. It may not assume the role of a partizan reformer, nevertheless the voice of Odd Fellowship is heard, unequivocally declaring for temperance in all things. And more and more, as the years pass, the membership of the order becomes composed of men, selected because of their good character, good health, good morals, good habits and a good belief in a personal overruling God. The language of the ritual is of a superior character. The lessons emphasized are pure, chaste, and might be read in the presence of the noblest and purest woman. The order seeks to make a truer citizen, a better man, a nobler father and husband of every individual whom it touches. It wars against vice with a vehemence little known in the outside community.

"The charitableness of Odd Fellowship demonstrates its lone spirit of helpfulness. An institution, as an individual, is known by its deeds. The benevolences of the order are not generally known, because it does not publish to the world its act of charity and love. This secrecy is used by the uninformed, or demagogue, as a cause for censure. But this secrecy deserves the highest commendation, rather than denunciation. No church publishes a list of its beneficiaries, why should Odd Fellowship be called upon to expose the troubles of those whom it assists in times of need?

"Not in any sense is this noble order Godless. It recognizes the truth that he who is true to God will be true to his fellow man. It exhorts its brethren to be ever mindful of what they owe God. Some delinquent brother may fail to keep his obligation, but not because Odd Fellowship has been remiss in its teaching. So the unworthy man who wears an Odd Fellow's emblem is not to be received as a specimen of the order's handiwork. Those who grace the church, are faithful in business, and grace Odd Fellowship, are the specimens by which to judge of the character and training of Odd Fellowship."

GOT OUT JUST IN TIME

Garrett Kiely Had a Narrow Escape From Getting Caught in a Building That Collapsed.

Garrett Kiely, of the borough, secretary of the American Ferment Company, who own the Kolafra Company, had a narrow escaped from being killed Saturday afternoon in Jersey City. The company has been occupying a building corner of Washington and Steuben streets, but recently leased another building more suitable for their business. The last load of goods was taken out of the old building Saturday afternoon about 3 o'clock, and one hour later the whole structure collapsed. Less than ten minutes before the accident, Mr. Kiely was in the building and his escape is considered miraculous. There were twenty-five men at work in the building at the time, but only one was killed.

A Pleasant Affair.

A very pleasant affair was given Saturday evening at the home of Mr. and Mrs. Fred VanEmburgh, of Westervelt avenue, in honor of Mr. and Mrs. Walling, of Philadelphia, who were guests of Miss Rappleye over Sunday. Progressive euchre entertained the guests, who were from Westfield, Elizabeth and Plainfield, during the evening, and after the prizes were awarded to Miss Nimons, Miss Kline, Mr. Aikman and Mr. Rappleye, a very satisfying and bountiful repast was served.

Wrenched Her Ankle.

Mrs. Elizabeth Fury, of Watchung avenue, slipped and fell on that street, near her home, Saturday evening, wrenching her ankle quite badly. She was assisted to her home and a doctor summoned. The ankle is swollen badly and is quite painful.

ALLAN LAING WON PARK CLUB HANDICAP

Big Turnout For Three Competitions on Park Golf Club Links Saturday Afternoon.

TOWNSEND HELD TROPHY.

DEFEATED E. I. SERRELL FOR THE GREEN COMMITTEE MEDAL.

Miss Laura G. Long Won Ladies' Handicap Competition—Morgan T. Townsend Still Leads for President's Cup.

Fine golfing weather brought out a large field for the three competitions at the links of the Park Golf Club Saturday. In the morning a junior handicap brought Donald A. McGee to the fore. The men's handicap and the ladies' handicap, qualifying respectively for the president's and the Hooley cup, were played in the afternoon and went to high handicap players.

Morgan T. Townsend won his second victory for the green committee challenge trophy by defeating Edgar I. Serrell, challenger, seven up and five to play. Townsend played rare good golf and held his game steadily. Serrell was off his old form. At the end of the first round Townsend was four up. Their scores were as follows:

Townsend, out.	3	6	6	5	7	5	5	4	7	—48
Townsend, in	4	5	6	4	6	5	6	5	5	—46—94
Serrell, out	4	8	6	6	6	7	7	7	6	—57
Serrell, in	5	6	8	5	6	5	7	4	10	—56—113

The play in the men's handicap competition, eighteen holes, medal play, was considerably better than usual. Allan B. Laing, a new comer at the top of the list, was low man with 114 gross. There were ten net scores below 100, but Townsend was the only one to do better than that without the aid of a handicap. Senator Reed started in with a 50, and looked like a sure winner. He fell down to 63 in the second and tied for third. Councilman G. T. Rogers made 55 and 63. Fred P. Taylor was not at his best and W. J. R. Thiers did not play.

The scores:

	Gross.	Hand.	Net.
Allan B. Laing	114	30	84
William R. Faber	113	24	89
J. H. Simpson	101	8	93
Charles A. Reed	113	20	93
Morgan T. Townsend	94	0	94
Herbert S. Rogers	120	25	95
Gifford W. Cooley	106	8	98
Edgar I. Serrell	113	15	98
George T. Rogers	118	19	99
W. J. Buttfield	129	30	99
H. D. Hibbard	115	15	100
Fred P. Taylor	104	0	104
Charles W. McCutchen	134	30	104
Augustus W. Faber	130	25	105
S. St. John McCutchen	131	22	109
F. Boland Horne	139	30	109

The play in this competition counted as the regular weekly contest for the president's cup, the corrected standing for which is as follows:

Morgan T. Townsend	4½
Meredith Dryden	3
Allan B. Laing	3
William R. Faber	2
W. de la R. Anderson	1½
Charles A. Reed	1½
George T. Rogers	1
Donald A. McGee	1
J. H. Simpson	½

The result of the ladies' competition, handicap, nine holes, medal play, the scores counting for the Hooley cup, was a large surprise. Miss Laura G. Long came to the front with a rush and her fat handicap gave her an easy victory. Miss Adelaide G. Ball showed better form and won out from Miss Saidee Mae Howell. Miss Howell still leads for the cup, however, the standing for which is as follows:

Miss Saidee Mae Howell	6
Miss Daisy Elsberg	5
Miss Laura G. Long	3
Miss Adelaide G. Ball	2
Miss Bessie Vallant	1

The scores made in that competition were as follows:

	Gross.	Hand.	Net.
Miss Laura G. Long	84	30	54
Miss Adelaide G. Ball	75	13	62
Miss Saidee Mae Howell	69	0	69
Miss Daisy Elsberg	82	10	72

During Saturday morning a junior handicap, eighteen holes, medal play, open to members not over eighteen years of age, was played and resulted in an easy victory for Donald A. McGee. Morgan T. Townsend was scratch but did not play. The scores were as follows:

	Gross.	Handicap.	Net.
Donald A. McGee	112	30	82
Lester Hallock	127	30	97
Herbert S. Rogers	121	22	99
Ralph Hallock	151	50	102
Vaughn McGee	134	30	104
F. Rowland Horne	160	50	110

Run Down by a Cyclist.

Florence Washington, of West Fourth street, was run into by an unknown cyclist last evening while crossing the street in front of her home. She was rendered unconscious by the force of the wheel and fell to the ground. She was picked up and carried to her home by Officer Winzenreid, where she soon revived. Beyond some slight scratches she was unhurt.

Badly Beaten.

In an affray at Cranford Saturday night James Clark, of Brooklyn, was seriously beaten on the head with a club and stabbed in the face. He was brought to the Elizabeth hospital. The physicians there say he will recover. Clark's assailant is unkknown.

HOPE TO GET THE MONEY

Borough Board of Education Will Try to Get $5,000 Appropriation Passed by Citizens.

The Board of Education will hold a special meeting this evening, the last one before the closing of school. At this meeting several important matters will be considered, among which will be the one regarding the proposed heating and ventilating of the Somerset street school. This proposition was defeated last week, but the Board feel as though the question should again be brought before the citizens for approval or rejection. It is likely that a public meeting will be held in the near future.

The members of the Board feel as though there is a sentiment against spending as much as $5,500, and it is possible that an effort will be made to get a bid below the above figures. These improvements will have to be made in some form or other. If the building is not fit in every way to use for school purposes, the State has the right to withold the appropriation from that school, and this is not an utter impossibility in this case, hence the urgent need that something must be done before next winter.

NETHERWOOD OPENED.

BIG HOTEL STARTS SEASON WITH BRIGHT PROSPECTS.

The Interior of the House Has Been Much Improved—Major Coleman is in Charge.

The formal opening of the Hotel Netherwood took place Saturday under the most favorable circumstantances. The season starts with forty-eight guests, and Major F. W. Coleman, the proprietor, is more than pleased with the prospects for the season. During this week thirty more guests are expected, and the Major believes that by July 4th the house will be full. A favorable condition is that most of the guests have come to spend two or three months.

The house has been thoroughly overhauled and put in fine condition. During the early part of this week the mechanics will have completed their work. The plumbing has been put in first-class condition, city water and gas have been put in, new and handsome carps have been laid and a great deal of papering has been done, especially in the ball-room and halls. The owners of the house have spent at least $5,000 in improvements and nothing has been denied Major Coleman in his efforts to make this a banner season for this favorite hotel.

The famous Orpheus Club orchestra of Scranton, Pa., that furnished music at the Coleman House, Asbury Park, two years ago, has been engaged for the season and they will arrive this week. Frequent concerts and hops will be given for the guests and invited people in this vicinity.

Saturday evening about two hundred Plainfielders called at the hotel and expected to enjoy a dance, but owing to the fact that the ball room was not completed, this had to be declared off, much to their disappointment. They had a good time, however, and the evening was passed in a social way and in singing popular songs. The ball-room will be ready by Wednesday or Thursday of this week and then an opening hop will be given.

Major Coleman is assisted by Mrs. Coleman in looking after the welfare of the guests and nothing will be left undone toward making it pleasant for all who stop at the house this season. The cafe will be opened today and this has been made very attractive. Many other improvements have been made, all adding very much to the comfort of the guests.

TO IMPROVE STORM INLETS.

City and Street Railway Company Will Do the Work.

The city and the Street Railway Company have agreed on plans for improving the storm inlets of the Arlington avenue bridge over Cedar brook, where there are now deep depressions on either side making it impossible to macadamize the street.

Two lines of eighteen inch pipe will be laid, averaging eighty-five feet in length, and inlets will be built at the end of each. This will allow the depressions to be filled and macadamized over, making the street similar to Richmond street and LaGrande avenue.

No One to Press Complaint.

James Tracy was arrested last evening by Patrolman McCarthy on the complaint of his wife, charged with being disorderly. There was no one to appear against him this morning when arraigned before City Judge Runyon, so he was discharged.

MANY JERSEYMEN AT PHILADELPHIA

Headquarters for This State is at The Lafayette Hotel on Broad Street.

SENATOR KEAN'S TROUBLES.

TICKETS FOR THE CONVENTION ARE BEING DISTRIBUTED TODAY.

Caucus Held Today Elected Senator Sewell Chairman and Franklin L. Murphy to National Committee.

(By a Staff Correspondent.)

Philadelphia, June 18.—Although New Jersey isn't after anything in particular this year, a swarm of Jerseymen have already begun to gather for the Republican National convention that begins tomorrow. The New Jersey headquarters are located in Parlor D, at the Lafayette on South Broad street, and there there the dignitaries are assembling. Of course, Senators Sewell and Kean are on hand and a number of the other Republican leaders.

The New Jersey delegation held its caucus in the headquarters today. Gen. Sewell was made chairman of the delegation and Franklin L. Murphy was chosen to fill the place of the late Vice-President Garret A. Hobart on the National committee.

Senator Kean is having his troubles allotting the tickets of admission for the convention. Today is the time of distribution, and the Senator looks worried. As New Jersey only gets 300 and there are nearly a hundred times that number of good Republicans who are anxious to attend, the problem is a hard one to solve. The tickets are being given out today and there are certainly lots of disappointed people.

Wm. T. Kirk, of Plainfield, arrived here last night and was to be seen at headquarters today. Other Plainfielders are expected tomorrow. Former Mayor Charles J. Fisk, one of the delegates from the Eighth Congressional District, has not arrived yet.

The Jerseymen were last night discussing anxiously the question of whether Gov. Voorhees is likely to land in time to sit in the convention as a delegate-at-large. The Governor is scheduled to arrive in New York tomorrow from his European flight on the steamship Westmoreland; that is, if the vessel is on time. The information among the visitors, however, was to the effect that the craft is not likely to reach port until Wednesday. There was some discussion as to who shall sit as the Governor's alternate, and it was generally agreed that it would be John I. Blair Reilly, of Warren county. It had been partly understood that former Senator Robert Williams was the proper alternate, but State Committeeman Gummere said that the rule in which the alternates were chosen on the roll call in the State convention made Reilly the man, and he will no doubt sit if the Governor should fail to reach home in time.

United States Senator Kean received callers yesterday in his cozy apartments, No. 207 Walton, the same kindly welcome going out to the visitors as of old. Among the Senator's visitors during the afternoon was the tall, rugged, gray-bearded Senator Scott, of West Virginia. As his huge form loomed up in the door he exclaimed:

"Hello, Kean! I didn't expect to find you here. I'm looking for Dick Kerens; have you seen him?"

"No; but this isn't the first time I've been mistaken for the Missouri man."

"You don't look much like him."

"No; but our names sound somewhat alike and that's the way we get mixed."

"Say, Kean," cried Senator Scott suddenly changing the subject, "I've just had a telegram from Elkins and we are for him for Vice-President."

"That suits me well enough," replied Senator Kean, and then and there was born a little boom for Stephen B. Elkins, the West Virginian and former National Chairman. Later in the day, when the Roosevelt programme began to look like a sure winner, the Elkins boom seemed to have met an early and untimely doom.

Train Broke Into.

A mixed train of freight and gravel cars, bound for the Rockaway Valley road, parted near Washington street, Saturday night, and the fore part of the train reached Grant avenue before the accident was discovered. An hour was consumed in notifying the engineer, backing up and getting started again. There was no damage.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—The Sunday-school of the Unitarian church will not meet again until next fall.

—Old Glory Council, No. 62, D. of L., will hold a regular meeting this evening.

—Trinity Commandery, No. 17, K. T., will hold an important conclave this evening.

—There will be a regular meeting of Washington Camp, No. 30, P. O. S. of A., this evening.

—There will be a communication of Jerusalem Lodge, No. 26, F. and A. M., tomorrow evening.

—Iona Council, Degree of Pocohontas, will meet Wednesday evening and arrange for an entertainment.

—A week from Thursday night Union Lodge, U. O. of I. O. F., will celebrate its fourth anniversary.

—An important meeting of Martha Washington Council, Daughters of America, will be held tomorrow evening.

—Commencing with yesterday the Sunday-school at Grace M. E. church will hold its sessions at 9:30 o'clock Sunday morning.

—Winfield Scott Post, No. 73, G. A. R., will hold a very important meeting tomorrow evening and a full attendance of members is requested.

—There will be a joint meeting this evening of the various trades' organizations of this city to discuss matters pertaining to new schedules and retes of wages.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis." writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

Miss Mary Ward, of Newark, is the guest of Miss Eleanor Williams, of West Seventh street.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

WAR DRUMS IN AFRICA.

How the Natives Communicate War News Among Tribes at a Distance.

After a battle has been fought in South Africa one may hear a curious drumming from hilltop to hilltop in the regions inhabited by blacks.

That is how distant tribes learn whether victory rests with the Boers or the British, says the New York World.

Generals have been astonished at the speed with which such news travels to remote parts of a country innocent of telegraphs, telephones, and even of white settlers. But the native drummers know their work, and their reechoing taps, repeated by one operator after another, speed the news in a land where the "war extra" is unknown.

The most important events, as well as the daily occurrences in every village, are transmitted in this way. In the Congo region, near Stanley Falls, some of the natives are so skilled in the use of the drums that they can carry on a conversation with one another at a great distance just as easily as though they were standing side by side.

While Inspector Five was in control of the station at Basoke, he visited one day a distant outpost and found that it would be impossible for him to reach home until late at night.

As he looked forward to a hearty dinner, he requested a head man, who was with him and who was an expert drummer, to send word to the station, several miles away, that dinner was not to be served until he returned. The head man drummed; straightway another drummer repeated his message.

When Five reached home at night he found the table laid and the dinner ready to be served. This was the message his servants had received:

"The Bula Matori (governor or inspector) will be home late in the evening. Don't eat everything up."

A. D. 2000.

She—What is the meaning of war?

He—It's a term the ancients applied to the argument used by a strong nation in convincing a weaker one of the error of its ways.—Chicago Evening News.

Not That Kind of Record.

Mrs. Wunder—Here's an item about a girl who can sing any song on record.

Mr. Wunder—She must be a phonograph.—Baltimore American.

TROOPS FOR CHINA.

Ninth Regiment Ordered From Manila—The Concord Sails.

MANILA, June 18.—The Ninth regiment has been ordered to Manila, whence it will proceed to China.

The gunboat Concord, with marines aboard, has sailed under sealed orders, supposedly for China.

The British cruiser Buenaventura has sailed for Hongkong with troops and stores for Hongkong and Tien-tsin.

Judge Taft and his colleagues are studying the different legislative phases of the situation preparatory to the work of enacting new laws on Sept. 1, when they assume legislative power. The subjects have been tentatively divided among them as follows:

Judge Taft—Crown lands, land titles, the church and the civil service, the last named with a view of bringing from the United States a good class of government employees who shall eventually replace army officers in the civil administration.

Mr. Luke Wright—Internal improvements, constabulary, commerce, corporation franchises and the criminal code.

Mr. Henry C. Ide—Banking and currency and the organization of civil courts.

Mr. Bernard Moses—Revenues, taxation and schools.

The commissioners have established offices in the same building with General MacArthur and are receiving, discussing and absorbing the opinions of army and navy men and of foreigners and Filipinos. The people of Manila seem pleased with the democratic course of the commissioners and with their habitually courteous demeanor. The earlier feeling of disappointment is slowly disappearing.

The United States forces had two engagements of importance last week. The troops under General Funston and General Grant organized an advance with parts of five regiments and two guns against 500 rebels in a mountain stronghold east of Biacnabata, where it was supposed Captain Roberts of the Thirty-fifth regiment, who was captured last month at San Miguel de Mayamo, was held captive.

The Americans operated under many difficulties and over an exceedingly rough country, but the rebels retreated, only a few resisting, and the stronghold was occupied and burned.

As the result of last week's scouting 60 Filipinos were killed, 200 were captured, and 300 rifles, with 25,000 rounds of ammunition, were surrendered. Three Americans were killed.

Malarial fever has been prevalent since April in parts of Cavite and Batangas provinces, which are garrisoned by the Forty-sixth and Thirty-ninth regiments. Thirty per cent of the men of each regiment are on the sick list. Of two battalions in Batangas province one has 150 sick and the other 190.

Will Try to Arrest Taylor.

FRANKFORT, Ky., June 18.—The state officials as well as representatives of the prosecution will neither affirm nor deny the report that requisitions on the governors of Ohio, West Virginia and Pennsylvania for the arrest of W. S. Taylor have been made out in anticipation of his trip through those states to the national convention. It is the general belief here that the attempt to arrest him will be made in Philadelphia. A number of persons in this state have written to Governor Stone of Pennsylvania urging him to follow the position taken by Governor Mount in the event Taylor is arrested. Governor Taylor's friends say they have assurances from leading Republicans of Pittsburg that a requisition will not be honored in the state.

Preparing For the Race.

POUGHKEEPSIE, N. Y., June 18.—The training season on the Hudson for the intercollegiate boat races officially opened this morning, when the first crews will row on the water course that is to be the scene of the regatta on June 30. As usual, Columbia is the first to get here, the young New Yorkers having arrived yesterday afternoon and taken up their quarters in the Nelson House. By comparison with previous years all of the crews are very late in putting in their appearance at Poughkeepsie.

Spots on the Sun.

PARIS, June 18.—Abbe Mareux, the astronomer, has discovered and sketched through the big telescope in the optic palance of the exposition a remarkable spot on the sun, forming a part of an extensive group and having a diameter of nearly 40 kilometers. This spot, he says, will remain for seven days and become visible to the naked eye. He predicts the appearance of other spots in July, August and September, inferring that the heat during those months will be very great.

A Printing Trust.

INDIANAPOLIS, June 18.—Word has reached International Typographical union headquarters that there is a scheme on foot to purchase all the big printing houses in the United States in the interest of an English syndicate. It is said that three houses have been approached and that two of the number have agreed to sell. One of these is said to be located in Boston and the other two in New York.

In Memory of Rev. McGlynn.

NEWBURG, N. Y., June 18.—Yesterday a bronze tablet suitably inscribed was dedicated to the memory of the late Rev. Edward McGlynn in St. Mary's church, of which Dr. McGlynn was pastor during the last five years of his life. The tablet, which is fixed in the wall of the church, was unveiled by the Rev. William Livingston, rector of St. Mary's, in the presence of a large number of people.

Sunday Baseball.

NEW YORK, June 18.—National league games were played yesterday at St. Louis and Chicago, with the following results:

At St. Louis—									
St. Louis..	0	0	0	1	1	0	0	0	0—2
Cincinnati.	0	4	2	0	3	3	1	1	*—14
At Chicago—									
Chicago...	1	1	1	0	1	4	0	0	*—8
Pittsburg..	0	0	0	0	0	0	1	0	0—1

Body of Drowned Girl Recovered.

NEW YORK, June 18.—The body of Elizabeth B. Crandall of this city, who was drowned with Anna Hussey, her girl friend, Saturday while on the excursion of the Sunday school of the West End Presbyterian church at Oscawanna island, has been recovered and brought to the home of her parents.

Large Shipment of Tobacco.

PADUCAH, Ky., June 18.—Twelve hundred hogsheads of tobacco, valued at $114,632 and filling two trains, has left here for continental Europe via New York. This is the largest single shipment ever made from here.

A ROOSEVELT BOOM.

Convention May Stampede For the Rough Rider.

REPUBLICANS GATHERING RAPIDLY.

Long, Dolliver, Bliss and Woodruff Still Prominent—A Preview of the Platform to Be Presented.

PHILADELPHIA, June 18.—The attention both of delegates and other visiting politicians now is concentrated upon the movement in the interest of Governor Roosevelt as a vice presidential candidate. The Pennsylvania delegation met early yesterday, and it was soon announced that the state delegation had taken a positive position for the governor for the second place on the ticket.

This announcement was soon followed by the statement, which was made upon excellent authority, that Colonel Quay, Senator Platt and others in sympathy with them had held a conference and had decided upon a plan of campaign which was intended to bring Roosevelt to the front as a candidate, stampede the convention for him and force his acceptance of the nomination. Senator Penrose of Pennsylvania and Senator Wolcott of Colorado are both in the movement, and the managers are claiming the votes not only of the New York and Pennsylvania delegates, but of California, Kansas, Nebraska, Colorado, Indiana and Illinois as well as many others. All this, of course, is upon the supposition that favorite sons will be eliminated from the fight.

As a matter of fact, if things go on as they have, there will not be a single name mentioned for vice president in the convention save that of Theodore Roosevelt.

There is no mistake in this statement. It has turned out just as some of Governor Roosevelt's closest friends have predicted for a number of months. He is probably one of the most popular young Republicans in the nation. As a matter of fact Governor Roosevelt is the admiration of thousands of young Democrats who are just approaching their

J. P. DOLLIVER.

first vote. It should be remarked here that the young Republicans never speak of Roosevelt as Governor Roosevelt. It is "Teddy" with them, and this is said in a sort of fond way, as if the young Republicans admired him and liked to see a man of Roosevelt's stamp elevated in the public affairs of the nation. No one heard anything about the Long boom yesterday or the Bliss boom or the Allison boom or the Dolliver boom. It has been all Roosevelt.

The development of the movement in Roosevelt's behalf had the effect of bringing former Secretary Bliss conspicuously forward as the opposing candidate, and the fact was announced late in the afternoon by those very close to him that he would accept if nominated. From the first Senator Hanna and his followers have advocated the nomination of either Bliss or Allison.

Upon this assurance Mr. Bliss' friends went forth with renewed courage. They accepted this declaration as a positive willingness to enter the contest, and they lost no time in letting the fact be known.

Senator Allison arrived about noon and took quarters at the Aldine hotel. He was closeted during the greater part of the day with prominent members of the party and late in the afternoon attended a dinner given by Clement C. Griscom at his country place. The senator announced before leaving for Mr. Griscom's place that he was earnestly supporting the candidacy of Mr. Dolliver and that he hoped to see him nominated for the vice presidency.

Dolliver's friends are still enthusiastic over his chances, and they claim that nothing but an agreement upon some available man by the members of the New York delegation can prevent his nomination.

In the event that the New Yorkers agree upon some available man the Iowa men will not press Dolliver's nomination. It is claimed by the Iowa people that they have strong assurances from nearly all of the western states and that the middle west is with him to a man. They claim that nothing will head off Dolliver if New York fails to agree upon a man.

The Massachusetts delegation has perfected its organization and also taken steps to get into direct telephonic communication with Secretary Long to ascertain his wishes concerning the vice presidential situation. This last move is regarded as rather significant. The delegation is to a man strongly favorable to the secretary, and it is believed that cooperation can be secured with the delegations of Maine, New Hampshire, Vermont, Connecticut and Rhode Island, so as to secure a practically solid vote of the 78 New England delegates.

The Michigan delegation has arrived at the Walton and opened headquarters. D. M. Ferry of Detroit, who is a candidate for the nomination for governor of Michigan, was with the party and said that the delegation had not decided who to support for the vice presidency. There was, however, a strong sentiment among the Michigan men for Dolliver.

The Nebraska sentiment has developed quite strongly for Senator Fairbanks.

Former Governor Warmouth of the Louisiana delegation was asked last night how the delegation would stand on the vice presidential question. "If Governor Roosevelt is a candidate," he replied, "I feel confident that he will get the vote of the Louisiana delegation."

The Texas delegation is inclined to be for Secretary Long, but will not announce its position until the Texas contest is decided by the committee on credentials. The delegation will take any man the administration may want.

Committeeman Payne of Wisconsin expressed the opinion that Wisconsin would support Mr. Roosevelt. "For that matter," he said, "I think the whole country will be found to be for him."

While interest is focused on New York the delegation from that state looks on with complacency, the members apparently enjoying the commotion. The situation in New York may be described in a paragraph: The mass of delegates are for the nomination of Theodore Roosevelt for vice president; Senator Platt is pledged to Governor Roosevelt to be against his nomination and will not break the pledge unless the governor gives his consent. This much is known—if the convention names Governor Roosevelt for vice president, he will not decline. He has emphatically said that he would not

WILLIAM B. ALLISON.

accept if nominated, but it is known on the best of authority that he will not decline. Nevertheless, his determination to protest against the nomination until the last minute is unchanged.

For the first time since the Republican leaders began to assemble in Philadelphia there has been some earnest work upon the platform, and a draft has been completed which, it is believed, will receive the approval of the convention. This document was prepared in part before coming to Philadelphia by Postmaster General Smith, and it is understood it was submitted to the president for his inspection and approval before Mr. Smith left Washington. Mr. Smith was in consultation during the greater part of the afternoon with Senator Foraker, who, it is understood, will be chairman of the committee on resolutions. The senator has himself given attention to the preparation of the declaration of principles, and he added considerably to Mr. Smith's draft.

The instrument as so far prepared is of considerable length, but very clear cut and emphatic in its enunciations. It begins by calling attention to the promises that were made in the St. Louis convention of 1896 and after enumerating them declares that faith has been kept in almost every instance, as is shown by the statutes which the last congress added to the laws of the country. Especial attention is called to the fact that the platform of 1896 promised that the country should be put upon the gold standard and that this pledge has been faithfully maintained. There is a clear and distinct declaration for the maintenance of this standard, and the resolutions as so far prepared make no reference to bimetallism. The resolutions also contain the usual declaration for a protective tariff.

The president's policy with reference to the Philippines is indorsed throughout, and his conduct of the war with Spain is upheld in the strongest terms of commendation and praise. The president's course on the Boer-British entanglement is also indorsed, and attention is called to the fact that under his guidance the United States has been the only nation to offer intervention between the warring nations. The president also comes in for praise because of his attitude in The Hague peace conference, and the administration is especially commended for its position and its accomplishment in the matter of an open door in China.

There is no reference to the present critical condition in China. The shipping subsidy bill is indorsed.

H. H. Hanna, who is credited with the authorship of the gold standard bill, was in conference with Messrs. Smith and Foraker for some time yesterday with reference to the financial plank of the platform. He is especially anxious that this plank should be unequivocal in its language and that no concession should be made to the silver interest.

What Webster Davis Wants.

CHICAGO, June 18.—Webster Davis, former assistant secretary of the interior, who resigned his position after his return from a trip to the Transvaal in order that he might better express his sympathy for the Boers, passed through Chicago yesterday on his way to the Philadelphia convention. In his pocket he carried several pages of Boer sympathy resolutions which he will endeavor to have adopted by the convention. "I shall go before the committee on resolutions," said Mr. Davis, "and shall endeavor to secure the adoption of my resolutions in the committee. If I am not successful there, I will avail myself of a proxy of one of the delegates and go on the floor of the convention and make a fight. I am determined to place the convention on record, even if it requires the hardest kind of a fight."

To Subdue Strikers.

ST. JOHN'S, N. F., June 18.—Fifty constables armed with rifles and swords left at midnight by the colonial cruiser Fiona for Bell island, where the strike situation is critical. The strikers are in complete control and have provisions for a month. Saturday night they drove off the steamer Glanton, which tried to secure a load of hematite, and they have completely terrorized the mining staff who endeavored to assist the Glanton.

Grain Elevator Burned.

KANSAS CITY, June 18.—The Union grain elevator, with its contents, was destroyed by fire. Loss, $100,000; covered by insurance. The Brockett Cement company's warehouses adjoining were damaged to the extent of $15,000. Several freight cars were also burned.

Murder and Suicide.

NEWARK, N. J., June 18.—Louis Kolka, 26 years old, a polisher, shot and killed his father, Joseph Kolka, in their home here yesterday. He then fired a bullet into his own head, inflicting a fatal wound. The shooting was the result of a drunken quarrel.

RUMORS FROM CHINA

All Communication With Peking Cut Off.

REPORTS OF MURDER UNCONFIRMED.

One Story Is That German Minister Has Been Murdered—Another That He Has Been Captured and Boxers Occupy Legation Street.

LONDON, June 18.—There is not a cabinet in Europe apparently that knows what has been transpiring in Peking for five days or in Tien-tsin for three days. Nor is there any that knows with what difficulties the small and inadequately equipped international column is contending between those cities. The German foreign office, upon learning the report of the murder of Baron von Ketteler, the German minister at Peking, sent a telegraphic inquiry to St. Petersburg, the Russian government, because of its wires to Manchuria, being supposedly in a better position than the other governments to obtain direct news. In reply the German foreign office was informed that nothing whatever was known on the subject, as communication with Peking was interrupted.

The report spread worldwide from Shanghai that the legations had been attacked and that one minister, probably the German, had been murdered has been traced to Tao-tai Sheng, who for a few days, as the dowager empress' agent, has been censoring telegrams from Shanghai. The Shanghai correspondent of The Daily Express says:

"Sheng, as head of the telegraph administration, pretended that the line connecting Shanghai with Peking had been down since June 9 and that the wires to Tien-tsin were cut on June 15. Nevertheless it is notorious that constant communications have been passing from Shanghai to Peking over the northern and western routes, although Sheng has refused both ministers and consuls the privilege of using the lines. It is known that last Friday Sheng received a message from either Peking or Tien-tsin. This dispatch said that General Tung Fuh Siang's troops aided the Boxers in an organized attack on the foreign legations and that in the course of the attack some of the legation buildings were reduced to ruins and one foreign minister sliced to pieces."

Why in the cables it should have been added that the murdered minister was Baron von Ketteler is not explained.

According to another telegram from Shanghai, dated June 17, at 7:25 p. m., Sheng has fled, fearing that the foreign authorities were about to arrest him because of his stoppage of telegrams. A third cablegram asserts that the reports of the murder of the German minister emanated from London, are quite unconfirmed and are discredited at Shanghai.

"The German minister has been captured" is the announcement to The Morning Post from Peking in a dispatch dated June 13, at 5 p. m., via Tien-tsin, June 15. This is the latest press message known to have left Peking. It continues as follows:

"A crowd of Boxers occupies Legation street, cutting off communication between the buildings. A few Boxers are parading in the city. Their superstition in regard to foreign arms is pitiable.

"The Boxers hold the officials of Tungchau for redemption. Anarchy reigns at that place. The Americans in the interior of the two neighboring provinces have been advised to leave, but several have no means of doing so.

"Unless a relief force is sent there is danger of a massacre of native Christians. A large Chinese army is ready to oppose the relief column on the way here. The Chinese government cannot decide whether to adopt the policy of rigidly suppressing the Boxers or that of defying the world. The decision rests with the dowager empress."

During the isolation of Peking and Tien-tsin Shanghai is supplying a bewildering bunch of reports and conjectures, most of them picturesque and threatening.

ANXIETY IN WASHINGTON.

Many Inquiries For News, but Nothing Can Be Learned.

WASHINGTON, June 18.—Not a single line of news has been received for three days from any official source respecting the critical condition in China. Inquiries of the cable companies show that not only are the communications by wire with Peking, Taku, Tien-tsin and all northern China suspended, but the notices convey little encouragement for the hope that they will be soon reopened.

The navy department during Sunday made an effort to reach Rear Admiral Kempff on his flagship Newark at the Taku forts, at the mouth of the Pei-ho river. A cablegram was addressed to the commander of the Yorktown at Chefu, the nearest treaty port to Taku, on the northern side of the Shangtung peninsula, repeating the message indited to Admiral Kempff last Thursday, inquiring as to his situation, the conditions at Peking at last report and into his need for more men and ships and directing the commander to take the message to Taku and return with the answer. The department is now pretty well assured that the original message never reached Admiral Kempff. The department does not know whether the message to Chefu can be delivered, but made the effort. From Chefu to Taku is only a single day's run for the Yorktown, so that an answer from Admiral Kempff should be received by tonight if Chefu can be reached.

The state department has received numerous telegrams from relatives and friends of Americans in northern China and in Peking praying for news touching the welfare of their friends. Mr. Ledyard of Detroit, father of the wife of the German embassador at Peking, reported to have been killed by the Boxers, was one of the most anxious of these inquirers, and ex-Secretary Alger was another, each intimating a willingness to meet any expense that might be involved in an order from the deparement to some responsible officials near the scene of trouble to secure information by any means in their power.

Buffalo's Population.

BUFFALO, June 18.—The Courier today quotes James W. Hamilton, supervisor of the census for this district, as follows: "From what I have already discovered I conclude that the population of Buffalo will be found to be a little less than 400,000."

Weather Probabilities.

Fair in the interior; showers on the coast; variable winds, shifting to fresh northeasterly.

SHERIFF'S SALE—In Chancery of New Jersey. Between William H. Codington, complainant, and Sarah Ettinger et als., defendants. Fi. fa. for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the Court House, in the city of Elizabeth, N. J., on

WEDNESDAY, THE ELEVENTH DAY OF JULY, A. D., 1900.

at 2 o'clock in the afternoon of said day all that tract or parcel of land and premises, hereinafter particularly described, situate, lying and being in the city of Plainfield, in the county of Union and State of New Jersey:

The First Tract—Beginning at a spike in the centre line Fourth street, and is a corner of Schnirderwind's land; thence along his line north fifty-one degrees and fifty-three minutes west seventy-five and six-tenths feet to a point in line of Central New Jersey Land Improvement Company's land; thence along their land south fifty-six degrees and fifty-four minutes west parallel with the right of way of the Central R. R. of New Jersey fifty-nine feet to a point in Peter Longbine's land; thence along his line south fifty-one degrees and thirty minutes east ninety-five feet to a spike in the aforesaid centre line of Fourth street; thence along said centre line of Fourth street north thirty-seven degrees fifty-nine minutes east fifty-six and one-tenth feet to a spike and place of beginning.

Being the same premises conveyed by George M. Stiles, sheriff, and etc., to the said Kate Ettinger by deed bearing date October 25, 1886.

The Second—Beginning at the southerly corner of a tract of land conveyed by Frederic Auguste Jacot to the Central New Jersey Land Improvement Company by deed dated June 1, 1876; thence northeasterly parallel with the centre line of Central Railroad of New Jersey, as flied, fifty-nine feet (59), more or less, to a boundary line of said, the Central New Jersey Land Improvement Company; thence northwesterly in said boundary line one hundred and twenty-three feet (123), more or less, to another boundary line of said, the Central New Jersey Land and Improvement Company; thence southwesterly along said last mentioned boundary line fifty-six and one-tenth (56 1-10) feet to a corner; thence southeasterly along the southwesterly boundary line of the tract of land conveyed as above one hundred and six (106) feet more or less, to the place of beginning.

BRIDGE WORK

in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5
Gold Crown, 22-k	from $5
Gold Filling	from $1 up
Silver Filling	75c
Cement Filling	50c
Cleaning	75c
Extracting	25c
Painless Extracting	50c
Gas, first tooth	$1
Each one after	50c

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Samuel Terry, of East Third street, who has been seriously ill, is no better.

Ellery Leonard, of Perth Amboy, spent Sunday in Plainfield with relatives.

Mrs. John Skellinger, of Elmwood place, has been detained at home by illness.

Charles S. Lee, of Ninth street, has returned from a business trip to Buffalo.

Murray Burtis, of Fairview avenue, has returned from an extended business trip.

J. D. Spicer, of West Fifth street, still continues to improve slowly from his injuries.

Mr. and Mrs. Dennis J. Galbraith have returned from a visit with friends in Baltimore.

Mrs. F. D. Woodhull, of West Front street, has entirely recovered from a recent illness.

William Everett Dwight, of Rockview avenue, is home from Princeton for the long vacation.

Miss Florence Swick and Miss Florence Smith, of this city, spent yesterday in Brooklyn.

Harry Allen, the faithful janitor at the public library, is enjoying his vacation in Pennsylvania.

Conductor Martin Lance, of the trolley road, has taken up his residence on Arlington avenue.

Mr. and Mrs. Frank W. Runyon, of Madison avenue, spent Sunday at Lebanon, Hunterdon county.

Mrs. Henry VanMiddlesworth, of Elmwood place, has returned from a visit with Jersey City relatives.

Charles Dunlap, of East Fifth street, who went to Newark some time ago to have an operation performed, is improving nicely.

REDUCED RATES TO PHILADELPHIA.

Via Pennsylvania Railroad, Account Republican National Convention.

On account of the Republican National Convention at Philadelphia, June 19th, the Pennsylvania Railroad Company will sell excursion tickets to Philadelphia from all stations on its line at rate of one fare for the round trip (minimum rate 50 cents.) Tickets will be sold and good going June 15th to 19th, inclusive, and returning to June 26th, inclusive. 5-14-5-m.

Charles Dupee, of Rockview avenue, returned to New Haven yesterday after spending a few days at home. He will be back from Yale this week for the summer vacation.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

A Boycott Now.

ST. LOUIS, June 18.—The controversy between the transit company and its striking employees has developed into a struggle between capital and labor along the lines of a boycott. President Gompers of the American Federation of Labor has declared he will do all in his power to bring the influence of the whole body of organized labor in America to bear upon the local situation in an effort to win the strike for the union. Mr. Gompers urges the strikers to be law-abiding, but advises them to make the operation of the cars as expensive as possible by refusing to patronize them. The boycott to be declared, strike leaders say, will apply not only to the St. Louis Transit company, but to every business man, every association and in fact any corporation or individual favoring it in any way.

Convention Hall Burned.

DES MOINES, June 18.—The large auditorium used for a convention hall and only constructed a year ago was destroyed by fire yesterday. It was occupied by the Commercial Exchange and the Chase Amusement company, the latter conducting a vaudeville show. Total loss, $50,000; insurance, $27,000. The origin of the fire is a mystery. The national convention of musicians, which was to meet in the building on Wednesday, will hold its sessions on the Chautauqua grounds and at Foster's Opera House. A new auditorium will be ready for the Republican state convention to be held on Aug. 1.

Steel Mills Reopen.

CHICAGO, June 18.—Three departments of the Illinois Steel mills at South Chicago, which were closed on June 3, throwing 3,000 men out of work, opened this morning.

Three Killed by an Explosion.

PHILADELPHIA, June 18.—Three men were killed and 14 persons injured yesterday by an explosion of gunpowder and dynamite used in the manufacture of fireworks.

The Thomas Off For Manila.

SAN FRANCISCO, June 18.—The transport Thomas has sailed for Manila. She carried over 400 recruits and officers and a large cargo of supplies.

COPYRIGHT 1900 BY THE PROCTER & GAMBLE CO. CINCINNATI

A LESSON IN VALUES.

DOLLAR for dollar, pound for pound, there is more in Ivory Soap than in any household soap. It is easy to find a cheap soap; but to find purity and low price in a single soap is not easy. They combine in Ivory Soap. You can afford to use it in the laundry; you can not afford *not* to use it elsewhere. It is vegetable-oil soap, in the cheapest form in which it can be procured. You pay nothing for a fancy box, wrapper or perfume. It is all in the soap! It floats.

OUR FOREIGN TRADE.

Figures For Ten Years Make a Good Showing.

WASHINGTON, June 18.—A statistical review of our foreign trade in agricultural products during the ten fiscal years 1890-99 compiled by Mr. Frank H. Hitchcock, chief of the foreign markets section of the agricultural department, has just been made public. It shows that the average annual agricultural imports for the past decade amounted to about $387,000,000, while the total imports of all kinds averaged about $750,000,000. During the first half of this decade the average of agricultural imports was $406,365,441, or over 51 per cent of all imports; of agricultural exports, $669,644,253, or 75.52 per cent., and the excess of agricultural exports over agricultural imports averaged $263,278,812 annually. For the remaining five years the annual average of agricultural imports was $366,964,708, or over 51 per cent of the whole; of agricultural exports, $694,874,000, or over 68 per cent of all domestic exports, and the agricultural exports exceeded agricultural imports by an average of $327,909,292 annually.

In 1899, for the fourth time in the history of our foreign commerce, the annual value of domestic merchandise exported by this country exceeded $1,000,000,000. The first such record was made in 1892, when the declared valuation amounted to $1,015,732,011. In 1897 they were $1,032,007,603 and in 1898 scored the unprecedented value of $1,210,202,913. Then came 1899, recording $1,203,931,222. The 1899 total imports were valued at $697,148,489, much below the average for the last decade, but considerably above the 1898 figures.

In 1899 the excess of domestic exports over imports reached $506,782,733 and of agricultural exports over agricultural imports $437,296,852.

SOUTH AFRICAN WAR.

Buller Disbanding Troops Seems to Indicate the End.

LONDON, June 18.—There are some indications that Lord Roberts considers the end of the struggle in South Africa not far distant. One of these is the fact that the Natal volunteers, who had seen hard service, were dismissed to their homes by Sir Redvers Buller Saturday. They were cheered as they left his camp.

Another indication is the report current in authoritatively informed military circles in London that a complete division of regulars is to be withdrawn from General Buller's army and embarked at Durban for China. The troops drawn from India will probably go next.

Lord Roberts let yesterday go by without telegraphing. The correspondents at headquarters are, as they have been for ten days, silent.

Unofficial intelligence from Machadodorp via Lourenco Marques is to the effect that the British troops are near Middleburg.

The Boer narrative of the fighting east of Pretoria, posted on a bulletin board outside of President Kruger's car at Machadodorp, ran thus:

"The commandoes east of Pretoria, in the direction of Dronkhorst spruit, were compelled to retire after a fierce stand of more than two days in a way that won the admiration of the acting commandant general. The short range rifle fire was very hot, and for part of the second day, especially late in the afternoon, the enemy fought at a distance of 100 yards. Our loss cannot be given yet. The acting commandant general only mentions Field Cornet Jan Van Buren killed. He was one of the pluckiest men in the field."

Some Labor Statistics.

ALBANY, June 18.—The quarterly bulletin of the bureau of labor statistics for June has been issued by Commissioner McMackin. Relative to the growth of organized labor it shows that between Dec. 31, 1899, and March 31, 1900, a net gain of 62 unions and 8,152 members was made by the labor organizations of the state. The increase of organizations has been continuous for several years, and the aggregate membership is now 232,533, which is 30 per cent larger than it was at the corresponding dates in 1898 or 1899. Since 1897 the number of women belonging to labor organizations has more than doubled. The proportion of trades unionists not at work at the end of March was 20 per cent, as compared with 18.3, 21 and 30.6 per cent at the end of March, 1899, 1898 and 1897, respectively.

ELECTIONS IN CUBA.

Nationalist Mayor Chosen For Havana.

FIRST VOTING PASSED OFF QUIETLY.

People Seemed Indifferent, and There Was No Excitement—General Wood Has Ordered a General Investigation of Charges.

HAVANA, June 18.—General Alejandro Rodriguez, Nationalist, was Saturday elected mayor of Havana, polling 13,073 votes against 6,534 cast for Senor Estrada Mora, independent. The total vote fell about 4,500 below the registration.

The National party elected its entire ticket—18 councilmen, the treasurer, one correctional judge and three municipal judges. The other correctional judgeship fell to an independent candidate, as did also the fourth municipal judgeship. Of the six other councilmen four are Republicans and two Nationalists, who ran independently.

Reports from every part of the island go to show that perfect order prevailed at the polls. Not a shot was fired, nor was there any sign of disturbance anywhere.

To an American observer of the election here it seemed as if the people regarded the whole matter with absolute indifference. There was not even a crowd in waiting to hear the result declared. Not a cheer was raised, nor were there any of the ordinary indications of election excitement, although a demonstration in honor of the successful candidate will take place tonight.

Although the cry of the Nationalists was that the people should choose the revolutionary leaders because the work of the revolution was not complete and in order to prove to the intervening government that the people of Cuba considered it incomplete, nevertheless many of the leading councilmen elected and two of those who were most anxious to secure the mayoralty are not in any sense revolutionists. The people also are asking where the pacificos are to come in.

So many extraordinary charges have been published in the United States that Governor General Wood has decided to appoint a special commission, consisting of one American army officer and two Cuban civilians, to hear testimony offered by any who may wish to make specific charges of malfeasance in office or of official extravagance. The commission will have power fully to investigate the charges and to compel the attendance of witnesses in the courts.

Insurgent Victory Reported.

KINGSTON, Jamaica, June 18.—The Royal Mail steamer Don, Captain Davis, which has arrived here from Colon, Colombia, brings news of an important battle fought on Friday last about ten miles outside of Panama. According to this information the insurgent forces were victorious, and some 200 of the government troops were killed. It is inferred that Panama may already be in possession of the rebels. The latter are strongly intrenched at San Joaquin, near Santa Marta, and all the government troops at Baranquilla had been dispatched to Santa Marta when the Don left Colon.

Family of Seven Buried.

NEW YORK, June 18.—Six hearses bore the bodies of the seven members of the Cotter family who were burned to death in a Jackson street tenement house fire to Calvary cemetery yesterday afternoon. A long line of carriages with relatives and friends of the dead followed the procession of hearses to the cemetery. A tremendous crowd filled Hudson street almost from curb to curb long before the funeral procession moved away and remained long after it had passed.

Relief For Kumassi Delayed.

LONDON, June 18.—The Daily Express has received the following dispatch, dated Friday, from Prahsu: "No additional news is to hand from Kumassi. The incessant rains are delaying the advance of the relief column, which is likely to see some tough work. Seven wounded officers and 130 wounded men are expected here from the front. There is a general rush of natives toward the coast from Obuassi and the mines north of the Prah river."

COMING EVENTS.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 6—Y. M. C. A. Boys' Camp at Lake Champlain.

Mr. Cragin's Bonanza.

The Cragin scheme of constructing an island in the New York bay, off the foot of the Jersey coast-line, is one which, if carried out in a successful manner, will be of a great benefit to the commercial interests of the State. But there is something to consider before that. That is the question of the State and Government receiving financial returns for the grant which will be fairly commensurate with the value of the franchise to Mr. Cragin and the promoters associated with him in the enterprise. According to the terms now proposed, the grant is to be secured by the promoters at an annual rental of $20,000, with a lease to run for a time that practically makes it in perpetuity. Concerning this side of the subject, the Jersey City Journal comments in the following practical manner:

"If Mr. Cragin get away with the grant he will be able to sell or capitalize his scheme for many millions of dollars, and will have one of the most valuable pieces of property in New York harbor.

"The owners of the main land shore front will oppose his operations and no doubt will increase his expense account very materially, though they may be benefited if a new deep channel is provided for in Mr. Cragin's scheme that will enable the shore owners to reach deep water. The shoal in front of their property has been the cause of delay in securing shore improvements. The legal aspects of the case will probably be very fully considered before Mr. Cragin goes very far in constructive work.

"The only really bad feature about the scheme is the grossly inadequate price that Mr. Cragin will pay the State. It is alleged that the sunken island and reefs have been in the market for years, and no one has offered to buy and improve at any price, therefore his offer should be accepted. This is not a good argument. The State is not in need of money. It has the riparian right, and when the demand for harbor accommodation becomes so great that the reef must be utilized, the competition would enhance the price offered for the property. Until that time comes the State should retain the ownership even though it had property that produced no revenue."

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The franchise, by virtue of which the Westfield and Elizabeth Street Railway Company maintains and operates a trolley line on South avenue in this township, imposes obligations, as well as confers privileges, upon that corporation. One of the obligations is to carry passengers between Cranford and Elizabeth for five cents. Notwithstanding this provision, the patrons of the road are charged eight cents, and a complaint has very properly been made to the Township Committee by P. D. VanSaun, who requests that official action be taken to compel the company to abide by the terms of its contract. Chairman Cromwell has promised to give the matter prompt attention. There is every reason to anticipate that as soon as the company ascertains that the Township Committee means business, a reduction in the fare will be made. Mr. Riker and his associates are too good business men to take the risk of losing their franchise.—Cranford Chronicle.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

In last Saturday's illustrated Mail & Express magazine there appears a group picture of the New York city delegates to the National Republican Convention to be held at Philadelphia this week, and in the group is the picture of James W. Perry, formerly of this city. He represents the Thirteenth District. Mr. Perry is a lawyer of note, and his many friends will be pleased to learn that he has secured the above honor.

* * * * *

A few days ago while Letter-carrier Robert Loughlin was making his rounds in the vicinity of Hillside avenue, close to some property owned by James E. Martine, he accidentally came across an alligator about a foot in length. It is a fine specimen and is highly valued by the finder. Mr. Loughlin claims that he has found the "Farmer Orator's" mascot, and that from now on he will have great luck. The alligator is well trained and performs a number of wierd "stunts." Only a day or two before this find, Letter-carrier Glaentzar found a snake in a letter box, much to his surprise. These incidents happening about the same time has led people to think that there is something peculiar about them. Readers are assured that the happenings are absolutely true and that they are no dreams.

PUNISHMENT OF CHILDREN.

Use of the Rod Engenders Fear and Deceitfulness and Impedes Moral Growth.

A refined woman recoils even from the thought of corporal punishment for her children, yet it is but a short time ago since the rod was administered with cruel severity in schools and in homes, says the New York Tribune. It can be easily proved that the discipline in schools is far better to-day than in those olden times when the scholar saw the rod constantly before him to enforce obedience. It might be more difficult to prove that the children of to-day are better behaved than the children of a few generations ago, but we believe they are. Whosoever trusts in God and in the advancement of the race must believe that whatever individual lapses may occur, the boys and girls of to-day as a whole are working out a nobler manhood and womanhood than the last generation ever knew. Fear no longer rules them, but love. There is less deceit to-day among children than there was among those who were cowed by the whip, and sincerity is the first step toward genuine improvement. Nothing is more dangerous to the moral nature of a self-respecting child who is old enough to think than the use of brute force to compel its will. Such a child must be kept in the right way by kindly persuasion and reason. He must realize from the beginning that his mother is his Heaven-given guide, and know that she will suffer herself and see him suffer physically rather than have him do wrong.

A very little child is only taught by its physical senses that fire burns and must be avoided. It can be taught in the same way at this early age to avoid other evils. A trivial bodily punishment administered in no more retaliatory spirit than the burning log shows to the small hand that reaches it will do a great deal of good. Some mothers are foolish enough to punish children in a fit of anger. It is not a pleasant thing to see a man or woman, flushed with anger, strike a little child. Children are marvelously sensitive to the mental condition of their elders. Anger only arouses them to a retaliatory state. A grown person who is not able to govern his own temper cannot hope to govern a child and train him in the way he should go. The moment a child is able to reason and to understand a higher motive for doing right than the avoidance of a slight physical hurt which a kind mother may administer in punishment, it is time to stop such punishment. A very little child can be easily taught to avoid evils by a slight rap on the hand, where it will do no injury, and like a kitten or other little animal can be taught in no other way, but the moment the mind develops a higher motive can be appealed to. It is a dangerous, foolish practice, degrading to both parent and child, for a parent to treat a thinking lad as if he were no higher mentally than a stubborn colt.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strength-enlinr substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15c. and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style glass-finish machine. Have you heard about our new turn-down collar dropper? No? Well, try it; no break. Call and see us use it. Always welcome.

"FLOWERY -:- -:- KINGDOM."

That's the brand of the best China Matting imported. Of extraordinary weight, heavy straw warp, small neat patterns, bright clear colors, it is not only attractive in appearance but possesses wonderful durability. Price is 29c yd. or 10.50 per roll of 40 yds. The sale for it in this city is confined to us. We have a special lot cotton warp Japanese Matting at 21c per yd., the real value of which is 25c. A real bargain, but the quantity is limited and will last but a few days.

PIAZZA GOODS are now in demand. We sell the new Grass Twine Matting for piazzas and it answers the purpose beautifully. We have the Matting Rugs in patterns for the same purpose as well. We also make to order Piazza Rugs of Cocoa Matting and finish with rubber ends. Any size made at short notice. They are strong and save the wear on piazzas greatly.

A whole carload of Trunks. We buy them by the carload in order to secure the lowest possible price. Few concerns in the State sell so many trunks. Everything desirable in the way of Trunks may be found here. All are splendidly made and attractive in appearance. They are canvas covered, leather bound, brass trimmed, good locks and have strong strap hinges. Prices range from 2.98 to 25.00. A full assortment of strong, tr m little steamer trunks, too. Goods are shown in Basement of our Carpet Store at 246 West Front Street.

White Goods Department. You mothers who have daughters about to graduate will find this department of interest to you One of the best stocked, best kept and best managed white goods departments we know of. It is in charge of Mr. W. D. Williams, formerly of Newark, and a veteran of the White Goods Business. A full line of India Linons, Persian Lawns, Bastistes, French Organdies, Suisses plain and dotted, and many other thin fabrics suitable for Commencement Dresses. Plain Piques 12½ to 50c. Fancy Lace Stripe and Figured Piques 15c to 25c. Novelties in white goods in too great variety to be mentioned in detail.

Dainty Cool Summer Garments.

Beautiful White Shirt Waists, wonderfully designed and exquisitely finished; elegant White Lawn Dressing Sacks and White House Dresses. Everything in Summer Underwear for Ladies, Misses and Children.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Gathered and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, June 18—Three Dunellen boys had quite an exciting experience Friday night and one that will probably teach them a lesson. The boys in question were up a cherry tree, quietly appropriating the fruit when they were discovered by the owner. He immediately seized a gun and ran to the tree, when the boys sprang to the ground. In the darkness their whereabouts were rather uncertain, but the owner blazed away with the gun, and to his surprise one of the young men was struck in the leg by a lot of fine bird shot. The victim hurried to a physician, who found the shot had grazed the skin, making quite a wound, besides a number of shot imbedded in the flesh. It would be safe to say that the cherry tree will be given a wide berth in the future.

William Waldron, who is employed by Charles Sebring, met with an accident Saturday which will prevent him from working for some time. He was picking cherries from a tree on Mr. Sebring's grounds at Plainfield when a limb broke and he fell a distance of thirty feet into a potato patch, which broke the force of the fall. He was helped to Dr. Brakeley's office, who found that his arm was badly sprained and he was suffering from a number of bruises.

A special car from New Brunswick brought a bout forty guests to Dunellen Saturday to attend the ladies' day meet at Schpflin's bowling greens. At the conclusion of the games a collation was served. Harts' orchestra from New Brunswick furnished music. Besides those from New Brunswick, there were guests presents from Newark, Plainfield and Brooklyn.

Mr. and Mrs. O. A. Douglas celebrated the twenty-first anniversary of their wedding yesterday. Among those present were Mr. and Mrs. George W. Day, Mr. and Mrs. NanNuis, Charles S. Day and Stanley Day, Jr.

George Day disposed of the household effects of the late Mrs. C. M. Bowyer by auction, Saturday afternoon and evening. The sale was attended by a large number but bidding was slow.

A baseball game was played on the Lincoln avenue grounds Saturday, between the Whittier's and a scrub team, in which the latter were defeated by a score of 22 to 8.

Peter Benward took a fishing trip to Green Brook Friday night and captured five German carp averaging five pounds, and four catfish averaging three pounds.

Miss Alice Higgins and Miss Edith Hurlburt, of Plainfield, visited Mrs. Fred Schomp, Saturday.

Rev. J. A. Thompson, of Speaker, N. Y., occupied the Presbyterian pulpit yesterday.

The Lincoln Steel Works added about twelve men to their working force Saturday.

Miss Mabel Jamison, of Raritan, is spending a few days with friends in town.

John Heil, of Raritan, was the guest of Bernard Sirisky Saturday.

Harry Rindloub, of New York, spent yesterday with George Truet.

Lewis Vroom spent yesterday with his brother at Westfield.

George Kuldoshes was in New York Saturday on business

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 18—There was no service in the Seventh Day Baptist church Saturday, on account of the congregation attending the lecture of Dr. Daland at Plainfield.

Rev. Frank Fletcher read a paper before the Raritan Ministerial Association, which met at Somerville this morning.

A six-pound bass was captured in the upper pond Saturday by Rufus Larew, of Plainfield.

Mr. and Mrs. Frank Marsh visited the former's parents at Plainfield yesterday.

There were quite a number of boating parties on the lake last night.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 18—Goodwill Lodge, K. of P., held their annual Pythian decoration day exercises yesterday afternoon in the Baptist cemetery. Goodwill had as their guests the members of Crescent Division, Uniform Rank, of Plainfield. The visitors arrived about 4:30 in two special trolley cars, and a line of march, headed by the Independent Fife and Drum Corps, of Plainfield, was formed on Park avenue and to the martial notes the procession started for the cemetery, where the graves of their departed brothers were strewn with flowers. At the close of the exercises in the cemetery the march was taken up and proceeded down Park avenue to the Central Hotel, where Goodwill and their visitors enjoyed a collation.

Presiding Elder Smith, of this district, occupied the pulpit in the Methodist church Sunday morning. At the close of the services the quarterly church conference was held.

The threatening weather of yesterday did not seem to interfere with the wheelmen enjoying their usual run, as there seemed to be just as many out as on a clear Sunday.

David B. Clark, who has been visiting at the home of his parents, Mr. and Mrs. Benjamin Clarke, has returned to his home in Montclair.

Judge Clark, who is taking the census of the township and borough for Uncle Sam, expects to finish his labors this week.

Mr. and Mrs. Edward Emery and daughter, of Bayonne, are visiting at the home of Mr. Emery's parents.

Mrs. Ami Dobbins, who has been spending a week with her sister in Harrison, has returned home.

Roy Day was Scotch Plains' representative in the New York Journal century run held Saturday.

George Snyder, of New York City, has been visiting at the home of his sister, Mrs. Louis Fulton.

BERNARDSVILLE.

(Special Correspondence to The Press.)

Bernardsville, June 18—Michael Ranschi, who has figured extensively in the courts because of illegal liquor selling, has just been fined $20 by John B. Dunster for the same offense.

Plans are being made for a Fourth of July celebration at Bernardsville, and a subscription is being taken up for a band and fireworks. Two ball games are scheduled for the day.

CONVENTION AT AN END

RECEPTION FOR COLORED BAPTIST MISSION WORKERS TONIGHT.

Yesterday was Given Up to Interesting Religious Services—Ministers to Speak Tonight.

Yesterday was the fourth day of the New England Baptist Missionary convention and was passed chiefly in prayer meetings and sermons, led by different members of the covention. The day's programme began at 10 o'clock by a prayer and praise meeting led by Rev. P. H. Matthews, of Orange. It was followed at 11 o'clock by a widows' fund sermon preached by Rev. W. D. Wynn, of New York, at the conclusion of which $15 was contributed for convention work.

Adjournment was then taken until 2 o'clock, when very interesting Sunday-school addresses were given by different members of the convention. The doctrinal sermon, which was to have been by Rev. S. W. Smith, of Princeton, was delivered instead by Rev. S. C. Morris, missionary to Africa.

The church was filled to overflowing at last evening's meeting, which began at 8 o'clock. A sermon was preached by Rev. E. H. McDonald, of New Bedford, Mass. At the conclusion of the sermon a collection was taken for the benefit of Mount Olive church and a neat sum was realized.

Today is the fifth and last day of the convention, but as all business has been transacted no meetings were held.

This evening a reception will be given the convention by the church, at which an admission fee will be charged except to delegates. Music will be given by the choir and addresses will be delivered by Rev. G. L P. Taliaferro, D. D., Rev. R. D. Wynn, B. H. Walker, S. N. Smith, N. A Harris, Rev. Dr. W. A. Creditt, who spoke at the Y. M. C. A. yesterday, R. A. Motley, Wm. Hill, E. Elliot, S. Wallace, E. Ross, J. H. Travis, P. H. Scott and Pastor W. T. Dixon.

FOR THE CHILDREN.

Special Services at East Third Street Mission Last Night.

A very pleasant Children's Day service was held yesterday afternoon at the East Third Street mission under the auspices of Superintendent L. W. Randolph and the scholars of the Sunday-school. The chapel was prettily decorated with flowers and an American flag, arranged in the form of a canopy over the platform. There was a large attendance of members and friends, and all enjoyed the programme given by the little folks, and the addresses by Dr. Yerkes, Rev. George Bowers, Rev. W. L. Jones and George H. Batchelor. Other features of the programme were the reading and recitations by Miss Ella H. Serrell, the soprano solo by Miss Luella C. Harris, and the whistling solos by C. M. Evans.

Commencing with next Sunday the Sunday-school will meet at 9 o'clock in the morning instead of the afternoon as at present. This change is for the summer months.

BAND CONCERT

Given in Front of the Hotel Kensington Saturday Evening.

A large and jolly crowd thoroughly enjoyed the concert given Saturday evening from 8:15 to 10:15 o'clock in front of the Hotel Kensington by Ben. LaVere's Queen City Band. A programme of popular selections was rendered in excellent style by the band under the direction of Mr. LaVere, and frequent applause was given. Proprietor Staats, of the Kensington, is thinking of giving a concert once a week during the summer months, and thus affording the people an opportunity of hearing good music. They will not be given Saturday night should he decide to give them.

Presented With a Watch.

Clifford Braider, of Manning avenue, who has been book-keeper at the Pond Tool Works for a number of years, resigned his position last Saturday to take one with a large company in New York. Before leaving Saturday the clerks of the office presented him with a handsome silver watch, as a token of the esteem in which he was held. The presentation was made with a neatly prepared speech by Elmer Cutting, to which Mr. Braider responded in a fitting manner.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph's drug store.

Will be Away Till September.

After next Sunday Ward Stephens, the organist at the Crescent Avenue church, will be away until next September. Mr. Stephens has secured an efficient person to fill his position, and the standard of music at the church will be maintained to a satisfactory degree.

JUST A TASTE

of our Butter is enough. Henceforth we have you as a customer.

We carry three different grades of butter, each of which has its special merits.

Our Rockdale Print Butter at 26 cents per pound, is the best on earth. It has the rich, delicate flavor of the finest cream and for table use cannot be surpassed.

Some of the cheaper grades of butter sold elsewhere are often tasteless. Our lowest priced goods are of excellent flavor.

Lokal-Nachrichten aus der alten Heimath.

Thüringische Staaten.

Altenburg. Bei der patriotischen Feier und durch die Lotterie für die Errichtung der Bismarck-Säule auf dem Reuster Berge sind 10,000 Mark eingegangen. Nach Abzug aller Unkosten verblieb ein Reingewinn von 7400 Mark.

Jena. Für ein neues Universitätsgebäude bewilligte die Karl Zeiß-Stiftung 500,000 Mark, die Stadt Jena 150,000 Mark, ein ungenannter Bürger 100,000 Mark.

Wasungen. Bei der Landtagsstichwahl im hiesigen Kreise wurde der Sozialist Wehner mit 795 Stimmen gewählt. Der bündlerische Gegenkandidat erhielt 753 Stimmen.

Freie Städte.

Hamburg. Ende März d. J. war das Hamburger Segelschiff „Undine," der Rhederei Wachsmuth u. Krogmann gehörig, im Atlantischen Ozean untergegangen. Die Mannschaft verließ das Schiff in zwei Booten, von denen das eine, mit dem Kapitän an Bord, von einem Engländer angetroffen und gerettet wurde. Von dem zweiten Boote fehlte jede Nachricht. Letzter Tage erhielt nun die Rhederei ein Telegramm des Steuermanns, wonach die Besatzung auch dieses zweiten Bootes Hilfe fand und in Brisbane, Australien, gelandet wurde.—Der Millionär Kroerlin beging, nachdem er sein ganzes Vermögen in Börsenspekulationen verloren hatte, Selbstmord.

Kuxhaven. Kapitän Schmidt vom Schooner „Wilhelmine" fiel in der Nacht von seinem Schiffe über Bord und ertrank.

Bremen. Das der Rhederei von D. H. Wätjen gehörende eiserne Vollschiff „Adelaide" ist bei Yokohama, Japan, gestrandet. Die 21 Mann starke Besatzung wurde gerettet.—Der Großkaufmann Karl Schütte, der erst kürzlich 200,000 Mark für den Umbau der Kunsthalle stiftete, hat jetzt weitere 100,000 Mark für diesen Zweck dem Bremer Kunstverein überwiesen. Mit den von dem Großkaufmann Hachez früher gestifteten 200,000 Mark sieht nunmehr eine Summe von 500,000 Mark für die Vergrößerung der Kunsthalle zur Verfügung.

Lübeck. Während der Besitzer der Maislinger Mühle, Reinsdorff, sich mit seiner Familie in Lübeck im Cirkus befand, brannte sein ganzes Anwesen nieder.

Oldenburg.

Gremsmühlen. Im Diekseе fand man eine stark in Verwesung übergegangene Leiche, welche als die des seit Dezember v. J. vermißten Seemanns Frese erkannt wurde. Der Verstorbene war nach einem Besuche bei seiner Braut hierselbst spurlos verschwunden. Wahrscheinlich ist er das Opfer eines Unfalls geworden.

Mecklenburg.

Stavenhagen. Auf dem Nebengute von Schwandt ist von dem Grafen und der Gräfin von Schlesien ein Heim für erholungsbedürftige junge Mädchen errichtet worden, das dieser Tage feierlichst eingeweiht wurde. Aufnahme in die Anstalt finden mittellose, unbescholtene junge Mädchen, ohne Unterschied des Standes, die in der Ausübung ihres Berufes körperlich und geistig überarbeitet sind und der Erholung bedürfen.

Braunschweig. Anhalt.

Braunschweig. Bei dem engeren Wettbewerb um das für 300,000 Mark zu errichtende Landesdenkmal für Herzog Wilhelm wurde der Entwurf des Professors Menzel (Berlin) zur Ausführung bestimmt.—Dem Landtag ging eine Vorlage, betreffend den Umbau des hiesigen Hoftheaters, zu. Von den 1,300,000 Mark betragenden Kosten will der Regent ein Viertel übernehmen.

Dessau. Frau Oppenheim, Tochter des unlängst verstorbenen Barons Cohn, hat der Stadt Dessau 250,000 Mark für das Armenhaus gestiftet.

Großherzogthum Hessen.

Darmstadt. Die Studentenschaft der Technischen Hochschule brachte dem Geheimen Baurath Professor Pfarr einen solennen Fackelzug dar, an dem sich über 600 Studirende betheiligten. Veranlassung zu dieser Ehrung war, daß der Genannte einen ehrenvollen Ruf nach Stuttgart ausgeschlagen hatte, um seine Kraft auch fernerhin der hiesigen Hochschule zu widmen.

Alzey. Im Verlaufe eines Wortwechsels spaltete der Landwirth Geyer im nahen Nieder-Wiesen seinem Schwiegersohn Meyer mit der Holzaxt den Kopf, so daß Meyer noch am selben Tage verstarb. Der Thäter wurde in das Untersuchungsgefängniß nach Mainz gebracht.

Mainz. Unter ungeheurem Andrange von Nah und Fern fand jüngsthin die feierliche Weihe des Professors Dr. Brück zum Bischof von Mainz statt.—Anhier wurde ein angeblicher Schriftsteller Dr. jur. Dunkel-Doring aus Mittenwalde wegen Betrügereien verhaftet. Nach der Verhaftung wurde festgestellt, daß dieser angebliche „Dr. jur." ein vor einiger Zeit entlassener Zuchthaussträfling Namens Johann Max Dunkel ist, der zuletzt 4½ Jahre lang im Zuchthaus zu Ludwigsburg zugebracht hat.

THE MODE.

Summer Fancies In Gowns and Accessories.

White wash veils are again to the front and are very pretty. One of their great disadvantages has been that the heavy pattern of the border interfered with the expression of the face, but this season the veil is often reversed and the thick border placed uppermost, around the brim of the hat. This shows the pattern to better advantage and is more favorable to the features of the wearer.

Lace is everywhere triumphant. Gowns entirely of lace over an underdress of silk or satin will be among the most elegant of formal toilets. They will be seen in black chantilly and in cream and white in imitation of all the principal varieties of lace. These lace gowns are sometimes

EMPIRE GOWN.

closely applied to the satin beneath, although made and shaped in one piece themselves—at least the skirt in one piece and the bodice in another.

The empire scarf is revived, the scarf worn by Josephine in the celebrated Louvre portrait. It is of the softest materials—Indian cashmere, crepe de chine, foulard or mousseline de soie—and is extremely graceful.

The ball gown illustrated is in the empire style. The foundation is a plain princess gown of straw tinted satin. Over this is a short bolero of turquoise velvet, partly covered with an embroidered application of straw satin. From the lower edge of the bolero falls a transparent skirt of white net, embroidered around the foot. A drapery of white tulle outlines the decolletage and forms sleeves. The hair is dressed high, with curls at the side, and has ornaments of lines of jewels. JUDIC CHOLLET.

SUMMER HATS.

Pretty Ideas In Millinery For Warm Weather.

A new hat model is entirely composed of petals of roses veiled in white tulle, on which are applications of chantilly. Another, of lace straw of the natural yellow tint, is lavishly trimmed with fine plaitings of yellow lace and clusters of cherries with leaves and twigs.

Hats entirely of tulle are sometimes simply trimmed with one large rose, with an aigret of foliage. Grapes, cherries

CRAPE COSTUME.

and currants, however, with berries of various kinds, are more worn or are at least far newer than flowers. These and the enormous choux of soft ribbon in delicate pastel shades of color are the chief millinery novelties of the season. Half a dozen shades of the ribbon are often used together, but as they are of the palest, airiest possible tone the effect of mingled blue, purple, yellow, green and pink is charming instead of being unpleasant. Shirred and plaited taffeta also compose entire hats, which are trimmed with flowers or fruit like any other sort of hat.

The picture shows a costume of pink crepe de chine. Around the foot of the skirt is a plaited flounce headed by a band of guipure framed in folds of satin, and two similar bands encircle the body of the skirt. The bolero is ornamented with satin folds and has a large collar and revers of guipure bordered with a fine ruche of white mousseline de soie. The soft corselet belt is of crepe de chine and ties at the side with long, fringed ends. The chemisette is of plaited and embroidered pink mousseline de soie. The tight sleeves have guipure and satin folds at the wrists. The hat of white chip is trimmed with pink, curled ostrich plumes and pink flowers.

JUDIC CHOLLET.

ABOUT WOMANKIND.

What She Is Doing In Various Fields of Activity.

Among the women who have gone to Cuba to help in the work of reorganization is Mrs. Alice Campbell Chism. She is admirably equipped for the business. Mrs. Chism is an active member of the Professional Woman's League of New York, and recently completed a course at the Pratt Institute of Brooklyn, which she took in order to perfect herself in some useful and practical lines of industry which she will teach to young Cuban women. Millinery, dressmaking, manicuring and hairdressing are some of the things she will teach, for she expects her pupils to become self supporting.

Mrs. Elizabeth Cobb Avis is the only real daughter of the American Revolution in St. Louis. Her father was a soldier in General Knox's command. He served at Bunker Hill and Valley Forge. Mrs. Avis is now 90 years old.

The whole south is justified in being proud of the editor of The Southern Home Journal. Miss Ida May has inherited her literary ability from a long line of brainy folk. From a small local paper The Southern Home Journal under her management has outgrown the borders of its own state and is now a welcome paper in homes throughout the south.

The daughter of Tom Reed is now a full fledged lawyer, with the chancellor's certificate of the woman's law class of the University of New York. She expects to practice in her father's office.

A noteworthy family of lawyers resides in Milwaukee. Mrs. Kate Pier and her three daughters have all been graduated from the same college and, remarkable to relate, practice their profession in the same office.

Lafayette, Ind., is the proud claimant of a remarkable young girl. Until recently Miss Sonia Wright was unacquainted with the use of firearms, but a few weeks ago she had a chance to learn the use of them, and she has decided to make the most of it. The first shot fired struck the bullseye. Naturally it was supposed to have been a lucky shot, but it only served to show that the young lady had a talent of which she was not aware, for at the second lesson she put 20 out of a possible 22 shots in a space one inch long and half an inch wide at offhand target practice, ten yards distance. Miss Wright intends by practice to become as expert with the rifle as it is possible for a woman to be.

Mrs. William Todd Helmuth of New York, who has been mentioned for the presidency of the General Federation of Women's Clubs, is not only the president of the New York Federation of Women's Clubs, but is several times ex-president of Sorosis and an honorary member of 27 clubs.

The women of Stanford university have won a victory for the coed element. Miss M. E. McDougald has had the highest literary honor paid her by being elected to edit The College Annual. Before entering the university Miss McDougald had been doing newspaper work on the San Francisco Chronicle, and since then she has been writing for the college paper.

One of the Japanese students at Yale still clings to her native kimono and the other artistic features of her native costume. Miss Yoshi Yamaguchi is studying music so that she may return to her own country and teach the children there the beauties of music as we know them.

The Princess Sada Kujo, named as the bride of the prince imperial of Japan, has a genealogical tree dating back to A. D. 650.

In the presence of professors, advanced students and friends Miss Jessica Blanche Peixotto of San Francisco successfully passed her final examination for the degree of doctor of philosophy at Berkeley recently. This honor the University of California has conferred but 13 times in 36 years and but once before on a woman.

A school for women librarians has been opened in Berlin providing two courses of instruction, one of six months for ordinary public library work, and another, which has reference to scientific libraries, extends over three years.

Because he suggested a way in which the shah of Persia might take his favorite wife with him on his trip to England, United States Minister Bowen has been decorated with the order of the Sun and Lion. The difficulty confronting the shah was that, in her native costume, his favorite wife would attract an immense amount of attention. Still, he did not want to go to England without her. Minister Bowen suggested that she might be dressed as a page. This delighted the ruler of Persia. He ordered the disguise to be adopted, and Mr. Bowen decorated.

ANNETTE CRAWFORD.

A NEW BOER HEROINE.

"Rightman's Girl" and How She Defied General Kitchener to Save Her Home.

BY ETHEL DE VERE.

One of the prettiest stories which have come ouf of South Africa since the beginning of the British-Boer war has to do with a young woman who is known to fame by no other name than that of "Rightman's girl." She is also called "a Boer Barbara Frietchie," but this is hardly fair to her. She is no imitator. It is entirely probable that she never heard of "Stonewall" Jackson at all. What she did when she defied Kitchener and saved her home, for this she did do, was entirely original.

Rightman was one of the Boer commandants. He lived on a farm in the Prieska region, and when the war broke out he took his rifle and went to the front. At intervals he returned for ammunition and provisions. He made his home a rendezvous for Boer recruits. Later, when there had been heavy fighting in the neighborhood, he turned it into a Boer hospital.

At intervals, when he and his fellow burghers were at a distance, the little lone house on the veldt was left in charge of his daughter. It is too bad that her full name has not been told. Just "Rightman's girl" is the way she has been spoken of in South Africa. She is said to be a comely young woman, clear of eye, plump of figure and with a quick brain and a stout heart. She knows how to spin and weave and bake and brew, and do all the things which a good hausfrau ought to do.

All went well until Roberts began to move north with his great army. He sent the famous Kitchener to clear the path and keep it clear. Among other things he was especially directed to clear out the Prieska district. He was particularly told to hunt out the home of Commandant Rightman and destroy it. "Burn" was the order. Roberts had heard of this Rightman and of the humiliating defeats he had inflicted on the British.

Onward marched the hero of Kandahar, down on the plain went the hero of the Sudan, his detachments thrown out, to sweep the little settlements. Occasionally the English soldiers encountered small parties of Boers. Then came the charge, the battle, the scattering of one side or the other.

One day they came upon the Rightman farmhouse. Kitchener and his staff rode at the rear of the command. "Burn," said the general as he sent for a sergeant and pointed out the little

"RIGHTMAN'S GIRL" DEFYING KITCHENER.

house. The sergeant started with a small detachment of troopers, for the burning of farmhouses was a very ordinary thing.

The troops waited, expecting every moment to see smoke curl up around the roof and flames burst from the windows. They waited and waited, and when they got out their spyglasses they saw the sergeant still parleying with a pretty and excited girl at the door. Kitchener started forward with his staff at a sharp gallop, their swords clanking, spurs jingling.

"What's that?" Kitchener said, as he drew up at the door.

"Rightman's girl" had heard of Kitchener, and she knew what the orders were. But she drew herself up and looked at him defiantly, bracing her hands against the sides of the door.

"You shall not burn this house. I am here, and here I intend to stay," she said.

For a moment the chief of staff looked at the little woman—"Rightman's girl." For a moment he gazed into her eyes, and then turned sharply. Then he raised his hand and a military secretary spurred to the front.

"Put it down that the commander's orders with reference to the destruction of Rightman's farm could not be carried out, owing to unexpected opposition," Kitchener growled, and then he waited a second and turned toward the girl in the doorway.

She was still there with arms stretched out—a pretty figure. The chief of staff wheeled again.

"Forward!" And then staff spurred behind him, while the rugged troopers felt a strange throbbing under their khaki uniforms for the brave little woman who was watching them ride away.

"March on," he said. The line is familiar. The picture every man and woman has conjured, every boy and girl has dwelt upon, until Barbara Frietchie is just as much a part of the great civil struggle in this country as were the great guns and the great gun carriages.

"Forward!" "Rightman's girl" was left in the doorway of her farm—a heroine of the struggling Boers.

Gatherings of Specialists at the Paris Exposition

The Many Important Congresses Will Be a Wonderful Feature of the Great Fair

HUNDREDS of specialists representing all lines of thought, will flock to Paris from the first of June to the first of September to attend the more than 100 different congresses that will be held in the city and exposition grounds during that time.

There is probably no more important feature of the exposition from an educational standpoint than the meeting of these congresses. They will bring together the leaders of thought along the various lines represented from all countries, and the discussion of the important subjects cannot fail of being beneficial to the world at large.

For the accommodation of these congresses, which are held under the patronage of the French government, the exposition authorities have erected a beautiful building on the Quai de la Conference, which stands partially on land and partially over the River Seine. The design is an attractive one, special care having been taken with the vast galleries, over 100 yards long, and over 12 yards wide, on the Seine. The ceiling of this gallery is of stained glass. All the chambers in which the congresses are to be held lead into the gallery. Members will thus be able to meet one another at all times; and in the evening distinguished visitors to Paris will be invited to witness from this immense hall the illuminations and fairy night scenes on the River Seine.

Some idea of the scope of these congresses may be gathered from the following general classification into which they have been divided:

1. Education and teaching — Primary, secondary, higher, technical. commercial and industrial, living languages. design, teaching of agriculture, of social sciences, popular instruction, social education, education press.

2. Fine arts, letters, history—Architects, Americanists, anthropology and prehistoric archaeology, Basque studies, bibliography, ethnographic sciences, comparative history, history of religions, folklore, numismatics.

3. Mathematical sciences.

4. Physical and chemical sciences—Physics, applied chemistry, electricians.

5. Natural sciences — Geological, psychology, mines and metallurgy, ornithology.

6. Medical and pharmaceutical sciences—Medical, homeopathy, professional medicine and medical dentology, dental, dermatology, hypnotism, medical press.

7. Applied mechanics, engineering, transportation — Applied mechanics, steam engines (supervision and safety), railways, tramways, naval architecture and destruction, navigation, aeronautical, automobilism.

8. Agricultural sciences — Agriculture (teaching of agriculture), agronomic stations, fisheries, rational alimentation of cattle, horticulture, forestry, viticulture.

9. Political sciences, statistics—Actuaries, industrial property right, maritime law, real estate property.

10. Social sciences—Charities, public and private, labor accidents and society insurance, people's credit bank, hygiene and demography, cheap dwellings, profit sharing, Sunday rest, cooperative alliance, workingmen's association of production, cooperative supply societies, blind, woman's rights, prisoners' aid societies, aid societies of working youth, life saving, anti-slavery, firemen (officers).

11. Colonization and geographical sciences—Geography, colonial, colonial sociology; anti-slavery.

12. General industry, art, manufactures, commerce—Commerce and industry, testing of materials, thread numbering (textile), photography, stenography.

For some of these congresses more detailed programmes have already been arranged, and of these a portion of the more interesting ones are given below:

International Congress for Cheap Dwellings.—This congress will take place on June 18, 19, 20 and 21, 1900. The programme for discussion comprises subjects such as, groups of buildings, separate houses, workmen's gardens and the intervention of public officers and special legislation in the different countries.

International Congress of Commercial Travelers and Representatives.—This congress will be held on July 9, 10 and 11. The detailed programme divides the work of the congress into three sections devoted, the first to professional interests; the second to transportation (rates on samples and packages, postal, telegraph and telephone rates), the third to questions of political economy (mutual cooperation, profit-sharing, extension of colonial and foreign commerce).

Congress of Life-Saving and of First Aid to the Injured.—This congress will open on July 17 and will last several days. All kinds of life-saving and all means of aid at sea, on land, in water and fire will be examined as well as the work of stretcher-bearers and of ambulances in time of peace and in time of war. Municipalities may be represented at this congress, whose labors will be divided into eight sections: Sections I, II and III; life-saving at sea, in rivers and in fires; Sections IV and V, aid on the public streets, in workshops and factories; Section VI, work of life-savers in time of war; Section VII, aid to life-savers who have fallen victims of their courage; Sections VIII, committee on competition.

International Congress of Navigation.—This congress will open in Paris on July 28, 1900, and will last seven days. The questions which will be examined concern the works and exploitation of interior and ocean navigation; the regularization and general rules for river traffic.

International Congress for the Regulation of Tariffs.—This will take place from July 30 to August 4. It has for object the study of the means of solving complex questions arising out of the application of tariff laws and regulations, and to frame a certain number of resolutions destined later to receive the sanction of a diplomatic conference. It is needless to say that this congress will put aside all questions of doctrine and pure theory; it will leave aside also discussions of an economic order concerning protection and free trade to devote itself solely to questions of general taxation and the various formalities used in different countries; in a word, to the mechanism of the customhouse and the improvements that may be introduced in them.

International Congress of Colonial Sociology.—This congress will be held from August 6 to 11, 1900. Its order of business will include the study of following questions: 1. Political condition of natives. To what extent and under what circumstances is there opportunity to maintain native administrative organizations? How and by what means can the native population be shown the way to defend its rights and make its complaints prevail with local authorities? 2. Judicial condition of natives. Their condition from the point of view of civil and criminal legislation and the dispensing of justice. Respect for the property of natives and the means of reconciling this respect with the needs of colonization. 3. Moral condition of the natives. Means to which it would be advisable to have recourse to raise their intellectual and moral level. 4. Material condition of the natives. Measures appropriate to insure the preservation of the race, to prevent its physical degeneration and to improve its conditions of existence.

The International Medical Congress.—The congress of medicine will be held from August 2 to 9. The labors of this congress will be divided into two classes. Class I is devoted to biological sciences and embraces comparative anatomy, descriptive anatomy, histology, embryology, physiology, and biological physics and chemistry. Class II is devoted to medical sciences and embraces general pathology, experimental pathology, bacteriology, parasitology, pathological anatomy, internal pathology and the treatment of children's diseases.

International Congress of Electricity.—This will open on August 18, 1900, and will last eight days. Among the principal questions which figure on its programme we may mention: Apparatus for measurements, electric transformers, electric traction, electro-chemistry, electro-metallurgy, accumulators, electric furnaces and their different applications, telegraphy, telephony and electro-physiology.

International Congress of Economic and Commercial Geography.—The congress of economic and commercial geography has been organized by the Societe de Geographie Commerciale. It will take place from August 7 to 31, 1900, and will be divided into four distinct sections specifically devoted to explorations and commercial routes; natural and manufactured products; emigration; colonization and the teaching of commercial geography. The president of the congress is M. Levasseur, member of the institute.

As the number of congresses to be accommodated is so great, the exposition authorities have found it necessary to arrange for meeting places outside of the building erected for them. Other halls within the exposition grounds, as well as several places in the city of Paris outside of the exposition grounds, have been secured, so that several of them may be in session at one time.

BERNHARD BRISTOL.

CONGRESS HALL AND PALACE OF SOCIAL ECONOMY.

A Good Cause.

"Lady, wud yer please drop ten cents in dis box?"

"To go in whisky?"

"Yes, ma'am, to go in whisky."

"What! You have the bare face to stand there and ask me for money to spend in whisky?"

"Allow me to explain, ma'am. De town temperance committee has got me to be de 'horrible example.' As it takes a good quantity of liquor to make dis example horrible, de committee has been forced to inaugurate a house-to-house takin'."—Chicago Evening News.

No Doubt About It.

Kate—Do you really believe that Mattie loves Mr. Cortly?

Clara—Oh, I am sure of it. The last time he called, I hear, she let him hold Fido all the time he was there.—Boston Transcript.

The present queen of Italy eloped with an artillery officer, who, on the union turning out unhappy, committed suicide.

WAS A GOOD INDIAN.

Washakie, Head Chief of the Entire Tribe of Shoshones.

He Lived to Be Over a Hundred and Was Respected by All Who Knew Him—Rode a Wheel in His Old Age.

Plans are being made by officials of the Indian office in Washington for the erection of an artistic and suitable monument upon the plot where the remains of the noble Indian Chief Washakie were buried in February last. His grave is situated in a peaceful, picturesque section of the Post cemetery at Fort Washakie, which was named after the old man a long time ago. Washakie was a sworn friend to the white people, endeavored always to maintain peace, is quoted in history as never permitting a white man's blood to be shed if he could prevent it, and he was esteemed by all persons with whom he came in contact, both Americans and his own people. The report of Agent Nickerson, of the Shoshone agency, which contained news of Washakie's death, said that there was a larger attendance at his funeral than had been seen in the vicinity of the Wind River reservation in the last 20 years.

Washakie was born, as nearly as can be estimated, although some authorities say that he was much older, in 1796. He fought in many battles, displaying fine qualities as a warrior, and at all times treating his enemies and captives with great kindness. He was subtle and active until a few months before he died, when he became physically weak and feeble, but his mind was clear, and his last wish, which he expressed through an interpreter a day or so before he died, was that he be buried a Christian in the Fort Washakie cemetery and have a military funeral. This wish was gladly fulfilled, for he was loved by all the officers of the post,

CHIEF WASHAKIE.
(Indian Dignitary Who Died in Wyoming, Aged Over 100.)

and he was buried with the honors of a regular army officer.

Washakie was not only chief of the eastern band of the Shoshones in Wyoming, but was the head of the entire tribe, some branches of which are scattered in parts of Montana and Utah. Whenever portions of the tribe desired to make requests of congress or when disputes arose with other Indians, Washakie's advice was solicited and considered of value. His remarkable oratorical ability has been commented upon by all the government officers who have visited the Wind River reservation, and a member of the bureau of ethnology once heard him preach a fine sermon. He said it showed considerable familiarity with the Bible and was expressed in plain but attractive words of the Shoshone language. Washakie was a great promoter of Christianity and education, and the present intellectuality of the Shoshones, as a band, is largely due to his strenuous efforts. He compelled all of the children of his tribe to go to the public schools in the rural district where he lived, 150 miles from a railroad, and was instrumental in sending several of his tribe to the Carlisle school. One of these has since become a minister in the Episcopal church, to which Washakie belonged.

Washakie also had the unique distinction of being the only Indian who ever propelled a bicycle at the age of 100 years. On the anniversary of his one hundredth birthday the agent of the reservation placed him upon a wheel and photographed him as he pedaled along for a few yards. This tickled the old man greatly, for he appreciated the fact that it is a rare occurrence for a man of that ripe old age to ride a wheel. He remarked, when he had dismounted, that "he believed that he could soon learn to be an exper. wheelman."

Used Splinters for Bullets.

In the old days when hunters used to have to keep an eye for Indians, some strange adventures were chronicled, when all sorts of missiles were used for bullets, from pebbles to jackknives. Not so many years ago a hunter, with a muzzle loader, found himself with lots of powder but only one bullet. The bullet shot off the horn of a big stag, and the stag charged the man, who took to a treetop. He spent his time whittling off two inch lengths of branches, ramming them down on the powder and shooting the deer, filling the animal with splinters. Finally the man's partner came along and killed the deer, but the man in the tree declared he would have soon finished him.

Didn't Worry Him Much.

There has been found a whale with a harpoon in its body which by its mark showed that it must have been hurled at the whale at least 36 years ago.

South Carolina Homicides.

Homicides in South Carolina have averaged over 200 a year for the last five years.

Some of the Men and Matters That Interest CHICAGO

John W. Gates, chairman of the board of directors of the American Steel and Wire company, one of the wealthiest men of Chicago, and a financier who is feared, hated and admired by practically every dabbler in stocks in the country, has made his wealth and acquired the influence in the commercial world that permits him to close immense factories at a moment's notice within the past 15 years.

In the Mountains of Missouri.

Fifteen years ago John W. Gates was the proprietor of a little barbed wire factory in the mountains of Missouri that was being run in opposition to the Washburn & Moen factory of those days. The latter firm controlled all the patents under which barbed wire was being manufactured, but Gates copied their machinery and made wire by the same process and then put it on the market at 25 per cent. less than the older factory was selling it for.

Of course there was a legal fight. The Washburn & Moen company brought suit for infringement of their patents and secured a judgment against Gates, but when the sheriff attempted to serve the papers in the case and close up the factory, he found it had vanished. Gates had quietly removed his plant from the mountains of Missouri to Illinois and kept right on making barbed wire. Other suits followed, and in time the venturesome young man, then not over 30 years of age, won his point; the Washburn & Moen patents were declared invalid by the federal courts, and Gates had successfully laid the foundation for a great fortune and great influence in the commercial world.

$15,000,000 in Eight Years.

John W. Gates is said to have made $15,000,000 in the past eight years. That is nearly $2,000,000 a year, and is probably as great a sum as any other American millionaire can claim to have made within that time. But Gates had to begin work eight years ago with practically nothing in the way of capital in comparison with the American millionaires, but he had the daring of a Gould to compensate for the lack of dollars.

Gates' Wire Interests of To-Day.

The public first began to realize who John W. Gates was only two years ago, when they awakened to the fact that a great wire trust existed in the country, and that every important wire manufacturing plant in the country had been absorbed with the single exception of the Washburn & Moen company, and it was not long before Gates had brought that company safely into his fold. It had taken ten years to accomplish his purpose, but when it was completed he considered it worth the effort it had cost, and the name of John W. Gates was a power in the financial world.

By the time Gates had consolidated the wire interests of the country he had secured an interest in the Illinois Steel company in Chicago, and was its president. His interest in that concern led to the formation of the American Steel and Wire company, one of the greatest trusts in the country, and one that is to-day engaged in a battle royal with a mighty rival, the Federal Steel company. With the determination and daring of Gates on the side of the American Steel and Wire company, competent authorities say it is not hard to prophecy the final result of the battle that is now on.

Popular with the Politicians.

John W. Gates has been one of the popular men with the political leaders in Chicago. He has been known among them as "a good fellow." He has found it to his interest in the past to encourage these friendships, and it is said that this has been done by letting these political friends into the big deals in a small way. He told them when to buy and when to sell, and they followed his lead with profit. A number of Chicago politicians who have posed as trusted friends of the steel and wire magnate are said to have realized handsome profits in various deals in which Gates has been a leader. They bought stock in the Consolidated Steel & Wire company at his suggestion, and at a time when it was low because of the opposition of the Washburn & Moen company; they profited by the raise that came when that company entered the trust.

The Glitter of Magnificent Uniforms.

At another time it is said Gates found it convenient to buy heavily of Kansas City, Pittsburg & Gulf railroad stock when the stock was low, and his friends were again let in on the ground floor to their advantage. They have had points as to the manipulation of the American Steel & Wire company's stock, and have acted on these tips with profit to themselves.

These things took the steel magnate into politics in a small way. He was appointed a member of Gov. Tanner's staff, and has on various occasions dazzled the eyes of an admiring populace by the glitter of his magnificent uniforms. But it is asserted that even political friends were not taken into his confidence before the consummation of this last big deal, when American Steel stocks went tumbling down the scale into the bag held by Gates, and the friends of other days suffered heavily.

Would Not Be Bluffed.

The following story is told of the late Gen. McNulta, of Chicago, who died in Washington during the past winter:

"I Represent the Government."

Gen. McNulta had been appointed receiver of the Wabash railroad by Judge Gresham, then of the federal bench. The majority of the stock of the road was owned by Wall street capitalists.

A month or two after Gen. McNulta had taken the road in charge he received notice that the personal representatives of the Wall street capitalists desired to take a run over the line to inspect the property. They were courteously received by the representative of the United States court, who took them in a private car. Early in the progress of the tour they came to a portion of the line where very necessary but not extensive repairs were being made.

"Who ordered this expenditure?" bluntly inquired one of the men from New York, as the inspection party entered the car.

"I did," promptly responded Gen. McNulta, who then quietly explained the reasons which had dictated his act.

"Quite unnecessary," replied one of the eastern men, and another seconded this opinion with the declaration:

"Well, we don't want any more outlays of that kind."

"No," chimed in the third capitalistic representative. "It might as well be clearly understood that this is not in line with the policy we wish carried out with respect to the road."

This was altogether too much for the bluff and sturdy old Scotchman. Jumping to his feet, Gen. McNulta exclaimed:

"Gentlemen, look here! You represent the men who own the bulk of this road's securities. I understand that. But I want you to understand that, as a receiver appointed by the United States court, I represent the government of this country, and if you offer another attempt to dictate the manner in which I shall discharge that trust I'll put you off this car at the next station. I'm running this road right now!"

A "Dead-Letter" Ordinance.

In every city there is no end to the making of ordinances; in the majority of cities there is but a small beginning to the enforcement of them after they are made.

Did It Ever Happen to You?

In Chicago there are hundreds of ordinances that are spread upon the statute books of the municipality by zealous city fathers, and then are at once forgotten. I was advised of the existence of one of these "dead-letter" ordinances a few days ago.

Did you ever stand on a street crossing while a short wagon loaded with long timbers or structural iron work passed and then have the wagon suddenly turn the corner away from you, so as to swing the projecting timbers around in your direction? I have, but when the wagon had completed the turn, and the projecting timbers were pointing west instead of north, I was no longer standing on the crossing, but was extricating myself from the mud of a Chicago street.

The incident made me think that there should be a law that would prevent such unhappy accidents, and I broached the subject to one of the city fathers.

"There is such a law, but I never heard of its being enforced," said the official, "and you can recover damages from the owner of that wagon." Then he found for me the following:

It shall not be lawful for any public cartman or any other person to cart or transport through any of the streets of said city any planks, poles, spars, timber or other thing exceeding 20 feet in length, except on a suitable truck or other vehicle, and such plank or other thing shall be placed lengthwise thereon, so as not to project at either end beyond the line of the side or width of such truck or other vehicle.

But the owner of the wagon was never called upon to pay for the clothes his disregard of the law had caused to be ruined, for the very simple reason that I had been too busy escaping from the view of an amused multitude to ascertain who the owner or the driver was. But the law is one of the "dead-letter" ordinances of Chicago.

WRIGHT A. PATTERSON.

Every little helps. The single bag order added to the small and large orders of several thousand other customers help to make our big daily business. The big business enables us to maintain our large elevator and cleaning plant and our own buying offices in the west, so that each customer gets the advantage of the improvement in quality and the saving in intermediate profits.

We sell any quantity from eleven pounds to a carload and in each case the price is based on the market and is the same to every one for the same service, and is published in cold type.

Mixed oats	70c per bag	Gluten	90c per 100
Mixed Clips	72c per bag	Cotton Seed Meal	1.35 per 100
2 White Oats	72c per bag	Oil Meal	$1.45 per 100
Regular Clips	75c per bag	Elevator B. Screenings	65c per 100
X. B. Clips	77c per bag	Our Poultry Food	$1.15 per 100
Ear Corn	75c per 100	Barley (96 lbs)	$1.15 per bag
Yellow Corn	88c per 100	Wheat	$1.35 per 100
Cracked Corn	93c per 100	No. 1 Grain Mixture	$1.15 per 100
Coarse Meal	93c per 100	Cut Hay	90c per 100

SPORTING.

AMONG THE STEPPERS.

A large crowd witnessed the regular matinee race meet of the Gentleman's Driving Association held at the Driving Park, Saturday. Although there was only one event, it was the most exciting race of the season. It was between Newton B. Smalley's "Fred," Charles Brower's "Simoleaf," both trotters, and David Smalley's pacer, "Ned Davis." The first go resulted in a dead heat between "Fred" and "Ned Davis," with "Simoleaf" two lengths behind. The time was 2:32. The second heat was more exciting than the first, the three keeping well together until the three quarter pole was reached, when "Davis" and "Fred" drew ahead, the former winning in a driving finish by head and shoulders. The time was 2:30, the last quarter being made in thirty-six seconds. An exhibition mile was given by A. C. Vail's roan gelding, "Rover H," with an ordinary road wagon. A grander horse was never seen on the track. Although not urged in the least, he stepped a mile in 2:31. The way he stepped in the home stretch convinced the best judges he could win in almost any class.

GOLF

The first round in the golf match between the staffs of The Daily Press and the News was played on the links of the Park Golf Club Saturday afternoon, when Charles B. Morse, of The Daily Press, defeated Louis H. Thomas, of the News, three up. Walter C. Dobbins, of The Press, will play M. F. Elderton, of the News, and Thos. Muir, of The Press, will play Francis E. Whiteside, of the News, during the week. Each round is of nine holes.

CYCLING COMMENT.

George Apgar and Victor Christofferson, of this city, finished in the first division of the Journal's century run last Saturday. They were started in the fifth division but by hard riding caught up with the first, making the complete run in less than ten hours. Both riders escaped without accident and report an excellent time. They secured a handsome gold medal as a trophy of the run.

ON THE DIAMOND

A baseball game was played on the Washington avenue grounds Saturday between the St. Mary's team and the Y. M. O. A. S. of Newark. The local nine was defeated by a score of 6 to 4.

The Arion baseball team is highly incensed at the action of the Lincoln High School team, of Westfield, in disappointing them on last Saturday's game. The Arions journeyed to Westfield, but the team was not ready to play them.

Local News on Pages 2 and 3.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder. It cures painful, smarting, swollen feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Plainfield, N. J.
Tel. 851.

Death of Miss Stine.

The death of Miss Catherine S. Stine, aged 73 years, died at her home on Greenbrook road, Saturday night of valvular heart trouble. She was a native of the borough, and has always lived there. She was a sister of the late William Stine, who died a few weeks ago, in the borough, also a brother of the late Jacob Stine, who died in Brooklyn recently. A brother, John and two sisters, with whom she lived, survive her. The funeral services will be held tomorrow afternoon from the house at 3 o'clock.

Dr. Davis' Overcoat Stolen.

Dr. Davis, of Park avenue, is mourning the loss of a valuable spring overcoat which was stolen from him while he was in transit between Buffalo and Jersey City, some time between Friday night and Saturday morning. The coat was in his berth when the train left Buffalo, but just before Jersey City was reached the doctor missed it. Diligent searching and inquiries were of no avail and he was forced to give it up for lost.

Red Men Growing.

Great Sachem William Newcorn, of the Improved Order of Red Men, went to Ramseys Saturday evening to hold a preliminary meeting of the members of the new tribe that is to be instituted at that place this week. Great Sachem Newcorn is planning to start two new tribes this week, the one at Ramseys and another at Woodbridge.

Great Secrecy as to Programme.

The class day exercises of the class of 1900 of the Plainfield High School will be held tomorrow evening in the Assembly Hall of the Franklin building. Great secrecy is maintained concerning the programme but it is understood that everybody is going to be remembered. The baseball team is promised a lively handling.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

A Lawn Festival.

The Sunday-school of the First M. E. church will hold a festival on the lawn of N. W. Pike, of East Front street, this evening. The affair will be for the benefit of the library fund.

Class Day Exercises.

Class Day exercises will be held tomorrow evening in the Borough High School building. The commencement exercises will be held Friday evening in Music Hall.

For Relief of Famine.

The offering at the Crescent Avenue church yesterday morning was for the Indian Famine Relief Fund and the sum of $250 was received.

New Looms Needed.

The Watchung Silk Company has been purchasing several new looms to meet the increase in business.

CHINESE FORTS TAKEN.

Bombardment and Surrender at Taku—Foreign Ships First Fired On.

(Special to The Daily Press.)

Washington, June 18—The Navy Department has been informed by Rear-Admiral Kempff that the Taku forts yesterday fired on the foreign ships, and, after a brief engagement, surrendered.

The War Department confirms the report that the Ninth Infantry has been ordered from Manila to China. Col. Emerson H. Liscum commands the regiment, which has had its headquarters at Tariac, about two hours distant by rail from Manila. War department officials say that the regiment probably is already aboard the transport, and ready to sail for China.

NOT A WILD MAN AFTER ALL.

It Was Only a Frenchman Who Got Lost in the Woods and Could Not Talk.

The wild man who created so much terror in Union, a little village north of Elizabeth, on Friday and Saturday, has been captured by the constables of Justice Noah Woodruff of Roselle, who were detailed to get him. He proved to be a Frenchman, 76 years old, who was on a visit to his son in Roselle on Friday. The old man is deaf and cannot speak English.

He got lost while walking through the woods and strayed all over the country scaring people and being scared by the commotion he was making. When found he was cut and bruised by the briars through which he plunged when chased by farmers, who saw him picking berries and climbing trees to escape dogs which were after him.

He was found cowering behind a tree and taken before Justice Woodruff, who committed him to the Union County Jail, where his son found him and secured his release. The old man wrote his name on tha prison book as Louis Chabloz, of New York.

Hero of Manila's Battle to Lecture.

Louis Stanley Young, who has just completed a service of seven years in Uncle Sam's Navy, and who was a member of the crew of the famous Olympia, Admiral Dewey's ship, in the engagement at Manila, is in Plainfield and this evening he will give an illustrated lecture in the Camera Club rooms, telling a great deal about the recent trouble. He has many fine pictures and will describe them in a graphic manner. Mr. Young was in charge of one of the big guns on the Olympia, during the fight at Manila, and he will relate many experiences which have never been printed. He will also exhibit a large number of curios gathered by him in Spanish waters.

Iceman Killed on the Railroad.

(Special to The Daily Press.)

Somerville, June 18.—Portions of a human body were found scattered along the tracks of the Central Railroad for a half-mile between this place and Raritan at daylight yesterday. For a time it was impossible to identify the body. It was finally learned that Martin Tolman, an iceman in the employ of Gallagher & Richards, at Raritan, was missing, and was able to identify some portions of the clothing. He leaves a widow and five children.

Skirt Caught in Bicycle Chain.

Miss Barbara Smith, of Elizabeth, was thrown from her wheel at the corner of East Fifth and Washington streets, yesterday afternoon, by her skirt catching in the chain. She fell heavily on her left side, spraining her arm, besides receiving a number of cuts and bruises. She was assisted by her companions to the home of friends in this city where her injuries were attended to.

Nothing But Smoke.

The fire department was summoned to the residence of J. T. Baker, of Stelle avenue, last evening, but upon the arrival of Chief Doane and a hose truck, no fire was found. The trouble was caused by a defective flue, which smoked badly, giving the impression that it was on fire. This is the second time an alarm has been given on this account and the trouble will now be fixed.

Mr. Andrews in Elizabeth.

Frederic H. Andrews, chairman of the state executive committee of the Young Men's Christian Associations of New Jersey, was the speaker at the Y. M. C. A. rooms yesterday afternoon. Mr. Andrews is a prominent man in Y. M. C. A. circles throughout the State, a devoted Christian business man, and a highly enjoyable speaker.

Vacations for Cops Commenced.

The police officers began their regular summer vacations this summer. Ten days are given to each man. Officers Totten and Meyers are the first ones off.

—The closing exercises of Miss Harriott's kindergarten school on Washington avenue, will be held on Friday morning of this week.

BURNED BY ELECTRICITY.

Dangerous Accidents That Happened to Men Stringing Trolley Wires on Arlington Avenue.

Linemen in the employ of the Street Railway Company declare that there were more accidents on the Arlington avenue line than any other they have ever worked on either in this or any other city. Hardly a day passed without some one met with a mishap. Several of the unfortunates are still under a doctor's care.

Last Friday Peter Fleming was caught by a live wire while hanging brackets, and but for the quick work of Joseph Malone would have been badly hurt. As it was his hands were so severely burned as to force him to quit work.

Saturday Charles Leonard was at work on a fifteen-foot ladder, placing a guard-wire in position, when he accidentally completed a circuit by touching an iron pole, and he was hurled backward off the ladder. He was badly bruised and his hands burned, but fortunately no bones were broken.

The men worked until late Saturday night putting in the turnout wire to enable cars to run on schedule time yesterday. The entire line is now completed.

PARTICULAR MENTION.

Wm. Bradley, of North avenue, visited his parents in Brooklyn yesterday.

Augustus R. Faber, of Sycamore avenue, is home from Princeton, University.

Edward Sutton, of West Front street, has taken a position with the Postal Telegraph Company.

Miss Constance Patton, of West Fifth street, has returned from Smith College for the summer vacation.

Miss Grace Clark, of the borough, has secured a position as saleswoman at Peck's store, West Front street.

Mr. and Mrs. George Weida, of West Front street, have been entertaining company from out of town.

The condition of Walter Dreier, of West Front street, is not much improved, if anything it is a little weaker.

Mr. and Mrs. Robert Dryden, of New York, spent Sunday with Mr. and Mrs. Peter Schultz, of 1121 Putnam avenue.

Miss Edith L. Burt, of West Seventh street, has been at Wellesley, Mass., attending the commencement ceremonies of Wellesley College.

Mr. and Mrs. Nathan Lewis, of West Sixth street, are rejoicing over the arrival this morning of a baby boy, and congratulations are being offered.

Mrs. Henry Bender, of 341 Watchung avenue, who took such excellent care of the late Miss Dissa Lund during her illness, is very ill at her home.

The wedding of Miss Skellinger, of Chester, Morris county, and Albert F. Baker, of West Fifth street, will occur Wednesday evening at the home of the bride.

Wallace Vail went to Philadelphia this morning to attend the Republican National Convention. He says he is not after the postoffice, but he goes to help nominate McKinley.

Miss Edna M. Howell, of Chester, Pa., was the guest of Miss Minnie G. Morse, of Franklin place, over Sunday and has now gone to New Brunswick to attend the commencement ceremonies of Rutgers College.

Murphy For Vice President.

SPRINGFIELD, Mo., June 18.—Hon. J. T. Delaney, a delegate to the national Democratic convention, said yesterday he was emphatically in favor of a New York man for vice president. His personal preference was Senator Murphy, who, he thought, will come nearer commanding the solid support of the New York delegation than any one whose name has been mentioned.

Tornado In Two States.

DALLAS, June 18.—Dallas was last night cut off from Arkansas and Mississippi by telegraph and telephone because of a tornado that passed through a portion of these states at about 4 o'clock yesterday afternoon, being particularly severe near Altheimer, Ark., and Trotter's Point, Miss. The extent of the damage is not known here, but it is believed to be very serious.

Died at Brother's Funeral.

AMSTERDAM, N. Y., June 18.—Henry C. McElwain, a prominent citizen of this place, died suddenly yesterday afternoon of heart disease while attending the funeral of his brother, Willard McElwain, a prominent knit goods manufacturer.

CONDENSED DISPATCHES.

An unidentified man jumped from the Brooklyn bridge and was drowned.

Moscow, a town of 800 inhabitants, located in Livingston county, N. Y., was nearly destroyed by fire.

Four children were burned to death in a fire which destroyed the Leadville (Col.) Home For Friendless Children.

The village of Smyrna, N. Y., 40 miles south of Utica, was practically wiped out by fire. The property damage will exceed $80,000.

Miss Marguerite Gast completed her 1,000 mile record ride at Valley Stream, N. Y., after riding almost continuously for 113 hours and 23 minutes.

The Royal library at Berlin has purchased the recently discovered correspondence of Alexander von Humboldt, covering the years from 1830 to 1840.

The Elbe-Trave canal was opened with great ceremonious pageantry in the presence of the emperor and cabinet and delegates from cities throughout Germany.

HILLSIDE GOLFERS IN WINNING TRIM

[CONTINUED FROM PAGE 1.]

Club, and this fact made the victory one to feel proud of. The Hillside members were accompanied by several of their male friends from the club, who served as caddies, and coached the fair contestants on to victory. The score of the contest follows:

HILLSIDE.		NEW BRUNSWICK.	
Miss G. Andrews	6	Miss Smith	0
Miss VanHerwerden	0	Miss Williamson	0

CONVENTION IN SESSION.

But Few Union County Men are Privileged to Witness the Proceedings.

MR. FISK IS NOT THERE.

HIS HEALTH WOULD NOT ALLOW HIM TO SERVE.

His Alternate, E. P. Allen, Occupies His Seat—Quite a Large Delegation of Plainfielders Present.

(By a Staff Correspondent.)

Philadelphia, June 12—At noon today the Republican National convention was called to order in the big hall of the Export Exposition and the work of choosing the candidates in the race for President and Vice-President was begun. New Jersey will have but little to do. Its twenty delegates will support the choice of the administration. Of course the Presidential candidate is a foregone conclusion. It will be William McKinley. Under the leadership of Senator Kean, New Jersey will vote for the man for Vice-President that Senator Hanna and the other administration leaders support.

Plainfield is not represented among the delegates at the convention. Former Mayor Charles J. Fisk, of Plainfield, who was elected delegate from the Eigth Congressional District of New Jersey, decided to give up his participation in the convention affairs for the betterment of his health and Edward P. Allen, the alternate from Bayonne, occupied his seat in the convention arena.

The Jerseyites have gathered at the Hotel Lafayette on South Broad street since Saturday night. Yesterday there was quite an assemblage of them in Parlor B, which has been made the New Jersey headquarters. Senator Kean was there most of the morning and came in after dinner in time to arrange for the caucus of the delegation at 4 o'clock. Senator Sewell was also in evidence. Franklin L. Murphy, who is already talked of as the next candidate for Governor of New Jersey, was present during the afternoon and in earnest conference with the two Senators.

Former Sheriff Wm. T. Kirk was the first Plainfielder at Jersey headquarters. He arrived yesterday morning. In the afternoon State Senator Charles A. Reed and Former Assemblyman Roger F. Murray were on hand. This morning a delegation arrived from Plainfield that included Andrew McCardell, City Clerk J. T. MacMurray, George J. Tobin and others. There may be more during the day.

There really was little to talk except about the question of tickets for the convention and that subject was on nearly every tongue. Everybody believed that he should have a ticket and Senator Kean had his hands full in trying to arrange the matter. His own tickets were divided among the delegates to be distributed and they promptly disappeared. Only five press tickets were there to be divided among some 200 newspapers in the State that applied for them. There are only 480 press tickets in all.

The Plainfielders made a strong bid for tickets but it looks as if a very few of the Republicans from that city will get even a glimpse of the inside of the convention building.

It was known that Senators Kean and Sewell were in sympathy with the admisistration and would not stand for any movement to embarress it. The excitement over the Roosevelt boom did not reach into Parlor B, and only a faint echo of the lively times at the Walton reached there. There wasn't anything of moment to be decided at the caucus, as it was generally understood in advance that Senator Sewell would be chairman of the delegation and Franklin Murphy would be placed on the National committee.

A number of prominent Elizabeth Republicans arrived last night.

[CONTINUED ON PAGE 8]

WOLCOTT IS CHAIRMAN.

Colorado Senator is Temporary Presiding Officer of the Republican Convention.

(By a Staff Correspondent.)

Convention Hall, Philadelphia, June 19—At 12:35 o'clock this afternoon every available inch of space in this great Convention hall was filled and Senator Hanna stepped to the front to call the Republican National convention to order. Col. Dick, secretary of the National committee, read the call.

In his opening remarks Senator Hanna mentioned the name of President McKinley whereat the crowd burst into wild cheers. At 1:01 he nominated Senator Wolcott, of Colorado, as temporary chairman. Senator Fairbanks, of Indiana, seconded the nomination. Wolcott was elected and escorted to the platform. At 1:26 he had begun his speech to the convention.

At 2:10 o'clock Senator Wolcott finished his speech.

LAWN FETE WAS CHILLY.

BUT METHODIST YOUNG PEOPLE HAD GOOD TIME NEVERTHELESS.

Affair Was Given for Benefit of the Sunday-school Library Fund—Those in Charge.

Under the light of myriad Chinese lanterns the young people of the Sunday-school of the First M. E. church gathered last evening on the lawn of N. W. Pike, of East Front street. There they ate ice cream, watched the funny antics of Punch and Judy and incidentally enjoyed a chat with their friends. As both the weather and the ice cream happened to be cold, that department of the festival did not do as thriving a business as it might otherwise have done.

The affair was arranged for the benefit of the library fund and proved successful. The lawn was prettily decorated with Chinese lanterns. Tables were scattered about. On one homemade candies were sold. Miss Edna French, Mrs. Stephen Tugwell and Mrs. E A. Edgar were in charge. Miss Ethel Derby with several assistants looked after the lemonade table.

The attraction that found most favor with the young folk was the Punch and Judy show where Mr. Punch murdered a score of people including the hangman and then came to a sorry end in the jaws of some sanguinary monster. Elmer Cutting and Kenneth Stuart were in charge. A fish pond, in which strange victims were caught, was under the charge of Miss Elizabeth Stafford. A set of scales determined the weight of the guests after the proper contribution to Roland Horne.

The ice cream department was looked after by Miss Minnie Sharp, Miss Gertrude Sharp, and Miss Jackson, assisted by a large corps of waitresses.

The committee in general charge of the affair consisted of Miss Ida Angleman, chairman, Miss Elizabeth Stackhouse, Miss Elsie Horne, James A. Stafford, Stephen Tugwell and A. B. Meredith.

CLOCK DID STUNTS.

Woke Up Citizens at Midnight and 5 o'Clock in Belief it Was Doing It's Duty.

The clock which controls the blowing of the fire-alarm whistle at noon and at 5 o'clock every day, lost its bearings last night and this morning and blew a blast at midnight and another at 5 o'clock this morning. The clock has been overhauled and, in repairing it, the mechanism was so arranged as to be just twelve hours fast or slow, whichever way is preferred. The consequrnce was the cheery blast awakened many citizens at midnight with the belief that there was a fire somewhere. As it didn't blow again they went to sleep with the idea that something was the matter with somebody. A similar performance was given at 5 o'clock this morning.

Commissioner of Supreme Court.

Attorney Winfield S. Angleman was recently appointed Supreme Court Commissioner by the Supreme Court at Trenton, and yesterday he received his certificate. This honor has special significance as there are only a few in this city who hold the title. He can now take testimony in any case that may be referred to him and his duties have a wide range in legal matters.

Genral Agent of Life Insurance Company.

W. J. Roome Hegeman, of 39 Sycamore avenue, has accepted the general agency of the New York Life Insurance Company, with a New York office at 20 West 34th street.

Local News on Pages 2 and 3.

EMERY DECLARED TO BE NOT GUILTY.

Scotch Plains Hotel Keeper Cleared of Charges Made by the Grand Jury.

REV. MR. SHOTT ABSENT.

PROSECUTION PROVED TO BE VERY WEAK IN COURT.

Citizens' League's Efforts Have Resulted in Poor Results—Emery's Bartender Disappeared and Could Not be Used as a Witness.

(Special to The Daily Press.)

Elizabeth, June, 19.—The long delayed trial of W. S. Emery, of Scotch Plains, who was indicted by the January grand jury for Sunday selling, came up before the court yesterday. It was expected that the case would be hotly contested by both the Citizens' League and the hotel keeper, but those who had been looking forward to a sensational treat were sadly disappointed as the representative men of the League, who had been pushing the fight against Sunday selling and the granting of licenses in town, failed to appear.

According to the indictment as originally drawn, Emery's offense dated from June 16, 1899, to the time of his being indicted. On motion of Prosecutor of the Pleas English, the indictment was amended this morning so that the period of his offense datee from June 4.

The motion to amend was opposed by ex Senator F. O. Marsh, counsel for the plaintiff. Judge Vail, however, overruled Mr. Marsh's objections.

The first witness called was Henry Ferguson, of 146 West Sixteenth street, a mechanical engineer by profession, who testified to having visited Emery's place on Sunday, once in June and again early in July, 1899, and on both occasions drinking beer, which he ordered from over the bar and paid for.

Witness swore that with a friend he entered Emery's barroom by way of a back door, and that he found a number of persons in the barroom drinking.

John W. Ford, of Scotch Plains, testified to having visited Emery's place on Sunday on at least six different occasions, and of having paid for and drank beer on the premises.

Frederick Clark, of Scotch Plains testified to having drank beer on the premises on Sunday, but never having paid for it.

Joseph Lease, when called, knew nothing about having drank on Emery's place on Sunday. Elwood Leary, Edward White, George Trainor and William McNeil, also called by the prosecution, testified in a like manner.

The last witness called by the State was the defendant himself. When Emery was asked whether it was not so that he had sold liquor at his saloon on Sunday, Mr. Marsh, his counsel, objected to witness answering on the ground that witness should not be oblige to answer any question that would tend to criminate himself. The court sustained the objection made by Mr. Marsh, and the witness was excused.

The League had been depending upon the evidence which it was supposed Duncan Munroe, a bartender for Emery, would give. Munroe knew he was to be the star witness and when Constable Trayno attempted to look for him to serve him with a subpœnia he had mysteriously disappeared and could not be found.

Rev. G. M. Shott was called by the Prosecutor but failed to answer to his name. This is said to have weakened the League's case very much, and the jury after an hour and a half of deliberation brought in a verdict of not guilty to the charge.

The verdict was taken as a big victory for the hotelkeepers and it is thought by many that the famous fight between the two factions is about at an end.

Realty Company Incorporated.

(Special to The Daily Press.)

Elizabeth, June 19.—Articles of incorporation were filed here Saturday by the Syndicate Realty Company, which will operate in New York and New Jersey. The capital is placed at $300,000, of which amount $100,000 is to be preferred. The incorporators are H. H. B. Angell, of Scarsdale, N. Y.; DeWitt C. Ward, of New York city, and Robert L. Patterson, of Elizabeth.

—Delicious Georgia peaches and apricots at Neuman Bros. Also blackberries.

SIR KNIGHTS AT DINNER.

TRINITY COMMANDERY ENTERTAINED BROOKLYN BRETHREN.

Affair Given at the Hotel Kensington, and Pleasant Speeches Made by Several Guests.

The Hotel Kensington was the scene of a fine spread last evening on the occasion of the annual reception given to Clinton Commandery, No. 14, Knights Templar, of Brooklyn, by Trinity Commandery, No. 17, of this city. There were ninety members who sat down to the tables, among whom were several officers of the Grand Commandery of the State of New Jersey and several from New York State. At the conclusion of the spread Eminent Commander Asa Collier made the address of welcome to the visiting Knights, after which he called upon the following Eminent Sirs for addresses: Sir Knight Rev. Dean Rodman, Sir Knight Alexander Titsworth, of Trinity Commandery; Sir Knight Rev. Mr. Fleming, of Brooklyn; Past Commanders Loudon, Reed and Little, of Clinton Commandery, and Sir Knight Generalissimo Sparrow, of Brooklyn.

At the conclusion of the speeches, the time came for the visitors' train and the Plainfield commandery formed in line and escorted them to the North Avenue station. The visitors came in a special car and enjoyed themselves thoroughly both coming and going.

Past Commander Little, of the Brooklyn lodge, resides in Plainfield and through him a fellow feeling has always existed between the two commanderies and the annual reception is the result. Last evening's affair was the most successful one that has ever been given.

The Brooklyn lodge gives an outing each year to which the Plainfield Knights are invited in return for their generosity. The Plainfield lodge is now in a flourishing condition having eighty six members and eight more will be added before the year is out.

At the annual field day, which is to be held at Asbury Park August 29th, they will take the Queen City band with them and expect to make the same creditable showing as they did last year.

DR. BUNDY IS IN JAIL.

DISCOVERED IN THE TOILS OF THE LAW IN BROOKLYN.

He Lived Regally With an Attractive Looking Woman in Raritan and Gave Worthless Checks.

Dr. Sigmund Bundy, who, with an attractive looking woman, lived in fine style in Raritan last fall, and was well-known in Plainfield, Somerville and Bound Brook, is in the Middlesex county jail at New Brunswick. Dr. Bundy had been sought by the Middlesex authorities for several months, but he could not be found until yesterday morning, when he was located in the Raymond Street jail in Brooklyn.

Dr. Bundy appeared in Raritan about a year ago, and lived as a retired physician of family. He was frequently away.

Rumors began to be circulated early in the winter about the physician cashing worthless checks, and at the first rumor he disappeared. The authorities went to the house, only to miss Dr. Bundy, and a day later the woman who lived with him was also missing.

Bundy soon appeared in New Brunswick. There Bundy was arrested. He retained counsel, and the lawyer induced Detective and Alderman Charles A. Oliver to go Bundy's bail. Then Alderman Becker had Bundy arrested, and, with the officer, the physician walked to Becker's for his satchel, which had been left there. He gave the officer the slip and left town.

Detective Oliver did not wish to lose his money, and has since searched high and low for Bundy. Saturday he located him in Raymond Street Jail, where he was serving a six-months sentence for giving bad checks in Brooklyn.

Acting Governor Johnson, of New Jersey, issued requisition prpers, and Bundy was taken back to New Brunswick.

Pleaded Non Vult.

(Special to The Daily Press.)

Elizabeth, June 19—John Laird, of Plainfield, was arraigned before Judge Vail yesterday on the charge of stealing coal. His attorney, Francis J. Blatz, of the firm of Murphy & Blatz, entered a plea of non vult for him. Sentence was suspended.

On a Fast Train Now.

Bert Ayres, formerly of this city, who has been running as firemen on the Royal Blue Line, has been assigned to the engine of which Charles Clapp is the engineer, and which pulls one of the fast trains between Jersey City and Philadelphia.

IS TROLLEY COMPANY'S RULE A JUST ONE?

It Will Be Tested in Court in a Suit for Damages Brought By Theodore Bauckman.

HE WAS PUT OFF OF A CAR

PAID NECESSARY FARE BUT DID NOT GET A TICKET.

Conductor Tried to Compel Him to Pay an Extra Nickel, But Mr. Bruckman Refused to Comply With the Unfair Rule.

Theodore Bruckman, township treasurer of Fanwood, yesterday employed Codington & Swackhamer, of this city, to bring suit for damages against the Westfield and Elizabeth Street Railway, together with the Plainfield Street Railway Company, on the ground that he was illegally ejected from a trolley car in Fanwood Friday, June 15th.

The company maintains a five-cent fare between Plainfield and Westfield, but in order to secure the benefit of it the passenger is compelled to tell the conductor that he is going to Westfield and he is then issued a ticket to be taken up after the car has left Scotch Plains. Under a rule made by the company the passenger who does not secure a ticket is called upon to pay five cents extra after a certain point is passed in Fanwood. It was a conflict with this rule that caused the trouble for Mr. Bruckman.

Last Friday he boarded a trolley car at the Watchung avenue switch in this city. He paid his fare at once and was asked by the conductor if he wanted to go to Westfield. Mr. Bruckman said that he did not know at that time whether or not he would go beyond Scotch Plains. When he arrived at the latter place, however, Mr. Bruckman decided to go on the Fanwood township limits to inspect some road work over which he has supervision. He remained on the car, and when it arrived at the end of the first division of the trolley line, which is one-half mile inside of the township limits, the conductor demanded another five-cent fare. Mr. Bruckman insisted that he had the right to ride to the township limits for one fare, and declined to pay anything additional. The car was stopped and Mr. Bruckman ejected from it by the conductor.

Mr. Bruckman believes that this action was in direct contradiction of the terms of the franchise granted the company by Fanwood, and he is determined to take the matter in court to have the point settled. The ordinance explicitly declares that the company shall carry passengers from any part of Plainfield to Westfield and Cranford for one fare of five cents. Mr. Bruckman insists that the company has no right to attach any condition to the carrying out of this agreement, such as compelling the passengers to tell the conductor where he is going and then receiving a ticket.

Mr. Bruckman said today that he was not starting the suit to gain anything in a financial way, but to determine the exact rights of the people patronizing the trolley company operating ing under certain special terms in the ordinances granting its franchise.

A Lawn Party.

The home of Mrs. D. A. Schierenbeck, of Terrell road, was the scene of an enjoyable affair on Saturday afternoon last, when her youngest daughter, Jean, gave a lawn party to twenty-five of her little friends. The lawn was prettily arrranged for the occasion with flowers and the children participated in games and dancing until the shades of evening warned them that it was time to depart. A feature of the affair was a cake-walk which was given by the hostess and Master Pearl Ritter. The donkey contest also caused much amusement for all. The winners were Master Georgie Brick, Wilbur Forsyth, Maggie Brick and Carrie Borrup.

Fell off the Bridge.

Louis Sheridan, a young lad about 10 years old, living on West Second street, chose the Liberty street railroad bridge as a play ground last night with rather serious results. Louis was playing too near the edge when he lost his balance and fell to the street receiving painful injuries about the head. He was assisted to Dr. VanHorn's office where his wounds were dressed.

Enjoyed a Social Time.

The members of the Young Women's Club assembled last evening at their rooms on West Front street and enjoyed a social time with refreshments.

Local News on Pages 2 and 3.

MR. SERRELL'S HARD LUCK.

Thrown Out of a Wagon Near Stelton and Sustained Serious Injuries—Just Recovering From Accident.

George Serrell, of Plainfield avenue, met with a serious accident at Stelton, near New Brunswick, about 10 o'clock this morning. A farmer named Ryno, living at Stelton, brought the news to this city, as well as the horse and wagon owned by L. W. Serrell, which George Serrell was taking to Allenhurst, where Mr. and Mrs. Serrell intend spending the summer.

Mr. Serrell left the city at 8 o'clock this morning to drive to Allenhurst. At Stelton the horse became frightened, and Mr. Serrell was thrown out, sustaining a serious injury to his knee. Dr. Fritts sent the ambulance to Stelton to bring Mr. Serrell to his home.

Mr. Serrell's relatives were notified early concerning the accident, and they were greatly exercised as to the results.

Mr. Serrell was just recovering from an accident he had while at Havana in the service of Uncle Sam. At that time he fractured his leg in two places. This injury has given him great trouble and only of late had he been able to walk without a crutch or cane.

ANXIOUS TO PAY BILLS.

SUSPICIOUS CONDUCT OF A COUPLE OF STRANGERS IN TOWN.

Tried to Get Wesley Brokaw to Change a Big Bill Which He Believes was a Spurious One.

Two sharpers were in Plainfield yesterday trying to work their schemes on some of the local business men, but so far as can be ascertained their efforts failed. The men got away, however, and there is not much chance of capturing them. It was yesterday forenoon that a man about 45 years old, short in statue, with a gray moustache, walked into Wesley R. Brokaw's music store and said that he wanted to pay the balance, $2, on a graphaphone that was purchased in 1898 by a Mrs. Walrod, who lives at New Market. At the same time he took a large roll of bills out of his pocket.

Mr. Brokaw stated in reply that he had never sold a graphaphone to such a person, and that he did not sell them in 1898, which was the year he had a store on East Front street. The stranger looked puzzled. He insisted that the money was due and thought Mr. Brokaw was a very funny man in that he did not want to receive money.

About this time another man, taller and younger, with a black moustache, came rushing into the music store, and said he wanted to pay a bill of $4, due Mr. Brokaw for tuning a piano for a Mrs. Hurlbut, who he said lived at the corner of South and Woodland avenues. In this case Mr. Brokaw replied that he had not tuned a piano for any Mrs. Hurlbut at that address, and that no woman by that name owed him $4; besides he charged $2 and not $4 for such work. This stranger seemed more determined than the other one, who sat near by and listened intently to the conversation. He insisted that the money was due, and pulling out a very large roll of bills proceeded to pay the bill. Mr. Brokaw was obliged to refuse and informed the man that the money was not due him. In a short time the men went out of the store, but they hung about the vicinity for a little while.

In the meantime Mr. Brokaw informed Captain Grant concerning the men, and Roundsman Frederickson started out in search of them. He not find them and they probably became suspicious and left the city. Mr. Brokaw does not remember having seen either of the two men before, and is fully satisfied that they wanted to pass bad money and get good money in return, for each one offered a bill of large denomination.

PAID FOR STEAK.

Took Peter Cusick a Night in Jail to Bring Him to Do So, However.

Peter Cusick ate a steak in the Delmonico Oyster and Chop House last evening. Having eaten the steak, Peter showed no disposition to settle for said steak. Furthermore he started to depart with the steak and the money as well. Proprietor Ross was indignant and demanded the steak back or the money. He finally summoned Patrolman Totten and Cusick was locked up for the night.

When Cusick was arraigned before him this morning, City Judge Runyon decided that either money or steak must be forth coming or else Cusick would have to go to jail. Cusick settled the bill and sentence was suspended.

SOCIABILITY AT THE END OF CONVENTION

Reception to Delegates to the New England Baptist Missionary Convention.

HELD IN MT. OLIVE CHURCH.

SEVERAL INTERESTING SUBJECTS WERE DISCUSSED.

Visiting Clergymen Expressed Their View.—Great Credit is Due Rev. Mr. Jackson and Congregation for Good Management.

Yesterday was the fifth and last day of the New England Baptist Missionary convention, which was held in the Mt. Olive Baptist church. The convention came to a close last evening with a reception to the delegates by the church. Nearly all those were present who had taken part in the convention. The programme last evening, which was opened with a prayer by Rev. G. W. Mitchell, of this city, consisted chiefly of music by the choir and by a children's chorus.

The following subjects were discussed by prominent members of the convention, each one being allowed five minutes: "What method to adopt to better the condition of mission work in the several States," by Revs. R. A. Motly, J. A. Kirk, G. W. Bailey and T. S. Jefferson; "The proper literature that should be read and the value of a religious newspaper," by Revs. R. D. Wynn, B. H. Walker, E. W. Roberts and D. W. Wisher; "How to develop the latent power in the Christian church," by L. Harvey, J. H. Travis and L. J. Brown; "What should be the intellectual status as well as moral of that of him who seeks the office of the ministry?" by Revs. B. W. Ferris, C. S. Morris and R. D. Gaines.

Miss Katie Mitchell read an essay and Mr. Morris, of Providence, R. I., sang a pleasing solo.

At the conclusion of the programme refreshments were served and a general social time was had by all. The members of the Mt. Olive church and Pastor Jackson deserve great credit for the manner in which the large number of delegates were handled during the five days of the convention. There were over 350 delegates, besides 100 visitors, in attendance. Delegates were present from all the New England, Middle and Southern States.

The place of meeting for next year's convention has not yet been decided upon. The cost of entertaining the convention was over $700, and was mostly raised among the societies and members of the church.

ACCUSED OF STABBING.

Serious End to a Quarrel Between Two Colored Men Growing Out of Insult to Girl.

On complaint of Charles Kinney, of West Fourth street, Samuel Roberts, who is employed at the Park Avenue Hotel, was brought before Justice Nash this morning on a charge of stabbing the complainant during an altercation which the two men had at the Watchung avenue trolley switch Sunday night.

On account of the serious nature of Kinney's wounds, he was unable to appear and the case was adjourned for one week. The facts of the case are that the men became involved in a dispute over a girl named Helen Potts, to whom Kinney says he is engaged to be married. Roberts made some remark which angered Kinney, who knocked the former down twice. Upon getting up the second time Roberts drew a knife, it is said, and stabbed his assailant in the left shoulder and left thigh, inflicting rather serious wounds, from which Kinney lost considerable blood. He is now under a doctor's care.

Class Day Exercises.

Arrangements are now completed for the class-day exercises to be held this evening in the Borough Public High School. Frank Bach, president of the class has arranged the following programme: Banjo solo, Fred VanEps; president's address, Frank Bach; class history, Miss Sarah Mantz; banjo solo, Fred VanEps; class will, Miss Mary Hoagland; class prophecy, Miss Aimee Emmons; banjo solo, Fred VanEps; class prescriptions, Miss Dora Waring; class song, words by Miss Honeycutt.

Missionary Conference.

There will be a missionary conference of the Plainfield Local Union Christian Endeavor this evening at the home of the superintendent, Mrs. D. M. Runyon, Arlington avenue. A full attendance is desired.

—Blackberries, Georgia peaches and apricots at Neuman Bros.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Gossy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—A very important meeting of Post No. 73, G. A. R., will be held this evening.

—Few ocean liners point their noses this way without having some choice goods aboard for Peck.

—There will be a meeting of Prohibitionist in Spencer's Hall, Somerset street, this evening.

—This week we will have a large supply of Jersey sea food. Order for breakfest early. Rogers.

—The Sacrament of the Lord's Supper will be observed next Sunday at the Crescent Avenue church.

—Warren Engine Company will take their steamer to Westervelt avenue bridge this evening for a "wash."

—There have been a number of out-of-town arrivals at the Park Avenue Hotel during the past week and more are expected soon.

—The Common Council will meet in regular session Monday, July 2d, at which time several matters of much importance will come up.

—The Board of Governors of Muhlenberg Hospital will hold a regular meeting next week Monday evening at the Public Library.

—The Pizzo Tailoring Co., formerly of New York, have purchased the business formerly conducted by Richardson & Wahl, 325 West Front street, and will open Thursday.

—The Christian Endeavor Society of the Crescent Avenue church will hold a consecration meeting on Friday evening next. The subject will be "Abiding in Christ."

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—The regular monthly meeting of the Boys' Mission Band will be held in the Crescent Avenue church parlors at 4 o'clock Wednesday afternoon The subject will be "South America."

—James Sisser, who had so much trouble in securing a place on Somerset street to open a saloon, and who finally settled his differences with Chris. Bock, opened his place yesterday.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

PARTICULAR MENTION.

Grace Vail, of Elmwood place, is improved from a recent illness.

Rev. Dr. Snodgrass has returned from a short visit in Philadelphia.

Grant Taynor, of the West End, has about recovered from a severe illness.

Patrolman Nicholas Myers commenced his annual vacation yesterday.

Benj. Schenck left Saturday for Atlantic City, where he has taken a position.

Lawyer J. P. D. Kirch, of this city, has returned from from a business trip out of town.

Miss Blanche Fellows, of Sandford avenue, has returned from a visit with out-of-town friends.

Frank McIntyre, of North avenue, is home from Seton Hall College for the summer vacation.

John Clark, of Elizabeth, is visiting his parents, Mr. and Mrs. Bernard Clark, of Liberty street.

Hegeman Foster, of New York, has been visiting at the home of his uncle, D. N. Groendyke, of Mercer avenue.

Allen Burrows, of West Third street, returned home Saturday from Pittsburg, where he has been erecting machinery for the Pond Tool Company.

Miss Martha Tracy, daughter of J. Evarts Tracy, of West Eighth street, is home for the summer vacation from the Woman's Medical College, of Philadelphia.

C. E. Hepburn and wife, of East Second street, left New York last evening for Boston, where they will spend a week. They went on the Priscilla, one of the finest of the Sound steamers.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

A DEMAND FOR BIBLES.

American Society's Agent In Manila Gives Encouraging Report.

NEW YORK, June 19.—The American Bible society has received a report from its agent in Manila, the Rev. Jay C. Goodrich, in which Mr. Goodrich states that the climate of Manila and of the Philippine Islands is certainly trying. "We find it necessary," he says, "to hold ourselves in check, for the least overexertion in such heat extracts one's strength so that while spirits may be high and ambition undampened we are utterly prostrated and unfit for any endeavor. The plague is here, but has made no great progress. Fevers are upon every hand and alert to catch the unwary when the least bit depleted of the strength that repels attack. If one is careful and guards himself, however, there is no reason why he should not pass a long and useful life here in perfect health.

"The reception of the Scriptures by the Filipinos has been with an eagerness on every hand that is only to be explained by the preparation and power of the Holy Spirit. They are not satisfied with buying and reading the Bible, but keep asking for books on Bible study and choose Bibles with references and maps. The people who are here from other islands and other parts of Luzon are anxious to have copies to send to their friends and relatives and will often sacrifice in order to purchase them.

"It will be advisable to establish a Bible society depository in the principal city of each island as rapidly as reliable men can be found to sell the books on commission. On both Panay and Negros the Spanish speaking natives are very anxious for Protestant work and the Bible. For all kinds of Christian work and especially the distribution of the Scriptures the prospect is very bright.

"A very interesting feature of duties here will be the work among the Chinese. There is said to be about 100,000 in and about Manila.

"The Chinese are coming into Manila rapidly and will hold their place as the chief commercial people of the city."

Quiet In St. Louis.

ST. LOUIS, June 19.—Yesterday was by far the most uneventful in the history of the street railway strike. This was owing to the discontinuance of all negotiations tending toward a settlement of the controversy and to the utter absence of trouble along the numerous routes of the transit company. The strike has now passed into the second stage of its history, and the general boycott instituted by the American Federation of Labor must tell the story. A slight stir was caused during the day by Sheriff Rohlmann, who proposed that the posse comitatus, comprising 2,500 citizen soldiers, be discharged. A conference of police and posse officials threw a wet blanket on the sheriff's proposition by emphatically declaring that the time was not yet ripe for dispersing the body.

Henry Walter Webb Dead.

NEW YORK, June 19.—Henry Walter Webb died at 1:45 p. m. yesterday at his residence, Beechwood, Scarboro-on-the-Hudson. His death was due to heart failure. Mr. Webb was the son of the late General James Watson and Laura Virginia Webb and the brother of Dr. W. Seward Webb. He was in the forty-eighth year of his age. He was ill less than half an hour. His death was wholly unexpected, although he had been close to death many times during the last few months. Mr. Webb was a director in the Wagner Palace Car company, the Buffalo Erie Basin Railroad company, the National City Bank and the Oswego and Rome Railroad company and was a trustee of the Mutual Life Insurance company.

Gutenberg's Birth Celebrated.

BERLIN, June 19.—The five hundredth anniversary of the birth of John Gutenberg, the inventor of cut metal type, was celebrated in Berlin yesterday by an immense gathering of printers and type founders in the Circus Schuman. At Frankfort it was celebrated by a meeting of the civil and military authorities, together with a street parade culminating in the decoration of the Gutenberg monument. At Leipsic a prominent publishing house marked the anniversary by opening a subscription to the local Gutenberg fund with 100,000 marks.

Republican Editors.

PHILADELPHIA, June 19.—The Republican National Editorial association met last night and elected these officers: President, John A. Sleicher of New York; vice president, P. J. G. King of Maryland; secretary and treasurer, A. O. Bunnell of New York; executive committee, C. S. Francis and I. M. Watson of New York, M. W. Poshing of Indiana, Adrian Posey of Maryland and J. T. McPherson of Massachusetts.

Tired of Life, but Repented.

MIDDLETOWN, N. Y., June 19.—Andrew Cahill of New Haven swallowed half an ounce of laudanum here, saying that he was tired of life. Cahill then changed his mind, and a physician saved his life by using the stomach pump.

Fire In New York City.

NEW YORK, June 19.—The De Courey building, a ten story structure at 676 West Broadway, occupied by several retail firms, was damaged, with its contents, to the extent of $110,000 by fire last night.

New York Markets.

ROOSEVELT OR LONG?

New York's Governor Tries to Stem Popular Tide.

HANNA FAVORS BAY STATE MAN.

Convention May Be Turned From Its First Choice For Vice President. Big Demonstration of Republican Clubs—Other News.

PHILADELPHIA, June 19.—Today, on the forty-fourth anniversary of the day on which General John C. Fremont was nominated by the first Republican convention, held at Musical Fund hall, on Locust street, in this city, the national Republican convention assembles in the great Export Exposition building in West Philadelphia. Here, amid the swelling memories of half a century and in the presence of men who saw the blood stained clouds lie across the sunrise of the party, the Republicans are met to name their candidates and enunciate the platform for the coming campaign.

There is but a single choice for leader. His face is engraved upon banners and buttons, it is framed in flowers and in ivy on the walls, it adorns the windows of the shops and looks down upon the swarming crowds from every conspicuous place. McKinley again will lead the graybeards and the young men in the November battle. Banners are dipped before his portrait, and the mention of his name arouses enthusiasm. When Senator Foraker concludes his peroration in the convention on Wednesday, a storm wild and tempestuous will shake the great hall.

But that outburst of enthusiasm will be only the forerunner of the pandemonium that will reign if Roosevelt should be named to stand beside him in the coming battle.

The stampede in his favor started Sunday. It threw the town into delirium. It swept through the delegations who had come here with favorite sons to present like a prairie fire. Like an immense tidal

GOVERNOR ROOSEVELT.

wave it bore down everything before it. The booms of the other candidates collasped like eggshells when it struck them. The secret was not hard to find. Not Platt and Quay, whose object was to humiliate Hanna, could claim the victory. They might congratulate themselves that it was their work, but they wielded no magician wand. The secret lay deep down in the hearts of the Republicans of the country.

Roosevelt's name, unlike that of other candidates, instantly struck a responsive chord in the popular breast. It captured the heart of the convention. It mattered nothing to the rank and file that Hanna and Allison and Grosvenor and Thurston and others felt chagrined and strained every nerve to stamp out the fire. It mattered not that even Roosevelt and his friends poured water upon it. Their efforts were as futile as hand grenades against a conflagration. The people would hear of no one else. They wore his picture. They shouted his name. They considered him as already nominated. The town was Roosevelt mad.

The governor himself was sincerely anxious to avoid the nomination. Some of the friends of the other candidates, imbittered by the havoc his sudden appearance created with the prospects of their favorites, were harsh enough to intimate that he had been flirting with the situation from the first. But his closest friends knew that honestly he wanted none of it. He appealed to them to stem the tide, and they did what they could to aid him, but to no purpose.

Governor Theodore Roosevelt has made as specific a refusal of the nomination for vice president as he could possibly make in view of the fact that the nominating convention has not met and that few of the delegations have caucused.

Standing in a small room facing a crowd of newspaper men yesterday afternoon he made the following statement, reading it from a couple of sheets of manuscript:

"In view of the revival of the talk of myself as a vice presidential candidate I have this to say: It is impossible too deeply to express how touched I am by the attitude of those delegates who have wished me to take this nomination. Moreover, it is not necessary to say how thoroughly I understand the high honor and dignity of the office, an office so high and so honorable that it is well worthy the ambition of any man in the United States; but, while I appreciate all this to the full, nevertheless I feel most deeply that the field of my best usefulness to the public and to the party is in New York state, and if the party should see fit to renominate me for governor I can in that position help the national ticket as in no other way. I very earnestly ask that every friend of mine in the convention respect my wish and my judgment in this matter."

The document was in his own handwriting and in lead pencil copy, and he read it with the same complacence that he would have given a platform speech. The scene bordered on the dramatic.

Sitting near him as he spoke were Congressmen Littauer and Sherman of New York and Professor Jenks of Columbia college, who have all along urged the governor not to accept. Just behind the row of newspaper men stood Frank Platt, Lemuel E. Quigg and B. B. Odell of the New York organization. As the governor read and waited for the newspaper men to write down the statement he frequently glanced in the direction of the group of politicians. When he finished, he said: "Gentlemen, that is all. I have nothing more to say."

It is pointed out as significant that Governor Roosevelt will not assert that he will decline the office if nominated. He hopes, however, with the aid of Senator Hanna, to defeat the plan to nominate him.

Yesterday was given up to conferences on the vice presidential situation. Beginning with a gathering in the room of Governor Roosevelt attended by Senator Hanna, Senator Lodge and Mr. Odell of New York, it was continued in the rooms of Senator Hanna later, when nearly all the leaders in the city were from time to time in conference with the chairman of the national committee. There were Senators Allison, Scott, Carter, Lodge, Elkins, Burrows and Shoup, also Mr. Bliss, besides many representatives of the New York leaders, both Governor Roosevelt and Senator Platt

JOHN D. LONG.

being represented. When the last man had disappeared, Senator Hanna looked weary, but satisfied. He was ready to announce that Governor Roosevelt would not be nominated, that the men who were going to make the nomination would accept the declaration of Roosevelt made during the day and supplemental of more emphatic declarations made some time ago as final and would not force the nomination upon him.

The only man appearing in New York was Lieutenant Governor Woodruff. The suggestion of ex-Secretary Bliss brought forth a declination from him, coupled later by a statement from Mr. Hanna himself that Bliss could not be considered for personal reasons. He then pointed out that after the delegates began arriving the name of Roosevelt was suddenly sprung with an effort to stampede the convention and force a nomination upon a man who did not want it apparently because some other candidate was desired for governor.

As the Ohio senator rehearsed the conditions he warmed up and pointed out that under the existing conditions the nomination of Roosevelt was not fair to the men who had come out for the place and who should have an equal show before the convention.

This tip did not circulate until quite late in the evening, but the effect was soon apparent. There were many real friends of Roosevelt who accepted his declaration as absolutely voicing his wish. It changed the current of talk, and men who were confident 24 hours ago that Roosevelt's nomination was a foregone conclusion began asking, "Well, who will it be?"

The answer was generally John D. Long of Massachusetts, secretary of the navy. At once delegates began to reason that Long must be perfectly satisfactory to the administration of which he is a part or he would not be a candidate for the place. This idea received encouragement in quarters which made the Massachusetts man a prime favorite. Of course there was talk of other men.

The friends of Dolliver renewed their efforts for the young Iowa orator. There was some talk about Fairbanks, but the prevailing feeling was that only men who were willing to accept the place should be considered. It was urged that an unwilling candidate was not advisable, and therefore the men most talked of were Long and Dolliver, but with the general impression that Long would be the ultimate selection.

This is the third time the Quaker City has had a Republican national convention. The first national meeting of the party was held here on July 17, 1856. Then delegates gathered here from 22 states and organized the scattered forces of the party, adopted a platform and nominated a ticket headed by John C. Fremont. Of the 555 men who attended that convention but 14 are living today, and it is expected that at least six of them will be present when the gavel falls today. Special seats of honor have been arranged on the platform for these men. They come as guests of the party.

The distribution of tickets for the convention was begun by Sergeant-at-Arms Wiswell yesterday. Up to that time not one ticket had left the hands of Mr. Wiswell. The city of Philadelphia was given 4,000 of the cards, which will be given only those persons who subscribed to the local convention fund. Each delegate received his own and two additional tickets, and every alternate was given one seat. The national committeemen were each presented with 25 of the much sought after pasteboards, while the remainder were distributed among distinguished men invited by the national committee.

Five miles of clubs, mounted, on foot, by coach, floats and in carriages, interspersed with music, red fire and a cake walk, is the shortest way of describing the turnout of the visiting and local political clubs in this city last night.

Those who have been complaining for the past two days of the unusual quietude preceding the meeting of a national convention must have reflected that they criticised too soon. Those who have attended previous demonstrations in connection with similar occasions liken it to the great turnout of clubs in Chicago that was reviewed by Blaine and Logan preceding the election in 1884.

The parade was divided into eight divisions, in which there were more than 80 local clubs and about 20 visiting political organizations. The out of town clubs were scattered through the eight sections and were escorted by the club which was assigned to entertain the visiting clubmen. The Unconditional of Albany was the only visiting organization in the first division and was escorted by the Twenty-first ward association.

Jimmy Michael Beaten.

CAMBRIDGE, Mass., June 19.—Jimmy Michael was easily beaten by Burns Pierce in a 20 mile motor paced race at Charles River park in the slow time of 34m. 29 3-5s. A strong wind made record time impossible.

BOERS WILL FIGHT ON

Botha Rejects Lord Roberts' Proposal of Surrender.

COMMANDOES RETIRE TO MIDDLEBURG

General Baden-Powell Reaches Pretoria—Secret Documents Sent to Europe—President Kruger Reported in Feeble Condition.

LONDON, June 19.—Lord Roberts, according to a Boer dispatch from Machadodorp, sent a message to Commandant General Louis Botha on June 13 suggesting disarmament and complimenting the bravery of the burghers. It was pointed out that the surrender would be without dishonor to the burghers and would prevent much suffering. General Botha asked for a six days' armistice in order to confer and consider. Lord Roberts consented to five days. Finally General Botha declined to accept the proposal, and hostilities were renewed.

The Boer commandoes are retiring on Middleburg, followed by the British cavalry and artillery, occasional shells reaching the rear guards. The Boers are destroying the bridges and burning the veldt behind them, carrying off provisions and cattle and leaving the country barren.

Other advices from Machadodorp say that the Boers have an abundance of arms and ammunition, with dynamite and oxen, and that they are preparing heavy wagon trains for a retreat to the Lydenburg district, where the chiefs, notwithstanding rumors to the contrary, are determined to make a stand.

The Boers continue to work the Barberton mines, says a dispatch from Lourenco Marques, and there are eight carloads of bar gold valued at £5,000,000 with President Kruger.

Mr. Steyn, in his proclamation declaring the Free State still free and independent, says the fact that the army is yet in the field renders Lord Roberts' annexation contrary to international law.

In a dispatch to the war office from Pretoria, dated yesterday, Lord Roberts says that General Baden-Powell has just arrived there.

The Lourenco Marques correspondent of The Times, under yesterday's date, says:

"Judge Van Leeuwen, who left Pretoria with a permit from the military governor, is understood to have been the bearer of a verbal message from the British authorities to President Kruger to the effect that if he would surrender now he would not be sent out of the country. Van Leeuwen was unable to see Mr. Kruger, but when passing through Machadodorp he told State Secretary Reitz. The latter scouted the idea of surrender.

"Mr. R. J. H. Fortuin, head of the Transvaal secret service, is taking to Europe very important secret documents."

A dispatch from Cape Town says it is reported there that President Kruger is in a feeble condition.

Traveled With Broken Neck.

NEW YORK, June 19.—Walter E. Duryea, son of Edgar E. Duryea, the starch manufacturer of Glen Cove, left Roosevelt hospital yesterday after a stay of ten months. It was last August that Mr. Duryea, while diving at his country home at Oyster Bay, mistook the depth of the water and broke his neck by striking his head against the sandy bottom two feet under the surface. At the hospital on Sept. 19 Dr. Robert Abbe cut away the broken vertebræ and after the operation declared that it would only be by a miracle that Mr. Duryea could pull through. The patient has gradually regained control of his paralyzed limbs, and yesterday, when he left the hospital, it was said that he had a good chance of regaining his strength and health. Mr. Duryea was taken to the Dansville (N. Y.) sanitarium.

Little Change In India.

LONDON, June 19.—The following dispatch has been received from the viceroy of India, Lord Curzon of Kedleston: "The week's famine reports show a state of general expectancy pending the advance of the monsoon, which has not yet appeared. Heavy rain has fallen in Burma, Bengal and the central districts of Behar. On the west coast the monsoon current is weak and has not progressed north of Goa nor penetrated to the most affected regions, and the hot weather conditions still exist. There is no improvement possible in the affected districts nor any decrease of numbers on the relief works until there shall be a heavier general rainfall. The relief total now reaches 5,920,000."

Industrial Commission Rests.

WASHINGTON, June 19.—The industrial commission has taken a recess until next month, when a brief session will be held. Another meeting probably will not be held until some time in September. A subcommission will meet at Philadelphia tomorrow to take testimony, but the hearings outlined for this subcommission have been indorsed.

General Wheeler's New Command.

WASHINGTON, June 19.—By direction of the president General Joseph Wheeler has been assigned to the command of the department of the lakes, with headquarters at Chicago. He relieves Brigadier General James F. Wade, who has held that command temporarily in conjunction with his regular command, the department of Dakota.

Italian Cabinet Resigns.

ROME, June 19.—In the chamber of deputies yesterday the premier, General Pelloux, announced that the cabinet had resigned owing to the deadlock arising from the opposition's uncompromising attitude on the question of the rules of procedure. The house adjourned pending the formation of a new ministry.

Mississippi Again Flooded.

JACKSON, Miss., June 19.—Pearl river is again out of its banks and spreading over the surrounding country. One of the heaviest windstorms in years has done great damage to trees and growing corn. The general crop conditions in the state are poor, the cotton being either under water or choked out by grass.

Sixteenth Anniversary.

NEWBURG, N. Y., June 19.—The sixtieth anniversary of the marriage of Mr. and Mrs. Thomas E. Stanbrough of Washington Lake, near Newburg, was observed yesterday afternoon by a family reunion. The venerable couple have always lived in Orange county and are in good health.

EVER HAVE BACK ACHE?

Backache means Kidney Trouble, Kidney trouble means Bright's Disease, Bright's Disease means death. Watch your kidneys!

Dr. Holtin's Kidney Tablets will cure YOUR kidney and backache troubles, as they have cured thousands of others everywhere.

Don't delay and don't experiment, but get the best, and the verdict of tens of thousands is Dr. Holtin's Kidney Tablets.

Don't accept substitutes. Get only the genuine. Sold in packages of two sizes, 25c. and 50c., the latter containing nearly three times as much medicine as the former.

BRIDGE WORK

in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mrs. Bender, of Watchung avenue, is improved from a severe illness.

Theodore Hoffman, of Jersey City, visited friends in town yesterday.

John Madden, of West Fifth street, is visiting relatives in Philadelphia.

Miss Grace Hurtt, of Manasquan, has been visiting Plainfield relatives.

Miss Giles, of West Front street, is visiting out-of-town friends for a time.

Miss Lizzie Dencklau, of East Second street, has recovered from a recent illness.

Edward Ellison spent Sunday with Mr. and Mrs. H. M. Johns, of Richmond street.

Miss Proctor, of Philadelphia, is visiting at the home of E. M. Laing, of Grove street.

Mr. Tyler, of the New York World, is spending a few days in Plainfield with his brother.

Miss Mamie Reniger, of Morristown, has been visiting Plainfield relatives for a short time.

Lawrence Doyle, of Richmond street, was the guest of friends at Westfield yesterday.

Miss Mamie Farenholz, of this city, who has been visiting Newark relatives, has returned home.

Surrogate Spencer, of the borough, has been enjoying a short vacation from his confining duties.

James Best, of Craig place, has returned from a visit of a few days with out-of-town relatives.

George Thatcher arrived in Plainfield yesterday from Washington, D. C., where he was performing.

Henry VanNess, formerly of this city, but now of Newark, is visiting his parents on Monroe avenue.

W. C. Smith, of Grandview avenue, has completed a contract at Yonkers, N. Y., and has returned home.

Mrs. Charles Place, of Grove street, has gone to Fiskill-on-the-Hudson to visit her daughter, Mrs. Smith.

Rev. Dr. A. H. Lewis will return this week from New York State, where he has been attending several conventions.

There is not much improvement in the condition of Miss Mineola Tomlinson, of LaGrande avenue, who has been very ill.

Among the guests registered at the Pequot House, New London, Conn., are B. A. Walker and Miss Walker, of Plainfield.

Mrs. Augustus Runyon, of West Front street, who has been ill for some time past, is not so well, and she is again detained at home.

Rev. Dr. and Mrs. W. E. Honeyman, of Lincoln place, will soon leave town for the mountains, where they will enjoy the summer weather.

Mr. and Mrs. W. L. Smalley, Jr., and their son Jed, who have been visiting Plainfield relatives, have returned to their home at Princeton.

Nelson Peterson, formerly of Plainfield, but now of Hartford, Conn., is visiting friends in town. He formerly lived in the West End, where he was known as "Nelse."

John Comerford, of San Domingo, is visiting his brother, Thomas Comerford, of West Fifth street. Mr. Comerford is foreman of a sugar refinery, which closes for three months each year on account of the excessive heat.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

Miss Margeret McCutchen, daughter of Mr. and Mrs. Charles W. McCutchen, of Rockview avenue, is home from Smith College for the summer vacation.

ORDERED TO CHINA.

Colonel Liscum Getting His Regiment Ready to Leave Manila.

MANILA, June 19.—The Ninth regiment, Colonel Liscum commanding which was ordered to proceed as quickly as possible to China to re-enforce the American naval force now there, musters 1,400 men. It is one of the strongest regiments in the army, and its men are now employed in garrisoning nine important railroad towns. The extraordinary activity of the regiment has practically pacified the center valley.

The work of transferring the men to Manila has begun, but it will probably be a week before they are all here. In addition to the difficulty of regarrisoning the Ninth regiment's territory the rains are causing great delay in the movement of the troops toward Manila. The railroad is washed out for a distance of 100 yards near Tarlac, and this makes it necessary to ferry the men across the torrent. Many telegraph wires have been rendered useless.

General Wheaton, who commands 200 posts and 25,000 men, has been compelled to rely entirely upon messengers for the transmission of orders. Captain Webster of General Wheaton's staff took the order to Colonel Liscum to move his regiment to China.

YELLOW FEVER FATAL.

Major Edmunds Dead In Cuba—The Barracks Quarantined.

HAVANA, June 19.—Major Frank H Edmunds of General Lee's staff died yesterday of yellow fever. Mrs. Edmunds is reported to be much better. The town of Quemados has been quarantined against the barracks, and no soldier is allowed to enter. The doctors are satisfied with the situation in Havana, where only a few cases have developed. This, considering the fact that the rainy season has set in, is remarkable. The city has already experienced a heavier fall of rain this season than throughout all of last year.

The Havana papers are filled with accounts of the elections, and the Cubans are congratulating one another upon the result. They are satisfied that the intervening government will have no cause to complain of the way in which the elections were conducted. La Discusion says:

"The Cubans have shown themselves capable of self government, and the members of the Republican party do not grudge the Nationalists their success."

All the other revolutionary papers express themselves as greatly gratified with the outcome and especially with the fact that revolutionists have been elected.

CONDENSED DISPATCHES.

The federal quarantine at San Francisco, established because of fears of the bubonic plague, has been raised.

Thousands of English sparrows have been found dead in Chicago streets, having been poisoned by unknown persons.

Bunker Hill day was enthusiastically celebrated at Charlestown, five vessels of the north Atlantic squadron taking part.

It was reported that the bubonic plague has broken out at Guaymas, Mexico, among some Chinese who passed through this country.

Good Pistol Shooting.

NEW YORK, June 19.—With a grand total score of 4,889 points out of a possible 6,000 to their credit, the ten men composing the American team of revolver shots completed their work at both distances—52½ feet and 50 yards—yesterday. Their total score at the short range was 2,410 and at the long 2,479 points. The French team made only 2,441 at the long range, which is 38 points in favor of the Yankee shots at that distance. The French team, therefore, must score 2,449 or better on the short range to beat the Americans.

A Typhoon at Manila.

MANILA, June 19.—The entire consular corps at Manila called yesterday morning to pay their respects to the United States commissioners, headed by Judge William H. Taft. A typhoon has washed out the road between Tarlac and Manila, delaying the arrival of the Ninth regiment here for probably a week. The typhoon has caused the United States transport Hancock to return to the bay where she now awaits a moderation of the weather.

He Ate Toadstools.

MACON, Ga., June 19.—Senator A. O Bacon is just recovering from a severe attack caused from eating toadstools which he mistook for mushrooms. The senator had thought he was an expert in making the distinction, and as soon as he returned from Washington a few days ago he went out into his fields and gathered quantities of the supposed delicacy. Since his first feast he has had two physicians attending him regularly, but he is now all right.

Shiveley Not a Candidate.

INDIANAPOLIS, June 19.—In a statement to The News Benjamin F. Shiveley of South Bend stated positively that he was not a candidate for vice president on the Democratic ticket. Mr. Shiveley recently refused to accept the gubernatorial nomination, and John W. Kern was chosen. Mr. Shiveley expressed the opinion that Eliot Danforth of New York will be on the ticket with W. J. Bryan.

Weather Probabilities.

Fair; fresh to brisk northeasterly winds.

TAKU FORTS TAKEN.

China Opens Fire on the International Fleet.

ATTACK ORDERED FROM PEKING.

Several Warships Struck by Shells Russians Lose Heavily In the Battle—Four Hundred Chinese Reported Killed.

LONDON, June 19.—China declared war against the world when the Taku forts opened fire upon the international fleet. The accounts of what took place are still unsatisfactory, the best semi-official information being the dispatch received at Berlin from Chefu announcing that the Taku forts had been captured after a combined attack by the foreign warships. Three men on the German warship Iltis were killed and seven were wounded. The dispatch added that the foreign settlements at Tien-tsin were being fired into by the Chinese.

The unofficial narratives, coming by way of Shanghai, vary widely and bear internal evidence of supplementing the main facts with guesswork. One dispatch says that the Yorktown participated in the bombardment. Another asserts that American marines formed part of the storming force of 2,000.

A dispatch from Chefu, dated yesterday afternoon, says:

"The forts on both sides of the Taku are now occupied. The Chinese opened fire unexpectedly. The casualties to the mixed forces were as follows: Killed—British, 1; German, 3; Russian, 16; French, 1. Wounded—British, 4; German, 7; Russian, 45; French, 1.

"The Chinese torpedo boats were seized."

The Shanghai correspondent of The Daily Mail, telegraphing yesterday, says:

"The forts began firing in obedience to orders from Peking, conveyed in a personal edict of the empress dowager, by advice of Kang-Yi, president of the ministry of war. Several warships were struck by shells from the 12 inch guns of the forts.

"The heavy Russian losses were due to the blowing up of the magazine at Mandshur.

"Four hundred Chinese are reported to have been killed. The Chinese when retreating fell into the hands of the Russian land force."

The Daily News has the following from Chefu:

"Two of the forts were blown up. The 32 warships at Taku aggregated 200,000 tons and carried more than 300 guns."

The failure of Admiral Seymour's column and its retreat to Tien-tsin increase, it is presumed, the peril of the legations in Peking, which is still isolated, although Shanghai forwards Chinese rumors that the legations were attacked by mobs who were mowed down by machine guns and also that the members of the legations were massacred.

The situation at Newchwang is reported critical. The British consul at Kiukiang has ordered all foreigners to leave Kuling and Naukingchang.

The powers are taking prompt action. Four thousand German troops have been ordered to China, 10,000 French troops are waiting to embark at Saigon, capital of French Cochin China, and from 3,000 to 5,000 more Russians have been ordered from Port Arthur to Taku.

KEMPFF'S INSTRUCTIONS.

Ordered to Protect Americans and Concur With Other Powers.

WASHINGTON, June 19.—The instructions sent to Admiral Kempff relative to his participation in the seizure of the Taku forts were broad, consisting of a direction to protect all American interests and to that end to act concurrently with the representatives of the other powers.

The United States government, appreciating the dangers to the peace of the world which have grown out of the Chinese situation, took prompt action on the basis of dispatches from Rear Admiral Remey at Manila, Rear Admiral Kempff at Taku, Commander Taussig at Chefu and Consul General Goodnow at Shanghai. These dispatches represented conditions that bear promise of startling events, and the government lost no time in arranging to meet them. The most important action of the president, for he is directing every movement of American participation in the Chinese troubles, was to direct that the battleship Oregon, the most noted warship of the new navy, be ordered to proceed immediately to Taku for such service as might be required. Instructions were sent to Rear Admiral Kempff, commanding the division of the American fleet in north Chinese waters, for his guidance in the international complications which have come from the engagement between the Chinese forts and the foreign ships at Taku. Under directions from the president arrangements are being made for the quick transportation of additional American forces from the Philippines to China.

It is explained that in the opinion of the authorities this order conferred upon Admiral Kempff ample power to seize forts, to fight or to do anything in fact on the sole condition that in his judgment his acts should tend to the protection of American interests. It was learned at the British embassy that there were two British admirals in the Pei-ho river, Admiral Seymour and Admiral Bruce. Therefore Taussig's reference to the arrival of the British admiral at Tien-tsin does not mean necessarily that Seymour has returned with his foreign column.

He Killed Goebel.

FRANKFORT, Ky., June 19.—William Culton, who is in jail under indictment as an accessory to the murder of William Goebel, has received an anonymous letter postmarked Forth Worth, Tex., in which the writer says: "I am sorry you are in trouble. I killed Goebel. He knew I would do it. Ten minutes after the shooting I watched the crowd in the statehouse yard from the Fort hill. I went to Georgetown and took a train, landing at Cincinnati the next day. At Kansas City I got scared and went to Oklahoma before coming here. I am on a ranch out here, and those who know me in Kentucky would not know me in Texas."

Recruits For the Philippines.

WASHINGTON, June 19.—Fifteen hundred recruits for the regular army in the Philippines are being enlisted and assembled in New York harbor and Columbus (O.) barracks to sail on the transports Buford and Kilpatrick about the first of November next to take the places of enlisted men whose terms of service will expire this year.

COMING EVENTS.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 6—Y. M. C. A Boys' Camp at Lake Champlain.

The Republican Convention.

The Republican convention, which convened in Philadelphia at noon today, is unique in the history of that party in the fact that the thing that gives life and uncertainty to the situation is the choice of an available and suitable running-mate for President McKinley in the campaign which is to be one of the most important and momentous in the political affairs of the country.

Since the birth of the party, when John C. Fremont was named as its standard bearer, there has never been a convention in which the sole issue of importance to be decided by the delegates—or at least by the acquiescence in the decision of the recognized leaders—has been centered around the naming of a man for the second place on the ticket. Of President McKinley's renomination there has never been any doubt. And as to the platform—always heretofore a matter which led up to serious and delicate considerations—that is something which even the veriest tyro in politics understands will be a thorough endorsement and approval of the attitude of the administration during the past four years.

Roosevelt is the man of the hour. Around him and his desires all interest is manifested. For months he has persistently and firmly insisted that he does not want the nomination of Vice-President. His attitude had, it was thought, practically taken him out of consideration before he arrived at the scene of the convention. But when he appeared in the midst of the assembled delegates and the thousands of other Republicans gathered in the Quaker City the desire that he should be the candidate for Vice-President took on a fresh vigor, and now for three days he has been buffeting back and forth between those who are demanding that he accept the place and those who are equally as persuasive, although not as noisy, that he should decline the honor in order to carry on the fight in New York State this fall as the candidate for Governor again.

Roosevelt is confronted by three classes of Republicans. First are those who earnestly admire and appreciate him, and who believe his nomination as Vice-President would aid more than anything else in making sure the election of President McKinley. Then comes the New York politicians, headed by Senator Platt, who undoubtedly want Roosevelt nominated as a National candidate so as to remove him from New York politics. And last, but not least, are the men such as Senator Hanna and his loyal supporters who, contrary to the apparent opinion of the masses, believe that he is not the right man for President McKinley's running mate.

As the Rough Riding Governor says himself, he is placed in a peculiar predicament. He issued a statement yesterday in which he said that he did not want to be the Vice-Presidential candidate, but, let it be noted, he did not say that he would refuse if he was nominated. Roosevelt holds the key to the situation, but whether he will choose to use it and absolutely decline to accept a nomination remains to be seen.

Serious for New Brunswick.

New Brunswick is worried. For many years past there has been much discussion in the old Dutch city of the project of elevating the tracks of the Pennsylvania Railroad Company, so as to do away with the dangerous grade crossing that exist at many of the most important thoroughfares of the Middlesex metropolis. During the last year especially the proposed improvement has been under serious consideration and the railroad company has been very anxious to elevate its tracks.

When it came to the matter of terms between the company and the municipality there were wide differences prevailing. The city insisted on certain conditions which the railroad company regarded as altogether too onerous and oppressive to it. Some little time ago negotiations were practically suspended, and now the announcement is made that the company is planning to build a loop around New Brunswick, over which to run its fast and through trains, thus relieving to a great degree the necessity of elevating the tracks.

According to reports the plan of side-tracking New Brunswick is to construct a cut off from a point just west of Metuchen crossing the Raritan river at a new bridge about a mile and a half east of New Brunswick and connecting with the main line made at Deans station.

If this plan is carried out New Brunswick will be nothing more nor less than a way station. Naturally, such a prospect is a startling one for the Brunswickites, and since this phase of the situation confronts them there has been some deep thinking and calculations. To permit the Pennsylvania Railroad to carry out any such project would be a suicidal policy on the part of New Brunswick, and if the company is in earnest about the matter, and the indications point to that state of affairs, the officials and citizens of the town will have to make concessions that they have not previously thought of doing.

Unquestionably the lack of elevated tracks is a great detriment to the city, and unless New Brunswick is set on going backward the improvement will have to be made, and that at no distant date. This latest proposition of the Pennsylvania Company will undoubtedly make the officials of the city anxious to settle the question favorably in short order.

The plan and scope committee for the New Jersey Industrial Exposition, to be held in Newark in 1902, has published a statement to the effect that the original idea of the exposition has been very much enlarged upon. It is now proposed to make it a national affair, second only to the Chicago Exposition in magnitude and importance. The committee has met with great encouragement, and the committee feels justified in abandoning the purely local idea of an exposition, and will make it as broad as the funds contributed warrant. Mr. Riker, the chairman, estimates that Newark alone will raise $1,000,000 toward the project, and he expects at least $500,000 from the federal government. The State of New Jersey is counted upon for $250,000, and New York and Pennsylvania are looked to for like amounts.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Anticipating a feast upon the "finest spring chickens" in Flemington, "a big fat mother opossum" paid a visit to Dr. Conover's poultry yard in that place early Saturday morning. It does not appear just why the exact time of her arrival should be especially noted, but inasmuch as it is given in a local paper it might as well be repeated. It was "just nine minutes to 5 o'clock" when the four footed visitor appeared, and she did not go there alone. She was accompanied by "five of her children," and they traveled in style to the poultry yard. They rode on the patient mother's "broad back," and the prospects for them and their maternal ancestor looked bright until the physician appeared on the scene. He had been summoned at that early hour by his chef, who urged him to declare war upon the intruders. That the doctor promptly did. He killed the visiting family with a club, "despising a gun or stiletto with such an insignificant enemy." If he had 'possum for breakfast the fact has been suppressed.

—Blackberries, Georgia peaches and apricots at Neuman Bros.

Goshen, Ill.

Genesee Pure Food Co., Le Roy, N. Y.:

Dear Sirs:—Some days since a package of your GRAIN-O preparation was left at my office. I took it home and gave it a trial, and I have to say I was very much pleased with it, as a substitute for coffee. We have always used the best Java and Mocha in our family, but I am free to say I like the GRAIN-O as well as the best coffee I ever drank. Respectfully yours,

A. C. JACKSON, M. D.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence to The Press.)

Dunellen, June 19.—A number of citizens owning property on the streets through which the new trunk line of the New York and New Jersey Telephone Company will pass from Dunellen to New Market, are under the impression that the company has no legal right to erect their line as they have not asked the borough for a franchise. An official of the company was seen at Plainfield yesterday, who stated no borough franchise was necessary, as they had a State charter, which enabled them to pass through a township or borough without securing permission from either municipality. This statement should set aside all doubt as to whether the telephone people are acting incautiously or not. The poles have already been distributed along the route and the work of erection will soon commence. A contract has been made with C. T. Rogers, of New Market, for a pay station to be maintained at his place.

The tenth birthday of Miss Florence Dickerson occurred yesterday and in honor of the event she tendered a party to about fifteen of her playmates. A delightful afternoon was passed in playing games and in listening to piano selections given by several of the little girls. Before leaving for home each guest was presented with a box of candy as a memento of the occasion.

The park force in charge of Fowler Vail made a number of improvements about the station park yesterday and also the property on the corner of North and Prospect avenues. It is the intention of the railroad at some future time to convert the latter ground into a pretty park.

The wedding of Miss Ellen Kelly, of Dunellen and Charles Service Thorp, of Bound Brook, will take place at St. John's church tomorrow afternoon at 4 o'clock. The ceremony will be performed by Rev. Father Bogaard, and a reception will follow at the home of the bride's parents.

The First M. E. Sunday-school will accompany the Methodist schools of Plainfield on their annual excursion to Asbury Park, which will take place on August 2nd.

W. G. Runyon finished his labors as census enumerator today. The count is now being prepared but it will be some days before the result is announced.

In order to test the running qualities of his new rubber tire road wagon, Maurice Rarick drove to Chester Sunday and called on relatives.

Mr. and Mrs. William H. Hamilton, of Westfield, spent Sunday with the latter's parents, Mr. and Mrs. T. C. Bodine.

Rev. J. A. Thomson, who preached at the Presbyterian church Sunday, was entertained by A. A. Lake.

Joseph Lake and Miss Sally Lake, of Somerville, spent Sunday with Mr. and Mrs. A. N. Randolph.

Officers for the coming year were elected by the Presbyterian Sunday-school last evening.

Mrs. George Gray, of Plainfield, spent yesterday with her sister, Mrs. Frederick Schomp.

The Building and Loan Association held their regular monthly meeting last night.

Mr. and Mrs. Frederick Archer have returned home from Lake Hopatcong.

Mrs. Emily Apgar entertained relatives from Flemington Sunday.

George Smith visited his father at Martinsville Sunday.

Mrs. James Vail is the possessor of a new Eagle wheel.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 19—Superintendent Cathers left today for his home in Lahaska, Pa., where he will spend his vacation. Mr. Pittinger, teacher in the New Market school, also left today for his home in Stockton, N. J.

The hearts of the Lehigh Valley employes were made glad yesterday by the arrival of the pay train.

Roy Casterline and family, of Newark, spent Sunday with his brother, Mulford Casterline.

Miss Martin and Miss Klein, of Plainfield, spent Sunday with Miss Mary Jenner.

Dr. Nelson is having crushed stone placed in the driveways about his residence.

Augustus Warden will give a barn dance to his friends on July 3d.

Miss Pearson entertained company from out of town Sunday.

Charles Ward started on his annual vacation yesterday.

Miss Florence Nelson is detained at home by illness.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 19.—A meeting will be held tomorrow evening at 8 o'clock in the parlor of the Baptist church for the purpose of organizing a class in stenography. Those who have the matter in charge have made arrangements with a competent teacher, who will give one or two evening lessons a week at a very small cost to the members. If the class is organized it is hoped that a number of the young men and women in town will attend.

Frederick Hoppell led an interesting young people's meeting in the Baptist church last evening. At the close of the service a short business meeting was held and the society decided to send a representative to the National convention of Baptist young people, which meets in Cincinnatti next month. Rev. G. M. Shott was elected delegate by unanimous vote.

The recent fair held for the benefit of St. Mary's church at Stony Hill, netted about $500 for that organization, and the praise and thanks of the church has been extended to the people who helped to make it a success.

Laing and Illsley held their auction of the drove of cows, which they have had quartered for several days at Emery's hotel stables, yesterday afternoon.

John Thys, of New York city, a former old resident of the villiage, was the guest Sunday of his brother, Joseph Clark.

Excelsior Hook and Ladder Company held their regular monthly meeting in their rooms last evening.

Mrs. George A. Clark and son have returned from a week's visit with relatives in Hazlet, this State.

A young son has arrived to brighten the home of Mr. and Mrs. Schwalbach.

WASHINGTONVILLE.

(Special Correspondence to The Press.)

Washingtonville, June 19—The commencement exercises of the Washingtonville School will be held in the Wilson Memorial chapel at Watchung next Thursday evening at 8 o'clock. Parents and friends of the school are cordially invited to be present. The following is a programme of the evening's exercises:

Song—Good Night Song.....School
A short address is expected.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 19—A strawberry and ice cream festival will be given by Camp No. 41, P. O. S. A., in Washington Hall tomorrow evening. A good time is expected.

The water was let out of the pond last week, but owing to the wet weather it could not dry, so was let on again until later.

Daniel Soffeld, Mrs. Outcalt and sister called on friends here yesterday.

Philip Brannsten, of Bayonne City, visited with friends over Sunday.

Mr. Voose moved into one of the new houses yesterday.

Joseph Eckert has been on the sick list the past week.

Miss Nellie Manning went to Trenton yesterday.

Jersey Peach Prospects Bright.

Flemington, N. J., June 19.—Peach growers have already commenced to place estimates on their probable yields this year. All the growers report that the prospects for an immense yield are most gratfying. It is estimated that 150,000 baskets will be shipped from Annandale, where Peter F. Hoffman predicts that he alone will market 20,000 baskets of the luscious fruit.

—The Ladies' Aid Society of Hope chapel will hold the last meeting of the season tomorrow afternoon.

—J. H. Leggett, the Y. M. C. A. druggist, received another large shipment of Huyler's fine candies Saturday, which are selling rapidly.

PARTICULAR MENTION.

John McClellan, of Watchung avenue, has returned from a trip to Newark.

James Carter, of Somerset street, enjoyed a pleasant visit with relatives in Brooklyn Sunday.

Miss Olive Newell substituted for Miss Minnie Williams in the Trinity Reformed church choir Sunday.

Among the early arrivals at Saranac Inn, on Upper Saranac Lake, was H. G. Runkle, of West Eighth street.

Miss Frances Lister and her niece, Miss Helen Lister, of East Fifth street, left Saturday for Philadelphia, where they will remain for some time.

The last issue of the Mail and Express Illustrated Saturday Magazine has the pictures of the New York city delegates to the Republican National Convention at Philadelphia. In the group is the face of James W. Perry, of the Thirteenth district, well known to many Plainfielders from his residence here for several years.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph's drug store.

Lokal-Nachrichten aus der alten Heimath.

Bayern.

München. Von der hiesigen technischen Hochschule sind vor Kurzem etwa 50 Studirende gemeinsam zur Weltausstellung nach Paris gereist.—Der Oktoberfest-Glückshafen soll nach einem Beschlusse des Magistrats auf den Etat des Oktoberfestes übernommen und der zu erzielende Reinertrag dem Münchener Hilfsfonds zugeführt werden.

Augsburg. Zur Entstehung der von dem Kommerzienrath Albert v. Hertel zu Gunsten der Stadt Augsburg errichteten, mit einem Kapital von 100,000 Mark ausgestatteten „Albert Hertel-Stiftung" wurde die staatliche Genehmigung ertheilt. Aus der Stiftung sollen Hausarme unterstützt und Stipendien ertheilt werden.

Bayreuth. Im Dorfe Ober-Prex hat der Gastwirth Wunderlich Selbstmord begangen, nachdem seine Ehefrau ihr Kind und sich selbst ertränkt hatte.

Burgwindheim. Beim Baumstumpfausgraben fand der Bauer Johann Stärk in Unterweiler 27 große Silbermünzen, die sämmtlich sehr gut erhalten sind und die Jahreszahlen 1750 bis 1781 tragen.

Dettingen. Dem 15jährigen Gewerbeschüler Leo Miltenberger, der zu Neujahr zwei Knaben vor dem Ertrinken im Main rettete, ließ in Anerkennung der muthigen Handlung der Prinz-Regent ein ansehnliches Geldgeschenk übermitteln.

Gunzenhausen. Der Schmiedemeister Zacher suchte in einem von ihm wegen einer Bagatellsache geführten Prozeß eine Postkarte, deren Stempel er radirt hatte, als Beweismittel zu verwenden. Er wurde deshalb wegen Betrugs von der Strafkammer zu fünf Monaten Gefängniß verurtheilt. Das nahm sich der Mann so zu Herzen, daß er in der nächsten Stunde seinem Leben durch einen Schuß in die Schläfe ein Ende machte.

Nürnberg. Das neue Untersuchungsgefängniß, dessen Bau im Herbste 1898 begonnen wurde, soll vor Ende des laufenden Jahres noch dem Betriebe übergeben werden. Es wird 200 Einzelhafträume für ebensoviele Gefangene und 14 gemeinschaftliche Hafträume für zusammen 50 Gefangene enthalten. Das neue Gefängniß wird somit zur Zeit die größte Anstalt für Untersuchungsgefangene in Bayern sein.

Ochsenfurt. In Euerhausen fiel der 15 Jahre alte Sohn des Bürgermeisters Karl in die Jauchegrube und erstickte. Seine Mutter und ein herbeigeeilter Nachbar, die den Knaben retten wollten, wurden durch die ausströmenden Gase betäubt und erkrankten schwer.

Passau. Neulich hat Bürgermeister Muggenthaler mit den sämmtlichen Wasserkraftbesitzern des Marktes Hals einen notariellen Vorvertrag abgeschlossen, durch den der Stadtgemeinde die Erwerbung der dortigen Wasserkräfte für den Fall der Errichtung eines Elektrizitätswerkes gesichert wird. Der vereinbarte Kaufpreis beträgt 190,000 Mark.

Staffelbach. Unfern der hiesigen Eisenbahnstation kollidirte in Folge falscher Weichenstellung ein in voller Fahrt befindlicher Schnellzug mit einem Güterzuge. Mehrere Waggons des ersteren entgleisten, stürzten in einander und wurden vollständig demolirt. Aus den Trümmern wurden 27 Leichen gezogen.

Aus der Rheinpfalz.

Deidesheim. Die verstorbene Frau Elisabeth Schmitt hat dem städtischen Armenfonds und dem Schöffler-Stift je 1000 Mark, sowie der katholischen Kirche in Friedelsheim, ihrem Geburtsorte, 2500 Mark vermacht.

Ludwigshafen. Anhier fand eine Benzinexplosion statt, bei welcher der Arbeiter Jean Lerchenfeld verletzt und die Ehefrau des Postboten Leiner mit ihren beiden Kindern getödtet wurde.

Otterberg. Vor fünf Jahren wurden durch den Eisengießer Johann Schneider aus Erlenbach in unserer Gemarkung eine größere Anzahl von Straßenbaumpfählen und Bäumchen durch Anhauen mit dem Beil beschädigt, beziehungsweise zerstört. Der Thäter ging gleich nach der That flüchtig in die Schweiz, letzter Tage jedoch kehrte er zurück und wurde verhaftet. Schneider glaubte jedenfalls, die Sache sei verjährt.

Württemberg.

Stuttgart. Die Württembergische Regierung hat für die Dauer der Weltausstellung in Paris ein ständiges Auskunftsamt zur Führung der Besucher aus Württemberg errichtet.—Vor Kurzem ist die Marbacher Wasserkraftanlage für die hiesigen Elektrizitätswerke eröffnet worden. Die Gesammtkosten der Anlage belaufen sich auf rund 2,000,000 Mark.

Ellwangen. Fabrikant Riedmüller, der vor Kurzem eine Kouvertfabrik gründete, hat sich erschossen.

Heilbronn. In einer Sitzung des Gemeinderathes kam das Gesuch des Oberbürgermeisters Hegelmaier, der nach einer Eingabe „nicht schlechter gestellt sein will, als sein Kollege in Ulm" und statt bisheriger 11,000 Mark 12,000 Mark Gehalt wünschte, zur Verhandlung. Die Gehaltserhöhung wurde beschlossen unter der Voraussetzung, daß der Stadtvorstand auch fernerhin den Vorsitz im Gemeinde- und Gewerbegericht führen werde.

A Storage Warehouse built as ours was, just for the business, is a safe, all-around place for your goods.

A AMOS H. VAN HORN LIMITED

A young gentleman, whose character is above reproach, prominent in the religious circles of a Pennsylvania village, an exhorter of the M. E. Society there, Secretary of the Quarterly Conference, and at one time President of the Christian Endeavor Society, has long been a user of Ripans Tabules, and says of them: "They keep my bowels open, they do not gripe, they do not purge, and I do not have bad pains in my stomach any more, which I had, with dyspepsia and constipation, for years—in fact, up to about three days after I began taking the Tabules. There used to be some kinds of food my stomach would sicken on—pork, for instance. I could not eat it without having a distressed feeling. Now everything goes down, pork and greasy food, that used to make me sick to think of. I always have a few of the Tabules in my pocket for use if occasion arises."

CASE AFTER CASE.

Plenty More Like This in Plainfield.

Scores of Plainfield people can tell you about Doan's Kindey Pills.

Many a happy citizen makes a public statement of his experience.

Here is a case of it. What better proof of merit can be had than such endorsement?

Mr. F. D. Smith of 686 West Front street, contractor for painting, etc. says:—"There was a distressing pain across the small of my back which clung to me all the time. When I got seated at times if I moved a sharp pain struck me in the back and loins and almost made me exclaim. Any change in the weather if I caught the least cold always aggravated the trouble and caused me to suffer severely. Doan's Kidney Pills were recommended to me by one of my employes who had been cured of a long standing case of kidney complaint by their use. I commenced the treatment, derived benefit from it immediately and before I had finished the first box I was cured."

For sale by all dealers, price 50c. a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

FASHION HINTS.

A Word Concerning Tight Gloves and Shoes.

According to a French authority, "To preserve the beauty of the eyes one should never weep." This is a simple recipe, requiring no pecuniary outlay, and may be safely recommended.

Theophile Gautier says, "A hand at ease in its glove is an aristocratic hand, while a hand cramped in its glove causes awkwardness and is a sign of low extraction." This is the verdict of a man and a Frenchman and shows excellent judgment. As a white glove especially makes the hand appear larger, many women try to wear a size too small, with the result that the hand looks lumpy and ill shaped and usually swells as a consequence of undue compression. The same

FOULARD GOWN.

thing may be said with respect to shoes—a tight shoe prevents graceful walking and does not make the foot seem less in size.

The cut shows a gown of gray blue foulard with a pattern of dots in two shades of blue. The skirt is plain in front and gathered around the hips and back. Around the foot are five ruffles, the top one headed by a puffing. The bodice is plain at the back and draped and crossed in front, where it fastens at the side under two Louis Seize knots of black velvet. The wide collar of embroidered and tucked nainsook forms revers, and the plastron and high collar are of Richelieu embroidery. The tight sleeves have bands of black velvet at the wrist and a frill of nainsook. The hat of white straw is trimmed with a drapery of black velvet and pink azaleas.

JUDIC CHOLLET.

FASHIONABLE FANCIES.

Millinery For the Coming Season. Street Costume.

Immense quantities of flowers are used on hats, in tufts, garlands and masses, composing the entire crown or brim. Where the crown is of flowers, the brim, which is round or crumpled, is of lace or gauze, as a rule. Foliage of all kinds, small fruits, roses, violets, mignonette, heliotrope and orchids are all much employed; also poppies, in blue as well as the natural colors.

Horsehair braids and braids of straw or chip, woven with tiny ribbons of satin,

STREET GOWN.

are much used for fine hat and bonnet shapes, and twists of tulle or gauze are made up over wire frames in the same fashion.

One of the latest models of millinery for garden parties and other festive summer functions is the hat of straw of some delicate shade—blue, pale green or pink—entirely covered with true Irish or venetian guipure, white or tinted, this again covered with mousseline de soie of the same shade as the straw.

The cut shows a street gown of gray cloth. The skirt is cut in scallops around the foot, which are finished with stitching and fall over a band of black and white striped silk. The close bodice, scalloped and stitched at the edges, beyond which projects a band of the striped silk, has a collar faced with silk and is fastened with enamel buttons. The sleeves have scallops down the outside of the arm, buttoning over on a band of striped silk. The plastron and collar are embroidered. The hat of mixed straw is trimmed with curled plumes and has a garland of primroses under the brim.

JUDIC CHOLLET.

CARE OF GLOVES.

How to Keep Them In the Best Condition.

Gloves are spoiled with something besides mere wear. If they are carefully cared for, they will look well much longer than when they are carelessly treated. In taking them off the wrist should be pulled, not the fingers, and the glove should in that way be turned inside out as it is removed from the hand. Then it should be left as it is until quite dry—it

WALKING COSTUME.

is always a little moist from contact with the skin—and when all dampness has evaporated it should be turned right side out, pulled lengthwise and put away without being folded.

One method of cleaning gloves is to place them upon the hands and rub them with a bit of flannel which has been moistened and dipped in powdered soap. They are then rubbed with dry flannel until they are themselves dry. Skimmilk is substituted for soap in the case of white or light gloves.

A picture is given of a walking gown in which there is a tentative appearance of drapery in the skirt, symptomatic of an effort to revive this species of ornamentation. It is of thin pastel blue cloth, and the skirt has three stitched plaits over each hip and a stitched box plait at the back. The tablier rises obliquely and fastens at the left side, where it is draped by two stitched plaits and buttoned under a tab. The tight bodice also closes obliquely, with pearl buttons and tabs, and the collar and vest are of white cloth. A fold of white cloth edges the skirt, bodice and tabs, and the sleeves are trimmed with tabs and buttons to match the bodice. The cravat is of fringed crepe de chine. The hat of white straw is trimmed with choux of blue silk and a curved feather.

JUDIC CHOLLET.

MILLINERY NOTES.

Straw Hats and Those of Lace, Tulle and Gauze.

Hats of mixed straw are again in fashion. The mingling of colors is carefully executed, forming a sort of plaid. These hats are chiefly employed for country and traveling wear, quills and ribbons being the usual trimming.

The old lace straws have been revived and are used alone or in combination with tulle, gauze or net. There are some very attractive ones shown in which the natural yellow tint is mixed with black and with jet spangles.

A novelty is shown in the shape of coarse black straw, roughly woven, in which a very narrow band of yellow va-

HOUSE GOWN.

lenciennes insertion is braided in with the straw, giving an odd but pleasing result. The effect at first glance is of a mixed lace braid.

Most of the dress hats have a wide brim, twisted and crumpled, and are of a light and airy character. The decoration is of lace, flowers and feathers.

An illustration is given of a house gown of mauve liberty silk. It is made on a princess foundation and is plaited loosely from neck to foot. The plastron and wrinkled collar are of the silk, and there is a band of embroidered galloon across the edge of the plastron and down the middle of the front. The shirred revers form a yoke at the back and are gathered on narrow black velvet ribbon, having a chou and ends of the ribbon in front. The full sleeves are gathered into cuffs of the embroidered galloon.

JUDIC CHOLLET.

Life on a Hawaiian SUGAR Plantation

It Is Democratic in Its Tendencies and Everyone Has a Good Time

IT IS an easy, healthful, pleasant life, that of the plantation. Perhaps one vegetates more than is best, but to one accustomed to the hustling, bustling existence led by people of the states, the vegetation is part of the charm. The horny-handed sons of toil in Hawaii are the dark-skinned folk, and the whites usually have enough leisure to allow of the indulgence in something besides a struggle for the bare necessities.

My mind goes back to the halcyon earlier days of the year I spent on a plantation on the Island of Kani, situate a night's voyage from Honolulu—the later days palled somewhat, I began to get restless and suffer from ennui, long for city streets and throngs. The place was wonderfully beautiful; but beauty can become monotonous. One day on Kanai I heard a gentleman, Ik Marvel's brother, say all he would ask for towards the end of life would be to be allowed to live on a plantation in Hawaii and plant trees and sit and watch them grow. Perhaps that would do in the autumn of life, when one had full store of fruitful memories, but for the young and eager it would scarcely suffice.

Dotted here and there on the four sugar islands of Hawaii are the waving cane fields and wide verandaed houses of many planters, Englishmen, Germans and Americans; and now that annexation has put the country on a sounder financial basis, the number of these will no doubt increase. The laborers are Japanese, Chinese, Portuguese and Hawaiians, but the planter, the manager, the lunas (overseers) and the bookkeeper are usually white men. The mill villages of Hawaii, and most of the villages are mill villages, are pleasant neither to sight nor smell, and the fortunate ones who can choose where they will set their dwellings usually screen their homes with trees and hedges and endeavor to get beyond the thick, sickening odor about the mill villages. Many of the laborers live in huts and sheds close to the mill,

SCENE ON A SUGAR PLANTATION IN HAWAII.

and while they and their habitations may add to the picturesqueness they seem to me to add to the general squalor and unloveliness.

But back of the trees is no squalor or unloveliness; there all is beauty and refreshment. A thick hedge of hibiscus makes a green wall to keep the owner private, and its crimson and coral flowers, big as saucers, drop their petals on the walks, strew flowers in the paths. Blossoms on bush and tree, vine-wreathed verandas, trees trimmed to give vistas of distant purple mountain and near opal sea, a wide, generous, hospitable house—this without. Within—hardwood floors, oriental rugs, Chinese furniture, summer stuffs, jars of ferns, tall palms, a piano, books and periodicals galore. And the household machinery appears to run so smoothly; white-clad, deft Chinamen, white-clad, ceremonial Japs perform their duties with neatness and dispatch, and the servant girl question seems not to have crossed the sea.

With such an ideal state of affairs one would think madam and maramoiselle must have much leisure for social matters, very fortunately situated for the furthering of social life. Yes—but there is the climate; it is not hot, you know, on the contrary, beautiful weather is the rule, yet the warm days are continuous, and one loses some of the ambition necessary to keep things moving, keep them up to a high pitch. One's own home is so lovely, so sufficient, one can be very happy without the outside world, and it involves a certain amount of self-sacrifice to bestir oneself and inquire how one's neighbors thrive. The day begins early, the master of the house having his big cup of black coffee and delicious bread and butter at half past five, the mistress hers in bed at the same hour. At half past seven the husband returns from his ride over the plantation, and there is a family breakfast. After this meal there will be a smoke and rest on the veranda for awhile, and then work till noon; for the men, riding or letters; for the women, household affairs, a visit to the schoolroom, conference with the servants, inspection of the garden. There is usually a resident governess for the children under 14, the parents not liking to send the little ones away off to the boarding schools in Honolulu, where are the only private schools for the white children.

After luncheon, a siesta, and a toilet, if one is not tempted by a magazine and a steamer chair, and there will probably be driving and visiting for the ladies. Perhaps three times a week various ladies in a radius of five miles or so, are "at home," and once or twice a week there will be men and tennis, but that is quite wildly gay. After a six o'clock dinner, much smoke and a little talk, one is apt to be sleepy, and sometimes as early as nine o'clock the household will be wrapped in slumber. The people have gotten up so early, there has been the long day in the open air, that as a rule there is not a great deal of brilliancy left by evening, the bed is more welcome than repartee and conversation. Not that gay evening functions are never indulged in; given the excuse of guests, a wedding, or a holiday, and then the beauty and the chivalry gather and make a fine showing; evening gowns and dress suits, diamonds and drawing-room manners are donned, and Society with a capital S is to be seen.

The host who gives the ball puts up a lanai, a dancing pavilion which is decorated with greens from the mountains, hires a band of native musicians, perhaps orders champagne from Honolulu and sends invitations all over the island. They will come from the farthest plantation and ranch to help him celebrate; some in carriages, some on horseback, their fixings tied up in the oilcloth bundle behind the saddle. By nine o'clock usually all are assembled, pretty women in pretty gowns, bronzed men in appropriate clothes, and all is merry as a marriage bell. The Englishman and German whirl the ladies in a continuous curve, the American "reverses," but all steer their ways without jar or collision.

The planters, the manager, the bookkeeper, the chemist at the mill, and their wives, and the minister—if there be one—and his wife, are on a plane of social equality. The lunas, the sugar boiler, the engineer, and their wives too, mingle in the dance; teachers, doctors and store keepers have part in the revel; a large portion of the white population of the island is present and social lines are not tightly drawn.

There is always a sprinkling of darker faces, but I fear not so large as in the days of royalty, when the social standing of many Hawaiians was superior; and yet no more "swell" affairs are given on the islands than those given by some of the better educated, wealthy Hawaiians. The race prejudice there never has been anything to compare with what it is here in the south; the Hawaiians are very unlike the negroes, never were slaves, but were lords of the soil, and are a quite different race. From the first there has been intermarrying with foreigners, and to-day some half whites, as they are called, hold the highest social positions. They are handsome and attractive, and often are the belles of the balls—especially if naval officers be present.

KATHERINE POPE.

Honey for Scho!

"Honey and bread was a great Meat with Pythagoras and his Scholars, and counted a sufficient food for a temperate life. For bread strengthens the body, and honey both nourishes much, and also cleanseth away superfluities," wrote Dr. Thomas Muffet in 1575. "Pollio Romulus being asked by Augustus the Emperor how he lived so long! By nourishing (saith he) my inwards with Honey, and my outward parts with Ayle. The like answer likewise made Democritus, being demanded the like question. Furthermore, it is so general a Meat through Russia, that the Children eat it on their bread every morning as ours do Butter to their breakfast; with whom, and with Old Men it agreeth exceeding well, clensing their breasts, opening their pipes, warming their stomachs, resisting putrefaction, and engendering sweet and commendable blood; Raw honey is never good, therefore clarifie it thoroughly at the fire; also let it be honey that ran and was never puffed out of the combs, and of young bees rather than old, feeding upon thime, rosemary, flowers, and such sweet and wholesome herbs. Then may you boldly give it as meat to young children, to cold and moist complexions, and to rheumatick old men, especially in Northern Countries, and cold climates, and in the winter months."

France has more persons over 60 years of age than any other country; Ireland comes next.

Corporation Notice.

Notice is hereby given that the following Ordinance has been introduced before the Common Council, read the second time and ordered engrossed preparatory to its third reading, and that it is the intention of the Council to adopt the same.

J. T. MACMURRAY, City Clerk.

Plainfield, N. J., June 4, 1900.

AN ORDINANCE

TO LICENSE AND REGULATE JUNK SHOP KEEPERS.

The inhabitants of the City of Plainfield, by their Common Council, do enact as follows:

Section 1. That licenses may be granted by the Common Council to such and so many persons of good moral character, and otherwise qualified according to the provisions of this ordinance, as the Common Council shall from time to time think proper, as keepers of junk shops.

Sec. 2. That every application for such license shall be in writing, signed by the applicant, and shall state his place of residence.

Sec. 3. Every person to whom a license shall be granted as the keeper of a junk shop shall enter into bond to the Mayor and Common Council of the City of Plainfield, with good and sufficient surety to be approved by the Mayor, in the penal sum of Two Hundred Dollars, conditioned for the due observance of all such ordinances of the City of Plainfield as may be passed or in force, respecting junk shops and the keepers of junk shops, at any time during the continuance of such license. Every license which shall be granted any keeper of any junk shop shall designate the house and place in which the person receiving such license shall be authorized to carry on said business.

Sec. 4. Every keeper of a junk shop so licensed as aforesaid, shall be authorized to keep at such house or place, what is commonly called a junk shop, for the purchase and sale of junk, rags, old ropes, old iron, brass, copper, tin, lead and other old materials, old bottles, old glass, old tinware, or other second-hand articles, and it shall be lawful for any keeper of a junk shop so licensed as aforesaid, to keep, use and drive a cart or cart's, wagon or wagons in the City of Plainfield for the purchase and sale of junk, rags, rope, old iron, brass, copper, tin, lead and other old metals, old bottles, old glass or old tin ware; provided that such cart or wagon so kept, used and driven by or for him shall be duly and separately licensed and that every such cart or wagon shall be marked with the name at length, the street and number of his place of business and the number of his license in plain letters and figures.

Sec. 5. No person shall keep what is commonly called a junk shop for the purchase and sale of the articles enumerated in the preceding section of this ordinance, and no person shall drive or draw or cause or procure to be used, or driven or drawn, any cart, wagon or other vehicle for the purchase or sale of either of such articles without first being licensed by the Common Council as hereinbefore provided under the penalty of not less than Ten nor more than Twenty Dollars for each and every offense, but the full penalty of Twenty Dollars to be imposed upon conviction for a second offense.

Sec. 6. No keeper of a junk shop shall receive in the line of his business any article or thing by way of pledge or pawn nor shall be loan or advance any sum of money on the security of any such article or thing under the penalty of Twenty Dollars for each and every offense.

Sec. 7. No keeper of a junk shop shall receive or purchase any goods, articles or thing whatsoever from any minor, apprentice or servant, knowing or having reason to believe him or her to be such, under penalty of Twenty Dollors for each and every offense.

Sec. 8. No keeper of a junk shop shall receive or purchase in the way of his business any goods, articles or thing whatsoever from any person or persons whatsoever between the setting of the sun and the hour of seven o'clock of the following morning under the penalty of Twenty Dollars for each and every offense.

Sec. 9. Every keeper of a junk shop shall provide and keep a book in which shall be fairly written at the time of each purchase a description of the article so purchased, the name and residence of the person or persons from whom such purchase was made and the day and hour of such purchase.

Sec. 10. The said book shall be at all reasonable times open to the inspection of the Mayor, Chief of Police, and City Judge, or any of them, or of any person who shall be duly authorized in writing for that purpose by any one of them who shall exhibit such written authority to such keeper of a junk shop.

Sec. 11. Every keeper of a junk shop who shall violate or neglect or refuse to comply with any of the provisions of the last two preceding sections of this ordinance shall for every offense forfeit and pay the sum of Twenty Dollars.

Sec. 12. No person shall keep a junk shop without being licensed for that purpose as aforesaid, or shall carry on such business or keep such junk shop at any other house or place than the one designated in such license, or shall continue to carry on such business after such license may have expired or been revoked under the penalty of *Twenty Dollars for each and every offense.*

Sec. 13. Every keeper of a junk shop shall have and keep a sign on the outside and in front of his shop or other place used by him for carrying on such business on which shall be plainly set forth in conspicuous letters his name and his licensed business under the penalty of Twenty Dollars for each and every week he shall make use of such shop or other place as aforesaid without having such sign so put up and maintained.

Sec. 14. If any goods, articles or things shall be advertised in any newspapers published in the City of Plainfield as having been lost or stolen and if said goods, articles or things, or any such, answering to the description of the goods, articles or things so advertised, or any part or portion thereof, shall then be in, or thereafter come into, the possession of any keeper of a junk shop, he or she shall forthwith give information thereof in writing to the Chief of Police, and shall also state from whom the same were received, under the penalty of Twenty Dollars for each neglect or offense.

Sec. 15. Every keeper of a junk shop who shall receive or be in possession of any goods, articles or things which may have been stolen or lost, or alleged or supposed to have been lost or stolen, shall forthwith, on a demand to view the same, present the same to the Mayor, Chief of Police, City Judge, or to any policeman or other person who may be authorized by any of the above named officers or magistrates to make such demand upon penalty of Twenty Dollars for every neglect or refusal so to do.

Sec. 16. That there shall be charged to each person or persons licensed as aforesaid and paid to the City Clerk for the use of the City on the issuing of such license with the privilege of using one junk wagon or cart the sum of Twenty-five Dollars, and for each additional junk wagon or cart the sum of Ten Dollars.

Sec. 17. All licenses granted for the purpose aforesaid shall expire on the first day of March next after the same shall have been granted and shall state the number of such license and the location thereof, and the name of the person licensed. All such licenses may be renewed annually, subject in all things to the same conditions, provisions and changes as in and for the original license.

Sec. 18. It shall be the duty of the City Clerk to notify the Chief of Police of and every license issued by him, to whom and for what time and purpose, and to furnish the Treasurer at least once in each and every month with a report of the number of licenses issued, together with the moneys due the City Treasurer for the same.

Sec 19. It shall be the duty of the Chief of Police to cause the provisions of this ordinance relating to fines and for failure to comply with the provisions thereof, to be carried strictly into effect.

Sec. 20 It shall also be the duty of the City Clerk to keep a register of all licenses granted under the provisions of this ordinance, wherein shall be stated the number of the license, the locality and such other data as may be necessary.

Sec. 21. Any person or persons who shall purchase or sell any of the goods, wares or merchandise mentioned in this ordinance without first taking out a license therefor, or after their license has expired, or when revoked, shall for each such offense be subject to the penalty mentioned above in section five.

Sec. 22. Any person or persons violating *any of the provisions of this ordinance* to which no penalty is attached in any preceding section, shall forfeit and pay a fine not exceeding the sum of Twenty Dollars.

Nations of the World at the Paris Exposition

Typical Architecture and Furnishings Seen in the Government Pavilions Along the Seine

FORTY-TWO nations are numbered among the exhibitors at Paris. They represent every clime, and practically all peoples of the earth. Along the river Seine, between the Alma bridge and that of the Invalides, they have erected their pavilions, and in them are grouped representatives of the people of the entire world, from the islands of the Pacific, from the nations of the east, from the far south and the far north, from the countries of South and Central America, from Africa and from enlightened Europe and America.

Side by side along the banks of the river stand the buildings erected by many of these governments that offer a variety and picturesqueness that has never before been equaled. Beside the unique structures of the far east and the native kralls of the African native kings tower the imposing pavilions of Europe and America. Every possible style of architecture is shown, and the whole offers a wonderful exposition within itself.

While the collection is a heterogeneous one, it is by no means an inartistic medley. Each building has been designed to represent as far as possible the style and material characteristics of the country which it represents, but over all there has been exercised the genius of the exposition architects and out of it they have made one of the most attractive sections of the great fair.

Like the United States pavilion, these governmental structures are not exposition palaces, but are the headquarters of the representatives of the different governments which have built them. Inside they are furnished with an elaborateness that is appalling. The best that each country produced was seemingly none too good, and every foreigner who visits the fair may rest from overmuch sightseeing amidst the luxuries of his native land.

To enumerate the nations exhibiting at Paris it would be to enumerate the nations of the world; to attempt to describe the pavilions built by them would be practically impossible. The ones that present the most striking characteristics are probably the old English mansion erected by the English government, the great structure of Russia with its immense towers, the pavilion of Hungary, of Italy, of Sweden, of Germany, of Peru, of Belgium, of Spain, of Bosnia, the Boer farmhouse of the South African republic, the picturesque pavilion of Heligoland, of Finland, of Switzerland, of China, of Japan, of Corea, and second to none the imposing structure over which flies "Old Glory."

The standing of the different nations at Paris is best shown by the comparative statement of exhibits which each have. The following is from the official table of exhibitors, and gives the number from each country:

France	30,000
United States	6,564
Belgium	2,500
Germany	2,000
Italy	2,000
Russia	1,500
Scandinavia	1,400
Austria	1,000
Great Britain	600
British colonies	600

This little table speaks more for American enterprise than columns of mere words could. England, from whom much should have been expected, is at the bottom of the list, while the United States is second only to France. But American enterprise is sure to be rewarded by an increase in her foreign commerce after the close of the fair.

But to return again to the government buildings. Americans who visit the fair will be more or less interested in the English building. It is a copy of Kingston house, built in the time of James I., in Bradford-on-Avon.

The ground floor contains a large hall, library and clerks' room, on one side; dining-room, salon and drawing-room on the other. In the center are the main staircase, lifts, lavatories, etc.

The main hall has been ornamented with the panels of tapestry which were designed by the late Sir Edward Burne-Jones. In the windows are fine specimens of stained glass. The English have endeavored to present in this hall a collection of the finest pictures of the eighteenth century painters. Next to the gallery is a room in which there is a show of rare specimens of old and modern china and Faience wares.

The pavilion will be open to the public at all times, except during the presence of the president of the royal commission, the prince of Wales.

TRE RUSSIAN PAVILION AT THE PARIS EXPOSITION.

The next most noticeable building, perhaps, in this group is the German national pavilion. Emperor William has jealously watched every move made toward the construction and embellishment of the pavilion from the time he selected the commission to the present time. The architecture is far from ornate—rather an attempt at simplicity was made, as the building is a replica of one of the private bourgeois houses on the Rhine. The exhibit within is most interesting, however. It presents gradual synthetic tableaus of German intellect and morals, a sort of social museum, giving an exhibition of what was done in Germany during the last 25 years in regard to the amelioration of the race and the well-being of the laboring classes. Several of the rooms in the second story are reserved for the commissioners and other dignitaries. The remainder will contain great artistic curiosities, which will be more than interesting to the French, for they consist of the best of French made in the way of artistic objects and furniture which has been in the possession of the Germans since the time of Frederick the Great. That was an ingenious idea of the emperor. Masterworks of Watteau, Chardin and Lauret, all the furniture and tapestries which are kept in the Stadtschloss and Sans Souci have been transported to the German pavilion. To be in harmony with these objects of art the doors, panels and ceilings are modeled after those in the palace of Sans Souci.

THE ITALIAN PAVILION AT THE PARIS EXPOSITION.

Many others are equally interesting, but to describe all of them would be impossible.

BERNHARD BRISTOL.

And She Didn't Tell.

"Now, madam," said the crotchety judge, who had been annoyed by the digressions of previous female witnesses, "we want no hearsay evidence. Tell me only what you know. Your name, please."

"Mary Jones," replied the witness.

"Your age?"

"Well—er—I only have hearsay evidence on that point, so I won't answer."—Philadelphia Press.

A Lenten Thought.

The Rector—Religion is a ladder we must mount round by round!

Miss Cynic—I thought fire-escape was the accepted simile!—Harlem Life.

The Measure of Comfort 1117

your family are to enjoy in the future, will depend, to a large extent, upon your forethought and wisdom. This should lead you to apply for a policy of Life Insurance in The Prudential, and thus insure to them, the measure of comfort which you want them to enjoy.

WRITE FOR PARTICULARS

Home Office, Newark, N. J. **THE PRUDENTIAL** Insurance Co. of America.

JOHN F. DRYDEN, President. EDGAR B. WARD, 2d V. P. & Counsel.
LESLIE D. WARD, Vice-President. FORREST F. DRYDEN, Secretary.
C. E. BALL, Sup't., Rooms 2-3-4, Bank Building, E. Front St. and Park Ave., Box 791, Plainfield, N. J.

PARTICULAR MENTION.

James McCann and Peter Galbraith acted as ushers at a wedding at Coney Island last night.

John Hart and daughter, of Newark, visited Miss Mary Brown, of East Fourth street, yesterday.

A fourteen-pound boy arrived at the home of Mr. and Mrs. Louis Lowrie, of West Third street, this morning.

Dr. Jarecka, of New York, has taken up his residence for the summer in B. A. Hegeman's house, 21 Myrtle avenue.

Dr. Bushmore has gone to Washington for the remainder of the week to attend the annual session of the American Institute of Homoeopathy. Drs. Davis and Adams will attend to his practice while away.

SPECIAL FOR VOORHEES.

Awaiting the Westernland, Which is Bringing New Jersey's Governor.

(Special to The Daily Press.)

New York, June 19—The Red Star Line steamship Westernland, from Antwerp, on board of which is Gov. Voorheees, of New Jersey, was sighted off Fire Island at 11:30 today. She will arrive at her pier about 4 o'clock.

A special train is being held in readiness at the Pennsylvania Railroad station in Jersey City to take Governor Voorhees to Philadelphia as soon as the Westernland comes up the bay.

Legislated Out of Office.

The New Jersey Legislators finding that the State was over-run with notary publics, enacted a law legislating all of the old ones out of office. Among those affected by the law is Justice W. E. Mattison, of the borough, but the chances are he will be reappointed. His friends are interested in his behalf and hope to see him secure this honor.

Laying Crosswalks.

The work of laying new crosswalks and culverts at the corner of Lincoln place and Duer street is now progressing satisfactorily under the direction of Superintendent Thos. Doud.

—This week we will have a large supply of Jersey sea food. Order for breakfast early. Rogers.

—There have been a number of out-of-town arrivals at the Park Avenue Hotel during the past week and more are expected soon.

—The Pizzo Tailoring Co., formerly of New York, have purchased the business formerly conducted by Richardson & Wahl, 325 West Front street, and will open Thursday.

Plainfield, N. J.
Tel. 851.

CONVENTION IN SESSION

[CONTINUED FROM PAGE 1.]

Among them were Judge Atwater, Senator Cross, County Collector Wood, ex-Alderman Haisey, Prosecutor English, Edward C. Woodruff and Congressman Fowler.

A Jerseyman is in charge of the headquarters of Irving Scott, of California, who aspires to the Vice-Presidency. Scott lays his claims to recognition on the fact that he built the "Oregon."

The Jerseymen who is looking after his picturesque campaign is F. B. Schoonmaker, of Plainfield. Schoonmaker is very little known in his native State, but seems to have an acquaintance on the Pacific slope.

In the matter of seats in the convention hall, the New Jersey contingent has fared more than well. The State's seats are directly in front of the platform—the best in the hall.

Convention honors made by the caucus of the New Jersey delegates were as follows:

Vice-President of the convention, Foster M. Voorhees, or his substitute, J. I. Blair Reiley.

Credentials committee, Barker Gummere, Trenton.

Committee on organization, William S. Hancock, Trenton.

Commitee on rules, Flavel McGee, Jersey City.

Resolutions, Frederick P. Olcott, Bernardsville.

Committee to notify Presidential nominee, Leslie D. Ward, Newark.

Committee to notify Vice-Presidential nominee, William Barbour, Paterson.

It was announced at midnight that New Jersey would give its solid vote in the convention to Secretrry Long for the Vice-Presidency.

This announcement was the outcome of the firm stand taken for Long by General Sewell, who is said to be voicing the wishes of the President.

There are some among the New Jersey delegation who still lean to the notion that Roosevelt will be the nominee, despite his latest round robin that he believes his field of usefulness is in New York rather than in a secondary position at Washington.

A placard containing the names of "McKinley and Long" rests on the mantel in the New Jersey headquarters, and the delegates, taking the cue from Gen. Sewell, are becoming quite enthusiastic for the New Englander.

SENATOR KEAN'S PROGRAMME.

Must Stay at Home to Help McKinley's Canvass.

Julian Kean's vice-president of the National State Bank, of Elizabeth, and a brother of Senator John Kean, sailed for Europe Wednesday last with his sister. They will visit the Paris Exposition and remain abroad for the summer.

Senator Kean would like to have accompanied them, but the Presidential campaign will keep him home this year, as the Admistration expects him to see that New Jersey is kept in line for the Republican party.

To Meet on Duer Street.

This afternoon the Somerset County Board of Freeholders will meet the bridge committee from the Union County Board at Duer street, to consider the work of erecting a bridge over Green brook at that point.

Lecture by a Former Jack Tar.

Louis Stanley Young, formerly of the "Olympia," delivered an interesting lecture at the Camera Club rooms, last evening, to a fair-sized audience. It is probable that Mr. Young will give another lecture soon.

Will be a Paying Line.

The Arlington avenue trolley is being patronized to a large extent than the trolley company expected. It bids fair to be one of the best paying lines in the city.

AT THE GRAMMAR SCHOOL

GRADUATING EXERCISES TO BE HELD TOMORROW AFTERNOON.

Addresses to be Delivered by Professors Maxson and Gregory—List of Graduates.

The graduating exercises of the Grammar School department of the Plainfield Public Schools will be held tomorrow afternoon in the Assembly Hall of the Franklin School. There will be addresses by Henry M. Maxson, superintendent of the Plainfield schools, and B. C. Gregory, superintendent at Trenton. The programme will also include recitations by the Misses Mae Everett Anthony, Anna Coriell Randall, Jean Douglass and Mae Batchelor, Harold C. Fenno, Frank H. Lock. The school will sing several choruses. The exercises will conclude with the presentation of diplomas by Dr. J. B. Probasco, president of the Board of Education. The graduates are:

Francis Ketcham Anderson, Mae Everett Anthony, Rachel Stuart Aughiltree, George Luason Babcock, Mae Batchelor, Violet A. Beerbower, Arline Bell, Ruth Leonore Berg, Evelyn May Berg, Louis Bock, Herbert John DuBois, Bessie Wright Bond, Anna Frances Brodnax, Van-Wyck Brooks, Clara Louise Buckle, Jessie Alice Burt, Louise Ruth Coleman, Walter Craig, Lida F. Day, Jean Douglass, Mary Harriot Dunham, Florence DeForeest, Harold Chamberlain Fenno, Walter Foster, Dorothy Fleming, Christina F. Frederickson, Leonard W. Gavett, Erma M. Green, Eloise Haven, Viola May Hellyer, Emma Kellogg, Margaret Francis Kenney, Ethel Hall Kinsey, Martha Klein, Huola M. B. Lane, Emma Line, Mary Linda Line, Frank H. Lock, Monroe Hyde Long, Jessie Maclay, Robert Latham Marcley, Lawrence Miller, Cornelia Miller, Helen Anneta Monro, Margaret C. Nash, Charles F. Neagle, Elizabeth Ellis Phillips, Etta Randolph, Anna Coriell Randall, Lulu Randolph, Martha Adelaide Robert, Helen Robins, Katherine Manning Rocap, Margaretta C. Runyon, Henry Munn Slauson, Lillian Snodgrass, Jessie Katherine Stevens, Lulu May Stryker, Mabel Rebecca Templin, Bessie Rizpah TenEyck, Mary F. Tildon, Joseph Lord Tweedy, Francis Ludlow VanDeventer, Ada VanDoren, William P. VanEps, Anna Lillian Walsh, Anna Louise Wenzel, Amy Lewis Whitney, Winifred Grace Wilcox, Elizabeth T. Wilson, Emily Lawrence Winant, H. de Piva Wright.

WOULD IMPROVE THE HARBOR.

Joint Waterways Committee to Inspect Staten Island Sound.

For the purpose of inspecting the Kill von Kull, Staten Island Sound and other adjacent waterways in that part of New Jersey, the Joint Waterways Committee of New Jersey has arranged for a party to leave New York Saturday, June 23d. The arrangements for the trip have been completed by D. C. Chase, of the State Board of Pilot Commissioners, and P. M. Bonnett, of Elizabeth. The invitations to the members of the River and Harbor Committee were sent out by Congressmen Howell and Fowler.

For several successive Congresses an effort has been made to get a liberal appropriation for the improvement of Staten Island Sound. Theodore E. Burton, chairman of the River and Harbor Committee, was invited to make a trip of inspection of the waterway prior to the adjournment of Congress. He agreed to do so, and the date was fixed.

Pilot Commissioner Chase has arranged to have the steamer Victor at the Battery pier at 10:30 a. m., and the party will inspect Woodbridge Creek in a steam launch. The Joint Waterways Committee hopes to get a liberal appropriation for the improvement of Staten Island Sound next winter.

PROBATION OFFICERS.

New Position Created in Big Cities by The Last Legislator.

It has just been discovered in Elizabeth that the last Legislature passed a bill creating the position of Probation Officer for cities of the first and second class, the duties of said official to be that of keeping track of criminals on whom sentence has been suspended or lightened. The compensation is fixed by the Court, but the Board of Freeholders has the appointing power.

Singularly none of the office seekers seem to have learned until this week of the existence of the law. Detective Conrad V. Sherring was the first one to see the opportunity for a place and he is now in the field armed with a petition. As the officer can come from any part of Union county, Elizabeth is not likely to have a monopoly of the aspirants.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

—Use Press want ads.

EIGHT NEW TEACHERS

CHANGES AMONG BOROUGH INSTRUCTORS FOR COMING YEAR.

Superintendent W. J. Wightman Has Been Engaged for Another Year—The Complete List

Several changes have been made in the corps of teachers in the borough public schools for next year, and those who will teach have been decided upon. The list includes eight new teachers as follows: Miss Elizabeth S. Lum, Miss Alberta E. Waterbury, Miss Minnie Green, Miss Cora Remington, Miss Clara L. Atherton, Miss Lizzie Southworth, Miss Mary H. Ege and Miss Clara VanFleet. The latter will teach music as an assistant to Charles L. Lewis in the high school. Superintendent W. J. Wightman will remain another year, and the full corps of teachers is as follows:

High School: Miss Susie Glass, Miss Elizabeth S. Lum, Miss Marion Bush, Miss Myrtle Montague, Miss Luella A. Crowther, Miss Laura Sydenham; grammer grade: Miss Mary C. Weller, Miss Laura Walker, Miss Alberta E. Waterbury, Miss Minnie H. Green, Miss Alice Thompson, Miss Maud Acock; primary grade: Miss Elizabeth Kiernan, Miss Sara B. Mackey, Miss Cora Remington, Miss Clara L. Atherton, Miss Rebecca Frazee, Miss Mary Hart, Miss Lizzie Southworth, Miss Mary H. Ege, Miss Emma U. Tantum, Miss Elizabeth Claypoole, Miss Minnie Filkins, Miss Mabel R. Hare, Miss Enid Walker, Miss Elsie Horton, Charles L. Lewis and Miss Clara VanFleet.

Of the above list, Miss Mary H. Ege and Miss Elsie Horton will teach in the kindergarten. As yet arrangements have not been completed for the manual training department, and an instructor has not yet been secured, but will be at an early date.

TO EXPLAIN TO VOTERS.

Borough Board of Education Decides to Call a Special Meeting for Evening of July 2d.

At the meeting of the Borough Board of Education last evening it was decided to call a special meeting of citizens for Monday, July 2d, at which time they will be asked to make an appropriation to properly heat and ventilate the Somerset street building. It was agreed that the matter should be thorougly explained to the people so that they may vote intelligently on the subject.

Superintendent Wightman presented the Board with a copy of the commencement programme, and it was approved by the latter. Thus far everything is working satisfactorily for the closing of school, and there has been no hitch of any kind. It is hoped that Mr. Hayes, of Essex county, will not fail to be present and make the address to the graduates, as he promised some time ago.

LITERARY.

The July Century will contain the first installment of the reminiscences of William Mason, the distinguished composer and pianist, who has long been the dean of the musical guild in America. In his "Memories of a Musical Life," Dr. Mason will revive the development of music in Europe and the United States during the second half of the nineteenth century, with special reference to the personality of its chief exponents at home and abroad. He writes with great frankness, but his position in the musical world is so well established, that his expressions of opinion will be accepted as free from any taint of professional bias.

RUTGERS COMMENCEMENT.

Rapalje Boys, of This City, Are Among the Graduates.

The 134th commencement of Rutgers College will take place in Ballentine Gymnasium Wednesday at 8 p.m. The speakers will be C. E. Case, first classical honor; John Wirth, second classical honor; Waldo A. Titsworth, third classical honor; John F. Tinsley, first scientific honor; H. H. Conover, second scientific honor; P. M. Brink, third scientific honor; Robert Pettit, rhetorical honor.

The members of the class include the following Union county men:

Classical section—Wm. Edwin McMahon, Rahway.

Scientific section—Blanchard Collins Edgar, Rahway; Ernest Harold Rapalje, Henry DeWitt Rapalje, Plainfield; Graham Crowell Woodruff, Rahway; John Francis Tinsley, Elizabeth.

Trolley Guard Wires.

The street railway linemen started the work yesterday of putting up the guard wires on the Arlington avenue line. The purpose of these wires is to prevent telephone and electric light wires from falling across the main trolley wire. Five new Gorton arrestors are also being placed on this line as a protection from lightning, which, when it strikes the wire, runs along and enters the first car in its path, sometimes wrecking the car.

Fixing Up Culverts.

The city stone layers are fixing up the ends of the culverts on Arlington avenue, extending and completing the work done by the Street Railway Company.

School Closes Friday.

Many of the borough school children are happy because school will close Friday for the summer vacation. The few remaining days are busy ones for the scholars who are trying to finish up their work before the close.

—For breakfast nothing like sea food if it comes from Rogers.

JERSEY IS FOR LONG.

Delegates From This State Aiding the Administration All They Can.

IT IS THE WISH OF SEWELL

JERSEYMEN IN FRONT ROW OF THE CONVENTION.

Delegates and Other Leaders Were Entertained Last Night by Dr. Ward—Interesting Incidents.

(Special to The Daily Press.)

Philadelphia, June 20—There appeared no end of Jerseymen in town yesterday. They were in evidence on every hand, and how the convention could have had such a smooth and auspicious start without them is hard to tell. The headquarters in the Lafayette swarmed with them all day and all the evening, and Parlor B is destined to go down in the political history of the State to share the fame of room 100 at Trenton, where so many chapters of political history have been made in the past third of a century. The gathering was not confined to Republicans, however, for there were many well-known Democrats in the throng. In the morning the State's delegation held another caucus with a view to reaching some conclusion as to its vote on the Vice-Presidency.

As indicated on Monday, the delegates were ready to accept Roosevelt if he were found to be the man of the hour, but they were not willing to take the responsibility involved in the personal fight between Hanna and Quay. As both have friends in the Jersey delegation and are particularly friendly to General Sewell, it was decided to take the middle ground and indorse another man. Their preference seemed to be Secretary Long first, then Senator Fairbanks and next Cornelius N. Bliss. There seemed to be no Dolliver stock among them at all. When it came to expression it was deemed inadvisable to make an actual pledge to any candidate.

Barker Gummere got the ideas into the shape of a motion, stating that it was the sense of the New Jersey delegation that Secretary Long was favored as a candidate, and in this way the indorsement was made. Later on as the Long boom assumed somewhat formidable proportions and promised to become the winner the Jerseymen felt very good in their boots, but when the disquieting rumors of Roosevelt's ultimate decision to accept second place were spread abroad with persistence the Jerseymen began to feel a bit blue.

In the big convention hall New Jersey is very much in evidence. The State's delegation had the choicest seats in the assemblage, being located immediately in front of the speaker's rostrum.

Immediately behind the Jersey representives sat the New York delegation, so that the shimmering rays of Roosevelt's lustre were shed on the men from the Garden State.

United States Senator Kean was but a few paces from Senator Hanna on on the platform, and in all directons Jerseymen were in evidence.

The beaming countenance of Congressman Fowler, of Elizabeth, shone from under the spreading branches of a hugh tropical plant at the extreme end of the hall, while the less prominent of his fellow Jerseymen all managed to get good seats.

After the convention the Jerseymen returned to the headquarters at the Lafayette and then started in to do the city. The time was very pleasantly spent, every visitor being cared for by a card of entrance to some club or other.

Every Jerseyman felt it incumbent upon him to give the Long boom a lift, and the Secretary of the Navy could not have made warmer adherents had he been a native of the snug little State across the river.

Dr. Leslie D. Ward entertained his brother delegates and others, including Acting Governor Johnson and Congressmen Fowler, Parker, Loudenslager and Gardner at a banquet in the Continental Hotel last night.

WILL OPPOSITION TO FOWLER BECOME OPEN?

Only the Future Can Tell Whether or Not There Will be a Fight Against Him.

THERE IS STRONG FEELING.

CONGRESSIONAL PRIMARIES WILL BE HELD NEXT MONDAY.

It is Probable That the Plainfield Delegates will be For Fowler—Delegates to State Convention to be Chosen Then.

While the Republican National Convention, now in progress at Philadelphia, naturally absorbs much of the attention of the local Republican workers, they will soon have to consider the coming State and Congressional conventions. The date for the primaries to elect delegates to those two gatherings has been set for next Monday evening.

With the choice of the delegates for the Congressional convention comes the old and troublesome question of the opposition to Congressman Charles N. Fowler. That there is some opposition to Mr. Fowler, there is no doubt. Whether or not that opposition will crystalize into definite shape is another matter. At present it looks very doubtful and there is every prospect that Congressman Fowler will be renominated by acclamation.

With the primaries so close at hand opposition, if there is any, would naturally begin to develop. So far, however, there has been no talk here of anyone for Congress but Fowler. Some time ago it was currently reported that Frank Bergen had considerable strength in Plainfield and would put up a strong fight for the nomination. The knowing ones declared at the time that Bergen could never land the nomination but, if he had the support of Senator Kean, he might foil the present Congressman's ambition.

There has been comparatively little talk about the Congressional convention in Plainfield of late, despite the fact that the primaries will be held Monday night. Everything now points to very quiet primaries. While there will be no instructing of delegates, the men who will be elected to attend the gathering of Republicans from the Eighth district next week will undoubtedly be Fowler supporters.

The representation of Plainfield at the Congressional convention will be on the ratio of one delegate for every hundred Republican tickets or fraction thereof over fifty cast at the last State election. That will give the First, Second and Third wards four delegates each and the Fourth ward six delegates.

Although the State convention to select candidates for Presidential electors is not to be held until September, it was decided sometime ago by the county executive committee to elect delegates at the coming primaries so not to necessitate another set of primaries. The representation to this convention is at the rate of one delegate for every two hundred Republican votes or a fraction thereof over one hundred cast at the last State election. The First, Second and Third wards will get two delegates each and the Fourth ward three.

Plainfield is scarcely likely to get a representation in the Electoral College this year. Four years ago Ernest R. Ackerman was chosen for that place, so the rest of the Eighth Congressional district will undoubted object to the honor going to this city again. Mr. Ackerman's name has been mentioned for the place, but entirely without his consent. As New Jersey only has ten electors, it is hardly likely that the G. O. P. will give Plainfield the honor again this year.

Too Many High Weeds.

The residents of the West End who have occasion to use Lee place, from Fourth to Seventh streets, complain of the high weeds on the sidewalk of that thoroughfare. The weeds have become so thick as to cover the walk, with the exception of a small path through which pedestrians must force their way with disastrous results to their clothes. A few hours work with a scythe would obviate the evil.

Keep Your Cats at Home.

Charles Greer, of Grove street, is mourning the loss of a brood of nine game chicks, which were stolen by cats. Mr. Greer is quite a chicken fancier and the chicks were from a choice setting of eggs which were given to him by a brooder from Flemington. Their loss is keenly felt and a return visit will result in the disappearance of some household pets.

PRETTY NUPTIALS IN CHURCH AND HOME.

Dunham-Harris and Owens Kelly Marriages Celebrated Yesterday Afternoon.

ALL RESIDE IN PLAINFIELD.

CUSTOMARY OMENS OF GOOD LUCK AT THEIR DEPARTURE.

Both Couples Are Popular Young People and Received Many Congratulations After the Nuptial Knots Had Been Tied.

One of the most attractive of the home weddings for June was that of yesterday afternoon, when Miss Edna M. Harris, eldest daughter of Mr. and Mrs. Charles E. Harris, of 441 West Fifth street, and granddaughter of the late Joel R. Briant, of this city, became the wife of Joseph S. Dunham, of Arlington avenue. The happy event took place at 2 o'clock in the presence of a number of relatives and friends.

The home was appropriately decorated with roses, palms, ferns and honeysuckle, and in the parlor, where the ceremony was performed, there was a bank of flowers arranged in front of which the bridal party stood. Erwin R. Leland, of this city, rendered the wedding march on the piano as the party entered the parlor.

The bride wore a gown of white of light material, trimmed with lace and a fancy bow. She carried an ivory covered prayer book, inside of which was a spray of sweet pea and fern. She was attended by her sister, Miss Cora A. Harris, as bridemaid, who also wore a gown of white, trimmed with lace and ribbon. The groom was attended by Charles Dolliver, who was best man.

Rev. Dr. W. C. Snodgrass, pastor of the First M. E. church, where the bride is an attendant and member of the choir, performed the ceremony, using the regular service of the M. E. church. A ring was used in the service, with the customary responses. Following the ceremony congratulations were offered, after which a wedding lunch was served.

In connection with the wedding an event, which made it of double interest, was the fact that it took place on the anniversary of the birthday of the bride's mother, which made it a dual celebration. Mrs. Harris as well as her daughter, came in for a share of the good wishes. About 3 o'clock Mr. and Mrs. Dunham left for a wedding trip of ten days, and on their return they will reside for the present at the home of the groom's mother.

The happy couple received a large collection of handsome and useful gifts, all of which will be of use when they go to housekeeping. The groom, who is employed at Somerville by the Jersey Central Railroad, was handsomely remembered by his associates, who presented him with a purse of money. When Mr. and Mrs. Dunham left the house and at the North Avenue station, they were showed with rice and roses by their young friends, who surely gave them a good send-off.

Among those who witnessed the marriage were Mr. and Mrs. L. S. Bond, of Elmhurst, L. I.; Miss Underhill, of Brooklyn; Mr. and Mrs. S. C. Harris and son, S. C. Harris, Jr., of Carteret; Miss Lizzie Stedman, of Harlem; Mrs. Elizabeth Kenney, of of Middlebush; Mr. and Mrs. Charles E. Harris, parents of the bride; Miss Cora A. Harris, sister of the bride; Mrs. Mary Dunham and Miss Ida Dunham, mother and sister of the groom; Mr. and Mrs. Garrett Q. Dolliver, Charles Dolliver, Mr. and Mrs. E. R. Leland, Erwin B. Leland, Leslie K. Leland, Miss Ellen VanZandt, Mrs. A. M. Briant and Miss Smith, of Plainfield.

The marriage of Miss Nellie M. Kelly, of Park avenue, to Maurice Owens, of Lee place, was celebrated at St. Mary's church yesterday afternoon. The ceremony was performed by Rev. F. J. Murphy, of Cranford, assisted by Rev. Father P. E. Smyth, of St. Mary's church.

The church was crowded with guests and the altar was beautifully decorated with palms, white roses and smilax.

John Owens, a brother of the groom, was best man, and Miss May Mansfield, of Philadelphia, a cousin of the bride, was bridemaid. The ushers were Michael Owens, Lawrence Doyle, Wilbur Schafer, of this city, and William Hutelmyer, of Philadelphia.

To the beautiful strains of Mendelssohn's wedding march played by Miss Smith, the organist of the church, the bridal party proceeded to the altar where they were met by the groom

[CONTINUED ON PAGE 4.]

NEW BRIDGE TO BE BUILT

TO CONNECT MADISON AVENUE WITH DUER STREET.

Joint Meeting of Union and Somerset Freeholders Recognized That it Was a Needed Improvement.

The Somerset County Board of Freeholders met the bridge committee of the Union County Board of Freeholders on Duer street, yesterday afternoon, to consider the question of erecting a bridge over Green brook to join the city and borough at that point. It was unanimously agreed that a bridge should be erected, and the Freeholders decided to build one exactly like the one on Watchung avenue. The precise cost of the improvement cannot be ascertained at present, but bids will be advertised for and in a very short time the total expense will be known.

The Freeholders of both counties were much pleased with the improvement and seemed glad to grant the request of the city and borough officials for a bridge. There were no dissenting votes, all uniting in saying it should be built, and all voted for it. There is now no reason why the work of construction should not be started very soon, as it will require but a short time to learn the cost.

The bridge is to be 50 feet wide and 45 feet long. Mayor Smalley was convinced that it should be 50 feet long, but the Somerset county members of the Board could not see it. The work of construction will be under the direction of Frank J. Hubbard, engineer for Union county, and Joshua Doughty, Jr., engineer for Somerset county. Bids will be received by the engineers up to July 23, on which day at 3 o'clock in the afternoon they will be opened at the office of Mr. Hubbard in the Babcock building.

A MIRACULOUS ESCAPE.

Wheels of a Buggy Passed Directly Over the Head of Seven-Year-Old Boy.

Eliot Burr, Jr., the seven-year-old son of Eliot Burr, of Richmond street, escaped most miraculously from serious injury this morning, in an accident which befell him while riding his wheel on East Second street. The little fellow, in company with another boy, was riding along talking to his father who was walking. A carriage driven by Edgar Serrell was approaching and Eliot's companion turned out of the way. In attempting to follow him, the Burr boy ran directly into the horse, striking him in the chest and then falling beneath his feet. The animal leaped from him and both wheels of the wagon passed directly over his head. He was picked up and taken home by his father and Dr. Jenkins was summoned.

The doctor found on examination that the only injuries he sustained were severe bruises about the face and head.

HE FELT PUGILISTIC

Edmund Scott was the Victim of John Kennedy's Unruly Conduct.

Edmund Scott was standing on Park avenue about 11 o'clock last night when he received a blow on the side of the head, followed by another on the back, but where they came from he didn't know. Before he could discover the cause of the mysterious assault a third blow struck him in the chest. Officer Totten appeared on the scene from some mysterious place and invited him to walk over to the police station with the cause of the trouble.

In the City Court this morning Edmund found out that the blows came from the hands of John Kennedy. The latter explained that he had taken a drink for the first time in a month which had aroused his pugilistic abilities, which he attempted to try on Scott. The Judge considered Scott was punished enough, but a fine of $3 was imposed on Kennedy.

To Repair an Unsafe Bridge.

The bridge over the Raritan river, connecting Bound Brook and South Bound Brook, has grown so weak that the authorities of Middlesex county have begun to have fears for its safety. The contract for repairing and strengthening the bridge has been awarded to Former Sheriff William T. Kirk, of Plainfield, and the work has already been started. This is the first time that the bridge has been repaired since it was built fifteen years ago and it has gone through several severe freshets during that time.

Not to be Beaten.

Walter Scott, of East Front street, is not to be beaten in the raising of early garden stuff. He reports that he has had peas, lettuce and spinach out of his garden for the past two weeks, and new potatoes were dug for the first time for last Sunday's dinner.

SENIORS IN A JOLLY MOOD AT CLASS DAY

Graduates Turned Their Minds to Humor Last Night and Had a Good Time.

SOMETHING NEW WAS TRIED

THE FAIR MEMBERS HAD EVERYTHING THEIR OWN WAY.

Only One of the Young Men Graduates Had the Courage to Take His Position With the Class—Many Original Ideas.

As a class organization of the High School, 1900 ended its career last evening at the class day exercises in the assembly hall of the Franklin building. The hall was packed, and the families and friends of the Seniors, who filled it, found much to please in the rather novel entertainment provided.

From the very start 1900 departed from the beaten track and tried something new. The president of the class, Miss Marion Woodcock, presided. The exercises opened with a song, "Don't Be Slow," to the tune of "Kingdom Coming." The words were the joint effort of Miss May Ross and Miss Emily Runyon. All the young women but one were present. Albert Schomp was the only one of the three young men who had the courage to take his position with the rest of the class.

After the song, Miss May Alice Ross read the class history in four installments, one for each year in the High School. They were illustrated by a series of scenes. First was a representation of the troubles at Christmas in the Fourth Class. Then came an allegorical tableau, "Inexperience," impersonated by Miss Georgette Wolff, supposed to be typical of the first year in the High School.

After the history of the second year was read, a game of basket ball was pictured as the most exciting happening of that period. "Seclusion," with Miss Emma Miller in that role, was the accompanying tableau.

To illustrate 1900's history as the Junior class was a sketch in which Miss Woodcock and Miss Dunham figured. It was intended to represent the quarrel of the Seniors and Juniors over the Christmas decorations that year. "Heaping Coals of Fire" was a thrilling young tableau in which Miss Marion Woodcock, Miss Mary Mann and a small coal shovel took part.

There wasn't anything shown of the life as Seniors. It was too near at hand. The allegorical figure was "Triumph," Miss Ruth Maxson filling the part.

The class poem, written by Miss Mary Lock, was read by Miss Ruth Maxson, and was quite clever. A piano duet by Miss Beatrice Miner and Miss Edna Burr followed.

Miss Pauline Denton had some interesting things to tell about the class in the prophecy. All sorts of nice fates were arranged. The young men were particularly well remembered. Albert Schomp was to be a leader of fashion. Walter Squires was to pitch for an "extinguished" baseball team, while Chas. H. Fountain was to be a Baptist minister.

Epitaphs, one for each of the class, were read by Miss Georgette Wolff, who wrote them. They were funny, many of them, and cleverly written. The undergraduates of the school were requested to see that they were properly placed.

A class will, a novel scheme of Miss Emily Runyon, was read by its author. She gave the contents of the class treasury to the Board of Education to pay for the new High School. Principal Travell was turned over to the Juniors. The baseball team was willed to Mr. Meredith with the request that he keep it out of sight.

There were sundry other gifts for the other teachers and a huge red seal at the bottom to give it the proper legal air. Despite the heaviness of the legal phrases used, it was a bright production.

A "Farewell" song, with words by Ross and Runyon, the class composers, ended the exercises. Refresments were then served to the class and the faculty after which an informal reception followed. The hall was prettily decored with red and green, the class colors

To Preach to Soldiers.

Rev. S. P. Simpson, rector of St. Stephen's church, has been appointed by the Bishop to officiate Sunday next at Fort Hancock, Sandy Hook. The U.S. Fifth Artillery occupy this station. The captain, E. K. Hills, being a nephew of Mr. Simpson.

Mr. and Mrs. H. C. Randolph, of Washington avenue, leave today for Asbury Park, where they will spend the summer.

WESTFIELDERS WILL WITHDRAW CONSENT

There is Strong Objections Made to Building Trolley Line Along Broad Street.

FRANCHISE IN QUESTION.

RUSHING WORK ON RAHWAY AND BOYNTON BEACH LINE.

Objection of Lehigh Officials Makes it Necessary to Open New Street—Cross Country Line in Operation by July 1st.

(Special to The Daily Press.)

Westfield, June 20—The property owners on Broad street, after holding a number of meetings and retaining eminent counsel, searching records, securing data, etc., still oppose the building of the trolley on that thoroughfare, between Elm street and Mountain avenue, under the old franchise granted for a line from Elizabeth to Plainfield.

The committee representing the property owners claims that the company abandoned the right of way on Broad street when it turned up Elm street; also that it never signed for a road between Springfield and Westfield, but for the Elizabeth-Plainfield line; and, further, that the town committee had no right to grant an extension of time after August 30, 1898, without the consent of the abutting property, as the signatures were obtained upon a contract by the trolley company to finish and operate a line between Elizabeth and Plainfield by August 30, 1898, and no work was done toward construction in the town until 1899, therefore the force of the consents had expired with the time limitation.

As the resut of these findings the opposition will cause to be served upon the company the necessary notices of withdrawal of consents in due legal form as a preliminary step in the contest for their rights, and some further interesting legal points will be raised by counsel in behalf of the property owners, who will also, at the next meeting, petition the town committee for relief.

Work is being rushed on the Rahway and Boynton Beach trolley in the vicinity of Picton, where the tracks had to be turned off and run to and alongside of the county road to the Lehigh Valley crossing, in order that passengers might transfer themselves across the tracks of the company in the same manner prevailing a short time ago at the Baltimore and Ohio Railroad crossing. This detour was made necessary because there was no crossing for public travel on the trolley company's right of way. Therefore the Lehigh Valley Company might fence its line at that point and prevent any transfer of passengers across its tracks, and render the trolley cars useless for travel between Rahway and Westfield.

It is said that it was desired to cross the Lehigh Valley tracks at grade, as the construction of an overhead bridge would involve an outlay of $30,000, which was deemed too expensive. So the new street that was to be thrown open simultaneously with the opening of the road will not be available for some time yet, as litigation to condemn a right of way will probably prove tedious and consume considerable time. It is expected that the road will be operated by July 1st under the transfer plan.

NO BONES BROKEN.

Worse Injury That George Serrell Sustained was a Sprained Knee.

George Serrell, of Plainfield avenue, who was thrown from his brother's carriage yesterday morning while driving from this city to Allenhurst, was brought to the hospital early in the afternoon. An examination showed that no bones were broken, and so far as can be learned the only injury is a severe sprain of the leg which was fractured in two places some time ago. His condition is not considered serious, and in a short time he will be able to leave for home. Mr. Serrell was severely shaken up and when he arrived at the hospital in the ambulance in charge of Dr. Fritts, he was suffering from shock.

Fortunately the horse and wagon were not injured in any way, the horse not making any great effort to get away. The farmer that brought the rig to this city caught the horse near his farm with very little trouble.

New Fire Alarm Box.

A new fire alarm box was placed in position at the corner of Liberty and Eighth street yesterday. The number is thirty-six.

Local News on Pages 2 and 3.

GETTING TO WORK NOW.

Senator Lodge Elected Permanent Chairman of Republican Convention.

GOV. VOORHEES PRESENT

SETTING WITH THE DELEGATES FROM JERSEY.

Intensified Interest Today on Account of the Uncertainty About the Nomination to be Made for Vice-President.

(By a Staff Correspondent.)

Convention Hall, Philadelphia, June 20—The second day's session of the Republican National convention was called to order at 12:25 o'clock this noon by Temporary Chairman Wolcott, of Colorado.

Every seat in the big building was occupied, interest in the proceedings being intensified over the uncertainty of the Vice-Presidential nomination.

The section occupied by the New Jersey delegation in the front row was filled by the delegates by noon, Senator Sewell being among the last to take his seat. The man who attracted the most attention in the New Jersey delegation today was Gov. Voorhees, who arrived from Europe yesterday. He came on to Philadelphia from Elizabeth this morning and was the lion of the Jerseymen at once.

The first routine business brought up was the report of the committee on contested delegates. The principal thing of interest in the report was the announcement that the Addicks delegates from Delaware had been chosen to represent the little State in the convention.

Following this came the report on permanent organization. As had been anticipated, Senator Henry Cabot Lodge, of Massachusetts, was named as permanent chairman.

Senator Wolcott at once appointed a committee to escort him to the chair. Governor Roosevelt was one of the committee. As the permanent chairman and his escorts mounted to the stage there was a round of applause.

Senator Wolcott at once passed the gavel to Senator Lodge. Charles W. Johnson, of Minnesota, was elected secretary of the convention on the recommendation of the committee on organization.

Chairman Lodge then commenced his address It took nearly an hour to deliver it, and was punctuated at frequent intervals with loud applause when particularly telling points were made by the speaker in favor of the party and especially of President McKinley's administration.

Senator Joseph B. Foraker, of Ohio, will make the speech nominating McKinley, with a seconding speech from Senator John M. Thurston, of Nebraska, and then, unless plans are changed from motives of expediency, another seconding speech from Gov. Roosevelt.

With the speeches concluded, the renomination of President McKinley will be made by acclamation. Then will come the presentation of the platform, which is now complete save in some minor particulars. It will be read by the chairman of the platform committee, Senator Fairbanks, of Indiana.

At the conclusion of Lodge's speech Delegate Langley, of Kentucky, arose

[CONTINUED ON PAGE 8.]

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—St. Mary's Parochial School will close next week with appropriate exercises.

—The public school at Washingtonville will close tomorrow evening with appropriate exercises.

—There will be initiation at the meeting of Franklin Council, No. 41, Jr. O. U. A. M., tomorrow evening.

—An entertainment will be given in the parish house of the Church of the Holy Cross next week Thursday evening.

—The baseball team from the Plainfield postoffice among the carriers will play a return game with the Elizabeth carriers next Sunday at Elizabeth.

—The members of the Primary and Junior Teachers' Union have decided to hold their annual picnic on Thursday of next week in the mountains.

—Since Chief Marshall Campbell, of the borough, was appointed truant officer for the borough, the attendance at the public schools has been almost perfect.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—A fair for the benefit of the Babies' Camp on the mountain will be held on W. J. Boome's lawn, 41 Sycamore avenue, Saturday afternoon next. Tickets 25 cents, including ice cream.

—A gang of Italians are busily engaged in macadamizing and grading Arlington avenue along the line of the trolley. At present that portion of the street near the schools is being attended to with all possible haste.

—Armstrong, the apothecary, is one who always has a cheerful word for customers and callers at his pharmacy, corner Park and North avenues. Trade is always good at this old established stand and that is one of the reasons Druggist Armstrong is always happy.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis." writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

PARTICULAR MENTION.

John Poole, of this city, has resigned his position at the Walter Scott Press Works.

Thomas McGann, of the borough, has finished a contract job at Yonkers, N. Y, and has returned home.

Mrs. A. B. Meredith, of Madison avenue, is spending a week at Wellesley, Mass., where she is attending the commencement ceremonies at Wellesley College.

An Unjust Bit of Taxation.

To the Editor of The Daily Press:—I wish to express my indignation over the proposed ordinance imposing a tax on junk dealers. Why they should be singled out for this burden is inexplicable. They are a respectable class of the community, carrying on a useful business, which is just as legitimate as any represented in the Council. If for police purposes it is necessary to license the dealers let it be done, but do not seek to make it a source of revenue. These men are only trying to earn an honest living and they ought not to be subjected to any special burden of taxation. It means either that some of them must quit the business or else that they must pay lower prices for old junk. In other words the imposition of the tax will finally rest on those of our citizens usually in very humble circumstances who save these little items, which would otherwise be wasted, and sell them to the dealers. It seems to me grossly unfair; if the city needs more money let it raise it in a fair and square way; if not, then this tax is wrong; in either case the licensee ought to be granted for nothing. What has caused this epidemic of taxation in this country? In the last ten years it seems to me that we have gone taxation mad. All sorts of crazy schemes are proposed and adopted and no one seems to care. Nearly all of them are indefensible and are sure to bring us trouble. Here at least is one which ought to be killed beyond resurrection.

X

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

THE OPENING GUN.

Republicans Meet In National Convention.

HANNA CALLS TO ORDER

Wolcott of Colorado Made Temporary Chairman.

GREAT ENTHUSIASM FOR M'KINLEY

Governor Roosevelt Given an Ovation—Taylor of Kentucky a Lion. Credentials Committee Seats Addicks Delegation—New York For Woodruff.

PHILADELPHIA, June 20.—Chairman Hanna, with a rabbit's foot suspended from a miniature of McKinley in the lapel of his coat, surveyed an imposing spectacle when he called the twelfth Republican national convention to order in the spacious Export Exposition building in West Philadelphia at 12:35 yesterday. In the valley below him were crowded the 1,800 delegates and alternates, and stretching away to the four corners of the immense hall were endless vistas of people rising in terraced seats to the walls. He looked into the faces of fully 15,000 men and women.

Opposite, in a broad gallery, were massed 100 musicians, their leader a mere pygmy in the distance. The platform on which he stood jutted out like a huge rock into an ocean of humanity. Below him and flanking the stage was an embankment thronged with the representatives of the press of the country. Above was a riot of flags, bunting, eagles, shields, the whole scheme of the elaborate decorations culminating in a huge portrait of McKinley nestling in the graceful folds of the American flag. Above him were the working leaders of his party, and behind him, among the dignitaries and honored guests of the convention, were white haired men who had been present at the party's birth in this city almost half a century ago.

It was not a riotous convention. There

MARCUS A. HANNA.

were no wild outbursts of enthusiasm from the frenzied partisans of rival candidates, no entrance of delegations with banners to set the multitudes cheering, no fierce skirmishing and clashing of candidates' managers over rules of procedure and contesting delegations. The chieftain in the coming battle had already been selected by the unanimous voice of the Republicans of the country. The man who had stood at the helm of the ship of state for four years was their unbroken choice. The platform was the record of his administration. The only question that remained for the convention to decide was the vice presidency, and it was not a sufficient bone of contention to produce the tumultuous scenes which usually attend the assembling of a national convention. The convention was the dignified gathering of the representatives of the Republican party to ratify formally the wishes of the millions whose authority they held.

It was very undemonstrative at first. While the crowds and delegates were funneling into the hall before the hour for calling the convention to order had arrived there were no wild greetings of party leaders. A scattering applause met Mr. Hanna as he made his way to the stage. General Grosvenor, Senator Lodge, Senator Foraker, ex-Senator Quay and a few others aroused a fluttering of handkerchiefs and a round of hand clapping, but men of national reputation whose fame has spread away from our shores across both oceans entered without producing a ripple. Perhaps most of them were not recognized. It seemed tame. There was only that indescribable buzz of myriads of voices which belongs to a national convention as the humming of bees belongs to a field of clover in summer, and it looked as though nothing could galvanize the thousands into life.

But just before Chairman Hanna was ready to drop his gavel Governor Roosevelt entered, and the vast audience was electrified. He stalked in at the main door. His Rough Rider hat signaled him out to the craning multitude. Seemingly the audience had been waiting for him, and the applause that announced his appearance swept over the vast amphitheater and swelled into a great roar as he made his way toward the seats of the New York delegation. Senator Depew and Chairman Odell of the New York state committee were with him, but the crowd had eyes only for the dashing hero of San Juan. No stage idol ever made an entrance more opportunely. But he made no acknowledgment of the ovation his appearance elicited. His jaw was firmly set, and he came on through the press like a soldier performing a duty. He did not even remove his hat, but pushed his way through the delegates who swarmed from their places to grasp his hand.

This entrance of Roosevelt into the convention was distinctly the dramatic feature of the session. Then the wheels began to move, but the convention, under the spell of his presence, could not take its eyes off him. In him the interest seemed centered. During every pause in the proceedings he was surrounded by delegates and newspaper men anxious for a word. To all he gave the same answer. He was not a candidate. He did not want the nomination. Those who wanted him nominated left him saying he would accept and they would nominate him whether he liked it or not. Those who did not want him hastened to spread the report that he could not be moved into accepting.

Chairman Hanna's reception when he called the convention to order and later when he made a brief address was flattering in the extreme, and the smile on his broad face betrayed the pleasure it gave him. But the enjoyment he experienced over his own reception seemed nothing compared with the delight he manifested when he first mentioned the president's name. The convention went off like a rocket. The cheering was deafening, the Ohio delegation leading in the demonstration. Mr. Hanna's face was a picture. It was wreathed in smiles. He showed the ecstasy of the joy he felt over the storm of approval he had raised.

As Mr. Hanna closed his speech with a tribute to his colleagues on the national committee and a reference to the close of his chairmanship he spoke of the sterling service of the senator from Colorado, Mr. Wolcott, to his party and presented him to the convention as temporary chairman.

Senator Fairbanks, from the first row of delegates, arose and moved that the selection of Senator Wolcott as temporary chairman be approved, and with unanimous voice the delegates so voted. Senator Wolcott, who was on the platform, arose and came forward. The appearance of the Colorado orator set the convention off like a rocket. Senator Wolcott is still a young man, somewhat jaunty in appearance. He wore a blue sack suit and white vest. There was elasticity in his step as he bowed low to the convention, and there was something about him which suggested the freshness of his mountain home. With a pleasant nod of acknowledgment to Chairman Hanna he turned and addressed the convention. He said in part:

Since the first party convention in these United States there was never one gathered together under such hopeful and auspicious circumstances as those which surround us today. United, proud of the achievements of the past four years, our country prosperous and happy, with nothing to regret and naught to make us ashamed, with a record spotless and clean the Republican party stands facing the dawn, confident that the ticket it shall present will command public approval and that in the declaration of its principles and its purposes it will voice the aspirations and hopes of the vast majority of American freemen.

We need "no omen but our country's cause," yet there is significance in the fact that the convention is assembled in this historic and beautiful city, where we first assumed territorial responsibilities when our fathers a century and a quarter ago promulgated the immortal Declaration of Independence.

The spirit of justice and liberty that animated them found voice three-quarters of a century later in this same City of Brotherly Love when Fremont led the forlorn hope of united patriots who laid here the foundations of our party and put human freedom as its cornerstone. It compelled our ears to listen to the cry of suffering across the shallow waters of the gulf two years ago. While we observe the law of nations and maintain that neutrality which we owe to a great and friendly government, the same spirit lives today in the genuine feeling of sympathy we cherish for the brave men now fighting for their homes in the veldts of South Africa. It prompts us in our determination to give to the dusky races of the Philippines the blessings of good government and republican institutions and finds voice in our indignant protest against the violent suppression of the rights of the colored man in the south. That spirit will survive in the breasts of patriotic men as long as the nation endures, and the events of the past have taught us that it can find its fair and free and full expression only in the principles and policy of the Republican party.

The first and pleasant duty of this great convention, as well as its instinctive impulse, is to send a message of affectionate greeting to our leader and our country's president, William McKinley. In all that pertains to our welfare in times of peace his genius has directed us. He has shown an unerring mastery of the economic problems which confront us and has guided us out of the slough of financial disaster, impaired credit and commercial stagnation up to the high and safe ground of national prosperity and financial stability. Through the delicate and trying events of the late war he stood firm, courageous and conservative, and under his leadership we have emerged triumphant, our national honor untarnished our credit unassailed and the equal devotion of every section of our common country to the welfare of the republic cemented forever. Never in the memory of this generation has there stood at the head of the government a truer patriot, a wiser or more courageous leader or a better example of the highest type of American manhood. The victories of peace and the victories of war are alike inscribed upon his banner. Those of us whose pleasure and whose duty have called us from time to time into his presence know how freely he has spent and been spent in his country's service; but the same vigorous manhood and clear and patriotic vision animate him as of old and give us confidence and trust for the future of our republic because his hand will guide us and his genius direct.

Mr. Wolcott then reviewed the work of the present administration. Speaking of the Porto Rican question, he said:

There has been much discussion during the past few months in respect to the extent of the power of this country to deal with Porto Rico and our other possessions, and it has been frequently contended by the Democracy that as soon as we became the owners of any of these islands the constitution of the United States at once extended over them, or, in the oratorical, but misleading, phrase, "The constitution follows the flag." The argument is specious, but it will not bear investigation. The same question was raised in 1803, at the time of the Louisiana purchase, and the doctrine then established by congress that we could acquire foreign soil by purchase, that congress had the right to establish there such government as it saw fit and that the constitution did not of its own force extend over such territory. The doctrine was never questioned until, in Calhoun's time, it was sought to be denied in the effort to extend human slavery into the territories.

The supreme court of the United States has more than once determined the question, and the contention concerning it now by our opponents is not because anybody believes that the laws we have enacted for the government of the island are unjust, but in order to embarrass the administration in dealing effectively with our new possessions. The flag went to Mexico in 1848; the constitution did not. The flag went to Cuba and was carried into Santiago and is there yet. But our constitution not only is not there, but we are busy encouraging Cuba to prepare a constitution of her own. When any portion of our territory becomes a sovereign state, then is our constitution its cornerstone. In the territory of the United States not included within state boundaries congress alone determines the extent to which the provisions of the constitution extend.

In referring to the Philippines he said:

We are actually owners of the Philippines by an undisputed and indubitable title. We are there as the necessary and logical outcome of our victory over Spain. There are upward of a thousand islands sprinkled upon that southern sea, peopled by more than 80 tribes of differing race and language and having absolutely nothing in common with each other. Most of these tribes welcome our coming and are grateful for our protection. The Tagal tribe, hostile not only to us, but to most of the native tribes, are in insurrection against our authority. They have neither a government nor the capacity to conduct one and are waging a predatory guerrilla warfare which would be turned against the other native tribes if we left them alone. What would the Democracy have us do? Give them up to rapine and bloodshed and leave the islands as flotsam and jetsam on the face of the waters? * * *

The obstacles to the establishment of a civil government in the islands are many, but we shall overcome them. Mistakes will undoubtedly be made, but we shall remedy them. We shall in time extend over that archipelago the ægis of our pro-

EDWARD O. WOLCOTT.

tection and of free government, and we shall gradually but surely lift these alien and savage races into the light of civilization and Christianity. Meanwhile American enterprise and ingenuity and push may be depended upon to develop the resources of the islands and make them an added source of wealth to our country. The wise statesmanship of the president and our able secretary of state has already brought from the countries of Europe a recognition of our right to share in the vast commercial advantages which will follow the opening of the Chinese empire to foreign trade; the Nicaraguan canal will be soon constructed; Hawaii, with its valuable harbor, is ours; we possess the best of the Samoan islands, with its magnificent roadway. The Philippines are almost at the door of China, and, if counsels of fear do not prevail, this generation will see the American nation girdling half the globe with its flag, extending its foreign commerce to the uttermost parts of the earth and taking its place among the great world nations, a power for good, for peace and for righteousness.

In conclusion he said:

The American people are neither poltroons nor pessimists, and they will not signalize the dawn of the new century by the surrender of either convictions or territory. *Every soldier back from the islands*, and they are in almost every hamlet in the land, returns an advocate of their retention. Our dead are buried along the sands of Luzon, and on its soil no foreign flag shall ever salute the dawn.

Whatever may be in store for us in the new and unbeaten track upon which we are entering, we shall not be found "with the unlit lamp and the ungirt loin." Our way is new, but it is not dark. In the readjustment of world conditions, where we must take our place with the other great nations of the earth, we shall move with caution, but not with fear. We seek only to lift up men to better things, to bless and not to destroy. The fathers of the republic accepted with courage such responsibilities as devolved upon them. The same heavens bend over us, and the same power that shielded them will guard and protect us, for what we seek is to build still more firmly, always upon foundations of probity and of virtue, the glorious edifice of the republic.

We stand at the dawn of the new century. Before it shall have reached its meridian the youngest here will have passed beyond this life or beyond the sphere of usefulness. New recruits will step into the ranks as we fall out. This very year thousands of young men will for the first time exercise the right of citizenship and cast their ballots at the national election. The safety of this republic must ever rest in "the courage of young hearts and the vigor of a noble manhood." Youth is buoyant and hopeful. No snarling criticism or gospel of a little America or prophecy of despair will find response from hearts that beat full and strong with courage and with faith, and whose creed it is that

"God's in his heaven,
All's right with the world."

Whatever else in the past has suffered change or decay, the Republican party which for 40 years has been identified with everything ennobling and uplifting in our history, was never as vital, as virile and as vigorous as today. And the heritage we shall transmit to the new century, to the coming generation and to their children and to their children's children shall be a record clean and untarnished an unquenchable faith in free institutions an unalterable belief in the patriotism of the people and an undying love of liberty and of country.

During and at the conclusion of Senator Wolcott's speech he received enthusiastic and long continued applause.

A noteworthy incident of the session was the remarkable demonstration to Governor Taylor of Kentucky. That his party associates look upon him as a martyr to partisan hatred their great ovation made evident. Although they succeeded in bringing him to the platform they could not induce him to make a speech. The appointment of the committees on permanent organization, platform, etc., concluded the labors of the convention for the day, and with the benediction of the Rev. Edgar M. Levy, who delivered the invocation at the convention held on Locust street in 1856, the convention, after having been in session two and a half hours, adjourned until today at noon.

The committee on permanent organization, of which General Grosvenor of Ohio is chairman and Thomas N. Hastings of New Hampshire secretary, met after the adjournment of the convention and by unanimous consent selected Senator Lodge of Massachusetts for permanent chairman and voted to continue Charles W. Johnson of Minnesota permanent secretary.

The committee on credentials organized by electing Sereno E. Payne of New York as chairman and Colonel Charles Dick as secretary. A roll of states was called with the desire of ascertaining how many contests would come before the committee, and it was found that 24 were to be heard. The most important contests are in the states of Texas, Louisiana, Delaware and Tennessee. Nearly

FRED. ENDRESS,
131-135 West Front St.

all of the other contests are confined to district delegates.

The Addicks delegation from Delaware was seated by the committee by a vote of 38 to 9. The fight between the Dupont and Addicks factions has been waged ever since 1895, and the struggle last night before the committee was the hottest they ever had.

The New York delegation to the Republican national convention at 1 o'clock this morning indorsed Lieutenant Governor Woodruff for the vice presidential nomination. Governor Roosevelt during a stormy session of the delegation refused to become a candidate for the nomination.

From 5 o'clock in the afternoon until after midnight Master Workman Fairbanks and his crew of artisans nailed away upon the planks of the party platform. They looked it over and listened to propositions as to its amendment and its embellishment. They worked in fact not so much to put planks in the platform as to keep planks out of it, and they succeeded well. When the convention meets today, they will have their party platform of party principles in such complete and satisfactory shape that it will be adopted with the unanimous approval of the convention. It will be a platform in line with the masterful speech of the temporary chairman, Senator Edward Oliver Wolcott of Colorado, and it will probably be as satisfactory to every delegate as was that eloquent speech.

The elevator in the Hotel Walton fell seven stories at midnight and injured five of the passengers and the elevator boy. The two passengers most seriously hurt were J. G. Pringey, a delegate from Oklahoma Territory, and Brenton F. Hall, a delegate from Belding, Mich.

Dr. Burton and Walter Hunter of Delaware, Marcellus West of Washington and Dr. Camden of Texas were also among the injured. Pringey and Hall have broken legs. Dr. Camden of Texas had an arm and leg broken, having been thrown out of the elevator as it fell.

CONDENSED DISPATCHES.

Mrs. W. E. Gladstone was buried beside her husband in Westminster abbey.

The wife of Senator Beveridge of Indiana died in a sanitarium at Dansville, N. Y.

The business portion of Bloomington, Ills., was swept by fire, with a loss estimated at nearly $2,000,000.

Two Americans, escaped from Tagal prisons, reached New York and told of tortures endured and witnessed in the Philippines.

The National Building Trades council has issued an edict forbidding union workmen from seeking employment in several large cities where there are strikes.

Knights of Labor at Odds.

WASHINGTON, June 20.—Two gatherings of the Knights of Labor of North America, each claiming to be the regular and legally constituted legislative body of the organization, were in full swing here again yesterday, each assembly having for its avowed object the deposing and removal from office of the leader of the rival faction. Neither faction expects to fully accomplish what it has set out to do without invoking the aid of the civil courts, and even then it seems doubtful if a split in the organization can be averted.

Towne Visits Bryan.

DULUTH, June 20.—Charles A. Towne has returned from Minocqua, Wis., where he spent a day with William J. Bryan fishing in Xawagusaga lake. When asked if anything of a political nature developed during the visit that might be made public, he said with a smile. "No. It was not a political trip, although we naturally did have some conversation in reference to the political situation."

The Guests of Farquhar.

BOSTON, June 20.—Miss Helen Gould, with Miss Caroline Hazard, president of Wellesley college, and a party of New York women, was the guest of Rear Admiral Farquhar on board the flagship New York yesterday. Before going to the New York the party was received by Rear Admiral and Mrs Sampson at the navy yard.

Opposition to Street Cars.

ST. LOUIS, June 20.—President Mahon has departed for Chicago, Detroit and Cleveland for the purpose of shipping to St. Louis 450 regulation buses which the union has obtained and to negotiate with a manufacturer in Cleveland for the purchase of automobiles for use in the boycott against the transit company.

Wakkerstroom Guard Surrenders.

VOLKSRUST, Transvaal, June 20.—The town guard of Wakkerstroom has surrendered to the British, and a number of Mausers, with several rifles of American manufacture, have been handed in General Hildyard has returned here.

Naval Movements.

WASHINGTON, June 20.—Admiral Schley telegraphed yesterday from Montevideo that his squadron had been released from quarantine at that point The Philadelphia arrived at Seattle.

Christian Scientists Not Bad Risks.

BUFFALO, June 20.—The supreme lodge, Knights of Honor, rescinded a resolution classing Christian Scientists or Faith Curists as hazardous risks.

BRIDGE WORK
in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5
Gold Crown, 22-k	from $5
Gold Filling	from $1 up
Silver Filling	75c
Cement Filling	50c
Cleaning	75c

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Rev. M. E. Dwight, of Rockview avenue, is out of town on business.

Miss Underhill, of Brooklyn, is visiting friends in this city for a short time.

Mr. and Mrs. L. W. Serrell will spend the summer at Allenhurst-by-the-Sea.

Louis Clement, of Central avenue, is enjoying himself at Asbury Park for a week.

Mrs. George Rockafellow, of West Third street, is visiting relatives in Jersey City.

Miss Ellen Osgood, of Myrtle avenue, is home from Smith College for the summer.

Miss Stedman, of Harlem, is visiting her cousin, Miss Ida Dunham, of Arlington avenue.

President F. H. Smith, of the Common Council, is among the Republicans at Philadelphia.

Mrs. Elizabeth Kenney, of Middlebush, Somarset county, has been visiting Plainfield relatives.

Dr. Frank Hallock, of Watchung avenue, is rapidly recovering from an attack of typhoid fever.

Mr. and Mrs. L. S. Bond, of Elmhurst, L. I., have returned after a short visit with Plainfield friends.

Miss Elsie DeR. Suffren, of Sycamore avenue, has returned from Vassar College where she graduated last week.

Israel C. Pierson, of Watchung avenue, sailed last week on the French liner "Campania" for the Paris Exposition.

Miss Francis Thorn, of Hoboken, has returned to Plainfield and is living with her father on East Third street.

A. M. Westervelt, of New York, has removed to Plainfield for the summer months and will reside at 42 Sycamore avenue.

S. C. Harris and family, of Carteret, have been visiting at the home of Mr. and Mrs. Charles E. Harris, of West Fifth street.

Miss Katherine Ball, daughter of Mr. and Mrs. F. H. Ball, of Myrtle avenue, graduates this week from Wellesley College.

Letter-carrier John Burns has started on his vacation of fifteen days. His route is being carried by one of the substitutes.

Miss Annie Keely, of LaGrande avenue, who has been at the hospital under treatment, has about recovered and will be discharged this week.

Miss Agnes B. Freeman, of LaGrande avenue, has returned from Bethlehem where she went to attend the commencement exercises of Lehigh University.

Rev. and Mrs. Daniel Rapalje, of Fairview avenue, have been in New Brunswick attending the commencement ceremonies of Rutgers College where their two sons, Ernest H. Rapalje and Herbert DeW. Rapalje, graduate.

Mr. and Mrs. A. R. Sheppard, who were recently married at the home of the bride on West Seventh street, and returned a few days ago after their wedding journey, have left for Chicago where they will take up their residence at Vincinnes Court, Thirty-sixth street and Ellis Park.

REDUCED RATES TO KANSAS CITY.

Via Pennsylvania Railroad.

For the National Democratic Convention, to be held at Kansas City, July 4, the Pennsylvania Railroad Company will sell excursion tickets to Kansas City from all stations on its line at rate of one first-class fare for the round trip. Tickets to be sold and good going July 1, 2 and 3, and to return until July 9, inclusive. These tickets will be good on all trains except the Pennsylvania Limited, and must be used for continuous passage. 6-14 20 27

Charles Keller, of 30 Race street, has gone to Philadelphia to visit friends for a time.

W. D. Thickstun and family, of Central avenue, are preparing to go to Belmar for the summer.

Charles W. McCutchen, of Washington Park, proposed to give a musicale in the near future, but has decided to postpone it until fall.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

HERE is a matter which touches your comfort. You want a clear, fair complexion. This is really nine-tenths a question of the treatment of the pores of the skin. Some toilet soaps are as nippy and keen as mustard. If you will only use the virtue you call your Judgment, it will tell you that any soap which leaves the hands habitually dry is robbing the skin of its natural oil. Free alkali is the robber's name. Ivory Soap has no free alkali. Try it! It floats.

RUSSIANS AT PEKING

Relief Force Has Attacked City on Two Sides.

FIVE LEGATION BUILDINGS BURNED.

French as Well as German Minister Said to Have Been Killed—Japan Mobilizing Troops—Many Christians Are Put to Death.

LONDON, June 20.—"The Russian relieving force arrived outside of Peking this morning," says the Shanghai correspondent of The Daily Express, "and immediately began to attack the city on two sides, employing numerous artillery.

"The force apparently arrived in the nick of time, for the Chinese assert that the attack upon the legations had been successfully renewed. On the night of June 16 the Chinese troops under Generals Tung Fuh Siang and Tung Ching attacked the legations and set afire five European buildings. Nothing definite is known as to the result except that the Chinese were disappointed, although other reports, utterly discredited by foreigners here, are that the Chinese, infuriated by the destruction of Taku, have since massacred all the foreigners in Peking."

A modified version of these rumors received at Berlin is that the French as well as the German minister has been killed. The English at Shanghai think that the Chinese had foreign advice in organizing the defenses at Taku because of the precision with which their attack was delivered.

The wires connecting with the harbor mines were cut by the bolts of the warships the night before the bombardment It is now reported at Shanghai that it was on board the Russian cruiser Koriets and not the Mandschur that the explosion occurred, killing and wounding more than 50. It is reported that no fewer than 700 Chinese were killed in the forts

The Shanghai correspondent of The Daily Express says he is officially informed that Japan is mobilizing 25,000 men for immediate transport.

The British cruiser Undaunted arrived at Shanghai yesterday, cleared for action and took up a position commanding the Chinese forts. There are three Chinese cruisers in the harbor.

The new Chinese cruiser Hai-yang built by the Armstrongs, has been taken into custody at Taku by the British and Russians.

At Yum-Nan-Fu, where the rising has been gathering force for several days 680 Christians have been attacked at the French mission settlement, many being put to death. The French consul and three missionaries are still in prison.

The disorderly elements have secured the upper hand at Wuhu and Czechuan, where the native Christians have been massacred.

A thousand Boxers have gathered on the outskirts of Tien-tsin.

The Shanghai correspondent of The Daily News, telegraphing yesterday, says.

"The Chinese officials here assert that they have news from Peking up to June 17. The situation was then very serious. Beyond that they claim to have received nothing, but they deny that dispatches have been withheld.

"Although I am not willing to adopt the alarmist reports, my impression, gathered from the consuls and the Chinese authorities, is that the worst is to be feared in Peking.

"Admiral Seymour's column is now in the middle of the arid plain, with no food and no good water and surrounded by hostile forces."

A dispatch from Shanghai announces that the United States transport Thomas, with troops for Manila, was diverted at Nagasaki and has arrived at Taku with 1,200 men.

Russia's Good Intentions.

WASHINGTON, June 20.—A message received yesterday morning from Admiral Remey at the navy department touching the readiness of the Princeton, Marietta and Zafiro for immediate service presented all the news that has come to the government from the east since Monday. One of the most important developments, however—namely, that the notice of the Russian government of its intention to dispatch 4,000 troops to China—was accompanied by an undertaking that these troops were to be used for the assistance of Europeans and Americans and with no purpose of territorial aggression on the part of Russia. This assurance was received with the greatest satisfaction. It is understood that Japan, in view of Russia's frank declaration, will consent to assume the same obligation toward the other nations, in which case the greatest obstacle to effective action, whether concurrent or joint by the powers in China, may be considered as removed.

Anxious For Missionaries.

BOSTON, June 20.—The printed dispatches from Port Arthur saying that telegraphic connection between Peking and Kalgan, northwest of the capital has been cut; that rioting is going on in Kalgan, missionaries are being assaulted and their position is critical, as there are no foreign troops there for their protection, are of moment to the officials of the American board in Boston. Three of its missionaries are in Kalgan now—Rev. Mark Williams, who has been a missionary since 1866; Rev. William P. Sprague, who embarked for the field in 1874, and Mrs. V. I. Sprague, who became a missionary and married Mr. Sprague in 1893. Kalgan is one of the most northern cities of China and is situated on the Sangpo river at a gate in the great wall in the province of Chi-li, 122 miles northwest of Peking. It is an important commercial station on the road between China and Siberia.

The French Contingent.

PARIS, June 20.—The French government will have 4,200 troops at Taku when the re-enforcements just ordered out arrive there. Two thousand will reach Taku before July 3. The dispatch of a cruiser division, which has been decided upon, will give France a strong naval force, consisting of seven modern cruisers—three of the first class and four of the second—four gunboats and a dispatch boat.

Gilmore to Be Retired.

WASHINGTON, June 20.—The navy department has denied the application of Commander Delehanty at Sailors' Snug Harbor to retire under the terms of the personnel act. It had been arranged that he was to retire, when an application came by cable for retirement from Commander Gilmore, commanding the Luzon at Manila. As Gilmore ranks Delehanty and as only one commander besides Moore may now be retired, Delehanty has lost his chance.

Saracco to Form a New Cabinet.

ROME, June 20.—Signor Saracco, president of the Italian senate, who was summoned to the Quirinal after the resignation of the cabinet, has been intrusted by King Humbert with the task of forming a new ministry to succeed that of General Pelloux.

Injured by Falling Veranda.

SHERBROOKE, Que., June 20.—Ten persons were slightly wounded and two seriously injured by the breaking of the veranda of the Sherbrooke House, from which 100 people were thrown to the ground.

Bulgarian Insurrection Spreading.

BUCHAREST, June 20.—The insurrection in Bulgaria is spreading. Fifty peasants have been killed by the military at Duran-Lekah.

New York Markets.

NEW YORK, June 19.—FLOUR—State and western more or less nominal and very quiet at old prices; Minnesota patents, $4a4.35; winter straights, $3.65a3.75; winter extras, $2.65a3.10; winter patents, $3.80a4.10.

July 5—Board of Directors of the Y. M. C. A.
July 6—Y. M. C. A Boys' Camp at Lake Champlain.

In the Democratic National Convention of four years ago the following favorite sons were candidates for the Presidential nomination: Bland of Missouri, who received the 34 votes of that State; ex-Gov. Boles, of Iowa, who received its 26 votes; Governor Matthews, of Indiana, who received its 30 votes; ex-Gov. Pattison, of Pennsylvania, who received its 54 votes; John R. McLean, of Ohio, who received its 46 votes, and Joseph Blackburn, of Kentucky, who received its 26 votes. These five candidates had collectively on the first ballot 226 votes and their support by six solid delegations was an obstacle to a union on any other candidate in a convention governed by the two-thirds rule. No such obstacle to a Democratic nomination this year prevails in advance of the Kansas City convention.

The guessers are already making snapshots at the results of the census, even before it if wholly completed. Here is one estimate of leading cities, just published: New York city, 3,554,694; borough of Manhattan, 2,007,241; Chicago, 1,843,678; Brooklyn, 1,267,158; Philadelphia, 1,200,000; St. Louis, 657,595; Baltimore, 600,000; Boston, 555,057; Cincinnati, 400,000, Buffalo, 400,000; Cleveland, 390,000; San Francisco, 340,000; Pittsburg, 325,000; Detroit, 315,000; New Orleans, 300,000; Washington, 274,674; Milwaukee, 292,000; Newark, 275,000; Louisville, 232,000; Minneapolis, 200,000; Jersey City, 200,000; Denver, 190,000; Rochester, 180,000; Indianapolis, 180,000.

The Rev. James M. Taylor, president of Vassar College, made this remarkable statement in his baccalaurate sermon on last Sunday: "Every war since that of 1870—the Franco Prussian war — could have been avoided were justice permitted to temper lust and were charity allowed to subdue greed." The Newark News observes that very evidently the good doctor quite overlooked our recent little unpleasantness with Spain, unless, indeed, he means to charge the President and Congress of the United States with such monumental hypocrisy as has not been seen since the world began.

The census enumerators are strictly prohibited from giving any information concerning the result of their labors. The census law declares that an enumerator who communicates to any unauthorized person the information he gains in the performance of his duties is guilty of a misdemeanor and liable to a fine of not more than $500.

Last week the war department made public the statistics of enlistments for services in the regular army, made during the month of April. The number of recruiting stations is 235. The aggregate enlistments in all classes were: White, 1,223; colored, 51. The aggregate rejections in all classes were 5,197.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

The people of Plainfield who have occasion to use Park avenue between North avenue and Front street, have ceased wandering when the city intends to put the street in proper condition. They have reached that point where they think it is a case of grin and bear, and if you don't like it you can lump it, notwithstanding that there are lumps and gullies by the hundred in that short distance.

* * * * * *

All kinds of difficulties are promptly met and speedily overcome by the inhabitants of Freehold, and so a story recently published in a New York paper is not doubted by any one who knows even a little about the Monmouth county town. It is related that when the teacher of one of the schools failed to appear one day recently a nine-year-old girl in the class took charge and presided at the session. Everything went along as usual, and promptly upon time the scholars were dismissed. That fact led to a great deal of speculation, for there was no clock in the room and the pupils did not boast of watches. The young teacher, when asked how she knew when it was time to dismiss the class, said:

"Oh, that was easy! I was helped out by one of the other girls. She can tell time by her shadow."

There is no truth in the report that the gifted young woman has applied for a place in a dime museum.

PRETTY NUPTIALS IN CHURCH AND HOME

[CONTINUED FROM PAGE 1.]

and best man. The bride was given away by her uncle.

The bride's dress was of Rennaisance lace over white satin. She carried a shower bouquet of white roses. The bridemaid's dress was of white muslin desoir over yellow silk and she carried marchinelle roses. The groom's gift to the bride was a beautiful diamond ring and to the ushers emerald and pearl stick pins. The bride's gift to the bridesmaid was a fan of Rennaisance lace.

At the conclusion of the ceremony a reception was given at the home of the bride's uncle, Elwood Staats, which was attended by over 150 guests. Music for the occasion was furnished by Prof. O'Reilly's orchestra.

The young couple left last night for Niagara Falls and other points, returning in about a week, when they will take up their residence for the present on Park avenue. Guests were present from Newark, Brooklyn, Bayonne, Elizabeth and Jersey City.

It was the intention of the bride and groom to leave on the 10:17 train for New York, but on account of the large number of friends assembled at the depot they drove to Netherwood. The crowd was not to be outwitted, however, and boarded the train, catching them at the latter station and deluging them with rice.

GOVERNOR VOORHEES HOME.

Says Paris Exposition Is Inferior to Chicago Fair.

NEW YORK, June 20.—Governor Foster M. Voorhees of New Jersey, who is a delegate at large to the Republican national convention at Philadelphia, arrived in this city last night from Europe on the Westernland. The governor while abroad visited London, Amsterdam, Antwerp Brussels and Paris.

"I am distinctly in favor of Governor Roosevelt for the vice presidency," said he. "But if I were he I would not accept the nomination. That is all I'm going to say about politics.

"Yes, I saw the American building at the Paris exposition, and some fine day I will tell the commissioners what I think about that structure. Anyway, the Paris exposition does not begin to compare with the Chicago fair."

It was the governor's intention to go direct to Philadelphia, and a special train was awaiting him at the Jersey City depot, but upon learning that the convention had adjourned for the day he went to his home in Elizabeth, N. J. He left Elizabeth this morning at 8 o'clock for the convention.

Homeopathists Meet.

WASHINGTON, June 20.—The American Institute of Homeopathy has begun its annual session here, Dr. Charles E Walton of Cincinnati presiding. The chief feature of the convention will be the dedication and presentation to the government of the beautiful statue of Dr. Hahnemann on the east side of Scott circle Thursday afternoon. The president will attend the dedicatory exercises and addresses will be delivered by Attorney General Griggs and other well known men. The same evening the president will give a reception to the members of the convention at the White House.

Mrs. Henry VanMiddlesworth, of Elmwood place, is detained at home by illness.

Local News on Pages 2 and 3.

Buchanan, Mich., May 22,
Genesee Pure Food Co., Le Roy, N. Y.:
Gentlemen:—My mamma has been a great coffee drinker and has found it very injurious. Having used several packages of your GRAIN-O, the drink that takes the place of coffee, she finds it much better for herself and for us children to drink. She has given up coffee drinking entirely. We use a package of Grain-O every week. I am ten years old.
Yours respectfully, FANNIE WILLIAMS.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar finisher? No? Well, try it; no break. Call and see us use it. Always welcome.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence to The Press.)

Dunellen, June 20—There will be seven scholars graduated from the Whittier School tomorrow evening, six girls and one boy. The names of the graduates are the Misses Julia Dodwell, Alice Dennick, Margaret Dineen, Margaret VanAredale, Elizabeth Herlick, Rose Haynes and Joseph Eganey. The graduation exercises will be held in the Presbyterian church. At the school day exercises held last week the following scholars received certificates entitling them to entrance to any high school: Maxwell Brakeley, Sadie Tilton, Wm. Kennedy, Wm. Giddis, Cora Gaskill, May Wahl and Nellie Dodwell.

At the annual meeting and election of the Presbyterian Sunday-school, which was held Monday evening, the following officers were elected: Superintendent, A. Lake; assistant superintendent, Miss E. Dunham; treasurer, Miss L. Dunham; secretary, J. Newton Apgar; superintendent infant room, Mrs. T. C. Bodine; librarian, C. C. Dunham; assistant librarian, M. L. Barick; pianist, Miss Edith Boice.

Frederick Archer, who lately removed to the borough from New Rochelle, N. Y., has decided to go into the poultry business for pleasure, and has about completed arrangements for building a long run.

George W. Churchill leaves Friday for Asbury Park, where he will remain for the season. His house has been taken by James McElvare, of Brooklyn, who will remove his family here next Saturday.

The Columbia detective agency of Philadelphia has placed a notice in the postoffice asking for information of Henry C. Howard, of that place, who disappeared from his home on May 24th.

The Y. P. S. C. E. of the Presbyterian church will hold their regular monthly meeting tonight. A large attendance is expected as there is important business to come before the society.

Miss May Taylor rode to Boonton Sunday by wheel to visit relatives, where she was taken ill and was forced to remain over night. She was able to return Monday.

George Day continued the auctioning of the Bowyer goods yesterday, a large number being in attendance. The sale will be concluded next Saturday.

The twin calves which were born on the farm of John Beetham, of Greenbrook, some time ago, are progressing finely and Mr. Beetham expects to raise both.

Rev. Mr. Miller, a former pastor of the Presbyterian church, was in town yesterday renewing old acquaintances. He is now living in Brooklyn.

Mrs. H. L. Terry and daughter and Mrs. Charles Apgar, of Westfield, were the guests of Mrs. Emily Apgar, of Front street, yesterday.

Albert Apgar, of Front street, left by wheel today for Flemington, where he will visit his sister, Mrs. Sherman Cooley.

Samuel Churchill, of Secaucus, has been visiting his brother, George Churchill, of Washington street.

John Sutphen, of New York, has returned from a visit with his brother, S. C. Sutphen, of Main street.

Thomas Loughlin was the recipient of a new wheel Saturday, the gift of his mother.

Mrs. T. J. Ronayne and Mrs. Joseph Maier spent yesterday in Plainfield.

Joseph H. Exton, of Flemington, was the guest of N. H. Cole yesterday.

The Misses Kate and Pauline Kratzel spent yesterday in New York.

Frank Smalley has returned from a visit to New York.

Local News on Pages 2 and 3.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 20—A surprise party was tendered to Rev. Frank Fletcher Monday evening by about forty of his friends. Mr. Fletcher was invited out for a short time and when he returned the guests were all assembled at the house. He took the surprise good naturedly and proved himself an excellent host. The evening was spent in a pleasant manner, at the conclusion of which refreshments were served and the guests departed for home about 11 o'clock.

Although the Lehigh Valley's representative has called upon A. G. Nelson in regard to the accident which befell the latter's horse, the company has not offered to make any settlement. The animal is improving very slowly.

Abram Nelson, Jr., formerly of this place, but who has been at Milburn, is now associated with his brother Fred in the hotel business at Watchung.

A boot and shoe repair shop has been opened in town by August Krauss.

Captain Coddington, of Elizabeth, is visiting Mulford Casterline.

Seymour Schafer spent Sunday with relatives at Jersey City.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 20.—The entertainment committee of Fanwood Council, R. A., met at the home of Wm. B. Noble last evening. Arrangements were made to entertain a delegation from Morning Side Council, of New York city, at their meeting Tuesday evening next.

Those interested in the study of stenography are urgently requested to attend the meeting for the purpose of organizing a class to be held in the parlors of the Baptist church this evening.

Miss Nancy Wade, who has been teaching at Mahwah during the past year, has returned home and will spend her vacation with her parents, Mr. and Mrs. Abram Wade.

Miss Nina Seeber, of the corps of teachers in the school, has left for Cortland, N. Y., where she will spend her vacation with her parents.

Richard Hart, of New York city, has been spending a few days at the home of Mr. and Mrs. Wm. Archibold, of Washington valley.

Fred Monte, a former resident of the village, but now of Newark, has been visiting at the home of friends in town.

Mrs. John Robison and daughter, Miss Louise, are spending a few days with friends near Albany, N. Y.

Mrs. H. E. Gayle, of Vine street, is suffering from an attack of neuralgia in the face.

Mr. and Mrs. George Mehl, Jr., of West Fourth street, entertained a party of friends at their home last evening.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher

WOMAN HEIR OBJECTED.

SUCCEEDED IN STOPPING SALE OF MELLICK ESTATE.

She Has Appealed From the Appointment of John C. Morris as Administrator.

(Special to The Daily Press.)

New Brunswick, June 20—Mrs. J. Polhemus, of Rutherford, led an exciting chase yesterday after John C. Morris, administrator of the estate of the late Henry Mellick, of Oak Tree. Morris was appointed administrator some weeks ago. He advertised the real and personal estate for sale under an order of the court. Yesterday afternoon at 2:30 o'clock was set for the sale of the real estate.

Mrs. Polhemus Friday secured from the Prerogative Court a notice of appeal from the appointment of the administrator. This served as a bar to all proceedings looking to the administration of the estate. Mrs. Polhemus is an heir by virtue of her relationship to Annah Bowers, a cousin of Mellick. Mrs. Bowers died some years ago. She was heir to one-seventh of the estate.

All efforts to serve Morris with a notice of the restraining order failed. Yesterday at noon Mrs. Polhemus arrived in this city. Telegrams were at once sent to Morris at his home in Stelton and at Oak Tree. Messengers were sent over on bicycles, and at 1 o'clock Mrs. Polhemus started in a carriage for Oak Tree, which is eight miles from this city. The sale was stopped, Morris being reached in time. The sale of personal estate took place yesterday morning.

EARLY INTELLIGENCE

—A family reunion will be held tomorrow evening at the home of R. V. Saums, of Clinton avenue.

—The W. C. T. U. meeting tomorrow at 3:30 o'clock will be conducted by Mrs. Gilbert VanNest. Subject: "Prevailing Prayer and Its Results."

—Should you desire your eyes examined for any possible defect and be fitted with correct glasses, consult Stiles & Co., the specialist, at 107 East Front street, tomorrow, Thursday. Hours, 10:30 to 4.

—The carriage painting and sign writing business formerly conducted by Joseph R. Bennett at 29 and 31 Somerset street, will be continued by C. W. Milliken and H. R. Bennett at 1810 West Front street. Messrs. Milliken and Bennett hope to meet former patrons at the new stand and will endeavor to give satisfaction in both work and prices.

An Italian Society.

The Mutual Benefit Society of Plainfield, otherwise known as the Prinsepess Ellen, "Queen of Italy," was incorporated yesterday at Elizabeth, and today the papers were sent to Trenton for filing. The new society numbers twenty-six Italians of this city, and meetings are held the first Monday in every month on Watchung avenue. The officers are, President, Leonardo Vetroneli; secretary, Salvatora Velardo; treasurer, Deronso Gertrano; trustees, D. D'o Antoino, Antoino Arietarno, Joseph Mattio, Gabrele Santilio, Michael Pizzo.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph's drug store.

C. W. Eoff, of Crescent avenue, drove his pet mare, "Mollie," to Morristown and return today.

Local News on Pages 2 and 3

ENJOY THE JUNE DAYS.

JUST A TASTE

of our Butter is enough. Henceforth we have you as a customer.

We carry three different grades of butter, each of which has its special merits.

Our Rockdale Print Butter at 26 cents per pound, is the best on earth. It has the rich, delicate flavor of the finest cream and for table use cannot be surpassed.

Some of the cheaper grades of butter sold elsewhere are often tasteless. Our lowest priced goods are of excellent flavor.

Lokal-Nachrichten aus der alten Heimath.

Baden.

Karlsruhe. Der Strike der hiesigen Straßenbahnangestellten hat mit einem Siege der letzteren geendet. Ihre Lohnforderungen wurden ihnen bewilligt.

Albbruck. Der mit dem Güterzug nach Basel fahrende Zugmeister Hart verunglückte beim Unterschieben des Sperrschuhes dadurch, daß in Folge des schnellen Anhaltens ein Baumwollballen von einem Güterwagen herabfiel, das Genick traf und Hart zu Boden drückte. Mit schweren Kopfwunden war der bedauernswerthe, etwa 40 Jahre alte, verheirathete Beamte alsbald eine Leiche.

Krautheim. Hier stieß man beim Geländeausgraben des Bahnkörpers auf fünf bis sechs männliche Skelette. Bei ihnen wurden Waffen gefunden, breite und schmale Schwerter, Lanzen, Bajonnette u. s. w., auch Orden und Ehrenzeichen, Perlen und dergleichen. Man vermuthet Funde aus der Zeit des 30jährigen Krieges.

Mannheim. Dem Bürgerausschuß ist eine Vorlage auf Bewilligung der letzten Rate für den Bau der elektrischen Straßenbahn im Betrage von 1,912,500 Mark zugegangen, so daß sich nunmehr der Gesammtaufwand auf 5,933,000 Mark berechnet.

Tauberbischofsheim. Fast 90 Mädchen und auch einige Frauen aus 19 Gemeinden unseres Amtsbezirkes hatten sich letzthin hier eingefunden, um an dem vom hiesigen Frauenverein veranstalteten Preisspinnen theilzunehmen. Preise erhielten: Sophie Dosch aus Brehmen, Lina Hofmann aus Brehmen, Eva Weber aus Tauberbischofsheim, Sibylla Müller aus Königshofen, Thekla Baumbusch aus Tauberbischofsheim, Bertha Wörlein aus Königshofen, Käthchen Rößner aus Tauberbischofsheim.

Elsaß-Lothringen.

Metz. Das Metzer Schwurgericht verurtheilte den Postassistenten Luetge, der im Anfang dieses Jahres in Saarunion 6000 Mark Postgelder unterschlug, zu 1½ Jahren Gefängniß.—Ueber die Arbeiter Kieffer und Dimhof, die in Reichersberg zwei alte Damen in ihrer Wohnung ermordet hatten, verhängte das Schwurgericht die Todesstrafe.

Mülhausen. Anhier strikten kürzlich die Schüler der oberen Klassen der städtischen Mittelschule. Sie weigerten sich, englischen Unterricht zu nehmen, und zogen in corpore vor die Stadt.

Pfirt. Hierorts feuerte der Rentamtmann Tebliß anläßlich der Vornahme einer Revision, bei der seine Bücher nicht in Ordnung befunden wurden, zwei Revolverschüsse auf sich ab. Er wurde blutüberströmt und schwer verletzt aufgefunden. Die von Tebliß unterschlagene Summe soll sich auf 1300 Mark belaufen.

Oesterreich.

Wien. Die jüngst gestorbene Hofrathswittwe Frau Wilhelmine Biela hat zwei lastenfreie Häuser, die zusammen einen Werth von ungefähr 450,000 Kronen repräsentiren, der Wiener Universität testirt. Aus dem Zinsenerträgniß sollen Stipendien errichtet werden. Die Hälfte dieses Betrages soll Juristen zu Gute kommen, je ein Viertel Medizinern und Philosophen.—Hierorts sprang der Rittmeister Karl Ehrbar vom Böhmischen Dragoner-Regiment Nr. 14 in Folge eines schweren Nervenleidens in selbstmörderischer Absicht in die Donau. Ein Matrose sprang dem Lebensmüden nach und brachte denselben mit Aufbietung aller Kräfte wohlbehalten an's Land.

Jungbunzlau. Kürzlich wurde ein Irrenwärter der Kosmanoser Irrenanstalt, Namens Jalowicka, weil er einen Irren in furchtbarer Weise mißhandelt hatte, zu neun Monaten schweren Kerkers verurtheilt. Ein zweiter Irrenwärter, Namens Maresch, der ebenfalls Irre mißhandelt hat, ist flüchtig geworden.

Korneuburg. In mehreren Schulbezirken Niederösterreichs besteht empfindlicher Lehrermangel. Manche Stellen müssen wiederholt ausgeschrieben werden, da sich nur Lehrerinnen darum bewerben, die aber dem anstrengenden Dienste nicht gewachsen sind. Viele junge Lehrer hängen wegen der schlechten Avancementsverhältnisse den Schulrock an den Nagel und wenden sich anderen Berufen zu.

Kufstein. Bis zur österreichisch-bayerischen Landesgrenze bei Ursprung soll mit einem Kostenaufwande von 300,000 Kronen eine Straße hergestellt werden. Der hierzu verwilligte Landesbeitrag beläuft sich auf 45,000 Kronen.

Mährisch-Ostrau. Als der Sodawasserfabrikant Forscher unlängst an seine Arbeit ging, explodirte plötzlich der Füllkessel und riß Forscher das halbe Gesicht weg. Der Verunglückte erlag nach wenigen Stunden den erlittenen Verletzungen.

Neuern. Der Gemeindesekretär Wenzel Hackel defraudirte schon durch längere Zeit eingehobene Steuergelder. Als die Manipulation letzthin an's Tageslicht kam und Hackel verhaftet werden sollte, feuerte er einen Schuß auf sich ab, durch den er sich jedoch nur verwundete.

Podhajce. Während des Gottesdienstes schlug der Blitz in die hiesige griechisch-katholische Kirche ein; 22 Personen wurden durch den Blitz schwer verwundet.

A lady living at Lawrence, Mass., describes an interesting condition of affairs in her household. When she first heard of Ripans Tabules she was having an awful spell with her stomach. She had had them off and on all her life and had swallowed enough medicines to stock up a drug store. "I was losing flesh every day," said she. "Some days I was so weak I couldn't get out of bed. I knew if I hadn't got relief I wouldn't be here now." Two dollars' worth of Ripans Tabules was all she ever used, and they made her a well woman. Her husband says she looks better now than he ever saw her. She made him take the Tabules for biliousness and they acted just as well in his case. Ripans Tabules are a regular stand-by in that family now

WANTED:—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

MATERIALS.

Fabrics and Decorations For Warm Weather Wear.

Irish poplin is a novelty of the season and is almost as fine and soft as crepe de chine. There is also some indication of printed cloth, but this is hardly likely to amount to a great deal.

Lace and embroidery still reign. Silk guipure composes entire capes, jackets

PANNE COSTUME.

and mantles over a silk or satin lining, and mousseline de soie forms the decorations.

Black silk and satin are much used for summer jackets and boleros. These are usually tucked and are quite simple in character. Long loose sacks of the same materials are more ornamented, jet in embroidery, application or passementerie forming the usual decoration.

Summer capes have usually a sort of capuchon about the shoulders and long stole fronts. Jet and spangles are used for trimming, with lace ruffles over flounces of equal depth of mousseline de soie.

The cut shows a costume of sky blue panne with straw dots. The skirt has a double watteau plait at the back and is closed at the side under a stitched band of straw silk. The short bolero is cut in points, the edges being finished with stitched bands of straw silk. Beneath is a high corselet of straw surah, with an enameled buckle in front. The plastron is of straw, satin embroidered and spangled. The tight sleeves of dotted panne have points of embroidered satin at the top, bordered with stitched silk. The toque of blue panne is trimmed with a jeweled motif and a straw plume.

JUDIC CHOLLET.

SUMMER STYLES.

Fashions In Thin Costumes For Warm Weather.

Lace, which has hitherto played so important a role in dress decoration, is to be as much used as ever during the summer, gowns of batiste, lawn and muslin being lavishly trimmed with it in the form of insertion, edgings, ruffles, plaitings and detached motifs.

Pique, coutil and galatea are produced in great variety for warm weather use

SURAH GOWN.

and are cut in tailor made styles, which permit the use of heavy lace and guipure and thick embroidery.

Louis Quinze bodices are beginning to appear for ball gowns. These are tight, with a long, sharp point at the back and front, while over the hips they are very short.

A novel idea for little children's wear is the dress of white or colored pique embroidered with large flowers or motifs. This embroidery is done in wash silks.

The illustration given today shows a costume of pastel pink surah. It is in the princess form and is ornamented by groups of plaits which extend unbroken from the neck to the foot, passing over the yoke of guipure de venise, which is unlined. Beneath these plaits are arranged crosswise bands of black velvet. The plaited collar is of surah, encircled by a black velvet band fastened by a jeweled button. The tight sleeves have a lengthwise group of plaits with velvet bands beneath. The top of the sleeves is of transparent guipure. The hat of pink straw has a black crown. It is trimmed with pink tulle, a jeweled buckle and curled black ostrich plumes, with pink roses under the brim.

JUDIC CHOLLET.

FOR THE SUMMER.

Parasols In Immense Variety to Go With Thin Gowns.

Very thin, transparent parasols are prepared for use with light summer gowns. One model is of very fine open embroidery upon mousseline de soie. The lining shows through the open design, and the border, which is of white taffeta, is trimmed with a ruche of mousseline. The handle of natural wood terminates in a swan's head enameled in the natural coloring. There are also spangled lace butterflies on parasols and parasols of painted moire covered with plaited tulee. Rococo embroidery on tulle is also employed, and the newest idea is a parasol entirely of puffed gauze, with choux

TAILOR MADE COSTUME.

decorating the top. They are not generally useful, being difficult to close, and are only suited for special occasions.

Parasols of liberty satin will be used for the country. White and very light colors will predominate.

Jeweled effects are seen on parasol handles and also for the tip of the stem.

A picture is given of a tailor made costume of beige cloth. The skirt is plain in front and laid in plaits at the side, the back forming a double watteau plait. The bolero jacket has a front lengthened in a round tab and a basque short at the back and sides. The jacket is bordered and trimmed with bands of lighter beige silk covered with lines of stitching, and the revers and cuffs are of stitched silk. Groups of small dull gold buttons decorate the front. The lining is of pearl gray broche silk. The accompanying toque is entirely of blue forgetmenots and roses, with a tall black satin bow and a puffing of black satin at the back.

JUDIC CHOLLET.

THE ART OF DRESSING.

Elegant Details of the Fashionable Toilet.

To be elegantly dressed it is not enough to have a perfectly fitting and suitable gown and hat to correspond. The most telling touches are in the little individual details of the toilet. The veil, the fresh gloves, the parasol handle, the handkerchief, the buttons of the bodice, all these are what give the finish.

Tailor made gowns imply shirt waists for warm weather. These when of silk have a collar of velvet, with incrustations of lace and fringes of steel beeds. The belt is of fawn or white kid or in ribbon, with an empire gold buckle.

Plaited skirts are to last through the summer. The Louise Seize skirt, gathered all around the waist, is also to be worn with a round bodice. Very thin

TEA GOWN.

materials are employed for the latter novelty, which is well suited to muslins, batistes, etc.

The illustration depicts a tea gown of pearl gray panne. It is made in the princess form with a train and has a watteau plait at the back. In front it opens in redingote style over a skirt of white satin, the redingote being bordered by a flounce of white mousseline de soie edged with lace and headed by an application of guipure. This flounce passes around the foot and ascends in front to the bosom. The bodice is cut in a V and has a collar of white satin and mousseline de soie edged with a ruffle like that of the skirt and fastening with a brooch. The half length sleeves are of shirred mousseline de soie, terminating in a ruffle and ornamented with a chou of narrow black velvet ribbon.

JUDIC CHOLLET.

THE CANNIBAL TREE.

A Strange Native of Australia Which Is Said to Destroy All Sorts of Animal Prey.

Mrs. Ellis Rowan, of Melbourne, Australia, who is at present in New York and who has traveled more extensively in the cannibal country than any other European woman, has told recently of the existence in Australia of a forest tree which is perhaps one of the most wonderful plants of nature. It will hold in its center and devour the body of a man as readily as our insectivorous wild flowers trap the insects on which they partly subsist. The tree is called the cannibal tree.

As Mrs. Rowan describes it, its appearance may be imagined to resemble a mammoth pineapple, which often reaches to the height of 11 feet. Its foliage is composed of a series of broad, board-like leaves, growing in a fringe at its apex. Instead, however, of standing erect, as does the little green tuft at the top of a pineapple, these leaves droop over and hang to the ground. In the largest specimens they are often from 15 to 20 feet long, and strong enough to bear the weight of a man. Hidden under these curious leaves is to be found a peculiar growth of spear-like formation, arranged in a circle, and which perform the same function for the plant as do pistils for flowers. They cannot, however, abide to be touched.

Among the natives of Australia there is a tradition that in the old days of the antipodean wilds this tree was worshiped under the name of the "devil's tree." Its wrath was thought to be greatly dreaded. As soon as its huge green leaves began to rise restlessly up and down its worshipers interpreted the sign as meaning that a sacrifice must be made to appease its anger. One among their number was therefore chosen, stripped of his raiment and driven by shouting crowds up one of its leaves to the apex. All went well with the victim until the instant that he stepped into the center of the plant and on the so-called pistils, when the board-like leaves would fly together and clutch and squeeze out the life of the intruder. By early travelers in Australia it is affirmed that the tree would then hold its prey until every particle of his flesh had fallen from his bones, after which the leaves would relax their hold and the gaunt skeleton fall heedlessly to the ground. In this way did its worshipers seek to avert disaster and to still the demon spirit among them.

The tree's present name and its uncanny actions remind us that the cannibals of northern Australia have also a playful way of scattering about the bones of a victim after one of their feasts.—St. Louis Globe-Democrat.

SOAP BUBBLE TRICK.

As a Test of Patience, Steady Nerves and a Funny Thing It Has Not Its Equal.

Did you ever make a balloon with passengers out of a soap bubble? If you have a steady hand and some patience it is an amusing and instructive trick.

Take a piece of yellow wrapping paper and roll it into a cone between an inch and a half and two inches in diameter at the larger end. Then mix the water for your soap bubbles so that it is very thick, as thick as possible with the lather.

Then the bubbles will be as solid as they can be made, if not blown too large. Blow one with the paper cone, about nine inches in diameter, and loosen it from the end, as is often done, and the bubble floats up to the ceiling.

This is the trial bubble. Now blow another to put you passenger on.

A SOAP BUBBLE TRICK.

This passenger must be prepared beforehand. Cut out of very thin tissue paper a man half an inch tall. Run a fine thread through his head and knot it on the end so that it will not pull through. Then put the other end of the thread through a small circular bit of thin writing paper, tying a small knot in the end.

Then all that remains is to gently touch this circle to the side of the bubble and it will stick to the side of it. Another twist of the hand holding the tube and balloon and passenger ascend to the ceiling, or, if it is a very still day, it may be floated out of the window.

As a test of the patience, steady nerves and a funny thing in itself, this is a pretty trick.—Cincinnati Commercial Tribune.

Elephant Had His Revenge.

A funny incident recently occurred at the Jardin des Plantes in Paris. The elephant house adjoins that in which the camels are located, and a young camel recently introduced had great attention lavished on him, to the neglect of a big elephant, which had hitherto had most of the public favor in that quarter. The elephant grew more jealous day after day, and matters came to a climax when, failing to attract the attention of a dainty maiden who was caressing his young rival, the elephant filled his trunk with water and deluged the offending damsel from head to foot.

Proceedings of the Union County Board of Chosen Freeholders.

[OFFICIAL.]

Adjourned meeting of the Board of Chosen Freeholders of the County of Union held on Thursday, May 24, 1900, at 2:30 p. m.

Roll-call showed all members present except Freeholder Swain.

The minutes of the previous meeting, were on motion, approved as read.

Before proceeding with the regular order of business, the Director announced the appointment of the standing committees for the ensuing year as follows, viz:

Collector's Bond—Westphal, Miller, McCandless.

Publication—Adams, Robison, Gerstung.

Discharge of Prisoners—Wahl, Robison, Scudder.

Settle with Collector—Krouse, King, Brucklacher.

Audit Accounts—King, Cady, Woodruff.

Lunacy—Miller, Adams, Swain.

Public Grounds and Buildings—Farrell, Cady, Scudder.

Jail Inspection—Westphal, Wahl, McCandless.

Stationery Committee—King, Wahl, McCandless.

Settle with Sheriff—Robison, Ehrlich, Scudder.

Miscellaneous Accounts and Agreements—Ehrlich, Krouse, Swain.

Legal Questions—Cady, Ehrlich, Bonnel.

Appropriations—Farrell, Westphal, Krouse, Brucklacher, Woodruff.

County Roads—King, Adams, Krouse, Brucklacher, Swain.

Elizabeth Draw-Bridges—Miller, Ehrlich, Gerstung.

Rahway Draw Bridges—Ehrlich, Farrell, Bonnel.

COMMUNICATIONS.

From J. T. MacMurray, city clerk of the City of Plainfield, enclosing a copy of a resolution adopted by the Common Council of said city on May 7, 1900, as follows:

"Resolved, That whereas Madison avenue from West Front street to Green Brook, as delineated on a map filed with the City Clerk, May 7, 1900, has been duly dedicated to this city, and the same has been duly accepted by the city, and the continuation of said dedicated and accepted street from Green Brook extending into the Borough of North Plainfield to correspond, has in like manner been dedicated to, and accepted by the Borough of North Plainfield.

"Resolved, That the Common Council of the city of Plainfield do hereby make application to the Board of Chosen Freeholders of the county of Union in conjunction with the Board of Chosen Freehlders of the county of Somerset, to take such steps as may be necessary for the construction and maintenance of a bridge over Green brook from the city terminus of said street to the borough terminus thereof at Green Brook.

"Resolved, That the City Clerk be directed to prepare a certified copy of this resolution to be handed to the Hon. J. Frank Hubbard, director of said Board of Chosen Freeholders, and to request that that Board will, in the interest of the public of this city give as early attention to the same as practicable."

Adopted by the Common Council of the City of Plainfield, May 7, 1900.

(Signed) J. T. MacMurray, City Clerk.

On motion of Freeholder Farrell received and placed on file.

From William J. Fryer, stating that he was informed that a telford road would soon be put down from the Village of New Providence to the end of the county line; two brooks cross the said road, and while the bridges crossing these streams were at the proper height, the road leading to said bridges was in his judgment too low, and should be raised about three feet, one hundred and fifty feet each side of said bridges.

Probably the surveys, etc., called for such raising, but he, Mr. Fryer, as the owner of the residence property near one of the said bridges, would respectfully call the attention of the Board to the said matter.

Freeholder Robison moved that the matter be referred to F. J. Hubbard, C. E., who had the construction of said road in charge, which was duly seconded.

Freeholder Wahl said that the matter had been provided for by the said engineer in his surveys and specifications, after which the motion of Freeholder Robison was adopted without dissent.

REPORTS OF COMMITTEES.

By the Committee on Appropriations:

Elizabeth, N. J., May 24, 1900

To the Board of Chosen Freeholders of the County of Union:

Gentlemen—Your Committee on Appropriations, after carefully estimating the probable necessities of the various departments of the county government, providing for the payment of the bonds and the interest on the bonded debt, falling due during the present fiscal year, are of the opinion that with the same economical administration of the county affairs as last year, we can reduce the amount raised by taxes, from two hundred and twenty thousand dollars to two hundred thousand dollars.

We would therefore respectfully report and recommend that the sum of two hundred thousand dollars ($200,000) together with the sum of twenty-eight thousand ($28,000) dollars assets now on hand, and all miscellaneous items now on hand; or which may be collected during the fiscal year be appropriated for the expenses of the current year.

Your committee would further recommend that the amounts above mentioned be certified to the County Board of Assessors, and placed in the tax levy for the year nineteen hundred, as per the accompanying resolution:

Resolved, By the Board of Chosen Freeholders of the County of Union, that the sum of two hundred thousand ($200,000) dollars be raised by tax for the use of said county, for the fiscal year commencing May 9, 1900, to be appropriated together with the sum of twenty eight thousand ($28,000) dollars of the assets of the county for the following purposes:

For Courts	$ 36,000
For County Jail	6,000
For Lunatics	43,000
For Compensation and Lawful Expenses of Chosen Freeholders and Committees, and Salaries of Their Officers	10,800
For Fees of Coroners	500
For Elections	14,000
For Stationery	2,000
For Advertising, Publishing and Printing	2,000
For Incidental Expenses, Schools, Burial or Soldiers and Monuments	14,200
For Children Guardian Account	2,000
For Payment of Principal of Bonded Debt	9,000
For Payment of Interest on Bonded Debt	14,000
For Payment of Bank Interest on Temporary Loans	1,000
For Hospitals	5 000
For Permanent Improvements of Public Buildings and Grounds	8,000
For Erection and Repair of Culverts and Bridges	35 000
For Repair to County Roads	17,500
For the Building of Roads under the State Road Act	8,000
Total	$228,000
Less Assets now on Hand	28,000
Total Amount to be Raised by Taxation	$200,000

To be assessed and collected in the manner and at the time prescribed by the laws for the assessment and collection of taxes for the use of the State, and the laws for assessment and collection of taxes in the cities of Elizabeth, Plainfield and Rahway in said county, respectfully; and that the Board hereby direct the assessors of the respective townships and wards in said county to assess the said sum of two hundred thousand ($200,000) dollars together with the sum of four thousand six hundred and thirty-eight dollars and fifty-four cents ($4,638.54) interest on county road bonds, on the inhabitants and their estates, agreeable to the law for the time being for the raising of money by taxation for the use of the County of Union, State of New Jersey, and that the said assessors meet at the Court House in this City of Elizabeth, on the third Monday of July next, at ten o'clock, a. m., to adjust and ascertain the proportion of said sum to be levied in each township and ward in said county; and that the clerk of the Board send a copy of this resolution to each of said assessors.

John Farrell,
Jocob Brucklacher,
W. A. Wesphal,
Noah Woodruff,
Henry Krouse,
Committee on Appropriations.

Freeholder Robison moved that the report be received, and the recommendations therein contained adopted, and it was so ordered on roll-call by an unanimous vote.

By the Committee on Collector's bond:

To the Board of Chosen Freeholders of the County of Union:

Gentlemen—Your Committee on the Collector's bond respectfully report that we have received the bond, the same being executed by County Collector E. M. Wood, with the following named gentlemen as his sureties, viz., Senator John Kean, Frank Bergen, Edward C. Woodruff, John W. Whelan and Meline W. Halsey; we consider the same in proper legal form, and that it has been executed with good and sufficient sureties; we therefore recommend that the same be accepted by the Board, and filed in the County Clerk's office according to law.

W. A. Westphal,
Joseph McCandless,
Fred Miller,
Committee on Collector's Bond.

Freeholder King moved that the report be received, and the bond, in amount $20,000.00, accepted and filed in the county clerk's office, which was so ordered on roll-call by an unanimous vote.

NEW BUSINESS.

By Freeholder Robison:

"Resolved, That the sincere thanks of the members of the Board be tendered to E. M. Wood, County Collector, for neatly bound copies of laws of the State of New Jersey, 1900, presented by him this day to each member of the Board."

The resolution was adopted without dissent

By Freeholder Brucklacher:

"Resolved, That a committee of five be appointed with power, for the purpose of making the necessary repairs to the Murray Street bridge at Elizabeth, at an amount not exceeding $800."

Freeholder Scudder moved the adoption of the resolution, which was duly seconded.

Freeholder Brucklacher stated that he had examined the bridge and found it in a dangerous condition: it should receive immediate attention; it had been intended to pave said bridge, but the work could not be done, owing to its unsafe condition.

The resolution was then adopted by an unanimous vote on roll call.

The Director appointed as the said committee, Freeholders Brucklacher, Ehrlich, King, Krouse and McCandless.

By Freeholder Scudder:

Whereas, The Westfield and Elizabeth Street Railway Company is about to file an application with this Board, petitioning for the privilege to lay a double track diagonally across Central avenue, about 800 feet southerly from the tracks of the Lehigh Valley Railroad Company, also about 450 feet northerly of the same in the Township of Clark; and

Whereas, It is desirous on the part of said street railway company, to lay said tracks across Central avenue at an early date and before the next meeting of this Board; therefore be it

Resolved, That upon the receipt of said application from the said Westfield and Elizabeth Street Railway Company, the same be referred to the committee on county roads with power to grant the same on such terms and conditions as to them shall seem proper and for the best interest of the county of Union.

Freeholder Brucklacher moved the adoption of the resolution, which was duly seconded.

Freeholder Scudder explained that owing to the conditions imposed by the Lehigh Valley Railroad Company, it was impossible for the Street Railway Company to cross the Lehigh tracks in any way or manner than as provided in the resolution.

On motion of Freeholder King, a recess of five minutes was ordered to permit the Board to examine a map showing the proposed route of crossing Central avenue and the Lehigh tracks.

Upon reassembling after recess, roll-call showed all members present, except Freeholder Swain.

The resolution of Freeholder Scudder was then taken up and on roll-call unanimously adopted.

By Freeholder Westphal:

"Resolved, That a committee of five be appointed with power, to, in conjunction with a similar committee of the Board of Chosen Freeholders of Somerset County, build a line bridge across Green Brook on Madison Avenue, Plainfield, N. J., (being the dividing line between Union and Somerset Counties) the cost of the same not to exceed $6,000 to the County of Union."

Freeholder Farrell moved the adoption of the resolution, and on roll-call it was unanimously adopted.

The Director appointed as the said committee, Freeholders Westphal, Robison, Farrell, Scudder and Gerstung.

Freeholder Farrell moved to adjourn, which was carried.

The director declared the board adjourned until Thursday, June 7, 1900, at 2:30 p. m.

S. Rusling Ryno, Clerk.

SCHOOL AND CHURCH.

Women's colleges in England are said to be filled to overflowing.

The best teachers of humanity are the lives of great men.—C. H. Fowler.

The state department of the United States government spends nearly $1,000,000 a year to protect American missionaries in foreign lands.

Every year a number of boys are sent from Siam by the king to England to learn different things. One learns upholstery, one learns typewriting, one learns languages, one learns science, and so on.

Sir William Muir, the principal of Edinburgh university, announces his approaching resignation. His tenure of office will be chiefly memorable for his strenuous and successful efforts to obtain for women full privileges in the university.

The sexton of a church in Denver the other night found that all the movable property had been carried off. He traced it to a pawn shop, where it had been left by burglars who represented themselves as deacons eager to raise funds for the church.

A church bell cracked in ringing at the village of Schleitheim, near Schaffhausen, Germany, a few days ago. When taken down it was found to be of the year 1452. Accordingly it is older than the Schaffhausen bell which inspired Schiller's poem.

A monumental statue of the late Cardinal Lavigerie was recently dedicated at Biskra, on the confines of the Sahara Desert. The cardinal is represented standing, his eyes turned toward the desert, holding in his right hand his pastoral cross, which he seems to be planting in that desert land toward which went forth all his aspirations as bishop and colonizer.

PROUD TILLERS OF THE SOIL.

Something About the Membership of the Old-Time Farmers' Club of Pennsylvania.

One of the most interesting clubs in the world is the Farmers' club of Pennsylvania, which was founded in 1785 by Gen. John Cadwalader, Robert Morris, the financier of the revolution, Benjamin Rush and others equally eminent. Its membership is limited to 12 persons, and it meets once a month at the residence of each in turn to enjoy the hospitality and talk about farming, says the Chicago Record.

The present members of the Farmers' club are such horny-handed sons of toil as Clement A. Griscom, president of the American steamship line; Alexander J. Cassatt, president of the Pennsylvania railroad; Elisha Packer Wilbur, ex-Senator J. Donald Cameron; Justice Henry Green, of the supreme court of Pennsylvania, who has one of the finest country places in the world near Easton, Pa.; Judge Craig Biddle, of the same court, who lives in Philadelphia; Frederick Fraley, president of the national board of trade, who is 96 years old, but in perfect possession of all his faculties, with an excellent appetite and digestion; James Logan Fisher and Rudolph Ellis. The latest accession to the club is Edward DeV. Morrell, who married Miss Drexel, of Philadelphia, and $20,000,000. He expects to go to congress pretty soon as the successor of the late Mr. Harmer, the father of the house of representatives.

Each member of the club has his month assigned to him, and his dinner is always given on the evening of Thursday previous to the full moon. Mr Fraley entertains at his country place near Ogontz every January. Mr. Cameron gives his party at his farm "Lochiel" on the Susquehanna river near Harrisburg in February, Mr. Fisher in March, Mr. Griscom in April at his lovely place called "Dolobran," near Haverford. In June the club always goes to Chesterbrook farm, where Mr. Cassatt breeds carriage horses; in July the dinner is given at Judge Biddle's residence at Torresdale on the Delaware; in August Mr. MacVeagh invites them to Brookfield farm, near Bryn Mawr; in September they visit Mr. Ellis at Mauch Chunk; in November Mr. Wilbur is the host at his stately home near South Bethlehem; and in December Mr. Morrell gives the dinner at Bryn Mawr.

All of these gentlemen are actual farmers, although they do not literally follow the plow. They do their manual labor by power of attorney. Each owns a farm and a lot of cattle and horses and has an opportunity to brag about them at the monthly dinner.

AIM OF THE BOXERS.

Chinese Fanatics Who Want to Exterminate All Foreigners.

Their Dastardly Work May Lead to International Complications—Backed by the Savage Dowager Empress.

[Special Correspondence.]

FROM South Africa the center of international interest has suddenly been shifted to China, where a secret political society, the Ye-Ho-Chuan, dubbed by European correspondents the "Boxers," has inaugurated a reign of terror in the provinces of Chi-Li and Shantung. Ye-Ho-Chuan, literally the Society of the Great Sword, is an organization formed for the purpose of supporting the reactionary empress dowager; its leaders professing loyalty to the Manchoorian dynasty which, in their opinion, can be perpetuated only by the extermination or expulsion of foreigners.

The Boxers, although organized some years ago, did not begin active operations until last October, when they opened a bloody warfare on those of their countrymen who had embraced the Christian faith or seemed to be under the influence of Christian missionaries. Within three months they devastated 40,000 square miles in the western portion of Shantung. Hundreds of Christians were ruthlessly slain, and many European missionaries were killed in cold blood and disemboweled. Every mission station in the rebellious section had to be closed up and its inmates were compelled to seek safety in the seaboard towns, under the protection of the guns of European and Japanese warships.

The political agitation of the Boxers was, for a time, made ineffective by the patriotic efforts of the Bo-Wung-Wai, the reform party of China. The empress dowager, however, fearing that

THE AMERICAN LEGATION AT PEKING, CHINA.

the reformers were determined to oust her, opposed them, caused several of their leaders to be executed and drove others into exile. As soon as the Boxers were given to understand that their principles were not abhorrent in the eyes of the savage old woman who rules the government at Peking, they became bolder and invaded localities in close proximity of European treaty ports and military stations. Their lawless bands were organized into battalions and regiments and placed in command of capable officers; and the fight against the spread of Christianity, spasmodic at first, developed into regular warfare. Nevertheless, the secrecy of the organization is still maintained, and neither general nor colonel is supposed to know the names of the men under his command.

The Chinese government, as well as its representatives at London, Washington, Berlin and St. Petersburg, persists in denominating the Boxers as bands of outlaws and professes to be doing its utmost to suppress them. This statement is not based on truth, however, as the conspirators now have an army of over 100,000 men in the field, equipped with modern rifles and ammunition from the imperial arsenals. It is true that large bodies of troops have been dispatched to disperse and capture the murderers, but they have accomplished very little; probably because most of the high officers in the regular army are members of the Society of the Great Sword.

SEAT OF THE CHINESE TROUBLE.

The impression is gaining ground that the Chinese government is by no means displeased with the ruthless war on foreigners waged by the Boxers, and that the dowager empress would rather face all Europe than make further territorial or commercial concessions to the powers which have for years howled around the gates of Peking like hungry wolves waiting for an opportunity to pick up a bone of the political corpse known as the Chinese empire.

The fact that the operations of the Boxers have been confined to Shantung and Chi-Li is significant. Peking, the capital of the empire, and Tien-Tsin, the most important seaport in northern China, are located in these provinces and have long been considered the centers of foreign influence. Russia, Great Britain and Germany have for years played a game of hide-and-seek for the purpose of obtaining possession of these cities and the territory surrounding them, but have been thwarted by the watchfulness of Japan and the selfishness begotten of greed. It is possible that the empress dowager relies upon the jealousy of the nations to extricate herself and country from the deplorable conditions of servitude that have been imposed upon her by her European bosses, and that she hopes to get rid of all of them by setting them to fighting among themselves.

Other observers think that Russia, which has a vast army within a few days' march of the scene of trouble, is back of the Boxer movement, which they allege is supported for the purpose of forcing a conflict with the Chinese government. M. de Giers, the Russian minister at Peking, is one of the cleverest diplomats in the world, and, however absurd it may sound to some, it is barely possible that he has concocted a scheme whereby Russia is to obtain possession of the gulf of Pe-Chi-Li and the territory around Tien-Tsin and Peking. All this does not appear so unreasonable when one considers that she already occupies Port Arthur, located in close proximity to the coveted towns.

The most powerful argument against this theory is found in the utter recklessness of the Boxers, who have killed missionaries of all nationalities indiscriminately, but more particularly French and English preachers. Had they confined their homicidal campaign to British subjects, the reasonableness of a Russian conspiracy would have been indisputable; but in present conditions it reveals many weak points. Great Britain, Russia, Germany, France, Japan and the United States have already landed marines at Tien-Tsin, and sent others to Peking for the purpose of protecting their legations; and should any serious trouble occur at either place these forces must act together. The naval strength of the powers mentioned in Chinese waters is enormous, and within a few days they could have the following numbers of men and guns at the very gates of the Chinese capital:

	Men.	Guns.
Japan	8,703	553
United States	3,770	312
Germany	3,038	167
Great Britain	6,993	453
Russia	7,894	488
France	1,616	59

It has already been suggested that a "concert of nations," similar to that which restored peace in the island of Crete, should be arranged for the purpose of safeguarding the interests of the nations involved. Should such a plan be carried out the commanders of the fleets of the various nations would immediately select a commander in chief—in this case probably the senior admiral in Chinese waters, whoever he may be—who would have absolute control of all the sea and land operations necessary to restore peace.

Should the various forces commence independent operations, there would unquestionably be friction everywhere, which might result in a general war. No sane man doubts for a moment that any one of the great powers named could restore order single-handed, but such aggressive action would not be countenanced by the others. So much is certain: unless there is a concerted movement there will be trouble; and for such a disturbance none of the interested nations is prepared at the present time.

Edwin Hurd Conger, the American minister at Peking, has been vested with unlimited

Every little helps. The single bag order added to the small and large orders of several thousand other customers help to make our big daily business. The big business enables us to maintain our large elevator and cleaning plant and our own buying offices in the west, so that each customer gets the advantage of the improvement in quality and the saving in intermediate profits.

We sell any quantity from eleven pounds to a carload and in each case the price is based on the market and is the same to every one for the same service, and is published in cold type.

Mixed oats	72c per bag	Gluten	90c	per 100
Mixed Clips	74c per bag	Cotton Seed Meal	1.35	per 100
3 White Oats	75c per bag	Oil Meal	$1.45	per 100
Regular Clips	77c per bag	Elevator B. Screenings	65c	per 100
X. B. Clips	79c per bag	Our Poultry Food	$1.15	per 100
Ear Corn	75c per 100	Barley (96 lbs)	$1.15	per bag
Yellow Corn	93c per 100	Wheat	$1.35	per 100
Cracked Corn	98c per 100	No. 1 Grain Mixture	$1.17	per 100
Coarse Meal	98c per 100	Cut Hay	90c	per 100
Ground Feed	98c per 100	No. 1 Timothy Hay	95c	per 100
Bran	86c per 100	Salt, ½ bushel, 1 bushel, 4 bushel sacks.		

The above prices are for spot cash at our stores. If delivered add according to quantity as follows:

25 bags or over ..... 2c per bag
5 bags or over ..... 5c per bag
Less than 5 bags ..... 10c per bag

THE PAUL T. NORTON CO..

Elizabeth, Elizabethport, Rahway, Red Bank, Asbury Park, Plainfield, Somerville.

PARTICULAR MENTION.

Stephen Perrine, of Park avenue, is seriously ill at his home.

Miss Rafferty, of North Plainfield, is visiting friends in Westport.

C. S. Tunis, supervisor of census, of New Brunswick, was in town yesterday on business.

Miss Tillie Schenck, of Elmwood place, entertained friends from Somerville yesterday.

Miss Grace Hurtt, of Manasquan, is visiting her cousin, Miss Pauline Denton, of Washington avenue.

F. L. C. Martin has gone to Philadelphia with the County Republican Society of Newark to attend the convention.

Miss May Evans, of Plainfield avenue, has entirely recovered from a recent operation for appendicitis, and is able to be out again.

John O'Brien, the janitor of the Watchung Social Club, has been granted a vacation and is sojourning at the Pocono Mountains.

Mrs. David Lewis has rented her house on Rockview avenue for the summer to Mr. Parosi, of New York, who will take possession soon.

Mrs. W. E. Dunn and Colonel G. W. Brewerton, of New York, have returned home from a pleasant visit with Mr. and Mrs. William Dunn, of Norwood avenue.

Walter Hodgeson, of Cleveland, who formerly lived in this city, was in town yesterday renewing old acquaintances. Mr. Hodgeson resided on Plainfield avenue, which was then called William street.

Herman Schwed, of Westervelt avenue, is detained at home by illness. In company with his wife, Mr. Schwed will leave for Europe the latter part of this month. A visit to the Paris fair will be a feature of the trip.

Dr. A. V. Harrington, physician on the Steamship Rotterdam, of the Holland-American Line, and his sister, Miss May Harrington, of New York, spent last evening with their cousin, Mrs. Walter C. Dobbins, of Elmwood place.

Miss Mary V. Stickle is visiting friends in Boston. She attended the 125th anniversary of Bunker Hill and was shown all of the historic battle ground. She will also visit Newport for a week, and will be home Monday, June 25th.

Local News on Pages 2 and 3.

LADIES CAN WEAR SHOES

One size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. It's the greatest comfort discovery of the age. Cures and prevents swollen feet, blisters, callous and sore spots. Allen's Foot-Ease is a certain cure for sweating, hot, aching feet. At all druggists and shoe stores, 25c. Trial package FREE by mail. Address, Allen S. Olmsted, LeRoy, N. Y.

THAT BUNCO MAN AGAIN.

He Visited Woodhull & Martin's and Insisted on Paying for a Phonograph Which They Never Sold.

The would-be bunco man who visited W. R. Brokaw's music store Monday afternoon, also made a visit the same day to Woodhull & Martin's, where he tried the same scheme of wanting to pay for a phonograph which he said was purchased two years ago. As the firm has never sold phonographs the clerk told him he must have made a mistake. He replied that he might be mistaken, but he was anxious to settle the bill. Just what scheme the man could be working does not seem to be clear unless as was first thought he wished to pass large counterfeit bills and secure good change.

Burned His Hands.

Walter Heidloff, of Somerset street, who is doing some electrical work at John Powers' drug store, burned his hands severely this morning while using an alcohol lamp in doing his work. The blaze flared up suddenly and in a minute Mr. Hiedloff's hands were ablaze. Promptly, Mr. Best, a clerk at the store, applied solutions of sweet oil and succeeded in drawing out the inflammation, so that Mr. Heidloff could continue his work.

Tired of His Trip.

A farmer-appearing man, who claimed Oil City, Pa., as his residence, drove into the borough this morning, with not an over-abundance of this world's goods. He claimed that he had driven from Oil City to this city and wanted to reach Jersey City. The drive was much longer than he anticipated, and when he arrived in the borough he wanted to sell his horse and wagon and proceed by train to his destination.

Entertainment by Young People.

Next Tuesday evening the young people of the Church of the Holy Cross will give a fine entertainment in the parish house of the church, to consist of vocal and instrumental music, readings and recitations. The proceeds will be given to the Women's Guild for church work.

January Marriage Just Announced.

Announcement is made of the marriage of Miss Sadie Rogers, of East Third street, and Wm. Kennedy, of the borough, which took place Jan. 7th last. They were married by Rev. G. W. Gardner, but for some unknown reason they preferred to keep the marriage a secret.

Came to Plainfield to Play Whist.

A whist party of about twenty-five people from Elizabeth journeyed to Plainfield last night and had a supper at the Kensington. Several games of whist were also played and the party returned home shortly before midnight.

To Institute a New Tribe.

Great Sachem Newcorn and a delegation of members from Miantonomoh Tribe of Red Men, will leave, tonight at 6:30 by stage, for Woodbridge, to initiate a new tribe at that place.

Released on Bail.

Charles Roberts, the colored man who was held under $200 bonds for the Grand Jury, for stabbing William Kinney, was released this morning, as Charles Bock furnished the bail.

Received Degree of A. M.

John Owens, of South Second street, and Michael Glennon, of Elizabeth avenue, have had the degree of A. M., conferred upon them by Seton Hall College, of Orange.

GOOD WORK REWARDED.

BOROUGH GRADUATE PRESENTED WITH GOLD WATCH AND CHAIN.

Frank Bach, President of the Class, Was the One Whose School Record Was So Highly Appreciated.

One of the most interesting and enjoyable class-day exercises ever held in the Borough Public High School was that of last evening under the auspices of the Class of 1900. The platform was appropriately decorated with flowers and the class colors, orange and white.

During the evening a great surprise was given. It was after the presentation of the class programme that Henry McGee, a member of the Board of Education, made a few remarks of a congratulatory nature.

Addressing Frank Bach, president of the class, Mr. McGee stated that during the past five years he had not missed a single day at school, had not been tardy once, and in all that time he had not received one single mark for unsatisfactory work, in other words, he had been as near perfect as possible in his school life and duties. Mr. McGee then said that the teachers and scholars of the High School, as well as members of the Board, desired to recognize such efficient work, and on behalf of those mentioned he presented Mr. Bach with an elegant gold watch and chain. The presentation took the recipient so by surprise that it was several minutes before he could return his sincere and most hearty thanks to the donors of such a beautiful gift.

During the programme of the evening Fred VanEps rendered several banjo solos accompanied on the piano by Mr. Harold. Frank Bach, as president of the class, made an excellent address of a retrospective and prospective character. The class history was given by Miss Sarah Mantz, who gave the class motto, "Always Ready." Her paper was filled with humor and bright sayings about the various members of the class. The class will by Miss Mary Hoagland was greatly enjoyed, giving and bequeathing all of the property, both personal and otherwise, to the various classes in the high school and the teachers.

Then followed the class prophecy by Miss Aimee Emmons, who, by aid of an improvised Xray machine read the future for the members of the class. Miss Emmons introduced a great deal of humor in her essay, and it evoked hearty applause. The class prescriptions were given by Miss Dora Waring, who dealt generously with each member, giving each a bottle of medicine best suited to the case. Accompanying each bottle was an appropriate verse. The exercises closed with the singing of the class song, the words of which were composed by Miss Marie Honeycutt. Then followed a social time among all present.

BEST ENTRANCE EXAMINATION.

Miss Clara Case Receives a $300 Bryn Mawr Scholarship.

Miss Clara Case, daughter of Charles L. Case, formerly of Central avenue, has just received from Bryn Mawr the $300 scholarship for the best entrance examination passed by students from New York, New Jersey and Delaware. Miss Case belonged to the class of 1900 in the Seminary but upon the removal of the family to New York, last year, she entered the Brearley and has just been graduated there.

Endeavor Missionary Conference.

A very successful Christian Endeavor Missionary conference of the Plainfield local union was held last evening at the home of the superintendent, Mrs. Alice S. Runyon, Arlington avenue. Each one present told of the missionary work, both home and foreign, being done in each society and many excellent ideas were exchanged. Fresh air work will again be undertaken by the missionary department to begin about July 1st. At the close of the conference refreshments were served and a pleasant social hour enjoyed.

Devoted to Paris Exposition.

This month the bulletin board of the Public Library is devoted to the Paris Exposition. Pictures of the U. S. building, of the palace of fine arts, German building, and pictures of old Paris are there with many others. For those who are going to Paris or who wish to inform themselves about the exposition is a list of books, several very recent ones being included, on the exposition, Paris, the French people, etc.

Rector Given a Bicycle.

Rev. W. Montgomery Downey, rector of the Church of the Holy Cross, received a handsome present yesterday from his brother. It is a Continental bicycle, with all the latest improvements, including a coaster-brake.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

COMPANY FOR N. J. N. G.

FORTY HAVE ALREADY SIGNIFIED INTENTION OF JOINING

The Limit of the Company will be Sixty Members—Lieut.-Col. Collins Interested.

From present indications there now seems to be no doubt but what Plainfield will soon have a military company.

Daniel Shea and Charles Peterson, who have taken the matter in hand, have made great progress. They have already secured forty names of young men who are willing to enter the company which is limited to sixty members. Mr. Shea will go to Elizabeth Saturday to confer with Lieut.-Col. Collins in regard to various matters pertaining to the qualifications of the men and securing the first vacancy occurring in the National Guard. As soon as the men can be gotten together, Lieutenant Collins will visit Plainfield and complete the plans for entrance to the Guard. He has also promised to make effort to secure the first vacancy, which he believed would occur shortly after August 1st.

GETTING TO WORK NOW

[CONTINUED FROM PAGE 1.]

and presented the presiding officer with a gavel made of wood grown in Kentucky. He added that it was a McKinley and Roosevelt gavel. The mention of Roosevelt's name brought out great applause, and the Governor looked annoyed.

The rules for the convention were then read by General Bingham, chairman of the committee. They were adopted.

THE LATEST.

At 2:20 this afternoon it is safe to say that there will be no nominations today.

EARLY INTELLIGENCE.

—Iona Council will meet tonight, when two propositions for membership will be received and officers will be elected.

—The Ladies' Aid Society of the German Reform church will hold their meeting in the lecture room of the church to elect officers for the coming year tomorrow afternoon.

—F. H. Firstbrook, who recently bought the grocery business of N. K. Barnes, on West Front street, has decided to devote his attention to his Liberty street store and has sold the former business back to Mr. Barnes.

Presentation of Diplomas by J. B Probasco, M. D.

March

Died at Ripe Old Age.

Elisha Coriell, aged 87 years, for thirty years a resident of the borough, died this morning about 9 o'clock at his home corner of Watchung and Jackson avenues. Heart trouble was the cause of death. He was born in Dunellen, where he lived until 1871, the year he came to North Plainfield. He was a consistent member of the First Presbyterian church, and a person that was greatly respected by all. He is survived by a daughter, Mrs. Boice, with whom he lived.

Mrs. Joseph C. Martin and children, of Duer street, have been spending the month of June at Mrs. Martin's former home in Pennsylvania.

IT IS M'KINLEY AND ROOSEVELT.

Republican Candidates for President and Vice-President Placed in Nomination.

THE CONVENTION GOES WILD OVER TEDDY.

STIRRING SCENES IN NAMING THE MAN FOR SECOND PLACE ON THE TICKET.

President McKinley Re-nominated in a Speech Made by Senator Foraker—Roosevelt Named by Iowa—Convention in Wild Pitch of Enthusiasm.

(By a Staff Correspondent.)

Convention Hall, Philadelphia, June 21.—The certainty that Governor Roosevelt will be the running mate of President McKinley on the Republican ticket clarified the political atmosphere, and resulted this morning in putting vim and energy in the delegates and the thousands of others gathered here.

Up until last night it looked as though there would be some lively fun in the convention over the selection of a Vice-Presidential nominee, but when Senator Hanna made his

WILLIAM M'KINLEY.

GOVERNOR ROOSEVELT.

statement and said that Roosevelt was the choice of all hands for second place, the chance of a harmonious and graceful wind-up to the convention was improved a hundred fold.

The bitter fight that has been going on for the past three days had put everyone on their mettle, but when they woke up this morning and commenced to appear on the scene there was a serene look on their faces which indicated that all but the mere perfunctory proceedings had been settled. But with their serenity came an intense interest to see how it would all be carried out, and long before 10 o'clock, the time the convention was scheduled to be called to order, great crowds commenced to wend their way towards the export building where the convention is being held.

The scenes in and about the convention hall for an hour and a half before the time set for the assemblaged to be called together were animated. The delegates and others who were fortunate enough to secure tickets of admittance—some of the latter being compelled to pay good round prices for the privilege of possessing the valued paste-boards — crowded in through the various entrances in such a volume that the ushers were utterly unable to handle them.

By 10 o'clock the band commenced playing, and the chatter of voices were heard in a thousand different pitches. The first spectacular effect of the session was when at 10:30 the band struck up the tune of "The Star Spangled Banner." Off in one corner of the hall a few of the delegates stood up, and this was the signal for the whole assemblage to do likewise. They remained standing until the last note had died away.

Then someone started a call for Roosevelt. It was taken up in every section of the vast building, and the Rough Riding Governor, whose presence and personality has been the center of all activity and interest for the past three days, was yelled long and loud. Roosevelt was not there, though.

It was just a few minutes after 10:30 o'clock when Senator Lodge, permanent chairman, appeared at the front of the platform, grasped the gavel and called the convention to order. By this time most of the delegates had found their seats, but there was still a great hub-bub over which only those in the front seats could hear the chairman's voice.

The noise died away and then Archbishop Ryan stepped to the front and said an impressive prayer.

At the conclusion of the prayer the chairman called up unfinished business. Former United States Senator Quay, of Pennsylvania, was recognized. He said that he desired to withdraw the amendments to the rules which he proposed yesterday. The amendments were to apportion the delegates according to the present Republican vote, which would materially reduce the representation of the Southern States in the convention. There was no objection to the withdrawal of the amendments, and then the rules, as proposed by the committee, were unanimously adopted.

Senator Foraker, of Ohio, arose and moved that the convention proceed to nominate a candidate for President. The roll call was taken up immediately. The first State called was Alabama.

The chairman of the Alabama delegation arose and stated that they would give way to Ohio.

Of course, this was all arranged beforehand. Senator Foraker, who had been selected to make the nominating speech, arose and commenced the address that was to end in the selection of William McKinley as the Republican nominee for President.

Senator Foraker is a brilliant speaker, and he was at his best this morning. He pictured the record of the Republican party for the past four years in glowing terms, and wove into the address, with masterful oratorical effect, the fact that the credit was due to the man he was about the name for the highest position in the country.

Senator Foraker spoke for sixteen minutes, but just before he concluded his peroration by naming McKinley the vast audience was enthused to a great pitch of enthusiasm and broke forth in cheers that lasted fully three minutes. When the noise had died away Senator Foraker nominated President McKinley. The words of the name of the President were expected, and again the building resounded with thundering cheers, and hats were thrown in the air, handkerchiefs waved and a great demonstration made. It was the first real enthusiasm that has stirred the convention since it opened.

After the audience cheered to a finish over Foraker's nomination of McKinley, the first one to command the attention of the chairman was Gov. Roosevelt.

The Governor arose amid a few handclaps that rapidly became great applause. He began a speech seconding the nomination of McKinley. He talked for some time, every telling point being punctuated with cheers and cries of approval. It was fifteen minutes of twelve when he finished, and was greeted with tumultuous applause.

Governor Mount, of Indiana, followed with another speech seconding the nomination. Before he had finished the audience became impatient and there were frequent cries for a vote.

At 12:46 the roll call of States was commenced, and, as was expected, every one was solidly for McKinley.

At the conclusion of the roll call McKinley was declared to be the unanimous choice of the convention for Presidential nominee.

When the chairman announced the result there was great cheers, but they did not last long. In a moment, however, several of the delegates started marching about the hall headed by the Cincinnatti band and then for a few minutes there was more noise and enthusiasm that had been observed since the convention opened.

When this demonstration subsided, the nominating of a candidate for Vice-President was immediately taken up. All eyes were turned towards Roosevelt as he sat on one of the aisle seats with the New York delegation directly back of the Jerseymen. Roosevelt looked serious, but satisfied.

The first State called was Alabama. The chairman of that delegation said that he desired to give way to Iowa.

Col. Young, chairman of Iowa delegation, arose and nominated Senator Dolliver.

The convention was in a tumult in a moment and there were frantic cries for Roosevelt from every part of the hall. Col. Young evidently anticipated the result, and prepared for a little theatrical effect. When Col. Young's voice could be heard again, he straightened himself up and said that Iowa desired to withdraw her favorite son, Dolliver, in order to place in nomination the adopted son of the Middle West, the Hon. Theodore Roosevelt, of New York.

Then the convention went wild. Senator Depew and Chairman Odell, of New York, reached over and congratulated Roosevelt. Then up jumped Senator Depew and proposed three cheers for Teddy. The responce was led by New York and New Jersey. Every delegate except Roosevelt was on his feet. The band struck up the tune "There'll Be a Hot Time in the Old Town Tonight." Cheer after cheer rent the air. The convention was actually crazy, the only sane man appearing to be the Rough Riding Governor. He was surrounded by a frantic crowd who were shaking hands with him at the rate of a hundred a minute.

The demonstration made by Roosevelt's nomination was carried on for five minutes and finally died out because of the sheer exhaustion of the

[CONTINUED ON PAGE 8.]

PRETTY JUNE WEDDING.

MISS ADA BERTHA CHANDLER BECOMES MRS. DAVID J KRYMER.

Ceremony Celebrated at the Home of the Bride's Parents, Which was Resplendent With Flower.

A charming wedding of the month of roses took place yesterday afternoon, when Miss Ada Bertha Chandler, daughter of Mr. and Mrs. A. E. Hall, of 715 Plainfield avenue, and David J. Krymer, son of Mr. and Mrs. John H. Krymer, of 219 East Fifth street, were married in the presence of about fifty relatives and intimate friends at the home of the bride's parents at 4 o'clock.

The house presented an attractive scene, decorated in complete harmony with the season. In the parlor the prevailing colors were green and white, and were produced through the use of palms, smilax, choice cut flowers and white roses. The dining room was in pink and green. These colors were harmonized in the use of smilax and roses. Green and white were the predominating colors in the hallway.

The ceremony was that of the Episcopal church, and was performed by Rev. Cornelius Schenck, Ph. D, pastor of Trinity Reformed church, where the bride and groom are members. At the appointed hour the bridal party entered the parlor, while Albert Harold rendered the Loehengrin wedding march. The bride was gowned in white mouseline de soie over white silk, accompanied by the groom, followed the bridesmaid, Miss Etta Krymer, sister of the groom, who was gowned in white point d'esprit, and who was accompanied by the best man, Theodore Mantz. The bride carried bridal roses, while the bridemaid carried pink roses.

The party was met in the parlor by the officiating clergyman, and, advancing, the bridemaid and best man took their positions on either side of the bride and groom. The service was beautiful and impressive, and the responses were given in a clear tone.

Immediately after the ceremony, Mr. and Mrs. Krymer received their guests who showered them with best wishes for a happy and successful life's journey. Following the wedding supper the bride and groom left the city to enjoy a trip of ten days. Upon their return they will take up their residence on Liberty street, between Sixth and Seventh streets, where the groom has a house furnished awaiting their occupancy. As they departed from the house there was a shower of rice and flowers, and a royal send off was given them.

Among the gifts received was a handsome embroidered handkerchief from the bride to the bridemaid, and the groom presented his best man with a set of pearl studs. The bride and groom were the recipients of a very large collection of useful and handsome gifts from their relatives and many friends.

Besides those from this city who witnessed the marriage, there were guests from Patchogue, L. I.; Bayonne City; Monroe, Orange county, N. Y. and Middletown, N. Y. After the departure of the newly-married couple, the guests remained and enjoyed a social time.

Federal Grand Jury Sworn In.

(Special to The Daily Press.)

Trenton, June 21.—The new Federal Grand Jury was sworn in at the United States District Court Tuesday. The list of jurors is as follows: Edward E. Gnichtel, George Heinkel and Gustavus A. Schwedes, Newark; Richard C. Oliphant, Nevon J. Loose, Samuel L. King, Jr., and Samuel W. Foster, Trenton; George B. Bergkamp, West Hoboken; Arthur D. Barrows, Ocean City; William S. Connor, Woodbury; Elmer Cowperthwaite, New Egypt; John T. Davidson, William J. Montgomery and Albert Norris, Jersey City; Samuel T. Oliphant, Manahawkin; Edward S. Savage, Rahway; William N. Steward, Englishtown; James Usher, town of Union; Mulford Valentine, Woodbridge, and Josiah W. Ewan, Mount Holly.

Realty Company Elect Officers.

At the annual meeting of the stockholders of the S. D. Drake Realty Company, held at the office of the company, 175 North avenue, yesterday, the following officers were elected for the ensuing year: President, J. D. Loizeaux; vice-president, S. D. Drake; treasurer, Frank S. Runyon; secretary, A. G. Drake; director, J. Wesley Johnson.

Fined $10.

John Scott, an ash and garbage carrier, was arrested in the borough yesterday on a charge of neglect in carrying offensive matter. He was arraigned before Justice Mattison on complaint of the Board of Health, and a fine of $10 was imposed.

Local News on Pages 2 and 3.

TWO MORE JUNE BRIDES

HYMEN KEPT BUSY TIEING NUPTIAL KNOTS YESTERDAY.

St. John's Church in Dunellen the Scene of One of the Weddings—Another in a Borough Home.

To the already long list of June brides, the name of Miss Gypsy Earl, of Dunellen, was added yesterday, when she became the wife of John J. Goff, Jr., of this city. The ceremony, which took place in St. John's church at Dunellen, was performed by Rev. Father Bogaard. The best man and bridesmaid were Samuel Goff, brother and sister of the groom. The ushers were Frank Connors and Frank Rhinhart, of Plainfield.

To the strains of Lohengrin's beautiful wedding march, played by Oscar Green, the party proceeded to the altar where they were met by Rev. Father Bogaard, who performed the ceremony. At the conclusion of the ceremony, the guests repaired to the home of the bride where a reception was held. The popularity of the young couple was shown by the large number of presents which they received, among them being a handsome silver service. They will take up their residence in this city where the groom is is in business.

Beneath a bower of honeysuckle and roses and in the presence of a large number of relatives and friends, Miss Bertha A. Philpott and Ira Gaston were joined in marriage by Rev. V. V. Nicholas, of Mortonville, Pa., last evening, at the home of the bride's grandparents on Westervelt avenue. Franklin Dentz acted as best man and the bridemaid was Miss Mamie Philpott, a sister of the bride. After the ceremony was performed, and a few words of excellent advice given to the young couple by Rev. Mr. Nicholas, they were showered with congratulations.

A reception was held later at which dancing was the feature. Several excellent vocal solos were given by Jesse Perrine. A large number of presents were received by the young couple. The couple will take up their residence on Westervelt avenue. Among the guests present was Mrs. Margaret Philpott, greatgrandmother of the bride, who is over ninety years old.

TARRIED BY THE WAYSIDE.

Old Newark Man Indulged in Too Much Red Eye While on His Way to Philadelphia.

Henry Hamlin, of Newark, a venerable looking old man, with flowing gray hair and beard, was picked up on Front street yesterday afternoon by Patrolman Flanagan. The old man was considerably the worse for strong drink. In the city court this morning Henry explained that he was on his way to Philadelphia and when near the outskirts of Plainfield he had fallen and sprained his arm. To alleviate the pain he indulged in several drinks, which resulted in his coming under the notice of the officer. As the Judge did not wish Henry to miss the convention he suspended sentence and the old man started for Philadelphia in the hope of arriving before the President was nominated.

MISS SUSAN NOBLE DEAD.

Was Born in 1804 and Remembered Troops' Return From War of 1812.

Miss Susan A. Noble, the oldest resident of Roselle, died suddenly Tuesday night at the residence of George H. Watson, in Elizabeth, where she was visiting. She was born in 1804, in Philadelphia. From Philadelphia, in 1812, she went to Westchester, Pa., where she lived for seventy-two years, removing to Roselle in 1884.

Her mind was clear up to within the last two weeks, and she had a distinct recollection of events transpiring in the United States since 1852. She remembered as a child waving a flag on the return of the veterans from the war of 1812, and she saw General Lafayette when he last visited America.

Dr. Rushmore in Washington.

The American Institute of Homoeopathy held the opening exercises of its 56th annual session in the new National Theatre, Washington, Tuesday evening, with a crowded attendance. A membership of 1,900 physicians was reported. New Jersey leads all the states of the Union in its ratio of Homoeopathic to all other practioners, having nearly 16 per cent. Dr. Rushmore, of Park avenue, is in attendance.

Hurt His Leg.

While lifting a large ice-box yesterday afternoon, William Baker, of Watchung avenue, sustained a severe injury to his leg, upon which the box fell. He will be laid up for some time.

NOW TO THE HIGH SCHOOL

GRADUATION EXERCISES OF THE GRAMMAR SCHOOL.

An Interesting Programme Carried Out—Addresses by Professors Gregory and Maxson.

A pleasing affair in connection with the closing of the public schools for the summer vacation was the graduation exercises of the Grammar School Department, of the Plainfield Public Schools, held yesterday afternoon at 3 o'clock in the Franklin School Assembly Hall. There was a large attendance of parents and friends of the schools. The musical numbers by the scholars was under the direction of Charles L. Lewis.

The programme opened with a selection, "Savoy Chapel," by a chorus from the Whittier School. Then followed a declamation, "Our Responsibility in the Philippines," by Senator Albert J. Beveridge, which was given in a masterful style by Harold C. Fenno. A recitation, "Horatius at the Bridge," was given by Mae Everett Anthony in a delightful manner. Frank H. Lock gave a declamation, "The Galley Slave," which won merited applause. The school then sang "Anchored," by Watson. The next three numbers were recitations, "The Passing of Arthur," by Anna Coriell Randall; "A Song of Home," by Jean Douglass; "Contrasted Soliloquies," by Mae Batchelor, all of which were given perfectly. This part of the programme closed with the singing by the school chorus of "With Hearts by Joy Elated," and "The Call to Arms."

Part second of the programme opened with a most excellent address by B. C. Gregory, superintendent of the public schools at Trenton. He congradulated the scholars and praised them for their excellent and proficient work, and gave them some advice to follow as they proceed in the higher studies. After the singing of "Cheerfulness," by the school, Henry M. Maxson, superintendent of the Plainfield schools, made an interesting and pleasing address to the graduates, welcoming them to the High school, and giving them helpful points that will be useful as they advance in their studies.

The scholars then sang "The Duck and the Kangaroo," after which J. B. Probasco, president of the Board of Education, presented the graduates with their diplomas. Before giving the diplomas, Dr. Probasco made a few pleasant remarks to those who will enter the High school next year. The exercises came to a close after the school sang "The Star Spangled Banner."

DEATH OF A YOUNG MAN.

Stephen B. Perrine Unable to Survive Illness With Diabetes.

After an illness of about two weeks the death of Stephen B. Perrine occurred last evening at the home of his parents, Mr. and Mrs. Stephen H. Perrine, of Park avenue. The cause of his death was diabetes.

The young man was born in this city, twenty-three years ago, and had lived here all his life. He was employed for a long time by Harrison Coddington. Beside his parents he is survived by five brothers and two sisters, all of whom reside in this city

Notice of funeral will be given hereafter.

Sulzer in Elizabeth

(Special to The Daily Press.)

Elizabeth, June 21—Congressman Wm. Sulzer, of New York, looking radiant and chipper, spent Friday in this city and had chats with a number of politicians. He also had a conference with City Clerk Manning, who is one of the Jersey delegates to the Democratic National convention. Congressman Sulzer is a candidate for Vice-President with Bryan, and confided the information to his friends here that his boom is in a very healthy condition. The Congressman was born in this town and spent the earlier years of his life here. His mother and brother live at 461 Walnut street, in this city.

Tabby Killed by a Trolley Car.

Captain Brittin, of West Front street, is mourning the loss of a pet cat which had been in his possession for fifteen years. Tabby was so old that she was getting blind and in an unguarded moment she attempted to cross the street yesterday when a trolley car struck her and nine lives were ended all at once.

Feed Wire Burned Out.

The feed wire of the Arlington avenue line burned out shortly after the cars started running this morning leaving one of them stalled near Fifth street. The damage was repaired in about an hour.

Want That Money.

The borough officials would like to receive the balance of the money subscribed toward the opening of Duer street into the city.

PLENTY OF JERSEYMEN.

Local Republicans Attend the Big Republican Convention.

"TICKET, PLEASE" THE CRY

SENATOR KEAN PLACED IN A TRYING POSITION.

Many Plainfielders in the Quaker City Watching the Work of Naming the National G. O. P. Ticket.

(By a Staff Correspondent.)

Philadelphia, June 21.—Now that the Republican National convention is in session, the large delegation of Jerseyites flock daily to the Convention Hall, afterwards spending their spare time at the New Jersey headquarters in the Hotel Lafayette or in viewing the city. There are lively places in Philadelphia this week, but Parlor B, the headquarters of New Jersey at the Lafayette, is not one of them.

Occasionally the leaders wander in, but for the most part they are absent. Of course, the doings of the convention are on everybody's lips, but most of the buttonholing and expenditure of energy has been in an effort to secure tickets to the Convention Hall. Poor Senator Kean! His appearance is the signal for a rush.

"Just a single ticket, Senator," begs a North Jersey Republican. "I simply must have one, John," declares some intimate friend of the Senator.

The Plainfielders have been unusually fortunate and not one will have to return home without a visit to the convention. There is quite a little group of them, and most of them will remain here for today's session.

Former Sheriff Wm. T. Kirk was one of the first on the ground. He has now returned home

The First ward has the strongest representation from Plainfield. It includes Postmaster E. H. Bird, Councilman J. F. Buckle, Councilman R. I. Tolles and Walter Longman, Jr. City Judge Wm. N. Runyon and John Kelly arrived here yesterday morning in time to attend yesterday's session. They returned home late last night. George J. Tobin, Andrew McCardell and Councilman Frank H. Smith are also in attendance.

Among the prominent figures here is Jesse Lawson, chairman of the executive committee of the National Afro.-American Council. Lawson is an old Plainfielder, having graduated from the High School there. He is now located in Washington in the Pension Bureau. He greeted his old Plainfield friends heartily. Lawson is considered one of the brightest and most intelligent colored men at the National Capital and is treated with much consideration by the leaders here.

To all good Jerseymen handsome blue and gold badges have been distributed. They were passed out at headquarters yesterday morning.

Governor Voorhees arrived here yesterday and was made one of the Vice-Presidents of the convention. In the general confusion regarding the Vice Presidental candidate, it was suggested at the Lafayette that the name of Foster M. Voorhees might be presented by Jersey. There is a very small chance of such a thing coming to pass, however. The Jersey delegation will support the administration candidate, who ever he happens to be, and the Republicans at large from that State seem really more interested in getting tickets than they do in taking an active part in the proceedings of the convention.

Despite the rumors concerning the difficulty in securing accommodations here, the Plainfielders are all well taken care of. Councilman Tolles and several of his friends are stopping at the home of one of his relatives, while the rest are quartered at hotels. While the Broad street hostelries are filled to overflowing, there is room in some of the others.

This afternoon is likely to see the work of the convention almost, if not entirely completed, and the Plainfield delegation will probably return tonight or tomorrow at the latest.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Look up the ad of Willett & Son. Their summer footwear are all up-to-date and prices O. K.

—The Odd Ladies' Sewing Circle will meet this evening at the home of Mrs. Andrew Cox, of West Second street.

—A fair for the benefit of the babies' camp will be given on W. J. Roome's lawn, 41 Sycamore avenue, Saturday afternoon.

—The Eastern Bottling Association will take possession of their new building corner of Central avenue and West Second street, July 1st.

—Mizpah Lodge, No. 1, U. O. of I. O. L., will hold a social tomorrow evening at the home of Mr. and Mrs. Henry Angleman, East Fourth street.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

THEATRICAL.

With three threatres with are kept open thoughout the year, F. F. Proctor is enabled, at all times, to present to theatregoers of New York city the best attractions in continuous vaudeville. At Proctor's Twenty-third Street Theatre, Proctor's Fifth Avenue Theatre and Proctor's Palace, a pleasing programme is given week after week and the patrons of these three houses are sure of finding the best things obtainable in the vaudeville line. The opening of Proctor's 125th Street Theatre about September 1st, will afford the Harlem patrons of refined vaudeville their first opportunity to enjoy continuous vaudeville as it is given at the other Proctor theatres in New York; in other words, with precisely the same elegance and comfortable surroundings which govern at Mr. Proctor's other houses. At Proctor's Twenty-third Street Theatre, week of June 25th, the features are: Victory Bateman and Harry Mestayer in W. S. Gilbert's, "Sweethearts;" Little Fred, European animal act; Bachelor's Club, novel singing quartette. At Proctor's Fifth Avenue Theatre, week of June 25th, are: Georgia Gardner & Co. in a new comedietta; Jennie Yeamans, the New York favorite; Zeno, daring horizontal bar performers; Phyllis Allen, contralto; Caswell and Arnold, acrobatic girl and clown.

THIS WALL MUST COME DOWN.

High Court Decides Contention Over a Property.

(Special to The Daily Press.)

Somerville, N. J., June 21.—The Court of Errors and Appeals has reversed the decision of the Chancellor in the case of Meribah Todd against William A. Staats of this place. The suit was over the question whether a lane between the two properties belonged to Staats absolutely, or whether the Todd property had the right to use it.

Staats started to build a business block and encroached two feet on the ane. John A. Frech, counsel for Todd, got an injunction and the work of building was stopped all last summer. Finally the Chancellor decided in favor of Staats and he finished his building, which is now occupied.

According to the decision of the Court, he will have to take down his last wall and rebuild on the edge of the lane, entailing great expense.

SEARCHLIGHTS FOR LOVERS.

Founder Bradley Will Stop "Spooning" on Boardwalk.

(Special to The Daily Press.)

Asbury Park, June 21 — Founder Bradley is determined to abolish the practice of "spooning" on the beach and boardwalk. He has long railed against the too osculatory-inclined and has discovered that only searchlights can accomplish the end he desires.

He will, therefore, place extra lights at advantageous places. Already he has provided the Fifth avenue pavilion with half a dozen glaring lights. This pavilion was always the trysting place of lovers, but will be such no longer.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

PLATFORM MADE.

Second Day of Republican National Convention.

NOMINATIONS DEFERRED

McKinley and Roosevelt Will B the Ticket.

SPEECH BY CHAIRMAN LODGE.

Survivors of the Convention of 1856, Headed by Senator Hawley, Given an Ovation — Fairbanks Reads the Platform, Which Is Warmly Approved—Roosevelt Indorsed by Senator Hanna.

PHILADELPHIA, June 21.—President McKinley was not renominated at the session of the Republican national convention yesterday, but today will witness in all probability the unparalleled spectacle of both the presidential and vice presidential candidates being nominated by acclamation. Senator Hanna has thrown up the sponge. He found he could not stem the tide of the popular favorite without using the direct influence of the administration at Washington, and this he could not get. Possibly even with it he might have failed, but without it the task was hopeless. The president would have no hand in an effort to control the convention. He made known directly to Mr. Hanna his wish that the will of the convention should not be thwarted, and when the unequivocal word came Mr. Hanna reluctantly abandoned the fight. With his retirement from the contest against the Empire State governor both nominations could have been made before the convention adjourned yesterday. The original programme was to renominate McKinley yesterday and to nominate the candidate for vice president today, but the Republican national committee had made a

HENRY CABOT LODGE.

compact with the local Philadelphia committee to keep the convention here for three days, and it was feared that if the nomination for president was made the convention might take the bit in its teeth and wind up the proceedings before dark.

Again Governor Roosevelt carried off the honors. His entrance was the signal for the most pronounced demonstration of the session. It was as dramatic as that of yesterday and was practically a repetition of his experience then.

Senator Lodge—young, brilliant, already famous as scholar, statesman and historian—made a fine figure as he delivered his address as permanent chairman. His finely poised head, close cropped iron gray beard, delicately chiseled features and slender, athletic frame were clearly outlined as he faced the convention. His voice, though resonant, has a down east raspiness, but his delivery is pleasing and forceful, and his speech was the scholarly, clear cut effort expected of him.

The most striking incident of the day was the appearance on the stage of 15 of the survivors of the original convention held in Locust street, in 1856, in this city. All the stirring memories of the exciting days when the country was on the verge of the great bloody conflict over slavery welled up as those old lovers of liberty faced a new generation bearing in their hands the faded, tattered flag of a generation that has passed into history.

Senator Hawley of Connecticut was the only one of the 15 who still holds a prominent place upon the stage of the present. The cheer that went up at sight of them shook the building. It rose again even more tumultuously when their spokesman announced their unwavering allegiance to the party they had helped to bring forth.

THE PLATFORM.

Senator Fairbanks, chairman of the committee on platform, presented that document, which met with warm approval. It is a pronounced indorsement of President McKinley and his administration.

The financial and revenue planks of the platform indorse the action of congress and the executive on the currency question and the tariff.

The platform commends the Republican party in maintaining the efficiency of the civil service, favors the early admission to statehood of New Mexico, Arizona and Oklahoma, favors construction, ownership, control and protection of an isthmian canal by the government; asks for the establishment of a department of commerce and industries, commends the policy of an open door in China and suggests the reorganization of the consular service. It favors the public improvement of highways, the extension of rural free delivery and the reclamation of arid lands. It commends the part taken by this government in The Hague peace conference and says: "We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of The Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African republics. While the American government must continue the policy prescribed by Washington, affirmed by every succeeding president and imposed upon us by The Hague treaty of nonintervention in European controversies, the American people earnestly hope that a way may soon be found, honorable alike to both contending parties, to terminate the strife between them.

Some of the more important planks in the platform follow:

"We renew our faith in the policy of protection to American labor. In that policy our industries have been established, diversified and maintained. By protecting the home market competition

WILLIAM M'KINLEY.

has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates—higher now than ever before—and always distinguishing our working people in their better conditions of life from those of any competing country. Enjoying the blessings of the American common school, secure in the right of self government and protected in the occupancy of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world. We favor the associated policy of reciprocity so directed as to open our markets on favorable terms for what we do not ourselves produce in return for free foreign markets.

"In the further interest of American workmen we favor a more effective restriction of the immigration of cheap labor from foreign lands, the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor as against contract convict labor and an effective system of labor insurance.

"We renew our allegiance to the principle of the gold standard and declare our confidence in the wisdom of the legislation of the Fifty-sixth congress by which the parity of all our money and the stability of our currency upon a gold basis have been secured.

"We recognize that interest rates are a potent factor in production and business activity, and for the purpose of further equalizing and of further lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season and of all sections to be promptly met in order that trade may be evenly sustained, labor steadily employed and commerce enlarged. The volume of money in circulation was never so great per capita as it is today.

"We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly Republican legislation may seem to have secured the country against the peril of base and discredited currency, the election of a Democratic president could not fail to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The Democratic party must be convinced that the American people will never tolerate the Chicago platform.

"We recognize the necessity and propriety of honest co-operation of capital to meet new business conditions and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices and favor such legislation as will effectively restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce.

"The Dingley act, amended to provide sufficient revenue for the conduct of the war, has so well performed its work that it has been possible to reduce the war debt in the sum of $40,000,000. So ample are the government's revenues and so great is the public confidence in the integrity of its obligations that its newly funded 2 per cent bonds sell at a premium. The country is now justified in expecting and it will be the policy of the Republican party to bring about a reduction of the war taxes.

"In accepting by the treaty of Paris the just responsibilities of our victories in the Spanish war the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the West Indies and in the Philippine Islands.

"That course created our responsibility before the world and with the unorganized population whom our intervention had freed from Spain to provide for the maintenance of law and order and for the establishment of good government and for the performance of international obligations. Our authority could not be less than our responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection and to confer the blessings of liberty and civilization upon all the rescued peoples.

"The largest measure of self government consistent with their welfare and our duties shall be secured to them by law. To Cuba independence and self government were insured in the same voice by which war was declared, and to the letter this pledge shall be performed."

THE VICE PRESIDENCY.

Hanna Comes Out In Favor of Roosevelt.

PHILADELPHIA, June 21.—Senator Hanna late last night authorized the following statement:

"The administration has had no candidate for vice president. It has not been for or against any candidate. It has deemed that the convention should make the candidate, and that has been my position throughout. It has been a free field for all. In these circumstances several eminent Republicans have been proposed, all of them distinguished men with many friends.

"I will now say that on behalf of all of those candidates, and I except none, that I have within the last 12 hours been asked to give my advice. After consulting with as many delegates as possible in the time within my disposal, I have concluded to accept the responsibility involved in this request. In the present situation, with the strong and earnest sentiment of the delegates from all parts of the country for Governor Roosevelt, and since President McKinley is to be nominated without a dissenting voice, it is my judgment that Governor Roosevelt should be nominated for vice president with the same unanimity."

This announcement of Senator Hanna was made after a long consultation with many leaders of the party. He called all the newspaper men into one of the rooms where the consultation had taken place and read it from manuscript.

Just before the statement was given out Chairman Odell of New York spent a few minutes in the room, and when he came out he said: "The whole matter got into a snarl and was left to Senator Hanna to arbitrate, and his decision is that the vice presidency should go to New York and Roosevelt should be nominated."

Immediately following Mr. Hanna's announcement of the withdrawal of all the other candidates and the decision to nominate Governor Roosevelt for vice president Mr. Dolliver authorized the following statement:

"My candidacy has been wholly unsolicited. I have not up to this moment spoken one word seeking the nomination to even a member of my own delegation. Tonight Mr. Long, Mr. Scott and myself placed our candidacies in Mr. Hanna's hands to dispose of as he saw fit. It was agreed that our names would not be presented to the convention, and upon my request Lafe Young of my state will

GOVERNOR ROOSEVELT.

place Mr. Roosevelt's name in nomination in behalf of the nation.

"I believe that the name of Governor Roosevelt on the ticket will give it greater strength and enthusiasm than the name of any other man in America."

The programme is to have Iowa withdraw Dolliver and nominate Roosevelt. Massachusetts will withdraw Long and second the nomination. Probably other states with candidates will follow suit.

Roosevelt himself knows that he will be nominated and will make no further statement, nor is there the least probability that he will decline the nomination when made. This is so well understood that delegation after delegation yesterday, either by direct vote or by a general understanding among themselves, came over to him and made his nomination assured, no matter how brought about.

Lieutenant Governor Woodruff told some of his friends last night that he was very happy over the situation. He declared that the unanimous indorsement for vice president given to him last night by the New York state delegation puts him in direct line for the nomination for governor of the state of New York in September next. Some of the men who know what is going on remarked that the Hon. Timothy was still a little ahead of the game, as he would ascertain as time progressed.

Platt Comes Home.

PHILADELPHIA, June 21.—Senator Platt left for New York city early yesterday afternoon. He made a remark before leaving that he did not care who was nominated for vice president. Senator Platt will not return and will not take any further part in the convention because of his impaired health. It is said Platt has had several fainting spells. Quay, with Odell's help, will be the real Platt leader of the New York forces here now. Depew has also gone home to attend the Webb funeral.

Bryan Fells a Pine Tree.

MINOCQUA, Wis., June 21.—William Jennings Bryan and his party took a trip up Lake Tomahawk yesterday and were the guests of the owners of the Brooks & Ross lumber camp. While in the camp Mr. Bryan ate with the lumbermen. He also felled a three foot pine tree and on being called upon to make a speech mounted the stump and proceeded to talk. He said that he had often been accused of making stump speeches, but that this was the first time that he had ever made a genuine one. The party arrived here at 6:20 o'clock, ate supper at the Hotel Darrow and sailed forth again in search of the gamey muskellunge. Colonel Bryan will finish his outing here today, when he will depart for Chicago.

Accidental Shooting.

NEW HAVEN, June 21.—George Goering, aged 23, employed at the Winchester Repeating Arms company, was shot and instantly killed by George Yanz, aged 30, who is also employed at Winchester's, late yesterday afternoon. The shooting occurred in a wooded lot in the rear of Yanz's home on Goodrich street. After the shooting Yanz proceeded to the police station and gave himself up to the authorities. He claimed the shooting was accidental. Mrs. Yanz, who was with Goering at the time, also maintains that the shooting was accidental.

Cleveland Goes to Buzzards Bay.

GREENWICH, Conn., June 21.—Ex-President Grover Cleveland, who has been the guest of Mr. E. C. Benedict here since last Friday, left today with his wife and children for Buzzards Bay, where they will spend the summer. Mr. and Mrs. Cleveland were accompanied on their trip by Mrs. Folsom, mother of Mrs. Cleveland.

I. H. BOEHM. 109-113 West Front Street.

There are many reason's why you should come to this store for your summer requisites. A very suggestive one is furnished by the fact that you always find every department in the store plentifully supplied with the right goods at the lowest possible prices.

REBELLION SPREADS

Foreign Legations Reported Safe In Peking.

WILD STORIES FROM SHANGHAI

The Arrival of Admiral Seymour at Peking Still Unconfirmed, but Advices From Shanghai Tell of His Arduous March.

LONDON, June 21.—The reports of Admiral Seymour's arrival at Peking and of the safety of the foreign legations, originating from Chinese sources and cabled to this city from Shanghai, are still unverified. However, the Italian consul at Shanghai has wired to the Italian foreign minister, Marquis Visconti-Venosta, that the legations are safe.

The rebellion is spreading far and wide. There is an impression in diplomatic circles here and on the continent that the allies have not yet grappled with the situation effectively and that even 50,000 troops would be powerless to do much to control 4,000,000 square miles.

The latest story sent out by the Shanghai gossips is that Prince Tuan, president of the tsung-li-yamen, has burned the imperial palace at Peking and murdered the emperor and that the empress dowager has committed suicide.

The effect of the bombardment of the Taku forts as described by the Shanghai correspondents was gory in the extreme nothing less than "rivers of blood" and "mutilated corpses piled up inside the forts."

The Russians guarding Tien-tsin, according to another report, fired artillery and rifles June 15 at a range of 50 yards into dense crowds of attacking Boxers and killed 300.

Japan, according to a dispatch to The Daily Mail from Yokohama, intends to land an expedition at Fuchau.

A news agency dispatch from Shanghai, dated June 20, says:

"After an arduous march and frequent fighting with the Chinese Vice Admiral Seymour arrived at Peking Sunday afternoon. On five occasions the Chinese attacked the column in great force. There were many mounted men among the Chinese, but most of the natives were badly armed. At times they fought with admirable courage and bravery. The losses of the foreigners were trifling.

"The exact state of affairs inside Peking it is impossible to describe, in view of the many conflicting reports, nothing having been received from the legations or foreigners there."

Telegrams from Tien-tsin, dated June 15 and forwarded by post, say that the foreign missionaries at Pao-ting-fu are safe, being guarded by the troops of General Nieh. Twenty-five Americans, with a Gatling gun, have arrived. In the foreign settlement the chapels have been burned, and the mission stations of the American Board of Foreign Missions of the Methodist Episcopal church and of the London Missionary society are practically in the hands of the Boxers.

The local authorities are paralyzed. Sympathetic mandarins are ordered out in sedan chairs and compelled to "kotow" to the Boxers in the streets. All foreign servants are deserting their masters.

The United States gunboat Monocacy the Russian battleship Navarin and the French cruiser Pascal have arrived. The German protected cruiser Kaiserin Augusta has departed for Taku.

The Shanghai correspondent of The Times, telegraphing yesterday, says:

"An American transport from Manila is due at Taku today. Countless rumors emanating from native sources add to the local tension, and the wealthy native merchants are panic stricken."

Word From Admiral Kempff.

WASHINGTON, June 21.—The navy department has just given out the following statement regarding the contents of a dispatch from Admiral Kempff brought from Taku to Chefu and forwarded by Commander Taussig of the Yorktown:

"The department has received a cablegram from Admiral Kempff, dated June 20. He says the Taku forts were captured by the other foreign forces and that heavy firing was heard at Tien-tsin on the evening of the 17th. He is making common cause with the foreign powers for general protection. There are 300 American ashore. On May 31 the number of foreign troops at Peking was 430. There are 6,000 men ashore now at Chefu, and about 3,000 troops, Russian, German and English, have just arrived."

Police Still Needed In St. Louis.

ST. LOUIS, June 21.—The only incident to create a stir in town yesterday was Governor Stephens' visit for the purpose of discussing the general strike situation and of determining whether or not the time was opportune for the discharge of the 2,500 possemen who have been guarding the property of the St. Louis Transit company and maintaining order for a month past. The governor called on the police officials during the day and after a short conference declared that the dynamiting of street cars at night must be stopped if it takes the entire police force, working night and day to do it. The governor also recommended that the posse comitatus be kept in service until the danger from dynamiters is over. It was especially necessary, in his opinion, to keep the force intact until after the Fourth of July.

The Criminals Cannot Land.

WASHINGTON, June 21.—Assistant Secretary Taylor has rendered a decision adverse to the appeal of James Fitzharris and Joseph Mullet from the decision of the immigration officials at New York, who held them for deportation on the ground that, having been convicted of a felony in connection with the murder of Lord Cavendish and Thomas Henry Burke in Phœnix park, Dublin, in 1882, they cannot be permitted to land in this country under our immigration laws. The men will be deported Saturday.

Governor Hodgson Well.

CAPE COAST CASTLE, June 21.—The garrison at Kumassi is still on half rations. Sir Frederic Hodgson, governor of the Gold Coast Colony, and his wife, who are besieged there, are well. The Ashanti ammunition is giving out. Three hundred natives were killed in the fight between the rebels and the West African frontiersmen under Captain Wilson on June 16.

Killed In a Runaway.

ALBANY, June 21.—Miss Tucker, daughter of the late Luther G. Tucker, founder and proprietor of The Country Gentleman, was killed yesterday near the family summer home at Altmont. She was driving a horse which became frightened and ran away, throwing her out of the phaeton.

Watch Your Kidneys!

They are Filters For the Blood. Impure Blood Causes Disease.

Few people understand the important part performed by the kidneys in filtering the blood. As the blood in its circulation through the body passes through the kidneys, its impurity is left in the kidneys, which in turn empties the secretions into the bladder in the form of urine.

If the kidneys are blocked and filtration of the blood from poisonous or diseased germs is prevented thereby, the result is one or all of the following: Sleeplessness, Nervous Prostration, Weak Back, Pains in the Back and Loins, Scalding Dark and Cloudy Urine, Dizziness, Rheumatism, Diabetes, Congestion of the Kidneys, Bright's Disease and Inflammation of the Bladder.

Unhealthy Kidneys Must Be Treated

A medicine is needed that will properly promote the filtration of the blood and check the over-secretion of urine.

DR. HOLTIN'S KIDNEY TABLETS

is the only remedy absolutely and unconditionally guaranteed to cure every form of Kidney or Bladder complaints. Price 25 and 50 cents. Prepared only by

BRIDGE WORK

in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Carrie Haffner, of Somerset street, is confined to her home by illness.

Thomas McDonald, of the borough, is visiting out of town friends for a time.

Letter-carrier Robert Tingley is enjoying his annual vacation of fifteen days.

Mrs. Charles Place, of Grove street, has gone to Peekskill, N. Y., to visit her daughter.

William Trust, who has been visiting for some time in Pennsylvania, has returned home.

Miss Koch, of Scranton, Pa., is spending a short time with her sister, Mrs. Adam Fritz, of Somerset street.

Arthur Smith, of Grandview avenue, has returned from Rutgers College, where he has just closed his first year.

A baby daughter arrived at the home of Mr. and Mrs. W. E. MacClymont, of Westfield, Tuesday evening.

Mrs. W. R. Coddington and family, of Sandford avenue, have gone to their summer home near the Passaic river.

The condition of George Serrell, who was injured last Tuesday at Stelton, continues to improve, and no serious results are now looked for.

Frank McDonald, who has been employed at the City National Bank has resigned his position to accept one with the Prudential Insurance Company.

Word has been received from Boston that Mrs. J. W. Richardson, wife of Rev. J. W. Richardson, is steadily improving from a recent delicate operation.

The employes of Woodhull & Martin will begin their summer vacations next Monday. Miss Nettie Young, of Central avenue, will be the first and will spend hers with relatives at Reaville.

The Misses Catherine and Maria Carty, of this city, attended the forty-seventh annual graduation exercises of Manhattan College, which were held in Carnegie Music Hall, New York, Tuesday night, at which a friend Phillip McGrath, received the degree of Bachelo of Arts.

REDUCED RATES TO CHICAGO.

Via Pennsylvania Railroad for the National Prohibition Convention, June 27-28.

For the benefit of all persons wishing to be in Chicago during the National Prohibition Convention, the Pennsylvania Railroad Company will sell round-trip tickets to Chicago at rate of one fare for the round trip. Tickets to be sold and good going June 25th and 26th, and returning, after proper validation by the Joint Agent of the terminal lines at Chicago, leaving Chicago to June 29th, inclusive. A fee of twenty-five cents for each ticket will be collected by the Joint Agent when tickets are validated for return passage. 6-12-15-21.

Miss Addie Weaver, of West End Park, is entertaining company from Elizabeth.

William Newcorn, of West Front street, returned yesterday from Philadelphia, where he has been attending the G. O. P. convention.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

Samuel Terry, of East Front street, a veteran of the Civil War, and a member of Winfield Scott Post, No. 73, G. A. R., who has been a great sufferer from paralysis, has been sent to Muhlenberg hospital, where he will be looked after by the Post.

S. SCHEUER & SONS,

239 W. Front St., PLAINFIELD, N. J.

MINNESOTA DEMOCRATS.

Large and Harmonious Convention Declares For Bryan and Towne.

MINNEAPOLIS, June 21.—The Democratic state convention yesterday was not only one of the largest ever held by the party in this state for merely delegate purposes, but was the most harmonious known for years.

Charles A. Towne of Duluth, Populist candidate for vice president, was given the heartiest kind of an indorsement, and the delegates to Kansas City were instructed to support him.

The resolution containing this was put through the committee on resolutions with hardly any friction, only two members venturing the opinion that perhaps it would be best not to go too far in the matter. On the floor of the convention the resolutions were adopted without a dissenting vote. The threats to bolt the Towne proposition did not materialize. The antis discovered in the day that they were in hopeless minority.

The resolutions adopted favor the free coinage of silver at "the existing legal ratio," which virtually means 16 to 1; denounce trusts, demand that trust articles be placed upon the free list, express sympathy with the Boers, demand independence for Cuba, ask the repeal of war taxes, favor postal savings banks, favor the income tax, favor election of senators by direct vote and the system of the initiative and referendum. The present national administration is denounced, and an alliance with Great Britain is laid at its doors.

The convention was warm in its allegiance to William J. Bryan and Governor John Lind, and the governor was heartily applauded when called to the platform for a speech.

CONDENSED DISPATCHES.

The University of Pennsylvania athletic team sailed for Europe.

Fire did $35,000 damage in the livery stable of M. M. Mullin at Newark, N. J.

One life was lost and six persons were badly burned in a hotel fire at South Bend, Ind.

One million one hundred thousand dollars in gold bars was removed from the subtreasury for shipment to Europe.

The south polar expedition promoted by Captain Oscar von Bauendahl of Berlin will start at an early date from Hamburg.

At the request of the four national banks of Los Angeles the comptroller of the currency has designated Los Angeles a reserve city.

Irish Nationalists.

DUBLIN, June 21.—The Nationalist convention which opened here under the presidency of Mr. John Redmond, chairman of the United Irish Parliamentary party, concluded its sessions yesterday. The convention adopted a constitution for the United Irish league, the provisions including the abolition of the right of the crown to challenge jurors in political cases except for cause, the repeal of the treason felony and arms acts, educational equality for Catholics, compulsory extension of the laws providing agricultural laborers with cottages and acre allotments and similar demands.

Wheat Takes a Jump.

CHICAGO, June 21.—Under an enormous buying pressure caused by the northwest crop situation wheat yesterday advanced 3¾ cents over Tuesday and held every fraction of it to the close. The other markets were helped by the wheat strength, corn closing 1¾ cents, oats 1 cent and provisions 5 to 7½ cents higher. Drought had ruined half the wheat crop of the fruitful northwest, and now excessive heat, according to the dispatches, is burning up the stinted remainder. A message from that unfortunate part of the country said the temperature was 100 in places.

Florida Democrats.

JACKSONVILLE, Fla., June 21.—The state Democratic convention adopted a platform the main features of which are the indorsement of William J. Bryan for president, the denunciation of trusts, demand for the repeal of all war taxes, 16 to 1 ratio of coinage, governmental control of corporations, especially railroads; direct vote for United States senators, a graduated income tax and reduction of the tariff to a revenue basis.

Steel Plant Closed.

COLUMBUS, O., June 21.—The plant of the National Steel company in this city, employing nearly 500 men, has closed down. Local officers of the company say they do not know the reasons for the suspension of operations or how long it will continue. They are simply acting in accordance with instructions from the New York office.

Cavalry For the Philippines.

WASHINGTON, June 21.—The war department is informed that Troops I and L, Sixth cavalry, 3 officers, 196 enlisted men and 154 horses, have left Fort Sill, Neb., en route to the Pacific coast and the Philippines. The department is also informed that Troop C, Eighth cavalry, 100 enlisted men and 15 horses, arrived at Fort Sill on the 15th inst. to replace these troops.

Trouble Expected at Canton.

HONGKONG, June 21.—The Chinese expect trouble at Canton on the departure of Li Hung Chang for Peking. It is rumored that the forts have received orders to fire on any foreign warship attempting to pass. A gunboat is kept here under steam in case of emergency. There is no warship at Canton.

Weather Probabilities.

Warmer; fresh southwesterly winds.

AMNESTY FOR ALL.

President McKinley's Offer to Filipinos.

PROCLAIMED IN MANILA TODAY.

It Is Believed That Aguinaldo Will Accept the Terms—A Majority of the Marines at Cavite Preparing to Go to China.

MANILA, June 21.—General MacArthur will today formally announce President McKinley's order of amnesty. Buencamino, Paterno and other prominent Filipino leaders are greatly pleased, as they believe that under the amnesty they can bring about the surrender of Aguinaldo, who, they declare, is ready and willing to consider the peace platform adopted by the Filipino leaders with a few insignificant exceptions.

Several meetings of the leaders were held quietly in Manila last week. They are encouraged by the progress they are making with the natives and the authorities here. An important meeting will be held, at which the amnesty decree will be read.

It is reported from Lourenco Marques that a resident of Komatipoort has been arrested and shot by the Boers for complicity in the breakdown of the Malana bridge.

President Kruger's unstamped sovereigns have been offered for sale in Lourenco Marques at 20 shillings.

A member of the British house of commons who has had an important connection with South Africa is telling a story of a telegram alleged to have been received from Cape Town which says that Mr. Kruger has really escaped and is already on the sea bound for Europe and that the person occupying the executive car is not Mr. Kruger, but is a substitute.

It is the consensus of opinion of the foreigners, the better class of the Filipinos and the Spaniards that Aguinaldo will be in Manila shortly as the result of the decree and of the negotiations of the Buencamino party.

Now that the rains have fairly begun life in the country districts is a great and prolonged hardship.

Preparations are being made at Cavite to move a majority of the marines to China in the event that developments there require them.

President's Proclamation.

WASHINGTON, June 21.—Secretary Root said last night that the text of the amnesty proclamation will be made public today in Manila and Washington simultaneously. It will be issued by General MacArthur and is done by direction of the president. The proclamation gives a free pardon to all Filipinos who have participated in the rebellion against the United States, the only condition being that they take the oath of allegiance and acknowledge the sovereignty of the United States government. It excludes no one except those who have violated the laws of war. The proclamation, the secretary said, will speak for itself and will go into effect immediately.

PUSHING BOERS BACK.

British Now at Machadodorp—A Five Days' Truce.

LONDON, June 21.—The British have penetrated Transvaal territory as far as Machadodorp. Passengers who arrived yesterday at Lourenco Marques from the Transvaal assert that heavy artillery was engaged and that the Boers abandoned Machadodorp, retiring northward.

President Kruger is still at Alkmaar. Boer bulletins regarding General De Wet's operations along Lord Roberts' communications assert that two convoys were captured and 300 workmen, with 50 military, taken prisoners.

Advices from Pretoria, dated June 17, say that an official warning has been issued to the effect that any further wrecking of communications will be followed by the demolition of the farms for five miles on both sides.

The Pretoria correspondent of The Daily Telegraph, in a dispatch dated Sunday, says:

"An informal truce for five days is in operation between Lord Roberts and Commandant General Botha."

Porto Rico Accounts All Right.

SAN JUAN, Porto Rico, June 21.—Mr. D. J. Sinclair, postal inspector, has sailed for New York after completing his examination of 70 offices. The accounts were found in perfect order, and no shortages developed. Mr. Sinclair expressed himself as pleased with the general efficiency of the postmasters installed prior to his arrival. The date of the first session of the executive council has not been fixed. Governor Allen is awaiting the arrival of Messrs. Russell and Brumbaugh before setting a day. He is anxious to meet the council before returning to the United States. It is not likely that this can be arranged before July.

Brown University Wins Big Gift.

PROVIDENCE, June 21.—After considerable anxiety on the part of the officers of the corporation of Brown university during the past few weeks the announcement is made that cash and pledges have been received amounting in the aggregate to $1,096,106. Only a week ago over $100,000 was lacking to secure to the college the conditional gift of $250,000 from John D. Rockefeller.

New York Markets.

NEW YORK, June 20.—FLOUR—State and western strong, but held much too high for buyers; Minnesota patents, $4.15a4.45; winter straights, $3.70a3.85; winter extras, $2.65a3.10; winter patents, $3.85a4.15.

WHEAT—Excited and very much higher this morning on a big speculative demand inspired by bullish northwest crop news and unexpectedly strong English cables; July, 83¼a84 7-16c.; September, 84¼a85⅜c.

July 6—Y. M. C. A Boys' Camp at Lake Champlain.

Anti-Imperialist Ideas.

A recent issue of The Christian Advocate contained a long article on "Some Thoughts of an Anti-Imperialist," which was written by W. H. Larrabee, of this city. Mr. Larrabee takes a vigorous and strongly argumentative view of the side of the question contrary to the trend of events as directed by the present administration at Washington. After reviewing all the things that led up to the present state of affairs in the Philippines—in which he shows a thorough and comprehensive knowledge of historical events, their cause and effect—Mr. Larrabee writes as follows about the question of what should be done by the Government other than what it is proposed to do by the powers that be in Washington:

The question of what we are to do under the circumstances is asked, as if it were a difficult one. There is but one right course to pursue when one is doing wrong; it is to stop. Let the war against the Philippine republic be stopped at once. To say that we are in it and must see it through is preposterous. We may battle with all the nations to the end, and ought to if it is necessary, in defense of American principles, but must not fight for an instant in contradiction of them. The people of the Philippine Islands have an organized government, in peaceful operation wherever our armies have not carried disorder. The testimony to their competency to govern themselves is abundant and strong. If, having recognized them, we wish to do them a good office, we can give them the moral support which has proved effective wherever we have applied it, and, adopting a suggestion of President Jordan, lend them "our wisest counselors; not our politicians, but our jurists, our teachers, with foresters, electricians, manufacturers, mining engineers and experts in the various industries."

This is substantially what we did for Japan, Liberia and the Sandwich Islands till we stole them, and might do, in entire harmony with our Constitution and American principles, for any people whom we could help thereby.

When Admiral Dewey said that he would like to be President if the people wanted him to be, the New York Herald came out in a double-leaded editorial and proclaimed that Dewey was the man to save the country. Two weeks later than that, after the excitement over Dewey's announcement had dwindled, the Herald boldly proclaimed—this time also with double leads—that the only honest and logical course for the country to follow would be to re-elect President McKinley. That seemed to be the stand of the Herald until yesterday when an editorial appeared in the paper vigorously stating that the only man to step in and save the country from going to the dogs was the Hon. Grover Cleveland. Thus it is that within a few weeks the Herald has had three distinct choices for the Presidency. If it keeps on in the same way for the next three months it is not at all impossible that Col. Bryan may yet come into its good graces before next November.

Six State Senators will be elected this fall to succeed five Democrats and one Republican. The Republicans say they will elect at least three, and, perhaps, four. The counties where the vacancies occur are Cape May, Burlington, Hunterdon, Middlesex, Passaic and Sussex. With harmony as to the nominations, the Republicans can safely rely on Burlington and Cape May. Middlesex, Sussex and Hunterdon, under ordinary conditions, are safely Democratic, and Passaic is debatable ground. A Trenton correspondent says that "much depends on the condition of the Democratic party as to the result of the contests. Were that party to make an aggressive fight *and back it up with the sinews of war*, then it could be successful in at least four of those counties. It must be admitted at the start that the Republicans have brighter prospects for victory, because of their splendid organization and their ability to raise all the campaign funds they need."

The visit which Governor Voorhees made to Europe was certainly a "flying one" in nearly all respects. An instance of it is shown in the fact that Governor Voorhees spent just two hours at the Paris Exposition. He came away with a not too glowing account of what he saw there. He says that he was never so disappointed in all his life, and that the Paris Exposition does not compare with the World's Fair in Chicago. More than anything else the Governor came back convinced that there is no country which has the good-all-around qualities of the United States.

In eleven National conventions of the Republican party New York has received the nomination for Vice-President four times and New Jersey twice. The other States which have been recognized by vice presidential nominations are Massachusetts, Illinois, Indiana, Maine and Tennessee.

National conventions only come once in four years, and Governor Voorhees evidently believes that the old rule "better late than never" is a very good one to follow out on occasions of this kind.

It is said that Congressman Daly has been assured of a renomination in the Seventh district. As a matter of fact no one has attempted to dispute his right to it.

Col. Roosevelt has accepted the inevitable and will be President McKinley's running mate.

Now who will Tom Platt trot out for a Gubernatorial candidate in New York State?

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

With Somerset urging Samuel S. Childs as a Democratic candidate for Congress this fall; Surrogate Crater being groomed for the race in Monmouth, and James Deshler getting "a move on" in Middlesex, it is small wonder that the astute Senator Reed is offering no vigorous protest to Congressman Howell's aspirations for another nomination. If Mr. Howell is willing, he can get enough Congressional nominations this year to last him a lifetime, and they won't come high, either.—Somerville Messenger.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Chief Doane has just received a large French poster from August Saltzman, who is in Paris, making announcement of an exhibition by the French fireman at the exposition. One of the latest automobile fire engines is shown, which seats about six men beside the apparatus.

* * * * *

The public fountain on North avenue, erected recently, has been changed so that instead of pushing a button to get a drink of water, the water is allowed to run constantly. The small boy wasn't doing a thing to that button, hence the change. Some people believe that the water should run constantly in the receptacle reserved for horses to drink instead of working automatically, as at present. An argument in favor of this change is that when the water is allowed to stand for any length of time it becomes very warm in the summer time and is not always fresh.

—The addition being built to St. Joseph's church in the borough is rapidly nearing completion. It will be used to accommodate the Sunday-school children.

Miss Coleman, daughter of Major and Mrs. F. W. Coleman, of the Netherwood Hotel, has just returned from a pleasant stay in Cuba.

Washington, D. C.

Genesee Pure Food Co., Le Roy, N. Y.:

Gentlemen:—Our family realize so much from the use of GRAIN-O that I feel I must say a word to induce others to use it. If people are interested in their health and the welfare of their children they will use no other beverage. I have used them all but GRAIN-O I have found superior to any, for the reason that it is solid grain.

Yours for health, C. F. MYERS.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar dumpee? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, June 21—St. John's church was filled for the second time yesterday afternoon, when Miss Ellen May Kelly, daughter of Mr. and Mrs. Bartholornew Kelly, of Dunellen, and Charles Servie Tharp, of Bound Brook, were united in the bonds of matrimony by Rev. Father Dietrich, of Bound Brook. The best man was James Brady, of Bound Brook, and the bridesmaid was Miss Margaret Kelly, a sister of the bride. The ushers were George Hague, of Plainfield and Corneilius Luttman, of Bound Brook. At the conclusion of the ceremony the guests proceeded to the home of the bride where a reception was held. The young couple expect to go to Philadelphia on a wedding trip, at the conclusion of which they will take up their residence in Bound Brook.

The graduation exercises of the Whittier School will be held in the Presbyterian church this evening. Four essays will be read and an address will be given by State Superintendent Baxter. Diplomas and prizes will be presented by the president of the Board of Education.

Mr. and Mrs. H. J. Stitson, H. J. Stitson, Jr. and Miss Lottie Stitson, of Bayonne, stopped at Taylor's Hotel yesterday. They are on their way to Lebanon where they will spend the summer.

Mr. and Mrs. James Manning, of Trenton, are visiting the latter's parents, Mr. and Mrs. John Runyon, of Washington street.

Mrs. J. B. Terry and Mrs. John Price, of Brooklyn, are the guests of Mrs. William H. Terry.

Ludlow Frazee has completed the decorating of Herbert Williams' house on Fairview avenue.

Miss May Apgar is spending a week with her sister, Mrs. Sherman Cooley, of Flemington.

Mrs. Ferdinand Hock, of Somerville, spent yesterday with her brother Joseph Maier.

Adam Dealaman was in Philadelphia yesterday attending the National convention.

Miss Pauline Williams, of Warrenville, is visiting her sister Mrs. Paul Reusch.

Mrs. J. B. Sprowl, of Jersey City, is visiting her sister, Mrs. A. N. Randolph.

An advertised letter remains in the postoffice for Mr. W. A. Priest.

James McMann has resigned his position with Charles Coriell.

M. B. Smalley spent yesterday in New York on business.

T.J. Ronayne visited friends in New York today.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 21.—The stone dealers from Dunellen and vicinity ship large quantities of stone daily by way of the Lehigh Valley Railroad. It is used on roads in the vicinity of Newark and Elizabeth.

A number of the residents of New Market attended the commencement exercises of Rutgers College last night, at which Fred Gaskill, of this place, graduated.

Mrs. Hannah Wilson and Miss Mabel Zephler attended the graduation exercises of the High School at Caldwell, N. J., last night.

W. J. Davis is making a number of improvements in the interior of his residence. William Coriell is doing the work.

Robert L. Pierce left for Philadelphia yesterday where he will remain for a few days.

Mr. and Mrs. Mulford Casterline spent yesterday in Plainfield calling on old friends.

An advertised letter remains in the post office for Oliver P. Sauber.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 21—The residents of Fanwood have once more had their hopes raised regarding the long-promised improvement about the Fanwood station. Wednesday morning a gang of men appeared on the scene and started to tear down E. M. Johnston's coal trestle. Several months ago C A. Smith & Co.'s yard was removed from the railroad company's property, then the work of improvement stopped, and the residents were beginning to think they were never going to see the promised park and lawns. The outlook now is that the company will go right on and in a short time transform the old coal yards into a fine park.

The meeting held in the parlors of the Baptist church last evening for the purpose of organizing a class in stenography was well-attended, and the outlook for a large class is very encouraging. Edward Ruth, who has been a teacher of stenography in the Elizabeth Business College, and who will have charge of the class, explained the Griggs system to those present At the close of his remarks seventeen expressed a desire to join the class, while several others, not present at the meeting but who have expressed a desire to join, will make a class of twenty. The class will meet Monday and Thursday evenings, beginning with Monday evening next.

The residents of the village have become deeply interested in the suit of Town Committeeman Bruchman against the Westfield and Elizabeth Trolley Company. Mr. Bruchman is not the first one who has been made to pay a double fare or get off the car, and the people are interested and want to see if the company can be made to live up to that part of their franchis which reads, "one fare shall be charged from Plainfield to any point in Fanwood township which is covered by the trolley."

The members of the Choir Guild of All Saints' church are arranging to hold a cake and ice cream sale in the Fanwood Firehouse tomorrow evening. Proceeds will be used for the benefit of the church and the young people are hoping to have a profitable sale.

Mr. and Mrs. John Morey and child have left for Syracuse, N. Y., where they will spend part of their vacation at Mr. Morey's home.

SEA GIRT CAMP.

Programme This Summer Under an Order of Gen. Sewell.

(Special to The Daily Press.)

Trenton, June 11.—A camp of instruction in rifle practice for members of the National Guard will be maintained at Sea Girt from July 1st to September 15th. It will be under command of Gen. Bird W. Spencer, inspector of rifle practice. The second brigade will go into camp in July. Gen. Sewell has issued an order to that effect. The brigade will go into camp in regimental order, the Second Regiment, with headquarters in this city, having been ordered to Sea Girt for the week beginning July 9th. Col. Gillmore, commander of the Second Regiment, has already spent some days at Sea Girt. While the Second Regiment is in camp, Battery B, field artillery, will be there also.

The Third Regiment, with headquarters in Camden, together with the Second Troop of Red Bank, will go into camp Saturday, July 16th, and remain for one week. Under the order no man is to be taken to camp who is not enlisted before June 30th.

DALY DON'T WANT IT.

Would Not Take National Committeeship on Gold Plate.

Congressman W. D. Daly said yesterday that Chairman W. B. Gourley is welcome to the National Committeeship, and that he does not want it nor was he at any time a candidate for the honor.

"I am a member of the National Congressional Committee," said Congressman Daly, "and am one of the seven who constitute the executive committee of the Congressional Committee. This gives me all the honors that I desire in that line, and I would not take the position of National Committeeman if it were offered on a gold plate."

Convention Broke Up Court Session.

(Special to The Daily Press.)

Elizabeth, June 21—The Republican National convention was responsible for the fact that no session was held yesterday by the Union County Court. This was sentence day, and a number of prisoners who had pleaded guilty, were to be arraigned for punishment. The court room was filled, among those present being railroad detectives from Perth Amboy and Newark, who were interested in matters to be passed on by Judge Vail, when word came that he had gone to Philadelphia to attend the convention. Prosecutor English was also missing, and it is supposed that he accompanied the Judge. In consequence, all the business had to go over for another week.

48 Pound Bass Caught at Asbury Park.

(Special to The Daily Press.)

Asbury Park, June 21.—A striped bass weighing forty-eight pounds, probably the largest ever caught with hook and line on the New Jersey coast, was landed yesterday by George Savidge. It was taken with sea clam bait at the foot of Deal Lake. The fish was presented to Founder Bradley and is exhibited on the board walk.

Surveys for Grading

Civil Engineer F. J. Hubbard is making surveys for the grading and extension of Madison avenue into the borough.

WIRES STOP A HOUSE.

Building Being Moved in New Brunswick Halted by Railroad Company's Action.

Whether a trolley company can be forced to cut and move feed wires to permit the moving of a house is a question that is being tested at New Brunswick. A big house belonging to Isaac Smith is being moved by Plainfield contractors to another site a mile away.

Since Friday night the house has stood at the corner of Morris and George streets, because the trolley feed wires are too low to permit its passage.

The Brunswick Traction Company, which owns them, refuses to cut the wires unless paid for it, and the police are guarding them. The contractors refuse to pay and insist that the city permit giving them the right to move across George street will be carried out and the city, not the traction company, have control of the streets.

All over the State there is interest in the outcome, as persons wishing to move buildings have frequently been compelled to tear them down because tractions companies have refused to cut wires.

Real Estate.

The following real estate transfers have been recorded from North Plainfield for the past week: Evelyn P. Dyer and husband to Wm. M. Stillman, $1; Borough of North Plainfield to Wm. W. Mills, $12 50; Mary Emma Reed and husband to Edward W. Vail, $1,800; Caroline Sutherlin and husband to Gottfreid Kreuger, $1,000; Myers M. Hodge et ux to Oliver R. Stelle, $1; Jeremiah Manning et al to Seaman Williams, $1.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph s drug store.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Für die Stimmung, welche in England gegen Deutschland herrscht, ist es charakteristisch, daß in diesem Jahre in den deutschen Bädern die Zahl der englischen Badegäste erheblich geringer ist, wie in früheren Jahren.—Das hiesige Alkohol-Syndikat hat einen Preis von 12,500 Mark für die Erfindung einer praktischen Weißglühlicht-Alkohollampe ausgesetzt.—Der zehnjährige Knabe Klose sprang trotz warnender Zurufe während der Fahrt von einem Pferdebahnwagen ab, fiel hin und gerieth unter einen Brauerwagen, dessen Kutscher die Pferde nicht mehr zum Stehen bringen konnte. Die Räder des beladenen Wagens gingen dem Verunglückten über die Brust. Nach drei Stunden starb er in der Charite.—Das vom deutschen Reichstage endgiltig angenommene Flottenverstärkungsgesetz erhielt schon am nächsten Tage die Zustimmung des Bundesrathes und am darauffolgenden Tage die Unterschrift des Kaisers.

Neu-Ruppin. Durch Brandstiftung entstand im Dorfe Bedlin eine Feuersbrunst, welche auf 17 Gehöften 37 Gebäude einäscherte. Als Thäter wurde ein Knecht des Bauern J. Ziethen noch an demselben Abende ermittelt und in's Gerichtsgefängniß überführt. Er hatte das Stroh in der Scheune seines Dienstherrn angezündet.

Spandau. Der 28 Jahre alte Kassirer Max Döring von der Spandauer Straßenbahn ist nach Unterschlagung von 7350 Mark geflüchtet.

Provinz Hannover.

Hannover. Während des hier stattgefundenen Strikes der Straßenbahn-Angestellten wurden insgesammt 180 Personen verletzt, darunter 30 schwer. Unter den letzteren befindet sich ein Major, der sich in Uniform befand. Einem Kinde, das der Vater auf dem Arm hielt, wurde ein Arm abgehauen. Eine Frau büßte die Nase ein, und ein Arbeiter erhielt eine so tiefe Armwunde, daß der Arm amputirt werden mußte.

Otterndorf. Die Stadt Otterndorf beging durch große Volksfeste, einen Festzug und ein Festspiel ihr 500jähriges Bestehen.

Provinz Hessen-Nassau.

Frankfurt. Die verstorbene Kaufmannswittwe Johanna Schumann hat dem hiesigen Armenamt 100,000 Mark vermacht. Die Zinsen des Kapitals sind für bedürftige, hier wohnende Wittwen und Jungfrauen bestimmt, welche der evangelischen Gemeinde angehören und dem Handwerkerstande entstammen.

Hanau. Der von der Akademischen Hochschule für die bildenden Künste in Berlin alljährlich zur Ausschreibung gelangende, 2500 Mark betragende Rom-Preis wurde bei der kürzlich stattgehabten zweiten Konkurrenz einem früheren Schüler der hiesigen Zeichenakademie, Josef Limburg aus Hanau, zutheil.

Hohenzollern.

Sigmaringen. Hierorts starb im Alter von 70 Jahren Pfarrer Maximilian Stark.

Provinz Pommern.

Stettin. Mit Hilfe der Küsten-Panzerschiffe „Aegir" und „Odin," zahlreicher Schleppdampfer und acht Pontons ist der der Hamburg-Amerika-Linie gehörige neue Riesendampfer „Deutschland," der in der Odermündung auf eine Schlammbank gerathen war und elf Tage festsaß, wieder flott gemacht worden.

Demmin. Als kürzlich ein Eisenbahnzug die Peenebrücke passirte, stürzte der in Reparatur befindliche Theil der Brücke ein. Die Lokomotive versank im Wasser, der Postwagen und ein Personenwagen blieben schräge hängen, die übrigen Wagen auf dem Geleise. Der Monteur Dieffenbach aus Berlin ertrank, der Arbeiter Unger, der Heizer und zwei Postbeamte, ein Packmeister und fünf Arbeiter wurden verletzt.

Provinz Posen.

Posen. Hierorts wurde eine große Ackerbau-Ausstellung eröffnet. Die Eröffnungsrede hielt der Minister Dr. v. Miquel.

Lissa. Bei der Landtagsersatzwahl im 6. Wahlbezirk der Provinz Posen siegte der Rechtsanwalt Wolf von Lissa (freisinnige Vereinigung) mit 334 von 525 Stimmen gegen den Rittergutsbesitzer v. Mycielski (Pole).

Provinz Ostpreußen.

Domnau. Der Oberinspektor Brahmann vom nahen Gute Wicken stürzte auf dem Heimwege von Schönbruch vom Pferde und starb in Folge eines Genickbruches. Brahmann war ein Bruder des bekannten Professors Dr. Brahmann, der bei Kaiser Friedrich dem Dritten die Halsoperation vornahm.

Lyck. Wegen vorsätzlicher Brandstiftung verurtheilte das Schwurgericht den Arbeiter Gustav Kompatzki zu fünf Jahren zehn Monaten Zuchthaus und sechsjährigem Ehrverlust. Kompatzki hatte in der Nacht zum 28. März 1897 ein Insthaus des Besitzers Potschewa aus Abbau Paprodken in Brand gesetzt; es war jedoch erst jetzt gelungen, den Angeklagten der Thäterschaft zu überführen.

Telephone 580. Goods delivered Free to any part of State.

"A year ago," says a lady from Syracuse, N. Y., "a friend of mine came on from Atkinson, Me., to make me a visit. She was in poor health. She was troubled all the time with constipation and her complexion was like dough. She had had a bad attack of jaundice a year before and thought it was coming on again. I had some Ripans Tabules in the house and got her to try them. In four days she felt better and after she got home she wrote me she had used another dollar's worth of them, and was entirely well and as tough as could be. I believe they saved her from a hard fit of sickness."

WANTED:—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

CASE AFTER CASE.

Plenty More Like This in Plainfield

Scores of Plainfield people can tell you about Doan's Kindey Pills.

Many a happy citizen makes a public statement of his experience.

Here is a case of it. What better proof of merit can be had than such endorsement?

Mr. F. D. Smith of 686 West Front street, contractor for painting, etc. says:—"There was a distressing pain across the small of my back which clung to me all the time. When I got seated at times if I moved a sharp pain struck me in the back and loins and almost made me exclaim. Any change in the weather if I caught the least cold always aggravated the trouble and caused me to suffer severely. Doan's Kidney Pills were recommended to me by one of my employes who had been cured of a long standing case of kidney complaint by their use. I commenced the treatment, derived benefit from it immediately and before I had finished the first box I was cured."

For sale by all dealers, price 50c. a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

SUMMER WRAPS.

Boleros, Jackets and Capes of Thin Materials.

The chief summer wraps are, first, the bolero, fitting at the back and sides, but straight in front, open or closed, and coming only to the waist, except for the elongated fronts; then the loose or fitted jacket with a short basque, and then the series of ornamental capes which are scarcely more than collars, as they simply cover the shoulders and the top of the arms. The first two varieties are made of thin cloth, covert cloth or silk. The last are of mousseline de soie, gauze, net, taffeta, crepe de chine, lace and similar fabrics and are simply a foundation for trimming and ornamentation. Ruches,

YOUNG GIRL'S GOWN.

plaitings, puffings, ruffles, embroidery, jet, spangles and fringe are used in profusion.

Although capes are less worn than they used to be when sleeves were large, they still remain the only practical wrap for use over delicate gowns, as they can be easily put on and off. They are seen of a length to reach below the waist, or even lower, but are much trimmed.

Today's cut shows a costume of cream mohair for a young girl. The skirt is adorned around the foot with three bands of narrow black velvet, forming points, and is gathered at the waist in the back. The stretched bodice is trimmed with bands of velvet, which simulate a corselet and a pointed yoke. Around the shoulders is a fichu of cream foulard with pink dots, bordered with a fine plaiting of plain foulard. The scarf belt is of the dotted foulard, the long ends being finished with plain plaitings. The tight sleeves have plaitings and bands of velvet at the wrists. JUDIC CHOLLET.

CRAVATS AND TIES.

Neckwear of All Sorts For Summer Wear.

Cravats of all kinds are fashionable, and an immense variety is seen. Lawn and muslin ones, having a border different from the body of the cravat, are worn, sometimes long enough so that the ends are tucked in the belt, sometimes so short that they make only a small knot. The corners of embroidered handkerchiefs are often employed for the ends. They are cut off diagonally and applied to the cravat by embroidery stitches or hemstitching.

There are many regates of blue madras or foulard, with dots or running designs. These are secured by a tiny chain of steel or gold, with balls or other ornaments on the hanging ends.

Among the prettiest ties are those of white organdie or lawn, with fine tucks

OUTING HATS.

and hemstitching or drawn work done by hand and ruffles of lace and incrustations of guipure or brussels point.

The picture illustrates two styles of outing hats. The first is of manila straw and has a full crown and a moderately wide brim, turned up at the left side by a chou of light brown velvet veiled with cream guipure. From this chou emerge two upright beige quills. A torsade of velvet and guipure encircles the crown. The second hat is of white satin straw. The alpine crown is surrounded by a drapery of pastel blue panne, which forms two coques at the left side. The right side of the brim is slightly arched, and the edge is outlined by a curved feather which follows the border.

JUDIC CHOLLET.

SEPARATE BODICES.

They Enjoy as Great Favor as Heretofore.

Blouses and bodices differing from the skirt are so far from having disappeared that they are riding on the crest of a new wave of fashion. Besides the shirt waist, which, in cotton, linen, flannel or silk, is perennially in favor, there is the more elaborate class of corsage, with a fitted back, tight sleeves and more or less ornamentation. Many are cut away over a guimpe of a different color or material.

TAFFETA BODICE.

Others have a wide collar, forming a sort of yoke. Tucks, vertical, horizontal, oblique, and forming diamonds or squares, are still used and cords also, held in place by lines of stitching. Sleeves in particular are often entirely tucked or corded, as, although they are tight, fashion demands that they be much trimmed.

For small evening receptions the blouse of yellowish lace, with unlined sleeves, is a novelty. It is occasionally cut a little low at the top also. In the case of very elegant evening bodices jet and spangles, with steel and pearl effects, are employed. Light bodices are worn with a black or white skirt.

The illustration given today shows a bodice of nile green taffeta. The back is plain, and the front is laid in plaits at the waist. The taffeta is cut in scallops and stitched, then applied upon a yoke and vest of guipure. The vest closes in front with little bows of nile green baby ribbon. The revers are of nile green taffeta, opening over a plastron of hemstitched batiste. The cravat and plaited belt are of the taffeta. The top of the sleeves is of guipure, the taffeta portion being stitched and applied.

JUDIC CHOLLET.

NEW PETTICOATS.

Different Varieties In Silk, Lawn and Cambric.

Petticoats have never been more elegant or more complicated than they are at present. Some of the newest silk ones have deep flounces, most elaborately embroidered with silk, with incrustations of silk of another color. Beside these the usual trimmings of insertion and tucks seem comparatively simple.

Many women have returned to white lawn and cambric petticoats, but these are only for the house and for an accompaniment to their summer gowns. Such petticoats are very much adorned with

POPLIN GOWN.

a number of superimposed ruffles and flounces to give them body. These flounces are a mass of lace, embroidery, tucks and hemstitching. For the street silk petticoats are the rule. Women who can afford it have a different petticoat for every gown.

The gown illustrated is of mauve woolen poplin. The skirt is laid in large plaits, and just below the hips are three stitched bands, forming a V, outlined at the lower edge by a decoration of guipure. The bodice is also laid in large plaits and has a similar band forming a pointed yoke. The collar is of green velvet and guipure. The tight sleeves have caps matching the yoke, and at the wrists are guipure cuffs. The belt is of moss green velvet.

JUDIC CHOLLET.

DR. PARKER HONORED.

One of the Veteran Missionaries of the Methodist Church Elected Bishop for India.

Rev. Edwin Wallace Parker, D. D., of North India conference, was born at St. Johnsbury, Vt., January 21, 1833. His father was a farmer, and for many years a steward in the Methodist church. Dr. Parker was converted at St. Johnsbury Center in 1853. He joined the Vermont conference in 1857, and was ordained in the New England conference in 1859. In the same year that he was ordained graduated from the Concord Biblical institute. On April 11, 1859, he sailed for India by way of the Cape, and landed in that country, August 21. Dr. Butler met him at Calcutta. The young missionary was at once sent to Bijnour, a new field in northwest India, where the Hindustani language was learned and work opened. In 1864, when the India conference was organized, he was made a presiding elder, and has remained in that office almost all the time since. He has at different times been in charge of nearly every part of the work in both conferences in northwest India. In connection with his work as presiding elder he established many primary schools, including the Goucher schools, with several middle schools and one high school especially for educating and building up the young people and converts. He also had charge of the publishing house at Lucknow for several years, in addition to district work, in which time buildings were completed and the house nearly freed from debt. While thus actively engaged in overseeing the work of the church Dr. Parker has ever been an earnest soul-winner. The revival which spread over the northwest of India, gathering in so many converts, started on Dr. Parker's district and under his direction. This was, perhaps, his largest work. For this reason he was removed from the care of a district and appointed general evangelist. Dr. Parker is thoroughly familiar with the needs and opportunities in India, and will be able to successfully carry forward whatever part of the field is assigned to him.

DR. EDWIN W. PARKER.
(Elected Missionary Bishop for India by the Methodist Church.)

UMBRELLA-RIGGED BOAT.

Queer Craft Constructed by an English Inventor Who Claims Great Things for It.

The queer rig of a boat which has appeared in the harbors of Southampton and Cowes is exciting a good deal of attention. The sail has the general appearance of an umbrella, of which the mast is the handle. It does not open and shut like an umbrella, however, but like two fans, extending fore and aft from the mast. The sail is oval, measuring about 30 by 15 feet, while the hull of the boat is only 17 feet long. With ordinary rig a boat of this size would carry about 20 square yards of canvas, but this sail measures nearly twice as much.

UMBRELLA-RIGGED BOAT.
(It Is Said to Be Very Swift and Absolutely Safe.)

The boat is very swift, partly because the wind has a tendency to lift it instead of careening it to leeward and so skin friction is diminished. The sail is not movable about the mast, but the mast itself rotates.

The rig is the invention of Messrs. Perry and Pilcher, of London, and Wilson, of Dublin. Its success has induced Mr. Selwyn Edwards to order from Thornycroft, the shipbuilder, a 400-foot vessel on the same plan.

Lyddite Is Inhuman.

The inhuman explosive lyddite used by the British in the war against the Boers is said to be composed largely of picric acid, made by treating carbolic acid with nitric. It has about 11 times the force of gun cotton, and the concussion is even more fatal than the fragments of the shells. The name comes from the town of Lydd, where it was first made.

Missouri Editor's Ultimatum.

"Next week," announces a determined, if not desperate, north Missouri editor, "we will be running this paper as Jesse James would have run it. Delinquent subscribers may expect a call from us with their accounts stuck in the muzzle of a six-shooter. Otherwise, this paper will have to be run as the sheriff would run it."

T. M. INGRAHAM.

WHERE IT CAME FROM.

Our Word Dollar Is of German Origin and Has Been in Use for Many Centuries.

Our word dollar dates back to 1785, when a resolution was passed by congress which provided that it should be the unit of money of the United States. Another resolution was passed in 1785, August 5, providing that it should weigh 375.64 grains of pure silver.

The mint was established in 1792, and then required to coin silver dollars containing 371.25 grains of pure silver. This was due to the influence of Alexander Hamilton.

No dollars were coined until 1794, and then irregular. They are worth now $100 each. In 1794 the coinage of regular dollars began.

Our coin, says Golden Days, was an adaptation of the Spanish milled dollar, a coin very popular wherever the Spaniards traveled. The coin was called "piastre," meaning a flat piece of metal; it is synonymous with piaster. It is supposed that the Spaniards took the German "thaler" and called it by the name of "piaster."

The word dollar is entered in Bailey's English dictionary of 1745, and was used repeatedly by Shakespeare at the beginning of the seventeenth century, especially in Macbeth, II.: 2, 62: "Till she disbursed ten thousand dollars to our general use," and in the "Tempest," II.: 1, 17.

The question where Shakespeare found the word dollar is answered by the fact that the Hanseatic towns maintained a great establishment called the Steel Yard in London. The Steel Yard merchants were mostly North Germans, who would call the German thaler as if it spelled "dahler."

The same merchants originated the word sterling, an abbreviation of the word "esterling." As the Hanseatic trade was particularly brisk on the Baltic and in Russia, the standard coins of the Hanse merchants were called esterlings, and sterling came to mean something genuine and desirable.

The word dollar is the English for thaler, the first of which was coined about 1485, and corresponds quite closely to our present American silver dollars. The word thaler means "coming from a dale or valley;" the first dollar having been coined in a Bohemian valley called Joachimisthal. It was under Charles V., the emperor of Germany, king of Spain and lord of Spanish America, that the German thaler became the coin of the world.

THE JAPANESE FROG.

A Clever Paper Toy Which Can Be Made Without Much Trouble by Any Boy or Girl.

The little folks in Japan make some very interesting paper toys, and none is more interesting than the frog manufactured out of green paper. First cut a piece of paper into a square much larger than you expect the frog to be. Draw lines from the four corners of the square and from the middle of the sides. First fold the paper along the diagonal lines, then turn it over on the other side and fold it along the lines from the sides. It will then form a kind of box, which can be pressed together along the folds in the shape of an unequal diamond. Now, seizing the paper below the ends of the cones, fold it backward so as to have two or more regular equal points. When this has been done to each of the eight cones the result will be a perfect diamond, with a smaller diamond in the center. Then each one of the cones must be folded again so as to get all the points around the center. Care must be taken to get the points as even and equal as possible. To finish the frog, turn the upper points out so that they spread and form the forelegs, and the lower points so that they form the hind legs. When it is finished a fine thread may be attached to the frog's body, and by careful jerks it almost seems to leap around on the floor or table. The paper used should be stiff enough to retain the folds as given to it, but not so brittle as to break under the handling. Do not be discouraged if the first frog you make is lame, for then it is certain that the points have not been folded evenly.
—St. Louis Globe-Democrat.

JAPANESE PAPER FROG.

MR. AND MRS. ORIOLE.

Like Other Well-to-Do People They Spend Winter in Florida and Summer in the North.

Mr. and Mrs. Oriole had been wintering in the south, having found the rigors of a northern winter too trying for their delicate constitutions. Being birds of a good social position, they had sojourned at one of the most fashionable hotels at Palm Beach, where they occupied a beautiful suite of apartments under the eaves. When it rained a neighboring waterspout occasionally spluttered over them, making their nest rather damp; but bathing is one of the fashionable sports at Palm Beach, so of course they did not mind it.

Their town house was situated on the limb of an old willow tree in Brooklyn. It was really a charming home, and Mr. Oriole had been his own architect. Moreover, it was so sheltered from view as not to attract cats or climbing boys.

From my bedroom window I could plainly see the nest, and every spring I would watch for the return to town of Mr. and Mrs. Oriole. Promptly on the 1st of May they would put in an appearance, and such twittering and chattering as there would be for a few days! And such a lot of callers as Mrs. Oriole did have. One of these, a handsome and gallant young cock robin, was most attentive, and I frequently observed signs of jealousy on the part of Mr. Oriole.

MR. AND MRS. ORIOLE AT HOME.

This spring, shortly before their return to town, a violent windstorm damaged the aged willow, breaking the limb on which was the nest. Two or three mornings later I was awakened by the greatest twittering and chirping you ever heard. The Oriole family had returned and were perched on the limp and swaying limb, evidently discussing what they had better do. Presently Mr. Oriole, accompanied by his wife, went off. After a few hours they returned and began moving house. So I judged they had found a suitable and safer location where they intended to build another nest. They set to work to pull their nest to pieces and carry away the twigs and leaves and feathers of which it was composed. Some of those thieving sparrows noticed what they were doing, and, slyly waiting till the orioles had flown off with their bills full of twigs and feathers, they would pounce down upon the nest and steal all they could. Mrs. Oriole caught them at it after awhile and then she and her husband discussed the matter. Presently they came to a satisfactory conclusion, for after that they took turns guarding the nest while the other would carry off particles of it for their new home.

They are gone now, and I miss them sadly. They were such cheerful birds. Mr. Oriole was much the better dresser. He wore a costume of orange, vermillion and black. Some people used to call them the Baltimore birds, because Lord Baltimore, who located in Maryland in the time of Charles I., had his servants dressed in liveries of the same colors as worn by Mr. Oriole.—Brooklyn Eagle.

Endurance of Frigate Birds.

The frigate bird far surpasses all others in its powers of flight, inasmuch as, except at the breeding season, it seldom visits the land, and is never seen to swim or rest on the waters. An American naturalist, Mr. Lancaster, who spent several years in studying the habits of this and other birds, states that the frigate bird can live in the air for a week at a time, night and day, without once perching or resting. He found these birds able, with ease, to go 100 miles an hour. The albatross has followed the course of a ship for several days without being known to take any rest. The swift is another bird which is almost continually on the wing, and never settles on the ground or on trees.

Rose by His Own Efforts.

Congressman Charles B. Landis, of Indiana, says of himself: "I pitched hay as a lad, worked in a gravel pit in my youth and attended college only when I reached manhood."

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—VanAuken's, 316 Park avenue, home-made bread, cakes and pies are very fine.

—John Carney and John Gill have formed a partnership and will continue the pool room formerly conducted on Liberty street by Dorsey Conover.

—To read The Press is to keep in touch with the best thoughts of the day. To be without it is to miss Peck's ads, the best helps to clear thinking of your needs and where to supply them.

—The Star Course of entertainments of the Y. M. C. A. the coming season will be the best ever yet given at the building. The $2 membership in the association carries with it the privilege of this course.

—The price of the tickets for the lawn festival to be given for the benefit of the Fresh Air Camp, which is to be held on the lawn of W. J. Roome, 41 Sycamore avenue, Saturday afternoon, will be 10 cents, instead of 25 cents as heretofore stated.

PARTICULAR MENTION.

James Clawsen, of this city, has been in Philadelphia on business for a few days.

Mrs. Eugene Moore and daughter, of Mt. Bethel, have been visiting Plainfield friends.

Mrs. Andrew S. Patterson, Miss Florence Patterson, Mrs. Stuart H. Patterson and daughter are resting at Minnewaska.

A CHESTER BRIDE.

Quiet Home Wedding in Which Plainfielder was the Groom.

A quiet home wedding took place yesterday at Chester, Morris county, when Miss Nancy I. Skellenger, daughter of Mr. and Mrs. Daniel H. Skellenger, of that place, and Albert Fisher Baker, son of Mr. and Mrs. Salmon C. Baker, of West Fifth street, this city, were married in the presence of relatives and a few intimate friends, among whom were Mr. and Mrs. Salmon C. Baker, parents of the groom; Mr. and Mrs. Arthur Mulford, of Chicago, and Mr. and Mrs. J. P. Homan, of this city.

The event took place at 12 o'clock noon, and after a reception Mr. and Mrs. Baker left to enjoy a honeymoon trip. They will take up their residence in this city, where the groom is associated with his father in the printing business.

To Fix up Automobile.

The automobile purchased for the use of the guests and patrons of the Mountain Park Inn was out last evening on a trial trip. As yet mechanics have been unable to get the carriage in good working order, and this morning a man from the factory in Indiana, where the carriage came from, arrived in this city, and he will put it in order. As yet no trips have been made up the mountains.

New Tribe of Red Men Installed.

Great Sachem Newcorn and Past Sachem Westphal, accompanied by a delegation of local Red Men, went to Woodbridge by stage last night and instituted Papiac Lodge, No. 227, of that place. The lodge started with a charter list of sixty members. Delegations were present from Perth Amboy, South Amboy, Elizabeth, Rahway and Cartaret.

First Ball at the Netherwood.

The improvements to the ball-room of the Hotel Netherwood have been completed and the first ball of the season will be held there Saturday evening.

Out of the Hospital.

Miss Alice Keely, of LaGrande avenue, was discharged cured, this morning from the hospital, where she recently underwent an operation.

AN UNJUST FINE.

Mayor Smalley Does Not Approve of the Punishment Given to Colored Ash Carter.

Mayor Smalley has expressed indignation over the unjust fine of $10 and costs, imposed yesterday on John Scott, an ash carter of the borough, who was convicted in Justice Mattison's court of carrying swill and garbage without out a license to do so. His honor feels as though the fine is too severe for the offense, and believes that Scott has been doing the borough a favor in carrying this stuff away.

The Borough Health Board ordinance clearly says, however, that a fine of $10 shall be imposed for such a violation and it does not give the Justice who presides over the case any alternative. It was this reason that the apparently excessive fine was imposed.

CODDINGTON-RENIGER.

Nuptials Celebrated in Morristown Yesterday Afternoon.

(Special to The Daily Press.)

Morristown, June 21—The marriage of Miss Mamie Reniger, formerly of Plainfield, and Allan Coddington, of Mountain avenue, North Plainfield, took place last evening at the home of the bride's brother, George Reniger, of this place, in the presence of a large company of relatives and intimate friends. The officiating clergyman was the pastor of the M. E. church at Mt. Tabor.

The bride was gowned in white organdie, trimmed with lace and ribbons, and carried a bouquet of bridal roses. She was attended by Miss Emily Galluba, of Newark, as bridemaid, who wore a gown of light blue silk, trimmed with lace and ribbons. The best man was John Reinger, brother of the bride. After the ceremony a reception was held, during which Mr. and Mrs. Coddington received the congratulations of the guests. They will take up their residence in Plainfield.

DEATH OF WILLIAM GRACELEY.

For Many Years He Was in the Butcher Business in Newark.

Wm. Graceley, aged 57 years, father of John H. Graceley, proprietor of the Manhattan Hotel on Somerset street, died at that place yesterday after a long and painful illness from a complication of diseases. Mr. Graceley was of German parentage, but was born in Newark, where for many years he conducted a butcher business for the Newark and New York markets. During the past seven years he lived in retirement, and about four years ago he moved to the borough with his son. The funeral will be private and will be held from the residence of the son, 181 Somerset street, tonight at 8 o'clock. Mr. Graceley leaves a wife, who resides in Newark, and a son, with whom he lived.

Hard Luck for Orcutt & Roberts.

A section of the circus like seats of the Orcutt & Roberts "Uncle Tom's Cabin" company, which plays under canvas, gave way last night at an interesting part of the performance which was being given at Atlantic Highlands. About forty people were thrown to the ground and considerably bruised. The little daughter of Senator B. F. Martin had her leg broken. The tent was nearly ruined by slits which had been cut in it in order to get out.

Frightened at Exploding Caps.

A horse owned by H. D. Allen, and attached to his confectionery wagon, became frightened on Watchung avenue, near Front street, yesterday afternoon, at the noise made by some caps placed by boys on the trolley tracks. The animal started to run away, but was caught before any damage resulted.

Last Meeting of the Season.

The Ladies' Aid Society of Hope chapel held the last meeting of the season yesterday. After an informal programme of vocal and instrumental music, the members sat down to a chicken dinner. The meetings of the society will be resumed in September.

Tug-of-War Contest.

Among the attractions at the Plainfield Driving Club track for July 4th will be a tug-of-war between five men teams from the Pond Tool Works and the Walter Scott Printing Machine Works. A handsome prize will be given to the winner.

Crop Report.

John Neagle's crop report for the past week is as follows: "Crops in this section are growing nicely; potatoes are in blossom; strawberries plentiful; cherries, a fair crop; rainfall, 1.10 inches." John Neagle.

New Milk Ordinance.

A copy of the proposed new milk ordinance can now be inspected at the office of the Board of Health.

IS CHARTER FORFEITED?

UNION WATER COMPANY OFFICIALS ARE WORRIED.

Before Going to Europe Governor Voorhees Signed Proclamation Declaring the Charter Void.

(Special to The Daily Press.)

Elizabeth, June 21.—On his return from Europe Governor Voorhees was greatly surprised when he learned that he had signed a proclamation declaring the charter of the Union Water Company forfeited for nonpayment of the State tax of 1897. Whether it was the company of which he is secretary, or another company of the same name, is not known. Frank Bergen, who is managing director of the Union Water Company, will make an investigation. Both the Governor and Mr. Bergen could scarcely believe that the charter of the company in which they were interested had been declared forfeited. They were inclined to think that it was another company of the same name.

One of the last official acts of Governor Voorhees before leaving on his European trip was to sign a proclamation declaring null and void the charters of about 150 corporations that failed to pay the State tax of 1897. This proclamation was made public about two weeks ago, and in the list appeared the name of the Union Water Company. The officials of the company which Governor Voorhees and Mr. Bergen represent decided to say nothing. If it is the company in which the Governor is interested the tax will be paid and its charter will be reinstated.

ANXIOUS TO GET BUNDY.

Alleged Check Forger Wanted by Authorities in Both Hudson and Somerset Counties.

(Special to The Daily Press.)

New Brunswick, June 21.—Since the arrest of Dr. Bundy and his arrival in this city in charge of Detective Oliver yesterday afternoon there have been several requests that he be held to answer other charges. The doctor secured his release, however, yesterday upon producing bail in the sum of $200 before Judge Strong. Andrew Hazlin went on his bond.

While the man was in charge of the detective Sheriff Barclay received a message over the telephone from the Sheriff of Hudson county asking if Dr. Bundy was in jail. The doctor was then in this city in the custody of Detective Oliver. The Hudson county authorities had a capias against him and the Prosecutor was very anxious to get him.

It is understood that the Somerset authorities are also after him as there are several bondsmen at Somerville anxious to get him. The bonds forfeited there are said to amount to something like $5,000.

ALL CAME TOGETHER.

Unfortunate Accident to a Party of Cyclists on Their Return Home.

The Twilight Cycling Club, which is composed of the employes of Crosby & Hill and Woodhull & Martin, started for a run to Somerville last evening. Their destination was reached safely, but on the return they were not so fortunate. They were pedaling along at quite a high rate of speed, near the outskirts of Dunellen, when Archie Derby, who was in the lead, was struck in the head by some projection and knocked off his wheel.

The accident happened so quickly that the others did not see him in time to stop, and several wheels and riders struck him, with the result that they were considerably bruised and their wheels partially wrecked. Besides Mr. Derby those who suffered the most were Miss Nettie Kreitling and Charles Fritz. The obstruction was found to be a large beam which projected out from a guard rail placed around the new bridge which is being built between Dunellen and Lincoln. The bicyclists claim there was no light in the vicinity of the bridge.

A QUIET WEDDING.

Miss Edith Mills Married to George L. Harris, of New Market.

The marriage of Miss Edith Mills, daughter of Mr. and Mrs. D. A. Mills, of Summit avenue, to George L. Harris, of New Market, took place last evening at the residence of Rev. Cornelius Schenck, Ph. D., who performed the ceremony. It was a quiet affair on account of a recent death in the bride's family.

The bride was gowned in a beautiful grey traveling suit, and was attended by Miss Mabel Harris, sister of the groom. William Lant, an intimate friend of the groom, was best man. After the ceremony the bridal party returned to the home of the bride, where a reception was given to Mr. and Mrs. Harris. After the reception the happy couple left town for a short wedding journey. Upon their return they will reside with the groom's parents at New Market.

Miss Carrie Debele, of Philapelphia, is visiting her brother, W. G. Debele, of Somerset street.

IT IS M'KINLEY AND ROOSEVELT.

[CONTINUED FROM PAGE 1.]

participants.

N. J. Young, of Massachusetts, was recognized and seconded the nomination of Roosevelt. He was followed by Delegate Ashton, of Washington, who did the same thing.

Recognizing that New York ought to have a prominent part just at that point there were loud cries for Senator Depew. The Senator arose, but before he could utter a word there was yells to "Take the stage" and "Get up where we can see you.".

Depew nimbly got to the front of the convention, and commenced New York's endorsement of her favorite son. Always a brilliant speaker, Depew seemed completely under the enthusiastic mood of the vast assemblage and his address will be long remembered for its fine eulogy of Roosevelt.

At five minutes of 2 o'clock Senator Depew finished his speech. There were immediate cries for Quay, who has been demanding the nomination of Roovelt from the outset. The convention is in a hub-bub again, and the chairman is doing his best to preserve order. It is a difficult job.

The roll call of States was commenced when quiet had been restored. Alabama led off with a solid vote for Roosevelt, and every State followed suit.

Roosevelt was declared the unanimous choice of the convention for Vice-President. The nominee was surrounded by a surging mob, and it was realized that it would be impossible to transact any more business.

In a great uproar the convention was adjourned.

COLORED WOMEN FOUGHT.

Fistic Encounter in the West End as a Result of a Growler Party.

Several colored women furnished an informal pugilistic contest for a large crowd on the boulevard last evening, in which hair pulling and flying beer glasses were added. The trouble started from a growler party which had been in progress during the afternoon. The money of one of the participants had given out, and when she insisted on remaining in the party without paying the others objected. Blows soon followed words and in a short time all hands were engaged in a fistic contest. The combatants were separated with difficulty several times by their friends and only ceased hostilities when the police made an appearance. No arrests were made.

New Residence.

E. S. Schenck, of the borough, broke ground today at the corner of Somerset street and Mountain avenue for a fine residence.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., FRIDAY, JUNE 22, 1900. TWO CENTS A COPY—$5 A YEAR.

TWENTY-TWO GRADUATE FROM HIGH SCHOOL

Commencement Exercises Held at Music Hall Last Night Witnessed by Large Crowd.

THREE BOYS IN THE CLASS.

ADDRESS OF EVENING WAS BY PROF. EDWARD H. GRIGGS, OF BROOKLYN.

Presentation of Awards Was Held—The Prize Winners—Salutatory and Valedictory Essays—Many Flowers and Gifts for Graduates.

The four years of High School training having been successfully completed, twenty-two young people received their diplomas at the commencement exercises of the Plainfield High School, held in Music Hall, last evening. Then there was the customary address delivered by Prof. Edward H. Griggs, of Brooklyn, and the essays of the salutatorian and valedictorian, together with the awarding of the various school prizes. A large audience filled the hall to overflowing and found considerable enjoyment despite the sultriness and heat.

The long vacation in the public schools has begun. The event of last evening marked the closing of the city schools until next September. The exercises were on substantially the same plan of those of past years. The orchestra seats and part of the dress circle were reserved for the families and friends of the graduates. The other seats were free. At 8 o'clock the whole house was thrown open to the public and every vacant seat was filled at once.

The stage looked unusally pretty. Floral decorations formed a low wall at the footlights while palms and other potted plants were banked in the rear. The girl graduates made a pretty array, all gowned in white. Behind them were the three young men, all wearing the conventional evening dress. The members of the Board of Education, Superintendent H. M. Maxson, Principal I. W. Travell and Prof. E. H. Griggs were grouped at the side of the stage.

Owing to the recent death of her father, Miss Flora Campbell did not participate in the commencement exercises although she was a member of the graduating class and was graduated with the others. The valedictorian of the class was Miss Ruth Potter Maxson, daughter of Superintendent H. M. Maxson, a very bright and talented young woman. She has successfully passed through nearly all of the grades of the Plainfield schools and has the enviable record of never having been tardy.

The members of the graduating class were as follows:

Classical Course—Helen Louise Brown, Mary Lock, Charles Hillman Fountain; Latin—Modern language course—Flora Campbell, Sarah Pauline Denton, Josephine Herrick Lapsley, Mary Lee Mann, Ruth Potter Maxson, Beatrice Miner, Alice Louise Morgan, Mary Alice Ross, Emily Sandford Runyon, Irma Georgette Wolfe, Marion Drake Woodcock, Walter Squires; modern language course—Edna Burr, Clara Gaston Dunham; Latin—history course—Fannie May Fish, Emma Harper Miller, Iola Moore; commercial course—Dora Amelia Bennett, Albert Linden Schomp.

There was some delay in beginning the exercises which finally came to pass. An overture, "Morning, Noon and Night," was rendered by Frank's Twelfth Regiment orchestra, of New York. Then came the invocation by by Rev. Arthur E. Main, pastor of the Seventh-Day Baptist church. Dr. J. B. Probasco, president of the Board of Education, presided.

After another selection by the orchestra, "Pas des Fluers," Miss Edna Burr gave a short salutatory address, welcoming the Board of Education and the audience. Wagner's "Miestersinger" was given by the orchestra, and then came the salutatory essay, "Historic Plainfield," by Miss Mary Lock. The full text of it will be found on page three. It was followed by "The Singing Girl" by the orchestra.

The address of the evening was by Prof. Edward H. Griggs, of Brooklyn, late of Leland Stanford, Jr., University. His subject was "Popular Education and the Problem of Democracy." The problem, in the attempt to reach the perfect democracy, was to carry all men, not as dependents, but with independence. It could be solved, he reasoned, only by education, not only of the mental faculties but of the character as well. All government is due to the imperfect condition of humanity and is simply an expedient for

[CONTINUED ON PAGE 8.]

FINE HONOR FOR FATHER WESTMAN.

St. Mary's Assistant Rector Chosen Vice-President of Seton Hall College.

SELECTED BY THE BISHOP.

YOUNGEST MAN THAT HAS EVER FILLED THE POSITION.

Was a Graduate of the Institution—Has Been in This City for Two Years, Where He Has Attained Great Popularity.

His many friends in this city will learn with regret that Rev. John A. Westman, curate of St. Mary's church, will leave Plainfield today. He has been appointed Vice-President of Seton Hall College at Orange by Bishop Winand M. Wigger, through whose urgings Father Westman accepted the position. He also has the added honor of being the youngest man that ever held this position, not yet being twenty-eight years old. He succeeds Rev. George F. Brown.

Father Westman was born in Paterson in 1872. He received his preparatory course at St. John's parochial school at Paterson and his intermediate preparatory at a private college in the same city. In 1888 he entered Seton Hall College from whence he graduated five years later. He then re-entered for a theological course and was ordained by Right Rev. Winand Wigger in 1897. Immediately after his ordination he was appointed curate of All Saints church in Jersey City. He remained there one year and then through his own desire he was transferred to Plainfield.

In the two short years of his curateship at St. Mary's church, he has won a host of friends in all parts of the city and among all classes. It was through the successful management of his affairs in this city that, in spite of his youth, Father Westman early attracted the attention of the diocease by his administrative ability and his intellectual attainments.

It is with many regrets that he leaves the people of Plainfield to whom he is very grateful for their kindness to him, which they have manifested in many different ways. His position is not entirely new to him as he has had considerable experience in this college during his course there, at which time he was disciplinarian. He leaves for Orange today, but his real duties will not begin until after he has had an extended vacation. His place in St. Mary's church will be taken by Father John McGeary, of Washington, N. J., who was recently ordained.

WENT OFF UNEXECTEDLY.

Robert Marcley Sustained Slight Flesh Wound by Accidental Discharge of Revolver.

Robert Marcley knew the revolver was loaded but he didn't expect that it would go off. As a result, he shot himself in the groin this morning. The revolver happened to be pointed at an angle so that only a small flesh wound resulted instead of a more serious wound as would have otherwise been the case.

The accident happened this morning over in Washington valley whence Marcley, George Herman and Harry Webb had gone after cherries. Marcley lives at 131 New street. Marcley took a 22 calibre revolver along intending to shoot a bull frogs. He was handling the revolver as they stepped along and pointed it as his side. He knew it was loaded but didn't mean to touch the trigger.

In some way the fire-arm was accidentally discharged. Marcley and his companions were greatly alarmed and feared serious results. A passing wagon took the injured boy abroad and he was driven to the office of Dr. Lufborrow, of West Front street, where Marcley's injuries were examined and dressed. The bullet simply tore away the flesh, causing a painful but not serious wound.

Said to Be Hopelessly Insane.
(Special to The Daily Press.)

Elizabeth, June 22.—John Walsh, the Rahway plumber whose mind had become affected, has been taken back to that city from police headquarters by his friends, and steps will be taken by them to have him removed to an asylum. A medical expert who examined the man declares his case now to be hopeless.

Reception by Alumni.

Following the commencement exercises of the Borough Public High School this evening in Music Hall, a reception will be given to the graduates in the Park Club by the alumni. A nominal fee will be charged for admission.

DEMENTED LAD FOUND.

As He Talks of Plainfield, Pennsylvania Officials Have Notified the Police of this City.

A lad, supposedly demented, has been tramping through Pensylvania and is now lodged in the Montgomery County Home. He was picked up a constable near Royersford. The lad cannot give an account of himself, but at times talks of Plainfield, so the authorities have notified Chief Grant, of the police department of this city, hoping to be able to identify the young man.

The boy is of light complexion, light brown eyes, brown hair, small striped trousers, a dark coat, no vest, woolen shirt and a cap. On his shirt is the name "H. Bloser," written in indelible ink.

CAR REPAIRERS' WAGES CUT

Central Railroad of New Jersey Employes Notified of Reduction, May Go on Strike.
(Special to The Daily Press.)

Wilkesbarre, Pa., June 22.—The car repairers at the Ashley shops of the Central Railroad of New Jersey yesterday were notified of a twenty-five per cent reduction in all clases of work. They will protest against it, and if no satisfaction is received, will probably go on a strike.

The brotherhood of Railroad Trainmen and Conductors of this division of the Central Railroad of New Jersey yesterday sent a committee to see President Maxwell in New York.

The company some weeks ago cut down the crews on coal trains one-third, not discharging any men, but allowing only two brakemen to a train, instead of three, thus putting all on two-third time. The brotherhood protested and no answer was promised by the company yesterday. It did not come, and the committee was sent for a final conference.

WEDDED IN NEW BRUNSWICK.

Auguste Leopold Saltzman, Formerly of This City, was the Groom.

Miss Hester A. Holman, daughter of James Holman, of New Brunswick, and a niece of Mr. and Mrs. J. P. Emmons, of Prospect place, was married to Auguste Leopold Saltzman, formerly of this city, but now of Philadelphia, last Wednesday evening at the home of the bride. Rev. E. M. Rodman, rector of Grace P. E. church, this city, performed the ceremony in the presence of a large assemblage of relatives and friends, many of whom were from Plainfield.

The bride was attended by Miss Marie Randolph and Miss Maude Fish, of New Brunswick, while Fred Daboll, of Philadelphia, was the best man. Volney Green, of the borough, and Frank H. Platt, of New York, were the ushers. Following the marriage, the bride and groom started for the great lakes, where they will spend their honeymoon sailing. About fifty guests from this city attended the wedding.

Manufactories Increase Population.
(Special to The Daily Press.)

Perth Amboy, June 22—The census enumerators finished their work Saturday last. It is estimated that the figures will go over 19,000. The increase will be about 6,000 over the census of 1895, when the figures stood 13,030. In 1890 the population was only 9,900. The many new factories which have settled in Perth Amboy during the last ten years are accountable for the rapid increase.

Summit Land Company Incorporated.
(Special to The Daily Press.)

Elizabeth, June 22.—The Guanica Land Company of Summit filed articles of incorporation yesterday afternoon with the clerk of Union County. The company is capitalized for $100,000. The incorporators are William H. Tintchenor and Ralph S. Rounds, of New York; William C. Cushman and Frank A. Dillington, of Summit.

Dog Maimed by Trolley Car.

A large dog was struck by a trolley car on West Fourth street, near Grant avenue, yesterday. The trolley car proceeded on leaving the dog howling in the road until Arthur Jackson put the animal out of its misery by shooting it.

Contagious Diseases.

At present there are four cases of scarlet fever and one of diphtheria in the borough. The health authorities expect to raise the quarantine on all of these cases inside of a week.

A Musical Feature.

At the commencement exercises of the Parochial School next week Thursday the programme will include a very pretty operatta in which many of the children will take part.

—Strawberries and huckleberries of the finest quality at Neuman Brothers tomorrow.

Local News on Pages 2 and 3.

"COUNT" WAS MAKING HAY WHILE SUN SHONE

But, it is Alleged, it Was Fodder Belonging to Another and He Had to Settle.

BIRD BOUGHT IT OF VERITY.

VANNESS HAD HARVESTED IT IN FORMER YEARS.

Thought He Would Do the Same This Year, But When He Started to Work He Was Charged by Verity With Trespassing.

There seems to be more trouble brewing in the air for John K. VanNess, known as "the Count." This time it is a neighbors quarrel and all on account of a crop of hay. For a number of years Edward Verity and wife have lived neighbors to the "Count" on East Front street. Things have not always run as smooth as they might, but there has not been a serious break in the neighborly feeling between the two families until this one.

For several years VanNess has had the privilege of cutting the hay growing upon his neighbor's property, but this year Verity concluded to make an effort to realize some money from the sale of the hay. He found a prospective purchaser in Levi Bird, of Plainfield, Mr. Bird looked over the field and before leaving had made a purchase of the entire crop as it stood.

This was Thursday of last week. As Mr. Bird was busy at the time he concluded to let his new purchase remain for the present, and left with the understanding that he would cut it some time this week.

The "Count" concluded on Monday that it was about time the crop was taken care of, so he was soon upon the scene with his man and mowing machine. Verity in righteous indignation went out to his neighbor and asked why he was tresspassing, and finished the consultation by ordering VanNess off the place.

This excited VanNess and he refused to leave the place and went right on with the cutting. Mr. Verity proceeded to Plainfield in search of legal advice and to notify Mr. Bird of VanNess's attitude in the case.

The owner of the hay was soon upon the scene and put a stop to the confiscation of his property and made VanNess settle for what he had already stored away in his barn. This seems to have settled the matter between Bird and VanNess, but not between the latter and Verity. Verity claims he will bring a suit against his neighbor for unlawful trespass.

FOR KANSAS CITY.

Plans For the Convenience of the New Jersey Delegates to the Democratic National Convention.

The committee of arrangements of the Democratic delegation to the Kansas City convention has settled practically all the details connected with the trip.

The New Jersey delegation will travel in two Pullmans to be attached to fast train No. 7, which leaves the Pennsylvania Railroad depot, Jersey City, at 6:13 p. m. Sunday, July 1st. At 6:26 a stop will be made at Newark to take on board the Essex delegates. There will also be stops at Trenton and Philadelphia. At the latter city, which will be reached at 8:25 o'clock, the South Jersey delegates are to be taken on board. St. Louis is to be reached at 9:40 o'clock, July 2d. The latter part of the journey will be over the Missouri and Pacific Railroad. The train is due at Kansas City at 7:45 o'clock Tuesday morning, July 3d.

The Jerseymen will be taken to the Victoria Hotel, which is said to be not far from the Convention Hall. By that time the delegates will have divided themselves off into trios, and it will have to be settled just how they will room together.

The delegates are expected to pay $75 each. This is to pay for the railroad ticket, hotel charges and refreshments on the train coming and going. The carfare to Kansas City and return will be $31.75, exclusive of berths. Tickets will be good for the return trip up to and including July 9th.

A Small Fire.

A still alarm last evening informed the fire department that the machine shop in the building owned by the Kenyon estate on the corner of East Third and Richmond streets, was on fire. Chief Doane, accompanied by the chemical engine and No. 2. truck, responded and found the roof and side of the frame building on fire near the cupalo. It was extinguished after it had caused about $15 damage.

ALUMNI RECEPTION.

Given to Class of 1900 of Plainfield High School at Casino Last Evening.

The class of 1900, which graduated from the Plainfield High School last evening, was entertained at the Casino after the exercises in Music Hall. A reception and dance was given to the graduates and their friends by the classes of 1898 and 1899, which lasted from 10 o'clock until 2. It was well attended and proved very satisfactory. Refreshments were served at midnight. Henry W. Brower, president of the class of '98, was the efficient chairman of the committee in charge. The music was by Frank's Twelfth Regiment orchestra while Stephenson was the caterer.

BOGUS AGENT.

Secured Money From Plainfield Woman for Subscription to Ledger Monthly—Is Gone Now.

Chief of Police Grant is in receipt of a letter from Robert Bonner's Sons, publishers of The Ledger Monthly, telling of a swindler who has been operating in Plainfield. A woman living on West Seventh street paid him $1 for a year's subscription to The Ledger Monthly and McClure's Magazine. When she heard nothing from the publication she wrote to find out what was the trouble. The swindler gave his name as T. J. Sherwood.

The publishers state that he has been operating in various parts of New York and New Jersey, taking subscriptions for various publications generally at a greatly reduced rate. They have tried in many ways to apprehend the man, but the complaints come in so long after he last left a place that it is impossible to locate him.

REMOVE THAT CAT.

That is What the West Front Street Folks Want Done.

The residents of West Front street, in the vicinity of Albert street, are making earnest inquiries as to the whereabouts of the police or the Board of Health. The cause of their agitation is a cat. Not a midnight music loving tabby, but one who has ceased to entertain the neighbors with soul-stirring melodies. The cat in question was struck by a trolley car two days ago and left lying mangled in the road, where it has since lain.

The matter was reported to the police, but no one seemed to mind it until a suspicious taint permeated the air, and hence the longing of the residents for the feline's removal.

City Judge Lectured Her.

The Board of Health objected to the condition of Mrs. Catherine Feury's home, 1314 Watchung avenue, and the neighbors complained of her conduct. Yesterday afternoon she was arrested by Chief Grant and Roundsman Frederickson for being drunk. She was locked up over night and arraigned before City Judge Runyon this morning. The Judge suspended sentence after a lecture and a warning to observe the Health ordinance more closely.

Bicycle Was Wrecked.

A bicycle ridden by Jerry Brook and a horse driven by J. N. Leary, superintendent of the Aluminum Plate and Press Company, came together in Park avenue, near Fourth street, this morning, with the result that Jerry had to carry his wheel to a repair shop. The accident was unavoidable, but Mr. Leary took the responsibility and offered to pay for the damaged bicycle. The rear wheel was demolished.

Endeavorers to be in Charge.

The service at Trinity Reformed church next Sunday evening is to be in charge of the Christian Endeavor Society. Rev. A. E. Main will make an address, there will be plenty of singing, led by H. J. Martin, and a very profitable meeting is contemplated. They invite all their friends to come and enjoy the service.

To Arrange for New Scholars.

Supt. Wightman, of the Borough Public Schools, will be at the Somerset street school tomorrow, Monday and Tuesday next, when anyone desiring to see him about children entering the school next year, will have an opportunity to do so.

Salvation Army Funeral.

The funeral services of the late Stephen Perrine, who died at his home on Park avenue Wednesday, will be held from the house Sunday at 2:30 and from the Salvation Army hall at 3. Captain Thomas and other officers will conduct the service.

To be Interred in Elizabeth.

The remains of the late William Graceley were taken from the borough this morning to Elizabeth, where they will be interred in the family plot in Evergreen cemetery.

NEW JERSEY G. O. P. HAPPY AND CONTENTED

The Work of the Convention Appears to Be Pleasing to the Leaders.

EXPECT TO CARRY STATE.

SEWELL SAYS ROOSEVELT CAME AS RESISTLESS CONCLUSION.

He Admits That at the Outset New Jersey Preferred Another Man—Gov. Voorhees Among First to Congratulate Roosevelt.
(Special to The Daily Press.)

Philadelphia, June 22—New Jersey's delegates were out of the city last night, but a large and considerable force of the Republicans of the State were at headquarters early in the evening, and the general sentiment among them was one of satisfaction over the work of the convention. Certainly the workers from the counties who were here in large numbers were pleased, and many of them declared that the ticket would win in the State if it gets the solid support of the party leaders, and there is no present indication that it will not, for the leaders themselves expressed the deepest satisfaction at the result.

Senator Sewell was consulted by Chairman Hanna and the other national party managers on Wednesday night, when the Roosevelt slate was ultimately fixed up, and while New Jersey had not been among the first States in the Roosevelt line, it was in such a position that it could consistently turn to him at any time without taking a backward position, for the indorsement of Secretary Long was so qualified as to make it scarcely binding unless his chances appeared to be pretty good.

"The ticket is wholly acceptable to New Jersey," said General Sewell, "and I am certain we can carry the State. We were not opposed to Governor Roosevelt at all, but preferred another man, and allowed ourselves to watch and see who would be the logical candidate. The matter drifted to Governor Roosevelt, and his nomination became a certainty. The ticket was not made by the leaders, but by the delegates representing the people, and we were very glad to cast our votes that way."

Governor Voorhees seemed peculiarly pleased with the nomination of Roosevelt. At the opening of the convention in the morning the New Jersey Executive sought the smiling "Teddy," who sat three rows behind him, and said:

"Governor, I'm glad of the chance to congratulate you."

"Thanks, Governor," replied the hero; "I don't know just how glad I am. They haven't given me much chance to find out."

"You may count on New Jersey," said Voorhees, a promise which Roosevelt seemed to appreciate, but he appeared to be anything but pleased over the outcome of events of which he had been such a prominent factor.

"We would have been for Roosevelt from the start if he hadn't declined so much," said Barker Gummere, one of the delegates-at-large. It's all right and we are not kicking."

"Fine, fine," said State Chairman Franklin Murphy, who seemed more pleased than any of the other delegates.

"A great thing," said Robert W. Hawkesworth, one of the Essex district delegates. "I think we are going to sweep the State."

G. O. P. BANNER UP.

Prompt Display of the National Standard Bearers by the Local Republicans.

Within two hours after the news was received in this city that McKinley and Roosevelt were nominated for president and vice-president by the Republicans at Philadelphia, an American flag was unfurled to the breeze on North avenue, in front of The Daily Press office. A good-sized crowd gathered at the time and quite a demonstrance was made. The flag was raised by Manager Charles W. Runyon and Herbert Chamberlain, of the New York and New Jersey Telephone Company, for the leaders of the party in this city, who had had the flag prepared with the names of the candidates painted on strips of muslin placed on the bottom.

It was considered remarably quick time to raise a banner, and there was only a few persons who knew of the intended action.

—Without doubt the largest stock of fancy shirts for warm weather will be found at Sebring's.

—Neuman Brothers will have a large shipment of the best of strawberries and huckleberries tomorrow.

MANUAL TRAINING IN BOROUGH SCHOOLS.

It is Not Thought That it Will Cost the Voters More Than $400 Annually.

THERE WILL BE STATE AID.

DEPARTMENT WILL TRAIN SCHOLARS TO DO PRACTICAL WORK.

Superintendent Wightman Has Been Visiting Other Schools and Finds That Manual Training is Very Popular.

Regarding the manual training department which the Borough Board of Education propose to install this summer, and which was made possible through the generosity of Charles W. McCutchen who contributed $2,000 toward the enterprise, some information which has lately been gained which will be of interest to boroughites, as well as others.

The building to carry on this work will contain four rooms, and will be 30x60. It will be two stories in height. In this department there will be taught cooking in every branch, and the idea is to have each girl scholar attain that proficiency that will enable her to cook a full meal after one year's instruction in this department. For the boys there will be carving, joining, turning and knife-work, which will be done according to patterns and drawings. This will combine the hitherto-established department of drawing, and will lessen the expense considerable.

As to the cost of maintaining this department many vague ideas prevvail. Recently, Superintendent Wightman visited several places and learned the cost in other schools, where they have manual training. At East Orange there are seven schools and the total cost of manual traintng for them all is $1,500 a year. At Vineland, where they have possibly the largest department in the State, the entire expense is $600 a year. These figures, of course, show what it costs each municipality, exclusive of the appropriations allowed by the State, which is half. The State contributes a like sum to that raised in each place for manual training, and also gives $200 toward the salary of each instructor.

After careful consideration, Mr. Wightman is convinced thoroughly that manual training can be taught in the borough at a yearly expense of not over $400 to the taxpayers. The State will add to that sum $400 or exactly the sum raised by borough taxpayers. In the borough a salary of $600 is being paid to a drawing teacher, and it costs $300 for supplies. Of course, this work will be combined with manual training, and thus a large part of the above amounts, if not all, will be saved. The money contributed bo the State does not come out of the school funds, but out of the general treasury.

The great advantage in this work is inestimable, and in a few years the great results to be obtained will be recognized by all. There are many young women who are unable to cook a meal, and they cannot stay out of school to learn. When they leave school they seem to loose interest in the matter, hence when there is an imperative need for their services in this line, they are woefully lacking, as many husbands can testify. On the other hand the boys will be taught how to use their hands and tools, so that they will be better able to choose a trade when they go into the world.

Borough Commencement.

The commencement exercises of the borough public schools will be held this evening in Music Hall and a very enjoyable and interesting time is promised. Prof. John Stewart, of Lehigh University, will deliver the address of the evening, and State Superintendent of Schools, Mr. Hayes, of Newark, will present the diplomas to the graduates. Katherine Dwight will be the valedictorian, and Miss Dora Waring, the salutatorian. A chorus of 140 school children will sing, and there will be other features well-worth attending for.

Wedded Bayonne Girl.

Alfred Randolph, of Liberty street, and Miss Annie Ferrand, of Bayonne, were married Wednesday afternoon at the home of the bride. Charles Ferrand, brother of the bride, was best man. The bride was unattended. After the ceremony the bride and groom left for a wedding trip. They will take up their residence on their return in the house on Liberty street, owned by the groom's brother-in-law, which is furnished and awaits them. Mr. Randolph is employed at Mr. Weber's grocery on Liberty street.

SPORTING.

CYCLING COMMENT.

Oscar D. Pierce has purchased an Eagle road-racer of the local agent, W. R. Larkin.

Victor Christofferson, of this city, is arranging a half-century run for July 8th between this city and Princeton. Already there are a number of entries.

A number of local cyclers are training every day at the Plainfield Driving Club track for the July 4th races. Last evening one rider made a half mile on the rough track in 2:16.

It has just leaked out among the police officers that Patrolman Flanagan has purchased a bicycle and is learning to ride. The patrolman is the last officer to take up the wheel. He is already making good progress towards mastering it.

Joseph Burke, of Park avenue, has entered for the novice race to be run on the board track at Vailsburg next Sunday. He will ride under the National Cycling Association. Peter Sims, of this city, rode on the above track last Sunday, but did not get a place.

On Sunday, July 1st, the New Jersey State division of the American Century Wheelmen will have their open summer century run. The start will be from Century Rest, No. 51 Broad street, Elizabetn N. J. A gold A. C. W. bar will be given to riders finishing within fourteen hours. The entry fee is $1; nothing extra for gold bar. A silver loving cup will be given to the club having the largest number of members in the run. For entry blanks address Frank Harth, Jr., Elizabeth, N. J.

VARICUS SPORTS.

An exciting race meet was held Saturday afternoon in the neighborhood of the corner of Sycamore and Willow avenues. A hundred yard dash was won by Reggie Roome, defeating Douglass Waring and Tracy Howard. Harold Hegeman won the half-mile bicycle race from Douglass Waring and Reggie Roome. At putting the five pound shot Harold Hegeman won from George Hooley. Tracy Howard won the fifty-yard dash, winning out from Douglass Waring and Reggie Roome. In the running broad jump James Scott was best, beating Frank Curtis and George Hooley. In the running high jump John Valiant was high man. The others were Douglass Waring, James Scott, Frank Curtis, Reggie Roome and George Hooley. Harold Hegeman finished first in the mile bicycle race and Douglass Waring second. The last event was the half-mile run which was won by Reggie Roome against Douglass Waring and Tracy Howard.

GOLF

Tomorrow afternoon on the Hillside Tennis and Golf Club grounds there will be play for the Gilbert cup, mixed foursomes, handicap competition, open to both active and associate members, eighteen holes, medal play.

Among the latest to visit the Hillside Tennis and Golf Club course is Rev. Charles E. Herring, pastor of the First Presbyterian church, and it will not be surprising if he, like his brother-preacher, Rev. Dr. Richards, may be seen soon playing on the course.

The event on the Hillside Tennis and Golf Club grounds tomorrow will be play for the Gilbert cup for mixed foursomes, handicap, competition open to both active and associate members, 18 holes, medal play. The following Saturday the Hillside team will play the Forest Hill on the course of the latter.

AMONG THE STEPPERS.

Workmen are busily engaged in putting the track at the Plainfield Club park in condition for the Fourth of July races.

A number of speedy horses from New York have arrived at the track of the Plainfield Driving Club, where they will trained for the races on the Fourth of July.

In addition to the fine horse races to be given at the Plainfield Driving Club on July 4th there will be several bicycle races that are sure to prove strong attractions.

There will be some fine races at the Plainfield Driving Club track Saturday afternoon. The track is now in the pink of condition and some record breakers are looked for.

ROD AND GUN.

Reports from Sewaren state that weak fish are plentiful and are biting very freely.

Charles Maltby and Elvin VanName spent Monday along the shores of the Back pond at Scotch Plains in quest of various members of the finny tribe. It is needless to say they returned home with a large string.

ON THE DIAMOND

Warren McLoughlin, of this city, pitched on the Poughkeepsie Athletic Club Sunday, against the West New York Field Club, at Weehawken. Eleven innings were played which resulted in a score of 3 to 2 in favor of the former team. Several Plainfield men witnessed the game.

STRIKES AND SPARES.

The bowling contest, which has been in progress on Conover's alleys for the past month, came to a close Saturday. V. W. Nash, secured both prizes for high score and the greatest number of strikes.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

SUMMER OUTINGS.

Personally-Conducted Tours via Pennsylvania Railroad.

The Pennsylvania Railroad Company announces the following Personally-conducted Tours for the summer and early Autumn of 1900:—

To the North, including Niagara Falls, Thousand Islands, the St Lawrence, Montreal, Quebec, the Saguenay, Au Sable Chasm, Lakes Champlain and George, and Saratoga, July 21 to August 4 and August 11 to 25. Rate, $125 for the round trip from New York, Philadelphia, Baltimore, and Washington, including all necessary expenses. Proportionate rates from other points.

Five-day tour to Gettysburg, Luray and Washington September 15. Rate, $25 from New York, $22 from Philadelphia. Proportionate rates from other points.

A nine-day tour to Gettysburg, Luray Caverns, Natural Bridge, Richmond, Old Point Comfort, and Washington, October 9. Rate, $65 from New York, $63 from Philadelphia, including all necessary expenses. Proportionate rates from other points.

For itineraries and further information apply to ticket agent, or address Geo. W. Boyd, Assistant General Passenger Agent, Philadelphia. 6 8 22

TO DEDICATE FIREMEN'S HOME.

Expected That More Than 3,000 Will go to Boonton.

(Special to The Daily Press.)

Boonton, June 22.—The State Firemen's Home at this place will be dedicated tomorrow with appropriate ceremonies. It is thought that there will be no more than 3,000 firemen in the parade, representing all parts of New Jersey. Each company will bring its own apparatus and a band of music.

The home property cost $75,000, including cost of remodeling the interior and the exterior. The building is located one mile from the station, near the lower Montville road. The situation is a beautiful one, opening up rich views, and surrounded by shady trees and green lawns.

Governor Voorhees and staff, other State officers and the State Commissioners of Firemen's Home will leave Hoboken on a special train on the Lackawanna road about 11 o'clock tomorrow morning, arriving in Boonton an hour later. They will be met at the depot by a party of prominent citizens, who will escort them to the reviewing stand in the park.

After the procession the party will be driven to the home in carriages. A dinner will be served on the grounds, and sweet music discoursed by the bands while the prominent guests are eating.

Among the speakers, in addition to the Governor, will be ex Senator Edwards, of Jersey City; Senator Pitney, of Morristown; Speaker Jones, of Newark, and General Spencer, of Passaic.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis." writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

Elizabeth Expects 50,000 Population.

(Special to The Daily Press.)

Elizabeth, June 22.—There is much speculation here as to what population will be shown by the census of the city. The estimates range from 49,000 to 52,000. The general impression seems to be that it will exceed 50,000. Five years ago the population was over 43,000, being an increase of more than 6,000 over 1890.

Mrs. Auglitree, accompanied by her son and daughter, of Third place, will leave in a few days for the Adirondack Mountains, where they will spend the summer.

All For McKinley For a Second Term.

GREAT DEMONSTRATION.

Roosevelt Named For Vice President Without Opposition.

OVATION FOR THE FAVORITE.

Senator Foraker Nominates McKinley and Governor Roosevelt Seconds—Young of Iowa Withdraws Dolliver and Names the Rough Rider—Depew and Others Second. The Convention Adjourns.

PHILADELPHIA, June 22.—President McKinley was unanimously renominated for president of the United States by the Republican national convention at 1:48 o'clock yesterday, and an hour and ten minutes later Governor Theodore Roosevelt of New York was unanimously selected to stand beside him in the coming battle.

The scenes attending the selections were tumultuous. Such unanimous demonstrations in honor of the nominees of a national convention have never been equaled perhaps in the history of politics in this country. It was a love feast, a jubilee, a ratification meeting.

There was a fine setting for the day's spectacular drama. Bright peonies at either end of the stage made two flaming bits of color. Over the vast multitude fans moved ceaselessly to and fro like the pinions of a cloud of alarmed gulls beating the air. There were no preliminaries. The wrangle expected over the question of reducing the representation in the south was averted by the withdrawal of ex-Senator Quay's proposition. The great hall became quiet as Senator Lodge, standing before 15,000 eager faces, gavel in hand, announced that nominations for president of the United States were in order. The reading clerk advanced to the front of the platform. He was about to call the roll of states for the presentation of candidates. When Alabama was called a thin, red whiskered delegate from that state arose and surrendered the first right to speak to Ohio.

WILLIAM M'KINLEY.

A flutter of handkerchiefs filled the air, and a cheer went up from the delegates in the pit as Senator Foraker of Ohio, the ideal of militant Republicanism, strode toward the platform. Foraker is a grand looking man, with something of the imperiousness of Blaine and the dash of a Rupert about him. The air was surcharged with electricity as he mounted the steps, and when he turned about, standing there with gray eyes calmly sweeping the cheering thousands, the magnetic orator must have been conscious of his power to call up a storm that would sweep through the amphitheater. Below him, about him on either side, were banked men and women almost frantically waving hats, handkerchiefs and pampas plumes.

In full view of the convention he stood erect, his face as inflexible as though chiseled in marble, waiting for the applause to cease. When quiet was restored, he spoke in part as follows:

"Mr. Chairman and Gentlemen of the Convention—Alabama yields to Ohio, and I thank her, but Alabama has yielded by reason of a fact that would seem unimportant and superfluous, for she has yielded because our candidate has in fact already been nominated. He was named by Senator Wolcott in his able speech of Tuesday. He was nominated by Senator Lodge in his address of yesterday and by the senator from Indiana when he read the platform, and not only has he been nominated by them, but by the whole American people.

"From one end of our land to the other but one man is thought of for the honor that we are here to confer. He is the first choice of every man who wishes for Republican success next fall. So it is not necessary for me or any one else to speak for him. He has already spoken for himself and to all the world. He has a record replete with brilliant achievements, one that speaks at once his promises for the future and one that is his highest eulogy. It constitutes an example of triumphant success in the discharge of public duty. Four years ago we confided to him a most sacred trust. Behold what results! Our industries were prostrated. He quickened them with a new life and brought to our country unprecedented prosperity. When everywhere in this great land labor was idle, today everywhere our laboring men have employment. When we chose him, he found the mills and the mines of this great country closed everywhere. Today they are open, and while we are here deliberating we are sending their products to every corner of the world in a great commercial conquest. Under his guidance our national currency has been placed above reproach.

"The wild cry of '16 to 1' that we heard four years ago has been put to sleep alongside the lost cause and other Democratic heresies. He has advanced our interests in every land.

"In all American history there is no chapter that chronicles achievements more brilliant than our recent victories on land and sea by which in a hundred days we drove Spain from the western hemisphere, girdled the earth with our acquisitions and filled the world with the splendor of our power. Our name has a new significance. It means liberty for long suffering Cuba, education, enlightenment and the blessings of self government for the millions in Porto Rico and the Philippines. What has been so generously done for us we will do for them. We have so declared in the platform we have adopted, and where is there a fitter place to declare it?"

The speaker then dwelt briefly on the part taken by Philadelphia in the history of the nation. He spoke of its historic traditions and memories.

Then, reverting to the present duties of the nation, he continued: "We could not turn back now if we would, and we would not if we could. We are on trial before the world, and we must meet our responsibilities or ignominiously fall before the eyes of all the world. So we must choose for our candidates the men best fitted for the discharge of our duties. In all the nation there is no man so fitted as the great leader who has conducted national affairs in the last four trying years.

"He has courage and experience. He has a stainless reputation and a blameless life that have endeared him to his country and won him the love and respect of the whole people. He is an ideal man. He is an ideal candidate. For all these considerations, not alone in behalf of Ohio, but in behalf of every state in the Union and of Republicans everywhere, I nominate William McKinley."

At the utterance of McKinley's name the audience began to cheer. The sight was a grand and inspiring one. In the pit delegates and alternates were cheering enthusiastically. Over the acres of spectators bedlam reigned. The hall was an angry sea of tossing color. Flags, red, white and blue plumes shot up as if by magic to crest the waves. Hats were lifted aloft on canes. Umbrellas were hoisted and twisted until they resembled dervishes.

On the press platform the newspaper men, with watches out, were counting the minutes. On the stage Senator Hanna, his handkerchief in one hand, a fan in the other, was spurring the vast assemblage to new endeavors. The raging storm did not seem to satisfy him. He seized a plume and whirled it about his head like a general leading his men to the charge. All at once a delegate bearing the standard of Kentucky rushed forward to the stage. The effect was magical.

Standards of the states were torn loose, and yelling delegates climbed upon the platform to rally around their leader. With state guidons pointed to a common center they made a canopy over the head of the Warwick of the Republican party. Ohio interlocked her staff with New York, Maine figuratively kissed her hand to California, and Minnesota saluted Texas. Then higher still climbed Hanna. He mounted a table where he could look out upon the cheering multitude. Beside him suddenly appeared a young girl arrayed in the national colors. At this sight the cheers redoubled. The music of the orchestra was drowned in the awful din.

The demonstration had now continued with scarcely a lull for ten minutes. Chairman Lodge began to rap for order, but the ring of his gavel was of no avail. A Texas delegate shouted above the roar, "Three cheers for Mark Hanna!" They were given with a will. Then a delegate with Ohio's standard in his hand dived into the main aisle and went careening toward the rear to the music of "John Brown's Body Lies Moldering In the Grave." The bearers of the standards of the other states plunged after him. Down the aisle they swung, starting the whole storm afresh. When they reached the main entrance they were met by men holding aloft a gigantic papier mache elephant with the national colors intwined about its neck. Then the procession came back and circled the pit. For several minutes this parade continued.

At 11:30 o'clock Chairman Lodge recognized Governor Roosevelt of New York. As the governor took the platform the applause broke out again as loud as ever. A squad of photographers rushed at the platform and began to take pictures.

All the delegates jumped up and again waved the standards of all the states. The enthusiasm would not be suppressed until nature came to the aid of the chairman.

"Take that away," said the governor as he caught sight of a big camera aimed at him. A big sergeant-at-arms hustled the machine away. Governor Roosevelt again and again waved his hand for silence. It was five minutes, however, before he got a chance to begin, and then he said: "Fellow delegates, fellow Republicans and Americans, I rise to second the nomination of William McKinley." The cheering broke out again for a moment. But everybody wanted to hear Roosevelt and every word he said, so the noise finally subsided and perfect order was maintained.

Delegates and spectators alike listened to the governor with close attention, and almost every sentence he uttered was applauded.

There was a burst of laughter when the governor said that the Spanish war was not a great war, because it did not have to be a great one. Easily the greatest hit with the audience made by Governor Roosevelt was his reference to the Tammany connection with the ice trust in New York, which trust, he said, was infamous, if not criminal.

"In the state of New York," said Roosevelt, "we have found the leaders of the Democratic party, and among those leaders that one leader of them all before whom all the other leaders bow with trembling knees, in a trust that may prove criminal. They have been caught practicing that which they cry down in bitterest terms. That trust is one in which they combined to wring fortunes from the dire need of their brothers. I pity the Democratic orator who dares to say 'trust' in New York state during the coming campaign."

Governor Roosevelt concluded his speech at 11:50 o'clock, and there was another great outburst of applause led by the delegates on the floor. Those who had grown hoarse from shouting stamped with their feet.

When order was restored, the chair recognized Senator John M. Thurston of Nebraska, who took the platform to second the nomination of the president. Senator Thurston spoke in a strong, clear voice and received close attention.

Senator Thurston concluded at 12 o'clock, and J. W. Yerkes of Kentucky followed. Mr. Yerkes occupied ten minutes, and then the delegates began to demand a vote. Chairman Lodge called for order and recognized Mr. Knight of California.

Mr. Knight was new to the country at large and as a convention orator. He

made an excellent impression, which would have been even better if he had made his speech shorter. Mr. Knight concluded his speech at 12:25 o'clock and was followed by Governor Mount of Indiana. Although the delegates were again calling for a vote, Governor Mount would not be shut off.

At 12:40 o'clock Chairman Lodge ordered a call of the roll of states for balloting for president.

He asked that order be preserved, because the business was solemn and important. "Alabama has 22 votes," said the clerk. "Alabama casts 22 votes for William McKinley," replied Chairman P. D. Barker of the delegation.

"Arkansas has 16 votes," the clerk went on. "All for McKinley," responded Judge McClure, the chairman.

So it went on down the line of states without a moment's delay beyond the applause that greeted the naming of prominent states.

There was a great outburst of cheering when Chairman Odell got up and cast the 72 votes of New York for McKinley. Pennsylvania broke the monotony of the roll call. The 64 delegates got up on their chairs and cheered for the presi-

THEODORE ROOSEVELT.

dent as Senator Quay announced the vote for McKinley.

"Eight votes and 40,000 majority for McKinley," was the response of Vermont.

The roll call was concluded at 12:50 o'clock, Hawaii casting the last two votes for McKinley.

A minute later Chairman Lodge announced, "There have been cast 926 votes, all for William McKinley, and I announce his unanimous nomination for president for the term beginning March 4, 1901."

The band struck up "The Battle Cry of Freedom," the delegates joined in the chorus, and there was an outburst of applause.

Then an immense imitation elephant walked majestically down the center aisle, causing much amusement.

Order was soon restored, because every one was eager for the nomination of Roosevelt to begin. Chairman Lodge appealed for quiet. He said it would be impossible to go on without order in the galleries. He called the attention of the delegates to the fact that there was much work for the convention to do after the nominations were completed.

As the name of Alabama was called on the roll of states for the nomination of candidates for vice president the announcement was made by the chairman of the delegation that Alabama would yield to Iowa to present a candidate.

Chairman Lodge then recognized Colonel Lafe Young, one of the Iowa delegates at large. Robust and vigorous in his physique and in his mentality, Colonel Young swung down the main aisle to the platform to do that which a single orator never before did in a Republican national convention—withdraw one strong and magnetic man as a candidate and present the name of another for the second office in the gift of the American people. He withdrew the name of Dolliver and offered that of Roosevelt.

Colonel Young was in Cuba at the time Roosevelt led his gallant rough riders up San Juan hill, and his reference to the governor's campaign was eloquent and touching.

The demonstration which followed the announcement by Colonel Young of Governor Roosevelt as the candidate of the young men of the country, who represented their desires and their ambitions and embodied their patriotism and Americanism, was not second to that accorded the president's name.

The vast assemblage sprang to its feet, and state emblems, pampas plumes, handkerchiefs and hats fairly filled the air. The band in the main gallery began to play "There'll Be a Hot Time In the Old Town Tonight," and to the inspiring strains the delegates began marching around the hall, filing past Governor Roosevelt as he sat in the New York delegation and extending to him their congratulations.

In the procession of standards after the nomination of Roosevelt was one of the woman delegates from Utah, who presented him with a big bunch of roses, for which Governor Roosevelt returned a profound bow.

Several of the Kansas delegates removed their beautiful silk sunflower badges and threw them upon Governor Roosevelt during the march of the delegates. It was an inspiring demonstration. Mrs. Roosevelt looked down upon it from her position of vantage in the side gallery. She was pale as paper, but appeared smiling and happy. The demonstration continued for 6 minutes and 40 seconds, during which time Governor Roosevelt received the congratulations of his friends, looking the while like a bronze statue, so imperturbable was he.

When quiet was restored, the chair recognized Mr. Murray of Massachusetts to second the nomination.

Mr. Murray spoke as follows:

"Gentlemen of the Convention—Massachusetts commissions me to speak to you today, and she accompanied it with the injunction that I should be brief. We who come from the Bay State love the governor of New York. We have for him that high appreciation which Massachusetts always has for a fighting Republican. His life to us is an embodiment of all that appeals to American manhood. On behalf of the state of Massachusetts, which has furnished the president one of the best assistants he has had in the administration, with the highest kind of regard for this great convention, in behalf of old New England, which has been responsible for many of the characteristics of American life, I second the nomination of the governor of New York."

Then there were calls for Depew. He yielded to the demand and went forward to the platform amid a storm of cheering.

The senator waited for quiet before he began to talk. Mr. Depew said in part:

"I am not on the programme, but I have a pleasant duty to perform. I am here to tell you that New York came here wanting Theodore Roosevelt for vice president. When Colonel Roosevelt expressed his wish not to be a candidate, we respected it and chose as our man Timothy L. Woodruff. Now at Mr. Woodruff's request we withdraw the name of our lieutenant governor and put the colonel in nomination. I had the pleasure of nominating him two years ago for governor, when all signs pointed to the loss of New York in the election, but he charged up and down the state from Montauk Point to Buffalo as he charged up San Juan hill.

"The Democrats fled before him as did the Spaniards in Cuba. It is a peculiar fact that American men are not born to anything, but they get there afterward. McKinley, the soldier, became McKinley, the major; McKinley, the congressman, became McKinley, the author of a great tariff bill; McKinley, the president, becomes one of the greatest of American presidents and one of the best rulers in the world. So with the colonel—we call him Teddy. He was a child of New York city, the place you western men think breeds coupons, clubs and eternal damnation.

"'Teddy' was a child of Fifth avenue, of the clubs and of the exclusiveness of Harvard. Then he went west and became a cowboy. Then he went to Washington and became assistant secretary of the navy.

"When at San Juan hill a militia regiment was lying in the road with the bullets flying over their heads. A gentle voice was heard saying, 'Gentlemen please move to one side that my men can get through.'

"They got through.

"The dude had become a cowboy; the cowboy now became a soldier and the soldier a hero, and he ran up the hill shouting to his men: 'Give 'em h——, boys! Give 'em h——!'

"Now, gentlemen of the convention: [The crowd: "Go on! Go up the hill!"] I thought you were getting tired. Well, the allusion was made by one speaker to the effect that the Democrats meet in Kansas City on the 4th of July. Great Scott, the 4th of July! On July 4 all the heroes of the Revolution, of the war of 1812, of the rebellion and the Spanish war will be in spirit in procession all over the country, but they will not be at the Democratic convention at Kansas City.

"There is one who is detained from there, but he is at present running a foot race away from American soldiers. George Washington's spirit cannot be there, but there is a George Washington who would be there if he could—George Washington Aguinaldo. He would like to sit in that gallery and hear the platform antiexpansion and hear Jefferson come out of the clouds and say, 'Who are you?'

"Then would come a procession, Jefferson, Monroe, Polk, all pointing to Louisiana, California, New Mexico, Oregon, pointing to what has made our country foremost.

"Then will come great Bryan himself. 'Down with trusts, down with trusts!' he cries. Then there will be a breaking of pitchers on the table by the clashing of the ice within [laughter], for that ice will be making merry at 5 cents a chunk."

The names of other candidates for vice president were withdrawn, and the roll of states was called. At the conclusion of the call Chairman Lodge announced that Governor Roosevelt had received 929 votes, one delegate in the convention not voting. This delegate was Governor Roosevelt himself, who refrained from voting with the New York delegation.

Chairman Lodge's announcement that Governor Roosevelt had been nominated for vice president evoked a burst of applause that fairly shook the great steel girded building to its foundations. Roosevelt announced that he could not refuse so spontaneous a nomination.

Resolutions of thanks to Mr. Lodge and to Mr. Wolcott for their able services as presiding officers were unanimously adopted; also thanks to Mayor Ashbridge of Philadelphia for the hospitality of the city and to all officials of the convention. This closed the work, and on motion of Sereno E. Payne of New York the Republican national convention of 1900 adjourned sine die.

The national committee met after the convention and re-elected M. A. Hanna chairman of that committee.

Chairman Hanna announced the names of the five members of the new executive committee of the national committee as follows: Henry C. Payne of Wisconsin, Joseph H. Manley of Maine, N. B. Scott of West Virginia, Harry D. New of Indiana and George L. Shoup of Idaho.

It is expected the committee to inform President McKinley of his nomination will perform their duty at Canton, O., July 12.

Train Plunges Through a Bridge.

CARIBOU, Me., June 22. — The through train on the Canadian Pacific railway from Edmundston to Aroostook Junction, consisting of seven freight cars, two passenger cars and one baggage car, broke through the second span of the Grand Falls bridge over the St. John's river, and the entire train went into the river. Conductor Henderson was hurt internally, and a commercial traveler named Smith and others were seriously injured. The bridge is 75 feet above the bed of the river, the water being 15 feet deep. The engine and freight cars were piled up in the river, with the passenger coaches standing one end upon the wreck.

Roosevelt In New York.

NEW YORK, June 22.—Governor Roosevelt arrived in Jersey City at 8:20 o'clock last night and, taking a cab, was driven to the Union League club in this city, where he spent the night. Today he went to Oyster Bay for a rest. Few people knew of the governor's hour of arrival, and in a closed cab he was not recognized. He came over with B. B. Odell, Senator Depew, General Francis Greene and Reuben L. Fox. He positively declined to talk about his nomination, intimating that he would do all his talking at one time, when the committee to notify him made their call upon him.

Hawaiian Delegation.

PHILADELPHIA, June 22.—The Hawaiian delegation to the Republican national convention left this city today for New York. The representatives of that faroff Pacific island are greatly pleased over the attention paid them during their stay in this city. The Hawaiians were among the most popular delegates at the convention.

Weather Probabilities.

Showers and cooler; brisk southerly winds.

Choice Meats of all Kinds

Every man and woman who deals with me saves money.

I handle only the best and highest grade of meat money can buy.

People often lack an appetite because they have eaten something unwholesome. Buy your meat of me and you will find nothing of that kind. I guarantee satisfaction.

IT WILL PAY YOU to buy of me as I give you the best meat for the smallest amount of money. If you want to save money in buying your meat give me an order. This is not a mere boast, it is a fact, and I will prove it on receiving your order.

HISTORIC PLAINFIELD.

SALUTATORY ESSAY DELIVERED BY MISS MARY LOCK.

An Interesting and Instructive Sketch of the Principal Events in the Life of This City.

The following is the salutatory essay delivered by Miss Mary Lock on the subject "Historic Plainfield" at the High School graduation exercises in Music Hall last night:

Introductory to this brief outline of Historic Plainfield, I desire first of all to express my deep indebtedness for the use of the unpublished manuscripts of the late Mr. Andrew D. Mellick, Jr. It is from the wealth of information collected by him on Plainfield and its surroundings that the material for this little sketch has been, in largest measure, drawn.

Let us in thougnt transport ourselves to Washington Rock, and back three hundred years, to take a birds-eye view of the Plainfield of 1600. We shall not recognize it, for as yet the future city lies buried in the heart of the forest. No sound of civilized voice breaks in upon the solitude of Nature's wild beauty; a luxuriant growth everywhere, as yet unspoiled by the hand of man. Instead of the hum of the trolley, we hear the harsh scream of the panther; in these convert shades are hidden the bear, the wolf, the fox, the wild-cat, and the timid deer; through this forest the silent red man roves, his title as yet undisputed. Yonder breaks in the wood indicate two Indian trails dating back into the remote past; the one running near, the other through, the present site of Plainfield. Mr. Mellick tells us that, in changed aspect, both are preserved today: the first is the old turnpike crossing the State, the most ancient highway in New Jersey; the second, intersecting this, was the trail known as the Minisink Path, which, commencing at a point on the Delaware, ran south-easterly into our Plainfield Valley, then, in Mr. Mellick's words, "a prolific wilderness, teeming with waste fertility", and continued thence to the Raritan. We are still able to trace this trail as crossing Park Avenue near the site of the present driving park, and so continuing on to the Highlands of Navesink, meaning in the Indian tongue "the place to go fishing". Great numbers of Indians used to pass over this trail on the way to Long Island for their favorite food, clams, which they cooked in heated pits; thus the Indian was the originator of the far-famed Long Island clam-bake.

Such was this spot three hundred years ago, with none to forecast what it should become.

Let us, like Rip Van Winkle, sleep for one hundred years, and awake to the Plainfield of 1700. Only about sixteen years before had the white man first penetrated this valley, but a little settlement has already sprung up. The rough houses are built of split logs, eight or ten inches broad, plastered within — the progenitors of the present-day mansions, whose owners, I imagine, would hardly care to change places with their early fathers. No trouble is experienced from the Indians—they prove a help rather than a menace, since, most opportunely for the colonists, they had but recently been subdued by their dread enemies, the Iroquois, compelled to lay down their arms, take the name of women, and pay a yearly tribute, so that none of us can brag too loudly of our Plainfield Red Indians.

Our little settlement seems to have begun in a purchase made by one Gawen Lawrie, who, in 1684, bought of the Indians a large tract of land about Green brook, which included the present site of Plainfield. Canny Scotch imigrants coming in with their Presbyterian servants soon settled the land. It must have been about the same time that the sturdy Dutch settlers began to make their influence felt in the community, an in influence which in their descendants is, as we all know, a very important factor in the Plainfield of today.

Would you like to form some idea of our settlement of those times, which you must not suppose was yet known as Plainfield? The early settlers write from our suburb, New Brooklyn, that the first inland settlement "in this part of America" was made in 1684 on Cedar brook. They describe the location as a "pleasant plain on the brook called the Vine or Cedar brook, from a swamp of cedars whence it springs, and the multiplicity of vines growing upon it." The cedars and the vines we acknowledge today; the swamp we indignantly repudiate! One Thomas Fullerton writes that the new location leaves them in want of nothing "but the society of the pretty girls to all whom, who retain any remembrance of me, let my services by remembered". Vain old Thomas!

James Johnston, another settler, though seemingly delighted with the new life at Cedar brook, has one thing against it: he writes, "There is a Flee by the Salt Marsh, most troublesome in summer, but not found in uplands". We seem from this description to recognize the mosquito, a pest with which, as we all well know, unfortunate neighboring cities are still plagued!

Two settlers leave us a price list of certain articles in 1684, which I transcibe for the benefit of the householders of today. It is as follows: Beef, one penny a pound; pork, two pence; venison, one penny; mutton, three pence. Might not these prices well bring the blush of shame to the present generation of Plainfield butchers!

We stride forward one hundred years to 1800 and find that our settlement has broadened out into something more distinctly modern. It possesses a name, only recently acquired, to be sure, for up to this time our city was a village of but two hundred inhabitants, boasting one main or stage road, flanked on either side by a few straggling houses. It might be supposed that Plainfield received its name as a contrast to the surrounding hills, by courtesy entitled mountains; but in reality it is to the Society of Friends that we are indebted for the name. In 1736 that body met by permission in the house of one John Laing, in Piscataway township, about four miles from here. This meeting was called the Plainfield meeting; the house in which it was held, the Plainfield meeting house—why, history does not relate. A number of years later, wishing to build a new house, the society decided to migrate, and chose the site, well known to most here, on Watchung avenue, opposite the station. They brought the old name from Piscataway and gave it to their new building, that building still standing today, upon which most of those present have read the date of its occupation, 1788. Thus the district around took its name from this familiar object, the Plainfield meeting house.

Just previously the Revolution had shaken the country, and Plainfield had its share in those stirring incidents. Not to speak of engagements at Oak Tree and Metuchen Church, there are marks of the war right amongst us. Mr. Stillman tells us that on West Front street, running west of the Rocap property to the brook, are some eighty-eight acres formerly owned by the United States Government and used as a camp ground. It is referred to in old deeds as the "Camp Lot." A few years ago a tree blew over on the rear of the property and disclosed fifteen or twenty skeletons supposedly those of soldiers.

Many other things of interest might be mentioned, such, for instance, as the old oak on the William Hand property under which a British foraging party killed and dressed a sheep, or the counterfeiting of British money by a British subject on the David Hand property, the gold realized being probably buried near at hand and remaining yet undiscovered. The man was hung for the deed. We must not forget, mor eover, the Rock which was Washington's outlook, or the house linked with his name, on West Front street and Giraud avenue. We might dwell at length and with deep interest on the old cemeteries in the city, with their quaint tombstone records, including the one near by at Evona, in which are buried several Revolutionary soldiers.

In the first two decades of 1800, Plainfield's population was doubled. Perhaps in no direction was progress more felt than in that of education. I must be pardoned for dwelling at some length on the subject of the Plainfield schools, surely a topic of deepest interest to all of us. When in 1825 the Plainfield Presbyterians were first constituted into a church of eighteen members a subscription paper was circulated for building a "Presbyterian Church and Classical Academy"; two years later the church was completed, and soon after the Academy was opened in its basement. A number of years before, a school-house "Academy" had been built on Front street, a little west of the present New street. This school, whose teachers were maintained at private expense, flourished until 1835, when a fire burned off the roof of the second story, and the "Academy" abruptly closed.

Not so unhappy a fate attended the organization of the Plainfield Public School in 1847. We cannot help a feeling of pride and pleasure in noting that this was the first *free* public school in New Jersey for all classes of children. Not until thirty years later did the State law and constitution compel a thorough system of *free public schools*.

Time fails to note the successive erection of churches and schools up to the present day; under the eyes of some here tonight practically all that we now see about us has been added house by house and street by street. The grandsons of Revolutionary sires have marched to the Civil War, and today are our honored veterans. The railroad, taking the place of the Indian trail, links us with the remotest corners of the continent. More especially has New York city pitched upon this spot as "home" after the day's work is done.

Thus the first little settlement on Cedar brook has become a wealthy and influential city; the old stage is changed for the trolley; the log-cabins for palaces; the little school in the church basement for a splendid public school system.

I have endeavored in brief outline to give you the aspect of Plainfield about the years 1600, 1700, 1800, 1900. To a future graduate I leave it to complete the record of the year 2000.

COPYRIGHT 1900 BY THE PROCTER & GAMBLE CO. CINCINNATI

WHITE LOGIC.

EDWIN FORREST was once drilling a stupid "super." In despair Forrest exclaimed: "Can't you say it as I do?" "No," said the man; "if I could, would I be working for $5.00 a week?" If you asked a cheap yellow soap to do the work of Ivory Soap the reply might well be: "If I could, would I sell for half as much?" Ivory Soap, being pure, costs money, but not more than a pure soap has to cost.

Singer Company's Big Extension.

(Special to The Daily Press.)

Elizabeth, June 22.—The new addition to the big plant of the Singer Sewing Machine Works in this city is rapidly approaching completion. The annex is 628 feet long by 200 feet wide and is five stories in height. It takes up nearly all the ground formerly occupied by the handsome park which the company had north of its plant and which extended from First to Second streets at Elizabethport. There are 930 big windows in the new structure, which will require 28,830 panes of glass.

Big Brick Works.

The large brick works at Alpha, Warren county, are now completed, and several hundred hands are employed. The Alpha Cement Company is operating the brick plant. John Hoffman, of Riegelsville, Pa., has been appointed superintendent.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

THE DAILY PRESS.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 3—Volunteer League of the Y. M. C. A.

July 5—Board of Directors of the Y. M. C. A.

July 6—Y. M. C. A. Boys' Camp at Lake Champlain.

McKinley and Roosevelt.

McKinley and Roosevelt. They are the Republican standard bearers in a campaign that promises to be the most important since the time that Abraham Lincoln was elevated to the Presidency.

For the Republicans they are a strong team. The renomination of President McKinley was a foregone conclusion from the outset, and the only one which the Republicans could look at in the logic of party safety. The stirring events through which the country has been passing for the past three years have been impregnated so strongly with the President's personality and close identity that it was almost inevitable that he should be the unanimous choice of his own party to carry on the ideas which have characterized the Republican administration. It was certain that issues in the campaign on the Republican side will be those acts which have been prominent in the President's official life during his occupancy of the White House, and it would have been the height of political folly to have selected any other man than Mr. McKinley to have led the fight for a confirmation of Republican policies by the voters of the United States. Every President who comes up for re election has elements of weakness which a new man would not have, but this is to be an exceptional campaign and the only thing that the Republicans could do consistently and honestly was to honor Mr. McKinley with a renomination. Despite whatever elements of weakness he may possess, it is a fact that he is the strongest candidate that could be selected.

In his position as the chief executive of the country, Mr. McKinley, personally, will not participate actively in the campaign. It would not be dignified. But in his running mate, Col. Roosevelt, there is a candidate whose name and personality at once invests the campaign with an energy and get-up-and-get-there idea that will make plenty of enthusiasm. The Rough Riding Governor will undoubtedly make a hurrah time of it, and stir the masses of his party to a great pitch of ardor and devotion in the midst of the campaign. Col. Roosevelt is a rattling good campaigner, and he will undoubtedly commence his work as a candidate for the second highest office in the country in a vigorous manner. At times the Colonel is rather theatrical in his methods, but that is what the "boys" like and they will rally around the Republican banner with greater pleasure and interest.

If the voters decide by their ballots that the Republican administration should be continued in power, we do not believe that the Vice-Presidency will be a dignified tomb in which the political aspirations of Col. Roosevelt will find a final resting place. Wherever he is, or with whomever he is in touch, Col. Roosevelt has the faculty of making himself felt. The occupancy of the Vice-Presidential chair by the late Garret A. Hobart resulted in restoring that honorable office to a proper idea of its importance and influence, and we believe that if Colonel Roosevelt should be fortunate enough to be on the winning side this year he, too, will invest the office with a personality and activity that will obviate the chance of his being simply a useful ornament to the Government at Washington.

Some State elections will be held before the Presidential election in November. The are Alabama, Arkansas, Georgia, Maine and Vermont. Alabama chooses a Governor and State officers in August; Arkansas a Governor and State officers in September, and Georgia a Governor and State officers on the first Wednesday of October. Maine elects a Governor and other State officers on the second Monday in September, and Vermont in the same month, but a week earlier, a Governor, Lieutenant-Governor, Secretary of State and Treasurer; also two Representatives in Congress.

The Daily Press was the only paper in Plainfield that displayed enterprise enough to have a staff representative at the Republican National convention. The reports of the convention and incidents in connection with the great assemblage which were printed in The Daily Press every day that the convention was in session were complete and newsy in every particular. A staff representative of The Daily Press will also be in attendance at the Democratic National convention in Kansas City.

The retirement of Theodore Roosevelt from the executive chamber at Albany will deprive New York of one of the best Governors she has ever had. Roosevelt has made some mistakes, and has had a difficult job to come up to the high ideals that he himself had set forth for others, but his administration has been a good one nevertheless.

Well, at any rate Tim Woodruff got considerable fun out of the Republican convention.

The Long boom for Vice-President was rather short.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

Until recently Ora Wright and Frank Jones, of McAfee, Sussex county, were the chicken experts in that part of the State, but now they have taken back seats, for Walt Edsall has discounted all their stories and gone them one better. In relating his story Mr. Edsall declares that he is willing to back it up with a variety of affidavits, and as he is known to thoroughly understand the nature of an oath no one questions the truth of what might otherwise be regarded as a fairy tale. The incident is related for the benefit of a truth-loving public by the Sussex Democrat in these words: "Walt tells for solid, 7x9, all-wool fact that he set a hen a year ago last May; that the hen left the nest after twenty-two days, when he put the eggs in an old milk can and stood it in a back yard in the sun, and that in September every gosh-darned egg except one hatched out a fine chicken. Walt swears he can prove this story true by John Quince and DeWitt Marsh. Messrs. Jones and Wright and Carr have been awful modest in their statements about chicken hatching since Walt sprung this bit of gospel truth on the McAfee public, and if they are forced out of the poultry business it will be because Walt Edsall has got the bulge on the whole feathered tribe, ancient eggs and all."

PARTICULAR MENTION.

Samuel E. Terry, of East Third street, who has been suffering for some time from a paralytic stroke, has been taken to the hospital.

Mrs. George H. Babcock, of West Eighth street, will leave Plainfield the first part of next week for Ashaway, R. I., where she will spend the summer.

Harry Kingslow, porter at John Powers' drug store on Somerset street, is carrying his right hand very carefully wrapped with linen. Harry had an accident Tuesday while performing his work, necessitating a slight operation.

W. T. Eames, of Seawaren, visited Plainfield yesterday with a Canada electric motor cycle, which attracted considerable attention. He was the guest of F. R. Stevens, and while here gave several friends rides about the city.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence to The Press.)

Dunellen, June 22.—Amidst the admiring glances of friends and relatives who crowded the Presbyterian church last evening, seven young graduates of the Dunellen public schools bade farewell to their years of school life and stood forth prepared for work with the great wide world as their field. The class was composed of six girls and one boy. Their class colors were green and white and their motto, "Finis Coronat Opus." The names of the graduates are Julia Mae Dodwell, Mary Elizabeth Herlich, Amy Rose Hayes, Margaret Elizabeth Dinneen, Alwilda Dennick, Margaret VanArtsdale and Matthias Joseph Eganey. The declamation was given by the latter. The exercises, which began with a prayer by Rev. S. K. Doolittle, consisted of essays by the graduates, an address by State Superintendent Baxter, of Plainfield, and concluded with the benediction by Rev. Frank Fletcher. At the close of the exercises a reception was tendered the class in the chapel of the church. The programme in detail was follows:

Graduates March—"Corsican".....Goerdeler
Lizzie and David Kuldoshes.
Invocation.....Rev. S. K. Doolittle
Music—"Opera Bouffe Potpourri"..Orchestra
Essay—Promptness.
Margaret Elizabeth Dinneen
Essay—Life's Work...Mary Elizabeth Herlich
Chorus—"Come Flit Around".....Wekerlin
Essay—National Traits Expressed by Amusements.....Julia Mae Dodwell
Essay—Reading for Improvement.
Margaret VanArtsdale
Chorus—"The Happy Miller".....Veazie
Address...Charles J. Baxter, Plainfield, N. J., State Superintendent of Public Instruction.
Declamation—"Valley Forge."
Matthias Joseph Eganey
Music—"Love's Missive".....Orchestra
Essay—The Good Old Times.Alwilda Dennick
*Essay—Character.....Amy Rose Haynes
Chorus—"Let the Hills and Vales Resound."
Richards
Presentation of Class to the Board.
L. Meserolle, Superintendent of Schools
Presentation of Diplomas and Prizes.
W. J. Hamilton, President of Board

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 22—Henry Heller and Charles Schindler, of Utica, former residents of New Market, were in town Tuesday, calling on old friends. They were visitors at the National convention at Philadelphia and being so near thought they would visit their former acquaintances. They were accompanied on their return by Mrs. Danz who was going to Columbus, N. J., where her daughter Lillian is spending a few weeks.

A number of residents in town have declared their intention of placing sailboats on the pond with which to enjoy a few hours recreation without the hard work of propelling a row boat.

The Friendship Social Circle was pleasantly entertained Wednesday by Mrs. Frank Randolph. They will be entertained next week by Mrs. William Dunham.

Joseph Winkler, of Basking Ridge, has returned home after a visit with his mother.

Mrs. David Montford, of Eckley, Col., is visiting her niece, Mrs. Frank O. Nelson.

Miss Jennie Schench is on the sick list. Dr. Whitford is in attendance.

Joseph Maitland is the happy possessor of a new wheel.

Mrs. W. H. Satterlee is confined to her home with illness.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 22—Mrs. Andrew Rogers and daughter, Miss Stella, of Brooklyn, have been visiting at the home of Mrs. Rogers parents, Mr. and Mrs Alva Ryno, of East Front street.

The members of the choir guild of All Saints' church are preparing to entertain a large crowd at their cake and ice cream sale to be held in the Fanwood fire house this evening.

E. L. Hand, Wm. B. Noble and Wm. R. Stansberry will represent the local exempt firemen's association at the opening of the new firemen's home in Boonton tomorrow.

Miss Sadie Reger, of the corps of teachers in the Public School, has left for Sucasunna, Morris county, when she will spend her vacation with her parents.

Mrs. George Schick and Miss Annie Molloy have returned from a pleasant visit with friends in New Brunswick

Township Committee will hold a regular meeting in the township rooms this evening.

The Borough Council of Fanwood, will hold a regular meeting in their rooms this evening.

Goodwill Lodge, K. of P., held a large and interesting meeting in their rooms last evening.

William Bullman, of Brooklyn, is spending a few days at the home of Mrs. Daniel Allen.

WESTFIELD.

(Special Correspondence to The Press.)

Westfield, June 22—Yesterday afternoon a tramp stopped at the house of Thomas Hyslop, near the railroad in Westfield, and asked for a drink of water. It was given him. Shortly after he went away Mrs. Hyslop missed two suits of clothing, and firmly believes that the confederate of the tramp stole them. The officers made a search through the woods, but found no trace of the man who got the water.

CRANFORD.

(Special Correspondence to The Press.)

Cranford, June 22—The Cranford Board of Health will have the river cleaned up to Beadle's bridge, and then use every effort to have all pollution of the river stopped. The State Board of Health has been called upon to assist the local board.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 22.—James and Hollis Cubberly and Harvey Clawson left yesterday for Lake Hopatcong, where they will spend about ten days camping out.

Mr. and Mrs. W. H. Manning attended commencement in Trenton Wednesday evening. Their daughter Nellie was one of the graduates from the State Normal school.

The Ladies' Aid Society will not hold their regular meeting through the months of July and August.

The T. A. B. Society will give their third annual picnic tomorrow afternoon and evening at Ryno's Park.

Several from our vicinity attended the commencement exercises in Plainfield last evening.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph's drug store.

Dr. S O. B. Taylor, of East Millstone, was a visitor in Plainfield yesterday and was a welcome caller at The Daily Press office.

Mrs. Eleanor Joslin Geisinger, who has many friends in this city, has announced in New York her engagement to Julien Edgerly, news editor of the New York Evening Journal. The marriage is to occur at an early date.

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—A. M. Griffin has made a special cut on Wolff-American wheels for the next ten days.

—There will be a meeting of the board of governors of Muhlenburg hospital next Monday evening.

—The messenger boys of the Western Union have received their summer caps, which are very natty in appearance.

—The first layer of stone has been laid on the upper part of Watchung avenue which is now being macadamized by the property owners.

—A special meeting of Somerset Council, Jr. O U. A. M., will be held tonight. A large attendance is desired as important business will be transacted.

—All kinds of fresh fish, lobsters and clams received daily by Fred Endrees, 131 West Front street. If you buy of him once you will always give him a second order.

—Several well-known men will relate their personal experiences at the Y. M. C. A. meeting next Sunday at 4:15 p. m. Good music will be a feature of the meeting.

—Joe Johnson, with Drake & Mundy, butchers, 153 West Front street, has daily a stock of fresh vegetables. He prides himself on his prices and the quality of goods he sells. Give him an order and you will be satisfied.

—C. M. Nagle, prescription pharmacy, West Front and Grove streets. Your prescriptions are safe with him, and only what the doctor orders. Nothing but the purest drugs used. His delicious ice cream soda is making him friends.

—See advertisement in another column of the Morey-LaRue Laundry Company, 19 Somerset street, the largest laundry in the State. Big difference in laundries. Give them a trial if you want your collars and cuffs in the pink of condition.

ENJOY THE JUNE DAYS.
Good health is essential. L. W. Randolph's Active Liver Pills cleanses the liver, improves digestion, dispels headaches. Small pill, small price, 15c per bottle.

JUST A TASTE

of our Butter is enough. Henceforth we have you as a customer.

We carry three different grades of butter, each of which has its special merits.

Our Rockdale Print Butter at 26 cents per pound, is the best on earth. It has the rich, delicate flavor of the finest cream and for table use cannot be surpassed.

Some of the cheaper grades of butter sold elsewhere are often tasteless. Our lowest priced goods are of excellent flavor.

6 19 6 JENKINS & CLIFFTON, PROPRIETORS.

Schweiz.

Bern. Das Feilbieten und der Verkauf von Edelweiß mit Wurzeln und der Export von solchen ist bei einer Buße von 5 bis 50 Francs im Kanton Bern verboten worden. Erlaubt ist nur, ausgewachsene Blüthen mit Messer oder Scheere abzuschneiden.—Karl Johann Eggimann, gewesener Direktor der Backsteinfabrik Zollikofen, hat die Stadt Bern zu seinem Haupterben eingesetzt mit der Bestimmung, daß der Nachlaß zu gemeinnützigen und wohlthätigen Zwecken verwendet werde.

Zürich. In der Gemeinde-Abstimmung zu Zürich wurde das Kreditbegehren von 3,000,000 Francs für eine Quellwasserversorgung der Stadt Zürich mit großer Mehrheit angenommen.—Der 41jährige Gastwirth zum „Löwen" in Affoltern, Emil Frei, fiel Nachts auf seinem Heimritt von Zürich so unglücklich vom Pferde, daß er todt vom Platze getragen werden mußte.

Luzern. Der in Basel verstorbene Dr. Heinrich Schnyder, gewesener Oberfeldarzt der schweizerischen Armee, hat dem Kantonsspital von Luzern eine Schenkung von 100,000 Francs gemacht.

St. Gallen. In Rohrschach ist der Kammerdiener des Kaisers Maximilian von Mexiko, Adamo Alceo, der letzte Augenzeuge der in 1876 erfolgten Erschießung dieses unglücklichen Monarchen, im Alter von 71 Jahren gestorben.

Graubünden. Die Gemeinde Chur verwarf zum dritten Mal die Initiative, betreffend Unentgeltlichkeit der Lehrmittel, mit 722 Nein gegen 705 Ja.

Wallis. Von Zermatt aus ist die erste diesjährige Hochgebirgstour ausgeführt worden, nämlich die Besteigung des 4000 Meter hohen Nadelhorns. Die Schneeverhältnisse waren ziemlich schwierige, doch gelang es den Besteigern, einem gewissen Hasler in Bern und dem bekannten Grindelwaldner Führer Jossen, die Tour zu einem guten Ende zu bringen.

Rheinprovinz.

Köln. Der verstorbene Besitzer der Pallenberg'schen Kunstmöbel-Fabrik, Pallenberg, hat der Stadt 850,000 Mark zu wohlthätigen und gemeinnützigen Zwecken vermacht.

Koblenz. Die Stadtverordneten nahmen eine Schenkung des verstorbenen Rentners Otto Jordan von 100,000 zu Gunsten des Bürgerhospitals an.

M.-Gladbach. In der Gladbacher Zeugdruckerei brannte ein großer Lagerschuppen, der 2000 Stück Gewebe enthielt, nieder. Auf der Brandstätte wurden wegen Verdachts der Brandstiftung der Firmentheilhaber Schippers und der Fabrikwächter verhaftet.

Trier. In den Weinbergen des Mosel- und Saargebietes haben Nachtfröste starken Schaden angerichtet. In Platten, Helfant, Longuich, Fastrau und Kenn ist fast alles erfroren. In den Weinbergen zu St. Mathias bei Trier blieben nicht zehn Prozent der Stöcke verschont, auch im Olewiger Thal ist fast alles erfroren.

Provinz Sachsen.

Eisleben. Unsere Stadt prangte vor Kurzem im Festschmuck. Galt es doch, das 700jährige Jubiläum des Mansfelder Bergbaues zu feiern. Jedes Haus und jeder Einwohner war festlich gekleidet, die Knappen und Beamten der Gewerkschaft trugen alle die historischen schwarzen Jacken mit den vielen Knöpfen und die schwarzen Kappen. Zu dem Feste, für dessen würdige Ausrüstung 200,000 Mark bewilligt waren, war auch der Kaiser erschienen.

Gommern. Ein Häftling des hiesigen Gefängnisses, Namens Nicolas, erhielt vier Wochen Urlaub, um dem Kriegsministerium einen neuen Feldkessel zum Gebrauch für Soldaten vorführen zu können. Für das Patent hat Nicolas 150,000 Mark gefordert.

Salzwedel. Im hiesigen Kreise sind durch galizische Ernte- und Rübenarbeiter die schwarzen Pocken eingeschleppt worden. Im Dorfe Kemnitz starb an ihnen der Ortsvorsteher Wolter; in Ziethnitz, Eversdorf und Osterwohle sind mehrfache Ansteckungen erfolgt. In Folge dessen forderte der Landrath des Kreises alle Kreisinsassen ohne Unterschied des Alters auf, sich sofort einer Schutzimpfung zu unterziehen.

Provinz Schlesien.

Grünberg. Unsere jetzt 20,000 Einwohner zählende, rasch emporblühende Fabrikstadt, die an der Breslau-Stettiner-Bahn gelegen ist, wird nun endlich eine zweite Eisenbahnlinie erhalten, da vom Landtage der Bau der Bahn Grünberg-Christianstadt bewilligt worden ist. Hierdurch geht die seit länger als 40 Jahren angestrebte Verbindung mit Sachsen ihrer Vollendung entgegen.

Hirschberg. Der frühere Weber August Schön hierselbst, welcher an dem Kriege von 1870 auf 1871 theilgenommen, erhielt bei Belfort während eines nächtlichen Patrouilleganges einen Schuß in den linken Oberschenkel. Die Kugel konnte damals nicht entfernt werden. Im vorigen Jahre verspürte Schön heftige Schmerzen unterhalb des Knöchels und der Fuß schwoll unter schmerzhaftem Druck an. Letzthin untersuchte man mittelst Röntgenstrahlen die kranke Stelle und stellte die Lage der Bleikugel fest. Mittelst operativen Eingriffs gelang es auch, die Kugel aus dem Fuße zu entfernen.

A lady teaching school at Lowell, Mass., says: "I suffered from nervous dyspepsia for three years and didn't know what was the matter with me. Often I couldn't do any work at all that required concentration of thought. Twice during the winter of 1894-5 I became unconscious from nervous weakness. One day a friend told me about a teacher who was cured of the same trouble by Ripans Tabules. This led me to buy some. After I had taken one fifty-cent box and a one dollar bottle the trouble disappeared and I was as well as ever I was. I advise any one to take Ripans Tabules at the first hint of any nervous trouble."

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. HOUSE BUILT BY WOMEN.

Four of Them Did All the Work, Even to Sawing Down the Trees and Lifting the Logs.

Near the border of Moosehead lake, in Maine, is a picturesque little loghouse built by four women. Mrs. A. T. Sanden, an active member of the Little Mothers' Aid association, on whose ground the house was erected, participated in the work, which, although hard, proved novel and entertaining.

"We enjoyed every minute of the time we expended in building the little house," said Mrs. Sanden. "We happened upon the idea in the midsummer, when we were discussing with our guests the various means of diversion at hand, and the plan was evolved to build a loghouse and do all the work on it, even to getting the lumber. We entered upon our talk with the greatest enthusiasm, and after some discussion decided that the house should contain one room 12 by 14 feet in dimensions. We then computed the length to be obtained in the logs, and the next day started on our logging expedition.

"The particular piece of woods from which we decided to get the lumber was situated less than half a mile from the house, and the spruce trees with their pretty bark were selected

LOG CABIN BUILT BY WOMEN.

as the most even and attractive. Each log had to be seven inches in diameter.

"When we located a promising looking tree of sufficient height we got out our saw and set to work. The saw was of the kind having a handle at each end, and was manipulated by two of us at a time. When two of us got tired the other two shared the work, and in this manner we sawed down the lumber. When the tree was down we measured with one of those long tape measures the required length and sawed off the surplus portion from the tip. When we had secured two logs we began to feel a homeward inclination. Two of us took one of the logs between us on our shoulders, while the other two carried the second log in a similar manner. We arrived at home triumphant and hungry.

"I think it took 80 logs to complete the house, and we went logging every day for six weeks to get them. As we brought home the logs we placed them loghouse fashion, one on top of the other, crossing at the corners, and we carefully clipped off all the branches or rough places, so they presented a nice appearance. We decided to have a little porch, which was supported by pillars made of logs in the rough, and our foundations we made of pieces of rock obtained from the shores of the lake. For the little gable over the porch we secured logs of a smaller size than for the body of the house, and peeled off the bark in order to have the gable a light color and give the house a fancy finish. The flooring was of boards, and the 'chinking' or filling in of the cracks between the logs which formed the walls we accomplished by means of a tough moss obtained from around the roots of old trees and the rocks.

"It took the four of us three days to gather sufficient moss for the purpose, and when we had enough to fill all the cracks we each took a chisel and hammer, and wedging pieces of moss in the cracks, we hammered them snugly into place. When finished the walls were pretty and unique. To make an appropriate finishing we fastened to the walls various trophies of the chase, such as guns, deer heads, fishing rods and tackle, etc., and then proceeded to make the furniture. This was also finished in the rough.

"A complete little desk, with a drop front, pigeon-holes for documents, and everything handy and complete inside, was in the rough; the table was smooth on top and had the rustic finish on the sides, while the chairs were formed into inviting and comfortable armchairs by means of gnarled branches and roots, which curved sufficiently to give the required easy chairs and sofa. A bookcase was also finished in rustic style. For the porch we made a large easy chair, and the horse block for dismounting from a horse or carriage was made of one piece of the trunk of a large tree, with high supports formed from little saplings.

"We had many difficulties to overcome because of our inexperience, but they only served to inspire us with fresh enthusiasm, and when that house was completed we viewed our scratched and roughened hands with placid indifference and ignored the 'kinks' in our necks which we had acquired from the sideways position we were forced to hold while sawing down trees. We simply feasted our eyes on the pretty little house which we had completed in exactly six weeks from the day we entered upon the work. Having finished the house, we proceeded to make the surroundings as attractive as possible, while retaining the trees and bushes which were in keeping with the rustic appearance of the house. We leveled off a space for a croquet ground and put up rustic seats in various places. Although there is every arrangement for all sorts of games at our house near by, we all regard our loghouse with great affection, and spend many happy hours daily in its little room."—N. Y. Tribune.

EXPERT SHOEMAKER.

How a Danish Girl Compelled the Guild of Kolding to Admit Her to Membership.

An old proverb says: "Shoemaker, stick to your last," but in Denmark the shoemakers are in a quandary how to live up to the proverb, and the cause of all the trouble is a bright, good-looking Danish girl, Bertha Olesen, who has recently invaded the trade and compelled the ancient guild of the shoemakers to accept her as a fellow craftsman, and this is how it came about: Miss Olesen is the daughter of a respectable shoemaker in Frederikshaven, Denmark. Four years ago she surprised the members of the ancient shoemakers' guild by demanding to be registered as an apprentice to her father. To say that the members were flurried does not fully describe the situation. Finally one guileless member found a way out of the difficulty. "Grant the request," he said. "She is like all women; she does not know her own mind. She will soon tire of her fad and we will never hear of her again." The advice was followed, but not with the result anticipated.

A few weeks ago Miss Olesen presented herself before the members of the

THE WOMAN SHOEMAKER.

guild in the city of Kolding and submitted a pair of shoes made in every detail by herself as a proof of her skill and knowledge of the trade, according to old-established customs, and applied for a membership in the guild. Her master proof was carefully examined and found to be perfect in every detail and so beautifully finished that the examining members not alone granted her a membership, but also awarded her the guild medal, which is only presented on most extraordinary occasions, and it was further decided to have the shoes sent to the Danish department of the Paris exposition as the first pair of shoes ever made by a Danish woman, and, as far as known, by any woman in Europe.

Miss Olesen is now 21 years of age. She expresses herself as delighted with her trade and would not exchange it for domestic or any other employment. She expects to establish herself in Copenhagen as a custom shoemaker and hopes to induce other women to come to her and learn the trade.

Inexpensive Silver Polish.

An inexpensive everyday polish for silverware is made by mixing half a teaspoonful of ammonia with all the whiting it will absorb, then adding enough of the water in which potatoes were boiled to make the consistency of bread.

Chamois Better Than Paper.

Chamois skin is valuable for keeping linen goods and fine lingerie which is laid aside for some time from turning yellow. Well wrapped around the goods to be preserved, it keeps out the air.

EPWORTH LEAGUE.

Topic For the Week Beginning June 24, "Our Eternal Destiny." Text, Math xiii, 47-50.

"At the word the angels shall come forth and sever the wicked from among the just."

However we may try to close our eyes to the fact, it still remains true that wickedness never brings happiness, never yields prosperity and is never more thoroughly ruined than by its own success.

It is also the greatest delusion to suppose that we can escape the just consequences of our actions. However the love of God may be conceived, it can never be made to overthrow His justice. So we are ever safe in trusting in and doing truth and right and never safe in any other course.

There are two detectives from whom there is no escape. Conscience and the Spirit of God are never absent. No bribes can buy them, and no opiates can permanently drug them. Peace can never be purchased by any compromise with them. They are incorruptible. Obey them, or they turn against you.

Our future is never safe unless our present is right. Any risk is too great to run in these matters, since all harvests sown on earthly fields shall be reaped and gathered for eternal years. Wild oats yield only wild oats.

No sin goes undetected. Crimes against earthly laws may escape punishment. Men are today occupying positions of great prominence who are villainous in soul and defiled by sin and crime. No earthly courts may ever condemn them. Wealth, notoriety and influence may abide until they die. What of that? Men may title them and fawn upon them. What of that? All kinds of fish swim the seas; all kinds come to the gospel net. The separating time has not come. The inspectors are not at hand. That business is not yours or mine. As surely as God lives sharks will not in that day be rated as cod.

The important matter for us is to become good fish and not to fret over the matter of another's rating. Because devilfish lurk in sheltered pools and seem to thrive we need not turn devilfish, nor need we greatly fear them. Quite enough for us if we attend to our own work and make sure that we are what God desires us to be.

Sin of all kinds and in all degrees is destructive of soul purity and shall ever bring misery and punishment. Pile all the mountains of earth on top of an iniquity and try to cover it from right; you shall never succeed in hiding it. When you least expect, it will heave the load and stand naked before the world. No care can conceal; no power can protect.

Safety for us here and hereafter lies in truth and righteousness. Wisdom is seen when we side with Him who ages since stood "choosing rather to suffer affliction with the people of God than to enjoy the pleasures of sin for a reason, esteeming the reproach of Christ greater riches than the treasures in Egypt, for he had respect unto the recompense of the reward."

Constancy.

One of the worst temptations to which the young are exposed is that of vacillation. It is hard to hold ourselves to a set line of action. We crave variety. The routine of life grows monotonous. Change of programme, something new, because it is new, appeals to us. The prayer meeting grows dull to us because there is lack of change. Here lies danger. The path of safety is not always in catering to this craving for novelty, but better in curbing our impatience and settling ourselves down into the needful course of training. We need steadiness and constancy, which can come only from familiar service often repeated. We need the drill in a familiar manual and not new tactics and maneuvers. Make a habit of daily prayer and Bible reading, establish the custom of regular attendance at the prayer and class meeting, pray and speak and sing, hear the sermon and spend your Sunday in the right way, train your heart as you would train your muscles, and your constant practice shall bring its reward in greater efficiency and proficiency and freedom in God's cause.

Graduation.

A great host of our young people go out from school this month never to return. In the ranks of breadwinners or idlers they will take their places; graduated from one school, but only to learn in the broader school of life severer lessons and to form new friendships on a wider stage.

Well for those who have learned the rudiments of good living and who will now practice the high art of being worthy.

The world pays high premiums to nobility. Its tests are severe, but its rewards are valuable. Shams are relentlessly broken, but the genuine receives recognition. Be content with nothing but your highest possible self.

Alleluia.

For all the saints who from their labors rest,
Who Thee by faith before the world confessed,
Thy Name, O Jesus, be forever blest.

Thou wast their Rock, their Fortress and their Might;
Thou, Lord, their Captain in the well fought fight;
Thou, in the darkness drear, their one true light.

O may Thy soldiers, faithful, true and bold,
Fight as the saints who nobly fought of old
And win with them the victor's crown of gold.

O blest communion, fellowship divine!
We feebly struggle, they in glory shine;
Yet all are one in Thee, for all are Thine.

But, lo, there breaks a yet more glorious day;
The saints triumphant rise in bright array;
The King of Glory passes on His way.

From earth's wide bounds, from ocean's farthest coast,
Through gates of pearl streams in the countless host,
Singing to Father, Son and Holy Ghost, Alleluia.

A PRIVATE DAILY MESSENGER SERVICE

Between this city and New York permits us to supply any want not already in stock at a day's notice. We carry as large a stock as any retail drug store in Central New Jersey. Our increasing business compelled us to adopt this daily messenger service which is at your pleasure.....

THE TEA HABIT.

Injurious Effect of Drinking Tea Between Meals When It Has Been Standing.

A cup of good tea taken with a meal is often very cheering and refreshing, and is probably not injurious to anyone, unless taken too strong. But this cannot be said when the tea is strong or is improperly made, and the habit of drinking tea that is kept brewing and stewing on the top of the range all day to make a hot drink ready for one or a dozen calls upon it at odd intervals through the day, is one of the worst habits in its effects upon the digestive and nervous systems. It may not be the cause of murders, like alcoholism, but tea-ism is undoubtedly the cause of many family quarrels and a great deal of physical misery, says the Housewife.

Tea freshly made is one thing; tea that has stood until its strongly astringent properties have been drawn out is the cause of inaction of the liver and bowels, and this is the fruitful source of many ills.

At the present day intelligent women rarely indulge in the habit of drinking tea between meals, but the servants do, especially those from England and Ireland. They are literally slaves to the tea-pot, and much of their frequent unreasonableness undoubtedly comes from the fact that their nerves have been unstrung by the quantity of tea which they drink.

It would probably be a good investment of money and time for the mistress of any household where servants are addicted to this habit to reason the matter over with them carefully and patiently, not once only, but as many times as shall be necessary, and add that if they will only abandon the habit of drinking tea that has been left standing, you will cheerfully furnish the tea to prepare it fresh as often as they wish. They will thus see that you are sincere in your opinion that the long drawn tea is deleterious, and if you insist upon knowing that the tea-pots are all emptied as soon as the fresh tea has been used, they will generally, but gradually, drop the habit of taking it between meals.

Not always, though, for there are some persons who are naturally lovers of habits, and to such perhaps the tea-habit is less injurious than some others which might be substituted for it.

WHAT CUT
do you like? We have a full line of choice
BEEF, MUTTON, SPRING LAMB,
Veal and Pork. You can get any cut desired here. All our meats are carefully selected. We use the utmost care in keeping our store and counters clean. Meat from a clean shop tastes better.

NOTICE TO BRIDGE BUILDERS.

The joint committee of Chosen Freeholders of Union and Somerset Counties will receive bids for the masonry substructure and for the iron superstructure of a buckle-plate girder bridge on Madison avenue and Duer street, over Green brook, Plainfield, N. J., on July 2d., at the office of F. J. Hubbard, Union County Engineer, Babcock Building, Plainfield, N. J.

The Committee will meet at 2:30 p. m., and the bids will be opened at 3:00 p. m. on said day and at said place.

Plans and specifications may be seen on and after June 25th, at the offices of the engineers.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning June 24—Comment by Rev. S. H. Doyle.

TOPIC.—Our eternal destiny.—Math. xiii, 47-50.

THE PARABLE.

The parable of the net, which forms our study, has usually been associated with that of the tares. The tares teaches the impossibility of successfully separating the good and the evil in this world. The net teaches that God will make this separation "at the end of the world." Christ in this parable likens the kingdom of Heaven to a net cast into the sea. Every kind of fish are gathered into the net, and when it is full it is drawn to the shore. The good are put into vessels; the bad are cast away. "So shall it be at the end of the world; the angels shall come forth and sever the wicked from among the just, and shall cast them into the furnace of fire; then shall be wailing and gnashing of teeth."

THE INTERPRETATION.

The sea is the whole world; the net is the church. Those who cast the net are Christ's apostles and ministers. The fish are those who come into the church and profess to be disciples of Christ, some good, others bad; some sincere, others false in their profession. At the end of the world is the judgment, and at that time the angels of God, with unerring discrimination, shall eternally separate the good and bad, the sincere professor and the hypocrite.

THE APPLICATION.

This parable can be strikingly applied to our eternal destiny. It teaches great and important truths concerning our destiny beyond the grave; it teaches:

First.—There is an eternal destiny. That death does not end all is clearly the teaching of this parable. The end of the world is portrayed. But men are not dead. All are alive, both good and bad. Science, philosophy and theology unite in teaching this great truth today as never before. The greatest scientists and philosophers today, as well as the theologians, firmly believe in a future life. It is not all of life to live nor all of death to die. We shall live again. Our destiny is not temporal, but eternal.

Second.—There are two conditions of existence in eternity, and God Himself, through His angels, will separate men for the destiny that awaits them. The good fish were put into vessels and the bad cast back into sea; the good men were separated from the evil and the evil cast into the furnace of fire; the good remained forever with God, and the evil were cast forever from Him. There are two conditions of existence in the future. Men cannot here separate the good and evil, but "the Lord knoweth them that are His and will one day bring these confusions to an end, separating the precious from the vile, the gold from the dross, the true kernel of humanity from the husk in which for awhile it was enveloped."

3. Our eternal destiny is determined by our relation to Christ in this world. It is here that we are good or bad, just or unjust, sincere or false, and it is in this life therefore that we are determining what shall be the character and condition of our eternal destiny. What shall it be, viewed in the light of our present attitude toward God in Christ? Are we true or false? Are we possessors or simply professors? Upon the answer to these questions depends our eternal destiny, and we cannot deceive God.

THE PRAYER MEETING.

Arrange a special programme with prepared papers or addresses on (1) science and the future, (2) philosophy and the future and (3) the Bible and the future. This is a splendid opportunity to make a comprehensive study of this great and important subject.

BIBLE READINGS.

Ps. i, 1-6; xxiii, 1-6; Eccl. xii, 13, 14; Dan. xii, 3; Math. xxv, 31-46; Rom. vi, 23; xiv, 12, 13; I Cor. xv, 51-58; I Pet. i, 1-5; Rev. ii, 10.

Suggestive.

If a strenuous soul be sad, so much the worse for him and his cause. So far he is a man of mistake and unfaith. He is trying to shoulder more of the universe than one man can carry. More than a man can carry comfortably is a man's share; there is so much to be carried. We ought to strain and stagger at times, but not to stagger long faced. Let us trust God, and right in the strain we may find our mouth filling with His gift of laughter. Loneliness, moroseness, discontent, impatience, anxiety—leave them for unreligiousness. The grim face, the "brow contracting sort," belongs not to one who feels as he walks that he walks with God. For him the open look, the laughing eye, the ready greeting to any and all, as from "a heart at leisure from itself."—Rev. W. C. Gannett.

More Truths.

Flowers that come from a loved hand should be more prized than diamonds.

Friendship is like a good horse—when it is aged, you don't work it so hard.

It is better to sacrifice one's love of sarcasm than to indulge in it at the expense of a friend.—Christian Instructor.

Following Him.

"Master, I'll follow Thee; follow
Whither Thou wilt command!"
"Tarry thou there by life's millstone,
Lending a helping hand."

"Master, I'll follow

WE STAND BEHIND IT.

We stand behind every piece of coal we sell to you. We are not prevaricating. We know very well that if we cheat you once you won't come back to us. We don't make any money selling one ton of coal—our profit consists of selling several hundred tons. To do this we must keep every customer who once comes to us. We must give satisfaction pure and simple; to give satisfaction we must do better for you than any one else.

We want your Coal trade, and if we once get it we will keep it.

BOROUGH COMMENCEMENT

Programme That Will be Carried Out in Music Hall This Evening.

The programme for the commencement exercises of the Borough Public High School to be held this evening at Music Hall is complete as follows: Invocation, Rev. J. O. McKelvey; chorus, "Triumphal March; salutatory, Miss Dora Waring; three-part song, "Fairy Footsteps," chorus; address, Prof. John Stewart, Lehigh University; chorus, "Will-o'-the-Wisp," "Nonsense Song;" valedictory, Miss Katharine Wolcott Dwight; presentation of diplomas, Hon. Chas. L. Hayes, president State Board of Education; presentation of the John Valiant prizes, $15 and $10 in gold, competitive work in mathematics, S. St. John McCutchen, president of the Borough Board of Education; two-part song, "The Students" chorus.

Charles L. Lewis will have charge of the chorus and fine music is promised. At the bottom of the programme appears a special note, "No Flowers." This is a change from former custom, and is considered a wise one by the school officials.

Twelve hundred tickets have been given out for the commencement, and the hall will hold about 1,000 persons. The Board does not believe that all who have tickets will use them, hence they do not expect an overcrowding.

CLOSING EXERCISES.

Programme Carried Out at Miss Harriott's School This Morning.

The closing exercises of the school and kindergarten of Miss J. V. Harriott took place this morning at 29 Washington avenue. The pupils acquitted themselves very creditably. The programme was as follows:

PART I.

Song—Sunshine.....By School
Scripture Verses.
Prayer—Our Father, etc.
Song—A Child's Fancy.
Recitations—
Which Knew the Most?
Master Clarence Lawrence
Her Grandpa.....Miss Kate Wisner Barlow
The Bye-Low Song....Master Edward Maurer
Kindergarten Games—
The Pigeon. The Bee and Robin.
The Arch. The Cat and Mouse.
Recitation in Chinese...Miss Winfred Rapalje

PART II.

Recitations—Two Little Girls I Know.
Master Norman Rhoads
Who Made the Speech?.....Miss Ruth Mauer
A Little Boy's Wish.
Master Lawrence Henry French
HOW TO GAIN A FRIEND.
Characters—
Mrs. Norman.....Miss Winifred Rapalje
Mabel Norman....Miss Mary Wheeler Barlow
Kitty Norman.....Miss Marjorie Clare
Dick Norman....Master Carl Wheeler Nichols
Harold Tracey.....Master Russell Lawrence
Scene I—The Norman children give their views of Harold Tracey, who has lately entered the family.
Scene II—Mrs. Norman awards the prize.

Miss Lillian A. Force, who for many years has been the accompanist at the closing exercises at this school, again played for the little ones this morning and very materially assisted in making the closing exercises a success.

Local News on Pages 2 and 3.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder. It cures painful, smarting, swollen feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it To-day. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package FREE. Address, Allen S. Olmsted, LeRoy, N. Y.

IF you feel shaky about letting the laundress handle your silk, challie or delicate lawn dresses, suppose you see what our always successful dry cleansing process does. We **Ought** to be better fitted to do the work and we are.

COW ATTACKED WOMAN.

MRS. O. P. WOLBERT QUITE BADLY HURT BY THE ANIMAL.

Was Passing Through Pasture Lot When Cow Charged on Her—Confined to Her Home.

Mr. and Mrs. O. P. Wolbert, of 1918 East Front street, were especially unfortunate this week, and as a result they are both confined to their home under the care of physicians. Recently Mr. Wolbert was poisoned with mercury, but still he was able to work. Last Monday, while engaged at his trade of plumbing, he cut his wrist severely with a piece of class. He went to Dr. Endicott, who was obliged to take several stitches. Mr. Wolbert was not inconvenienced and decided to return to work again. During the day he felt so bad that he was obliged to give up work and go home, where he has been ever since. He suffers a great deal and it will be some time before he will be able to resume work.

This affliction was thought to be severe enough, but there was more to follow. On Wednesday Mrs. Wolbert was attached by a cow owned by a neighbor, Oscar F. Pearson. The cow was in a nervous state and Mrs. Wolbert started to cross the field between the two houses. In going to Mrs. Pearson's home she was obliged to pass near the cow. The animal turned on her, knocked her down and trampled on her. Mrs. Wolbert screamed for help. Her cries reached the ears of Mrs. Pearson, who hastened to the rescue. She was cautioned to lay close to the ground, face downward. This action probably saved Mrs. Wolbert's life. As it was she was severely injured. About the lower part of the body she was bruised, and in tossing her about the cow's horn caught her in the neck, making a serious wound.

The presence of Mrs. Pearson attracted the cow's attention, and this gave Mrs. Wolbert an opportunity to escape. She was assisted to her home, and Dr. Jenkins was called. During the past few months she has been quite ill, and it is feared that these injuries might prove very serious. Dr. Jenkins does not apprehend any serious trouble.

SIGNATURE NOT PROVEN.

Suit For Collection of Note Hinged on This Point.

The case of Ramsey against McCandless was tried before Justice Nash yesterday and judgment was rendered for the defendant. The suit was over the indorsement of a promissory note which the defendant claimed was not his signature. The signature was on the note, but the plaintiff had no witnesses to prove it was the defendant's. The latter proved to be a very troublesome witness, but the judge was forced to render judgment in his favor as the signature was not legally proven.

H. C. Snydam and Senator Lodge appeared for the plaintiff and Lawyer Schleimer, of Elizabeth, for the defendant.

Was President for Twenty Years.

The visiting committe of the Firemen's Relief Association, consisting of George W. Clark, L. M. Dunavan, Wm. Chamberlain, G. H. Freeman, D. S. Dunavan and Charles Glaentzer, met last evening and elected George W. Clark president and L. M. Dunavan, secretary. D. W. Rogers, who was president of this committee for twenty years, found it impossible to serve any longer.

Judgement Given.

Judgement has been rendered by Justice Nash in the case of Mair against Galloway, against the defendant for $41.06 and costs. The suit was tried on contract.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

—Press want ads pay.

TWENTY-TWO GRADUATE FROM HIGH SCHOOL

[CONTINUED FROM PAGE 1.]

preserving order and making life and growth possible.

The gravest dangers to democracy, he pointed out, were selfishness, ignorance, the blind worship of will power, and the demagogy of the leaders. From these heads he showed the lines for education such as might be accomplished by the high schools and universities, particularly in training the leaders. It was a grave problem but, in conclusion, he declared that it still might be successfully solved if the people took it to heart with a full realization of their responsibility.

"The Red and the Green," a march dedicated to the class of 1900 by its composer, Emerson C. Howard, of this city, was well received. Then followed the presentation of rewards by Leander N. Lovell.

The awards were as follows:

English composition—The Geo. H. Babcock prize, given by Mrs. Babcock. First prize, Hudson's Shakespeare, 12 vols., Ella Louise Lounsbury; second prize, Longfellow's works, 11 vols., Linden Wentzel Bridgeman; honorable mention, Ella Louise Whitney and Mary Alice Rose.

Mathematics—The Dr. C. H. Stillman prize, given by Mrs. Stillman. First prize, $15 in gold, Kizzie Eager; second prize, $10 in gold, Sarah Pauline Denton; honorable menton, Mary Lock and Mary Lee Mann.

Translation prizes—For the best translation of assigned passages, a first prize of $3 and a second prize of $2, to be expended in books chosen by the receiver. Modern languages, given by Ernest R. Ackerman. Senior French—First prize, Ruth Potter Maxson; second prize, Mary Lee Mann; honorable mention, Clara Gaston Dunham. Junior French—First prize, Ella Louise Lounsbury; second prize, Madeline Evans; honorable mention, Martha R. Anthony. Stryker and John Loizeaux; very creditable, Nellie Giles, Hannah Higgins, Kittie F. Garretson, S. Arthur Bingaman. Prize for greatest improvement, Gertie Hunter; honorable mention, Eleanor Dyer, Joshua Loizeaux; very creditable, Amy Whitney, Olivia Bogardus.

Following "Spanish Dance" by the orchestra, Miss Ruth Potter Maxson gave her essay, "The Search for the Holy Grail," and the valedictory. In her essay she told of the search of King Arthur's knights and how now man searches for the Grail, which to some typifies wealth; to others love, power or fame. These all in reality combined to form a draught to drink from the Grail which was in truth pleasure received from pleasure given.

The orchestra played again from "Cappelia," after which the diplomas were presented by Dr. Probasco, and the exercises closed with the orchestral selection, "American Valor March."

During the progress of the exercises, many handsome bouquets and other gifts were presented to the graduates by the ushers, young men from the Junior class of the High Schools, as tokens from their many friends. The display was very handsome.

After the exercises, the friends of the graduates assembled on the stage to congratulate the young people who had completed their school careers so successfully.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

John Jones, of Chatham street, is confined to the house with illness.

Mrs. VanMiddlesworth, of Elmwood place, has recovered from a recent illness.

Miss Bowers, of Brooklyn, has been visiting Plainfield friends for a short time.

Miss Underhill, of Brooklyn, has returned from a visit with Plainfield friends.

Miss VanCampen, of Plainfield avenue, is entertaining Miss Vail, of Rahway.

Mrs. Joseph Kischner, of Rahway, is visiting Mrs. Edward Baker, of Chatham street.

A slight improvement is noted in the condition of Mrs. E. C. Morse, of Jackson avenue.

William Connett, of West Fourth street, is enjoying a brief vacation from his duties in New York.

The home of William Fitzgerald, of Pond place, was brightened yesterday by the arrival of a young son.

Augustus Seider, of West Front street, is smiling broadly. A young lineman has arrived at his home.

The young son of Charles Arnold, the Liberty street butcher, has recovered from an attack of scarlet fever.

Mrs. J. H. Carney and family, of Craig place, will soon go to Mt. Bethel, where they will spend the summer.

Miss Alice M. Whitney and mother, of Orange place, leave today for Marthas Vineyard, to remain until September.

Substitute Letter-carrier Wm. Thorn is now employed steadily, taking the place of the regular men as they go on their vacations.

Mrs. Edward Randolph, of West Fourth street, accompanied by her daughter, is visiting her former home at Nyack, N. Y.

Miss May Montague, of Lehigh Tannery, Pa., is spending the summer with Mr. and Mrs. William Ayers, of West Third street.

The police of the city expect to sit down to a dinner tonight at the expense of Roundsman Flynn. A ten pound boy arrived at his home yesterday.

Miss Marion Henderson, of the Teachers' College, New York, formerly of Rockview avenue, is a guest at the home of her friend, Mrs. Edmund Rushmore, of Grove street.

Among the graduates in the scientific section at the commencement of Rutgers College, New Brunswick, Wednesday night, were Ernest H. Rapalje and Herbert DeWitt Rapalje, of Plainfield.

B. A. M. Schapiro, of Brooklyn, the manager of "The People, the Book and the Land," an illustrated Christian quarterly, was a caller at the Y. M. C. A. this morning. Mr. Schapiro spoke at Trinity Reformed church some time ago.

BOMBARDING TIENTSIN.

Nearly All the Foreign Quarter is Burned—Help Urgently Needed.

(Special to The Daily Press.)

Chefoo, June 22.—It is officially reported that the bombardment of Tientsin with large guns continues incessantly. The foreign concessions have nearly all been burned, and the American consulate has been razed to the ground.

The russians are occuping the railroad station, but are hard pressed. Reinforcements are urgently needed. The casualties are heavy. The railroad is open from Tong-Tau to Ching-Liang Chung, half-way to Tientsin.

Took a Header.

James Best, clerk at John Powers' Somerset street drug store, was riding down a hill at Westfield on his wheel yesterday afternoon, when he took a header. He was scratched, bruised and cut, and it was with difficulty that he reached home. He is confined to the house, and will be for a few days.

Dedication of Firemen's Home.

The dedication of the State Firemen's Home at Boonton will take place tomorrow. Chief Doane will attend representing the Firemen's Relief Association, and G. Thorn will represent the Exempt Firemen's Association.

Asks for a Divorce.

Papers have been filed by Lawyer W. G. DeMeza, in Court of Chancery, between Annie L. Hunt, petitioner, of Plainfield, against John Hunt, defendant, for divorce, for desertion.

—Fresh vegetables of every variety at Neuman Brothers, Watchung avenue grocers, tomorrow.

—A good assortment of shoes, selected from the best manufacturers, which will give you comfort and service, at Flynn Brothers, 222 West Front street.

EARLY INTELLIGENCE.

—Sebring has on sale the new twentieth century straw hats.

—Woodhull & Martin give double trading stamps tomorrow. See their specials in this issue.

—Jerusalem Chapter, No. 24, R. A. M., met last evening and conferred degrees on two candidates.

—Commencing with the week of July 4th the employes at Woodhul & Martin's store will begin to enjoy their vacations.

—Several camps of the P. O. S. of A. will visit Washington Camp, No. 30, next Monday evening and a big time is being planned for.

—The regular Christian Endeavor Society meeting will be held this evening at the First Baptist church. A cordial invitation is extended to all.

—Neuman Brothers, the Watchung avenue grocers, will have plenty of summer fruits tomorrow—peaches, plums and apricots, all of the best quality.

—As an inducement to the racing public, several good races will be held at the Driving Park tomorrow afternoon. Admission will be free and stages will meet the trolley on Park avenue.

SENIORS BID ADIEU TO BOROUGH SCHOOL.

Graduation Exercises in Music Hall Last Night Were a Great Success.

SIXTEEN COMPOSED CLASS.

VALEDICTORY OF MISS DWIGHT MADE A FINE IMPRESSION.

Gratifying Demonstration When She Closed—Chorus of 140 Voices—Presentation of Diplomas by President Hayes.

Fourteen young women and two young men were graduated yesterday from the North Plainfield Public High School, and last evening exercises appropriate to that important event in the lives of these young people were held at Stillman Music Hall. As on the previous evening the hall was taxed to the limit, but there was no crowding or disturbance of any kind throughout the evening.

Seated on the platform were the members of the Board of Education, Superintendent W. J. Wightman, Hon. Charles L. Hayes, president of the State Board of Education; Prof. John Stewart, of Lehigh University; the sixteen graduates and a chorus of 140 scholars from the borough schools, who under the direction of Charles L. Lewis, teacher of music in the schools, and Miss Clara VanFleet, accompanist, rendered pretty selections during the evening.

By way of comparison very little difference could be noted between the exercises of last evening and those of the evening previous. Every detail was carried out with as much dignity and precision, and essays were the equal in every respect and given with as much finish as those of the night before. The audience was just as large and as appreciative, and those who spoke held their closest attention throughout. These facts are very gratifying to residents of the borough, as well as to the officials and instructors in the schools.

The exercises opened promptly at 8 o'clock with an invocation by Rev. Joseph Orr McKelvey, pastor of Warren chapel. This was followed with a selection "Triumphal March," by the chorus, with a pleasing solo by Miss Winifred Carroll. Superintendent Wightman then announced the salutatory by Miss Dora Waring.

There was a fascination about this essay that held the interest of everyone. It treated with ideals, and the young women depicted clearly the ideals that rule a nation and those that should rule the individual. She brought out strongly such essential ideas as liberty, justice and character, and said that ideals should not only be lofty and positive, but pure. She asked the question "What shall be our ideals?" and spoke assuringly that they would be nothing less than those to which she referred. Miss Waring delivered the salutatory in a clear voice and in a finished manner.

After the rendition of a three-part song, "Fairy Footsteps," by fifteen girls, Dr. John Stewart, professor of history and economics, at Lehigh University, was introduced as the speaker of the evening. In commencing his address, Prof. Stewart stated that North Plainfield was to be congratulated on such an occasion. He said that at such times commencement exercises are a drug on the market, and all kinds of graduates, both sweet and sour, ushered before the people.

The speaker then went on and gave a very deep address concerning the true meaning of Jeffersonianism. He stated that the life of America today is complicated, and it is no wonder that Americans often stop and wonder where they are. Other nations say that the Americans, a small part of the Anglo-Saxon race, are after the "Almighty Dollar;" that they have nothing to offer to the great world of art, literature and science, and the Americans is often told that he is never taken at his own valuation.

"To all of these things," the speaker said, "there seems to be no answer to give, except that old one, that we are a young nation. But that same excuse was given seventy-five years ago. Come down to recent times in our struggle with Spain for the relief of Cuba. Many of the other nations believed that it was only another effort for the younger section of the Anglo-Saxon race to seek new territory—in the name of Christianty, for the sake of the Almighty Dollar. There are many arguments to refute these statements made by foreigners."

Prof. Stewart then returned to the time of Jefferson and the signing of the Declaration of Independence, the

[CONTINUED ON PAGE 5.]

CITY SCHOOL TEACHERS.

SEVERAL ADDITIONS AND SOME CHANGES TO BE MADE IN FALL.

Correct List of Teachers Who Will be in Charge of Plainfield's Public Schools Next September.

The public schools of the city are now closed until September 10th when they will open again for the fall term. Arrangements have been completed by Superintendent H. M. Maxson for the complete staff of teachers in all the schools. There are several changes brought about by resignations and transfers. The High School staff is increased by the addition of Miss Anna H. Prescott, who will teach in the lower classes of the High School.

The place of Miss Carrie Runyon, who resigned after over thirty years of service, is to be filled by Miss Katherine F. Ball, of North Plainfield, who graduates from Wellesley College this month. She will have charge of one section of the High School preparatory class.

A new classroom will is to be fitted up in the Lincoln School, and a section of the fifth grade will be placed there under the instruction of Miss Carolyn B. Lee. There are several changes in the other schools, but no additions to the present number.

The complete list of teachers is as follows:

High School—Ira W. Travell, principal; Ellen E. Niles, Ellen K. Cumming, Alice M. Whitney, S. Lena Bass, A. B. Meredith, George W. Sandford, Anna H. Prescott, Anna J. Bennett, Charles H. Lewis, Mabel A. Maxson.

Stillman Grammar School — Katherine F. Ball, M. Elizabeth Benedict.

Whittier School — Anna M. Day, Alice W. Lansing, Ethel Haven, Flora Griffin, Elizabeth E. More, Anna E. Manktelow, Eleanor T. Wilber, Mabel Mitchell.

Franklin School—Noel J. Bullock, principal; Jennie E Davies, Charlotte C. Merrill, Emma Force, Clara J. Churton, Edith Gilbert, Florence Churton, Lottie B. Strong, Minnie B. McMaster, Madge L. Sutphen, Caroline A. Barber, Elizabeth T. Angell.

Washington School—M. E. Humpston, principal; Anna W. Booraem, Jennie Owen, S. Louise Wood, Margaret R. Cory, Charlotte E. Tennant, Louise Rawson.

Bryant School—Emma V. Shattuck, principal; Kate A. Remer, Ariadne Gilbert, Mary A. Cowles, Jessie Browne, Clara Ticknor, E. May Tennant, Emma B Starr, Louise B. Runyon, Cora F. Cadmus.

Irving School—Genevieve Petrie, principal; Anna W. Watson, Grace C. Teller, Eliza W. Reynolds, Lottie W. Stillman, Lucia N. Wood, Charlotte M. Beekman, Alice A. Lee, Hattie Filmer, Lucy L. Brown, Mary M. Griswold, Ada H. Clark, Susie Davies, Lillian T. Glen.

Lincoln School—Carolyn B. Lee, Mildred Titsworth, Alice Miller, Nancy M. Thomas, Agnes B. Freeman, Louise Farrington.

PYTHIANS WERE HOSTS.

Perseverance Lodge Entertained Visiting Brethren From Elizabeth and New Brunswick.

The members of Perseverence Lodge, No. 74, K. of P., proved themselves excellent hosts and entertainers last evening on the occasion of a friendly visit of delegations from Friendship Lodge, of New Brunswick and Volunteer Lodge. of Elizabeth. At the close of the regular meeting, an informal programme of songs and recitations was given by the members of the local lodge, after which the the visitors were invited to Blimm's Hotel where a collation had been prepared. The delegations left for home near midnight. They were accompanied to the station by the Perseverance members, who gave three cheers for their guests before they parted.

Resting Place of Stephen Crane.

The body of the New Jersey author, Stephen Crane, who died abroad, is expected to arrive next Tuesday on the steamship Bremen. Arrangements are being made for the funeral services which will be held next Thursday at the Seventh Avenue Methodist Episcopal church, Manhattan. The interment will be in Evergreen cemetery, Elizabeth.

Prohibition Club Officers.

The Prohibition Club of North Plainfield has elected the following officers: President, Ephraim Acker; vice-president, Andrew Wilson; secretary, A. L Winans; treasurer, Andrew Bullman. The club now numbers about twenty members.

Church Organist Resigns.

Mr. Myers, who has been the organist at the First Presbyterian church, has resigned his position on account of ill health. As yet no one has been secured to take his place.

FRANK BERGEN WILL NOT BE A CANDIDATE.

Made Direct Statement to That Effect in Interview With Daily Press Reporter.

FOWLER NOMINATION SURE

MR. BERGEN RETURNED IN TIME TO SEE M'KINLEY NOMINATED.

He and the Governor Returned From Their European Trip Wednesday and Spent Thursday in Philadelphia.

Although Frank Bergen was expected to reach this country last Saturday, he did not land until Wednesday. Thursday his face was to be seen in the throng of well known Republicans at the New Jersey headquarters. He was with Governor Voorhees much of the time, having accompanied him to Philadelphia after their return from abroad.

The return of Mr. Bergen caused considerable conjecture among the Republicans of the Eighth district regarding his position in the race for the Congressional nomination. As a result of an interview with Mr. Bergen, it can be stated positively that he is not a candidate and will make no opposition to the renomination of Charles N. Fowler.

Mr. Bergen was interviewed by a Press reporter at the New Jersey Headquarters Thursday morning before the crowd had departed for the Convention Hall. In response to the query as to whether or not he was a candidate for the Congressional nomination, Mr. Bergen said:

"No, I am not a candidate. Some time ago I was asked by several of my friends if I would accept the nomination and I said that I would as I should enjoy going to Washington and Congress. While I was willing to accept the nomination, I did not and will not make any effort to secure it. Some of my best friends are in a position that they consider it their duty to support Congressman Fowler for the renomination and my candidacy would only embarrass them. While I should like to represent the Eighth district in Congress I shall not be a candidate this year."

This statement from Mr. Bergen sets at rest the rumors that have been current to the effect that he would make a fight at the last moment. It also conforms with the ideas of some of the knowing ones that Mr. Bergen's recent trip with Governor Voorhees showed an inclination on the part of Mr. Bergen to comply with the Governor's desire and remain out of the race this year.

With Mr. Bergen out of it Congressman Fowler is likely to have plain sailing. There may be a candidate from either Bayonne or Essex, but he is remarkably strong in Essex and is not likely to meet any material opposition there.

Mr. Bergen went to the convention with the Governor and sat with him in the special space reserved for the delegates and alternates. He was cordially welcomed home by the other Jerseyites and there were many inquiries concerning his trip to the Paris Exposition.

Besides Mr. Bergen, tho Governor was accompanied by his father, a venerable old man with long white hair. There is considerable resemblance between father and son. The Governor's private secretary was also of the party.

IMPORTANT RAILROAD DECISION

Court Decides That Relief Membership Does Not Bar Damage Suits.

(Special to The Daily Press.)

Trenton, June 23.—In a damage suit brought by Catherine McKernig, of Hudson county, against the Pennsylvania Railroad for the killing of Cornelius McKernig, a breakman, who was a member of the railroad's relief department, the court held that only the actual acceptance of relief benefits by those entitled under law to sue for damages would operate as a waiver of the right to maintain a damage suit.

Counsel for the company contended that the agreement signed by the members of the association was a bar to the bringing of any damage suits, but the court held, as stated, that only the actual acceptance of the benefit operated as a bar.

McKernig's sister, as his named beneficiary, got the benefits and signed a release, but the court held that this does not vitiate the law which gives to widows and next of kin the right to sue.

Local News on Pages 2 and 3.

WANAMAKER GOES FREE.

A Technical Error in His Commitment and Judge Schenck Compelled to Release Him.

(Special to The Daily Press.)

Somerville, June 23—Frank Wanamaker, who was arrested at Bound Brook last week for being an impostor by attempting to do Landlord Combs, of The Berkeley, by a plausible story about his having been robbed and beaten, was brought up in court yesterday. Ex-Prosecutor Dungan appeared for him and claimed that the commitment was technically illegal, and asked for Wanamaker's discharge. The motion was opposed by Lawyer John F. Reger, representing the Prosecutor. Judge Schenck took Mr. Dungan's view of the case, however, and discharged the prisoner.

At the request of Mr. Dungan, the case of Jacob Renner, who stole horse, harness, wagon and about $500 worth of clothing and dry goods from Lutz Bros., was postponed for one week. Renner is said to have once escaped from a jail in New York State, and is probably seeking delay in the hope of breaking from Castle Schoonmaker.

MERE TALK.

Jersey Central Officials Say That There is No Likelihood of a Strike Among Their Employes.

Stories of threatened troubles among the employes of the Jersey Central Railroad are shown upon investigation to have no foundation in fact. According to a report from Wilkes-Barre the organized employes of the road threatened to make trouble because the force of the brakemen on the mountain runs had been reduced. Vice-President Warren, of the Jersey Central, said yesterday that there were no indications of trouble. The force of brakemen had been reduced because all the freight cars on the line had been supplied with air brakes as required by law. The company had been doing rush work, he said, in getting its freight cars properly equipped and having completed that work had very naturally cut down its extra large force of men.

FEAR COMPETITION.

Plainfield Street Railway Company May Build to Washingtonville at Once.

It is understood on good authority that before a great while the Plainfield Street Railway Company will extend their tracks on Somerset street from Johnston's Drive to the "Notch," so as to prevent, if possible, the introduction of another trolley road in that vicinity. This would give the inhabitants of Washingtonville better service, but it seems as though the residents would be getting trolley service under extreme selfish motives. The people in that section have been crying for the trolley for some time past, but the company have been hanging back, evidently not being ready to make the extension, and then there has not been any prospect of opposition. The residents of the Valley are generous, however, and they say, "Come on with the trolley."

Funeral of Late Elisha Corlell.

The funeral services of the late Elisha Corlell were held yesterday afternoon at 2:30 o'clock from the residence of his daughter, Mrs. L. B. Boice, corner of Watchung and Jackson avenues, and there was a large attendance of friends, including many of the older residents of the borough and city. Rev. Charles E. Herring, pastor of the First Presbyterian church, conducted the services. The interment took place in the Plainfield Avenue cemetery and those who served as bearers were William H. Shotwell, Abram Cadmus, J. K. Arnold, Rutger Cadmus, J. M. Bettman and Howard Pope.

Engagement Announced.

The engagement is announced of Alfred Love, of East Ninth street, to Dr. Viola J. Baily, of Carolina, R. I. Dr. Bailey has just received her degree of Doctor of Medicine from the Cornell University Medical College, of New York city. She also had the honor of being vice-president of her class and has received the appointment of house surgeon at the Massachusetts General Hospital, of Boston. Mr. Love has just passed his third year examinations at the University of New York and Bellevue Hospital Medical College, and hopes to graduate next year.

Bridge Will Cost $12,000.

It is estimated that the cost of the new bridge over Green brook connecting Duer street and Madison avenue, will be about $12,000. Bids for erecting the bridge will be received by F. J. Hubbard at his office in the Babcock building, and they will be opened on July 2d, at 3 o'clock in the afternoon.

$10,000 FOR BEING STRUCK BY EXPRESS.

Heavy Damages Paid by Central Railroad to Harry B. Park.

HURT AT GRANT AVENUE.

JUST GOT OFF LOCAL TRAIN WHEN EXPRESS CAUGHT HIM.

Accident Occurred Last January and Since That Time the Young Man Has Been in an Incapacitated Condition.

One of the largest settlements for damages that has ever been paid to a resident of Plainfield by a company or corporation, has just been given by the Central Railroad Company to Harry B. Park, a medical student, residing with his parents on West Sixth street. The settlement cost the railroad company $10,000 and was effected through Reed & Coddington, the young man's attorneys, who brought suit before the Supreme Court. The case was to have been tried next September. The facts which led to the suit being brought are as follows:

On the 29th of last January young Park, in company with his father, was returning from a medical college in New York, where he had taken his course. As he alighted from the train at Grant avenue and started to cross the tracks to the station platform, he was suddenly struck by a Philadelphia flyer, bound for New York, which had crept up unnoticed. His arm and leg were fractured, and besides he received other small injuries, which have incapacitated him ever since.

Immediately after the accident the young man's father placed the case in the hands of Reed & Coddington, who, after making their claim with the company, brought suit for $15,000.

The handling of the case from the start was one constant fight. The railroad's attorney's and detectives made every effort to protect the company from paying heavy damages but without avail and the settlement was made Thursday without bringing the case to trial. It was at first thought after the accident occurred that amputation of the fractured leg would be necessary, but through the skill of Drs. Ben and Ellis Hedges, who attended the young man throughout the entire time, the limb was saved. With their attention and his mother's nursing the patient is now able to walk without assistance, and it is believed that in time he will almost entirely recover.

He will leave in a few days for upper New York State to spend the summer and will resume his college course next fall. He is the son of Albert E. Park, a prosperous and successful real estate and stock broker, whose office is at 156 Broadway, New York city.

IN THE HARNESS AGAIN.

T. W. Morrison Resumes Editorial Work on Asbury Park Press.

T. W. Morrison, of Plainfield, is spending the summer here, a guest at The Imperial. Mr. Morrison came to recuperate his health, which had become somewhat impaired from grip. He intended to remain but a few weeks, but received so much benefit that he concluded to prolong his visit for the entire season. He is the founder of the State Publishers' Union, which comprised nearly all the leading publishers of the State, over 100 in number, was its first president, was twice re-elected unanimously to the same honorable position, and was a part of the time vice-president also of the New Jersey Editorial Association. In addition to this, Mr. Morrison was for ten years proprietor and publisher of one of the leading local dailies in New Jersey, the Plainfield Evening News. He will be one of the corps of writers who will contribute regularly to the columns of the proposed twin dailies during the summer.—Asbury Park Press.

Afraid of His Rival.

One of Mayor Rockafellow's delivery horses, which was standing near the store, became frightened at an automobile yesterday afternoon and breaking the tie strap ran away. He ran down Fourth street as far as Madison avenue, where he was captured by Thomas Currin, none the worse for his little run.

Address by Rev. A. E. Main.

The service tomorrow evening at Trinity Reformed church will be in charge of the Christian Endeavor Society, and an address will be made by Rev. Dr. A. E. Main, of the Seventh-Day Baptist church. There will also be special music. The service will begin at 7:45 o'clock.

Local News on Pages 2 and 3.

DEPENDS ON THE OFFER.

A CHANCE FOR PLAINFIELD TO GET NEW INDUSTRIES.

Jersey Central Officials Present Board of Trade With Two Inducements.

Here is an opportunity for enterprising Plainfielders to do the city a good turn and help to build up the place and increase business in many ways. The Jersey Central Railroad Company wants to help Plainfield and if there are any persons in the city that desire to join in the movement they can communicate with the Board of Trade or the railroad company. Here is a letter just received from the railroad company that explains itself:

"New York, June 19th, 1900.
"Board of Trade, Plainfield, N. J.

"Gentlemen:—This company has, among a number of applications for factory locations, one from a concern for the manufacture of automobiles and motors, employing from 800 to 1,000 hands, and a cutlery concern employing not less than 200 hands. They ask what inducements are offered for the location of their plants. Paterson, Passaic and a number of other towns and individual property owners, on the line of the D. L. & W. R. R. and Erie R. R. are offering large inducements in the way of rebate on taxes, free lands, low tax valuations, cash bonus, subscriptions to stock, erection of buildings and free rental for period of years with privilege of purchasing on easy terms, at end of said period, etc.

"Can you offer anything in this line? The railroad company will put in sidings, give low freight rate and assist in other ways to secure these people at some point along its line, but in order to secure them, the city, town or people must assist us. They will require from two to five acres of land. An early reply is requested.

"Yours truly,
"H. W. Doty,
"Real Estate Agent."

WANTS HIS FARM BACK.

Somerset Farmer Regrets the Ante-Nuptial Bargain That He Entered Into.

Henry Mills wedded Wilhelmina Biedong in February, 1896, having previously made an agreement to turn over to her his farm at Hillsborough, Somerset county, immediately upon the consummation of the marriage. He had the property transferred and the Mills' lived happily together until early in the present year. The husband, in a suit instituted in Chancery, avers that his wife deserted him April 10th last, and that he has since discovered that she has another spouse living. He declares that she told him that she was divorced and wants the Court to give him a title to his farm. Numerous requests for the reconveyance of the farm, he alleges, have been met with absolute refusal on the part of his wife.

ENDEAVORERS ABROAD.

New Jersey Party of Young Christians Will Sail From New York Next Tuesday.

The steamer Batavia will leave New York on June 26 with the New Jersey Christian Endeavorers who are to attend the annual international convention at London. The party will reach Cherbourg on July 6. The Paris Exposition will be visited and several days will be spent there. The convention opens on July 14. On July 23, after a trip to Windsor Castle and points of interest near London, the party will leave for the continent. Arrangements are being made for a side trip to the Passion Play before the start for home is made on August 9.

Thirty-seven Truants.

Since Chief Marshal Campbell, of the borough, has been truant officer, thirty-seven children have been found who were playing truant. In every case, but two, the scholar returned willingly and was present every day till the close of the school yesterday.

Worked Adoption Degree.

The adoption degree was worked on six candidates last evening by Miantonomo tribe of Red Men and three propositions were received. An invitation was received from Iona tribe of Morristown, to be present at an entertainment on July 20th.

Missionary Address.

Dr. Ida Faye Levering, a medical missionary from India, will speak on her work in the hospital at Nellore tomorrow evening in the First Baptist church at 7:45 o'clock. A cordial invitation is given to all to be present.

The Last Sale.

Next week Friday the last sale of property under the provision of the Martin Act will take place in the office of Collector Martin This is announced as positively the last sale.

NEW JERSEY JUNIORS HAVE BEEN SUSPENDED

National Officers of the United American Mechanics Take Strong Action.

TROUBLE IS OVER TAXATION.

STATEMENT ISSUED BY W. W. DISBROW, OF NEW JERSEY COUNCIL.

Western States, With a Small Membership, Have Same Influence in National Council as Eastern With Larger Lodges.

William W. Disbrow, of the New Jersey State Council of the Junior Order of Mechanics, on learning that the Councils in this State, Pennsylvania, Virginia and the District of Columbia had been suspended by the National Council yesterday, gave out the following statement:

"The trouble about this increased per capita tax is that it would prove to be taxation without representation. New Jersey, New York, Pennsylvania, Virginia and the District of Columbia members would not have objected to paying the tax if they were granted a proportionate representation in the National Council. These four States and the District of Columbia, with a combined membership of 126,000, have but five votes, while Nebraska, Washington, Kansas, Michigan and Wisconsin, with a combined membership of 1,050, have five votes.

"Also, look at the unequal representation in the National Council:—Pennsylvania, 77,000 members, eleven representatives; New Jersey, 30,000 members, six representatives; New York, 9,000 members, four representatives; the District of Columbia, 1,800 members, three representatives. A total membership of 126,000 gets twenty-eight national representatives, or one representative for each 4,500 members, while the remaining thirty-two States, representing but 57,000 members, get ninety-six national representatives, or one for each 594 members.

"Now, until such time as the National Council deems it proper to give us equal representation, the four States mentioned and the District of Columbia will, as a unit, refuse to pay the per capita tax, that has been increased from ten to fifteen cents.

"There are three hundred councils in New Jersey, and what I have just said is the sentiment of each of the councils. The National Council has increased the tax on us to build up the order elsewhere, but without letting us have a voice in the manner in which it is to be expended. We do not purpose to submit to such an unjust demand.

"The National body cannot possibly get along without the revenue from New Jersey, New York, Pennsylvania, Virginia and the District of Columbia, and as soon as this fact is apparent it will consent to give us the representation we ought to have.

"There is another thing I want to call your attention to, and that is the adoption by the National Council of new laws and a new name. The objects of the order before the change in the law were as follows:

"First, to maintain and promote the interests of Americans and shield them from the depressing effects of foreign competition; second, to assist Americans in obtaining employment; third, to encourage Americans in business; forth, to establish a sick and funeral fund; fifth, to maintain the public school system of the United States of America and to prevent sectarian interference therewith, and uphold the reading of the Holy Bible therein, and, sixth, to promote and maintain a National orphans' home."

Gift to Mt. Holyoke.

Among donations to colleges is announced the gift of $60,000 to Mt. Holyoke from John Dwight, of New York, for the erection of a memorial art building on the site of the old Dwight homestead, which stands on the campus. The donor of this gift is the father of Rev. E. M. Dwight, of Rockview avenue.

Gongs to Sound Warning.

The large carrying electric cranes, which are used for the purpose of shifting heavy machinery about the Pond Tool works, have been equipped with large car-like gongs. This is done to warn the men of the approach of a casting and prevent their being struck with it.

Trolley Car Jumped the Track.

Car No. 20, of the Front street line, jumped the track at the Somerset street switch last night, grounding the motor. The line was blocked for about twenty minutes before the car was replaced.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Gossy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—More than fifteen hundred Italian berry-pickers are now at Newport Cumberland county.

—The cherry crop of Gloucester county is a failure this season, especially in the white variety.

—A temperance league will be formed at Millville to conduct a crusade against speakeasies.

—An old deed belonging to Isaac Davis, of Canton, signed by John Fenwick, dated 1675, has been found.

—That Bridgeton is to have a new opera house seems to be a settled fact. Stock is being subscribed for a $35,000 structure.

—Summons have been issued by Justice Mosher in contract case of Sorensen against Ebberly, returnable June 29th.

—The East Third Street Mission Sunday-school will meet tomorrow morning at 9 o'clock instead of 2:30 o'clock in the afternoon.

—The scholars of the Parochial School are rehearsing daily for the closing exercises to be held next week Thursday in the school hall.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—New York capitalists have made arrangements to locate a hosiery factory at Lambertville. The second floor of another establishment will be used until a new plant can be erected and fitted out.

—Department Commander William E. Pedrick, Spanish-American War Veterans, will soon issue an order for the State encampment which is thought will be held in Trenton the last week in August.

—"As snug as a bug in a rug" is the kitchen ornamented with imported quadruple enameled stransky-steel utensils. They are ornaments, prettily mottled without the white within. Their durability and absolute purity commend their use wherever the kitchen is a matter of pride. And why shouldn't it be? There's where your food is cooked—food that goes into the stomach! Is not that place worthy of attention as well as the parlor? It is! It is!—especially when the best ware is cheaper than the cheaper than the cheap and impure—since the best wears ten times as long. We have an elegant assortment. Woodhull & Martin.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

PARTICULAR MENTION.

Carroll L. Runyon, of East Ninth street, is home from Yale University for the summer.

Miss Rose Marks, of New Brunswick, is spending a few days with friends on Central avenue.

Mr. and Mrs. Moses Schloss, of West Front street, are entertaining company from out of town.

The Misses Jennie and Susie Davies, of LaGrande avenue, have gone to Round Lake, N. Y., for the summer.

Miss Lizzie Stafford, of the borough, has returned to her position at Peck's after an absence of some time from the store.

Cornelius VanLeuven, of Rutgers College, has been the guest of his classmate, Herbert DeW. Rapalje, of Fairview avenue.

Miss Agnes B. Freeman, of LaGrande avenue, left this morning for Andover, where she will spend a few weeks with relatives.

There is no improvement noted in the condition of Walter Dreier, of West Front street, who has been seriously ill for some time.

Mrs. Lindsey Wooley and daughter, Helen, of West Front street, will go to Manasquan next week, where they will remain for some time.

William Wyckoff, the engineer at Wilson's stone quarry, who was severely scalded recently, is improving, and hopes to be out soon.

Miss Alice Miller, of LaGrande avenue, left yesterday afternoon for her home in Oswego, N. Y., where she will spend the summer vacation.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

THE JUMP IN WHEAT.

Unfavorable Crop Reports the Cause Metal Market Quiet.

NEW YORK, June 23.—R. G. Dun & Co.'s weekly review of trade says:

The damage to the wheat crop of the northwest is the event of chief importance. How expensive the loss may prove in view of widely conflicting accounts can only be judged from the speculative market, in which information gathered at the west has caused a remarkable advance, at Chicago 10 cents in ten days, and the price here has advanced 9 cents per bushel, though for the September option only 8 cents. The belief is that so large a part of the spring wheat has been killed as to reduce a yield expected to be close to the largest on record to considerably less than the world has required during the crop year now ending.

Until the past three years it would have been reasoned that any material advance in price would neutralize the foreign conditions which had caused exports of about 180,000,000 bushels wheat flour included, in the closing year, after 222,000,000 bushels in the previous year and 217,000,000 bushels in the year 1898 besides exports of 213,000,000 bushels corn in the closing year against 177,000,000 last year and 212,000,000 in the previous year. But the facts seem to indicate a more extensive and lasting increase of foreign demand than has been considered probable. Other sources of heavy export have been found disappointing.

In iron and steel progress toward that end was made when the structural producers a week ago reduced the prices of beams to 1.90 and angles to 1.80 at Pittsburg, leaving only rails and tin plates which have not been reduced from the highest point. The rail works are crowded far ahead, and the question in tin plates depends largely upon wages.

Minor metals are also quiet, with small transactions. In May production of copper was 22,682 tons, which is smaller than the output in April or March, but Lake is quoted by some at 16 cents for near future delivery. No change appears in lead, and tin continues salable at 28¼ and 28½ cents for September and August delivery against 30 cents for spot.

The shipments of boots and shoes, only 233,743 cases in three weeks of June are over 20 per cent smaller than in 1899 or 1895 and smaller by 10 per cent or more in other years.

Failures for the week have been 179 in the United States against 178 last year and 25 in Canada against 18 last year.

BASEBALL SCORES.

Results of Yesterday's Games In the National League.

At New York—

New York	0	0	0	0	1	0	1	0	0	2
Boston	0	0	0	1	1	3	1	0	0	6

Hits—New York, 10; Boston, 16. Errors—New York, 2; Boston, 1. Batteries—Mercer and Warner; Willis and Sullivan.

At Chicago—

Chicago	0	0	1	1	0	4	0	1	*	7
Cincinnati	0	2	0	2	0	0	0	0	0	4

Hits—Chicago, 12; Cincinnati, 9. Errors—Chicago, 2; Cincinnati, 2. Batteries—Callahan and Donahue; Newton and Peitz.

At Philadelphia—

Philadelphia	0	2	2	0	1	0	0	4	4	0	13
Brooklyn	0	5	2	0	0	0	0	3	3	0	13

Hits—Philadelphia, 19; Brooklyn, 22. Errors—Philadelphia, 4; Brooklyn, 2. Batteries—Conn, Donohue, Piatt and McFarland, McGinity, Kitson and Farrell.

Yesterday's game between Philadelphia and Brooklyn developed into a farce and culminated in a forfeiture against the locals. Umpire O'Day gave the game to Brooklyn—score 9 to 0—in the eleventh inning.

CONDENSED DISPATCHES.

General Wood has removed a number of high salaried professors in the University of Havana.

Governor Rollins of New Hampshire has issued a proclamation fixing "Old Home Week" in August.

Admiral Dewey's wife has bought Big Fish island, not far from Halifax, and will build a summer residence there.

Logan & Coates, the Peekskill (N. Y.) storekeepers, were held in $6,000 bail each on charges of swindling 77 firms.

B. H. Roberts, who was elected to congress by Utah Democrats and refused admission to that body, has been convicted of bigamy by a jury at Salt Lake City.

Severe Storm In Indiana.

INDIANAPOLIS, June 23.—One of the hardest rainstorms in years swept Indiana yesterday. The Wabash river is out of its banks and still rising. Much damage has been done. At Forster, Ind., a washout on the Big Four railway caused the derailing of the westbound Indianapolis-Peoria passenger train near here. The mail car, ladies' coach and sleeper rolled down an embankment. Four people were injured, among them H. H. Gould and wife of Peoria and Charles S. Miller of Indianapolis. Several children were imprisoned for an hour in one of the coaches. At Wabash the waterworks were damaged, and the city is without water. At Treaty, six miles south, a Big Four freight train of 15 cars was wrecked in a washout.

Bryan's Cousin For Governor.

JACKSONVILLE, Fla., June 23.—The Democratic convention after a day's balloting met again at 8 p. m. yesterday. On the forty-first ballot Mays withdrew in favor of Milton, on the forty-third ballot Beggs withdrew, and on the forty-fourth ballot William S. Jennings received the requisite two-thirds vote, and his nomination was made unanimous amid a scene of wild excitement. The nominee is a first cousin of William Jennings Bryan of Nebraska. He is a native of Illinois, but removed to Florida in 1886. He is 37 years old.

Quiet In St. Louis.

ST. LOUIS, June 23.—Yesterday was one of the quietest since the inauguration of the strike by the employees of the St. Louis Transit company. Cars were run on every division without molestation. The police reported that no violence had occurred. The most important event of the day was the arrest of Ora Havillon on suspicion of being connected with the recent dynamite explosions along the lines of the transit company.

Lightning Strikes a Church.

RICHLAND CENTER, Wis., June 23.—During a severe thunderstorm at Gillingham, eight miles north of this place, lightning struck the United Brethren church during service. Lewis Peckham was instantly killed, Julian Hart and S. Foley were rendered unconscious and the entire congregation shocked. The building was wrecked.

WHAT CUT do you like? We have a full line of choice BEEF, MUTTON, SPRING LAMB, Veal and Pork. You can get any cut desired here. All our meats are carefully selected. We use the utmost care in keeping our store and counters clean. Meat from a clean shop tastes better.

When we offer Spring Lamb it is Spring Lamb and not mutton.

Our prices are not as high as the quality deserves.

KEEP YOUR BLOOD CLEAN

BRIDGE WORK in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8
Bridgework	$5

BATTLE AT TIEN-TSIN

Eight Hundred Americans Among the Allied Forces.

NOTHING BUT RUMORS ABOUT PEKING

Streets Said to Be Filled With Boxers Shouting Death to Foreigners—One Hundred Already Killed.

LONDON, June 23.—The silence of Peking continues unbroken. Four thousand men of the allied forces were having sharp defensive fighting at Tien-tsin Tuesday and Wednesday, with a prospect of being re-enforced Thursday. This is the situation in China as set forth in the British government dispatches.

"Eight hundred Americans are taking part in the fighting at Tien-tsin," says the Shanghai correspondent of The Daily Express, cabling last evening, "and they apparently form a part of a supplementary force, arriving with Germans and British after the conflict started. It is impossible to estimate the number of the Chinese there, but they had a surprising number of guns."

This information appears to have been brought by the United States gunboat Nashville to Chefu and telegraphed thence to Shanghai. The Chinese are deserting Shanghai in large numbers and going into the interior. Reports from native sources continue to reach Shanghai of anarchy in Peking. According to these tales the streets are filled day and night with Boxers, who are wholly beyond the control of the Chinese troops and who are working themselves up to a frenzy and clamoring for the death of all foreigners.

The English consulate at Shanghai is said to have received from influential natives reports of a tragedy in the palace at Peking, though precisely what is not defined. The consulate thinks that Admiral Seymour, commander of the international relief column, was misled by information from Peking and consequently underestimated the difficulties in his way and the Chinese power of resistance with Maxim guns and Mausers.

The consuls at Shanghai still believe the foreign ministers at Peking safe, although Japanese reports received at Shanghai allege that up to June 15 100 foreigners had been killed in Peking.

The Daily Express says:

"We understand that Mr. Reginald Thomas Tower, secretary of the British embassy in Washington, is to succeed Sir Claude Macdonald at Peking and that the reason of Sir Claude's recall is the breakdown of his health."

A special dispatch from Shanghai, dated yesterday, says:

"Intelligence has been brought by the United States gunboat Nashville to Chefu that the foreign quarter at Tien-tsin was bombarded Monday and Tuesday by Generals Nieh, Tung Fuh Siang, Kang Su and Yuan Shu Kai. The result of the fighting is not known.

"The foreign residents are confined to a restricted district, and as food and water are scarce they have suffered greatly."

The St. Petersburg correspondent of The Daily Mail, telegraphing Thursday, says:

"The Russian minister of war, General Kouropatkin, yesterday ordered the mobilization of all the Siberian regiments of the line."

A special dispatch from Shanghai, dated Thursday, says:

"A prominent resident of Peking received at Tien-tsin on June 15 reports that the soldiers were troublesome in Peking, that a night attack on the legations was feared and that the advent of the relief force would be the signal for a general riot in Peking."

A special dispatch from Vienna says:

"Li Hung Chang has wired the various Chinese legations in Europe directing them to inform the governments to which they are accredited that he is called to Peking by the empress to act as intermediary between China and the powers to negotiate a settlement of the points at issue, and he instructs them to beg the powers to facilitate his mission by ceasing to send troops to China."

Sheng, director general of telegraphs, wires from Shanghai to the Chinese legations in Europe that the foreign legations in Peking are safe.

It is reported that the British government will immediately send 1,200 marines to China and possibly, according to some of the morning papers, 10,000 of the regulars now with Lord Roberts.

CABINET CONSIDERS CHINA.

Additional Troops Will Be Sent if Needed.

WASHINGTON, June 23.—The only news from China laid before the cabinet meeting yesterday was a telegram to the secretary of the navy giving the movements of vessels in Chinese waters. The text of the message, however, was not made public. That the president and the members of the cabinet regard the situation in China as extremely critical is shown by the fact that the preliminary preparations are being made to send forward additional troops in case of need.

A telegram will be sent to General MacArthur at Manila this afternoon asking him how large a force he can spare should it become necessary to send them to China.

It is regarded as an expression of the confidence reposed by Europe in the correct intentions of the United States government which by its prompt action at the beginning of the demonstration at Taku has managed to make the relief movement impersonal, so to speak, as between the nations. The French government, in addition to those already recorded, has now signified its accession to the understanding that the movement in China is to be conducted in the common interest, for the protection of the lives and interests of foreigners in China and not for any national gain.

It turned out during the day that the warships which have arrived at Shanghai are three Chinese Armstrong built cruisers. Not much apprehension is felt on account of the appearance of these vessels at Shanghai, for the officials believe that there is no doubt as to the good intentions of the Chinese navy. It is only as to the Chinese army that doubt exists, and the administration officials are exasperated at the peculiar omission from every official message of any statement which would clear up the doubt as to whether or not the Chinese army as well as the Boxers are opposing the relief column, and if the former then whether the troops are rebels or are acting under orders from the Chinese government. This point is of the utmost importance, for upon it depends the attitude to be assumed by the United States toward China and by that test must be determined the question, "Are we at war with China?" The state department still holds to a negative view, and it has received recently a powerful support in its position by the attitude assumed by the various European chancellories.

Just at the close of the day a long message was dispatched by the navy department to Admiral Remey at Manila, supposed to be in execution of the cabinet's decision to strengthen the United States forces at Taku. Nothing was made public respecting the communication received earlier in the day from the east, but in view of the reported arrival of the gunboat Nashville at Chefu it is assumed that the message relates to the movements of that vessel.

Li Hung Chang's Remedy.

HONGKONG, June 23.—Li Hung Chang, who was interviewed in Canton, said he would leave for Peking on June 27 in obedience to an order from the empress to suppress the Boxers and to make peace with the powers. He indorsed the opinion that he was the only man in China capable of coping with the situation. He said he believed the Boxers to be a "rabble led away by fanaticism and anti-Christian feeling," but he also declared that the native Christian leaders were much to blame, inasmuch as they engendered litigation in the native courts. He asserted that he did not regard the Boxers as a political society and that in his opinion the empress had been misled and misinformed. His remedy for the situation is to decapitate the leaders of the Boxers, to send their ignorant followers home and to make peace with the powers.

A Russian View.

ST. PETERSBURG, June 23.—The view expressed by both the press and politicians here is that Russia should make common cause with the other powers in meeting the common danger in China. It is pointed out, however, that when once the time arrives to settle the Chinese question Russia must regulate her true interests, which differ greatly from those of the other powers, and prevent her more particularly from definitely embarking in hostilities against the vast Chinese empire, her neighbor. This is also understood to be the government view of the situation.

Bombardment of Tien-tsin.

BERLIN, June 23.—The commander of the German squadron at Taku has wired as follows to the government: "A French officer who has arrived here from Tien-tsin, which he left June 20, reports that for three days the city had been bombarded by the Chinese and that the troops of the foreign detachment were short of ammunition. The German cruiser Irene has arrived here with 240 marines, who, with 380 English and 1,500 Russians, proceeded to the relief of Tien-tsin. The railway is working from Taku to within 15 kilometers of Tien-tsin."

PITTSBURG'S BIG FIRE.

Property Valued at a Quarter of a Million Destroyed.

PITTSBURG, June 23.—Fire in one of the principal down town business blocks yesterday caused a loss of $250,000, involving eight buildings containing many office tenants. The aggregate insurance will more than cover this amount. The fire was first discovered in the rear of the Eichbaum company printing establishment, supposedly caused by spontaneous combustion. The Eichbaum building fronted on Fifth avenue a few doors below Wood street, was six stories high and was tenanted by many office holders, among them being Duff's college, occupying the two upper floors, and the Holmes Electric company, on the third floor.

In an incredibly short time the entire building was a mass of flames, and before the firemen could do much effective work it had communicated to the Exchange National bank building next door below and from there to the Hussey building adjoining.

Simultaneously the fire extended to James Platt's saloon and restaurant and A. M. Murdock's flower store on the upper side. The conflagration was one of the most threatening seen in this city for many years, and for a time the entire block bounded by Fifth avenue, Wood, Diamond and Market streets seemed doomed to destruction.

The principal losses are the Eichbaum building, owned by Whitney, Stephenson & Co., $75,000; the Hussey building, owned by Mrs. Emma Alsopp, $30,000; Kurtz, Langbein & Swartz, Artistic Supply company, $8,000; Duff's college, $15,000; Pittsburg Coal company, $7,500; Piatt's saloon, $6,000; Paulson Bros., hatters, $5,000; American Express company, $5,000, and Holmes Electric company, $3,500.

The other losses are distributed among the office tenants, none of whom suffered to the extent of more than $2,000. The Exchange National bank did not suffer much damage except by water by reason of the fact that its building is only a two story structure between the two big office buildings, and the flames practically skipped over it.

Strikers Still Hold Out.

ST. JOHN'S, N. F., June 23.—The Bell Island strike deadlock remains unbroken. The companies will try to unload the steamer Regulus, carrying freight. They have applied to the government for police protection, and an armed force will join the ship and attempt to work the freight off. Mr. Reid, the contractor, has thus far been unable to induce Mr. Bond, the premier, to reconsider the government's refusal to permit him to transfer to a joint stock company his railway and other interest in the colony.

Big Steel Plant For Virginia.

RICHMOND, June 23.—Capitalists interested in the erection at Basic City, Va., of a $27,000,000 steel plant have been in conference here. They are chiefly British and New York men. Some of them, it is believed, are the men who went into the iron mining boom which started at Glasgow a dozen years ago under the management of General Fitz-Hugh Lee, and the collapse of which is still remembered. The definite announcement of the organization cannot be made for a week or more.

Nothing From Kumassi.

PRAHSU, June 23.—There is no fresh news to hand from Kumassi, but the local authorities think that the relief of the town may now be effected any day. The casualties of the relieving force, all ranks, aggregate 300 already.

Killed by Lightning.

KENT, Conn., June 23.—During an unusually severe electric storm here Walter Hall, a farmer, aged 50, was struck by lightning and instantly killed. Mr. Hall was sitting at the dinner table in his home at the time.

TAKING THE CENSUS.

A Much Greater Undertaking Than Many Suppose.

THE DIRECTOR MAKES A STATEMENT

Enumerators In Rural Districts Have Until July 1—A Large Amount of Labor at Headquarters Before Results Can Be Announced.

WASHINGTON, June 23.—Director of Census Merriam has given out the following statement for the information of the public:

"The census office is now in receipt of many letters daily asking for information as to the results of the census in particular localities and especially in the larger cities. It does not appear to occur to the writers that the census has not yet been taken. The law allows until June 15 in cities of 8,000 inhabitants and in rural districts until the 1st of July for its completion, and after that the schedules have to be examined by the supervisors of census before they can be forwarded to Washington in order that the supervisors may determine whether the work has been satisfactorily done and may be in position to certify to the correctness of the enumerators' accounts for service rendered under the law.

"In order to appease the impatience of the public the following statement has been prepared, showing what has to be done with the census returns when received at Washington and why it must be weeks or even months before the figures can be given out in their entirety:

"Every enumerator is required to fill a daily report card showing how many hours and minutes he has been at work and how many persons he has enumerated that day. Since there are (including special enumerators for institutions and for the military and naval population) approximately 53,000 enumerators and 30 days are allowed for the completion of the census, the number of daily report cards to be examined in the census office is somewhere between 1,000,000 and 1,500,000, every one of which has to be copied by hand upon a series of blank tabular statements, of which there is one for every enumerator. These are then recopied upon a summary statement showing the amount of work in each supervisor's district, and since there is space on each blank for recording the work of 100 enumerators and only part of the blanks will be filled, there will be approximately 1,000 of these sheets.

"It is difficult for any one not familiar with census work to form any idea of the vast amount of material to be handled in all the divisions of the office. The number of boxes containing schedules sent to the enumerators in advance of taking the census was 4,500, and their total weight was estimated at 300 tons. All of this material is returned to Washington, where it has to be sorted out and arranged in order by states and the subdivisions of states upon shelving aggregating several miles in length. There is an invoice of schedules in every box received, which has to be verified, and the schedules which do not relate to population must be counted and delivered to the chief statisticians for mortality, agriculture and manufactures and their receipts taken for the same. A separate receipt has to be made out by each of them for each of the 53,000 enumerators.

"Next in order follows the examination in detail of the schedules. Every schedule has to be examined in order to see that the enumerator has not made an overcharge for his services. For this purpose the schedule has to be compared with the account rendered by him. Every possible effort will be made to pay the enumerators at the earliest practicable date. Every business man knows that 53,000 bills presented for payment in one day could not be audited and paid at sight.

"The schedules then go to the clerks employed in punching cards for the Hollerith electric tabulating machines. When these cards have been punched they have to be verified by the use of a special machine so adjusted as to throw out every card which does not fulfill certain conditions of accuracy in punching. A count of the population will be made during this verification by color, by sex and by native or foreign birth, which will consume possibly five or six months. Not until this machine count shall have been made for any particular city, county or state can the figures be given out for publication. The cities will naturally be taken up first, and as fast as the actual population as returned by the enumerators is ascertained it will be posted on a bulletin board in the hall outside the director's room for the information of the press. Figures not given out by the census office will be understood to be merely guesses, which may in some cases approximate the truth, but are unauthorized and untrustworthy."

Found Big Still.

NEW YORK, June 23.—Revenue Agent F. G. Thompson, accompanied by Deputy Commissioner Williams of Washington and Deputy Collectors Long, Fellows, Taylor, Moore and O'Neil, confiscated an illicit still operated by Lewis Freiman and Joseph Goldstein in Mount Vernon. Twin stills were found on the second and third floors with fires lighted, and each held 125 gallons. Forty barrels of sour mash and 150 gallons of new made whisky were seized. According to Agent Thompson the profits of the stills in full working order would be about $500 per day. The prisoners are Russian Jews.

Sandford and His Saints Arrive.

BRUNSWICK, Me., June 23.—Evangelist Sandford of the "Holy Ghost and Us" society arrived at Shiloh, in Durham, yesterday, with 50 saints, converts to the faith, made by Mr. Sandford in his trip through the far west. Among those baptized at Shiloh this week were ex-Mayor Ryan of Winnipeg and Sanders Spaulding of Fitchburg, Mass.

Dundonald Occupies Standerton.

KAATSBOSCH, June 23.—General Dundonald, with the Third cavalry brigade, has occupied Standerton without opposition. The burghers left Thursday after having blown up the railroad bridge and doing other damage. The infantry marched 22 miles and camped at Kaatsbosch spruit last night.

Hurt In Runaway.

MONTICELLO, N. Y., June 23.—Professor Neske, director of the Columbus Barracks band at Columbus, O., for a number of years, and Mrs. Neske are lying in a critical condition at their summer home in Thompsonville, Sullivan county, as a result of a runaway while they were out driving.

How to Get Well!

Plain Facts for Those Who Are Sick.

RADAM'S Microbe Killer

(THE WATER OF LIFE)

Is Saving Thousands of People From the Grave.

It cures Consumption, Cancer, Chronic Catarrh, Dyspepsia, Stomach and Liver Troubles, Scrofula, Eczema, and all Eruptions, Rheumatism, Lameness of the Back or Limbs, all Tumors and Swellings, Diabetes, Bright's Disease, Fistula, Piles, etc. Especially valuable in Female Complaints.

Its many Cures are of daily record—very often when all hope had been abandoned.

Why not try a bottle ($1) or a gallon jug ($3)? It will certainly cure you, as it has thousands of others.

If you are interested or any of your friends are sick, don't delay in sending for a book containing letters from our patients, mailed free on application.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

H. C. Suydam is spending a few days at Delaware Water Gap.

George Strong and family, of Central avenue, have gone to the mountains.

L. M. Dunavan, of the fire department, is now enjoying his annual vacation.

Edward Stoeckle, of the borough, will spend Sunday with relatives at Orange.

Mrs. John Skellinger, of Elmwood place, has recovered from a recent severe illness.

Mrs. Nevius, of West Fourth street, has returned from a sojourn in the Berkshire Hills.

Henry Leal, of Central avenue, has returned from Yale University for the summer vacation.

Miss Cornelia Hopper, of Passaic, is visiting Miss Wilhelmenia Vroom, of East Fifth street.

Miss Annie Alpaugh, of Portsmouth, Mass., has been visiting friends in the city for a few days.

Mr. and Mrs. Chas. Greer, of Duer street, will soon take up their residence in Netherwood.

Miss Alberta Irwin, of New York, is the guest of Miss Evelina DuB. Benton, of Central avenue.

E. C. Perkins and family, of Central avenue, have gone to Vermont, where they will remain for a time.

Rev. Mr. Dwight and family, of Rockview avenue, will soon take up their residence in New York.

Miss Magdalene VanArsdale, of Pluckamin, is visiting at the home of Chas. W. Hardon, of Stone street.

Mrs. J. T. Armstrong and Mrs. Alderise, of Brooklyn, are visiting Mrs. Denton, of Washington avenue.

Charles Dupee, of Rockview avenue, has returned from Yale University to spend part of his summer vacation in Plainfield.

Garret Q. Packer and family, of East Sixth street, have returned from Wellsley College, where Miss Packer graduated.

Early next month the family of B. A. Hegeman, Jr., of Washington Park, will go to Point Breeze Camp, Wolfboro, N. H.

Miss Francis Thorn, of Hoboken, who is stopping with her father on East Third street, is anticipating a trip to Denver, Col.

Herbert DeW. Rapalje, of Fairview avenue, has returned from New Brunswick, where he graduated last week from Rutgers College.

Mr. and Mrs. Alfred Randolph will return today or Monday from their honeymoon, and take up their residence on Liberty street.

Captain Stewart, of West Front street, who follows the sea most of the time, is expected to return home soon from an extended voyage.

Mrs. Seely Edsall, of Sandford avenue, has so far recovered from a long and tedious attack of rheumatism so that she is able to go out a little.

William A. DeLong and family have given up their home on Sandford avenue and have moved to New York where they will take up their residence.

Mr. and Mrs. Rogers F. Murray, of Madison avenue, have returned from Philadelphia, where they attended the sessions of the Republican National convention.

Although Dr. Frank Hallock, of Watchung avenue, continues to improve steadily from an attack of typhoid fever, it will be a long time before he will be able to leave the hospital.

Dudley S. Miller, of Orchard place, has about recovered from his recent illness, and is able to be out again. Yesterday he and his family left for Whippany, Morris country, where they will remain for a time.

Mildred Adele Hardon, daughter of Charles W. Hardon, of Stone street, and Norman Albert Conovor, son of Walter Conovor, of East Fifth street, were recently christened by Rev. Vanderveer Nichols, of Mortonville, Pa.

Mr. and Mrs. F. C. Langhorne, of Putnam avenre, have gone to Wellesley, Mass., to attend the graduating exercises of Wellesley College, where their daughter, Miss Agnes Langhorne, completes her course this year.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

YELLOW FEVER SPREADING.

Cases Caused In Many Places by Recent Heavy Rains.

HAVANA, June 23.—The unusually heavy rains that have been falling throughout Cuba have caused yellow fever in places where it had been unknown for several years. Fortunately, except at Santa Clara and Quemados, the United States troops have escaped. At Quemados two new cases are reported among the members of General Lee's staff—Major Kean, chief surgeon, and Captain Hepburn, signal officer. Captain Hepburn's case is serious, but Major Kean's is light. Mrs. Edmunds, wife of the late Major Frank H. Edmunds, is convalescent. She has not yet been told of her husband's death.

Havana has developed only three cases thus far in spite of the gloomy predictions of what would occur as soon as the rainy season, from which the city did not suffer last year, was really at hand.

El Cubano says:

"The Cubans have a right to object to the expenditure of money for sanitary measures intended to protect the lives of a few Americans, as they do not themselves take yellow fever. In such circumstances large expenditure cannot be justified."

General Wilson, commander of the military department of Matanzas-Santa Clara, telegraphs that the situation at Santa Clara city has materially improved since the troops were ordered out of the city limits. General Lee's headquarters at Quemados will probably be moved to the camp in the neighborhood of Fort Columbia, where the troops are, or possibly to the site of his first headquarters at Buena Vista.

Governor General Wood will appoint a commission to investigate all claims for or against church property, several municipalities having claimed that much property, nominally in charge of the church, really belongs to the people. In many instances the municipalities have confiscated disputed property on that ground.

Postal Clerk Arrested.

NEW YORK, June 23.—Arthur S. Hunkele, vice president of the New York branch of the National Postoffice Clerks' association, was arrested yesterday on a charge of stealing from the mails. He was taken before United States Commissioner Shields and held in $2,000 bail for the grand jury. Bail bonds were furnished later. Hunkele was employed in Branch H, at Lexington avenue and Forty-fourth street, where he was night clerk. Branch H handles all the mail packages from all other stations in the city that are intended for New England, New York state outside the city and the northwest. A number of packages for these points had been reported as missing, and a watch was set, which resulted in suspicion falling on Hunkele and finally his arrest. Hunkele has confessed his guilt to Inspectors Jacobs and James.

Morocco Asks Arbitration.

LONDON, June 23.—The Times says this morning: "On June 9 the government of Morocco sent a formal demand to the French government for European arbitration of the questions in dispute between Paris and Tangier. Morocco contends that she possesses a mass of correspondence with the Algerian deys (Turkish governors of Algiers before the French conquest of 1830) conclusively proving that the oasis of Tuat, nearly equidistant from Morocco, Algeria, Tunis and Fezzan, formed part of the Moorish empire and was so recognized by the predecessors of France in title."

Body Cut In Two.

ROCHESTER, June 23.—Captain W. H. Oliver of the coal barge F. H. Burton, a Canadian boat, loading coal at the A. G. Yates Coal company's docks at Charlotte for Kingston, was struck and instantly killed by an empty coal car yesterday afternoon. Captain Oliver was standing on the shoots watching the coal shoot into the vessel. One of the empty cars was let loose to go down the grade, and before the captain had time to get out of the way it struck him, passing over his body, cutting it in half at the waist. An inquest will be held.

Coler Wanted For Governor.

NEW YORK, June 23.—When Comptroller Bird S. Coler was asked last night if there was any truth in the current talk that the Democratic leaders of the state were going to nominate him for governor of New York and were determined to force him to take the nomination in spite of any opinions he may have expressed in the matter previously, he said that it was substantially correct. He would not say, however, that he would accept the nomination. The comptroller would say nothing further concerning the situation.

Secretary Root Leaves Washington.

WASHINGTON, June 23.—Secretary Root left last evening to attend the graduating exercises of Hamilton college at Clinton, N. Y., of which his son is a student. After that he is going with his family to his summer home in Southampton, on Long Island, to spend a few days.

Americans Killed In Brazil.

ATLANTIC CITY, June 23.—W. G. Bartlett has received a telegram from the secretary of state to the effect that Lewis H. Bartlett of this place and J. M. Babrege of Tottenville, on Staten Island, were killed recently in Pernambuco, Brazil.

New York Markets.

NEW YORK, June 22.—FLOUR—State and western quieter and rather less strongly held owing to the setback in wheat; Minnesota patents, $4.50a5; winter straights, $3.85a4; winter extras, $2.75a3.15; winter patents, $4.10a4.50.

WHEAT—Opened strong on dry weather news, but at once lost the advance under heavy and general realizing of an influential character; July, 87⅛a88½c.; September, 87½a88⅞c.

RYE—Very firm; state, 62a63c., c. i. f., New York, carlots; No. 2 western, 67c., f. o. b., afloat.

CORN—Opened firm with wheat and then sold off under realizing and lower cables; July, 46⅛a46⅝c.; September, 47a47⅛c.

OATS—Inactive and easy; track, white, state, 29½a35c.; track, white, western, 29½a35c.

PORK—Steady; mess, $11.75a12.50; family, $13.50a14.25.

LARD—Firmer; prime western steam, 7.05c.

BUTTER—Steady; state dairy, 15a18½c.; creamery, extras, 16a19c.

CHEESE—Irregular; large white, 9¾c.; small white, 9½a9⅝c.

EGGS—Dull; state and Pennsylvania, 13a15c.; western, ungraded, loss off, 14a14½c.

TURPENTINE—Easy at 46a46½c.

MOLASSES—Firm; New Orleans, 44a55c.

CLOSING IN ON STEYN

Forces of Roberts and Buller Are United.

KRUGER'S SONS NOW FARMING.

Baden-Powell Rides From Mafeking to Pretoria—Special Mention For Strathcona's Horse—British Buy Krupp Batteries.

LONDON, June 23.—General Steyn's forces in the Orange River colony are for the time drawing most of the attention of Lord Roberts, rather to the neglect of Commandant General Louis Botha and President Kruger. The severance between the Transvaal and the Orange River colony was completed yesterday, as Lord Roberts said it would be, by the arrival of General Buller's advance, under Lord Dundonald, at Standerton.

The wide net around the 6,000 or 8,000 men under General Steyn will now contract. Adroit maneuvering and brisk fighting are likely to take place because until all resistance south of the Vaal is at an end the British line of communications will not be safe.

President Kruger's sons who surrendered to General Baden-Powell are back on their farms and working peacefully. General Baden-Powell rode with only 300 men from Mafeking, and he made the last section of his ride to Pretoria with only 35. Lord Roberts met him in the outskirts of the town and escorted him to the presidency.

General De Wet's farmhouses have been burned by the British.

General Buller has issued a special order eulogizing the services of Strathcona's horse.

Captain Jones and the brigade from the Forte have been ordered back to the ship at the admiral's request.

The following dispatch has been received from Lord Roberts:

"Ian Hamilton's column reached the Springs yesterday en route to Heidelburg, where they will join hands with Buller's troops, who reached Haardekop yesterday and will be at Standerton tomorrow, thus opening up communication between Pretoria and Natal and preventing any joint action between the Transvaalers and the people of the Orange River Colony.

"Baden-Powell reports from Rustenburg that he found the leading Boers very pacific and cordial on his return journey hence. Commandant Steyn and two actively hostile field cornets had been captured during his absence.

"Lord Edward Cecil, the administrator of the Rustenburg district, has to date collected 3,000 rifles.

"The commissioner at Kroonstadt reports that 341 rifles have been handed in at Wolmarnstad."

A dispatch from Lourenco Marques, dated June 22, says:

"President Kruger's principal condition for immediate peace is that he be allowed to stay in the country. There are 5,000 British sick and wounded at Pretoria. Mrs. Reitz, wife of the Transvaal state secretary, and her family, who arrived here en route for Europe, had so little money that the Dutch consul purchased second class steamship tickets for them."

It is announced that the British war office has bought 40 batteries of Krupp field artillery.

Riot at a Colliery.

WILKESBARRE, Pa., June 23.—A riot occurred at the Fernwood colliery of the Butler Mine company near Yatesville yesterday. The men employed at the colliery have been on strike for some time past. In the morning they interrupted a number of nonunion men who were on their way to the mine to work. William Holleran, a pump runner, was one of the men stopped. He showed fight, and the strikers gathered around him in large numbers. Some one in the crowd fired a revolver. This brought the coal and iron policemen who have been guarding the works to the scene. The strikers, it is alleged, fired their revolvers, and the police opened fire on them. Two of the strikers dropped to the ground. They were James Santo, who was shot in the calf of the leg, and Joseph Paggado, shot in the shoulder. The wounded men were taken to a house near by and their injuries dressed. When the strikers saw their two companions shot, they fled in a panic to the woods near by.

Steamer In Collision.

NEW YORK, June 23.—With about 250 passengers on board the steamboat Magenta, a freight and passenger boat plying between New York and Keyport, N. J., collided with a lighter off the Battery near the public baths yesterday afteroon. There was wild excitement on board the steamer, and it was with great difficulty that several of the passengers were restrained from jumping overboard. Several tugs went alongside and made fast to the sinking steamer. She was quickly towed over to the Jersey flats, where she was beached.

Wheat Crop a Failure.

CHICAGO, June 23.—The Times-Herald today publishes a crop report prepared by Snow, the crop expert, who has just completed a two weeks' trip through the states of Minnesota and North and South Dakota. He declares the situation a national calamity and claims the wheat failure the worst ever known. He estimates the Dakotas as promising only 20,000,000 bushels each and Minnesota 35,000,000 bushels, a total of 75,000,000 bushels, against 200,000,000 bushels last year and 225,000,000 bushels in 1898.

Beer Stamps Lead Him to Prison.

NEW YORK, June 23.—Thomas Riley, one of the two men arrested in April, charged with having in their possession $4,700 of internal revenue beer stamps which had been stolen while in transit from the treasury department in Washington to the postoffice, has been found guilty in the criminal branch of the United States circuit court.

Revolutionists Take a Town.

CARACAS, Venezuela, June 23.—The Colombian revolutionists have occupied Bucaramanga, on the Venezuelan frontier. Cucuta, a town in the department of Santander, also on the Venezuelan frontier, continues in possession of the revolutionists.

Bernstein Beats Solly Smith.

NEW YORK, June 23.—Joe Bernstein of this city met Solly Smith of Los Angeles at the Broadway Athletic club, and after fighting 14 rounds Smith was disqualified for fouling.

Weather Probabilities.

Cooler; fair; brisk northeasterly winds.

THE DAILY PRESS.

A. E. FORCE, - Editor and Proprietor.

Any subscriber failing o receive a single issue will confer a favor by notifying the business office.

Advertising rates mailed on request.

Copy for change of advertisements MUST be in this office by 9 a. m. to ensure change the same day.

PLAINFIELD, N. J., JUNE 23, 1900

READERS of The Press, anticipating leaving Plainfield for a summer vacation, should send their address to the business office. The Press will be forwarded without extra charge.

COMING EVENTS.

June 24—Several well-known men will relate their experience at the Y. M. C. A. rally at 4:15 p. m. Good music.

June 30—Y. M. C. A. Camp for young men at Northfield, Mass.

July 3—Volunteer League of the Y. M. C. A.

July 5—Board of Directors of the Y. M. C. A.

July 6—Y. M. C. A Boys' Camp at Lake Champlain.

Senatorial Dominance.

The Republican National convention was dominated by Senatorial influences, members of the House of Representatives taking a less prominent part in the proceedings than has been the case in the history of the party. Representatives have heretofore figured as great factors in the preliminaries, as well as in the actual convention proceedings, but at Philadelphia a different state of affairs existed. There the whole result was effected by and through the work of members of the United States Senate. In calling attention to this situation the Philadelphia North American says of the convention:

It was called to order and addressed and largely controlled by the Hon. Marcus Alonzo Hanna, United States Senator from Ohio.

The temporary chairman who outlined the Administration's policy was the Hon. Edward Oliver Wolcott, United States Senator from Colorado.

The permanent chairman who again outlined the policy and intentions of the party was the Hon. Henry Cabot Lodge, United States Senator from Massachusetts.

The chairman who had the honor of reading the platform was the Hon. Charles Warren Fairbanks, United States Senator from Indiana.

The man who received the most applause on the second day of the convention, and whose temporary prominence was due to the mere offer of an impossible resolution, was the Hon. Matthew Stanley Quay, the would-be United States Senator from Pennsylvania.

The man who made the most motions was the Hon. Wm. J. Sewell, United States Senator from New Jersey.

The man who nominated William McKinley for President was the Hon. Joseph Benson Foraker, United States Senator from Ohio.

The man who, among others, seconded this nomination, was the Hon. John Mullen Thurston, United States Senator from Nebraska.

The man who wound up the proceedings in the most entertaining speech delivered during the meeting was the Hon. Chauncey Mitchell Depew, United States Senator from New York.

And the man who did more than anyone else probably to name the Vice-President was the Hon. Thomas Collier Platt, United States Senator from New York.

Some members of the House of Representatives were present as delegates, newspaper contributors and spectators, but they did not appear in the proceedings. What can the matter be with the great body which heretofore ran Presidential conventions?

If an advertisement has failed to accomplish the purpose for which it was intended there has been some influence at work which effectually prevented the consummation of its possibilities, says the Philadelphia Record. Perhaps the "ad" was badly constructed, or too seldom printed, or placed in a poor advertising medium. Perhaps it promised what the advertiser did not perform. When advertising is well managed and constantly employed, and is not misleading, it will irresistibly increase the number and aggregate value of business transactions.

We understand that Editor Runyon, of the News, is very anxious to retire from the newspaper field in Plainfield, and in hope of accomplishing this action the plant and business of the News is on the market. Editor Runyon values the paper and business at $25,000. He has already had negotiations with prospective purchasers, but nothing definite has been accomplished towards effecting a sale. We have not been informed as to the cause of his desire to dispose of the News.

The people of St. Louis expect to spend on their Exposition the same amount of money ($12,000,000) that was paid for the Louisiana Territory in 1803—an area of 1,182.755 square miles.

State elections will be held in North Carolina August 2d; in Alabama August 6th; Arkansas, September 3d; Vermont, September 4th; Maine, September 10th, and Georgia, October 3d.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

While in Philadelphia Wednesday Councilman James F. Buckle took a party of friends, consisting of Councilman R. I. Tolles, Postmaster E. H. Bird, Walter Longman, Jr., and City Judge William N. Runyon out to Manayunk, a beautiful suburb of Philadelphia, and entertained them at the United States Hotel. The entire party was charmed, not only at the scenery, which rivals that of the Alps, but on account of the historical associations of the place, William Penn, as Mr. Buckle informed his friends, having originally settled at Manayunk. Councilman Tolles contemplates returning to Manayunk later in the summer for an extended stay.

. . . . . .

It is a fact that it is some times difficult to distinguish white people and very light colored persons apart. Cases of mistaken identity are frequent from this cause, sometimes laughable and again otherwise. One of the former cases occurred last week during the New England Baptist convention. There were several white men attending the convention, one of whom visited a local barber shop. While awaiting his turn, one of the habitues of the place informed the proprietor that the supposed white man was attending the convention and therefore must be colored. The proprietor believed this to be true and refused to shave the supposed colored man. The latter protested but all his remonstrances were of no avail and he was met with a polite but firm refusal. He was finally forced to seek another shop where his identity was unquestioned. The friends of the barber found out the truth of the matter later and they are now telling how "he'd ought to have known better."

. . . . . .

Thousands of trout fishermen will hail with delight the capture of a trout by Howard Reeder, of Easton, a few days ago. The fish and the story of the hooking of it, as well as the discoveries made by Mr. Reeder when he examined the prize, will go a long way toward substantiating fish stories that have been related for the last ten or fifteen years. It is a fact well known that when fishermen tell of the escape of trout that they "nearly landed" their auditors smile in an aggravating incredulous fashion, and that when the experts say the fish "got away with the hook" some "land lubber" invariably acts as though he had a fit. Now the fishermen in telling their stories will be able to offer what might be called corroborative evidence, for, according to the Flemington Democrat-Advertiser, the trout that Mr. Reeder caught, "after a struggle of twenty minutes," had in its mouth thirteen hooks, "telling of the number of escapes it had made." Four of the hooks were of the common, ordinary small-boy variety, and the balance were fly hooks, such as used by the experts. This trout measured "nineteen and a half inches in length." It was undoubtedly the fish whose escape has been so often chronicled in song and story. In capturing it Mr. Reeder deserves a place beside the late Isaak Walton in the hall of fame.

Special Meeting of Borough Voters.

Teere will be a special meeting of the citizens of the borough Monday evening, July 23, in the Somerset street school building, at which time the Board of Education will ask the citizens to approve the expenditure of $5,500 for the proper heating and ventilation of that school building.

At Freedom Again.

William Campbell, a blacksmith employed by Prince Brown, of Richmond street, who has been spending a few days in the borough lockup for intoxication, was released yesterday.

Genesee Pure Food Co., Le Roy, N. Y.:

Dear Sirs:—Some days since a package of your GRAIN-O preparation was left at my office. I took it home and gave it a trial, and I have to say I was very much pleased with it, as a substitute for coffee. We have always used the best Java and Mocha in our family, but I am free to say I like the GRAIN-O as well as the best coffee I ever drank.

Respectfully yours,
A. C. JACKSON, M. D.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence to The Press.)

Dunellen, June 23.—After a few short exercises held in the schools Thursday morning, the year's work of the scholars came to an end and they are free from all study until next September. Most of the teachers have already left town for their summer vacation or expect to within a few days. Miss Annie Loyd has left for Bryn Mawr, Pa., Miss Ada Weatherwax has left for her home in Cortlandt, N. Y. Miss Wilgus is at Red Bank and Miss Fulper is sojourning at Flemington.

Considerable excitement was caused at the depot Thursday night by one of a team of horses belonging to Mr. Bunker, who resides on the Sandford property. The horse began rearing and jumping and finally broke the pole belonging to the wagon.

J. Emmons Henry has settled the accident insurance claim of Henry Garretson who contracted blood poisoning in his hand some time ago. Mr. Garretson presented his claim on the 18th and received his check the next day.

The Central Railroad sprinkled a quantity of oil on the Nashington and Prospect avenue crossings, yesterday, for the purpose of laying the dust. This experiment has been tried for some time with great success.

Suit has been instituted before Justice Warden, of Dunellen, in the case or Amelia L. French against Peter Zimmermen, of New Brunswick, on contract. Isaac P. Runyon represents the plaintiff.

A gang of carpenters in the employ of the railroad are placing new flooring and otherwise repairing W. H. Coles coal sheds. Garretson & Gray's sheds will also be given an overhauling.

Mr. and Mrs. James Manning, of Trenton, returned home today after a few days visit with the latter's parents Mr. and Mrs. John Runyon, of Washington street.

In a letter received by his parents Thursday, John Hill, who lately went West, says he is in Joliet, Ill., and that he expects to return shortly.

John Bird, a prominent lawyer, of New York has returned home after a pleasant visit with his brother, Howard Bird, of West Dunellen.

Street Commissioner Staats' men were at work yesterday removing the overhanging limbs from the trees on North avenue.

Mrs. J. B. Sprowl, of Jersey City, returned home yesterday after a visit with her sister, Mrs. A. N. Randolph.

Professor Morris, of Rutgers College, was a pleasant visitor at the graduation exercises Thursday night.

Robert Mullat, of Bound Brook, has removed to the Gouth residence on North avenue.

William H. Terry has returned home from a visit with relatives in Westfield.

Harry Zimmerman, of Elizabeth, visited friends in town yesterday.

Edward Ayers is decorating the front of the Dealaman building.

Mrs. Joseph Maier spent Thursday with her mother in Cranford.

The sale of the Bowyer goods will be concluded this evening.

Wesly Blaine spent Thursday with friends in New Brunswick.

L. D. Frazee visited friends in New York yesterday.

Mrs. Maurice Rarick spent Thursday in Newark.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, June 23—A gentleman who is staying at the Blackford farm, was forced to walk home Thursday by the action of his horse. The gentleman was in the act of taking a strap out of the wagon with which to tie him in front of Dan Moody's place, when the animal suddenly darted up the hill and, despite the efforts of several men to stop him, ran straight to the farm.

Captain Joseph Coddington, of Elizabeth, who has been visiting Mulford Casterline, returned home today.

Miss Jenner and family will leave tomorrow for a visit with friends at Martinsville.

Children's Day exercises will be held at the First Baptist church tomorrow night.

Robert Pierce returned home yesterday from Philadelphia.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, June 23.—The members of the choir guild of All Saints' church held an enjoyable and profitable cake and ice cream sale in the Fanwood Fire House last evening. The hall was prettily decorated for the occasion and the weather was perfect for the ice cream part of the programme, consequently the young ladies will be able to realize a neat little sum for the church by their efforts.

The Township Committee met in the township rooms last evening. Business relating to the appointing of special officers, to preserve order in town when it was deemed necessary, was transacted. The extra expense, if it should be incurred, will be met by the appropriation made by the taxpayers at the spring election. The amount voted for was $50. This will no doubt be an ample sum, for it is seldom that Scotch Plains will have to call out specials.

The Children's Day exercises of the Baptist Sunday-school will be held in the church tomorrow morning, taking the time devoted to the Sunday-school session. An interesting programme has been arranged by the teachers. George E. Hall, formerly superintendent of the school, will make the address of the day. The members of the school extend a most cordial invitation to their friends to attend the exercises.

The Republican voters of Fanwood Township will hold their primary to elect delegates to the Congressional convention which will meet in Elizabeth, Monday evening in Excelsior Hall.

Rev. G. M. Shott will take for his text for Sunday morning's sermon, "The Man With the Message." In the evening, "Victory in Retreat."

Twilight Council, Jr. O. U. A. M., held a regular business meeting in their rooms last evening.

Miss Winckler, of Newark, is visiting at the home of Mr. and Mrs. William Reynolds.

WESTFIELD

(Special Correspondence to The Press.)

Westfield, June 23.—Fireside Council, Royal Arcanum, of Westfield, went on a trolley ride in special cars to Plainfield last night.

The Westfield Fire Department is waiting for permission to string the fire alarm wires on the telegraph poles along the railroad before the fire alarm boxes can be placed at Garwood.

The car sheds of the Westfield and Elizabeth Street Railway are to erected at Westfield, and will be large enough to house all the cars of the Elizabeth and Rahway lines.

A site for the new Union chapel at Garwood has been selected at the corner of Centre street and Third avenue.

A new chapel is to be erected on the grounds of the Westfield Presbyterian church to cost about $5,000.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, June 23—In the advertising columns of The Daily Press today it is announced that the plans for the new schoolhouse in this place can be found at the office of Charles Day in New Market, where prospective contractors can secure information necessary for them to make bids for the construction of the buildings. The plans will be there for two weeks.

Don't Marry for Money

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at L. W. Randolph s drug store.

CROP CONDITIONS

Rains of the Past Week Greatly Improved All Produce.

(Special to The Daily Press.)

New Brunswick, June 23.—Reports received at the central office, State Experiment Station here, show that the rains of the week improved the crop conditions.

Wheat and rye are beginning to ripen; oats are doing well, and timothy is thickening up; corn is in fairly good condition, but its growth is greatly retarded by the prevailing cool nights. The harvesting of clover and mixed hay has begun and a larger yield than that of last year is indicated. Small fruits, such as raspberries, blackberries, currants and huckleberries, have an unusually good set, and the yield promises to be large. The twig blight on apple, pear and quince trees is extending and becoming quite serious in many orchards.

—Without doubt the largest stock of fancy shirts for warm weather will be found at Sebring's.

SENIORS BID ADIEU TO BOROUGH SCHOOL.

[CONTINUED FROM PAGE 1.]

formation of the Democratic party and the Republican party and the principles that were involved in each. He did not hold the idea that Jefferson was a Democrat, and did not believe that such could be proven. He was a man of the people, a leader, and many of his principles were used in the formation of the Democratic party. He held firmly to certain principles, upon which the foundation of this government was built. The latter part of Prof. Stewart's address was devoted to tracting history from the time of Jefferson to the present time, and he related many of the more important events that happened during that time.

The chorus then sang "Will-'o-the-Wisp," and "Nonsense Song," after which the valedictory was given by Miss Katharine Wolcott Dwight. This young woman won unstinted praise and admiration from the audience by her masterly effort. She pictured impressively the fact that this is a golden age of education, when the public schools are engaged in developing each human life. In the olden times it was the priestly education. Then came the education of a fractional part of the people, but this country now stands for education in the highest sense, and considers it the most important—the bone and sinew of the nation.

Miss Dwight addressed the various ones on the stage in part as follows: "To you our honored superintendent and members of the Board of Education, we express our gratitude as a class and individually and acknowledge your deep interest and oversight in our welfare, and to our teachers we say a last farewell and express our sincere regret to leave such pleasant associations and stimulating influences. May the future reveal for us the high ideals that you have hoped, and may you reap a rich harvest.

"We welcome the juniors and trust that they may appreciate the advantages before them. May they go deeper, learn more, and may the crown of the opening century be true success is the sincere wish of the Class of 1900.

"To you, classmates, we will never meet again as we do tonight. As we separate may we find fresh and new treasures, and let us remember that the key of yesterday opens the gate of today, and may we pass through the golden gates of service that our lives may be better for so doing. As we separate it is the sincere wish that "God Be With You 'Till We Meet Again."

The next part of the programme was the presentation of the diplomas to the graduates by Hon. Chas. L. Hayes, president of the State Board of Education. Mr. Hayes made a few pleasant remarks that produced laughter and applause. He congratulated the graduates, the parents and the citizens, and in a humorous vein referred to the fact that the number of young men graduates was small, but good. He then presented the diplomas which were received by the graduates.

One of the very pleasant features of the evening was the awarding of the prizes for mathematics, offered by Councilman John Valiant, of the borough. This duty fell to the lot of S. St. John McCutchen, president of the Borough Board of Education. The first prize, $15 in gold, was presented to Miss Elizabeth Curtis, and the second, $10 in gold, to Miss Sarah L. Mantz. In presenting the second prize, Mr. McCutchen took occasion to make a few remarks congratulating Miss Mantz for her superior work, and he remarked that while she must feel proud to receive the gift, she must also feel honored in knowing that she has the respect and esteem of every member of the class. Honorable mention in the above competition was made of Frank Bach and Miss Katherine Wolcott Dwight.

After the singing of "The Students" by the chorus the exercises came to an end, and for a short time the graduates were showered with the congratulations of their many friends.

A reception was given after the commencement at the Park Club to the graduates by the alumni association, where sociability and dancing engaged the attention of the large number who attended until the small hours of the morning.

Below are the names of the graduates and the courses they have pursued:

Francis E. Bach, Benj. Schuck, commercial; Miss Elizabeth Curtis, Miss Katharine Wolcott Dwight, Miss Mary Webster Honeycutt, Miss Emma Winslow LaBoyteaux, Miss Sarah L. Mantz, Miss Dora Waring, Miss Dorothea Wells, classical; Miss Aimee Louise Emmons, Miss Ida Adelaide Fountain, Miss Mary Hoagland, Miss Louise Marguerite Jacot, Miss Bertha Miles, Miss Evelyn Simonson, Miss Julia Williams.

JUST A TASTE

of our Butter is enough. Henceforth we have you as a customer.

We carry three different grades of butter, each of which has its special merits.

Our Rockdale Print Butter at 26 cents per pound, is the best on earth. It has the rich, delicate flavor of the finest cream and for table use cannot be surpassed.

Some of the cheaper grades of butter sold elsewhere are often tasteless. Our lowest priced goods are of excellent flavor.

Lokal-Nachrichten aus der alten Heimath.

Provinz Schleswig-Holstein.

Flensburg. Der Rentner Friedrichsen hat der Stadt 50,000 Mark vermacht zur Unterstützung solcher Personen, die sich im Siechenhause und Kloster „Zum heiligen Geist" befinden.

Kiel. Für einen Festkommers anläßlich der Immatrikulation des 1000. Studenten unserer „Christiana Albertina" bewilligten die Stadtkollegien 3000 Mark. Der Stadtverordnetenvorsteher Dr. Thomson überreichte diesem Glücklichen, stud. phil. Reiners aus Cobberich a. O., Rheinprovinz, als Andenken ein prachtvolles Album der Stadt.

Provinz Westfalen.

Bochum. Die Stadtverordneten-Versammlung wählte den Bürgermeister Dr. Großmann in Naumburg einstimmig zum Bürgermeister.

Gelsenkirchen. Ober-Regierungsrath Michaelis und verschiedene Regierungs- und Schulräthe aus Arnsberg inspizirten unlängst die katholischen Schulen verschiedener Gemeinden in den Kreisen Gelsenkirchen und Bochum mit stark polnischer Bevölkerung. Es handelte sich um die Feststellung, in wie weit die Schüler polnischer Zunge sich im deutschen Unterricht fördern lassen. Als nächste Maßnahme ist die Errichtung besonderer Klassen in's Auge gefaßt, in denen bis zu 40 polnisch redende Schüler zur besseren Erlernung der deutschen Sprache untergebracht werden.

Sachsen.

Dresden. Aus den Sparkassenüberschüssen des Jahres 1897 waren seinerzeit 100,000 Mark zur Erbauung von Wohnhäusern für städtische Arbeiter bewilligt worden. Es entstand dann aber zwischen dem Stadtrathe und den Stadtverordneten eine Kontroverse hinsichtlich der Platzfrage, bis man sich jüngsthin auf einen Plan einigte, wonach auf dem Areale der Elektrizitätswerke an der Könneritzstraße zwei Wohnhäuser für städtische Arbeiter mit zusammen 20 Wohnungen erbaut werden sollen. Der Bauaufwand ist auf 128,094 Mark veranschlagt.—Der bekannte Frauenarzt Dr. Brosin ist auf einer kurzen Erholungsreise in der Sächsischen Schweiz abgestürzt und an seinen Verletzungen gestorben.

Dippoldiswalde. Die hiesige Sparkasse beging ihre 50jährige Jubelfeier. Sie hat während der Zeit ihres Bestehens einen Gesammtumsatz von 61,110,219 Mark erzielt.

Leipzig. Durch letztwillige Verfügung hat der verstorbene Verlagsbuchhändler Dr. Paul Parey in Berlin dem Börsenverein der Deutschen Buchhändler zu Leipzig 20,000 Mark mit der Bestimmung vermacht, die Zinsen des Kapitals zur Unterstützung invalider Beamten des Börsenvereins oder deren Wittwen und Waisen zu verwenden.—Der an der Handelslehranstalt beschäftigte Dr. phil. Karl Richard Graßhoff aus Calbe, 49 Jahre alt, hat sich erschossen. Welche Ursachen den Unglücklichen in den Tod trieben, ist unbekannt.

Sebnitz. Der frühere Gastwirth Willy Kletzsch hat seine Ehefrau, mit der er schon seit längerer Zeit im Unfrieden lebte, mit einer Axt erschlagen, und sich alsdann selbst, nachdem er sich mit der Todten im Zimmer eingeschlossen hatte, mittelst Durchschneidens der Kehle entleibt.

Thüringische Staaten.

Hildburghausen. Aus Anlaß des 70. Geburtstages der früher hier ansässigen Frau Justizrath Michaelis in Frankfurt a. M. stiftete deren Sohn Max Michaelis in London 150,000 Mark der Stadt Hildburghausen, wovon 40,000 Mark zu Reisestipendien für Lehrer des Gymnasiums und der anderen Schulen, 50,000 Mark für Armen- und Krankenzwecke, 50,000 Mark zum Bau gesunder Häuser für Arbeiter und 10,000 Mark für Errichtung eines Herzog-Georg-Brunnens verwendet werden sollen. Der Stadt Eisfeld stiftete er 50,000 Mark.

Hirschberg. Hierorts ist im 77. Lebensjahre Justizrath Dr. Jäger, ein alter Achtundvierziger, Mitglied des Frankfurter Parlaments, des norddeutschen Reichstags, des Zollparlaments, des deutschen Reichstags, gestorben. An 50 Jahre war er Landtagsmitglied in Reuß j. L., 30 Jahre Bürgermeister von Hirschberg.

Freie Städte.

Hamburg. Wie stark die deutschen Schiffswerften augenblicklich mit Aufträgen versehen sind, erhellt am Besten daraus, daß sich ein großer Theil der hiesigen Rhedereifirmen gezwungen gesehen hat, mit ihren Bestellungen nach England zu gehen, woselbst momentan 22 Dampfer für Hamburger Rechnung im Bau begriffen sind.—Der Beamte der Steuerdeputation, Löscher, hat sich bedeutender Unterschlagungen schuldig gemacht und sich, um der Bestrafung zu entgehen, erschossen. In der Kasse des Beamtenkonsumvereins, die Löscher verwaltete, fehlen circa 12,000 Mark.—Aus Nahrungssorgen hat die verwittwete Modistin Martha Januschek ihr Töchterchen und sich selbst erschossen.

Bremen. Letzthin wurde die erste elektrische Straßenbahn durch die Länge der Stadt eröffnet. Seit zehn Jahren haben wir eine elektrische Bahn quer durch die Stadt. Auf den anderen Strecken mußte man sich mit Pferdebetrieb behelfen.

A Storage Warehouse built as ours was, just for the business, is a safe, all-around place for your goods.

A person whom I know explains his pretty constant use of Ripans Tabules in this way. "When your hands are soiled," said he, "you apply water to them. If you are fatigued or travel-stained, a bath is efficient and pleasant in its restorative and freshening effect. Yet your hands will get dirty again; and on occasion you will once more be soiled by perspiration, and require water and soap. Now Ripans Tabules are to the inner man about what soap and water are to the outward. They refresh and sweeten, and will do so again and again, as often as occasion requires, which will be every now and then with all people who are hurried about meals, or who fail to masticate their food properly or are compelled to subsist on food that is improperly cooked or prepared. The people of this sort include about seven-eighths of every civilized community."

WANTED:—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S. 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

GUIPURE.

It Is Immensely Used In Costumes For Summer.

Guipure always holds the first place among black and white laces. It is much used even with such sheer materials as gauze and tulle. Chantilly is, however, greatly affected by elderly women, and a bodice of black chantilly over white or pearl gray satin is both elegant and appropriate.

A new blouse is composed of a bolero of guipure opening over mousseline de soie. Taffeta, embroidered lampas, liberty satin and panne, with applications of guipure, are all employed for bodices.

The corsage differing from the skirt is worn even more in the evening than in the day, at least when the evening occasions are of the less ceremonious order.

FOULARD GOWN.

For the approaching hot season there are bodices of sheer nainsook, embroidered and crossed by stripes and plaids of open insertion, hemstitching and guipure. These are masses of lace and embroidery, thin, delicate and ideally cool. They are made with the tight sleeve, which has a flaring finish at the wrist, the shirt sleeve being used only for mourning bodices.

The cut shows a costume of pastel red foulard with a black design. A band of guipure passes down the front of the skirt, from which bias bands of guipure pass toward the back. The skirt is gathered at the back. The close bodice, like the skirt, is trimmed with bias bands of guipure and has a band down the middle of the front, the yoke also being of guipure. The tight sleeves have three bands of guipure at the top. There is a coverlet belt of black satin, and the cravat is of white tulle. The hat of gold colored straw is trimmed with black tulle and a rhinestone buckle and has pomegranate flowers under the brim.

JUDIC CHOLLET.

THE REIGNING MODE.

Prevailing Styles For the Summer Season.

Fashion is all for flaring draperies and soft decorations. Foulard, crepe de chine, bengaline, silk and cotton muslins, batiste, embroidered, broche or openwork goods and thin taffeta are all favored by the mode. They are only correct, however, when made over silk of the same color or in harmonious contrast. An exception may be made in the case of cotton lawns, muslins and similar sheer fabrics, which are all white or have a white ground. These are always prettier and more refined if worn over plain

SILK BODICE.

white lawn or batiste, which is a purer white than silk, and is more pleasing than a colored underdress.

Summer capes are of satin, openwork cloth and embroidered mousseline de soie and are black or of light colors. Beige and gray are the most successful tones and are much trimmed with white. The linings are very light, usually white. This is a necessity, not a mere luxury, when a cape or jacket is to be worn over a gown of a delicate tint, for dark linings often soil the bodice by simply resting against it.

The cut given today shows a bodice of pompadour silk. It is gathered at the waist and has a wide collar trimmed with a band of guipure and edged with a plaiting of plain silk bordered with narrow guipure. A similar plaiting follows the line of the collar across the front, and two plaitings form jabots down the middle. The sleeves are plain, and the wrists are trimmed to match the collar. The belt of white kid has a gold buckle.

JUDIC CHOLLET.

SUMMER MODES.

Novelties In Millinery and a New Coiffure.

Oats are much used as a millinery trimming and are seen in red, blue, mauve, pink and black as well as in green and straw color. They are usually tied in clusters with velvet bands. Hats of rough straw of the natural tone, trimmed with oats and field flowers, are particularly pleasing for young girls.

An old fashioned coiffure is being revived. The knot of the hair is placed

GUIPURE GOWN.

high, but at the side the locks are arranged to form little bunches of curls at the temples. It is necessary to cut the locks rather short for this purpose, but the effect is charming when the face of the wearer is youthful and piquant.

The illustration shows a gown of guipure and crepon. The princess tunic of the lace is bordered with a double torsade of black tulle held in position by black satin bows. The skirt is of sky blue plaited crepon. The front of the bodice opens over a yoke and plastron of plaited blue crepon, and at the right side is a black satin bow, at the left a large bow of black tulle. The toque of white tulle spangled with silver is trimmed with bluets and white feathers. The parasol of white silk is bordered with lace, and white gloves are worn.

JUDIC CHOLLET.

REVIVED FASHIONS.

Many Old Styles Again Brought Forward.

The present mode may be said to lack originality is one sense, because there is nothing new under the sun, but all fashions, year after year, are but revivals of more or less forgotten styles, and this year there is a greater variety of revivals than usual, and the mode is eclectic. There are old fashioned pigeon heart taffetas, Louis Seize bodices and mantles, Marie Antoinette fichus, watteau plaits, narrow wraps, Louis Quinze jackets and

NEW SLEEVES.

directoire redingotes and empire scarfs. A new sleeve, which is simply an old one again brought to the front, terminates just below the elbow, and from it emerges a full sleeve of lawn or muslin, gathered in at the wrist with a ruffle falling over the hand. Sometimes the full sleeve has a band of shirring between the wrist and elbow, making it form two puffs. Sleeves of this kind used to accompany the full skirt with its ample spread of ruffles, and possibly they now herald its return.

The cut shows examples of new sleeves. The first, of half length, is of broche silk and has a cuff of plain silk trimmed with buttons and narrow bands. The lower part is of wrinkled mousseline de soie, finished with a plaiting. The second, also of half length, is slashed at the elbow and trimmed with cord and embroidery. The lower half is of lace, forming a full puff and ruffle. The third, printed foulard, has a cuff of printed and another of plain foulard at the elbow. Below this are two puffs of mousseline de soie, then a band of pointed foulard, and at the wrist is a ruffle. The fourth sleeve is of voile, with a cuff of striped voile bordered with a ruche at the elbow. From this emerges a full sleeve of tulle, gathered at the wrist and terminating in a deep frill of lace.

JUDIC CHOLLET.

The CHICAGO RIVER— What It Was and What It Is

The Chicago river; spat upon by the people of Chicago, cursed by the people of St. Louis, to-day despised by everybody.

As the Old Settler Knew It.

What was it?

In Chicago the oldest settler's name is legion, and every one of him or her recounts with pride their first impression of the softly flowing little brook that greeted them when first they set foot on what is to-day the great city of Chicago.

They will draw for you a vivid picture of the little stream along whose banks the red man of the forest anchored his bark canoe; in whose clear waters they angled for the wily trout; beside which they cooed the love songs of an earlier day when the west was young.

It is a pretty picture that they draw for you, but one that you scarce can believe, but we have it on the word and honor of the very oldest settler that the tale is true, that the Chicago river was not always the despised, the filthy stream it is to-day.

It is not so long ago that this was true. Less than three-quarters of a century has past since the red man's canoe gave place first to the little sailing schooner of the early western days, and that in turn to the great steam freighter which now travels from the mouth to the source of the stream which at one time scarce carried water enough to float the light craft of the Indians. It is no uncommon thing to meet the oldest settler and hear him tell of the stream as he knew it when first he left the known paths of eastern civilization to wander through the untamed wilds of Cook county. He praises the stream as he knew it then; he curses it as it is to-day.

What It Is.

When one gazes on the Chicago river of to-day, the precipitous banks of which have been made by the hand of man, in the depths of which not a sign of a fish, not even of the slothful bullhead, is seen; from the banks of which every vestage of nature's brilliant carpeting has long since disappeared; across which swing the long bridges trodden by a million feet each day; beside which rise high unto heaven the tall buildings of a great city, and from the walls of which there echoes backward and forward the shrill screech of the steamer's whistle, it is hard to believe that living man had seen the stream so different.

The Chicago River of To-Day.

Such is the Chicago river of to-day; such is the stream which is spat upon and cursed and despised; such is the stream which, though but a trifle over 13 miles in length, constitutes the most active and important nontidal river of its length in the world; such is the stream that affords an anchorage for a greater shipping than that of New York or any other American city; such is the stream with which Chicago knows not how to deal.

The Chicago river is to-day one of the unsolved problems with which the city has to deal. What shall be done with it has been argued pro and con for a score of years, and to-day the riddle is no nearer solved than it was when first begun. In fact, the mystery but deepens.

For years it has been a source of controversy between the city and the national government. Into its depths the city has dumped the garbage of a great population, and from it the government has removed this filth that the boats of commerce might not be stopped. To both parties it has been an interesting, unsolvable subject of continual contention.

In the Grain Trade.

The history of the development of the Chicago river as a navigable stream reads almost like a bit of improbable fiction, but it is no more so than is the history of Chicago itself.

As a Factor in the Grain Trade.

To-day there is shipped from the Chicago river a greater number of bushels of grain than is handled at any other harbor in America, Buffalo alone excepted. The amount of grain shipped in one year amounting to more than 150,000,000 bushels, and yet it has taken but the short time of 62 years for the growth of this vast shipping industry.

It was not until 1838 that the first little consignment of grain for the east left the Chicago river. Stowed away in a small corner of a little schooner of those times were 78 bushels of western wheat starting on a long journey around the lakes to find a market in the east.

A market for that 78 bushels of wheat was easily found, and the next year it was followed by 3,678 bushels, and from that the total jumped by great bounds until in 1846 it had reached 1,599,819 bushels of wheat alone that was leaving the rapidly-growing western town by way of the Chicago river.

For a year or two the town fluctuated up and down, then corn, barley and rye were added to the products which sought an eastern market by way of the Chicago river, and again the total number of bushels jumped rapidly. Between 1852 and 1853 the importance of the Chicago river as a shipping point for grain doubled, the number of bushels so shipped jumping from 6,422,181 in 1852 to 12,902,320 in 1853. By 1863 more than four times this total of grain shipments were leaving the Chicago river for the eastern markets, that year the total being 54,741,839 bushels.

From that day to the present time the importance of the Chicago river as a shipping point has continued to grow as the city has grown. Line after line of railway has been built to compete with the river, but with them all it has more than held its own.

Thirteen Miles of River.

But the half has not yet been told, for the grain trade of the river is but an incident in the vast commerce that comes and goes through its murky waters, through its narrow, sluggish channel.

As a Factor in the Lumber Trade.

Chicago is a lumber center second to none in America, and while the railroads carry hundreds of millions of feet of this product of the northern forests the river also gets its share, and that share in the year 1898 amounted to 789,676,000 feet. Think of the number of vessels required to carry such a cargo, and you have but another incident in the importance of the despised Chicago river of to-day.

And still there is much more to tell. The railroad mileage of the city runs into the many hundreds of miles, the switch yards of Chicago are connected by lines of steel with the great coal fields of the country, but over the 13 miles of navigable river there is carried each year nearly 1,500,000 tons of coal to be consumed in the furnaces and stoves of the city, or shipped out again by way of the railroads. Each year the vessels discharge at the river wharfs more than 700,000 barrels of salt; more than 700,000 barrels of lime and cement, and more than 3,500,000 packages of merchandise of other kinds.

And all of this the growth of but little more than half a century. Truly, it has been a wonderful history; truly, may the newcomer wonder at the tales the old settler tells of the river as he knew it, of the river as it was in the days of living men. When we compare such a growth with other harbors of the world; with the harbor of New York, with its 300 years of development, or with the harbor of London, with its many centuries of history, and realize that neither of them is greater, it makes one ask: "Can it all be true?"

Some Other Figures.

There are yet other figures that testify to the greatness and importance of this despised river of 13 miles of water.

A Constant Stream of Vessels.

A few years ago, before the great steam freighters were so common as now, when the commerce of the lakes was carried in the schooner that took the place of the red man's canoe upon the waters of the river, there arrived and departed from Chicago in one seven months a total of 27,000 ships bringing to or carrying away cargoes from the Chicago river.

To-day the number of vessels arriving and departing is not so great. While private business has encroached upon the width of the river, a paternal government has been steadily deepening it, with the result that the size of the vessels entering the river has increased nearly 300 per cent., and instead of the little sailing schooner of wood, with an average tonnage of 260 tons, there now comes and goes the steam freighter of metal, with an average tonnage of 700 tons.

For the fiscal year ended June 30, 1899, there arrived at Chicago and entered the Chicago river a total of 7,087 vessels, with a registered tonnage of 4,710,275 tons. During the same time there departed from Chicago by way of the river 7,149 vessels, with 4,784,103 registered tonnage.

There is one more little item, gleaned from the books of the government treasury, which shows the importance of the Chicago river. That little item shows that the government collected in import duties of merchandise carried into Chicago during the fiscal year 1899 a total of $6,417,497.59. This merchandise was carried in boats and entered by way of the Chicago river.

WRIGHT A. PATTERSON.

HE GOT HIS DRINK.

How a Scotch Fisherman Gillie Once Upon a Time Brought a Noted Earl to Time.

The earl of Cadogan is a superfine young aristocrat and a tory of the old school; he is as rich as Croesus, and reactionary in everything. No one questions his ability, and considerable experience of public life has made him much less exclusive and haughty than he used to be.

Some years ago, when he was young and inconsiderable, says the Philadelphia Post, he spent a few days fishing on the Tweed. He had as his boatman and ambassador to the court of King Salmon the famous fisher-

THE EARL OF CADOGAN.
(Rich as Croesus and Reactionary in Almost Everything.)

man known as Robert of Treus. You must understand that even a Tammany boss is nothing like such an autocrat as a Tweed fisherman-gillie. In the gillie's eyes dukes and lords and nobilities are dirt compared with a good fisherman. Robert of Treus was a famous character, and as gruffly independent as oatmeal porridge can make 'em. He had rowed the earl to Cadogan to a choice pool in the river, and Cadogan began to fish. Presently the noble earl drew from his pocket an exquisite flask of silver and gold, took a pull at it, replaced the stopper, and slipped the flask back into his pocket without offering the great Robert a sip. Robert's brow fell, but he said nothing.

In the course of half an hour Cadogan repeated the operation. When the flask a second time disappeared the fisherman grasped the oars and began lustily to pull for shore. The earl, who had been flung down by the suddenness of the start, turned to his gillie and asked: "What in thunder are you doing?"

"Rowing ashore," gruffly answered the Scotsman.

"Ashore! Why?" inquired the noble man.

"Well, my lord," said Robert, "a maun that can drink whuskey by himsel' can fush for fush by himsel'."

Robert got his drink.

FAST GOING TO DECAY.

The Old House in Mercersburg, Pa., in Which President James Buchanan Was Born.

On Fayette street in Mercersburg, Pa., stands an old, ramshackle building with a log annex, which is fast going to decay, and which some of the people of Pennsylvania want to save and change into a museum. In this old house James Buchanan, the fifteenth president of the United States, was born. At the time of his birth the old house was located at Stony Batter, Franklin county, but was removed to Mercersburg some years ago.

BUCHANAN'S BIRTHPLACE.
(Located on Fayette Street in Mercersburg, Pa.)

The annex is built of logs from the old log schoolhouse in Mercersburg where Buchanan got his early education. On account of historic associations it is proposed that the state shall buy the building and the land on which it stands, but no action has been taken by the legislature or the authorities. Pennsylvania does not seem to be more anxious to preserve this humble, historic building than Tennessee to save the historic mansion of James K. Polk.

Bananas Are Wholesome.

Banana-lovers will be delighted to know that their favorite fruit contains 72 per cent. of water, 2.14 per cent. of nitrogenous matter and 22 per cent. of saccharine substances. It is the 22 per cent. of "sweets" in the banana which makes it a nutritious food. A Mexican chemist has been comparing bananas with wheat and potatoes for food, and has arrived at the conclusion that for the same space and under the same conditions of cultivation the production of bananas is 40 times that of potatoes and 100 times that of wheat. He has figured out that an area of land which will raise enough wheat to feed six men will produce enough bananas to feed 150 men.

Man Is Heaviest at Forty.

A man is generally at his heaviest in his fortieth year.

A PRIVATE DAILY MESSENGER SERVICE

Some Little Tales From the Busy CHICAGO Streets

Street fruit merchants in Chicago, the men who sell you two bananas for five cents from a stand on the street corner, are complaining of rank class legislation.

If He Can't Smoke He Must Eat.

These men are not interested in the war revenue law; they care nothing about the constitutionality of the income tax or the inheritance tax; but few of them are interested in the rate of taxation of real and personal property in the city; they have not the slightest interest in the proposed improvement of the Chicago river by the sanitary commission, for which the tax payers of the city may be called upon to pay the modest sum of $11,000,000 that the St. Louis water supply may remain unpoluted. But few of them know or care anything about these subjects with which the general public is now laboring, but they do care and have a vital interest in the latest order of Chief of Police Kipley, issued to the bluecoated guardians of the peace.

That order says that policemen may not smoke while in uniform, whether they are on duty or not. Disobedience of the order means a loss of star and position. Smoking and eating have been the chief pleasures of the policeman's life, because he could secure both cigars and eatables without price. They came as the perquisites of his position on the force. The cigars from the cigar stores and saloons on his beat, and the eatables from the fruit vender's stand.

One of the two the policemen must do. If he cannot smoke he must needs eat the more, and the unhappy vender of fruits already sees his profits disappearing into the black depths from which they never return, for the "copper's" capacity is great.

Surely the fruit merchant hath reason to cry aloud at this injustice.

Money to Give Away.

Being a philanthropist is by no means a sinecure. The generous hearted individual with the small sum of $50,000,000 or so to give away need not find it a hard matter to accomplish his or her purpose if they are not particular where the money goes, and for what it is to be used.

With Tales of Woe to Tell.

In New York, Helen Gould has gained an enviable reputation of being a generous-hearted woman, because she has devoted a portion of her rich patrimony to charity. That it takes a diplomat to give away money judiciously is proven by the fact that Miss Gould has had in one day requests for more than $1,000,000 in so-called charitable contributions. It certainly takes a discerning mind to separate the sheep from the goats in this great list of would-be pensioners.

Dr. D. K. Pearson occupies the place in Chicago that Miss Gould occupies in New York. His business is philanthropy; the giving away of money judiciously, and it is his own money that he is giving away.

From a modest little office in the business district there is being dispensed a lavish charity to those the good doctor considers worthy. Struggling colleges are the chief beneficiaries, and to the deserving in this line he gives liberally when they have proven that they are deserving by meeting his conditions, which are never impossible.

But for the undesrving, or the usual solicitor for personal aid, there is scant courtesy. It is a curt inquiry as to what is wanted, a close attention to the tale of woe, and then to those he considers undeserving a brusque and positive dismissal. But the struggling western colleges have found in Dr. Pearson a firm friend and benefactor.

An Operatic Boycott.

No more are the operatic song birds to warble in Chicago. No more will the sweet strains of "Faust," of "Carmen," of "Lohengrin" and of "The Huguenots" echo through the wings of that grandest of operatic stages at the Auditorium. So saith Impressario Grau, and he saith it emphatically.

As Grau Views the Audience.

"I have cut out Chicago. Understand? Cut out. Chicago does not want grand opera, I repeat, and so I have done the only thing left to do. I have cut out the town. Absolutely! Absolutely! I have spoken."

Such is the language the manager of the song birds uses with which to speak his contempt of the taste of Chicago, and it is not the first time he has spoken his mind in such terms. At the close of the grand opera season last winter, with the heavy deficit of the Chicago season staring the impressario in the face, he said much the same thing, and now his decision is probably final, and Chicago may not again be treated to grand opera under his management.

The truth is that for several years grand opera has not been greatly appreciated in Chicago at Mr. Grau's prices. Out of a town of 2,000,000 people there cannot be found a sufficient number who care for grand opera and who can afford the price of the luxury to support a two weeks' season. Chicago is a music-loving city, but it is not a fashionable society town. The lovers of music are not numbered among the millionaires, and the millionaires, who are simply the country boys of a past generation grown rich, do not care enough for society to attend the opera because it is fashionable.

Grand opera at smaller prices might be profitable, even in Chicago.

The Magic of a Name.

Several years ago, when the city of Chicago was the host and Henry M. Stanley the honored guest, delegations of newspaper men, high officials and scholars made continuous demands upon the explorer's time at his hotel. In vain the man who had conquered the fierce tropic sun of Africa pleaded for time and rest.

The Name Worked Wonders.

"My African servant will be on duty at my door for several hours to keep my apartments free from visitors," said Mr. Stanley. But one newspaper man had explicit orders to see the explorer on a matter of great importance, in the estimation of the city editor. Pressed to talk about Stanley, the servant descanted upon the explorer's intrepid characteristics. "My people said he pushed rocks from his way like an ox brushes the rinderpest with his tail," said the black man. "We called him 'Se lah boo lah mah tarre.'"

Hastening to the hotel office, the persistent newspaper man wrote this mystic legend upon a card and his own name. The captain of the bellboys puzzled his mind over the unknown expression, satisfied his sense of duty in acting as censor and dispatched a boy to Mr. Stanley's room. Almost before the newspaper man had prepared himself for the interview the explorer made his appearance. Striding over to the messenger from the newspaper office, he extended his hand and remarked: "I have not been called by that native name since I left Africa. Where in the name of the Nile did you hear it?" Needless to say, the shrewd reporter got his interview, and incidentally a good story about the native servant. Should anyone have difficulty in gaining an audience with Sir Henry Stanley, the peacefully-inclined member of the English parliament, he might try the legend.

An Angel of Mercy.

When Charlie Mathews, the veteran billiardist and marker at all the principal championship tournaments ever held in the west, was reported to be dangerously ill at the Alexian Brothers' hospital, in Chicago, the men around town hurried to the hospital to see that the big-hearted old timer had plenty of care, flowers and delicacies. "Charlie is too old, and he has helped too many poor outcasts at the expense of his own pocketbook to go without friends," said one of the men who proffered his own home to the sick man. "Charlie was twice wounded in the civil war, and his life has been a constant ray of sunshine to some fellow being. I remember when the boys called Charlie out of his hotel one night to arrange for the funeral of a veteran gambler who had once been 'on Easy street,' but who had died in a miserable hovel in South Clark street. Mathews hurried down to the lodging house and did what he could. The next day the funeral was to be held. The county agent's wagon stood before the door to take the little pine box to Dunning.

Read a Few Appropriate Chapters.

"'See here, boys, we must have a funeral ceremony,' said Mathews. 'Where is there a minister of the Gospel?'

"No one knew. Mathews was on the point of going out to find one, when he suddenly asked for a Bible. The night clerk of the lodging house had one, but he was asleep.

"'Wake him up,' commanded Mathews. 'I'll read this sermon.' And with bared head, Charlie Mathews read a few appropriate chapters from the Holy Book, and concluded with a short but pathetic invocation. The 'hearse' went away. 'How did you learn to do that?" asked the wondering auditors and spectators.

"'Helped to do that in the army, many a time," said Mathews. And he went back into his life, ready to act the angel of mercy when called again."

SPORTING.

GOLF

Andrew B. Blair, the professional at the Park Golf Club, visited for the first time the Hillside Tennis and Golf Club course this morning for the purpose of making a record for that course. Mr. Blair found the fair green in very poor shape and this handicapped him very much in his score, as he could not get a good lay for the second shot. His approaching was perfect and he found the greens capital. Mr. Blair had for his partner Roger F. Murray, who was slightly off his game, but played some fine shots. Mr. Blair's card showed the following:

4	7	5	3	5	4	6	4	5—42
5	5	5	5	4	6	4	5	4—43—85

Mr. Murray's card was as follows:

7	7	9	5	5	5	7	4	3—33
7	6	5	6	5	6	5	9	7—56

One week ago the ladies' team from the Hillside Tennis and Golf Club went to New Brunswick and defeated the ladies' team of the New Brunswick Golf Club. Yesterday morning a return match was played on the Hillside course and again the visitors were defeated, this time by a much larger score. The home team played superior golf throughout and there never was a question as to the result. Miss Williamson, of the visiting team, was the only one to score a point. After the game lunch was enjoyed at the clubhouse. In the afternoon several private matches were enjoyed. Next week Wednesday the Hillside team will play the ladies' team at the Essex County Golf Club. The summary of yesterday's match follows:

HILLSIDE.		NEW BRUNSWICK.	
Miss G. Andrews	2	Miss Smith	0
Miss VanHerwerden	19	Miss Tatum	0
Miss Edith Tracy	0	Miss Williamson	1
Miss J. H. Shepard	8	Miss Clark	0
Miss Edith Hyde	1	Miss Kirkpatrick	0
Miss E. V'nosBkerck	9	Mrs. Ashwell	0

Excursion to Mauch Chunk.

The Jersey Central Railroad has arranged to run special excursions to Mauch Chunk and Glen Onoko Sundays, July 8th and 22d, and August 5th and 10th. The round trip rate will be $1. This will give a large number of people an opportunity to visit the Switzerland of America at a reasonable rate, who cannot go other days or holidays.

Spirit Was Willing, Flesh Was Weak.

Joseph Fisher was drunk yesterday. He wanted to go home, but although the spirit was willing the flesh was weak. Patrolman Flannagan gave him two hours' notice and then locked him up. City Judge Runyon fined him $3 this morning.

Local News on Pages 2 and 3.

TRY ALLEN'S FOOT-EASE,

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures swollen, sweating feet, ingrowing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it *To-day*. Sold by all druggists and shoe stores for 25c. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Men's Flannel and Serge Suits cleansed.

Dyers Cleaners **Hillier & Co.** 129 W. FRONT ST. Plainfield, N. J. Tel. 851.

RICHTERS IN COURT.

Because Thomas Kane Swore at Child, Mrs. Richter Thought Murder Was Imminent.

Mrs. Bertha Richter has much trouble in life in looking after her children. Sunday, June 10th, Thomas Kane swore at little Annie Richter. Mrs. Richter evidently believed that murder was the next step and Kane was arrested forwith. When arraigned before City Judge Runyon this morning, Kane explained that the Richter girl had expressed a determination to slap his little girl's face and had been very impudent. The Judge thought that the circumstances were extenuating and suspended sencence. The Richters have figured in court proceedings before.

PARTICULAR MENTION.

James T. Daly, wife and son, of Albany, are at the Kensington.

Blanche McVoy, daughter of Mr. and Mrs. H. C. McVoy, of Sandford avenue, gave a lawn party yesterday for a few of her young friends.

Carrie McVey, aged 12 years, daughter of Mr. and Mrs. J. H. McVey, celebrated the anniversary of her birthday and this afternoon she entertained a number of friends in honor of the event.

Miss Persis Snodgrass, daughter of Rev. Dr. and Mrs. W. C. Snodgrass, of Central avenue, left yesterday for Unionville, a suburb of Hartford, Conn. Her brother, Rev. Orrin W. Snodgrass, is pastor of the Unionville M. E. church and she will keep house for him at the parsonage.

Death of Mrs. Talmage.

The death of Mrs. Laura Grant Talmage, widow of the late VanNeste Talmage, and daughter of the late John T. Grant, of Bound Brook, occured yesterday at the Park Avenue Hotel, where she had been stopping for some time. Mrs. Talmage was born at Bound Brook, but lived in this city for many years. Her illness extended over a period of a week. Her condition was not considered serious, and her death was sudden and very unexpected. The funeral services will be held tomorrow afternoon at 4 o'clock from the residence of Charles Hunter, 661 West Seventh street, and interment will be in Hillside cemetery.

A Fast Bicycle Rider

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It is the cyclist's friend. Cures Chafing, Chapped Hands, Sore Lips, Burns, Ulcers and Piles. Cure guaranteed. Only 25c. Try it. Sold by L. W. Randolph, druggist.

Graduated at Smith College.

Miss Evelyn Smith, daughter of Mr. and Mrs. W. W. Smith, of East Seventh street, graduated this week from Smith College. She has now gone to Sconset, Nantucket, Mass., with a party of college friends. Miss Smith has completed a four years course with much credit.

Tried in the Circuit Court.

The contract case of Peter Zimmerman against Dr. Cooley was tried before Judge Schenck in the Circuit Court at Somerville yesterday. Decision was reserved for one week. W. A. Coddington appeared for Doctor Cooley and W. S. Angleman for Zimmerman.

—At VanEmburgh's you buy children's lisle thread hosiery; also children's summer underwear.

—The Sunday-school of the East Third Street chapel will assemble tomorrow morning at 9 o'clock.

—Miss Florence G. Hawkins will lead the meeting in the East Third Street chapel tomorrow evening.

—Doane & Edsall say they are selling trunks that go to all parts of the world. They sell Peddies trunks that withstand the baggage smashers.

THE PULPIT SUBJECTS.

SERVICES IN THE LOCAL CHURCHES TOMORROW.

What Plainfield Ministers Will Talk About for the Elevation of the Minds and Morals of Their Congregations.

The Cottage place meeting will be held at John Eliott's residence, near Pond Tool Works, at 11 a. m.

STATE FIREMEN'S ASSOCIATION.

Disbanded, as the Outcome of Internal Jealousies.

The New Jersey State Firemen's Association, which has been in existence for years, was disbanded by a vote of the association at the meeting in Newark Saturday. The membership of the association was composed of the department chiefs and other officers belonging to the fire departments throughout the State, and a beneficent feature was the payment of $250 to the family of a deceased member. Some of the members sought to use it for other purposes.

Last winter a bill was introduced in the Legislature from Hudson county which conferred on chiefs powers that made them practically independent of the fire commissioners. For a time the bill received the support of the Newark firemen, but the Newark fire commissioners let it be understood that department officials lobbying for the bill would lose favor, and the bill was defeated. This incensed the Hudson county members.

Chief Connelly, of Jersey City, was president of the association, and presided at the meeting on Saturday. There was some acrimonious talk, and finally a motion was made that the association be dissolved. The motion was promptly seconded and carried.

Open Line to Boynton Beach.

The trolley line from Westfield to Boynton Beach was opened this afternoon. A special car for invited guests left the North Avenue station at 1 o'clock to go over the line.

First Hop at Hunterston.

There will be an opening hop this evening at the Hunterston Hotel. Music will be furnished by the Orpheus Club orchestra from Scranton, Pa.

Beware of Ointments for Catarrh that contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

☞ Sold by Druggists, price 75c. per bottle. Hall's Family Pills are the best.

PIGEONS OF PEKING.

Trained by the Owners to Lure Other Birds to Join Their Respective Flocks.

The Chinese have made pigeon flying the decoying game that it is because they like any kind of "playing for keeps." Even in kite flying, they fix little hooks to their kite strings and try to pull in each other's kites, and count it fair to keep any kite that drops into their yards. They will tell you that a kite or a strange pigeon that comes to your place, if given up, takes away your "family luck." So you must tear the kite and keep the pigeon. But when you see the town dandies sauntering out with their fans and bird cages to watch the noon kite flying, criticising the flocks and their tactics, and arguing the fine points of decoying, you guess that "family luck" has very little to do with their game.

To decoy strange pigeons, pigeon keepers must first train their flocks to "fly in spirals"—that is, to rise steadily in circles without straying far from the home roof. Pigeons naturally fly together in circles. Even wild pigeons wheel about in flocks before straggling off to the fields. Chinese make their birds eager for circling by keeping them shut up in a wicker house built on the ground around the dove-cote; and they cure their birds of straggling by pelting them with pebbles when they try to alight anywhere except on one spot—the ridge pole of the roof facing their wicker house. The flock must alight here in a bunch, and immediately walk down to the eaves. This is done to bring any strange pigeon among them down within sight of the grain, which is then scattered on the floor of the wicker house. Pigeons are fed only after flying, for unless hungry they are lazy and unmanageable. Their food is millet, sorghum seed, or corn, which their keepers use to get as much work from them as possible for as little feeding as possible. When there is much flying and calling down to do, they are usually fed with millet, which is so small that it keeps them eating a long while without filling them. At other times their food is sorghum seed. Corn is not very good for pigeons, but they are so fond of it that pigeon keepers usually have it on hand to call them down when they are already fed.

Chinese talk of three regions of pigeon flight; the "sparrow region," just above the housetops; the "crow region," where the crows pass over the city at daybreak; and the "eagle region." In every flock are several strong-winged birds that will rise to the eagle region. These are the "high-flyers," which are usually sent up first, carrying whistles, as a challenge to other flocks to join them. When they have mounted to some height, the heavier-winged birds, or "low-flyers," are sent up to meet them. A few stay-at-home birds are kept back to call the others down, which they do by flying round the roof and clapping their wings. Pigeon-whistles were in early times put on the birds to scare away hawks. Nowadays the hawks do not mind them at all, but they are still useful for attracting stray pigeons, for signaling, and for guiding the younger pigeons when flocks become mixed.

In Peking, flocks are sent up at sunrise, at noon, and just before sundown. Neighboring flocks always join, and their keepers then try each to draw apart his flock with call-birds, so as to bring with it any unwary pigeons from the other flocks. If a stranger is brought to the roof, the keeper coaxes it down with his own birds by throwing millet into the wicker cage.

No one ever demands back a pigeon lost in this way. Two friends will sometimes "play live pigeons," that is, give back each other's birds that may be captured from the flock during the game, but the rule is to "play dead pigeon," or, as the boys say, "for keeps."—Alfred D. Sheffield, in St. Nicholas.

—It is requested that all members of the Christian Endeavor Society of the First Presbyterian church be prepared to take part in the regular monthly consecration meeting tomorrow night.

DRIVING TOO FAST TO TURN THE CORNER

An Exciting and Dangerous Accident to a Fire Department Apparatus.

RAN INTO HEPBURN'S STORE.

HORSE PLUNGED THROUGH HEAVY GLASS IN THE WALK.

Edward Vail Was the Driver, and He Says That it Was Unavoidable—Hook and Ladder Truck Was Damaged.

While going at full speed in answer to a false alarm of fire, shortly after 5 o'clock Saturday afternoon, the ponderous hook and ladder truck of the fire department met with a most exciting accident. In attempting to turn from Second street into Park avenue the truck struck the curbing, both front wheels mounting the sidewalk and bringing up with a crash against an iron pillar in front of Hepburn's drug store.

The strong wooden pole used for steering the apparatus was snapped like a pipe stem, but it was all that stopped the truck from forcing the horses through the door or going over them with serious results. As it was, one of the horses broke through the plate glass in the sidewalk, letting one of its hind feet down, but fortunately the animal made no struggle to get out. Grasping the situation in a second William Addis seized a short pole, which is always carried under the truck, placed it beneath the horse and with the assistance of several others lifted him up.

The only injuries sustained by the animal were a few cuts from the broken glass.

The men on the truck escaped without injury, as most of them jumped before it struck. The driver, Edward Vail, had a narrow escape, as did also the tillerman. Vail was pitched from his seat but managed to hold on to the footboard. Beyond the broken pole and the glass in the sidewalk no other damage was done. Had the pillar been a wooden one instead of iron, or had the pole struck a foot either way from where it did, things would have been different. As it was the accident is the most fortunate one that has ever occurred in the history of the department. That a heavy truck, loaded with men, and the horses going at the rate they were, could mount a high curb and strike a building with so little damage seems impossible, but such was the case.

The causes which led to the accident are rather peculiar. In the first place there was no alarm. The first three blows were caused by inspectors repairing the boxes which registered at headquarters what the men thought was box 12. Supt. McClurg, of the electric light station, also thought it was an alarm and completed the blows on the whistle. This, together with the registering, resulted in the men answering the call.

Edward Vail is not the regular driver of the truck, but was taking the place of Fred Breen, who had his day off. Vail has always been regarded as a careful driver by his superiors and is thoroughly acquainted with the team belonging to the truck. His story of the affair is that when nearing the corner one of the horses slipped, throwing it off its balance. Before he could raise the animal to its feet, they were upon the turn, which prevented him from pulling the team around. On account of the people on the farther curb of Second street, among whom was a cripple in a tricycle, he could not keep straight ahead, so decided to make the turn. The distance was too short and the accident followed.

Chief Doane was also absent from the city, being in attendance at the opening of the disabled firemen's home at Boonton. Until a new pole can be procured the truck belonging to the West End house will be used at headquarters.

Miss White a Bride.

A great many Plainfielders will be interested in the announcement of the marriage Miss Florence E. White, daughter of Mr. and Mrs. W. V. White, formerly of West Front street, but now of Flatbush, L. I., and Louis G. Flitz, of Sheepshead Bay, which took place last week Wednesday at the home of the bride's parents, 217 East 13th street, Flatbush. Rev. Alfred H. Moment, of the Immanuel Presbyterian church, performed the ceremony. Among those who witnessed the event was Mrs. Henry VanNane, of Elmwood place, a personal friend of the bride's family. The bride has a large acquaintances in this city who will wish her success and happiness.

HIS LIBERTY WAS SHORT

DR. BUNDY NOW INCARCERATED IN HUDSON COUNTY JAIL.

Bail Bond Surrended by Justice Nash and the Wily M. D. in the Toils of the Law Again.

The much wanted and notorious Dr. Segmund Bundy is again in the toils, this time on complaint of his bondsman Justice V. W. Nash, who some time ago held him in $500 bail for trial in the Hudson County Court on July 2nd, and then became his bondsman. The doctor, as usual, disappeared as soon as he was released and nothing was heard of him until a short time ago he was discovered in the Raymond street jail in Brooklyn by the New Brunswick police, who had been looking for him.

The Plainfield authorities were notified that he would be tried last Thursday and that in all probability he would be released, when he could be re-arrested for jumping his bond at Plainfield.

For some reason the local authorities were not present last Thursday and the doctor was released and nothing was seen of him afterward. He was located in Raritan, however, by Sergeant Kiely at which place he was arrested Friday night. He was taken to the Hudson county jail in Jersey City, where he will be confined until his trial comes up July 2d.

The crime for which Bundy was arrested was far passing worthless checks in Jersey City. He was arrested in this city where he had been living on Terrill road, and brought before Justice Nash, who held him in $500 bail for his appearance in the Hudson county court. The bail was furnished by Constable Amos Moffett, who was indemnified by the Judge. The latter was therefore responsible for the prisoner and would have been the loser if Bundy had not been captured Friday night.

SALVATION ARMY FUNERAL.

Touching Service Held Over the Remains of a Deceased Member.

The Salvation Army hall on West Front street was filled to overflowing yesterday by the relatives and friends of the late Stephen Perrine, who died at the home of his parents on Park avenue Wednesday. The funeral services were conducted in a touching manner by Captain Strayngе, of the Bound Brook corps of the army, assisted by Captain Thomas and the members of the local corps. Captain Strayngе spoke very feelingly of the deceased and gave cheering words of comfort to the bereaved patents. A beautiful solo was rendered by Captain Thomas. The interment was made in the Methodist cemetery. The pall bearers were George Wilson, Albert Galloway, William Galloway, James Winn, Charles Minerd and John Biddulph.

Profitable Lawn Festival.

A successful lawn party and sale was given Saturday afternoon on the lawn at the residence of William J. Roome, 41 Sycamore avenue, by Reginald Roome, John Valiant, Jr., James Scott, Jr., Douglass Waring, Ralph Hallock, Leslie Brokaw and Laury Milne, for the benefit of the babies' camp on the mountain. Mr. Roome assisted the young men largely in making the event a great success, contributing a great deal of that which was sold, including lemonade, ice cream and cake. The sum of $35.70 was realized as profit for the camp. From the sale of tickets $19 was received.

Died After Long Illness.

Mrs. Catherine Wolford, aged 77 years, died yesterday morning at 7 o'clock at the home of her nephew, Edward Vielbig, North Plainfield Township, after a long illness. The funeral services will be held tomorrow morning at 10:30 o'clock from St. Mary's church, Stony Hill, and interment will take place in the cemetery adjoining the church.

Lord's Supper Observed.

The Lord's Supper was observed yesterday afternoon at Marconnier chapel, Oak Tree, Rev. Cornelius Schenck, Ph. D., pastor of Trinity Reformed church, officiating. There was a large attendance of members and the service was of special interest owing to the fact that two members were received on confession and one by letter.

Crap Players Tipped off.

A crap game was in progress under one of the sheds along the mill race back of French's mill early last evening. Roundsman Flynn and Patrolman McCarty went to investigate but the players were warned of the approach of the police and fled.

Picnic for Little Ones.

The junior, intermediate and infant departments of Grace M. E. church Sunday-school will enjoy their annual picnic on the mountains tomorrow.

RIVALRY IN CONTEST FOR THE GILBERT CUP

Excellent Golfing Weather Prevailed and There Were Many Players on Hand.

TIE BETWEEN TWO TEAMS

BALL SWEEPSTAKES PLAYED AMONG SOME OF THE MEN.

It Was Special Event, But Was Very Interesting—William Wadsworth Won First Prize—Other Scores.

The usual crowd of golf enthusiasts visited the Hillside Tennis and Golf Club course Saturday afternoon and enjoyed themselves in various competitions. It was an ideal day for the popular game and a strong cool breeze gave the players plenty of ambition while making the circle. There were a number of visitors at the course who who did not play, but they enjoyed watching the others and engaging in the social features at the clubhouse.

The event of the afternoon was the play for the Gilbert cup for mixed foursomes, handicap, competition open to active and associate members, 18 holes, medal play, and this, as usual, excited considerable interest. There was a good entry list, including the best players in the club, and this furnished a keep rivalry. As it was, the winner of the cup was not determined, as there was a tie between Miss Edith Hyde and C. W. Fisk and Miss Edith Tracy and Thomas VanBoskerck, each making a net score of 101. The other scores were close, and good golf was the rule. The scores for the cup competition follow:

	Gross.	Hand.	Net.
Miss Edith Hyde and C. W. Fisk	106	5	101
Miss Edith Tracy and T. R. VanBoskerck	105	4	101
Miss vanHerwerden and H. Wright	104	2	102
Miss Edith VanBoskerck and F. C. Ard	109	5	104
Miss Gertrude Andrews and H. R. Stockton	106	0	106
Miss J. H. Shepard and R. M. Shepard	115	6	109
Miss Waldo and L. H. VanBuren	128	18	110
Miss Helen Talmage and A. B. Fisk	118	3	115
Miss Fleming and W. L. Glenney	122	0	122
Miss Helen Lee and Dudley H. Barrows	137	15	122
Miss Margaret Tracy and H. Tracy	150	18	132

It was arranged after the above competition that the tie should be played off this afternoon, and the result will be watched with great interest by many.

An event of Saturday afternoon not down on the schedule was the ball sweepstakes arranged among some of the men. Each contestant deposited a new ball and the first prize was two-thirds of the number of balls deposited. The second prize was the remaining one-third. Willard Wadsworth, from scratch, won first prize, and H. W. Beebe the second. The scores follow:

	Gross.	Hand.	Net.
Willard Wadsworth	87	0	87
H. W. Beebe	103	15	88
C. Wharton, Jr.	109	18	81
J. W. Baker	95	3	92
George Chapman	115	20	95
Roger F. Murray	111	15	96
Olaf Saugstad	108	6	102

PARK CLUB TEAM WON.

DEFEATED SOMERSET COUNTY COUNTRY CLUB AT GOLF SATURDAY.

Game Was Played in Plainfield—Local Team Victorious by 26 to 0.

The team of the Park Golf Club played its first match Saturday morning with a very successful ending. The team from the Somerset County Country Club, of Finderne, came here and met overwhelming defeat by four Park Club players by a score of 26 to 0.

The visitors were clearly outclassed but they finished game to the last. W. J. R. Thiers and Fred P. Taylor found no trouble, winning from their respective opponents 9 up. Morgan T. Townsend had his opponent 8 up and 3 to go when the local player fell up against hard luck and lost the last three holes.

The score of the match was as follows:

PARK GOLF CLUB.		SOMERSET C. C. CLUB.	
M. T. Townsend	5	Jack Barcalow	0
W. J. R. Thiers	9	H. F. Tompkins	0
Fred P. Taylor	9	H. Swan Hartwell	0
W. de la R. Anderson	3	Alex. Mack	0
	26		0

ALL FOR FOWLER.

Names of Delegates Who Will be Elected at the Republican Primaries This Evening.

The Republican primaries will be held in this city this evening from 8 o'clock to 8:30, to elect delegates to Congressional and State conventions. There will be no contests as only one ticket has been nominated in each ward. The delegates to the Congressional convention at Elizabeth Thursday will support Congressman Charles N. Fowler for renomination.

The nominations in the different wards are as follows: First ward—delegates to State convention, Charles S. Sminck and James F. Buckle; delegates to the Congressional convention, L. V. F. Randolph, William Gloak, S. P. Hill and J. E. Flannery. Second ward—delegates to the State convention, J. B. Dumont and J. E. Keely; delegates to the Congressional convention, Joseph E. Morse, Charles S. Foote, William N. Runyon and George P. Mellick. Third ward—delegates to the State convention, Ernest R. Ackerman and Robert Rushmore; delegates to the Congressional convention, J. W. Murray, Jr., J. Frank Hubbard, J. Smith Garrettson and William C. Kinney. Fourth ward—delegates to the State convention, James Stewart, William Newcorn and Frank H. Smith; delegates to the Congressional convention, Robert L. Lee, John Brown, H. C. Runyon, George Leighs, Frank Marsh and James Morrison.

TROLLEY TO BOYNTON.

Connecting Link of Cross-county Line was Opened Saturday—Big Business Yesterday.

The connecting link in the trolley system, which unites Boynton Beach with the Plainfield-Elizabeth line of the Westfield and Elizabeth Street Railway Company, was opened to the public Saturday afternoon. A special car left the North Avenue station Saturday afternoon at 1 o'clock and went over the line from Westfield to Rahway and thence on through Woodbridge to Boynton Beach. It was necessary to change cars at Picton station. A collation was served at the Beach. Superintendent Adelmann took a party of Westfield and Plainfield citizens over the line. The Boynton Beach line did a big business yesterday.

BICYCLE FRAME COLLAPSED.

Serious Accident to Clifton Brown While Riding at Fast Speed.

Clifton Brown, of this city, who lives in the Babcock building, met with a serious accident while riding along the Springfield road, back of Westfield, Saturday night. He was pedaling at a fast pace when his bicycle frame collapsed, throwing him to the ground and rendering him unconscious. He was picked up and taken to a house nearby and made as comfortable as possible. He was unconscious for two hours. The farmer who picked him up kept him over night, and brought him to this city yesterday. Brown is badly cut and bruised and it will be some time before he is completely recovered.

A Long Trip.

Hartley Mellick, son of Councilman and Mrs. George P. Mellick, of LaGrande avenue, and his cousins, Lawrence L. Tweedy, Mellick Tweedy and Jose Tweedy, who have been attending the High School in this city, sailed Saturday afternoon on one of the steamers of the Mallory Line for Galveston, Texas. From Galveston, they will travel a thousand miles to the north to the Tweedy home where they will spend the summer vacation.

WEEKLY PLAY FOR PARK CLUB TROPHIES

Morgan T. Townsend Held Green Committee Trophy Defeating G. W. Cooley.

WON 7 UP, 6 TO GO.

J. H. SIMPSON LOW MAN IN PRESIDENT'S CUP COMPETITION.

Miss Saidee Mae Howell and Miss Daisy Elsberg Tied for Low Score for Hooley Cup—The Scores Handed in.

The usual weekly competition for the President's and Hooley Cups and the challenge match for the green committee trophy were the events of interest at the course of the Park Golf Saturday afternoon. J. H. Simpson made his first appearance in the contest for the President's cup and, with the aid of a small handicap, had no difficulty in turning in the best net score. The scratch men were also playing in good form.

There were over twenty entries for the day's play for the President's cup but a majority of the competitors failed to make any return to the green committee. Simpson played good golf making the rounds in company with W. J. R. Thiers. Simpson scored a 44 and a 48. Thiers was not at his best. Later in the afternoon when playing not in the tournament, he scored 43 and 44, one of the best ever made on the course.

The "duffers" were not represented among the low men this time, although quite a bunch of them were out on the course. The course, particularly the putting greens, was in a fine condition, and was unusally fast.

The scores turned in for the president's cup were as follows:

	Gross.	Hand.	Net.
J. H. Simpson	92	4	88
Herbert S. Rogers	109	20	89
George T. Rogers	106	15	91
Fred P. Taylor	92	0	92
Morgan T. Townsend	93	0	93
W. J. R. Thiers	99	0	99
Charles E. Faber	129	30	99
Charles A. Reed	121	13	108

There was no change in the leadership for the president's cup, the standing for which is as follows:

Morgan T. Townsend	4½
Meredith Dryden	3
J. H. Simpson	3
Allan B. Laing	3
George T. Rogers	2
William R. Faber	2
Herbert S. Rogers	2
W. de la R. Anderson	1½
Charles A. Reed	1½
Donald A. McGee	1

Morgan T. Townsend had no difficulty in retaining his hold on the green committee challenge trophy for the third time. He easily defeated Gifford W. Cooley, challenger, 7 up and 6 to go. Townsend made his round in 92, while his opponent was considerably more. Cooley was by no means at his best. W. J. R. Thiers will have a chance next week to win back the trophy of which he was the first winner. J. H. Simpson is now a new name on the list of challengers.

Only three cards were turned in for the Hooley cup, ladies' handicap, nine holes, medal play. Miss Saidee Mae Howell and Miss Daisy Elsberg tied for first honors with a score of 68 net. Mrs. J. H. Howell was third.

The scores were:

	Gross.	Hand.	Net.
Miss Saidee Mae Howell	68	0	68
Miss Daisy Elsberg	78	10	68
Mrs. J. H. Howell	89	13	76

Miss Howell still leads for the Hooley cup, the standing for which is as follows:

Miss Saidee Mae Howell	8½
Miss Daisy Elsberg	7½
Miss Laura G. Long	3
Miss Adelaide G. Ball	2
Miss Bessie Vallant	1
Mrs. J. H. Howell	1

SICK ONLY A WEEK.

Frank McVey, a Machinist at Pond's, Died Yesterday Afternoon.

Frank McVey died at his home on Stebbins place yesterday afternoon after a week's illness. He failed very rapidly toward the end. Mr. McVey came to this city from Millstone five years ago. His parents still live there. Two years ago he wedded a young woman from Raritan, and they have since made their home on Stebbins place. He was employed in the machine shop at the Pond Tool Works, and was a member of Central Lodge, A. O. U. W.

The lodge will conduct the funeral services which will be held from his late home tomorrow morning at 8:30 o'clock, and at 9 o'clock from St. Mary's church. Interment will be in St. Peter's cemetery, New Brunwick.

Plenty of Lung Power.

An extra supply of beer gave Robert Hunt's lungs renewed strength and he was busily occupied with them when Patrolman Mattox put him under arrest Saturday afternoon. He was released that evening by Mayor Rockfellow and appeared before City Judge Runyon this morning. Sentence was suspended.

Local News on Pages 2 and 3.

OPENING HOP WAS HELD

SUMMER SOCIAL ACTIVITY AT HOTEL NETHERWOOD INAUGURATED.

First Hop Was Held Saturday Evening—Besides Guests, Plainfield Society Was Present in Good Numbers.

Although the Hotel Netherwood has been open for a week, the summer social season at that pleasant establishment was not inaugurated until Saturday evening when the first formal hop was held. Its entire success and the excellent arrangements at the hotel give every promise of an eminently enjoyable season, both for the guests and for the Plainfield people who will have the opportunity of enjoying the hospitality of Major Coleman at that famous hostelry.

There are already a number of young people stopping at the house and, in addition, a good representation of Plainfield society turned out for the opening event. The music by the regular hotel orchestra was excellent and the floor of the ball room was in fine condition.

Those who did not care to take part in the waltzes and two steps that followed each other at frequent intervals, found the broad piazzas a delightful place on which to spend the evening. The night was a warm one but the light breeze from the west kept the piazzas and ball room pleasantly cool.

The Saturday night hops will be a feature of the summer life at the hotel this season to which the Plainfield folk are cordially invited. There will also be a concert by the orchestra and informal dancing every evening to which all will be welcome.

OFF ITS TROLLEY.

Accident on Westfield and Elizabeth Street Railway Caused a Panic.

Passengers on a Westfield and Elizbeth trolley car which left Plainfield at 10:15 last night, were thrown into a panic as the car was nearing Westfield, by the trolley pole flying off and bounding back on the roof of the car. The car was going so fast that several cross wires were passed, each one throwing the pole down with such force as to dent the roof and knock the light globes out of their places. The occupants of the car made a wild struggle to get out, but fortunately no one was injured. The pole was bent and twisted to such an extent that it could not be used and the passengers were transferred to another car.

Monday Afternoon Club Lectures.

The Monday afternoon Club announce the following lectures for 1900-1901: November 5th, "Relation of Nineteenth Century Literature to the Life of the Times," Rev. Henry VanDyke, D. D., Princeton University; December 17th, "Economics Harmonies and Social Evolution," Mrs. J. N. Finch, New York; February 4th, "Some features of British Rule in India," Prof. A. M. Wheeler, Yale University; March 4th, lecture to be announced; May 20th, illustrated by stereopticon: "Progress in American Book Illustration in the Nineteenth Century," W. Lewis Fraser, New York.

Rival Beaux Quarreled.

"Corky" Goodman and Fred Conroy engaged in a fistic enconnter at the corner of Craig place and Somerset street, Saturday night, during which some strong language passed between the men. It is said that the trouble arose over a certain young woman for whom both had an affection. Chief Campbell arrested both men and locked them up. This morning Goodman was arraigned before Mayor Smalley and was fined $2. Conroy will appear this evening for a hearing.

Endeavorers Were in Charge.

The service at Trinity Reformed church last evening was under the auspices of the Christian Endeavor Society of the church and there was a large attendance of members of the society, who listened to an excellent an able sermon by Dr. A. E. Main, pastor of the Seventh Day Baptist church. There was special music during the service which was inspiring and thoroughly enjoyed.

Broke Electric Light Globes.

Robert Jackson, of Evona avenue, was arrested on complaint of C. F. Bates, of the Bound Brook Electric Light Company, who accused Jackson of breaking electric light globes of the Bound Brook street lamps. Jackson will be tried before a justice at Bound Brook. The offense is a misdemeanor and a fine not over $1,000 or three months imprisonment or both at the discretion of the court.

Mission Work Told of.

Rev. Dr. F. T. Woodbury, secretary of the American Missionary Association, preached in the Congressional church yesterday morning. He told something of the work of the A. M. A. among the Indians, Negroes and Chinese in this country. A special collection was taken for the benefit of the A. M. A.

BOARD OF EDUCATION MAKE AN EXPLANATION

Reasons Why Improved Heating and Ventilating of School Building Is Wanted.

PUPILS HEALTH DEMAND IT.

PRRSENT STEAM BOILER HAS BEEN IN SERVICE EIGHTEEN YEARS.

Liable to Break Down at Any Time—Assurance That Work Will be Done by the Mechanics of North Plainfield.

To the Editor of The Daily Press:—It is the judgment of the Board of Education of North Plainfield, composed of nine representative business and professional men, that a new system of heating and ventilation is urgently required for the twelve rooms in the old part of the Somerset Street School.

Six of the rooms never have been adequately heated, and during the past winter for twenty days the temperature could not be raised to 60 degrees, and during eleven days of that time the classes had to be dismissed, as the temperature was not above 40 degrees. The present steam boiler has been in service eighteen years and is liable to break down completely at any time, and of course is most likely to give out in midwinter when it is necessary to force the fires. To install a new system will require eight or ten weeks, and you will readily see that it should be done now during vacation, as a breakdown during the winter would close the school for some time.

The new building on Mountain avenue and the new part of the Somerset street building are properly ventilated, fresh air being brought in from outside, heated and carried to the rooms, and the foul air taken out. In the twelve rooms mentioned, fresh air can only be admitted by opening the windows, and then it must blow directly upon the backs of the children. The rooms are very much crowded, there being 42 children in rooms intended for 30, and the seats are fastened to the floor. The children cannot move their seats out of the draft, nor can they leave their seats, as there are no others for them. In a private house there are a few persons and when necessary to open a window they can move out of the draft, or a window can be opened in an adjacent room. In a crowded school room this cannot be done, and opening the windows directly upon the children is a source of much discomfort and the cause of many colds.

We propose to place a furnace in the cellar with flues leading to each room, and other flues leading from the room to carry out the foul air. The construction of these flues is a large item of expense and the work will be done by North Plainfield mechanics.

The fresh air is drawn in by a fan, forced over the furnace and through the flues up into the rooms. The main air register is near the floor, and the pressure of the fan causes the foul air to pass out.

The Board has solicited plans and estimates from leading firms accustomed to heating and ventilating schools and other large buildings, believing that through them an efficient and satisfactory system could be obtained. We also asked local firms to bid on the work, but they refused to put in a bid unless the Board would furnish plans. An architect offered to furnish plans and supervise the work for 10 per cent. of the cost, which would be $550 dollars, and would raise the total to more than $6,000.

We have called for $4,500 on the basis of the lowest bid, and carefully investigated the work done by the firm in the schools at Asbury Park, Elizabeth, Short Hills and Passaic, and find that is entirely satisfactory, economical and durable. In the city of Passaic one building has been heated by the apparatus for fourteen years and not one dollar spent for repairs.

Some tax payers, who have no children to send to school, think we should put in a new heater without ventilation. This would be repeating the folly of eighteen years ago in building a school-house with no ventilation. We do not believe that the people of this sprightly, up-to-date borough, who have children to educate, will be satisfied to with any such plan. The last meeting was dominated by those having no children of school age, and many of them pay only a poll tax. Now let the voters having children turn out and see that the school building is properly heated and ventilated. A school-house without heat is of little use in cold weather, and one without ventilation is danger-

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—The Borough Board of Health will meet in regular session next week Monday evening.

—Next Thursday evening Union Lodge, G. U. O. of O. F., will celebrate their fourth anniversary.

—Three trolley cars were run on the Arlington avenue line yesterday to accommodate the traveling public.

—Next week Monday the Common Council will meet in regular session to consider some matters of importance.

—The coolness and comfort which Bamberger, the East Front street tonsorial artist, provides for his patrons is gaining new customers for him every day.

—The American Steam Laundry, H. W. Marshall, proprietor, makes a specialty of the domestic finish. It is becoming very popular. Your laundry is called for and delivered.

—Ladies, clean your kid gloves with LaBelle glove cleaner. It is not a liquid, leaves no odor and can be used while the glove is on the hand. For sale only by Frank Rowley, druggist. tf

—The Ladies' Aid Society of the German Reform church will celebrate their yearly anniversary by holding a strawberry and ice cream festival in the lecture room of the church tomorrow afternoon and evening.

—When you want a first-class drink of soda water, properly drawn, stop at John Powers' drug store on Somerset street. He keeps a very full line of all the fruit syrups, and makes a specialty of delicious ice cream soda.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by L. W. Randolph. Trial bottles free.

PARTICULAR MENTION.

Walter Higgins, of this city, spent yesterday in Rahway with a friend.

Arthur Jeffrey has taken a position with W. D. Thickston, of North avenue.

Miss Emma Gee, of Bayonne, is visiting Plainfield relatives for a short time.

Miss Philpott, of West Front street, is slowly recovering from a tedious illness.

Miss Tillie Schenck, of Elmwood place, spent Sunday with her mother at Metuchen.

Mrs. C. C. Lister, of East Fifth street, has returned from a visit with relatives in Philadelphia.

NO PORT AT MONTAUK.

Austin Corbin's Plan Decided to Be Impracticable.

NEW YORK, June 25.—After making a tour of the Long Island railroad system the management of the Pennsylvania Railroad company has decided to abandon the scheme of Austin Corbin to build huge docks at Fort Pond bay as a port of arrival and departure for fast ocean steamers and thus build up a great business for the Long Island railroad between New York and Montauk point.

A. J. Cassatt, president of the Pennsylvania railroad, and his associates stated that they were quite satisfied with their new acquisition and thought that an enormous suburban business could be built up from New York. But, having inspected Fort Pond bay, the Pennsylvanians came to a unanimous decision that Mr. Corbin's scheme was absolutely impracticable. They said it would cost from $4,000,000 to $5,000,000 to make a suitable harbor at that point and that it would take from 12 to 16 hours to transport freight from Fort Pond bay to New York which could be carried in half that time by ocean steamers from Montauk point. It was contended that the saving in time to European passengers would not amount at the best to more than four hours and that the delays and annoyances attending the transfer at the extreme end of Long Island would more than offset the gain in time.

Peaceful In St. Louis.

ST. LOUIS, June 25.—Cars were run on all the branches of the Transit company's system yesterday without molestation, and thousands of persons rode to and from the parks and other pleasure resorts. Many of the strikers went to Belleville, Ills., and attended a picnic given for their benefit there. This week will see the force of deputy sheriffs on duty reduced to 500 men, who will be kept on guard wherever the necessity exists for their presence. Many of the posse will be discharged outright, but the names of 1,000 men—500 in addition to those retained for active duty—will be kept on the rolls for an emergency. The total number will be called for on July 4, when the discharge of firearms and fireworks may tend to deeds of lawlessness.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today. 10 cts.

ROBERTS REPORTS PROGRESS.

Kruger Will Try to Hold Out Until After American Elections.

LONDON, June 25.—The Transvaal military incidents are summed up officially by Lord Roberts in the following message to the war office, dated Pretoria, Sunday, 11:30 a. m.:

"Buller reached Standerton June 22. He found a good deal of rolling stock. All the Dutch residents had left the town.

"The British prisoners captured since our occupation of Pretoria have been taken to Machadodorp.

"Ian Hamilton occupied Heidelberg Saturday. The enemy fled, pursued by our mounted men six or seven miles. The previous day Broadwood's cavalry had a skirmish with the enemy, dispersing them completely and capturing six.

"Hunter's advance brigade reached Johannesburg, toward Heidelberg, June 22.

"The enemy attacked our post at Honingspruit, and before re-enforcements arrived from Kroonstadt they had burned three culverts. These had all been repaired by this afternoon."

A dispatch from Cape Town, dated yesterday, says:

"The British casualties at Honingspruit were 37 killed and wounded."

Sir Redvers Buller, in a dispatch to the war office, says that among the prisoners taken to Machadodorp are Lords Antrim and Ennismore, both of whom are in good health. Lord Longford was left at Reitz severely wounded.

The force now available to President Kruger is officially estimated at from 15,000 to 20,000. The Standerton correspondents assert that his sole idea is to hold out until after the American presidential election.

Mr. Kruger is reported to have issued a proclamation on June 17 announcing that the Russians had declared war upon the Japanese and that Great Britain must help Japan.

Lord Roberts and Commandant General Louis Botha are still exchanging letters.

Two hundred rebels have surrendered to General Warren at Blikfontein.

The communications of Senekal with Winberg, the nearest supply point, have been temporarily interrupted. General Clements is at Senekal. A convoy seeking to reach him Friday was driven back.

Woman Leads Ashanti Rebellion.

LONDON, June 25.—A dispatch to The Daily Express from Prahsu, dated Saturday, says: "The brain and inspiration of the Ashanti rebellion is the aged queen of Ofesu. Although old, she is full of physical energy. She carries a gun herself and personally leads 1,000 picked hunters. Her principal confederate is the old, blind, crafty king of the Adansis. Cobina Foli, heir to the Adansi stool, is a prisoner of the British. He professes loyalty. The revolt, he says, has been simmering for a year. All the tribes except the Dekwais, according to his account, object to paying British taxes. He says the golden stool is made of wood covered with thin gold plates."

Porto Rican Trade.

WASHINGTON, June 25.—Division of customs and insular affairs, war department, has made public a summary of its regular monthly bulletin concerning the trade of Porto Rico for the nine months ended March 31, 1900. Merchandise to the value of $7,879,208 was imported into Porto Rico, of which $2,579,802 worth was admitted free of duty. This latter amount included dutiable articles to the value of $301,271, mainly relief supplies from the United States. The total exportation from the island amounted to $3,729,923. The amount of export duty collected was $469.

Entomologists Meet.

NEW YORK, June 25.—Members of the American Association For the Advancement of Science passed a very quiet day Sunday. Several members of the entomological section, with their microscopes, explored the wilds of Central park for their favorite insects. Many delegates have arrived to attend the opening of the session at Columbia university. Among the arrivals are Dr. George Dawson, head of the geological survey of Canada, and Dr. James Fletcher, well known in Canada as an entomologist.

Horses and Hares From England.

NEW YORK, June 25.—The Atlantic transport liner Minneapolis, from London, brought in 139 Percheron stallions and 92 English hares. The stallions which were bred in Normandy, France represent an investment of $178,000. They are gentle, black and brown fellows and were in charge of H. E. Melvin of Wayne, Ills. The hares, yellow gaunt and quiet, are imported for the purpose of introducing this English game into the far western states. They are consigned to Oklahoma and Los Angeles.

Miners Narrowly Escape Drowning.

BELLEVILLE, Ills., June 25.—While miners were blasting in the Oak Hill coal mine they made an excavation into an abandoned mine which was filled with water. The water poured into the Oak Hill pits with great force, flooding and completely wrecking the mine. Fifty workmen in the mines had a narrow escape from death, being rescued by the heroic work of the mine engineer.

Floods In Illinois.

CARBONDALE, Ills., June 25.—The heavy rains of the past two days are responsible for the flooding of the streets of Mill Creek, on the line of the Mobile and Ohio railroad. A majority of the dwellings along the line of the railroad are submerged above the first floors, and traffic on the railroad was stopped for a time. The water is subsiding. An immense amount of damage has been done to growing crops.

Conferred With Bryan.

CHICAGO, June 25.—William J. Bryan, before leaving Chicago last night held a conference with William R. Hearst of New York, Sam B. Cook, candidate for secretary of state of Missouri and J. G. Johnson, chairman of the Democratic national executive committee. After the conference Mr. Bryan refused to be interviewed.

To Wed This Week.

LONDON, June 25.—It is understood that the marriage of Lady Randolph Churchill to Lieutenant George Cornwallis West of the Scots guards will take place quietly in London Wednesday.

General Wheeler In Chicago.

CHICAGO, June 25.—Brigadier General Wheeler, who is to assume command of the lakes, arrived last evening. His two daughters are with him.

WHAT CUT do you like? We have a full line of choice BEEF, MUTTON, SPRING LAMB, Veal and Pork. You can get any cut desired here. All our meats are carefully selected. We use the utmost care in keeping our store and counters clean. Meat from a clean shop tastes better.

When we offer Spring Lamb it is Spring Lamb and not mutton.

Our prices are not as high as the quality deserves.

BRIDGE WORK
in Dentistry is the best substitute for nature's work that can be done. Sound roots may be built up and crowned and thus fill up an unsightly space. It has to be made of a material that has strength and durability and one that will not discolor. Gold is the one that stands the test. That is the secret of the expense. But the advantages of a bridge over a plate are many times more than the cost of one compared to that of the other.

Full Set (guaranteed)	$8

KILLED IN AMBUSH.

American Blood Shed on Chinese Soil.

ADMIRAL REMEY ORDERED TO TAKU.

Will Take the Cruiser Brooklyn From Manila at Once—Grave Fears Entertained For the Safety of Waller's Force.

WASHINGTON, June 25.—The navy department has issued the following bulletin:

"A telegram from Admiral Kempff, dated Chefu, June 24, says:

"'In ambuscade near Tien-tsin on the 21st four of Waller's command killed and seven wounded. Names will be furnished as soon as received. Force of 2,000 going to relieve Tien-tsin today.'"

Admiral Kempff's dispatch, giving the first definite news of the shedding of American blood on Chinese soil, came yesterday and was turned over to Secretary Long as soon as he arrived at the department. With Admiral Crowninshield the secretary carried the dispatch to the White House, where, on the president's return from church, it was laid before him. The determination thereupon was reached to order Admiral Remey, in command of the Asiatic squadron, from Manila to Taku on board the armored cruiser Brooklyn. The secretary and Admiral Crowninshield returned to the navy department, where the necessary orders were dispatched to Admiral Remey.

The effect of this transfer is to make Taku the headquarters of the Asiatic squadron. The Brooklyn is expected to sail at once, as the orders sent contemplate getting the admiral on the scene at the earliest moment. The advantage of this, it was officially stated, is not so much in adding the strength of the Brooklyn to the fleet already there, as the fleet is considered by Secretary Long to be quite adequate, as it is in allowing the authorities here to deal directly with the situation in China instead of through the circuitous communications by way of Manila.

If the Brooklyn starts as expected, it will take her fully a week to reach Taku, as the trip is 2,000 miles and typhoons are raging. The determination to carry some of General MacArthur's troops on a flagship shows the emergency of the situation. The troops are believed to be ready to move, but some delay may be caused in getting on board sufficient supplies for a large body of men for a week.

Admiral Kempff's report that four Americans were killed and seven wounded in the ambuscade of Waller's force caused the gravest concern among officials, but the chief fear was as to the outcome of the second attack which the admiral reported began yesterday. This is little short of the dimensions of a battle, and its results may be decisive not only to the immediate force employed, but in determining the fate of the legations and foreign settlements at Tientsin and also whether the issue is or is not to be war with China.

Word reached the navy department that the battleship Oregon got away from Hongkong Saturday night, bound for Taku. This is two days ahead of her expected start. She took on 164 sailors and marines brought to Hongkong by the Zafiro. The big ship may now have a chance to repeat her celebrated performance "around the Horn," as she is being crowded for a fast run to the scene of action. The distance is about 1,500 miles, and if she makes her record time she will be at Taku in six days, about the same time that the Brooklyn arrives from Manila. These ships and the Monadnock are the only ones going to China.

The war branch of the government is preparing for any eventuality that may arise out of the Chinese situation. As stated by one of the highest officers of the army, the scale of preparation is of a magnitude which would bosh interest and surprise the public. But, he added, the information would be of even greater interest and service to any foreign foe which the United States may be called upon to face within the next few weeks or months, and for that reason there is no purpose to make public the complete preparations making to meet whatever issue arises. All that the officials will say is that both the army and the navy if the occasion arises will give a good account of themselves.

While the Berlin reports as to the safety of Baron Ketteler and the legations at Peking appear to dispose of one of the most alarming stories of the crisis, Minister Conger at Peking is still cut off from communication here, and there is no direct and official assurance of the safety of the ministers and legations, nor is there a word of the relief force, including the Americans, which sought to break through to Peking.

Secretary Long has returned from an outing at Hingham, Mass., and resumed charge of affairs, relieving Assistant Secretary Hackett. The secretary looks greatly refreshed. About the first news that reached him on his arrival was the fighting and bloodshed of the American forces near Tien-tsin.

ALLIED FORCES IN PERIL.

Attempt to Relieve Tien-tsin Repulsed With Loss.

LONDON, June 25.—The position of the international forces in the section of northern China where 10,000 men are striving to keep a footing and to succor the legations in Peking appears to increase in peril with every fresh dispatch. Peking has not been heard from direct for 14 days. The last dispatch was one imploring aid. Admiral Seymour's column of 2,000 was last heard from 12 days ago. At that time it was surrounded midway between Peking and Tientsin. Possibly now it has reached Peking.

The 3,000 internationals at Tien-tsin were hard pressed and fighting for their lives on Thursday, and a relieving force of less than a thousand had been beaten back to Taku Friday. Observers on the spot think that 100,000 men would not be too many to grasp China firmly.

The admiralty has received the following from the British rear admiral at Taku:

"Only one runner has got through from Tien-tsin to Chefu for five days. No information could be obtained except that the foreign settlement had been almost entirely destroyed and that our people were fighting hard.

"News is received as this telegram is dispatched that an attempt to relieve Tien-tsin on June 22 was repulsed with some loss."

The telegram also said:

"The allied admirals are working in perfect accord, with the Russian vice admiral as senior officer."

A press message from Shanghai, dated yesterday at 4 p. m., embodies some later information. It says:

"Official Japanese telegrams confirm the reports of a defeat of the allied forces at Tien-tsin. The foreigners there are now placed in a most desperate situation. The Russian Admiral Hillebrandt yesterday sent a mixed force of 4,000 from Taku to attempt the relief of Tien-tsin. Nearly half of the force consisted of Japanese. The remainder was made up of contingents representing the other nations.

"The guns of the Chinese around Tien-tsin are superior to anything the defending European force has or is likely to have for some time.

"The bombardment of Tien-tsin continued Friday. Bomb shelters were hastily erected by the foreign troops, largely constructed of wetted piece goods. The food supplies are insufficient, and the continued shelling is reported to be telling terribly.

"Among those killed of the relief force Friday was the commander of H. M. S. Barfleur. The foreign casualties were 300.

"Japan is making every effort. Her troops are now arriving at Taku in large numbers. The Chinese troops in the province of Chili include 60,000 auxiliaries who have been drilled by Russian and German officers."

Captain Beatty and Lieutenant Wright, British, have been severely wounded at Tien-tsin, according to a Shanghai dispatch to The Daily Express, dated Saturday. The information was brought there by the British cruiser Orlando from Chefu. The losses of the Russians have been heavy.

It was reported from Shanghai last evening that the allied forces had blown up the Taku forts and that every available man had been sent to the relief of Tien-tsin. Two thousand three hundred Chinese bodies are alleged to have been cremated at Taku, and upward of 4,000 Chinese are said to have been killed at Tien-tsin.

Chinese runners who have arrived at Taku report that a foreign force was engaged several days ago with an overwhelming body of Chinese 40 miles west of Tien-tsin. At Shanghai it is assumed that this force was Admiral Seymour's.

The Shanghai correspondent of The Daily Express says:

"I learn from a mandarin who stealthily left Peking on June 16 and who succeeded at great hazard in getting clear that the Boxers are massed around Peking and that more than half of the northern and western portions of the city, including the foreign settlement, were aflame when the mandarin left. He could tell me nothing as to the fate of the foreigners nor much as to the general situation, but he had heard that the empress dowager was preparing to go to the province of Shansi."

A Chefu dispatch to The Daily Mail, dated yesterday, says:

"The attack on the Tien-tsin relief force was made by 20,000 Chinese, using machine guns and modern field pieces. The allies were wise in retreating. Forwarding detachments in this manner is suicidal, and the defeats of the foreigners, even though in small force, greatly aids the movement of the Boxers, which is gaining enormously through the inability of the foreigners to make headway against it.

"Practically the whole of northern China is ablaze. Hostilities are now conducted on an extended scale, due to direct orders from Peking. General Yann Shi Kai, governor of Shangtung, commands 11,000 foreign drilled troops, organized to a high pitch of excellence and equipped with Mausers. It was in the plans that these troops should go to Taku, but the seizure of the forts was effected before they could get there."

The Shanghai correspondent of The Times says:

"Sheng, director of telegraphs, declares that information was received today (Friday, June 22) to the effect that the foreigners in Peking were safe on Wednesday, June 20, but that all the legations had been burned except the British, Austrian and Belgian."

Towne May Withdraw.

AUSTIN, Tex., June 25.—Charles A. Towne, the Populist nominee for vice president, has written a letter to Major George A. Walton of this city in which he gives the inference that if he is not the choice of the Democratic party for vice president he will withdraw. Mr. Towne in his letter says, "My friends know that no personal consideration would influence me to stand in the way of success of the party for which we are contending."

Four Lost In Mine Explosion.

CHAMPION, Mich., June 25.—Four men lost their lives in the Champion mine explosion Saturday evening. It was previously reported that but one life was lost. Of five men at the bottom of the shaft but one escaped by climbing the air hose to pure air. Gases and smoke asphyxiated the victims. The cause of the explosion was probably the sparks from a miner's pipe.

American Preachers In Edinburgh.

EDINBURGH, June 25.—Many of the pulpits of the city churches were filled yesterday by American delegates to the World's Women's Christian Temperance union. Rev. Charles M. Sheldon of Topeka was the principal speaker at the afternoon meeting of the congress, and he delivered a formal address at the mass meeting in the evening, when Mrs. Barnes presided.

New Cabinet Approved.

ROME, June 25.—King Humbert has signified his approval of the list of ministers submitted by Signor Saracco with the exception that the portfolio of finance will go to Signor Bruno Chimirri. The ministry took the oath of office today. The government's candidate for the presidency of the chamber of deputies is Signor Tomasso Villa, the distinguished advocate.

Ocean Grove Opened.

NEW YORK, June 25.—The summer services at Ocean Grove, N. J., for the season of 1900 opened yesterday with an unusually large attendance. Rev. C. H. Yatman, who has just returned from an evangelistic trip around the world, presided at the young folks' meeting, and Bishop Andrews of New York preached the sermon.

Mrs. A. B. Gardiner Dead.

NEW YORK, June 25.—Mrs. Mary Austen Gardiner, wife of District Attorney Asa Bird Gardiner, died suddenly at Garden City, N. Y. She was stricken while in her greenhouse on Saturday evening and never regained consciousness. She was born in Baltimore Dec. 9, 1841.

DEATH IN A WASHOUT

Thirty-five Lives Lost In a Railway Disaster.

PASSENGERS BURNED IN CARS.

Wreck Near McDonough, Ga., Caused by a Cloudburst Which Carried Away the Roadbed—Only One Car Saved.

ATLANTA, June 25.—A passenger train on the Macon branch of the Southern railway ran into a washout a mile and a half north of McDonough, Ga., and was completely wrecked. The wreck caught fire, and the entire train with the exception of the sleeper was destroyed. Every person on the train except the occupants of the Pullman car perished. Not a member of the train crew escaped. Thirty-five people in all were killed.

The train left Macon at 7:10 p. m. and was due in Atlanta at 9:45. McDonough was reached on time. At this point connection is made for Columbus, Ga., and here every night the Columbus train is coupled and hauled through to Atlanta. This time, however, for the first time in many months, the Columbus train was reported two hours late on account of a washout on that branch, and the Macon train started on to Atlanta without its Columbus connection.

Tremendous rains of daily occurrence for the past two weeks have swollen all streams in this part of the south, and several washouts have been reported on the different roads.

Camps creek, which runs into the Ocmulgee, was over its banks, and its waters had spread to all the lowlands through which it runs. About a mile and a half north of McDonough the creek comes somewhat near the Southern's tracks and, running alongside it for some distance, finally passes away under the road by a heavy stone culvert. A cloudburst broke over that section of the country about 6 o'clock in the evening and presumably shortly after dark washed out a section of track nearly 100 feet in length. Into this the swiftly moving train plunged. The storm was still raging, and all the car windows were closed.

The passengers, secure as they thought and sheltered comfortably from the inclement weather, went to death without an instant's warning. The train, consisting of a baggage car, second class coach, first class coach and a Pullman sleeper, was knocked into kindling wood by the fall. The wreck caught fire a few minutes after the fall, and all the coaches were burned except the Pullman car.

Every person on the train except the occupants of the Pullman car perished in the disaster.

There was no escape, as the heavy Pullman car weighted down the others, and the few alive in the sleeper were unable to render assistance to their fellow passengers.

For a brief time there was silence. Then the occupants of the Pullman car recovered from the bewilderment and after hard work managed to get out of their car and found themselves on the track in the pouring rain. The extent of the catastrophe was quickly apparent. Flames were already seen coming from that part of the wreckage not covered by the water. As the wreck began to go to pieces under the destructive work of both flames and flood human bodies floated out from the mass and were carried down stream by the swift current. The storm did not abate in fury. Flashes of lightning added to the steady glow of the burning train and lit up the scene with fearful distinctness.

Flagman Quinlan, who was one of the first to get out, at once started for the nearest telegraph station. Making his way as rapidly as possible in the face of the blinding storm, he stumbled into the telegraph office at McDonough and after telling the operator of the wreck fell fainting to the floor. Word was quickly sent to both Atlanta and Macon but no assistance was to be had except in the latter city, as the interrupted track prevented the arrival of any train from Macon.

Nearly the entire male population of McDonough went to the scene to render assistance, but little could be done by the rescuers, as the fire kept them at a distance. At daylight the bodies that had floated from the gorge were gathered up. One body was found a mile from the wreck, and many were seen along its banks.

Six Killed In Railway Collision.

GREEN BAY, Wis., June 25.—A north bound passenger train on the Chicago and Northwestern road loaded with excursionists bound for the saengerfest in this city collided at 10:15 o'clock yesterday morning with a freight train at Denser, five miles south of here. Six persons were killed, one is missing, and 35 were injured. The accident happened just as the passenger train was pulling into the station. A double header freight was backing into a side track to let the passenger by, but had not cleared the main track. Those injured were nearly all in the second coach.

The Porte Again Reminded.

CONSTANTINOPLE, June 25.—Mr. Lloyd C. Griscom, United States charge d'affaires, has presented a fresh note to the Ottoman government insisting upon an immediate reply to the demand of the United States for a settlement of the indemnity in connection with the losses of Americans at the time of the Armenian massacres. Although vigorously phrased, the note is not an ultimatum. It is said, however, to have been a disagreeable surprise to the porte, testifying as it does to the intention of the United States government to pursue this matter of indemnity to the end.

To Move a Monastery.

WASHINGTON, June 25.—It is learned at the Franciscan monastery here that a special meeting of all the provincials of that ancient order in the United States will be held today at Cleveland, when the question of moving the Denver monastery to a point nearer the "Mother House" in this country (Paterson, N. J.) will be definitely settled. Although the Franciscans of Colorado will thus be changed to other quarters, they will get full indemnity in houses and lands wherever they are sent.

Tin Plate Works Resume.

JOLIET, Ills., June 25.—The Great Western Tin Plate works here resumed work today after a short period of idleness caused by trouble with the employees. Matters have been adjusted and 225 men returned to work. The scale runs out July 1 and mills will probably close for a short time pending the signing of a new scale.

SHERIFF'S SALE—In Chancery of New Jersey. Between William H. Codington, complainant, and Sarah Ettinger et als., defendants. Fi. fa. for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the Court House, in the city of Elizabeth, N. J., on

WEDNESDAY, THE ELEVENTH DAY OF JULY, A. D., 1900.

at 2 o'clock in the afternoon of said day, all that tract or parcel of land and premises, hereinafter particularly described, situate, lying and being in the city of Plainfield, in the county of Union and State of New Jersey:

The First Tract—Beginning at a spike in the centre line Fourth street, and is a corner of Schnirderwind's land; thence along his line north fifty-one degrees and fifty-three minutes west seventy-five and six-tenths feet to a point in line of Central New Jersey Land Improvement Company's land; thence along their land south fifty-six degrees and fifty-four minutes west parallel with the right of way of the Central R. R. of New Jersey fifty-nine feet to a point in Peter Longbine's land; thence along his line south fifty-one degrees and thirty minutes east ninety-five feet to a spike in the aforesaid centre line of Fourth street; thence along said centre line of Fourth street north thirty-seven degrees fifty-nine minutes east fifty-six and one-tenth feet to a spike and place of beginning.

Being the same premises conveyed by George M. Stiles, sheriff, and etc., to the said Kate Ettinger by deed bearing date October 25, 18-6.

The Second—Beginning at the southerly corner of a tract of land conveyed by Frederic Auguste Jacot to the Central New Jersey Land Improvement Company by deed dated June 1, 1856; thence northeasterly parallel with the centre line of Central Railroad of New Jersey, as flied, fifty-nine feet (59), more or less, to a boundary line of said, the Central New Jersey Land Improvement Company; thence northwesterly in said boundary line one hundred and twenty-three feet (123), more or less, to another boundary line of said, the Central New Jersey Land and Improvement Company; thence southwesterly along said last mentioned boundary line fifty-six and one-tenth (56 1-10) feet to a corner; thence southeasterly along the southwesterly boundery line of the tract of land conveyed as above one hundred and six (106) feet more or less, to the place of beginning.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mrs. E. D. Moffett, of Orchard place, is visiting relatives in Trenton.

Miss Morris, of Stelton, has been visiting Plainfield relatives for a time.

Miss Woods, of Pluckamin, has been visiting Plainfield relatives for a time.

John Utzinger, of Grandview avenue, is spending his vacation at Freehold.

Rev. E E Jackson, of Liberty street, has about recovered from a recent illness.

Mrs. Oscar Woolley, of Manning avenue, is visiting relatives in Bayonne.

Mrs. Magadalen VanArsdale, of Pluckamin, is visiting relatives in Plainfield.

Mrs. C. J. Brandigee, of Park avenue, has gone to Point Pleasant for the summer.

Mrs. Bender, of Watchung avenue, is greatly improved from her recent serious illness.

Wm. D. Thickstun and family, of Central avenue, have gone to Belmar for the summer.

Proprietor Webb, of the North Plainfield Review, has been on the sick list for several days.

Charles Wakefield, of Somerset place, has taken a position with H. A. Weber, of Liberty street.

Louis Randolph, formerly of this city, but recently of Newark, has returned to Plainfield to live.

Mrs. C. A. Baynon, of LaGrande avenue, has left for Clinfton Springs, N. Y., to remain for a month.

D. H. Pound, of Clinton avenue, has returned from Philadelphia, where he has been spending a few days.

Charles J. Baxter, state superintendent of schools, and family, will spend the summer at Wilton, Me.

John O'Brien, of East Third street, has returned to his former home at High Bridge on account of illness.

Miss Margaret McCutchen, of Washington Park, a student at Smith College, has returned to her home for the summer vacation.

The friends of Clyde Doane, of LaGrande avenue, will be pleased to learn that he has about recovered from his recent serious illness.

Miss Annie Ryan, of East Third street, and Miss Frances Hillman, of West Seventh street, are home for the summer vacation from a seminary at Madison.

The marriage of Miss Maude Eleanor VanDyke, of East Front street, and Wm. Bauer, of Somerville, will take place next Wednesday evening at the home of the bride's parents.

Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility, but "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at L. W. Randolph's drug store.

Manufacturer Burned to Death.

PHILADELPHIA, June 25.—Harry Miller, a member of the firm of Davis & Miller, manufacturers of combs, was burned to death yesterday in the firm's factory at 821 Cherry street. Miller was working with some chemicals in a room when an explosion resulted. The apartment was a mass of flames almost instantly, and before Miller could escape from the place he was burned to death. The financial loss will amount to several thousand dolars.

Cuban Teachers Start For Boston.

SANTIAGO, Cuba, June 25.—The transport McPherson left Santiago yesterday carrying 125 Cuban teachers bound for Boston to take advantage of the summer school educational facilities offered by Harvard university. Nearly all of the teachers are young women. Some parents declined to allow their daughters to go, but hundreds of applications had to be refused.

Cyclone In Cologne.

BERLIN, June 25.—Cologne was visited yesterday by a cyclone which demolished many buildings and threw down a number of factory chimneys. Several persons were badly injured.

Bursting Boiler Kills Two.

WILLIAMSBURG, Ky., June 25.—By the explosion of a steam boiler in a grist mill here Riley Broiles, the owner, and his daughter Carrie, aged 15, were killed.

CONDENSED NEWS.

A tornado did great damage in Beaver county, O. T.

Grasshoppers are destroying the crops in northwestern Iowa.

Heavy and continued rains have caused great damage to crops in Georgia.

George Lakin, 19 years old, died in Baltimore from the effects of a blow from a baseball.

Stroke Higginson of the Harvard varsity eight broke his leg while playing ball at New London, Conn.

The naval board of construction has decided in favor of superimposed turrets for three new battleships.

COPYRIGHT 1900 BY THE PROCTER & GAMBLE CO. CINCINNATI

WITHIN REACH.

BECAUSE of its low price Ivory Soap is within the reach of all. Besides its low cost it has the advantage that it is entirely satisfactory for so many varied uses; it will do the work of a half dozen kinds of soap each intended for a special purpose.

IVORY SOAP IS 99 44/100 PER CENT. PURE.

Maniac's Bloody Deeds.

CEDAR RAPIDS, Ia., June 25.—Charles Mefford, 27 years old, became insane Saturday night and escaped from his home. Yesterday he plunged through a window at the home of James Fitzsimmons and, armed with an ax, split open Fitzsimmons' head and seriously injured Mrs. Fitzsimmons and her daughter Kate. Joseph Drake, a neighbor, who came to their assistance, was struck over the head three times and probably fatally injured. Mefford then fled. After running several blocks he fired a bullet through his left breast below the heart and as the police came upon him sat down on the curb and put a second bullet through his head, dropping dead.

Croker Comes Home.

NEW YORK, June 25.—Richard Croker said to an interviewer that if Mayor Van Wyck has been guilty of any official wrongdoing in connection with 60 cent ice he would guarantee that he would be removed. The Tammany chieftain arrived from Europe on the Cunarder Lucania with two of his sons, Frank and Herbert. His third son, Richard, boarded the Lucania at quarantine from Health Officer Doty's boat. Mr. Croker has been away since January, when he left on the Kaiser Wilhelm der Grosse. He laughingly said on the way up the bay, "I never felt better than now, nor have I ever been quite so stout."

Important Publishing Contract.

CHICAGO, June 25.—What is said to be the most important contract of the kind ever made in the west has been executed here. By its terms a local publishing company secures for five years the exclusive right of publishing joint productions of L. Frankbaum and W. W. Denslow, respectively author and illustrator of "Father Goose—His Book" and "The Wonderful Wizard of Oz." Messrs. Baum and Denslow are to produce at least one book a year, and it is said that they are guaranteed royalties of $10,000 each.

Hamburg Liner In a Crash at Sea.

NEW YORK, June 25.—Her bows were stove in, her plates buckled and bent and her forepeak filled with water when the British tramp steamer Puritan, from Leith, the seaport of Edinburgh, came into this port. When 1,200 miles east of New York, on the morning of June 17, she was in collision with the Hamburg-American liner Arcadia, from Philadelphia for Hamburg, and that the Puritan was not sunk with all on board is due only to the fact that she was in ballast, with no cargo in her holds.

Light Sentence For Roberts.

SALT LAKE CITY, June 25.—In the case of B. H. Roberts, found guilty of unlawful cohabitation, the judgment of the court was that he pay a fine of $150 or in lieu thereof that he be imprisoned in the county jail for a period of 150 days. A 30 days' stay was granted in order that the defendant might file a bill of exception.

After Japanese Oil.

YOKOHAMA, via Victoria, B. C., June 25.—American enterprise is manifesting itself in the exploitation of the Japanese petroleum fields. Two experts from the Standard Oil company have made a favorable report on a field in Echigo province, upon which trial workings will shortly be made.

Harrison For Vice President.

LITTLE ROCK, June 25.—Chairman Carroll Armstrong of the Democratic state central committee was asked who, in his opinion, was the strongest man to place on the ticket with Mr. Bryan. He replied by saying that "Mayor Carter Harrison of Chicago was by long odds the one to nominate for vice president."

Hot In Pittsburg.

PITTSBURG, June 25.—According to the government reports Pittsburg was the hottest spot in the United States yesterday. The maximum point was reached about 5 p. m., when 94 degrees was registered. This was the highest record made this year at this point.

Aged Railroad Conductor Dead.

ST. PAUL, June 25.—Henry Finehout, aged 81, believed to have been the oldest railroad conductor in the world, is dead at his home here. His railroad service extended over a period of 60 years, and he never had an accident.

Weather Probabilities.

Showers and cooler; brisk southerly winds.

PLANNING FOR PEACE

General MacArthur Gives Filipinos Large Assurances.

NO BEARING ARMS NOR JURY TRIAL

Expulsion of Friars to Be Left to the Commission—Nine Americans Killed on the Island of Mindanao.

MANILA, June 25.—General MacArthur has given a formal answer to the Filipino leaders who last Thursday submitted to him peace proposals that had been approved earlier in the day by a meeting of representative insurgents. In his reply he assured them that all personal rights under the United States constitution excepting trial by jury and the right to bear arms would be guaranteed them.

The promoters of the peace movement are now engaged in reconstructing the draft of seven clauses submitted to General MacArthur in such a way as to render it acceptable to both sides.

The seventh clause, providing for the expulsion of the friars, General MacArthur rejected on the ground that the settlement of this question rests with the commission headed by Judge Taft.

Reports have reached Manila of troubles in the island of Samar, whence reenforcements, a battalion of the Twenty-ninth regiment and a battery of artillery, have been dispatched. It is believed in army circles at Zamboanga that the Pettit court martial will result in the colonel's acquittal. The United States cruiser New Orleans has sailed from here, and it is supposed she is on her way to China. It is reported that the United States armored cruiser Brooklyn will proceed to China shortly.

A detachment of the Fortieth regiment, under Captain Thomas Miller, left Cagayan de Misamis, island of Mindanao, scouting, June 13. During the morning of June 14 they encountered a strongly ambushed and intrenched force of the enemy. The Americans' attempts to charge were frustrated by the Filipinos' pitfalls and traps. The advance line consequently was under a heavy fire in front and on its flanks and fell back on Cagayan. The American loss was nine men killed and two officers and ten men wounded.

Rival Suitors Kill Sweetheart.

BEDFORD, Ind., June 25.—Albert Roberts and Oscar Jeans have been rival suitors of Miss Jennie Russell. While Roberts and Miss Russell were out driving they met Jeans, and a pistol duel between the two men followed. Miss Russell leaped from the buggy and rushed between them, but they continued shooting, and the girl was fatally wounded, it is alleged, from one of Roberts' shots. Roberts grabbed the girl in one arm as she fell and continued firing with the other. Miss Russell died in a few hours at her home, Roberts remaining at her bedside even after death. He is now almost insane. Jeans escaped, and warrants are out for his arrest. All the persons concerned are prominently connected.

Steamer Sinks a Schooner.

NORFOLK, June 25.—When the steamship Hamilton of the Old Dominion line, Captain Doaz, bound from New York to Norfolk, reached this port yesterday afternoon Doaz reported that as the Hamilton was about two miles from Northeast End lightship, off the Delaware coast, about 11 o'clock Saturday night she suddenly and without warning crashed into the fishing schooner John H. Ker, Captain Redmond, of New York, sending her to the bottom of the ocean, but not until all hands had been rescued. There was a thick fog prevailing at the time, and the schooner was under full sail, while the Hamilton was running at about eight or ten knots under reduced speed.

Merry-go-round Boiler Explodes.

GREENWICH, Conn., June 25.—By the explosion of the boiler of a merry-go-round at Edwards Grove, Rye Beach, on the sound, late yesterday afternoon L. Nelson, Charles Hallett and John Wood are in the Port Chester hospital in a badly burned and bruised condition, and the last named is not expected to live. Wood was the engineer and is 19 years of age and belongs in Winsted. Nelson and Hallett are New York men and conducted the affair. John Ward of Rye, who was in close proximity to the boiler when it exploded, was badly scalded.
